Directors' report

30 June 2025

1. Information on Directors and Group Company Secretary (continued)

Information on the current Directors, including their terms of service, qualifications, experience and special responsibilities, and directorships of other listed companies held in the last three years are listed below:

Director	Profiles and Responsibilities
James Fitzgerald	<p>James joined the Civmec Board on 27 March 2012. He is a co-founder of Civmec. A dedicated leader with over 41 years industry experience, he guides the corporate direction of the company, oversees overall business and financial performance, and ensures compliance with corporate governance guidelines. James has contributed to several national industry initiatives, including roles with the Centre for Defence Industry Capability and the AusIndustry Modern Manufacturing Initiative. A strong advocate for skills development and inclusion, he promotes training pathways, diversity, and equal opportunity across the business. His leadership continues to guide Civmec's growth while reinforcing its role in supporting Australia's industrial capabilities.</p> <p>Responsibilities: Executive Chairman Current directorships of listed entities: Nil Other directorships of listed entities within the past three years: Nil</p>
Patrick Tallon	<p>Patrick was appointed to the Board on 27 March 2012. He is a co-founder of Civmec. Patrick Tallon has 38 years of experience in the construction, engineering and manufacturing sectors. As the CEO, he leads the implementation of the company's strategic objectives, with a focus on operational excellence, workforce engagement, and sustainable growth across all business units. He is committed to fostering a strong safety culture and driving innovation through continuous improvement. Patrick maintains regular engagement with clients, partners, and staff, and is particularly involved with the direct workforce – those on the workshop floors and project sites who carry out the physical work. His leadership style promotes collaboration and a values driven approach in all aspects of the business. A dedicated supporter of a few charities, he has taken part in seven Vinnies CEO Sleepout events, raising more than A\$500,000 in total for homelessness.</p> <p>Responsibilities: Chief Executive Officer Current directorships of listed entities: Nil Other directorships of listed entities within the past three years: Nil</p>
Kevin Deery	<p>Kevin joined the Civmec Board on 27 March 2012. With a Bachelor of Engineering (Mechanical) degree, he has more than 31 years of experience managing major Australian manufacturing and construction projects. A key part of Civmec's leadership since its inception, he oversees the Group's operations, with responsibility for project delivery, safety performance, and financial control. Kevin also plays a central role in ensuring Civmec's operational and financial strategies are closely aligned, enabling continued growth while maintaining quality and efficiency across all areas of the business.</p> <p>Responsibilities: Chief Operating Officer Current directorships of listed entities: Nil Other directorships of listed entities within the past three years: Nil</p>

He holds a Master of Business Administration, a Bachelor of Laws, is a Certified Practising Accountant, and is currently completing a Master of Applied Finance. Prior to his appointment as CFO, Bojan was the Group Manager Commercial and Operational Risk. Following a structured transition process, he succeeded Kevin Deery in the role, who had fulfilled the CFO duties in an acting capacity alongside his responsibilities as Chief Operating Officer for several years. As CFO, Bojan brings a sound understanding of operations and commercial strategy. He works closely with the operational EGMs while managing the company's financial team, ensuring compliance and guiding the company's strategic direction to ensure consistent and sustainable fiscal growth.</p> <p>Responsibilities: Chief Financial Officer</p> <p>Other directorships of listed entities within the past three years: Nil</p> <p>Other directorships: Nil</p>

Directors' report

30 June 2025

2. Principal activities

The consolidated group operates as an integrated construction and engineering enterprise, specialising in:
Manufacturing

The Group offers a comprehensive range of manufacturing capabilities, including heavy engineering, offsite modular assembly and testing. Additionally, it also specialises in supplying OEM material handling equipment and offers expertise in naval shipbuilding.

Construction

The Group delivers comprehensive on-site services, including module installation, SMPE&I (structural, mechanical, piping, electrical & instrumentation), EIC (electrical, instrumentation and control), structural concrete works, and site earthworks.

Maintenance and capital works

The Group delivers SMPE&I services and civil concrete works. It also offers specialised solutions in industrial insulation, rope access solutions and heat-resistant industrial linings.

No significant change in the nature of these activities occurred during the current financial year.

