

## RBX TAX CREDIT RECEIVED FROM REVENUE QUEBEC

26 AUGUST 2025

Resource Base Ltd (ASX: RBX) (**Resource Base** or **the Company**) is pleased to announce that it has received a tax credit of CAD\$131,679.54 (approximately A\$147,000) from Revenue Quebec in Canada.

The Quebec Government has refunded the Company for its resource and exploration expenditure credits owing from the year ended 31 December 2024. The cash received from these incentives will assist the Company as it progresses its existing projects, whilst it continues to assess new project opportunities.

### About Resource Base Ltd

#### Mitre Hill REE Project

The Company believes the Murray Basin has the potential to be a globally significant REE precinct.

The Mitre Hill Project tenements are highly prospective for clay hosted Rare Earth Elements (REE) within the southern margin of the Murray Basin on the South Australia / Victoria border. Drilling results have confirmed the occurrence of shallow mineralisation across the two tenements drilled so far.

The **maiden JORC Inferred Mineral Resource estimate of 21 Mt @ 767 ppm TREO** announced consists of thick zones of near-surface mineralisation. Significantly, the existing resource has the potential to substantially grow in size and scale as the Mineral Resource estimate only incorporates a portion of the identified Exploration Target drilled to date.<sup>1</sup>

#### Gawler Craton

The Company has two highly prospective tenements prospective for gold, titanium and rare earths within close proximity to the Petrathern Limited (ASX:PTR) Muckanippie heavy mineral sands prospect. See ASX announcement dated 28 April 2025.
