Appointment of Mr Chris Weatherl as Non-Executive Director

Perth, Western Australia – Brookside Energy Limited (ASX: BRK) (OTC: RDEF) (Brookside or the Company) is pleased to announce the appointment of Mr Chris Weatherl as a Non-Executive Director of the Company, effective immediately.

Mr Weatherl is a Petroleum Engineer and highly experienced upstream oil and gas executive with more than 25 years of commercial, technical, operational, and leadership experience across multiple major U.S. and international basins. His career includes senior roles at Apache Corporation, where he led large-scale development programs, managed field optimisation across multiple assets, and executed disciplined capital allocation strategies.

For over a decade, Mr Weatherl served as Chief Operating Officer for multiple private equity-backed management teams, overseeing and co-managing the full spectrum of upstream operations and corporate functions, including geosciences, engineering, field operations, IT and data infrastructure, land management, health, safety and environment (HSE), environmental, social and governance (ESG) initiatives, and commercial strategy. Most recently, he was Chief Operating Officer at Rimrock Resource Operating, where he directed subsurface strategy, capital deployment, and the build-out of advanced data and IT systems, enabling analytics-driven decision-making that accelerated growth in the Anadarko Basin.

Mr Weatherl brings a deep understanding of U.S. shale business and a proven track record of delivering efficient, high-margin growth. His appointment is strongly aligned with Brookside's strategy to unlock value from its high-quality acreage in the SWISH Play, located in the southern Anadarko Basin, Oklahoma.

Brookside's Managing Director and CEO, David Prentice said:

"We're delighted to welcome Chris to the Board at such an important stage in Brookside's development. His in-basin experience, operational capability, strategic vision, and leadership insight will strengthen the Board's oversight as we continue to grow production, build scale, and return capital to shareholders."

Mr Weatherl added:

"I'm excited to be joining Brookside's Board and contributing to the next phase of the Company's growth. Brookside has assembled a high-quality asset base and a talented team. I look forward to supporting the execution of its disciplined, value-driven strategy."

This appointment strengthens the Board's operational insight and strategic capability as the Company advances its development and capital allocation plans and prepares for its planned Level III ADR program and listing on the NYSE American.

ABOUT BROOKSIDE ENERGY LIMITED

Brookside is an Australian public company listed on the Australian (ASX: BRK), and USA (OTC Pink: RDEF) stock exchanges. The Company was founded in 2015, to focus on the mid-continent region of the US, where our deep and valued relationships enable us to work with local communities to ensure sustainable growth and value creation through the safe and efficient development of energy assets. Focused on exploitation not exploration, the Company generates shareholder value through a disciplined portfolio approach to the acquisition and development of oil and gas assets and the leasing and development of acreage opportunities. The Company's wholly owned US subsidiary and manager of operations, Black Mesa Energy, LLC (Black Mesa), is led by a team of experienced and dedicated oil and gas professionals with decades of experience in the US onshore oil and gas sector with specific focus on the mid-continent region. Black Mesa works to identify opportunities that meet the Company's investment hurdles and executes the acquisition and subsequent development of these projects.

GLOSSARY

APO WI	After pay-out working interest
AFIT	After Federal Income Tax
AOI	Area of Interest
BBL	Barrel
BFIT	Before Federal Income Tax
BOE	Barrels of Oil Equivalent
BOEPD	Barrels of Oil Equivalent Per Day
BOPD	Barrels of Oil Per Day
BPD	Barrels Per Day
COPAS	Council of Petroleum Accountants Societies
Development Unit or DSU	Development Unit or drilling spacing unit is the geographical area in which an initial oil and/or gas well is drilled and produced from the geological formation listed in a spacing order. The spacing unit communitizes all interest owners for the purpose of sharing in production from oil and/or gas wells in the unit. A spacing order establishes the size of the unit; names the formations included in the unit; divides the ownership of the unit for the formations into the "royalty interest" and the "working interest;" Only one well can be drilled and completed in each common source of supply. Additional wells may be drilled in a Development Unit, but only after an Increased Density Order is issued by the Oklahoma Corporation Commission.
Force Pooled	The Oklahoma Corporation Commission is authorized to establish well spacing and drilling units covering any common source of supply of hydrocarbons, or any prospective common source of supply. Once the unit is established, the Commission can force pool the interests of all the owners who own interests in that unit and who have not voluntarily joined in the development of that unit.
IP	Initial Production
MBOE	1,000 barrels of oil equivalent
Mcf	1,000 cubic feet
MMBOE	1,000,000 barrels of oil equivalent
NPV ₁₀	The net present value of future net revenue before income taxes and using a discount rate of 10%.
NRI	Net Revenue Interest
PDP	Proved Developed Producing Reserves
Pooling Agreements	The pooling agreements facilitate the development of oil and gas wells and drilling units. These binding pooling agreements are between the Company and the operators
Prospective Resource	Prospective Resources are those quantities of petroleum which are estimated, on a given date, to be potentially recoverable from undiscovered accumulations.
PUD	Proved Undeveloped Reserves
Reserve Categories	These reserve categories are totalled up by the measures 1P, 2P, and 3P, which are inclusive of all reserve types: <ul style="list-style-type: none"> • "1P reserves" = proven reserves (both proved developed reserves + proved undeveloped reserves). • "2P reserves" = 1P (proven reserves) + probable reserves, hence "proved AND probable." • "3P reserves" = the sum of 2P (proven reserves + probable reserves) + possible reserves, all 3Ps "proven AND probable AND possible."
STACK	Sooner Trend Anadarko Basin Canadian and Kingfisher Counties – oil and gas play in the Anadarko Basin Oklahoma
SCOOP	South Central Oklahoma Oil Province - oil and gas play in the Anadarko Basin Oklahoma
SWISH AOI	Description of Brookside's Area of Interest in the SCOOP Play
TVD	True Vertical Depth
Working Interest	Percentage of ownership in a lease granting its owner the right to explore, drill and produce oil and gas from a tract of property. Working interest owners are obligated to pay a corresponding percentage of the cost of leasing, drilling, producing, and operating a well or unit