3. Operating and financial review

A summary of the consolidated revenue and results for the current and previous financial years is as follows:

	2025 A\$'000	2024 A\$'000	Variance %
Revenue and other income	814,138	1,038,803	(21.6)
Total depreciation	(21,433)	(19,676)	8.9
Total finance cost	(9,681)	(9,583)	1.0
Earnings before interest, tax and amortisation (EBITDA)	91,689	120,750	(24.1)
Earnings before interest and tax (EBIT)	70,256	101,074	(30.5)
Earnings before tax (EBT)	60,575	91,491	(33.8)
Net profit after tax (NPAT)	42,536	64,409	(34.0)
Cash position	102,940	88,457	16.4
Operating cash flow before working capital changes	89,267	116,544	(23.4)

Revenue and other income were 21.6% lower than the previous year, primarily due to the reduced level of activities within the Resources division and lower interest income earned from bank balances. The gross profit margin remains at 11.5%.

The 33.8% decline in EBT compared to the previous year was mainly driven by a reduction in gross profit, increased administrative costs and higher depreciation expenses.

The Group's cash balance increased by 16.4%. The positive operating cash flow supported the funding of working capital requirements, consistent dividend payments, and capital expenditure in property, plant and equipment.

Directors' report

30 June 2025

4. Likely developments and expected results

The Group continues to focus on sustainable growth and profitability, with tendering activities remaining positive. The Group is actively deploying its growth strategy, including the expansion of its offerings in the materials handling machines, maintenance, and defence sectors. While the level of activity has moderated compared to FY24, the Group remains committed to delivering profitability and shareholder returns by prioritising the acquisition of profitable work.

The Group will continue to embed its strategy of streamlining operations to enhance efficiency and performance.

Further information about likely developments in the operations of the Group and the expected results of those operations in future financial years has not been included in this report because disclosure of the information would be likely to result in unreasonable prejudice to the Group.

5. Significant changes in the state of affairs

Establishment of a new group organisational structure

On 27 October 2023, Civmec Singapore Limited (formerly known as Civmec Limited, domiciled in Singapore) entered into an implementation agreement with Civmec Limited (formerly known as Civmec Australia Limited, domiciled in Australia) with the intention to change the domicile of the head company of the Civmec Group from Singapore to Australia. The Change of Domicile was achieved by way of a scheme of arrangement in accordance with Section 210 of the Companies Act 1967 of Singapore. The Shareholders' scheme became effective on 4 September 2024.

On Restructure, each Civmec Singapore Limited shareholder received one Civmec Limited ordinary share for each Civmec Singapore Limited ordinary share that they held prior to the implementation of the Restructure. Accordingly, these consolidated financial statements reflect a continuation of the Civmec Group prior to the Restructure.

6. Environmental regulations

The consolidated group's operations are not regulated by any significant environmental regulation under a law of the Commonwealth or of a state or territory. The Group is committed to responsible environmental management and sustainability practices. Further details of the Company's environmental policy are available on the Company's corporate website.

7. Dividends

Information on dividends made during the year can be found under Note 25 of this report.

8. Arrangements to enable directors to acquire shares or debentures

Neither at the end of nor at any time during the financial year was the Company a party to any arrangement whose object was to enable the Directors of the Company to acquire benefits by means of the acquisition of shares in or debentures of the Company or any other body corporate, other than as disclosed under 'Performance Rights Plan' in this report.

Directors' report

30 June 2025

9. Shares under option and unvested equity performance rights

Options

There are no outstanding share options at the date of this report.

Performance rights

As at the date of this report, the Company had outstanding performance rights granted under the 2024 Civmec Key Senior Executives Performance Rights Plan as follows:

Year of award	No. of rights granted	No. of unvested rights	Unvested rights held by KMP
FY2022/23: Tranche 6	2,134,000	2,050,000	459,000
FY2023/24: Tranche 7	1,817,000	1,756,000	459,000
FY2024/25: Tranche 8	2,283,000	2,283,000	410,000

These rights entitle the holder to receive shares upon vesting, subject to the satisfaction of the relevant conditions. No amounts are payable by the recipients upon vesting. Further information can be found under Remuneration Report and Note 26 of this report.

10. Directors' shareholdings

The names of Directors of the Company during the year ended 30 June 2025, and up to the date of this report, along with details of the relevant interest of each of those Directors in shares in the Company at the date of this report, are as set out below:

Directors	Shareholdings in the Company
James Fitzgerald	97,720,806
Patrick Tallon	97,620,806
Kevin Deery	10,193,250
Gary Gray ¹	78,000
Douglas Chester ²	70,000

1. appointed on 30 October 2024.

2. retired on 30 October 2024.

