## IMPORTANT NOTICE

---

This Prospectus is dated 14 August 2025 and was lodged with the ASIC on that date. The ASIC, ASX and their respective officers take no responsibility for the contents of this Prospectus or the merits of the investment to which this Prospectus relates.

No RMXO Options may be issued on the basis of this Prospectus later than 13 months after the date of this Prospectus.

No person is authorised to give information or to make any representation in connection with this Prospectus, which is not contained in this Prospectus. Any information or representation not so contained may not be relied on as having been authorised by the Company in connection with this Prospectus.

It is important that investors read this Prospectus in its entirety and seek professional advice where necessary. The RMXO Options offered by this Prospectus should be considered as highly speculative.

Applications for RMXO Options offered pursuant to this Prospectus can only be made by an original Entitlement and Acceptance Form or Shortfall Application Form.

This Prospectus is a transaction specific prospectus for an offer of continuously quoted securities (as defined in the Corporations Act) and has been prepared in accordance with section 713 of the Corporations Act. It does not contain the same level of disclosure as an initial public offering prospectus and is only required to contain information in relation to the effect of the issue of securities on a company and the rights attaching to the securities. It is not necessary to include general information in relation to all of the assets and liabilities, financial position, profits and losses or prospects of the issuing company.

Representations contained in this Prospectus are made taking into account that the Company is a disclosing entity for the purposes of the Corporations Act and certain matters are publicly available information or may reasonably be expected to be known to investors and professional advisers whom prospective investors may consult.

### No Investment Advice

The information contained in this Prospectus is not financial product advice or investment advice and does not take into account your financial or investment objectives, financial situation or particular needs (including financial or taxation issues). You should seek professional advice from your accountant, financial adviser, stockbroker, lawyer or other professional adviser before deciding to subscribe for RMXO Options under this Prospectus to determine whether it meets your objectives, financial situation and needs.

### Forward-looking statements

This Prospectus contains forward-looking statements which are identified by words such as 'may', 'could', 'believes', 'estimates', 'targets', 'expects', or 'intends' and other similar words that involve risks and uncertainties.

These statements are based on an assessment of present economic and operating conditions, and on a number of assumptions regarding future events and actions that, as at the date of this Prospectus, are expected to take place.

Such forward-looking statements are not guarantees of future performance and involve known and unknown risks, uncertainties, assumptions and other important

factors, many of which are beyond the control of the Company, the Directors and the Company's management.

The Company cannot and does not give any assurance that the results, performance or achievements expressed or implied by the forward-looking statements contained in this Prospectus will actually occur and investors are cautioned not to place undue reliance on these forward-looking statements.

The Company has no intention to update or revise forward-looking statements, or to publish prospective financial information in the future, regardless of whether new information, future events or any other factors affect the information contained in this Prospectus, except where required by law.

These forward-looking statements are subject to various risk factors that could cause the Company's actual results to differ materially from the results expressed or anticipated in these statements. These risk factors are set out in Section 5.

### Overseas shareholders

This Offer does not, and is not intended to, constitute an offer in any place or jurisdiction in which, or to any person to whom, it would not be lawful to make such an offer or to issue this Prospectus.

It is not practicable for the Company to comply with the securities laws of overseas jurisdictions having regard to the number of overseas Shareholders, the number and value of RMXO Options these Shareholders would be offered and the cost of complying with regulatory requirements in each relevant jurisdiction. Accordingly, the Offer is not being extended and RMXO Options will not be issued to Shareholders with a registered address which is outside Australia or New Zealand.

For further information on overseas Shareholders please refer to Section 2.9.

### Continuous disclosure obligations

The Company is a "disclosing entity" (as defined in section 111AC of the Corporations Act) for the purposes of section 713 of the Corporations Act and, as such, is subject to regular reporting and disclosure obligations. Specifically, like all listed companies, the Company is required to continuously disclose any information it has to the market which a reasonable person would expect to have a material effect on the price or the value of the RMXO Options.

