Investment Overview

This Section is intended to highlight key information for potential investors. It is an overview only and is not intended to replace the Prospectus. Potential investors should read the Prospectus in full before deciding to invest in Securities.

Key Information	Further Information
<p>Transaction specific prospectus</p> <p>This Prospectus is a transaction specific prospectus for offers of continuously quoted securities (as defined in the Corporations Act) and has been prepared in accordance with section 713 of the Corporations Act. It does not contain the same level of disclosure as an initial public offering prospectus. In making representations in this Prospectus regard has been had to the fact that the Company is a disclosing entity for the purposes of the Corporations Act and certain matters may reasonably be expected to be known to investors and professional advisers whom potential investors may consult.</p>	Section 5.5
<p>Risk factors</p> <p>Potential investors should be aware that subscribing for Securities involves a number of risks. The key risk factors of which investors should be aware are set out in Section 4, including (but not limited to) risks in respect of:</p> <ul style="list-style-type: none">• Future capital and funding requirements: The Company has no operating revenue and is unlikely to generate any operating revenue unless and until its projects are successfully developed and production commences. The future capital requirements of the Company will depend on many factors including its exploration and business development activities. The Company believes its available cash and the net proceeds of the Offers should be adequate to fund its exploration program and other Company objectives in the short term as stated in this Prospectus. However, the Company will require additional funding to fund future activities beyond those contemplated in this Prospectus.• Underwriting risk: The Entitlement Offer is partially underwritten by the Underwriter pursuant to the terms of the Underwriting Agreement. If certain conditions are not satisfied or certain termination events occur (see Section 5.3(d) of the Prospectus for a summary of those events) the Underwriter may be able to terminate its underwriting commitments, which would consequently have an adverse impact on the amount of proceeds raised under the Entitlement Offer or result in the Entitlement Offer not proceeding at all.• Exploration and development risks: Mineral exploration and development is a high-risk undertaking. There can be no assurance that further exploration on the Company's projects will result in the discovery of an economic ore deposit or that it can be economically exploited.• Grant and renewal of tenements: Exploration activities are dependent upon the maintenance (including renewal) of tenements, which is dependent on, among other things, the Company's ability to meet the licence conditions imposed by relevant authorities including minimum annual expenditure requirements which, in turn, is dependent on the Company being sufficiently funded to meet those expenditure requirements. <p>Further, the Company cannot guarantee that renewals of valid tenements will be granted on a timely basis, or at all.</p>	Section 4

Key Information	Further Information
<ul style="list-style-type: none"> • Land access: There is a substantial level of regulation and restriction on the ability of exploration and mining companies to have access to land in Australia. Commonly, this will affect the procedure required for access and may impose obligations in respect of compensation, land rehabilitation and/or land impact management. Inability to access, or delays experienced in accessing, the land and unforeseen expenses associated therewith may impact on the Company's activities. • Environmental risk: Mining operations have inherent risks and liabilities associated with safety and damage to the environment and the disposal of waste products occurring as a result of mineral exploration and production. The occurrence of any such safety or environmental incident could delay production or increase production costs. Events, such as unpredictable rainfall or bushfires may impact on the Company's ongoing compliance with environmental legislation, regulations and licences. Significant liabilities could be imposed on the Company for damages, clean-up costs or penalties in the event of certain discharges into the environment, environmental damage caused by previous operations or noncompliance with environmental laws or regulation. • General market risks: Share market conditions may affect the value of the Company's Securities regardless of the Company's operating performance. The Company is exposed to general market and economic condition risks including adverse changes in levels of economic activity, exchange rates, interest rates, commodity prices, government policies, employment rates and industrial disruption.

In the event Mr Povey and his Associates apply for part or all of their respective Entitlements under the Offers and such issue of New Shares would result in an increase in an increase to their respective voting power in the Company, Mr Povey together with his Associates have agreed that the Company will scale back the number of New Shares to be issued, insofar as such scaling does not result in Mr Povey and his Associates current respective voting power being diluted, unless mutually agreed to between the parties.</p> <p>Shareholders should note that if they do not participate in the Offers, their holdings will be diluted. Examples of how the dilution may impact Shareholders are set out in Section 1.10.</p>	Sections 1.9 and 1.10

1. Details of the Offers

1.1 Entitlement Offer

The Company is making an offer to all Eligible Shareholders to participate in a renounceable pro-rata entitlement offer to raise up to approximately \$1.68 million (before costs) by the issue of up to approximately 1,682,096,842 New Shares and 841,048,421 free attaching Quoted Options (subject to rounding) (together, the **New Securities**).

Entitlements under the Entitlement Offer will be determined on the basis of:

- (a) 1 New Share for every 2 Shares held at the Record Date at an issue price of \$0.001 each; plus
- (b) 1 free Quoted Option for every 2 New Shares subscribed for,

and otherwise on the terms and conditions contained in this Prospectus.

The purpose of the Entitlement Offer is to:

- (a) provide Eligible Shareholders with the opportunity to take up Shares proportional to their shareholding and to mitigate the effect of dilution; and
- (b) provide the Company with additional funds to be attributed in accordance with the use of funds set out in Section 1.6.

As at the date of this Prospectus, the Company has 3,364,193,683 Shares on issue. Assuming no other Shares are issued or Securities exercised or converted to Shares prior to the Record Date (and subject to rounding), the Entitlement Offer is for a maximum of 1,682,096,842 New Shares and 841,048,421 Quoted Options.

Where the determination of the Entitlement of any Eligible Shareholder results in a fraction of a Security, such fraction will be rounded up to the nearest whole Security.

A summary of the rights and liabilities attaching to the New Shares and Quoted Options offered under the Entitlement Offer are in Section 5.1 and 5.2, respectively. Shares issued upon exercise of the Quoted Options will be fully paid and will rank equally with the Company's existing Shares on issue at the date of this Prospectus.

1.2 Shortfall Offer

Eligible Shareholders may apply for additional New Shares in excess of their Entitlement by applying under the Shortfall Offer. Any New Shares and attaching Quoted Options not taken up by Eligible Shareholders pursuant to the Entitlement Offer (**Shortfall**) will form the Shortfall Offer. The Shortfall Offer is a separate offer made pursuant to this Prospectus and will remain open for up to three months following the Closing Date.

If you do not wish to take up any part of your Entitlement, you are not required to take any action. That part of your Entitlement not taken up will form part of the Shortfall Offer and potentially be allocated to other Eligible Shareholders or other third parties as part of the Shortfall Offer. The Shortfall Offer will only be available where there is a shortfall between the aggregate Entitlements of Eligible Shareholders and the applications received from Eligible Shareholders.

Eligible Shareholders who wish to subscribe for New Shares (and attaching Quoted Options) in excess of their Entitlement are invited to apply for Shortfall Securities under the Shortfall

Offer by completing the appropriate section on their Entitlement and Acceptance Form and by making payment for such Shortfall Securities in accordance with Sections 2.8 and 2.9.

Allocation of the Shortfall Securities will be at the discretion of the Board in conjunction with the Underwriter and will otherwise be subject to the terms of the Underwriting Agreement, details of which are set out in Section 5.3. There is no guarantee that Eligible Shareholders will receive Shortfall Securities applied for under the Shortfall Offer.

A summary of the rights and liabilities attaching to the New Shares and Quoted Options offered under the Shortfall Offer are in Section 5.1 and 5.2, respectively. Shares issued upon exercise of the Quoted Options will be fully paid and will rank equally with the Company's existing Shares on issue at the date of this Prospectus.

1.3 Underwriting and sub-underwriting

The Company is party to an underwriting agreement with Mahe Capital dated 11 August 2025 (**Underwriting Agreement**), pursuant to which the Underwriter has agreed to partially underwrite the Entitlement Offer up to \$500,000 (**Underwritten Amount**).

Each of the Shares and Options to be issued to the Underwriter pursuant to the Underwriting Agreement will be issued on the same terms and conditions as the New Shares and Quoted Options being offered under the Entitlement Offer.

The Underwriter may, at its own cost, at any time appoint sub-underwriters to sub-underwrite the Entitlement Offer. No sub-underwriter will increase their shareholding to above 20% as a direct result of the issue of New Securities under the Offers.

Directors Kylie Prendergast and Kevin Lynn have committed via their respective associated entities to sub-underwriting the Entitlement Offer by up to an aggregate \$80,000 (**Related Party Sub-Underwriting**).

A summary of the material terms of the Underwriting Agreement and Related Party Sub-Underwriting is in Section 5.3 and 5.5.

1.4 Allocation policy

The allocation policy adopted by the Company for the Offers is as follows:

- (a) **Step 1 (Entitlement Offer):** Eligible Shareholders apply for their Entitlements pursuant to the Entitlement Offer.
- (b) **Step 2 (Shortfall Offer):**
 - (i) Eligible Shareholders who apply for their Entitlements in full may apply for Shortfall Shares in excess of their Entitlement.
 - (ii) If there is sufficient Shortfall from Step 1 to satisfy Applications for Shortfall Securities, the Applications for Shortfall Shares may, at the discretion of the Board in consultation with the Underwriter, be satisfied in full or in part, subject to compliance with the requirements of the Corporations Act and the Listing Rules.

