## ~A\$266m fully underwritten placement to fortify balance sheet

Liontown Resources Limited (ASX:LTR) (“**Liontown**” or the “**Company**”) is pleased to announce the launch of a fully underwritten institutional placement to raise ~A\$266m at an issue price of A\$0.73 per share (“**Offer Price**”) (together, the “**Placement**”). In addition, Liontown will invite existing eligible shareholders to participate in a non-underwritten Share Purchase Plan (“**SPP**”) to raise up to a further A\$20m (before costs) at the same price as the Placement (together the “**Capital Raising**” or “**Offer**”). Liontown reserves the right to accept oversubscriptions by way of a non-underwritten conditional placement. Proceeds from the Capital Raising will be used to fortify Liontown’s balance sheet, provide a prudent liquidity buffer during a period of lower prices, support the ramp up and underground transition of the Kathleen Valley Lithium Operation (“**Kathleen Valley**” or the “**Operation**”) and fund general corporate purposes and transaction costs.

### Highlights

- A fully underwritten Placement of approximately 364.4 million shares (“**New Shares**”) priced at A\$0.73 per share to raise ~A\$266 million (before costs), resulting in a pro forma cash balance of ~A\$422m<sup>1</sup> (before costs)
- National Reconstruction Fund Corporation (“**NRFC**”) investing A\$50m in Liontown as part of the Placement
- Opportunity for existing eligible shareholders to participate via a non-underwritten Share Purchase Plan to raise up to a further A\$20m
- All members of Liontown’s Board of Directors intend to participate in the SPP
- Capital raising fortifies Liontown’s balance sheet and has been sized to ensure resilience across a range of lithium price environments
- Optimises positioning of Liontown to capitalise on a recovery in lithium prices and growth opportunities
- Unlocks flexibility for Liontown to pursue low-cost, high return opportunities to maximise value

### Use of Funds

Proceeds of the Capital Raising, in conjunction with existing cash on hand will provide Liontown:

#### 1. Fortified balanced sheet with pro forma cash balance of ~A\$422m

- Reinforced balance sheet optimises positioning of Liontown to capitalise on a recovery in lithium prices;
- As planned, balance sheet to commence deleveraging imminently. First repayment of Ford facility expected in September 2025; and
- Liontown has the ability for early repayment of its debt in the event of a price recovery and surplus cash generation.

## 2. Prudent liquidity buffer underpins resilience

- Equity raising has been sized to underpin a resilient balance sheet in a range of lithium price environments;
- Liquidity buffer to support ramp-up of Kathleen Valley and general corporate purposes; and
- Retain optionality to access up to an additional A\$100m of indebtedness.

## 3. Relentless focus on cost and capital efficiency

- As part of the cost optimisation program, work is ongoing to identify opportunities to embed further savings and deferrals in FY26 and beyond; and
- Strengthened balance sheet and liquidity unlocks flexibility to pursue low-cost, high return opportunities to maximise value.