This Prospectus is intended to be read in conjunction with the publicly available information in relation to the Company which has been notified to ASX and does not include all of the information that would be included in a prospectus for an initial public offering of securities in an entity that is not already listed on a stock exchange. Investors should therefore have regard to the other publicly available information in relation to the Company before making a decision whether or not to invest.

Having taken such precautions and having made such enquires as are reasonable, the Company believes that it has complied with the general and specific requirements of ASX as applicable from time to time throughout the three months before the issue of this Prospectus which required the Company to notify ASX of information about specified events or matters as they arise for the purpose of ASX making that information available to the stock market conducted by ASX.

Please refer to Section 6.2 for further details.

### **Target Market Determination**

In accordance with the design and distribution obligations under the Corporations Act, the Company has determined the target market for the offer of RMXO Options issued under this Prospectus. The Company will only distribute this Prospectus to those investors who fall within the target market determination (TMD) as set out on the Company's website [www.redmountainmining.com.au](http://www.redmountainmining.com.au).

### **Electronic Prospectus**

A copy of this Prospectus can be downloaded from the website of the Company at [www.redmountainmining.com.au](http://www.redmountainmining.com.au). If you are accessing the electronic version of this Prospectus for the purpose of making an investment in the Company, you must be an Australian or New Zealand resident and must only access this Prospectus from within Australia or New Zealand.

The Corporations Act prohibits any person passing onto another person an Application Form unless it is attached to a hard copy of this Prospectus or it accompanies the complete and unaltered version of this Prospectus. You may obtain a hard copy of this Prospectus free of charge by contacting the Company by phone on +61 8 6559 1792 during office hours or by emailing the Company at [www.redmountainmining.com.au](mailto:info@redmountainmining.com.au).

The Company reserves the right not to accept an Application Form from a person if it has reason to believe that when that person was given access to the electronic Application Form, it was not provided together with the electronic Prospectus and any relevant supplementary or replacement prospectus or any of those documents were incomplete or altered.

### **Company Website**

No documents or other information available on the Company's website is incorporated into this Prospectus by reference.

### **Financial forecasts**

The Directors have considered the matters set out in ASIC Regulatory Guide 170 and believe that they do not have a reasonable basis to forecast future earnings on the basis that the operations of the Company are inherently uncertain. Accordingly, any forecast or projection information would contain such a broad range of potential outcomes and possibilities that it is not possible to prepare a reliable best estimate forecast or projection.

### **Clearing House Electronic Sub-Register System (CHES) and Issuer Sponsorship**

The Company will apply to participate in CHES, for those investors who have, or wish to have, a sponsoring stockbroker. Investors who do not wish to participate through CHES will be issuer sponsored by the Company.

Electronic sub-registers mean that the Company will not be issuing certificates to investors. Instead, investors will be provided with statements (similar to a bank account statement) that set out the number of RMXO Options issued to them under this Prospectus. The notice will also

advise holders of their Holder Identification Number or Security Holder Reference Number and explain, for future reference, the sale and purchase procedures under CHES and issuer sponsorship.

Electronic sub-registers also mean ownership of securities can be transferred without having to rely upon paper documentation. Further monthly statements will be provided to holders if there have been any changes in their security holding in the Company during the preceding month.

### **Photographs and Diagrams**

Photographs used in this Prospectus which do not have descriptions are for illustration only and should not be interpreted to mean that any person shown endorses the Prospectus or its contents or that the assets shown in them are owned by the Company. Diagrams used in this Prospectus are illustrative only and may not be drawn to scale.

### **Definitions and Time**

Unless the contrary intention appears or the context otherwise requires, words and phrases contained in this Prospectus have the same meaning and interpretation as given in the Corporations Act and capitalised terms have the meaning given in the Glossary in Section 8.

All references to time in this Prospectus are references to Australian Western Standard Time.

### **Privacy statement**

If you complete an Application Form, you will be providing personal information to the Company. The Company collects, holds and will use that information to assess your application, service your needs as a Shareholder and to facilitate distribution payments and corporate communications to you as a Shareholder.

