Previous Corresponding Reporting Period

The half year ending 30 June 2024

Results for announcement to the market

				6 months to 30 June 2024 \$'000,000		6 months to 30 June 2025 \$'000,000
Revenues from ordinary activities	Down	4%	from	15.7	to	15.1
Profit from ordinary activities after tax (before significant items) attributable to members	Down	223%	from	(5.9)	to	(19.1)
Net Profit for the period attributable to members	Down	1,557%	from	(5.6)	to	(92.8)

*All figures presented in Canadian dollars.

The Company notes that its net loss for the period was largely driven by a non-cash revaluation of warrant and derivative liabilities, reflecting the Company's share price increasing notably during the period. This IFRS-required accounting adjustment does not impact the Company's cash flow and is not believed to be reflective of underlying operational performance. Excluding this one-time accounting effect, the Company's operating results were in line with expectations.

Further commentary on the results for the current reporting period is contained within the interim financial statements.

Dividend information

No dividends were declared for the period and as such no record date has been determined.

Notes to the Unaudited Interim Condensed Consolidated Financial Statements

Three and Six Months Ended June 30, 2025 and 2024

(in 000's of Canadian dollars except common share and per common share amounts and unless otherwise noted)

1. Nature of operations

Almonty is incorporated in Canada. Almonty's common shares are listed on the Nasdaq Capital Market under the symbol ALM. Almonty's common shares are also listed on the Toronto Stock Exchange ("TSX") under the symbol AII, the Australian Securities Exchange under the symbol AII, and the Frankfurt Stock Exchange under the symbol ALI1.

The head office of the Company is located at 100 King Street West, Suite 5700, Toronto, Ontario, M5X 1C7. The Company is primarily engaged in the development of the Sangdong Mine, and the Company is currently mining, processing and shipping tungsten concentrate from the Panasqueira tin and tungsten mine in Covilha, Castelo Branco, Portugal (the "Panasqueira Mine"). Additionally, the Company is evaluating its Valtreixal tin and tungsten mine project located in Western Spain in the province of Zamora (the "Valtreixal Mine") and its molybdenum project with significant inferred mineral resources on a separate property adjacent to the tungsten orebody at the Sangdong Mine. The Company also owns the Los Santos tungsten mine located near Salamanca, Spain (the "Los Santos Mine"), which is currently under care and maintenance.

These unaudited interim condensed consolidated financial statements have been prepared on a going concern basis which assumes that the Company will continue operating for the foreseeable future and will be able to realize a return on its assets and discharge its liabilities and commitments in the ordinary course of its business.

On July 3, 2025, Almonty effected a share consolidation of its issued and outstanding common shares on the basis of one and a half (1.5) pre-consolidated common shares for one (1) post-consolidated common share (the "Share Consolidation"). Almonty's common shares commenced trading on a post-consolidation basis on the TSX at the start of trading on July 7, 2025. As a result, Almonty's issued and outstanding CHESS Depository Interests ("CDIs"), common share purchase warrants ("warrants"), CDI options, stock options and restricted share units ("RSUs") were also consolidated on a 1.5 to 1 basis. All information relating to per common share amounts, issued and outstanding common shares, CDIs, warrants, CDI options, stock options and RSUs in these unaudited condensed consolidated interim financial statements have been adjusted retrospectively to reflect the Share Consolidation. There were 195,860,803 (December 31, 2024, - 176,947,216) common shares issued and outstanding as at June 30, 2025 on a post-consolidated basis.

Management assesses the Company's ability to continue as a going concern at each reporting date, using quantitative and qualitative information available. As at June 30, 2025, the Company had a working capital deficiency of \$13,053 (December 31, 2024 - \$30,538). During the six months ended June 30, 2025, the Company secured additional financings totaling \$8,543 and received \$11,478 in conjunction with the exercise of warrants, CDI options and stock options.

During the six months ended June 30, 2025, the Company received its ninth and final drawdown of US\$906 under its US\$75,100 project financing with the KfW IPEX-Bank ("KfW") as well as an additional US\$20,000 in conjunction with a cost overrun availability (Note 8 (e)).

Almonty Industries Inc.