Directors' report

30 June 2025

11. Directors' meetings

Chong Teck Sin ¹	N/A	2	2	1	1	2
Wong Fook Choy Sunny ¹	N/A	2	2	1	1	2
Douglas Chester ¹	N/A	2	2	1	1	2
Ambrose Law ²	2	2	2	1	1	2
Ong Beng Hong ²	2	2	2	1	1	2
Gary Gray ²	2	2	2	1	1	2

Note:

*By invitation

1. retired on 30 October 2024

2. appointed on 30 October 2024

12. Corporate governance

Civmec Limited maintains a high level of corporate governance in accordance with the ASX Corporate Governance Principles and recommendations (4th Edition) and Principles and Provisions of the Singapore Code of Corporate Governance 2018 (the 'Code'). For more comprehensive information, refer to Corporate Governance section in this report.

Directors' report

30 June 2025

13. Remuneration report (audited)

The Directors of Civmec Limited present this Remuneration Report for the consolidated group for the year ended 30 June 2025. It has been prepared in accordance with section 300A of the Corporations Act 2001 (Cth) ('Act'), applicable regulations and the Company's policies regarding Key Management Personnel ('KMP') remuneration governance. The remuneration report has been audited as required by section 308(3C) of the Act.

The remuneration report is presented under the following sections:

- 13.1 Introduction
- 13.2 Highlights for FY25
- 13.3 Remuneration governance
- 13.4 Executive remuneration arrangements
 - A. Remuneration strategy and objectives
 - B. Approach to setting remuneration and details of incentive plans
 - C. Executive contracts
- 13.5 Executive remuneration outcomes for FY25 (including link to performance)
- 13.6 Non-executive director remuneration arrangements
- 13.7 Statutory Executive KMP remuneration
- 13.8 Additional disclosures relating to performance rights and shares
- 13.9 Loans to key management personnel and their related parties
- 13.10 Other transactions and balances with key management personnel and their related parties

Directors' report

30 June 2025

13. Remuneration report (audited)(continued)

13.1 Introduction

The remuneration report details the remuneration arrangements for KMP who are defined as those persons having authority and responsibility for planning, directing and controlling the major activities of the Company, directly or indirectly, including any director (whether executive or otherwise) of the Company.

The table below details the KMP of the Company during FY25. Each was a KMP for the entire period unless otherwise stated. For the purposes of this report, the term 'non-executive director' refers to the Independent Directors of the company. The term 'executive KMP' includes the Executive Chairman and other senior executives of the Company.

Non-Executive Directors (NEDs)	Position
Mr. Chong Teck Sin	Lead Independent Director (retired on 30 October 2024)
Mr. Wong Fook Choy Sunny	Independent Director (retired on 30 October 2024)
Mr. Douglas Owen Chester	Independent Director (retired on 30 October 2024)
Mr. Ambrose Law	Lead Independent Director (appointed on 30 October 2024)
Mr. Gary Gray	Independent Director (appointed on 30 October 2024)
Ms. Ong Beng Hong	Independent Director (appointed on 30 October 2024)

Executive KMP	Position
Mr. James Finbarr Fitzgerald	Executive Chairman
Mr. Patrick John Tallon	Chief Executive Officer
Mr. Kevin James Deery	Chief Operating Officer
Mr. Bojan Cica*	Chief Financial Officer

*Mr Bojan Cica commenced in the role of Chief Financial Officer (CFO) effective from 1 September 2024

There were no other changes to KMP after the reporting date and before the date the financial report was authorised for issue.

Directors' report

30 June 2025

13. Remuneration report (audited)(continued)

13.2 Highlights for FY25

Executive fixed remuneration	7.49% Average increase	A comprehensive executive remuneration review was undertaken, assessing each executive director's fixed remuneration against relevant external market benchmarks. This evaluation also considered individual performance, role complexity, and internal relativities. As a result, the base salaries of the Executive Chairman, Chief Executive Officer, and Chief Operating Officer were increased by an average of 7.49%. These adjustments reflect prevailing market conditions and acknowledge the growing complexity of their roles as the company continues to diversify its operations.
Short-term incentive – Group outcomes	30% awarded	<p>The company's Short-Term Incentive Plan (STIP) is structured around both group and individual performance targets. Group targets account for 75% of the total STIP pool available to executive directors.</p> <p>For FY25, STIP measures related to company turnover and EBIT were not met. However, targets associated with Work-in-Hand and Total Recordable Injury Frequency Rate (TRIFR) were successfully achieved. These outcomes reflect the company's ongoing focus on operational execution and safety performance.</p>
Long-term incentive ('LTI') outcomes	68.9% awarded	The 2022 LTI (FY25) three-year performance period ended on 30 June 2025. In line with the LTI incentive plan and the company performance during this period, the Board approved vesting of this award at 68.9% based on assessment against the required
FY25 Non-Executive directors remuneration	0% increase	<p>During FY25 the Board reviewed the NED fee structure in light of relevant benchmarking. As a result, it was determined no increase in NED fees was required.</p> <p>The agreed NED fee pool of SGD\$400,000 (as approved by shareholders at the 2024 AGM) remains unchanged.</p>