The information may also be used from time to time and disclosed to persons inspecting the register, including bidders for your securities in the context of takeovers, regulatory bodies including the Australian Taxation Office, authorised securities brokers, print service providers, mail houses and the share registry.

You can access, correct and update the personal information that we hold about you. If you wish to do so, please contact the share registry at the relevant contact number set out in this Prospectus.

Collection, maintenance and disclosure of certain personal information is governed by legislation including the Privacy Act 1988 (as amended), the Corporations Act and certain rules such as the ASX Settlement Operating Rules. You should note that if you do not provide the information required on the application for RMXO Options, the Company may not be able to accept or process your application.

### 1.5 Details of Substantial Holders

Based on publicly available information as at the date of this Prospectus, no persons which (together with their associates) have a relevant interest in 5% or more of the Shares on issue.

In the event all Entitlements are accepted there will be no change to the substantial holders on completion of the Offer.

## 1.6 Effect on Control

Based on current shareholding and Entitlements of Shareholders (including substantial Shareholders) as at the date of this Prospectus, regardless of the amount raised under the Offer, no Shareholder will increase their holding, to an amount in excess of 19.9% through applying for their Entitlements.

There will be no change to any Shareholder's voting power as a result of the issue of the RMXO Options. Where RMXO Options are exercised into Shares, the voting power of the Shareholders who exercise the RMXO Options will increase. The likelihood of RMXO Options being exercised is dependent on the price of Shares from time to time until the RMXO Options expire.

Further as set out in Section 2.6, on the basis of the allocation policy, no person will acquire, through participation in the Shortfall Offer a holding of Shares of, or increase their holding to, an amount in excess of 19.9% of all the Shares on issue on completion of the Offer. Where RMXO Options issued under the Shortfall Offer, outside of a Shareholders entitlement, are exercised into Shares, the voting power of the Shareholders who exercise the RMXO Options will increase.

## 1.7 Potential dilution on non-participating Shareholders

No immediate dilution will occur as a result of the issue of RMXO Options under this Prospectus. However subsequent exercise of any or all of the RMXO Options will result in dilution. Assuming all RMXO Options offered pursuant to this Prospectus are issued and exercised into Shares, Shareholders who do not participate in the Offer, are likely to be diluted by an aggregate of approximately 25% (as compared to their holdings and number of Shares on issue as at the date of the Prospectus).

For illustrative purposes, the table below shows how the dilution may impact the holdings of Shareholders:

HOLDER	HOLDING AS AT RECORD DATE	% AT RECORD DATE	ENTITLEMENTS UNDER THE OFFER	HOLDINGS IF OFFER NOT TAKEN UP	% POST OFFER
Shareholder 1	10,000,000	1.79%	3,333,333	10,000,000	1.3%
Shareholder 2	5,000,000	0.89%	1,666,667	5,000,000	0.67%
Shareholder 3	1,500,000	0.27%	500,000	1,500,000	0.2%
Shareholder 4	400,000	0.07%	133,333	400,000	0.06%
Shareholder 5	50,000	0.01%	16,667	50,000	0.007%
<b>Total</b>	<b>559,574,941</b>		<b>186,524,980</b>		<b>746,099,921</b>

### Notes:

1. This is based on a share capital of 559,574,941 Shares as at the date of the Prospectus and assumes no Options currently on issue or other Shares are issued through the exercise of Option.
2. The dilutionary effect shown in the table is the maximum percentage on the assumption that those Entitlements not accepted by Eligible Shareholders are placed under the Shortfall Offer. In the event all Entitlements are not accepted and some or all of the resulting Shortfall was not subsequently placed, the dilution effect for each Shareholder not accepting their Entitlement would be a lesser percentage.

## 2. DETAILS OF THE OFFER

### 2.1 The Offer

The Offer is being made as a pro-rata non-renounceable entitlement issue of one (1) RMXO Option for every three (3) Shares held by Shareholders registered at the Record Date at an issue price of \$0.001 per RMXO Option. Fractional entitlements will be rounded down to the nearest whole number.