Allocation of the Shortfall Securities will be at the discretion of the Board in conjunction with the Underwriter and will otherwise be subject to the terms of

the Underwriting Agreement, details of which are set out in Section 5.3. If the Entitlement Offer is oversubscribed (by take up of Entitlements and Applications for Shortfall Securities by Eligible Shareholders), scale back will be applied to Applications under the Shortfall Offer. The Company may in its absolute discretion determine to apply the scale back to the extent and in the manner it sees fit, which may include taking into account a number of factors including, but not limited to:

- (A) the size of your shareholding at the Record Date;
- (B) the extent to which you have sold or purchased Shares since the Record Date;
- (C) whether you have multiple registered holdings;
- (D) the date on which your application was made; and
- (E) the total number of applications and Shares subscribed for by Eligible Shareholders.

No New Shares will be issued to an Applicant under this Prospectus if the issue of New Securities would contravene the takeover prohibition in section 606 of the Corporations Act. Similarly, no Securities will be issued via the Shortfall Offer to any Directors or other related parties of the Company unless prior Shareholder approval is received.

1.5 Underwriter Offer

This Prospectus includes a separate offer of Quoted Options to the Underwriter (or its nominee/s) of 40 Quoted Options for every \$1.00 raised under the Offers (the **Underwriter Options**). Accordingly, a minimum of 20,000,000 Underwriter Options (reflecting the Underwritten Amount of \$500,000) and a maximum of 67,263,880 Underwriter Options will be issued. The Company intends to issue the Underwriter Options using its placement capacity under Listing Rule 7.1

The Underwriter Options are to be issued to the Underwriter (or its nominee) as partial consideration for the underwriting and lead managerial services provided by the Underwriter in connection with the Entitlement Offer and Shortfall Offer. Refer to Section 5.3 for a summary of Underwriting Agreement.

Only the Underwriter or its nominee/s may accept the Underwriter Offer.

The Underwriter Offer is being made under this Prospectus to remove the need for an additional disclosure document to be issued upon the sale or transfer of any Shares issued upon exercise of any Underwriter Options.

An application form in relation to the Underwriter Offer will be issued to the nominee/s of the Underwriter, together with a copy of this Prospectus.

The Underwriter Options issued under the Underwriter Offer will be in the same class and will rank equally in all respects with the Quoted Options being issued under the Entitlement Offer and Shortfall Offer. A summary of the rights and liabilities attaching to the Quoted Options (including the Underwriter Options) is in Section 5.2. Shares issued upon exercise of the

Underwriter Options will be fully paid and will rank equally with the Company's existing Shares on issue at the date of this Prospectus.

The Company will apply for quotation of the Quoted Options, as summarised in Section 1.15.

1.6 Use of funds

The following indicative table sets out the proposed use of funds raised under the Entitlement Offer, assuming the Entitlement Offer is fully subscribed:

Proposed use of funds	\$	%
Drilling of White Hills copper-gold project	400,000	23.78%
Gold Basin mineral resource estimation programs	1,000,000	59.45%
General working capital ¹	44,294	2.63%
Expenses of the Offers ²	237,802	14.14%
Total	1,682,096	100

Notes:

1. Working capital includes but is not limited to corporate office, administration, staff and operating costs, directors' fees, executive fees, ASX and share registry fees, legal, tax and audit fees, insurance and travel costs.
2. The expenses of the Offers includes ASIC fees, ASX quotation fees, Underwriter fees, legal and preparation expenses, printing mailing, registry and other expenses. Refer to Section 5.13 for details.
3. The above table is based on the assumption that the Entitlement Offer is fully subscribed. If the Entitlement Offer is not fully subscribed, and depending on the amount raised, the Company intends to scale back allocation to target generation and geophysics and working capital.
4. The above table does not include any funds raised from exercise of the Quoted Options. To the extent that Quoted Options are exercised, the funds raised are intended to be applied to ongoing exploration and general working capital.

The above table is a statement of current intentions as at the date of this Prospectus. As with any budget, the allocation of funds set out in the above table may change depending on a number of factors, including exploration results, market conditions, the development of new opportunities and/or any number of other factors, and actual expenditure levels, which may differ significantly from the above estimates.

1.7 Opening and Closing Dates

For the Entitlement Offer and the Underwriter Offer, the Company will accept Entitlement and Acceptance Forms and application form (in respect of the Underwriter Offer) from the date it makes the Prospectus available to Eligible Shareholders until 5.00pm (AWST) on Wednesday, 3 September 2025 or such other date as the Directors in their absolute discretion shall determine, subject to the requirements of the Listing Rules (**Closing Date**).

The Shortfall Offer may remain open for up to three months following the Closing Date.

1.8 Minimum subscription

There is no minimum subscription for the Offers.

1.9 Effect on control of the Company

(a) General

The total number of Shares proposed to be issued under the Offers is 1,682,096,842 which will constitute 33.33% of the Shares on issue following completion of the Offers (assuming no other Shares are issued or Securities exercised or converted to Shares prior to the Record Date, including Shares that may be issued to the Underwriter in lieu of fees pursuant to the Underwriting Agreement (refer to Section 5.3 for further details).

As at the date of this Prospectus, Director Michael Povey, together with his Associates, hold a relevant interest in 733,766,159 Shares comprising approximately 21.82% of the Company's total Shares on issue.

Mr Povey together with his Associates has agreed to take up to 50% of their respective Entitlements, subject to such number of New Shares subscribed for not resulting in an increase to Mr Povey's or his Associates respective voting power in the Company of approximately 21.82%. In the event Mr Povey and his Associates apply for part or all of their respective Entitlements under the Offers and such issue of New Shares would result in an increase in an increase to their respective voting power in the Company, Mr Povey together with his Associates have agreed that the Company will scale back the number of New Shares to be issued, insofar as such scaling does not result in Mr Povey and his Associates current respective voting power being diluted, unless mutually agreed to between the parties.

The Company is of the view that the Offers will not affect the control (as defined by section 50AA of the Corporations Act) of the Company.

No nominee has been appointed for Ineligible Foreign Shareholders under section 615 of the Corporations Act and, as such, Eligible Shareholders will not be able to rely on the exception for rights issues in item 10 of section 611 of the Corporations Act. Accordingly, when an Eligible Shareholder applies for some or all of their Entitlement, they must have regard to section 606 of the Corporations Act. Eligible Shareholders who may be at risk of exceeding the 20% voting power threshold in section 606 as a result of acceptance of their Entitlement should seek professional advice before completing and returning their Entitlement and Acceptance Form.

No New Shares will be issued to any Shareholder or Applicant pursuant to this Prospectus if, in the view of the Directors, to do so would increase that Shareholder's or Applicant's voting power in the Company above 20% or otherwise result in a breach of the Listing Rules, the Corporations Act or any other applicable law.

(b) Underwriter and sub-underwriters

The number of New Securities that ultimately will be required to be taken up by the Underwriter, and, therefore, increase the Underwriter's shareholding in the Company as a result of the Entitlement Offer and associated underwriting, will depend on the extent to which Eligible Shareholders (and any other parties) take up:

- (i) Entitlements under the Entitlement Offer; and
- (ii) Shortfall under the Shortfall Offer.

In accordance with the terms of the Underwriting Agreement, the Underwriter will allocate Shortfall to Eligible Shareholders who have applied for Shortfall Securities, sub-underwriters and/or clients and people who have otherwise agreed to assist with

the completion of the Entitlement Offer such that neither the Underwriter, the sub-underwriters nor any of the Underwriter's clients, individually, will have a voting power in the Company in excess of 20% after the issue of the Shortfall.

In the unlikely event no Eligible Shareholders participate in the Entitlement Offer and the Underwriter subscribes for the maximum potential amount of New Shares under the Underwriting Agreement which excludes any New Shares issued to the Related Party Sub-Underwriters pursuant to the Related Party Sub-Underwriting, and no other Shares are issued, the Underwriter's voting power would increase from 0% to 12.49%.

The table below details the Underwriter security holding in the Company following its underwriting of the Entitlement Offer under several scenarios:

Eligible Shareholders take up under the Entitlement Offer	Total Shares held by Mahe Capital	Mahe Capital Voting Power (%)	Total Options held by Mahe Capital
100% take up	0	0	0
75% take up	420,000,000	8.33	277,263,874
50% take up	420,000,000	8.93	263,631,937
25% take up	420,000,000	9.80	246,815,968
0% take up	420,000,000	12.49	230,000,000

Notes:

1. Assumes the Underwriting Agreement is not terminated prior to settlement of the Entitlement Offer and the Underwriter complies with its obligations under the Underwriting Agreement.
2. Subject to rounding.
3. Pursuant to the Related Party Sub-Underwriting, Directors Kylie Prendergast and Kevin Lynn will sub-underwrite the Entitlement Offer up to an aggregate \$80,000 of the Underwritten Amount comprising up to an aggregate 80,000,000 New Shares and 40,000,000 Quoted Options. Refer to Section 5.5 for further information.
4. In addition to any Quoted Options received by the Underwriter (or its nominee/s) via subscribing for Shortfall, pursuant to the Underwriting Agreement, the Underwriter (or its nominee/s) will receive 40 Underwriter Options for every \$1.00 raised under the Offers as partial consideration for the provision of lead managerial and underwriting services provided in connection with the Offers.

The number of Securities held by the Underwriter in the table above shows the potential effect of the underwriting of the Entitlement Offer. It is highly unlikely, however, that no Eligible Shareholders will take up their Entitlements. The underwriting obligation and therefore potential shareholding of the Underwriter will reduce by a corresponding amount for the amount of Entitlements under the Entitlement Offer taken up by Eligible Shareholders and the number of Shares subscribed for by Eligible Shareholders under the Shortfall Offer.

No Eligible Shareholder or third party will have a Voting Power greater than 20% as a result of the completion of the Offers.