Notes to the Unaudited Interim Condensed Consolidated Financial Statements

Three and Six Months Ended June 30, 2025 and 2024

(in 000's of Canadian dollars except common share and per common share amounts and unless otherwise noted)

Finally, subsequent to June 30, 2025: (i) on July 3, 2025, Almonty effected the Share Consolidation; (ii) on July 15, 2025, Almonty closed its initial public offering of 20,000,000 common shares in the United States at a price of US\$4.50 per common share for net proceeds, after deducting underwriting discounts and offering expenses, of approximately US\$81,700, which common shares commenced trading on the Nasdaq Capital Market under the symbol ALM; and (iii) Almonty received \$1,984 in conjunction with the exercise of warrants, CHES Depository Interest ("CDI") options and stock options.

The Company's current forecast indicates that it will have sufficient cash flows from operations and from financings outlined above for at least the next year to continue as a going concern and settle obligations as they come due. The assessment of the Company's ability to continue as a going concern, by its nature, relies on estimates of future cash flows and other future events, whose subsequent changes would materially impact the validity of such an assessment.

2. Statement of compliance

These unaudited interim condensed consolidated financial statements of the Company have been prepared in accordance with International Accounting Standard ("IAS") 34, *Interim Financial Reporting*.

These unaudited interim condensed consolidated financial statements were authorized for issuance by the Board of Directors on August 14, 2025

3. Basis of preparation and material accounting policies

The basis of presentation and accounting policies and methods of their application in these unaudited condensed interim consolidated financial statements, including comparatives, are consistent with those used in the Company's audited consolidated financial statements for the year ended December 31, 2024 and should be read in conjunction with those statements.

Critical judgements

The preparation of unaudited interim condensed consolidated financial statements requires the Company's management to make judgments, estimates and assumptions about the carrying amount of its assets and liabilities that are not readily apparent from other sources. These estimates and assumptions are disclosed in Note 2(e) of the Company's audited annual consolidated financial statements for the year ended December 31, 2024. There have been no significant changes to the areas of estimation and judgment during the six months ended June 30, 2025.

Material accounting policies

These unaudited condensed interim consolidated financial statements, including comparatives, have been prepared following the same accounting policies and methods of computation as the audited annual financial statements for the year ended December 31, 2024 as disclosed in Note 2 and Note 3.

Comparative figures

Certain prior year amounts have been reclassified for consistency with the current period presentation. These reclassifications had no effect on the reported results of operations.

("VRS") which owns the Valtreixal Mine has a Euro-denominated term loan with a balance of \$715 as of June 30, 2025 (December 31, 2024 - \$758). The loan is unsecured, bears interest at 3.75% (December 31, 2024 - 3.75%), with monthly payments of principal and interest until it matures in July 2028 (December 31, 2024 - in July 2028).

b) Term and other loans – U.S. dollar

The Company has issued two US\$1,000 secured promissory notes in 2017 to Deutsche Rohstoff AG ("DRAG"), an existing shareholder of the Company, both of which had an initial maturity date of September 30, 2025 (extended to October 31, 2026 during fiscal 2024). The notes bear interest at 6.0% per annum, with the accrued interest due on the maturity date. The loans are secured by a pledge of the shares of Woulfe Mining Corp. ("Woulfe"), a wholly-owned direct subsidiary of Almonty (Almonty's interest in the Sangdong Mine is held by Almonty Korea Tungsten Corporation, which is a wholly-owned direct subsidiary of Woulfe). As at June 30, 2025, the outstanding loan balance was \$2,728 (US\$2,000) (December 31, 2024 - \$2,878 (US\$2,000)).

During December 2019, the Company received \$250 from DRAG pursuant to a promissory loan which bears interest at the rate of 6.0% per annum which had a maturity date of September 30, 2025 (extended to October 31, 2026 during fiscal 2024).

During January 2020, the Company received \$1,320 (US\$1,000) from DRAG pursuant to a promissory loan (increased to \$3,960 (US\$3,000) during fiscal 2022) which bears interest at the rate of 6% per annum and matured during September 2025 (extended to October 31, 2026 during fiscal 2024).

During December 2021, the Company received \$1,270 (US\$1,000) from DRAG pursuant to a promissory loan which bears interest at the rate of 5.0% per annum with and which had a maturity date of September 30, 2025 (extended to October 31, 2026 during fiscal 2024).