Based on the capital structure of the Company as at the date of this Prospectus, (and assuming Shares are issued prior to the Record Date including on exercise or conversion of securities on issue) approximately 186,524,980 RMXO Options may be issued under the Offer to raise up to \$186,525.

As at the date of this Prospectus the Company has 183,408,792 Options on issue all of which may be exercised prior to the Record Date in order to participate in the Offer. Please refer to Section 4.1 for information on the exercise price and expiry date of the Options on issue.

All of the Shares issued on exercise of the RMXO Options offered under this Prospectus will rank equally with the Shares on issue at the date of this Prospectus. Please refer to Section 4.2 for further information regarding the rights and liabilities attaching to the Shares. The RMXO Options will be exercisable at \$0.02 on or before 10 May 2027 and otherwise on the terms set out in Section 4.1.

The purpose of the Offer and the intended use of funds raised are set out in Section 3.

## 2.3 Payment options

### (a) By BPAY®

For payment by BPAY®, please follow the instructions on the Entitlement and Acceptance Form. You can only make a payment via BPAY® if you are the holder of an account with an Australian financial institution that supports BPAY® transactions. Please note that should you choose to pay by BPAY®:

- (i) you do not need to submit the Entitlement and Acceptance Form but are taken to have made the declarations on that Entitlement and Acceptance Form;
- (ii) if you do not pay for your Entitlement in full, you are deemed to have taken up your Entitlement in respect of such whole number of RMXO Options which is covered in full by your Application monies; and
- (iii) if you pay more than is required to subscribe for your Entitlement, you will be taken to have applied for Shortfall Securities (if any) under the Shortfall Offer, to the extent of the excess.

You should be aware that your own financial institution may implement earlier cut-off times with regard to electronic payment, and you should therefore take this into consideration when making payment. **It is your responsibility to ensure that funds submitted through BPAY® are received by the Closing Date. The Company shall not be responsible for any delay in the receipt of the BPAY® payment.**

#### **Guidance where you have more than one CRN (Shareholding of Shares)**

If you have more than one shareholding of Shares and consequently receive more than one Entitlement and Acceptance Form, when taking up your Entitlement in respect of one of those Shareholdings only use the CRN specific to that Shareholding as set out in the applicable Entitlement and Acceptance Form. **Do not use the same CRN for more than one of your Shareholdings.** This can result in your Application monies being applied to your Entitlement in respect of only one of your Shareholdings (with the result that any Application in respect of your remaining Shareholdings will not be valid).

#### **(b) By Electronic Funds Transfer (overseas applicants)**

For payment by Electronic Funds Transfer (**EFT**) for overseas Eligible Shareholders, please follow the instructions on the Entitlement and Acceptance Form. You can only make a payment via EFT if you are the holder of an account that supports EFT transactions to an Australian bank account. Please note that should you choose to pay by EFT:

- (i) you do not need to submit the Entitlement and Acceptance Form but are taken to have made the declarations on that Entitlement and Acceptance Form;
- (ii) if you do not pay for your Entitlement in full, you are deemed to have taken up your Entitlement in respect of such whole number of RMXO Options which is covered in full by your Application monies; and
- (iii) if you pay more than is required to subscribe for your Entitlement, you will be taken to have applied for Shortfall Securities (if any) under the Shortfall Offer, to the extent of the excess.

#### **(c) By Cheque**

Payment by cheque or cash will not be accepted.

### **2.4 Implications of an acceptance**

Returning a completed Entitlement and Acceptance Form or paying any Application monies by BPAY® or EFT will be taken to constitute a representation by you that:

- (a) you have received a copy of this Prospectus and the accompanying Entitlement and Acceptance Form, and read them both in their entirety;
- (b) you acknowledge that once the Entitlement and Acceptance Form is returned, or a BPAY® or EFT payment instruction is given in relation to any Application monies, the application may not be varied or withdrawn except as required by law.

### **2.5 Minimum subscription**

There is no minimum subscription.