Directors' report

30 June 2025

13. Remuneration report (audited)(continued)

13.3 Remuneration governance

The following sets out the Company's governance framework for remuneration setting and decision making, and responsibilities of various parties.

Board	<p>The Board takes an active role in the governance and oversight of the Company's KMP remuneration strategies and has overall responsibility for ensuring the effectiveness of remuneration arrangements. This is in consideration of remuneration outcomes that align with the Company's strategic objectives and risk management framework, and shareholder value over the long term.</p>
Remuneration Committee ('RC' or 'the Committee')	<p>The Company has established an RC to make recommendations to the Board on remuneration packages of individual NEDs and executive KMP to attract and retain talent to drive long-term sustainable results. The Company has developed a remuneration policy for setting the remuneration packages of NEDs and executive KMP.</p> <p>The RC considers all aspects of remuneration, including termination terms, to ensure they are fair. The RC has established a framework of remuneration for the NEDs and executive KMP covering all aspects of remuneration but not limited to NED fees, executive KMP salaries, allowances, bonuses, incentive schemes and benefits-in-kind. This framework considers business context, remuneration guiding principles and external market conditions when setting appropriate remuneration levels. The RC also oversees remuneration governance matters including delegations, disclosures, conflicts of interest and independence.</p> <p>The recommendations of the RC are submitted for endorsement by the entire Board. Each member of the RC abstains from voting on any resolutions in respect of their own remuneration package. Also, in the event that a member of the RC is related to the employee under review, they will abstain from participating in that review. Directors are not involved in the discussion and in deciding their own remuneration.</p>
External Remuneration Advisors	<p>To ensure the Board and the RC are fully informed when making remuneration decisions, it may seek additional market insights and advice from external independent remuneration consultants (as endorsed by the RC and approved by the Board).</p> <p>During the year, the Committee engaged The Reward Practice Pty Ltd ('TRP') to provide remuneration support. A total fee of A\$7,000 was paid to the advisor for services rendered during the year.</p>

Directors' report

30 June 2025

13. Remuneration report (audited)(continued)

13.3 Remuneration governance (continued)

The following sets out the Company's governance framework for remuneration setting and decision making, and responsibilities of various parties. (continued)

Share Trading Policy

The Company has a policy that governs the Directors and senior management personnel dealing in securities trading. The securities trading policy reflects the Corporations Act 2001 prohibition on KMP and their closely related parties from hedging the KMP's incentive remuneration. The KMP, and their immediate family and controlled entities are prohibited from entering into any arrangement that would have the effect of limiting the KMP's exposure to risk relating to an element of the KMP's remuneration that is unvested, or is vested but remains subject to a holding lock. The securities trading policy sets out closed periods for trading in securities by KMP including for four weeks prior to and 48 hours after release of half yearly and annual financial results. The policy also restricts KMP from engaging in short term trading of securities.

The Company's Securities Trading Policy is available at <https://www.civmec.com.au/approach/policies/>.

13.4 Executive remuneration arrangements

13.4A Remuneration strategy and objectives

Civmec aims to remunerate fairly and responsibly and in accordance with the region, markets, skills, experience, individual performance and the applicable corporate governance principles, such as the Principles and Provisions of the Singapore Code of Corporate Governance 2018 and the 4th edition of the Australian Securities Exchange Corporate Governance Principles and Recommendations.

The objectives of Civmec's Remuneration Policy are:

- to ensure the remuneration framework is appropriate to attract, retain and motivate the executive KMP, provide good stewardship of the Company and successfully manage the Company for the long term;
- to ensure the short-term incentives and long-term incentives align with the achievement of Civmec's short-term and long-term strategic goals that support the interests of shareholders and other stakeholders and promote Civmec's long-term success;
- to ensure the share and equity-based plans comply with the applicable corporate governance principles;
- to ensure effective benchmarking of remuneration packages for executive KMP is in accordance with market movements for a clearly defined peer group of similar companies to ensure fair and competitive remuneration; and
- to set performance goals and reward performance for key stages of the Company's development in a way which is sustainable, including in respect of health and safety-based objective.