Three and Six Months Ended June 30, 2025 and 2024

(in 000's of Canadian dollars except common share and per common share amounts and unless otherwise noted)

- (i) On January 30, 2018, the Company issued a convertible debenture as part of a debt restructuring with a principal amount of \$5,963, with a maturity date of October 31, 2024. The debenture was convertible into common shares of Almonty at \$1.35 per common share. The debenture bears interest at a rate of 6.0% per annum, compounding quarterly, payable on the earlier of the maturity date or the date of conversion. The debenture was subject to covenants customary for such facilities and the lender had nominated a member of the Board of Directors. During the year ended December 31, 2024, this debenture, plus related accrued interest, was converted into 6,833,070 common shares of the Company.
- (ii) On December 18, 2018, the Company completed a non-brokered private placement of an unsecured convertible debenture with a principal amount of \$2,000, which debenture was acquired by DRAG. The debenture had an initial maturity date of September 30, 2025 (extended to October 31, 2026 during fiscal 2024) and bears interest at a rate of 6.0% per annum, payable at maturity. The Company may elect to convert the debenture into common shares upon the availability to the Company of full funding for the Sangdong Mine at a conversion price equal to the higher of the price per common share in any equity financing completed by the Company after the date of issuance of the debenture and prior to the conversion or the maturity date of the debentures for purposes of financing the Sangdong Mine and \$0.942. However, the Company may not convert the debenture if at any time the Company's common shares trade below \$0.942 per common share or if such conversion would result in DRAG holding more than 19.9% of the Almonty's issued and outstanding common shares.
- (iii) The Company has a \$6,000 (December 31, 2024 - \$6,000) unsecured convertible debenture outstanding with DRAG, which bears interest at 4.0% per annum, payable at maturity. The debenture (including any accrued and unpaid interest) may be converted by the holder, at its option, into common shares of the Company at an exercise price of \$2.175 per common share. The initial maturity date of the loan was September 30, 2024, which was extended to October 31, 2026 during fiscal 2024, with all other terms remaining unchanged.
- (iv) During March 2020, the Company received \$2,680 (US\$2,000) pursuant to the issuance of a convertible debenture which bears interest at the rate of 7.0%, is convertible at US\$0.75 per common share with an initial maturity date of October 31, 2025 (extended to October 31, 2026 during the year ended December 31, 2024). As the convertible debenture is denominated in USD, the instrument contains an embedded derivative liability. The total liability (principal and embedded derivative) is capped at the face value of the instruments that were issued. The embedded derivative liability, as at June 30, 2025, was valued using the Black-Scholes Option Pricing Model assuming an expected life of 0.34 years, expected dividend yield of 0%, a risk-free interest rate of 2.59% and an expected volatility of 69.17%. Accordingly, the Company recognized a loss on valuation of the derivative liability in the amount of \$884 for the six months ended June 30, 2025.
- (v) During July 2020, the Company completed a non-brokered private placement of a secured convertible bond in the principal amount of \$4,592 (EUR3,000). This secured convertible bond matured on July 13, 2023, and bore interest at a rate of 10.0% per annum, payable semi-annually, in cash. (See refinancing details in Note 8(c)(x)).