### **2.6 Shortfall Offer**

Any Entitlement not taken up pursuant to the Offer will form the Shortfall Offer (**Shortfall Securities**). The Shortfall Offer is a separate offer made pursuant to this Prospectus and will remain open for up to three months following the Closing Date. The issue price for each RMXO Option to be issued under the Shortfall Offer shall be \$0.001 being the price at which RMXO Options have been offered under the Offer.

If you do not wish to take up any part of your Entitlement you are not required to take any action. That part of your Entitlement not taken up will form part of the Shortfall Offer and potentially be allocated to other Eligible Shareholders or other third parties as part of the Shortfall Offer. The Shortfall Offer will only be available where there is a Shortfall between applications received from Eligible Shareholders and the number of RMXO Options proposed to be issued under the Offer.

Eligible Shareholders who wish to subscribe for RMXO Options above their Entitlement are invited to apply for Shortfall Securities under the Shortfall Offer by completing the appropriate section on their Entitlement and Acceptance Form or by making payment for such Shortfall Securities in accordance with Sections 2.3.

The Board presently intends to allocate Shortfall Securities as follows:

- (a) to Eligible Shareholders who apply for an excess of their full Entitlement, so long as the issue of Shortfall Securities to that Eligible Shareholder would not take their voting power to in excess of 19.99% if exercised (based on existing Shareholding); and then
- (b) to other parties identified by the Directors, which may include parties who are not currently Shareholders.

No RMXO Options will be issued to a party under the Shortfall Offer if the effect would be to increase that party's voting power in the Company to an amount greater than 19.99% if exercised (based on existing Shareholding).

The Company reserves the right to issue an Eligible Shareholder a lesser number of Shortfall Securities than applied for or no Shortfall Securities at all. However, the Directors do not intend to refuse an application for Shortfall Securities from Eligible Shareholders other than in circumstances of oversubscription or where acceptance may result in a breach of the Corporations Act. If the number of Shortfall Securities applied for by Eligible Shareholders exceeds the total Shortfall, the Shortfall Securities will be allocated among applying Eligible Shareholders proportionate to their existing holdings.

All decisions regarding the allocation of Shortfall Securities will be made by the Directors and will be final and binding on all applicants under the Shortfall Offer; as such there is no guarantee that any Shortfall Securities applied for will be issued to Eligible Shareholders.

The Company will have no liability to any Applicant who receives less than the number of Shortfall Securities they applied for under the Shortfall Offer. If the Company scales back any applications for Shortfall Securities under the Shortfall Offer any Application monies will be returned (without interest) as soon as practicable.

## **2.7 ASX listing**

Application for Official Quotation of the RMXO Options offered pursuant to this Prospectus will be made within 7 days after the date of this Prospectus. If ASX does not grant Official Quotation of the RMXO Options offered pursuant to this Prospectus before the expiration of three months after the date of issue of the Prospectus, (or such period as varied by the ASIC), the Company will not issue any of the RMXO Options offered under this Prospectus and all application monies will be returned.

The fact that ASX may grant Official Quotation to the RMXO Options is not to be taken in any way as an indication of the merits of the Company or the RMXO Options now offered for subscription.

## **2.8 Issue of Securities**

Securities issued pursuant to the Offer will be issued in accordance with the ASX Listing Rules and timetable set out at Section 1.

Securities issued pursuant to the Shortfall Offer will be issued on a progressive basis. Pending the issue of the Securities or payment of refunds pursuant to this Prospectus, all Application monies will be held by the Company in trust for the Applicants in a separate bank account as required by the Corporations Act. The Company, however, will be entitled to retain all interest that accrues on the bank account and each Applicant waives the right to claim interest.

Holding statements for Securities issued under the Offer will be mailed as soon as practicable after the issue of Securities and for Shortfall Securities issued under the Shortfall Offer as soon as practicable after their issue.

Accordingly, the Offer is not being extended and RMXO Options will not be issued to Shareholders with a registered address which is outside Australia or New Zealand.