No sub-underwriter, including Ms Prendergast or her associates, will increase their shareholding to above 20% as a direct result of the issue of New Securities under the Offers. Where Shares are issued pursuant to the exercise of Quoted Options, the voting power of the sub-underwriters who exercise their Quoted Options will increase. The likelihood of Quoted

Options being exercised is dependent on the price of Shares from time to time until the Quoted Options expire.

1.10 Potential dilution

Shareholders should note that if they do not participate in the Offers, their holdings are likely to be diluted (as compared to their holdings and number of Shares on issue as at the date of the Prospectus). Examples of how the dilution may impact Shareholders are set out in the table below:

Holder	Holding as at Record Date	% at Record Date	Entitlement to New Shares	Shareholding if Entitlement not subscribed	% post Offers
Shareholder 1	50,000,000	1.49	25,000,000	50,000,000	0.99
Shareholder 2	75,000,000	2.23	37,500,000	75,000,000	1.49
Shareholder 3	100,000,000	2.97	50,000,000	100,000,000	1.98
Shareholder 4	125,000,000	3.72	62,500,000	125,000,000	2.48
Shareholder 5	150,000,000	4.46	75,000,000	150,000,000	2.97

The dilution effect shown in the table is the maximum percentage on the assumption that those Entitlements not accepted are placed under the Shortfall Offer. In the event all Entitlements are not accepted and some or all of the resulting shortfall is not subsequently placed, the dilution effect for each Shareholder not accepting their Entitlement would be a lesser percentage.

The above table also assumes that no Shares are issued, other than those offered pursuant to this Prospectus.

1.11 Substantial Shareholders

Based on information known to the Company as at the date of this Prospectus, no persons together with their associates have a voting power in 5% or more of the Shares on issue, other than Mr Michael Povey who, together with this associates, holds a relevant interest in 733,766,159 Shares comprising 21.82% of the Company's Shares. Mr Povey's relevant interest in Shares are held as follows:

- (a) 550,531,463 Shares held indirectly via Nuevo Royalty Limited of which Mr Povey is a director and shareholder;
- (b) 183,234,696 Shares held indirectly via Acta Investment Group Pty Ltd of which Mr Povey is a director and shareholder.

1.12 Entitlements under the Entitlement Offer

The Entitlement Offer is renounceable and therefore Eligible Shareholders can offer to sell or transfer any of their Entitlement on ASX or via an off-market transfer (or any other exchange or privately transferred).

There is no guarantee that there will be any secondary market for your Entitlements.

1.13 Issue date and dispatch

New Securities under the Entitlement Offer are expected to be issued on or before the date specified in the proposed timetable in this Prospectus.

Security holder statements will be dispatched at the end of the calendar month following the issue of the Securities under the Entitlement Offer.

Securities issued pursuant to the Shortfall Offer will be issued on a progressive basis. Where the number of Securities issued is less than the number applied for, or where no issue of Shortfall Securities is made, surplus Application Monies will be refunded without any interest to the Applicant as soon as practicable after the closing date of the Shortfall Offer.

It is the responsibility of Applicants to determine their allocation prior to trading in the New Securities. Applicants who deal with New Securities before they receive their holding statements do so at their own risk.

1.14 Application Monies held on trust

All Application Monies received for the Shares under the Entitlement Offer and Shortfall Offer will be held on trust in a bank account maintained solely for the purpose of depositing Application Monies received pursuant to this Prospectus until the Shares are issued. All Application Monies will be returned (without interest) if the Shares are not issued.

1.15 ASX quotation

Application has been or will be made for the official quotation of the Shares and Quoted Options offered by this Prospectus. If permission is not granted by ASX for the official quotation of the Shares offered by this Prospectus within three months after the date of this Prospectus (or such period as the ASX allows), the Company will repay, as soon as practicable, without interest, all Application Monies received pursuant to this Prospectus.

The Company will apply for quotation of the Quoted Options subject to compliance with the requirements of ASX and the ASX Listing Rules, however, the Quoted Options will only be admitted to official quotation by ASX if the conditions for quotation of a new class of securities are satisfied (which include, amongst other things, there being a minimum of 100,000 Quoted Options on issue, with at least 50 holders with a marketable parcel (within the meaning of the ASX Listing Rules)). If these requirements are not met within three months from the date of this Prospectus, any issue or transfer of the Options (or Shares issued on exercise of those Options) will be void in accordance with section 723(3) of the Corporations Act.

ASX takes no responsibility for the contents of this Prospectus. The fact that ASX may grant Official Quotation to the Shares and Quoted Options is not to be taken in any way as an indication of the merits of the Company, the Shares or the Quoted Options.

1.16 CHESS

The Company participates in the Clearing House Electronic Sub-Register System, known as CHESS. ASX Settlement Pty Limited, a wholly owned subsidiary of ASX, operates CHESS in accordance with the Listing Rules and the ASX Settlement Operating Rules.

Under CHESS, Applicants will not receive a certificate but will receive a statement of their holding of Shares.

If you are broker sponsored, ASX Settlement Pty Limited will send you a CHESS statement.

The CHESS statement will specify the number of Shares issued under this Prospectus, provide details of your holder identification number, the participant identification number of the sponsor and the terms and conditions applicable to the Shares.

If you are registered on the Issuer Sponsored sub-register, your statement will be dispatched by the Company's share registry and will contain the number of Securities issued to you under this Prospectus and your security holder reference number.

A CHESS statement or Issuer Sponsored statement will routinely be sent to Shareholders at the end of any calendar month during which the balance of their Shareholding changes. Shareholders may request a statement at any other time; however, a charge may be made for additional statements.

1.17 SRN

Following the issue of the Quoted Options, you will be registered on the Issuer Sponsored sub-register and your statement will be despatched by the Share Registry and will contain the number of Quoted Options issued to you under this Prospectus and your security holder reference number.

An Issuer Sponsored statement will routinely be sent to Shareholders at the end of any calendar month during which the balance of their Shareholding changes. Shareholders may request a statement at any other time; however, a charge may be made for additional statements.

1.18 Ineligible Foreign Shareholders

This Prospectus, and any accompanying Entitlement and Acceptance Form, do not, and is not intended to, constitute an offer of Securities in any place or jurisdiction in which, or to any person to whom, it would not be lawful to make such an offer or to issue this Prospectus or the Securities under the Offers.

The distribution of this Prospectus in jurisdictions outside Australia may be restricted by law and persons who come into possession of this Prospectus should seek advice on and observe any such restrictions. Any failure to comply with such restrictions may constitute a violation of applicable securities laws.

The Company believes that it is unreasonable to extend the Entitlement Offer to Ineligible Foreign Shareholders. The Company has formed this view having considered:

- (a) the number and value of the Securities that would be offered to those Shareholders; and
- (b) the cost of complying with the legal requirements and the requirements of regulatory authorities in the overseas jurisdictions.

Accordingly, Ineligible Foreign Shareholders will not be entitled to participate in the Entitlement Offer.

New Zealand

The New Securities are not being offered to the public within New Zealand other than to existing Shareholders of the Company with registered addresses in New Zealand to whom the offer of these New Securities is being made in reliance on the Financial Markets Conduct (Incidental Offers) Exemption Notice 2021. In addition, for Shareholders who subscribe for New Shares the Company will issue Quoted Options for no consideration. The Entitlements are renounceable in favour of members of the public.

This Prospectus has been prepared in compliance with Australian law and has not been registered, filed with or approved by any New Zealand regulatory authority under the Financial Markets Conduct Act 2013. This Prospectus is not a product disclosure statement under New Zealand law and is not required to, and may not, contain all the information that a product disclosure statement under New Zealand law is required to contain.

1.19 Notice to nominees and custodians

Nominees and custodians that hold Shares should note that the Entitlement Offer and Shortfall Offer is available only to Eligible Shareholders. The Company is not required to determine whether or not any registered holder is acting as a nominee or the identity or

residence of any beneficial owners of Shares. If any nominee or custodian is acting on behalf of a foreign person, that holder, in dealing with its beneficiary, will need to assess whether indirect participation by the beneficiary in the Entitlement Offer and Shortfall Offer is compatible with applicable foreign laws.

1.20 Risk factors

An investment in Securities should be regarded as speculative. In addition to the general risks applicable to all investments in listed securities, there are certain specific risks associated with an investment in the Company which are detailed in Section 4.

1.21 Taxation implications

The Directors do not consider it appropriate to give Applicants advice regarding the taxation consequences of subscribing for Securities under this Prospectus.

The Company, its advisers and its officers do not accept any responsibility or liability for any such taxation consequences to Applicants. As a result, Applicants should consult their professional tax adviser in connection with subscribing for Securities under this Prospectus.

1.22 Major activities and financial information

A summary of the major activities and financial information relating to the Company for the financial year ended 30 June 2024 can be found in the Annual Report announced on ASX on 27 September 2024, and, for the half-year ended 31 December 2024, the Half Year Report and Accounts announced on ASX on 14 March 2025.

The Company's continuous disclosure notices (i.e. ASX announcements) since 27 September 2024 are listed in Section 5.8.

Copies of the above documents are available free of charge from the Company. The Directors strongly recommend that Applicants review these and all other announcements prior to deciding whether or not to participate in the Offers.

1.23 Privacy

The Company collects information about each Applicant provided on an Entitlement and Acceptance Form for the purposes of processing the application and, if the application is successful, to administer the Applicant's holding of Securities in the Company.