- (vi) During February, 2021, the Company completed a non-brokered private placement of an unsecured convertible bond in the principal amount of \$2,288 (EUR1,500). This unsecured convertible bond matured on February 8, 2024, and bore interest at a rate of 10.0% per annum, payable semi-annually, in cash. (See refinancing details in Note 8(c)(x)).
- (vii) During November 2021, the Company completed a non-brokered private placement of four unsecured convertible bonds in the principal amounts of \$2,302 (EUR1,600) (see refinancing details in Note 8(c)(x)), \$1,268 (US\$1,000), \$144 (EUR100), and \$190 (US\$150), respectively. These unsecured convertible bonds initially matured on October 31, 2024 (subsequently extended to October 31, 2026 during fiscal 2024), and bear interest at a rate of 5.0% per annum, payable semi-annually, in cash. The outstanding principal amount of the bonds plus any related unpaid accrued interest is convertible into common shares of the Company at the option of the holder at the fixed conversion price of EUR1.05 per common share, US\$1.275 per common share, EUR0.75 per common share and US\$1.245 per common share, respectively, for the principal and at the conversion price of the greater of (i) EUR1.05 (equivalent to \$1.68) and (ii) the Euro equivalent of the volume weighted average price of the common shares of the Company on the TSX for the five trading days immediately preceding the date of conversion for related accrued interest. As the convertible debentures are denominated in Euro and USD, the instruments contain embedded derivative liabilities. The total liability (principal and embedded derivative) is capped at the face value of the instruments that were issued. The embedded derivative liability, as at June 30, 2025, was valued using the Black-Scholes Option Pricing Model assuming an expected life of 1.19 years, expected dividend yield of 0%, a risk-free interest rate of 2.59% and an expected volatility of 68.17%. Accordingly, the Company recognized a loss on valuation of the derivative liabilities in the amount of \$289 for the six months ended June 30, 2025.
- (viii) During February 2022, the Company received \$1,900 (US\$1,500) pursuant to the issuance of a convertible debenture which bears interest at the rate of 5.0% (amended to 7.0% during fiscal 2024), is convertible at US\$1.245 per common share (amended to US\$0.75 per common share during fiscal 2024) and initially matured October 31, 2024 (extended to October 31, 2026 during fiscal 2024). As the convertible debenture is denominated in USD, the instrument contains an embedded derivative liability. The total liability (principal and embedded derivative) is capped at the face value of the instruments that were issued. The embedded derivative liability, as at June 30, 2025, was valued using the Black-Scholes Option Pricing Model assuming an expected life of 0.34 years, expected dividend yield of 0%, a risk-free interest rate of 2.59% and an expected volatility of 69.17%. Accordingly, the Company recognized a loss on valuation of the derivative liability in the amount of \$663 for the six months ended June 30, 2025.
- (ix) During June 2022, the Company received \$1,288 (US\$1,000) pursuant to the issuance of a convertible debenture which bears interest at the rate of 7.0%, was convertible at US\$1.26 per common share and matured June 7, 2025. During the six months ended June 30, 2025, this debenture was converted with the issuance of 793,650 common shares of the Company.
- (x) During September 2023, the Company completed the restructuring of three convertible loans with a total principal balance of EUR6,100 (Notes 8(c)(v), 8(c)(vi) and 8(c)(viii)), plus one bond with

a principal balance of EUR1,377 (Note 8(a)), with maturity dates ranging between July 2023 and June, 2025, into one new convertible debenture totaling EUR7,900. This new debenture is convertible into common shares of the Company at EUR0.525 per common share, bears interest at the rate of 9.0% per annum (payable quarterly), and matures September 15, 2025. As this convertible debenture is denominated in Euro, the instrument contains an embedded derivative liability. As a result, the Company allocated \$11,180 to the liability component and \$477 to the derivative liability on issuance. The embedded derivative liability, on issuance, was valued using the Black-Scholes Option Pricing Model assuming an expected life of 1.85 years, expected dividend yield of 0%, a risk-free interest rate of 4.56% and an expected volatility of 69.51%. The embedded derivative liability, as at June 30, 2025, was valued using the Black-Scholes Option Pricing Model assuming an expected life of 0.21 years, expected dividend yield of 0%, a risk-free interest rate of 2.59% and an expected volatility of 69.17%. The total liability (principal and embedded derivative) is capped at the face value of the instruments that were issued. Accordingly, the Company recognized a loss on valuation of the derivative liability in the amount of \$4,988 for the six months ended June 30, 2025.

- (xi) The Company's term loans and convertible debentures include various positive and negative covenants as well as cross-default clauses which could cause several defaults in the event the Company is in default on any of its loan agreements. As of June 30, 2025, the Company was in compliance with all covenants under its term loans and convertible debentures.

d) Lease Liabilities

Capital leases relate to certain equipment and vehicles. The leases carry implied interest rates of between 3.47% and 6.04% (December 31, 2024 – 4.06% and 6.46%).

e) Mine Construction Loan Facility

During July 2022, the Company entered into a US\$75,100 senior secured term loan facility with KfW for the financing and construction of the Sangdong Mine and received US\$906 during January 2025 (Previous years: US\$74,194, including capitalized interest) in conjunction with the ninth and final drawdown on this loan facility. In addition, during the six months ended June 30, 2025, KfW also advanced an additional US\$20,000 in conjunction with a cost overrun availability. The loan bears interest at the rate of SOFR plus 2.3%, capitalized quarterly, with repayment of principal quarterly over a 6.25-year period commencing six months subsequent to commencement of the mine's ramp-up period.