### **New Zealand**

The Securities are not being offered to the public within New Zealand other than to existing shareholders of the Company with registered addresses in New Zealand to whom the offer of these securities is being made in reliance on the transitional provisions of the Financial Markets Conduct Act 2013 (New Zealand) and the Financial Markets Conduct (Incidental Offers) Exemption Notice 2021 (New Zealand).

Subject to the ASX Listing Rules and the Corporations Act, the Company may, by resolution of the Directors, implement a dividend reinvestment plan on such terms and conditions as the Directors think fit and which provides for any dividend which the Directors may declare from time to time payable on Shares which are participating Shares in the dividend reinvestment plan, less any amount which the Company shall either pursuant to the Constitution or any law be entitled or obliged to retain, be applied by the Company to the payment of the subscription price of Shares.

(h) **Variation of rights**

Under section 246B of the Corporations Act, the Company may, with the sanction of a special resolution passed at a meeting of Shareholders vary or abrogate the rights attaching to Shares.

If at any time the share capital is divided into different classes of shares, the rights attached to any class (unless otherwise provided by the terms of issue of the shares of that class), whether or not the Company is being wound up, may be varied or abrogated with the consent in writing of the holders of three quarters of the issued shares of that class, or if authorised by a special resolution passed at a separate meeting of the holders of the shares of that class.

## 5. RISK FACTORS

### 5.1 Introduction

The RMXO Options offered under this Prospectus should be considered as highly speculative and an investment in the Company is not risk free.

The Directors strongly recommend that prospective investors consider the risk factors set out in this Section 5, together with all other information contained in this Prospectus.

The future performance of the Company and the value of the Securities may be influenced by a range of factors, many of which are largely beyond the control of the Company and the Directors. The key risks associated with the Company's business, the industry in which it operates and general risks applicable to all investments in listed securities and financial markets generally are described below.

The risks factors set out in this Section 5, or other risk factors not specifically referred to, may have a materially adverse impact on the performance of the Company and the value of the RMXO Options. This Section 5 is not intended to provide an exhaustive list of the risk factors to which the Company is exposed.

Before determining whether to invest in the Company you should ensure that you have a sufficient understanding of the risks described in this Section 5 and all of the other information set out in this Prospectus and consider whether an investment in the Company is suitable for you, taking into account your objectives, financial situation and needs.

If you do not understand any matters contained in this Prospectus or have any queries about whether to invest in the Company, you should consult your accountant, financial adviser, stockbroker, lawyer or other professional adviser.

### 5.2 Company specific

RISK CATEGORY	RISK
<b>Potential for dilution</b>	<p>No immediate dilution will occur as a result of the issue of RMXO Options under this Prospectus. However subsequent exercise of any or all of the RMXO Options will result in dilution. Assuming all RMXO Options offered pursuant to this Prospectus are issued and exercised into Shares, Shareholders who do not participate in the Offer, are likely to be diluted by an aggregate of approximately 25% (as compared to their holdings and number of Shares on issue as at the date of the Prospectus).</p> <p>It is not possible to predict what the value of the Company, a Share or an Option will be following the completion of the Offer being implemented and the Directors do not make any representation as to such matters.</p> <p>The last trading price of Shares on ASX prior to the Prospectus being lodged of \$0.008 is not a reliable indicator as to the potential trading price of Shares after implementation of the Offer.</p> <p>The last trading price of the RMXO Options on ASX prior to the Prospectus being lodged of \$0.02 and is not a reliable indicator as to the potential trading price of Listed Options after implementation of the Offer.</p>
<b>Additional requirements for capital</b>	<p>The Company's capital requirements depend on numerous factors. Depending on the Company's ability to generate income from its operations, the Company may require further financing in addition to amounts raised under the Offer. Any additional equity financing will dilute shareholdings, and debt financing, if available, may involve restrictions on financing and operating activities. If the Company is unable to obtain additional financing as needed, it may be required to reduce</p>

