

ASX RELEASE | CLEARVUE TECHNOLOGIES LIMITED | (ASX:CPV | OTCQX:CVUEF)

ClearVue Projects Update

ClearVue announces project updates on significant solar façade initiatives across Australia and Nigeria.

HIGHLIGHTS:

- **Projects Progress:** ClearVue is delivering product for installation at several projects.
- **Installations Occurring:** ClearVue solar façade solutions are currently being installed.
- **Global Commercialisation Takes Shape:** Company continues path to global commercialisation.

8 August 2025 – Perth, Australia – Today, **ClearVue Technologies Limited (ASX:CPV) (ClearVue or the Company)** announced that four important projects across Australia and in Nigeria have made meaningful headway.

- **Prefabulous, Victoria, Australia** – The panels have now been delivered to the client and are awaiting final modular housing unit location for installation. [Announced in September 2024](#)
- **100 St Georges Terrace, Perth, Australia** – The panels for the project have been delivered and installation at the iconic Perth, Australia building has begun. [Announced in October 2024](#)
- **World Bank Administration Building, Abuja, Nigeria** – The double-glazed skylight units have been manufactured, framed and are currently in transit to the building site. [Announced April 2025](#)
- **Tattersalls Club, Sydney, Australia** – The compatibility testing for silicon seal and laminate is currently in progress. [Announced in May 2025](#)

*“It is with great pleasure that we are delivering on the promise to deploy ClearVue Integrated Solar Façade solutions in both new build and retrofit projects,” said **Mr. Douglas (Doug) Hunt, Chief Executive Officer, ClearVue Technologies**. “The focused efforts of our technical, research and development and operations teams are paying off in delivery and deployment of ClearVue solutions for several projects. It is great to see our vision coming to fruition.”*

Authorised by the Board of ClearVue Technologies Limited.

ABOUT CLEARVUE TECHNOLOGIES LIMITED

ClearVue Technologies Limited (ASX: CPV; OTCX: CVUEF) is an Australian technology company that integrates solar technology into building façade and rooftop surfaces to provide renewable energy generation and offset the operational carbon footprint of buildings. The Company's advanced, patented glass technology preserves glass transparency maintaining building aesthetics while generating energy.

ClearVue has extended solar energy-generation to vision glass, cladding, spandrel, balustrade, and skylight solutions. These solutions can offset operational energy requirements significantly contributing to the net zero building.

ClearVue's integrated solar façade is revolutionizing the way buildings are designed, constructed, and renovated. Experience how building façades will become a major contributing factor to reducing operational carbon by visiting ClearVue at www.clearvuepv.com.