Directors' report

30 June 2025

13. Remuneration report (audited)(continued)

13.4 Executive remuneration arrangements (continued)

13.4A Remuneration strategy and objectives (continued)

The executive KMP remuneration structure for FY25 remains consistent with prior years and comprises a base salary, superannuation and performance incentives (consisting of short and long-term incentive opportunities). The following table provides an overview of the remuneration structure.

Fixed remuneration (FR)	Short-term Incentive (STI)	Long-term Incentive (LTI)
Purpose		
Attract and retain high quality executives through market competitive and fair remuneration.	Ensure a portion of remuneration is variable, at-risk and linked to the delivery of agreed plan targets for financial and non-financial measures that support strategic priorities.	Designed to retain and reward executives, whilst setting an incentive structure that aligns with overall company performance and shareholder value and ensures that rewards are contingent on the achievement of long-term financial goals such as absolute earnings per share (aEPS) over a multi-year period.
Delivery		
Base salary, superannuation as per the Superannuation Guarantee (Administration) Act 1992.	Awarded in cash based on an assessment of performance against a mix of individual and group KPIs and measures over the preceding year.	Awarded in performance rights which potentially vest after three years. To the extent gateway hurdles are satisfied, vesting is based on absolute earnings per share ("aEPS") over a three-year performance period. Vested LTIs are satisfied in either Civmec shares or the cash equivalent.
Alignment to performance		
Set with reference to comparable industry market benchmarks as well as the size, responsibilities, and complexity of the role, and skills and experience. Individual performance impacts fixed remuneration adjustments.	Performance is assessed using a scorecard comprising financial and non-financial measures linked to the key strategic priorities for the performance year.	Performance is assessed against aEPS which is aligned to shareholder wealth creation over the long term. Underperformance over the longer-term may also result in no vesting of long-term incentive awards (e.g., performance rights).

Directors' report

30 June 2025

13. Remuneration report (audited)(continued)

13.4 Executive remuneration arrangements (continued)

13.4B Approach to setting remuneration and details of incentive plans

In FY25, the executive remuneration framework consisted of base salary and short and long- term incentives as outlined below.

Overall remuneration level and mix

How is overall remuneration and mix determined?

Executive KMP remuneration comprises a fixed and a variable component, the latter of which is in the form of a bonus linked to the performance of the individual as well as the Group. In addition, short-term and long-term incentives are in place to strengthen the pay-for-performance framework by rewarding and recognising the key executives' contributions to the growth of the Group. This is designed to align remuneration with the interests of shareholders and link rewards to corporate and individual performance to promote long-term sustainability of the Group.

The remuneration of the executive KMP is reviewed based on benchmarking against comparable peer companies using survey data sourced from external remuneration consultants and data providers and are reviewed annually by the RC to ensure market competitiveness.

In making its recommendations to the Board on the level and mix of remuneration, the RC strives to be competitive, linking rewards with performance. It takes into consideration the essential factors to attract, retain and motivate the executive KMP needed to run the Company successfully, linking rewards to corporate and individual performance, and aligning their interest with those of the shareholders.

RENUNERATION MIX

■ Fixed Renumberation STI LTI ■ STI ■ LTI

30 June 2025

13. Remuneration report (audited)(continued)

13.4 Executive remuneration arrangements (continued)

13.4B Approach to setting remuneration and details of incentive plans (continued)