By submitting an Entitlement and Acceptance Form, each Applicant agrees that the Company may use the information provided by an Applicant on the Entitlement and Acceptance Form for the purposes set out in this privacy disclosure statement and may disclose it for those purposes to the share registry, the Company's related bodies corporate, agents, contractors and third-party service providers, including mailing houses and professional advisers, and to ASX and regulatory authorities.

If you do not provide the information required on the Entitlement and Acceptance Form, the Company may not be able to accept or process your application (as applicable).

An Applicant has an entitlement to gain access to the information that the Company holds about that person subject to certain exemptions under law. A fee may be charged for access. Access requests can be made in accordance with Principle 12 of the Australian Privacy Principles and may be made in writing to the Company's registered office.

If you are an Eligible Shareholder and you wish to apply for New Shares in excess of your Entitlement under the Entitlement Offer by applying for Shortfall Shares, you are required to apply for more New Shares than the number shown in your personalised Entitlement and Acceptance Form. To do this, make a payment for more than your Entitlement via BPAY® or EFT using the details provided on the Entitlement and Acceptance Form. The excess will be taken to be an application for Shortfall Shares and free attaching Quoted Options.

Any Shortfall Securities applied for pursuant to the Shortfall Offer will be issued in accordance with the allocation policy described in Section 1.4. The Company's decision on the number of Shortfall Securities to be allocated to you will be final.

If you only wish to take up part of your Entitlement you are required to make payment via BPAY® or EFT. Payment must be made by following the instructions on the personalised Entitlement and Acceptance Form for the number of New Shares you wish to take up. If the

Company receives an amount that is less than the offer price multiplied by your Entitlement, your payment may be treated as an Application for as many New Shares as your Application Monies will pay for in full.

Payment is due by no later than 5.00pm (AWST) on the Closing Date. Note that when paying by BPAY® or EFT you are not required to submit the personalised Entitlement and Acceptance Form but are taken to make the statements on that form.

2.5 Sell all or part of your Entitlement

As the Entitlement Offer is renounceable, you can sell all or part of your Entitlement.

If you wish to take up only part of your Entitlement, follow the instructions on the Entitlement and Acceptance Form.

For the portion of your Entitlement you wish to sell, you must subsequently provide instructions to your stockbroker regarding the portion of your Entitlement you wish to sell on ASX.

2.6 Entitlements not taken up

If you do not wish to accept any of your Entitlement, you are not obliged to do anything. The number of Shares you hold and the rights attached to those Shares will not be affected should you choose not to accept any of your Entitlement.

2.7 Underwriter Offer

Only the Underwriter, or parties nominated by the Underwriter may accept the Underwriter Offer.

An application form in relation to the Underwriter Offer will be issued to the Underwriter or nominees of the Underwriter, together with a copy of this Prospectus.

2.8 How to Pay (Via BPAY® or EFT)

The price of \$0.001 per New Share is payable on acceptance of your Application.

If you wish to participate in the Offers and are resident in Australia, you must make your payment by BPAY® or Electronic Funds Transfer (**EFT**) using the payment details in your Entitlement and Acceptance Form.

If you are an Eligible Shareholder and are resident in a jurisdiction other than Australia, your application may be made through Electronic Funds Transfer using the payment details in your Entitlement and Acceptance Form.

Cash, cheques, bank drafts and money order payments will not be accepted. Receipts for payments will not be issued.

The Company will treat Applicants as applying for as many New Shares as their payment will pay for in full. If an Eligible Shareholder's payment will pay for more than their full Entitlement, the Company will treat the Eligible Shareholder as applying for their full Entitlement and the excess will be taken to be an application for Shortfall Shares pursuant to the Shortfall Offer. Any Application Monies received from Eligible Shareholders for more than their final allocation of Shares will be refunded except for where the amount is less than \$1.00 in which case it will be donated to a charity chosen by the Company. No interest will be paid on any Application Monies received or refunded.

Application Monies received from Eligible Shareholders will be held on trust until such time as the relevant New Shares are issued or the Application Monies are refunded.

To the fullest extent permitted by law, each Eligible Shareholder agrees that any Application Monies paid by them to the Company will not entitle them to any interest against the Company and that any interest earned in respect of Application Monies will belong to the Company. This will be the case, whether or not all or none (if any Offer is withdrawn) of the New Shares applied for by a person are issued to that person.

Payment by BPAY® should be made according to the instructions set out on the Entitlement and Acceptance Form using the BPAY® Biller Code and Customer Reference Number shown on the form. You can only make a payment via BPAY® if you are a holder of an account with an Australian financial institution that supports BPAY® transactions.

Payment by EFT should be made according to the instructions set out on the Entitlement and Acceptance Form using the unique payment reference number shown on the form.

The reference number shown on each Entitlement and Acceptance Form (Reference Number) is used to identify your holding. If you have multiple holdings you will have multiple Reference Numbers. You must use the Reference Number to pay for each holding separately. Failure to do so may result in an underpayment. If you pay by BPAY® or EFT and do not pay for your full Entitlement, the remaining Entitlement will form part of the Shortfall.

If you pay by BPAY® or EFT:

- (a) you do not need to return the Entitlement and Acceptance Form but are taken to have made the declarations on that form; and
- (b) if you do not pay for your Entitlement in full, you are deemed to have taken up your Entitlement in respect of such whole number of New Shares which is covered by your Application Monies.

You must ensure that your payment by BPAY® or EFT is received by 5.00pm (AWST) on the Entitlement Offer Closing Date. Your financial institution may implement cut-off times with regards to electronic payment and you should therefore take this into consideration when making payment. The Company is not responsible for any delay in the receipt of BPAY® or EFT payment. If Eligible Shareholders have more than one holding, they must login separately for each holding and use the Reference Number specific to the relevant holding. Alternatively, if Eligible Shareholders have requested a personalised Entitlement and Acceptance Form and have more than one holding, they will receive separate forms for each holding. If Eligible Shareholders do not use the correct Reference Number specific to that holding, or inadvertently use the same Reference Number for more than one of their holdings, their application will be recorded against the holding associated with Reference Number they use.

You should be aware that your financial institution branch may implement earlier cut-off times with regard to electronic payment and you should therefore take this into consideration when making payment. It is your responsibility to ensure that your BPAY® or EFT payment is received by the Share Registry by no later than the relevant date by which funds are required to have been received.

Your BPAY® or EFT application cannot be withdrawn once received, except for in the limited circumstances provided for under the Corporations Act. No cooling off period applies.

2.9 Entitlement and Acceptance Form

The Company will make a copy of this Prospectus, together with the relevant Entitlement and Acceptance Form, available to all Eligible Shareholders.

Completing and returning your Entitlement and Acceptance Form with the requisite Application Monies (if applicable), or making a payment via BPAY® or EFT will create a legally binding contract between the Applicant and the Company for the number of Securities accepted by the Company, and you will be deemed to have:

- (a) represented and warranted that you are an Eligible Shareholder, if your Entitlement and Acceptance Form is in respect of the Entitlement Offer;
- (b) represented and warranted on behalf of yourself or each person on whose account you are acting that the law in your place of residence and/or where you have been given the Prospectus, does not prohibit you from being given the Prospectus;

3.3 Basis of Preparation

The pro forma balance sheet has been prepared on a going concern basis, which contemplates the continuity of normal business activity and the realisation of assets and settlement of liabilities in the normal course of business.

The pro forma statement of financial position is based on the reviewed financial position as at 31 December 2024 and is adjusted to reflect the following assumptions:

- (a) the Entitlement Offer is fully subscribed and \$1,681,597 is raised (before costs);
- (b) 67,263,880 Underwriter Options are issued under the Underwriter Offer (assuming that the Offers are fully subscribed), which are recognised in share based payment reserve, valued using the Black & Scholes model with inputs of volatility of 166%, risk free rate of 3.7% and a deemed price of Shares at issue of \$0.001; and
- (c) the estimated expenses of the Offers are \$237,802.

Other than in the ordinary course of business or as described above, there have been no other material changes to the Company's financial position between 31 December 2024 and the date of this Prospectus.

3.4 Market price of Shares

The highest and lowest closing market sale prices of the Shares on ASX during the three months immediately preceding the date of lodgement of this Prospectus with ASIC and the respective dates of those sales were:

Highest: \$0.003 on 30 May 2025

Lowest: \$0.001 on various dates throughout the period

The latest available market sale price of the Shares on ASX prior to the date of lodgement of this Prospectus with ASIC was \$0.002 per Share on 8 August 2025.

4. Risk Factors

Activities in the Company and its controlled entities, as in any business, are subject to risks, which may impact on the Company's future performance. The Company and its controlled entities have implemented appropriate strategies, actions, systems and safeguards for known risks; however, some are outside its control.

The Directors consider that the following summary, which is not exhaustive, represents some of the major risk factors which investors need to be aware of in evaluating the Company's business and risks of increasing your investment in the Company. Investors should carefully consider the following factors in addition to the other information presented in this Prospectus.

The principal risks include, but are not limited to, the following:

4.1 Risks specific to the Company

(a) Future capital and funding requirements

The Company has no operating revenue and is unlikely to generate any operating revenue unless and until its projects are successfully developed and production commences. The future capital requirements of the Company will depend on many factors including its level of exploration activities and operational requirements. The Company believes its available cash and the net proceeds under the Offers should be adequate to fund its business development activities, exploration program and other Company objectives in the short term as stated in this Prospectus. However, the Company may require additional funding in the future in order to fund its activities and other Company objectives.