9. Restoration Provision and Other Liabilities

- a) Included in other long-term liabilities are provisions for the future restoration of the Company's mining properties, in accordance with local requirements, as follows:

Balance at December 31, 2023	22,821
Revisions in estimated cash flows and changes in assumptions	579
Accretion expense	495
Translation adjustment	396
Balance at December 31, 2024	24,291
Revisions in estimated cash flows and changes in assumptions	133
Accretion expense	223
Translation adjustment	1,489
Balance at June 30, 2025	26,136

As at June 30, 2025, there is a restoration provision of \$21,885 (December 31, 2024 - \$20,122) with respect to the Panasqueira Mine, representing management's estimate of the present value of the rehabilitation costs relating to the mine site totaling \$23,694 and are to be incurred after the mine ceases production subsequent to 2045. Beralt Tin & Wolfram (Portugal), S.A. ("BTW") has assumed an inflation rate of 2.0% per year in calculating its estimates and a discount rate of 0.35%.

There is a restoration provision of \$1,038 (December 31, 2024 - \$1,008) with respect to Daytal's future obligation to restore and reclaim the mine once it has ceased the processing of tungsten from the Los Santos Mine. The restoration provision represents management's estimate of the present value of the rehabilitation costs relating to the mine site totaling \$1,282 and are to be incurred beginning in 2027 after Daytal ceases processing operations. Daytal has used a 5.5% discount rate and assumes an inflation rate of 2.0% per year in calculating its estimates. The Company has filed, and is awaiting final approval of its mine plan and restoration provision by the relevant authorities in Spain. Banco Popular has posted a bank warranty of \$288 (€180) on behalf of Daytal with the Region of Castilla y Leon, Trade and Industry Department as a form of deposit to cover the expected costs of restoring the mining property as required by Daytal's Environmental Impact Statement that forms a part of its mining and exploitation license on the Los Santos Mine.

There is a restoration provision of \$3,213 (December 31, 2024 - \$3,161) with respect to the Sangdong Mine. The provision was determined based on a levy imposed by the relevant local government authority.

- b) Included in other long-term liabilities is \$670 (December 31, 2024 - \$575) related to employee benefit obligations in respect of government mandated pension plans in Woulfe's Korean subsidiary and BTW.

11. Warrant Liabilities

Under IFRS, certain warrants are treated as a derivative liability because these were denominated in currencies other than the Company's functional currency of Canadian dollars and, accordingly, the Company was not able to demonstrate that it met the "fixed for fixed" criterion per IAS 32, *Financial Instruments: Presentation*. As a result, at the balance sheet date, these warrants issued as part of a unit private placement must be recorded at their fair value.

The Company uses the Black-Scholes Option Pricing Model to measure the fair value of warrant liabilities, wherein the Company's trading price is the main driver for calculating the resulting amount. The revaluation of this derivative liability arising from an increase in share price from \$0.91 per common share (pre-consolidation) at December 31, 2024, to \$4.48 per common share (pre-consolidation) at June 30, 2025, has resulted in the recognition of loss of \$63,894 (2024 – \$406) in the statement of operations and comprehensive loss for the six months ended June 30, 2025.

Changes in the balance of the warrant liabilities for the six months ended June 30, 2025 and year ended December 31, 2024 are summarized as follows:

	June 30, 2025	December 31, 2024
Balance, beginning of period	5,154	958
CDI options issued	2,500	2,165
CDI options exercised	(20,849)	-
Fair Value revaluation on exercise of CDI options	6,885	-
Fair Value revaluation on CDI options at end of period	57,009	2,031
Balance, end of period	50,699	5,154

The fair value of the warrants outstanding was estimated using the Black-Scholes Option Pricing Model with the following weighted average assumptions:

	2025	2024
Stock Price	\$ 4.48	\$ 0.91
Exercise Price	\$ 1.33	\$ 0.72
Expected life	1.86 years	1.99 years
Risk-free interest rate	2.59%	2.93%
Expected volatility	69.17%	53.23%

13. Employee Compensation

The Company incurred costs of \$11,576 with respect to the costs of employee compensation and benefits for the three months ended June 30, 2025 (three months ended June 30, 2024 - \$5,628).

14. Segment Information

The Company's operations are segmented on a regional basis and are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker. The chief operating decision-maker who is responsible for allocating resources and assessing performance of the operating segments has been defined as the Chief Executive Officer.

Management monitors the business of the Company as a single commodity segment, whose operations relate to the exploration and mining of tungsten across three geographical locations: the Iberian Peninsula (Spain and Portugal); Australia (2018); and the Republic of Korea.