RISK CATEGORY	RISK
	<p>the scope of its operations and scale back its exploration programmes as the case may be. There is however no guarantee that the Company will be able to secure any additional funding or be able to secure funding on terms favourable to the Company.</p>
<b>Going Concern</b>	<p>The Company's interim financial report for the half-year ended 31 December 2024 released on the ASX on 12 March 2025 (<b>Financial Report</b>) includes a note on the financial condition of the Company and the possible existence of a material uncertainty about the Company's ability to continue as a going concern.</p> <p>Notwithstanding the 'going concern' included in the Financial Report, the Directors believe that upon the successful completion of the Offer, the Company will have sufficient funds to adequately meet the Company's current exploration commitments and short term working capital requirements. However, it is highly likely that further funding will be required to meet the medium to long term working capital costs of the Company.</p> <p>In the event that the Offer is not completed successfully there is significant uncertainty as to whether the Company can continue as a going concern which is likely to have a material adverse effect on the Company's activities.</p>
<b>New projects and acquisitions and joint ventures</b>	<p>The Company will continue to actively pursue and assess, other new business opportunities particularly those in the resources sector. These new business opportunities may take the form of direct project acquisitions, joint ventures, farm-ins, acquisition of tenements/permits, or direct equity participation.</p> <p>If an acquisition is completed, the Directors will need to reassess, at that time, the funding allocated to current projects and new projects, which may result in the Company reallocating funds from other projects and/or the raising of additional capital (if available).</p> <p>Furthermore, any new project or business acquisition may change the risk profile of the Company, particularly if the new project is located in another jurisdiction, involves a new commodity and/or changes the Company's capital/funding requirements.</p> <p>Should the Company propose or complete the acquisition of a new project or business activity, investors should re-assess their investment in the Company in light of the new project/business activity.</p>
<b>Joint venture risk</b>	<p>The Company is currently and may in the future become a party to joint venture agreements governing the exploration and development of its projects. There is a risk that one of the Company's joint venture partners may default in their joint venture obligations or not act in the best interests of the joint venture. This may have an adverse effect on the interests and prospects of the Company.</p> <p>There can be no certainty that the parties will be able to settle the formal documentation in respect thereof. Failure to settle the terms of the formal documentation may result in termination of the joint venture and/or a potential dispute resolution process.</p>

RISK CATEGORY	RISK
<b>Climate Risk</b>	<p>There are a number of climate-related factors that may affect the operations and proposed activities of the Company. The climate change risks particularly attributable to the Company include:</p> <p>(a) the emergence of new or expanded regulations associated with the transitioning to a lower-carbon economy and market changes related to climate change mitigation. The Company may be impacted by changes to local or international compliance regulations related to climate change mitigation efforts, or by specific taxation or penalties for carbon emissions or environmental damage. These examples sit amongst an array of possible restraints on industry that may further impact the Company and its profitability. While the Company will endeavour to manage these risks and limit any consequential impacts, there can be no guarantee that the Company will not be impacted by these occurrences; and</p> <p>(b) climate change may cause certain physical and environmental risks that cannot be predicted by the Company, including events such as increased severity of weather patterns and incidence of extreme weather events and longer-term physical risks such as shifting climate patterns. All these risks associated with climate change may significantly change the industry in which the Company operates.</p>
<b>Related Party Risk</b>	<p>The Company has a number of key contractual relationships with related parties. If these relationships breakdown and the related party agreements are terminated, there is a risk that the Company may not be able to find a satisfactory replacement.</p> <p>Further, the operations of the Company will require involvement of related parties and other third parties including suppliers, manufacturers and customers. With respect to these persons and despite applying best practice in terms of pre-contracting due diligence, the Company is unable to completely avoid the risk of:</p> <p>(a) financial failure or default by a participant in any agreement to which the Company may become a party; and/or</p> <p>(b) insolvency, default on performance or delivery by any operators, contractors or service providers.</p> <p>There is also a risk that where the Company has engaged a contractor who is a related party, the contract between the contractor and the Company may terminate for reasons outside of the control of the Company. This may then result in the termination of the contract between the Company and the contractor and the impact the Company's position, performance and reputation.</p>