In order to successfully develop its projects and for production to commence, the Company will require further financing in the future, in addition to amounts raised pursuant to the Offers. Any additional equity financing may be dilutive to Shareholders, may be undertaken at lower prices than the then market price (or price per Share pursuant to the Offers) or may involve restrictive covenants which limit the Company's operations and business strategy. Debt financing, if available, may involve restrictions on financing and operating activities.

Although the Directors believe that additional capital can be obtained, no assurances can be made that appropriate capital or funding, if and when needed, will be available on terms favourable to the Company or at all. If the Company is unable to obtain additional financing as needed, it may be required to reduce the scope of its activities and this could have a material adverse effect on the Company's activities, including resulting in its tenements being subject to forfeiture, and could affect the Company's ability to continue as a going concern.

The Company may undertake additional offerings of Shares and of securities convertible into Shares in the future. The increase in the number of Shares issued and outstanding and the possibility of sales of such Shares may have a depressive effect on the price of Shares. In addition, as a result of such additional Shares the voting power of the Company's existing Shareholders will be diluted.

(b) Exploration and development risk

Mineral exploration and development are high-risk undertakings. There can be no assurance that exploration and development will result in the discovery of further mineral deposits. Even if an apparently viable deposit is identified, there is no guarantee that it can be economically exploited. Mineral exploration and development involve substantial expenses related to locating and establishing mineral reserves,

developing metallurgical processes, and operating mining and processing facilities at a particular site. Until a deposit is actually mined and processed, the quantity of mineral resources and grades must be considered as estimates only, and are expressions of judgement based on knowledge, mining experience, analysis of drilling results and industry best practices. The future exploration and development activities of the Company may be affected by a range of factors, including geological conditions, limitations on activities due to seasonal weather patterns, unanticipated operational and technical difficulties, industrial and environmental accidents, native title process, changing government regulations and many other factors beyond the control of the Company.

Further to the above, the future development of mining operations at the Company's projects (or any other current or future projects that the Company may have or acquire an interest in) is dependent on a number of factors and avoiding various risks, including, but not limited to the ability of the Company to repay its existing debt facilities, the mechanical failure of operating plant and equipment, unexpected shortages or increases in the price of consumables, spare parts and plant and equipment, cost overruns, risk of access to the required level of funding and contracting risk from third parties providing essential services.

In addition, the construction of any proposed development may exceed the expected timeframe or cost for a variety of reasons out of the Company's control. Any delays to project development could adversely affect the Company's operations and financial results and may require the Company to raise further funds to complete the project development and commence operations.

(c) Underwriting risk

The Entitlement Offer is partially underwritten by the Underwriter pursuant to the terms of the Underwriting Agreement. If certain conditions are not satisfied or certain termination events occur (see Section 5.3(d) of the Prospectus for a summary of those events) the Underwriter may be able to terminate its underwriting commitments, which would consequently have an adverse impact on the amount of proceeds raised under the Entitlement Offer or result in the Entitlement Offer not proceeding at all.

(d) Title

Mineral rights in NSW may be owned by private parties, local government, state government, federal government, or indigenous groups. Verifying the chain of title can be complex and may require that remedial steps be taken to correct any defect in title. Securing exploration and extraction rights to federally-owned mineral rights requires strict adherence to claim staking and maintenance requirements. The Company has taken reasonable steps to verify the title to the tenements in which it has, or has a right to acquire, an interest. Although these steps are in line with market practice for exploration projects, they do not guarantee title to the tenements nor guarantee that the tenements are free of any third party rights or claims.

In addition, some of the Company's assets are located in the United States. While the Directors believe that the United States government is supportive of the exploration and development of mineral resources by foreign investors, there is no assurance that future political and economic conditions in the United States will not result in its government adapting different policies regarding foreign development and ownership of mineral resources. Any changes in policy may result in legislative changes affecting ownership of assets, taxation, rates of exchange, environmental protection,

labour relations, repatriation of income and return on capital, all of which may affect the Company's ability to develop its projects.

(e) **Mine development**

Possible future development of mining operations at the Company's projects is dependent on a number of factors including, but not limited to, the acquisition and/or delineation of economically recoverable mineralisation, favourable geological conditions, receiving the necessary approvals from all relevant authorities and parties, seasonal weather patterns, unanticipated technical and operational difficulties encountered in extraction and production activities, mechanical failure of operating plant and equipment, shortages or increases in the price of consumables, cost overruns, access to the required level of funding and contracting risk for third parties providing essential services.

No assurance can be given that any of the Company's projects will achieve commercial viability. The risks associated with the development of a mine will be considered in full as part of the Company's exploration activities and will be managed with ongoing consideration of stakeholder interests.

(f) **Landowner and Access Risk**

The Company is required to negotiate access arrangements and pay compensation to land-owners, local authorities and traditional land users. The Company's ability to resolve access and compensation issues will have an impact on the future success and financial performance of the Company. Legal processes are available in the case of disputes, but in preference the Company has made respectful and fair land-owner interactions an integral component of its strategy.

(g) **New projects and potential acquisitions**

The Company may pursue and assess new business opportunities in the resources sector, likely, but not limited to, opportunities within the region it currently operates, Nyngan-Cobar region of NSW. These new business opportunities may take the form of direct project acquisitions, joint ventures, farm-ins, acquisition of tenements/permits, and/or direct equity participation.

The acquisition of projects (whether completed or not) may require the payment of monies (as a deposit and/or exclusivity fee) after only limited due diligence or prior to the completion of comprehensive due diligence. There can be no guarantee that any proposed acquisition will be completed or be successful. If the proposed acquisition is not completed, monies advanced may not be recoverable, which may have a material adverse effect on the Company.

If an acquisition is completed, the Directors will need to reassess at that time, the funding allocated to current projects and new projects, which may result in the Company reallocating funds from other projects and/or raising additional capital (if available).

Furthermore, notwithstanding that an acquisition may proceed upon the completion of due diligence, the usual risks associated with the new project/business activities will remain.

(h) **Sovereign risk**

The Company's White Hills Project is located in Arizona in the United States, and is subject to the risks associated in operating in a foreign country. These risks may include economic, social or political instability or change, hyperinflation, currency non-convertibility or instability and changes of law affecting foreign ownership, government participation, taxation, working conditions, rates of exchange, exchange

control, exploration licensing, export duties, repatriation of income or return of capital, environmental protection, labour relations as well as government control over natural resources or government regulations that require the employment of local staff or contractors or require other benefits to be provided to local residents.

Any future material adverse changes in government policies or legislation in foreign jurisdictions in which the Company has projects that affect foreign ownership, exploration, development or activities of companies involved in exploration and production, may affect the viability and profitability of the Company.

(i) **Completion, counterparty and contractual risk**

On 29 April 2025 the Company announced it had entered into a joint venture and earn-in agreement to acquire up to a 40% interest in the Gold Basin Oxide Gold Project in Arizona in the United States (**Option Agreement**), subject to the satisfaction of certain standard commercial conditions, including the entry into a formal joint venture arrangement, and the completion of certain expenditure requirements in respect to the project.

There is no certainty that the Company will satisfy all conditions under the Option Agreement and acquire up to a 40% interest in the Gold Basin Oxide Gold Project. Further, the ability of the Company to achieve its objectives will depend on the performance by the vendors and certain third parties in respect to completion under the Option Agreement. If the vendors or any other counterparty defaults in the performance of its obligations, it may be necessary for the Company to approach a court to seek a legal remedy, which can be costly and without any certainty of a favourable outcome.

(j) **Joint venture risk**

The Company's Canbelego Copper Project is subject to joint venture arrangements. As with any joint venture, it is subject to various counterparty risks including failure by the joint venture counterparty, to act in the best interests of the joint venture. Any failure by the counterparty to act in the best interests of the joint venture may or may not give the Company contractual remedies, however, even if such remedies are available, they may be costly and time consuming to pursue.

(k) **Currency volatility**

International prices of various commodities, including gold and copper, are denominated in United States dollars, whereas the income and expenditure of the Company are and will be taken in account in Australian dollars, consequently exposing the Company to fluctuations and volatility of the rate of exchange between the United States dollar and the Australian dollar as determined by the international markets.

4.2 Mining industry risks

(a) **Resource risk**

There is inherent uncertainty with mineral resource estimates. In addition, there is no guarantee that Inferred Mineral Resource estimates can successfully be converted to Indicated or Measured Mineral Resource estimates to allow potential reserve estimates. There remains risk, regardless of JORC Code or other status, with actual mining performance against any resource or reserve estimate.

(b) **Operating risk**

The operations of the Company may be affected by various factors, including failure to locate or identify mineral deposits, failure to achieve predicted grades in

exploration and mining, operational and technical difficulties encountered in mining, difficulties in commissioning and operating plant and equipment, mechanical failure or plant breakdown, unanticipated metallurgical problems which may affect extraction costs, adverse weather conditions, industrial and environmental accidents, industrial disputes and unexpected shortages or increases in the costs of consumables, spare parts, plant and equipment.

The Company's current exploration focused activities are most prone to weather related access issues. This may affect the road and land surface conditions or cause a change in anticipated agricultural activities on land where the Company had planned to work. This may cause delays to the planned work on specific targets or areas considered prospective.

No assurances can be given that the Company will achieve commercial viability through the successful exploration and/or mining of its tenement interests. Unless and until the Company is able to realise value from its projects, it is likely to incur ongoing operating losses.