(in 000's of Canadian dollars except common share and per common share amounts and unless otherwise noted)

For management reporting purposes, the Company is organized into business units based on its products and activities, and has four reportable operating segments, as follows:

- The Los Santos Mine located in Spain whose operations relate to the exploration and mining of tungsten that is ultimately sold as tungsten concentrate;
- The Panasqueira Mine located in Covilha Castelo Branco, Portugal whose operations relate to the exploration and mining of tungsten which is ultimately sold as tungsten concentrate, as well as the production of copper and tin concentrate by-products that are sold as concentrate;
- The Valtreixal Mine located in Spain whose operations relate to the exploration and evaluation activities of the Valtreixal tin/tungsten project; and
- Woulfe, whose properties are located in Gangwon Province, Republic of Korea, and whose operations relate primarily to the development of the Sangdong Mine.

The Company monitors the operating results of its operating segments separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on income (losses) from mining operations and is measured consistently with income (losses) from mining operations in the consolidated financial statements.

The accounting policies used by the Company in reporting segments internally are the same as those contained in Note 3.

15. Financial Instruments, and Financial Risk Management Objectives and Policies

Fair Value Hierarchical Levels

Fair value hierarchical levels are directly determined by the amount of subjectivity associated with the valuation inputs of these assets and liabilities, and are as follows:

- Level 1 - Inputs are unadjusted, quoted prices in active markets for identical assets or liabilities at the measurement date.
- Level 2 - Inputs (other than quoted prices included in Level 1) are either directly or indirectly observable for the asset or liability through correlation with market data at the measurement date and for the duration of the instrument's anticipated life.
- Level 3 - Inputs reflect management's best estimate of what market participants would use in pricing the asset or liability at the measurement date. Consideration is given to the risk inherent in the valuation technique and the risk inherent in the inputs to determining the estimate.

Notes to the Unaudited Interim Condensed Consolidated Financial Statements

(in 000's of Canadian dollars except common share and per common share amounts and unless otherwise noted)

The carrying value of cash, trade receivables and accounts payable and accrued liabilities approximates their fair value due to their short terms to maturity. The accounts receivable associated with provisional pricing arrangements are a Level 2 fair value estimate and are valued based upon observable WO₃ forward prices as of the reporting date. The fair value of long-term debt is a Level 2 fair value estimate and is not materially different from the carrying value based on current market rates of interest, or interest rates set at relatively short time intervals.

Financial Risk Management Objectives and Policies

The Company's principal financial instruments comprise cash deposits and long-term debt.

The main purpose of these instruments is to provide cash flow funding for the operations of Almonty and its subsidiaries. The Company has various other financial assets and liabilities such as trade receivables and trade payables, which arise directly from operations.

The main risks arising from the Company's financial instruments are interest rate risk, foreign currency risk, credit risk and liquidity risk.

Interest rate risk

Almonty's exposure to the risk of changes in market interest rates relates to cash at banks and long-term debt with a floating interest rate. Of the long-term debt, \$155,954 is subject to floating interest rates and \$35,213 is subject to fixed interest rates. A portion of the floating-rate debt totaling \$26,006 is subject to a fixed spread over the 6- and 12-month Euro Interbank Offered Rate ("EURIBOR"). A change of 100 basis points (1.0%) in the EURIBOR would result in a \$260 change in annual interest costs. The remaining floating rate debt of \$102,579 is based on a fixed spread over the three-month SOFR. A change of 100 basis points (1.0%) in the three-month SOFR would result in a \$1,026 change in annual interest costs. All figures provided in this risk factor are as at June 30, 2025.

Foreign currency risk

Fluctuations in foreign currency exchange rates may adversely affect the Company's results of operations.

The Company's operating results and cash flow are significantly affected by changes in exchange rates. Almonty's wholly owned subsidiary BTW operates in Portugal, which uses Euros (€) as its functional currency. Its output is a commodity that is primarily priced in United States dollars (US\$) which is different than the functional currency of the Company, and the Company may also incur costs or obtain indebtedness in a currency that is different from their functional currency. Additionally, Daytal's current care and maintenance expenses, as well as any potential future operating costs, are primarily denominated in Euros, which exposes the Company to currency fluctuations between the Euro and its reporting currency. Almonty's functional currency is the Canadian dollar but it advances funds to subsidiaries in the functional currency of the subsidiary to which funds are advanced. As such, the Company's financial performance can be significantly affected by movements in various currencies (Canadian dollars (C\$), United States dollars (US\$), Euros (€) and Korean Won (KRW)).

