GREENTECH METALS APPOINTS HIGHLY EXPERIENCED MINING EXECUTIVE TO BOARD

Greentech Metals Limited (ASX:GRE) is pleased to announce the appointment of Mr Jozsef Patarica to the board of Greentech Metals.

Mr Patarica has a wealth of project development and operational experience in the resources industry.

Greentech Executive Director Tom Reddicliffe said the Company is focused on opportunities for near term development across its portfolio of projects.

"Jozsef brings invaluable technical knowledge and development experience, Mr Reddicliffe said. His knowledge and experience developing and managing projects which extends from exploration and development through to processing and production, will be immensely valuable to Greentech as we unlock the full value of our Pilbara copper and lithium projects and assist with reviewing potential acquisitions and transactions within the region".

Mr Patarica has extensive experience at senior operational and executive levels in Australia and overseas and has successfully transitioned several projects through the development phase into sustainable operations.

Mr Patarica led the development of the Fosterville Gold Mine in Victoria, now the largest gold producer in Victoria. The operation has passed a significant milestone producing 4Moz since the commencement of operations.

Mr Rod Webster has resigned from the board with immediate effect and the board thanks Rod for his considerable contribution to advancing the company's projects over the past 4 years.

ABOUT JOZSEF PATARICA

Mr Patarica is a mining executive with over 30 years' experience developing projects in Australia and overseas successfully transitioning them into sustainable operations.

Mr Patarica holds a Bachelor of Engineering, Mechanical, from Curtin University, a Master of Business Administration, Technology Management, from LaTrobe University, and a Diploma from the Australian Institute of Company Directors.

Mr Patarica was Chief Executive of the Grand Cote Operations, a mineral sands producer in Senegal, West Africa for Minerals Deposits Limited and managed the development of the Fosterville Gold Mine, the largest gold producer in Victoria.

Mr Patarica has held several board positions throughout his career with Australian and overseas companies including various roles with major private equity funds.

Approved for release to the ASX by the Board.

About GreenTech Metals Limited

The Company is an exploration and development company primarily established to discover, develop and acquire Australian and overseas projects containing minerals and metals that are used in the battery storage and electric vehicle sectors. The Company's founding projects are focused on the lithium, copper, nickel and cobalt potential within the West Pilbara and Fraser Range Provinces.

The green energy transition that is currently underway will require a substantial increase in the metals supply of these minerals and metals for the electrification of the global vehicle fleet and for the massive investment in the electrical grid and renewable energy infrastructure and storage.