(c) **Metallurgy**

Metal and/or mineral recoveries are dependent upon the metallurgical process, and by its nature contain elements of significant risk such as:

- (i) identifying a metallurgical process through test work to produce a saleable metal and/or concentrate;
- (ii) developing an economic process route to produce a metal and/or concentrate; and
- (iii) changes in mineralogy in the ore deposit can result in inconsistent metal recovery, affecting the economic viability of the project.

(d) **Environmental risks**

The operations and proposed activities of the Company are subject to State and Federal laws and regulations concerning the environment. As with most exploration projects and mining operations, the Company's activities are expected to have an impact on the environment, particularly if advanced exploration or mine development proceeds. It is the Company's intention to conduct its activities to the highest standard of environmental obligation, including compliance with all environmental laws.

Mining operations have inherent risks and liabilities associated with safety and damage to the environment and the disposal of waste products occurring as a result of mineral exploration and production. The occurrence of any such safety or environmental incident could delay production or increase production costs. Events, such as unpredictable rainfall or bushfires may impact on the Company's ongoing compliance with environmental legislation, regulations and licences. Significant liabilities could be imposed on the Company for damages, clean-up costs or penalties in the event of certain discharges into the environment, environmental damage caused by previous operations or noncompliance with environmental laws or regulations.

The disposal of mining and process waste and mine water discharge are under constant legislative scrutiny and regulation. There is a risk that environmental laws and regulations become more onerous, which may make the Company's operations more expensive.

Approvals are required for land clearing and for ground disturbing activities. Delays in obtaining such approvals can result in the delay to anticipated exploration programmes or mining activities.

(e) **Failure to satisfy expenditure commitments**

Interests in tenements in New South Wales are governed by the mining acts and regulations that are current and are evidenced by the granting of licences or leases. Each licence or lease is for a specific term and carries with it annual expenditure and reporting commitments, as well as other conditions requiring compliance. Consequently, the Company could lose title to or its interest in any tenement if licence conditions are not met or if insufficient funds are available to meet expenditure commitments.

(f) **Tenure and renewals**

Mining and exploration tenements are subject to periodic renewal. There is no guarantee that current or future tenements or future applications for production tenements will be approved. Tenements are subject to the applicable mining acts and regulations in New South Wales. The renewal of the term of a granted tenement is also subject to the discretion of the relevant Minister. Renewal conditions may include increased expenditure and work commitments or compulsory relinquishment of areas of any tenement comprising a project. The imposition of new conditions or the inability to meet those conditions may adversely affect the operations, financial position and/or performance of the Company.

(g) **Native title and Aboriginal heritage**

The Company's tenements may include areas over which legitimate common law native title or indigenous rights of persons in Australia exist. If native title or indigenous rights do exist, the ability of the Company to gain access may be adversely affected. The Company will closely monitor the potential effect of native title or indigenous claims involving its tenements.

Access to land for exploration purposes can be adversely affected by land ownership, including private (freehold) land, pastoral lease and native title land or claims under the Native Title Act 1993 (Cth) (**NTA**) (or similar legislation in the jurisdiction where the Company operates). The effect of the NTA is that existing and new tenements held by the Company may be affected by native title claims and procedures.

There is a risk that a determination could be made that native title exists in relation to land the subject of a tenement held or to be held by the Company which may affect the operation of the Company's business and development activities. In the event that it is determined that native title does exist, or a native title claim has been registered, the Company may need to comply with procedures under the NTA in order to carry out its operations or to be granted any additional rights required. Such procedures may take considerable time, involve the negotiation of significant agreements, may involve access rights, and require the payment of compensation to those persons holding or claiming native title in the land the subject of a tenement.

The involvement in the administration and determination of native title issues may have a material adverse impact on the position of the Company in terms of cash flows, financial performance, business development, and the Share price.

(h) **Competition risk**

The industry in which the Company is involved is subject to domestic and global competition, including major mineral exploration and production companies. Although the Company will undertake all reasonable due diligence in its business decisions and operations, the Company will have no influence or control over the activities or

actions of its competitors, which activities or actions may, positively or negatively, affect the operating and financial performance of the Company's projects and business.

The Company's current and future potential competitors may include entities with greater financial and other resources than the Company which, as a result, may be in a better position to compete for future business opportunities. Many of the Company's competitors not only explore for and produce minerals, but also carry out refining operations and other products on a worldwide basis. There can be no assurance that the Company can compete effectively with these entities.

(i) **Third party contractor risks**

The Company is unable to predict the risk of insolvency or managerial failure by any of the third-party contractors used by the Company in any of its activities or the insolvency or other managerial failure by any of the other service providers used by the Company for any activity. The effects of such failures may have an adverse effect on the Company's activities.

(j) **Reliance on key personnel**

The Company's future depends, in part, on its ability to attract and retain key personnel. The Company may not be able to hire and retain such personnel at compensation levels consistent with its existing compensation and salary structure. Its future also depends on the continued contributions of its executive management team and other key management and technical personnel, the loss of whose services would be difficult to replace. In addition, the inability to continue to attract appropriately qualified personnel could have a material adverse effect on the Company's business.

(k) **Staffing**

Execution of planned work programs is dependent on the Company employing sufficient geologists and field technicians as well as securing appropriate contractors to undertake drilling, geophysical surveys, assaying and other related support activities to enable exploration activities to progress. In mid-2021 the Company established an exploration base in Orange, New South Wales and all of its key exploration personnel are based there and retained on a full time salary basis with appropriate equity incentives.

It may be difficult for the Company to attract and retain suitably qualified and experienced people given the current high demand in the industry and relatively small size of the Company, compared with other industry participants.

There is a limited pool of experienced development and technical personnel with experience in operating within remote mine sites. This, combined with the low Australian unemployment rate increases the risk of finding and retaining a suitably skilled workforce.

(l) **Climate change**

There are a number of climate-related factors that may affect the Company's business. Climate change or prolonged periods of adverse weather and climatic conditions (including rising sea levels, floods, hail, drought, water, scarcity, temperature extremes, frosts, earthquakes and pestilences) may have an adverse effect on the Company's ability to access its projects and therefore the Company's ability to carry out services.

Changes in policy, technological innovation and consumer or investor preferences could adversely impact the Company's business strategy, particularly in the event of a transition (which may occur in unpredictable ways) to a lower-carbon economy.

(m) **Occupational health and safety**

Site safety and occupational health and safety outcomes are a critical element in the reputation of the Company and its ability to retain and be awarded new contracts in the resources industry. While the Company has a strong commitment to achieving a safe performance on site a serious site safety incident could impact upon the reputation and financial outcomes for the Company. Operating a project in a remote location provides a range of health and safety risks that will need to be managed.

Additionally, laws and regulations as well as the requirements of customers may become more complex and stringent or the subject of increasingly strict interpretation and/or enforcement. Failure to comply with applicable regulations or requirements may result in significant liabilities, to suspended operations and increased costs.

Industrial accidents may occur in relation to the performance of the Company's services. Such accidents, particularly where a fatality or serious injury occurs, or a series of such accidents occurs, may have operational and financial implications for the Company which may negatively impact on the financial performance and growth prospects for the Company.

(n) **Insurance**

The Company intends to continue to insure its operations in accordance with industry practice. In certain circumstances, the Company's insurance may not be of a nature or level to provide adequate insurance cover. The occurrence of an event that is not covered or fully covered by insurance could have a material adverse effect on the business, financial condition and results of the Company. Insurance against all risks associated with mining exploration and production is not always available and where available the costs can be prohibitive.

(o) **Unforeseen expenses**

The Company's cost estimates and financial forecasts include appropriate provisions for material risks and uncertainties and are considered to be fit for purpose for the proposed activities of the Company. If risks and uncertainties prove to be greater than expected, or if new currently unforeseen material risks and uncertainties arise, the expenditure proposals of the Company are likely to be adversely affected.

4.3 Risks relevant to the Offers

(a) **Quotation risk**

The Company will apply for quotation of the Quoted Options subject to compliance with the requirements of ASX and the Listing Rules, however, the Quoted Options will only be admitted to official quotation by ASX if the conditions for quotation of a new class of securities are satisfied (which include, amongst other things, there being a minimum of 100,000 Quoted Options on issue, with at least 50 holders with a marketable parcel (within the meaning of the Listing Rules)).

The Company makes no guarantee that any such application for quotation will be successful and there is a risk that the Company will not be able to satisfy the ASX requirements for quotation. In the event that the Company is unable to satisfy the ASX requirements, the Quoted Options will not be issued. If the Quoted Options are admitted to official quotation by ASX, the price of the Quoted Options is subject to uncertainty and there can be no assurance that an active market for the Quoted Options will develop or continue after the Offers.

(b) **Option risk and dilution**

Options are, by their nature, only of value at times when the exercise price is lower than the price of the underlying Shares. There is no guarantee that the Quoted Options offered under this Prospectus will, at any particular time, have an exercise price which is lower than the price of the Shares.

There is a risk that the Quoted Options may expire at a time when they have little or no value.

On completion of the Offers, assuming the Offers are fully subscribed, there will be up to approximately 908,062,301 Quoted Options on issue, including the Underwriter Options. If exercised, these Quoted Options will be converted into Shares thereby causing the shareholdings of Shareholders to be diluted by up to 15.25% (on the basis that the Offers are fully subscribed and no other Securities are issued or exercised at the date of this Prospectus).

However, each Quoted Option has an exercise price of \$0.002 which means that the Company will receive additional funds of up to approximately \$1,816,125 (before costs) upon exercise of the Quoted Options, assuming all Quoted Options the subject of the Offers are issued and subsequently exercised. There is no certainty that Quoted Options, if issued, will be exercised in full, or at all.