The U.S. dollar/Canadian dollar exchange rate has fluctuated significantly over the last several years. From January 1, 2020 to December 31, 2024, the U.S. dollar/Canadian dollar exchange rate (as reported by the Bank of Canada) fluctuated from a high of C\$1.45 per US\$1.00 to a low of C\$1.20

per US\$1.00. Historical fluctuations in the U.S. dollar/Canadian dollar exchange rate are not necessarily indicative of future exchange rate fluctuations.

In addition, the majority of the Company's operating costs at the Panasqueira Mine as well as the care and maintenance costs at the Los Santos Mine are incurred in Euros, and a significant portion of development costs at the Sangdong Mine are incurred in KRW. Each of these currencies has also fluctuated significantly against the U.S. dollar over the past several years. The Company may engage in mitigating transactions to limit its exposure to such risks, but there can be no assurance that any mitigating strategy will, if entered into, be successful. There can be no assurance that foreign exchange fluctuations will not materially adversely affect the Company's financial performance and results of operations.

The Company's Canadian dollar functional currency businesses have the following financial instruments denominated in foreign currencies:

	Currency	Carrying Value (\$)
Cash and cash equivalents	US\$	457
Cash and cash equivalents	AUS\$	8,030
Cash and cash equivalents	EURO	6,331
Accounts payable and accrued liabilities	US\$	6,304
Accounts payable and accrued liabilities	AUS\$	378
Accounts payable and accrued liabilities	KRW	9,728
Long-term debt	US\$	115,987
Long-term debt	EURO	36,256

A 5.0% change in the value of the C\$ relative to the above currencies would change net income for the six months ended June 30, 2025 by approximately \$8,093.

The Company's Euro functional currency businesses have the following financial instruments denominated in foreign currencies:

	Currency	Carrying Value (\$)
Trade receivables	US\$	992

A 5.0% change in the value of the Euro relative to the above currencies would change net income for the six months ended June 30, 2025 by approximately \$50.

The Company's Korean Won functional currency businesses have the following financial instruments denominated in foreign currencies:

	Currency	Carrying Value (\$)
Long-term debt	US\$	129,897

A 5.0% change in the value of the Korean Won relative to the above currencies would change net income for the six months ended June 30, 2025 by approximately \$6,495.

Credit risk

The Company deposits surplus cash with major banks of high-quality credit standing, in interest-bearing accounts that earn interest at floating rates. Trade receivables represent amounts receivable related to delivery of concentrate that have not been settled and are with the Company's customers, all of whom have good credit ratings and the Company has not experienced any credit issues with any of its customers. Other assets include a non-interest-bearing promissory note and deposits. The carrying value of the cash and cash equivalents, trade receivables, restricted cash, promissory notes and deposits totaling \$28,300 represents Almonty's maximum exposure to credit risk.

Liquidity risk

As of December 31, 2024, Almonty had cash and cash equivalents of approximately \$7,800 (including \$2,170 of restricted cash solely for use on the Sangdong Mine development project) and total liabilities of approximately \$217,200, including \$151,200 of secured debt and \$14,800 of unsecured convertible debentures.

As at June 30, 2025, the Company held cash and cash equivalents of approximately \$24,684 (of which \$9,514 represented cash restricted for use for the development of the Sangdong Mine) and a working capital deficiency of \$13,053 (December 31, 2024 - \$30,538). Although Almonty has been successful in repaying liabilities in the past and issuing new debt securities, there can be no assurance that it can continue to do so. In addition, Almonty may assume additional liability in future periods or reduce its holdings of cash and cash equivalents in connection with funding future acquisitions, existing operations, capital expenditures, dividends or in pursuing other business opportunities.

The Company's level of indebtedness could have important consequences for its operations, including:

- Almonty may need to use a large portion of its cash flow to repay the principal and pay interest on its debt, which will reduce the amount of funds available to finance its operations and other business activities; and
- Almonty's debt level may limit its ability to pursue other business opportunities, borrow money for operations or capital expenditures in the future or implement its business strategy.

As of June 30, 2025, Almonty had approximately \$21,418 in long-term debt maturing by the end of 2025.