### 5.3 Industry Specific

RISK CATEGORY	RISK
<b>Commodity price volatility</b>	<p>Should the Company enter production, substantially all of the Company's revenues and cash flows will be derived from the sale of antimony and copper and gold concentrates. Therefore, the financial performance of the Company would</p>

RISK CATEGORY	RISK
	<p>be exposed to fluctuations in the price of these commodities. Historically, the price of these commodities has fluctuated widely and has experienced periods of significant decline. The price of these commodities is affected by numerous factors and events that are beyond the control of the Company. These factors and events include general economic activity, world demand, forward selling activity as well as general global economic conditions and political trends.</p>
<b>Mining risk</b>	<p>Mining is subject to inherent risks and is dependent upon a number of conditions beyond the control of the Company that can affect the costs and production schedules at particular mines. These risks and conditions include, but are not limited to:</p> <ul style="list-style-type: none"> <li>(a) variations in geological conditions, such as the grade and thickness of the mineralisation and variations in rock and other natural materials overlying the mineral deposit;</li> <li>(b) mining, process and equipment or mechanical failures and unexpected maintenance problems;</li> <li>(c) adverse weather and natural disasters, such as heavy rains, flooding and other natural events affecting the operations, transportation or customers;</li> <li>(d) environmental hazards, such as subsidence and excess water ingress;</li> <li>(e) delays and difficulties in acquiring, maintaining or renewing necessary permits or mining rights;</li> <li>(f) availability of adequate skilled employees and other labor relations matters;</li> <li>(g) unexpected mine accidents, including rock-falls and explosions caused by natural gas or other explosive sources at our mine sites or fires caused by similar mining accidents; and</li> <li>(h) competition and/or conflicts with other natural resource extraction activities and production within our operating areas.</li> </ul> <p>These risks and conditions could result in damage to or the destruction of the Company mineral properties or production facilities, personal injury or death, environmental damage, delays in mining, monetary losses and legal liability. The Company's insurance coverage may not be available or sufficient to fully cover claims that may arise from these risks and conditions.</p>

#### 5.4 General risks

<b>Economic</b>	<p>General economic conditions, movements in interest and inflation rates and currency exchange rates may have an adverse effect on the Company's exploration, development and production activities, as well as on its ability to fund those activities.</p>

	<p>(a) general economic outlook;</p> <p>(b) introduction of tax reform or other new legislation;</p> <p>(c) interest rates and inflation rates;</p> <p>(d) changes in investor sentiment toward particular market sectors;</p> <p>(e) the demand for, and supply of, capital; and</p> <p>(f) terrorism or other hostilities.</p> <p>The market price of securities can fall as well as rise and may be subject to varied and unpredictable influences on the market for equities in general and resource exploration stocks in particular. Neither the Company nor the Directors warrant the future performance of the Company or any return on an investment in the Company.</p>
<b>Litigation risks</b>	<p>The Company is exposed to possible litigation risks including intellectual property claims, contractual disputes, occupational health and safety claims and employee claims. Further, the Company may be involved in disputes with other parties in the future which may result in litigation. Any such claim or dispute if proven, may impact adversely on the Company's operations, financial performance and financial position. The Company and its subsidiaries are not currently engaged in any litigation.</p>
<b>Dividends</b>	<p>Any future determination as to the payment of dividends by the Company will be at the discretion of the Directors and will depend on the financial condition of the Company, future capital requirements and general business and other factors considered relevant by the Directors. No assurance in relation to the payment of dividends or franking credits attaching to dividends can be given by the Company.</p>
<b>Taxation</b>	<p>The acquisition and disposal of Shares will have tax consequences, which will differ depending on the individual financial affairs of each investor. All prospective investors in the Company are urged to obtain independent financial advice about the consequences of acquiring Shares from a taxation viewpoint and generally.</p> <p>To the maximum extent permitted by law, the Company, its officers and each of their respective advisors accept no liability and responsibility with respect to the taxation consequences of subscribing for RMXO Options under this Prospectus.</p>
<b>Reliance on key personnel</b>	<p>The responsibility of overseeing the day-to-day operations and the strategic management of the Company depends substantially on its senior management and its key personnel.