4.4 General risks

(a) **General economic climate**

Factors such as inflation, currency fluctuations, interest rates, legislative changes, political decisions and industrial disruption have an impact on operating costs. The Company's future income, asset values and share price can be affected by these factors and, in particular, by exchange rate movements.

(b) **Securities investments**

Applicants should be aware that there are risks associated with any securities investment. The prices at which the Company's Shares trade may be above or below the issue price of the Offers and may fluctuate in response to a number of factors. Further, the stock market is prone to price and volume fluctuations. There can be no guarantee that trading prices will be sustained. These factors may materially affect the market price of the Shares regardless of the Company's operational performance.

(c) **Government and legal risk**

Changes in government, monetary policies, taxation and other laws can have a significant impact on the Company's assets, operations and ultimately the financial performance of the Company and its Shares. Such changes are likely to be beyond the control of the Company and may affect industry profitability as well as the Company's capacity to explore and mine.

The Company is not aware of any reviews or changes that would affect its permits. However, changes in community attitudes on matters such as taxation, competition policy and environmental issues may bring about reviews and possibly changes in government policies. There is a risk that such changes may affect the Company's development plans or its rights and obligations in respect of its permits. Any such government action may also require increased capital or operating expenditures and could prevent or delay certain operations by the Company.

(d) **Litigation risks**

The Company is exposed to possible litigation risks including native title claims, tenure disputes, environmental claims, occupational health and safety claims and employee claims. Further, the Company may be involved in disputes with other parties in the future which may result in litigation. Any such claim or dispute if proven, may impact adversely on the Company's operations, financial performance and financial position. As at the date of this Prospectus, there are no material legal proceedings affecting the Company and the Directors are not aware of any legal proceedings pending or threatened against or affecting the Company.

(e) **Force majeure**

Force majeure is a term used to refer to an event beyond the control of a party claiming that the event has occurred. Significant catastrophic events – such as war, acts of terrorism, pandemics, loss of power, cyber security breaches or global threats or natural disasters – such as earthquakes, fire or floods or the outbreak of epidemic disease – could disrupt the Company's operations and interrupt critical functions, or otherwise harm the business. To the extent that such disruptions or uncertainties result in delays or cancellations of the deployment of the Company's products and solutions, its business, results of operations and financial condition could be harmed.

(f) **Taxation**

The acquisition and disposal of Securities will have tax consequences, which will differ depending on the individual financial affairs of each investor. All potential investors in the Company are urged to obtain independent financial advice about the consequences of acquiring Securities from a taxation point of view and generally. To the maximum extent permitted by law, the Company, its officers and each of their respective advisers accept no liability and responsibility with respect to the taxation consequences of applying for Securities under this Prospectus.

(g) **Unforeseen risk**

There may be other risks which the Directors are unaware of at the time of issuing this Prospectus which may impact on the Company, its operations and/or the valuation and performance of its Securities.

4.5 Speculative investment

The above list of risk factors ought not to be taken as exhaustive of the risks faced by the Company or by investors in the Company. The above factors, and others not specifically referred to above, may in the future materially affect the financial performance of the Company and the value of the Securities offered under this Prospectus.

Therefore, the Securities to be issued under the Offers carry no guarantee with respect to the payment of dividends, returns of capital or the market value of those Securities.

Potential investors should consider that the investment in the Company is highly speculative and should consult their suitably qualified professional advisers before deciding whether to apply for Securities pursuant to this Prospectus.

5. Additional information

5.1 Rights and liabilities attaching to Shares

A summary of the rights attaching to Shares in the Company is below. This summary is qualified by the full terms of the Constitution (a full copy of the Constitution is available from the Company on request free of charge) and does not purport to be exhaustive or to constitute a definitive statement of the rights and liabilities of Shareholders. These rights and liabilities can involve complex questions of law arising from an interaction of the Constitution with statutory and common law requirements. For a Shareholder to obtain a definitive assessment of the rights and liabilities which attach to Shares in any specific circumstances, the Shareholder should seek legal advice.

(a) General meeting and notices

Shareholders are entitled to be present in person, or by proxy, attorney or representative to attend and vote at general meetings of the Company.

Shareholders may requisition meetings in accordance with section 249D of the Corporations Act and the Constitution of the Company.

(b) Ranking of Shares

At the date of this Prospectus, all Shares are of the same class and rank equally in all respects. Specifically, the Shares issued pursuant to this Prospectus will rank equally with existing Shares.

(c) Voting rights

Subject to any rights or restrictions, at general meetings of Shareholders or classes of shareholders:

- (i) every Shareholder present and entitled to vote may vote in person or by attorney, proxy or representative;
- (ii) on a show of hands, every person present who is a Shareholder or a proxy, attorney or representative of a Shareholder has one vote; and
- (iii) on a poll, every person present who is a Shareholder or a proxy, attorney or representative of a Shareholder, has one vote for every fully paid Share held and a fraction of one vote for each partly paid-up Share held, equal to the proportion which the amount paid up on that Share (excluding amounts credited) is to the total amounts paid up and payable (excluding amounts credited) on that Share.

(d) Dividend rights

Subject to the rights of the holders of any Shares with special rights to dividends, the Directors may determine or declare a dividend to be paid to the Shareholders entitled to the dividend which shall be payable on all Shares according to the proportion that the amount paid (not credited) is of the total amounts paid and payable in respect of such Shares.

No dividend carries interest against the Company and the declaration of Directors as to the amount to be distributed is conclusive.

The Company must not pay a dividend unless the Company's assets exceed its liabilities immediately before the dividend is declared and the excess is sufficient for the payment of the dividend. The Directors may capitalise any profits of the Company

and distribute that capital to the Shareholders, in the same proportions as the Shareholders are entitled to a distribution by dividend.

(e) **Variation of rights**

If at any time the share capital is divided into different classes of Shares the rights attaching to the Shares may, subject to their terms of issue, only be varied by the consent in writing of the holders of three-quarters of the issued Shares of that class, or with the sanction of a special resolution passed at a separate general meeting of the holders of the Shares in that class.

(f) **Transfer of Shares**

Shares can be transferred upon delivery of a proper instrument of transfer to the Company or by a transfer in accordance with the ASX Settlement Operating Rules. Unless the transfer occurs via a proper ASTC transfer, the instrument of transfer must be in writing, in any usual or common form, or in any other form that the Directors approve. Until the transferee has been registered, the transferor is deemed to remain the holder, even after signing the instrument of transfer.

In some circumstances, the Directors may refuse to register a transfer if upon registration the transferee will hold less than a marketable parcel. The Board may refuse to register a transfer of Shares upon which the Company has a lien. The Company must refuse to register a transfer of Shares where the Corporations Act, Listing Rules or ASX Settlement Operating Rules or a law about stamp duty requires the Company to do so.

(g) **Future increase in capital**

The issue of any Shares is under the control of the Board of the Company as appointed from time to time. Subject to restrictions on the issue or grant of Shares contained in the Listing Rules, the Constitution and the Corporations Act (and without affecting any special right previously conferred on the holder of an existing Share or class of shares), the Directors may issue Shares and other Securities as they shall, in their absolute discretion, determine.

(h) **Rights on winding up**

If the Company is wound up, the liquidator may with the sanction of special resolution, divide among the Shareholders in kind the whole or any part of the property of the Company and may for that purpose set such value as the liquidator considers fair on any property to be so divided and may determine how the division is to be carried out as between the Shareholders or different classes of Shareholders.

(i) **Alteration of constitution**

In accordance with the Corporations Act, the Constitution can only be amended by a special resolution passed by at least three quarters of Shareholders present and voting at the general meeting. In addition, at least 28 days written notice specifying the intention to propose the resolution as a special resolution must be given.

5.2 **Terms and conditions of Quoted Options**

The terms and conditions of the Quoted Options (including the Underwriter Options) (referred to in this Section 5.2 as “**Options**”) are as follows:

- (a) **(Entitlement):** Each Option entitles the holder to subscribe for one Share upon exercise of the Option.

- (b) **(Exercise Price):** The Options have an exercise price of \$0.002 per Option (**Exercise Price**).
- (c) **(Expiry Date):** The Options expire at 5.00pm (AWST) on the date 2 years after the date of issue. An Option not exercised before the Expiry Date will automatically lapse on the Expiry Date.
- (d) **(Exercise Period):** The Options are exercisable at any time and from time to time on or prior to the Expiry Date.
- (e) **(Quotation of the Options):** It is the Company's current intention to seek quotation of the Options. There is no certainty that quotation of the Options will be granted. The quotation of the Options will be subject to the Company offering the Options under a prospectus prepared in accordance with Chapter 6D of the Corporations Act and lodged with ASIC and satisfying the quotation conditions set out in the Listing Rules.
- (f) **(Notice of Exercise):** The Options may be exercised by notice in writing to the Company in the manner specified on the Option certificate (**Notice of Exercise**) and payment of the Exercise Price for each Option being exercised in Australian currency by electronic funds transfer or other means of payment acceptable to the Company.

The Options held by each holder may be exercised in whole or in part, and if exercised in part, at least 100,000 must be exercised on each occasion.

Any Notice of Exercise of an Option received by the Company will be deemed to be a notice of the exercise of that Option as at the date of receipt of the Notice of Exercise and the date of receipt of the payment of the Exercise Price for each Option being exercised in cleared funds (**Exercise Date**).