(in 000's of Canadian dollars except common share and per common share amounts and unless otherwise noted)

In addition to future cash flow from operations, potential divestment and the creation of new joint ventures and partnerships, Almonty's potential other sources of liquidity for the payment of its expenses and principal and interest payable on its debt in 2025 include issuing additional equity or unsecured debt. Almonty's ability to reduce its indebtedness and meet its payment obligations will depend on its future financial performance, which will be impacted by financial, business, economic and other factors. Almonty will not be able to control many of these factors, such as economic conditions in the markets in which it operates. Almonty cannot be certain that its existing capital resources and future cash flow from operations will be sufficient to allow it to pay principal and interest on Almonty's debt and meet its other obligations. If these amounts are insufficient or if there is a contravention of its debt covenants, Almonty may be required to refinance all or part of its existing debt, sell assets, borrow more money or issue additional equity. The ability of Almonty to access the bank, public debt or equity capital markets on an efficient basis may be constrained by a dislocation in the credit markets and/or capital and/or liquidity constraints in the banking, debt and/or equity markets at the time of issuance.

Almonty is also exposed to liquidity and various counterparty risks including, but not limited to: (i) Almonty's lenders and other banking counterparties; (ii) Almonty's insurance providers; (iii) financial institutions that hold Almonty's cash; (iv) companies that have payables to Almonty; and (v) companies that have received deposits from Almonty for the future delivery of equipment.

Contractual undiscounted cash flow requirement for financial liabilities as at June 30, 2025 are as follows:

16. Capital Management

The primary objective of the Company's capital management is to ensure that it maintains a strong credit rating and healthy capital ratios in order to support its business and maximize shareholder value. The Company manages its capital structure (composed of shareholders' equity and net debt) and makes adjustments to it, in light of changes in economic conditions. To maintain or adjust the capital structure, Almonty may initiate dividend payments to shareholders, return capital to shareholders, repurchase issued shares or issue new shares. Almonty is not exposed to any externally imposed capital requirements.

17. Commitments and Contingent Liabilities

Daytal owns the Los Santos Mine, near the town of Los Santos, Salamanca in western Spain. Daytal rents the land where the Los Santos Mine is located from local property owners and municipalities. The leases range from ten to 25 years and have expiry dates in 2032. On all leases greater than ten years, Daytal has the right to terminate the leases under certain circumstances without penalty. Annual lease commitments total approximately \$393 payable throughout the year on the anniversary dates of the individual leases.

The mining license for the Los Santos Mine was granted in September 2002 for a period of 30 years and is extendable for 90 years. Daytal pays minimal land taxes and there are no other royalty payments associated with the license. The Company files applications in the ordinary course to renew the permits associated with its mining license that it deems necessary and/or advisable for the continued operation of its business. Certain of the Company's permits to operate that are associated with the mining license are currently under application for renewal.

The Company's operations are subject to other claims and lawsuits from time to time, including any claims related to suppliers, employees or other parties. However, these are not expected to result in a material impact on the financial statements.

18. Related Party Transactions

For the six months ended June 30, 2025, the Company paid or accrued compensation to key management personnel, which includes the Company's Chief Executive Officer, Chief Financial Officer and members of the Board of Directors totaling \$1,683 (2024 - \$678).

The Company has long-term debt owing to DRAG, a company that is an existing shareholder of Almonty, and whose former Chief Executive Officer is a member of the Board of Directors of the Company. In addition to the transactions disclosed in notes 8(b) and 8(c), \$496 was accrued on the DRAG loans during the six months ended June 30, 2025 (2024 - \$435). As of June 30, 2025, there is \$5,635 (December 31, 2024 - \$5,139) as unpaid interest and included in accounts payable and accrued liabilities.

19. Subsequent Events

Subsequent to June 30, 2025, the Company entered into the following transactions:

- a) On July 3, 2025, Almonty effected the Share Consolidation and its common shares commenced trading on a post-consolidated basis on July 7, 2025;
- b) On July 15, 2025, Almonty closed its initial public offering of 20,000,000 common shares in the United States at a price of US\$4.50 per common share for net proceeds, after deducting underwriting discounts and offering expenses, of approximately US\$81,700, which common shares commenced trading on the Nasdaq Capital Market under the symbol ALM; and
- c) The Company received \$1,984 in conjunction with the exercise of warrants, CDI options and stock options.