- (g) **(Timing of issue of Shares on exercise):** Within 5 Business Days after the Exercise Date the Company will:
 - (i) allot and issue the number of Shares required under these terms and conditions in respect of the number of Options specified in the Notice of Exercise and for which cleared funds have been received by the Company;
 - (ii) if required, give ASX a notice that complies with section 708A(5) of the Corporations Act; and
 - (iii) if admitted to the official list of ASX at the time, apply for official quotation on ASX of Shares issued pursuant to the exercise of the Options.
- (h) **(Transferability):** The Options are freely transferable from the date of issue, subject to any restriction or escrow arrangements imposed by ASX or under Australian securities laws and paragraph (i) below.
- (i) **(Restrictions on transfer of Shares):** If the Company is required but unable to give ASX a notice under paragraph (g)(ii), or such a notice for any reason is not effective to ensure that an offer for sale of the Shares does not require disclosure to investors, Shares issued on exercise of Options may not be traded and will be subject to a holding lock until 12 months after their issue unless the Company, at its sole discretion, elects to issue a prospectus pursuant to section 708A(11) of the Corporations Act.

- (j) **(Shares issued on exercise)**: Shares issued on exercise of the Options will rank equally with the then Shares of the Company.
- (k) **(Quotation of Shares on exercise)**: If admitted to the official list of ASX at the time, application will be made by the Company to ASX for quotation of the Shares issued upon the exercise of the Options in accordance with the Listing Rules.
- (l) **(Reconstruction of capital)**: If at any time the issued capital of the Company is reconstructed, all rights of an Option holder are to be changed in a manner consistent with the Corporations Act and the Listing Rules at the time of the reconstruction.
- (m) **(Participation in new issues)**: There are no participation rights or entitlements inherent in the Options and holders will not be entitled to participate in new issues of capital offered to Shareholders during the currency of the Options without exercising the Options.
- (n) **(Change in exercise price)**: There will be no change to the exercise price of the Options or the number of Shares over which the Options are exercisable in the event of the Company making a pro-rata issue of Shares or other securities to the holders of Shares in the Company (other than a bonus issue).
- (o) **(Adjustment for bonus issues of Shares)**: If the Company makes a bonus issue of Shares or other securities to existing Shareholders (other than an issue in lieu or in satisfaction of dividends or by way of dividend reinvestment):
 - (i) the number of Shares which must be issued on the exercise of an Option will be increased by the number of Shares which the Option holder would have received if the Option holder had exercised the Option before the record date for the bonus issue; and
 - (ii) no change will be made to the Exercise Price.
- (p) **(Takeovers prohibition)**:
 - (i) the issue of Shares on exercise of the Options is subject to and conditional upon the issue of the relevant Shares not resulting in any person being in breach of section 606(1) of the Corporations Act; and
 - (ii) the Company will not be required to seek the approval of its members for the purposes of item 7 of section 611 of the Corporations Act to permit the issue of any Shares on exercise of the Options.
- (q) **(No other rights)**: An Option does not give a holder any rights other than those expressly provided by these terms and those provided at law where such rights at law cannot be excluded by these terms.

5.3 Underwriting Agreement

(a) Underwriting

By an agreement between the Underwriter and the Company (**Underwriting Agreement**), the Underwriter has agreed to partially underwrite the Entitlement Offer up to \$500,000.

The Underwriter may, at their own cost, appoint sub-underwriters to sub-underwrite the Entitlement Offer.

Pursuant to the Related Party Sub-Underwriting, Directors Kylie Prendergast and Kevin Lynn via their respective associated entities have committed to sub-underwrite the Entitlement Offer for up to \$80,000. Refer to Section 5.5 for further details on the Related Party Sub-Underwriting.

(b) **Fees**

The Company has agreed to pay the Underwriter (or their respective nominees) on completion of the Entitlement Offer:

- (i) 40 Underwriter Options for every \$1.00 raised under the Offers;
- (ii) \$60,000, which, on mutual agreement between the Company and the Underwriter, may be satisfied by the issue of Shares under the Shortfall Offer;
- (iii) a fee equal to 1% of gross proceeds raised under the Offers, which, on mutual agreement between the Company and the Underwriter, may be satisfied by the issue of Shares under the Shortfall Offer;
- (iv) a cash fee equal to 5% of the Underwritten Amount; and
- (v) a cash fee equal to 5% of the gross proceeds of any Shortfall Shares placed beyond the Underwritten Amount. This will apply to any amount that might be placed in addition to the amount raised under the Offers.

(collectively, the **Underwriter Fee**).

(c) **Expenses and indemnity**

Subject to the limitations of the indemnity included in the Underwriting Agreement, the Company will indemnify and keep indemnified the Underwriter and its directors, officers, employees and agents (**Related Parties**) and hold them harmless from and against all prosecutions, losses (including loss of profit or losses or costs incurred in connection with any investigation, enquiry or hearing by ASIC, ASX or any governmental authority or agency but excluding indirect, special or consequential losses), penalties, actions, suits, claims, costs (including legal costs on a solicitor-and-own-client basis), demands and proceedings (whether civil or criminal) (**Liability**) arising out of or in respect of:

- (i) non-compliance by the Company with or breach of any legal requirement or the Listing Rules in relation to the Prospectus or any Supplementary Prospectus;
- (ii) any advertising of the Offers (notwithstanding that the Underwriter may have consented to it) or any documents in respect of the Offers which accompany the Prospectus or any Supplementary Prospectus or otherwise arising out of the Offers;
- (iii) any statement, misstatement, misrepresentation, non-disclosure, inaccuracy in or omission from the Prospectus or any Supplementary Prospectus, any

advertising of the Offers or any documents in respect of the Offers which accompany the Prospectus or any Supplementary Prospectus; or

- (iv) any breach or failure by the Company to observe any of the Underwriting Agreement.

The Underwriting Agreement also contains a number of indemnities, undertakings, representations and warranties from the Company to the Underwriter that are considered standard for an agreement of this type.

(d) **Termination events**

The obligation of the Underwriter to underwrite the Offer is subject to certain events of termination. The Underwriter may terminate the Underwriting Agreement by giving notice in writing to the Company on or at any time before the issue of all the Underwritten Securities, without cost or liability to itself upon the occurrence of any of the following events:

- (i) **Indices fall:** The S&P ASX 200 Index is, for a period of no less than three consecutive Business Days after the date of the Underwriting Agreement, 10% or more below its respective level as at the close of business on the Business Day prior to the date of the Underwriting Agreement;
- (ii) **Commodities:** the price of COMEX gold or the NYMEX WTI crude is at any time after the date of the Underwriting Agreement 7% or more below its respective level as at the close of business on the Business Day prior to the date of the Underwriting Agreement;
- (iii) **Prospectus:** The Company does not lodge the Prospectus on the lodgement date or the Prospectus or the Offer is withdrawn by the Company;
- (iv) **No Listing Approval:** The Company fails to lodge an Appendix 3B and an Appendix 2A in relation to the Underwritten Securities with ASX by the time required by the Listing Rules, the Corporations Act or any other regulations;
- (v) **No Official Quotation:** ASX has advised the Company that it will not or may not grant official quotation to the Underwritten Securities or admit the Company to trading on the ASX following completion of the Offer (including issue of the Shortfall Securities) on or prior to the Shortfall Notice deadline date;
- (vi) **Price:** the offer price of New Shares under the Entitlement Offer is greater than the volume weighted average price of Shares calculated over three days after the date of the Underwriting Agreement;
- (vii) **Supplementary prospectus:**
 - (A) the Underwriter, having elected not to exercise its right to terminate its obligations under the Underwriting Agreement as a result of an occurrence as described in clause Section 5.3(d)(xxiii) below ('Adverse change'), forms the view on reasonable grounds that a Supplementary Prospectus should be lodged with ASIC for any of the reasons referred to in Section 719 of the Corporations Act and the

Company fails to lodge a Supplementary Prospectus in such form and content and within such time as the Underwriter may reasonably require; or

- (B) the Company lodges a Supplementary Prospectus without the prior written agreement of the Underwriter;
- (viii) **(Non-compliance with disclosure requirements):** it transpires that the Prospectus does not contain all the information that investors and their professional advisers would reasonably require to make an informed assessment of:
 - (A) the assets and liabilities, financial position and performance, profits and losses and prospects of the Company; and
 - (B) the rights and liabilities attaching to the Underwritten Securities;
- (ix) **(Misleading Prospectus):** it transpires that there is a statement in the Prospectus that is misleading or deceptive or likely to mislead or deceive, or that there is an omission from the Prospectus (having regard to the provisions of Sections 711, 713 and 716 of the Corporations Act) or if any statement in the Prospectus becomes misleading or deceptive or likely to mislead or deceive or if the issue of the Prospectus is or becomes misleading or deceptive or likely to mislead or deceive;

- (xi) **(Restriction on issue):** the Company is prevented from issuing the Underwritten Securities within the time required by the Underwriting Agreement, the Corporations Act, the Listing Rules, any statute, regulation or order of a court of competent jurisdiction by ASIC, ASX or any court of competent jurisdiction or any governmental or semi-governmental agency or authority;

- (xiv) **(ASIC hearing):** ASIC gives notice of its intention to hold a hearing under Section 739 of the Corporations Act in relation to the Prospectus to determine if it should make a stop order in relation to the Prospectus or ASIC makes an interim or final stop order in relation to the Prospectus under Section 739 of the Corporations Act;

- (xv) **(Takeovers Panel)**: the Takeovers Panel makes a declaration that circumstances in relation to the affairs of the Company are unacceptable circumstances under Pt 6.10 of the Corporations Act, or an application for such a declaration is made to the Takeovers Panel;