Base salary and other benefits																			
How is base salary and other benefits reviewed and approved?	Base salary and other benefits are reviewed annually utilising benchmarked remuneration data. Any changes in remuneration for executive KMP are subject to approval from the Board considering recommendations from the RC.																		
Short-Term Incentives (STI)																			
What is the STI plan?	The STI ensures a portion of remuneration is variable, at-risk and linked to individual performance and the delivery of agreed plan targets for financial and non-financial measures that support the Company's strategic priorities over a twelve-month performance period. The STI is awarded in cash on completion of the external audit, approval by the RC and Board and subsequent release of the Annual Report.																		
What are the performance criteria and how do they align with business performance?	<p>STI payments are not guaranteed and are linked to the achievement of a mix of company and individual performance metrics as approved by the Board for the year.</p> <p>The performance measures relating to the Executive Chairman are shown below.</p> <p>Corporate Measures (75%)</p> <table> <tr> <th>Key Performance Indicator</th><th>Weighting</th></tr> <tr> <td>Turnover – The Groups Annual Revenue</td><td>30%</td></tr> <tr> <td>EBIT – Earnings Before Interest and Tax</td><td>40%</td></tr> <tr> <td>Work in Hand [WIH] Order Book</td><td>20%</td></tr> <tr> <td>Total recordable injury frequency rate per 1 million hours worked [TRIFR*]</td><td>10%</td></tr> </table> <p>*12 month rolling figure (annualised)</p> <p>Individual Measures (75%)</p> <p>The Executive Chairman's individual measure relevant to STI award is at risk against personal objectives set at the beginning of the financial year.</p> <table> <tr> <th>Key Performance Indicator</th><th>Weighting of Individual Bonus</th></tr> <tr> <td>Growth and Strategy</td><td>50%</td></tr> <tr> <td>Operating costs and Overhead Management</td><td>25%</td></tr> <tr> <td>Future Planning</td><td>25%</td></tr> </table>	Key Performance Indicator	Weighting	Turnover – The Groups Annual Revenue	30%	EBIT – Earnings Before Interest and Tax	40%	Work in Hand [WIH] Order Book	20%	Total recordable injury frequency rate per 1 million hours worked [TRIFR*]	10%	Key Performance Indicator	Weighting of Individual Bonus	Growth and Strategy	50%	Operating costs and Overhead Management	25%	Future Planning	25%

13. Remuneration report (audited)(continued)

13.4 Executive remuneration arrangements (continued)

13.4B Approach to setting remuneration and details of incentive plans (continued)

Short-Term Incentives (STI) (continued)		
What is the value of the STI award opportunity?	The executive KMP FY25 STI maximum opportunity is shown below.	
How are STI payouts determined?	The STI award is determined after the end of the financial year and release of financial statements and individual and group performance, over the year against the KPIs set by the RC.	
What happens to STI awards in the event of employment cessation?	STI awards will lapse on cessation of employment, unless the Participant is considered a 'Good Leaver". A participant will generally be considered a "Good Leaver" if they retire, leave due to ill health, injury, disability, death, redundancy, or any other reason approved by the Committee, including certain corporate restructures or transfers within the Group. In such cases, the Committee has full discretion to determine whether any unvested Performance Rights should lapse or vest (in whole or in part). This decision will be made on a case-by-case basis, taking into account factors such as the Participant's contributions and the extent to which performance conditions have been met. If vesting is approved, the relevant Award Shares will be delivered to the Participant.	
Long-Term Incentive (LTI)		
What is the LTI plan?	The LTI plan is delivered in cash and performance rights, granted at the discretion of the RC.	
	The original Civmec Limited Performance Rights Plan (the 'CPRP') was replaced by the '2024 Civmec Key Senior Executives Performance Rights Plan', which was approved and adopted at the Extraordinary General Meeting ('EGM') held on 1 August 2024. This new plan is designed to reinforce the vital equity culture at the top management level and to further align the interests of the Company's top management with those of shareholders.

13. Remuneration report (audited)(continued)

13.4 Executive remuneration arrangements (continued)

13.4B Approach to setting remuneration and details of incentive plans (continued)

Long-Term Incentive (LTI) (continued)		
How is performance measured? (continued)	<i>Company Performance Measures</i>	
	To the extent the gateway hurdles are satisfied, 100% of the vesting will be based on the absolute earnings per share (aEPS) outcome. The aEPS is based on the achievement of certain predetermined performance targets determined by the RC. The vesting schedule is as follows:	
	LTI proportion vesting	aEPS (100%)
	50%	Target =90% of three-year average annual result
	Pro-rata between 50% and 100%	Outcome achieved between target and stretch
	100%	Stretch >110% of three-year average annual result
	The RC has the discretion to determine whether the performance targets have been met.	
When is performance measured?	After the end of each performance period, the RC will review the performance targets specified in respect of the Award and if they have been satisfied, will release awards to Participants.	
What happens if an executive leaves?	For all participants, termination of employment will trigger a forfeiture of all unvested awards except under certain limited circumstances defined in the Plan Rules (e.g., good leavers).	
What happens if there is a change in control?	If a change of control event occurs with respect to the Company, the RC may determine, in its discretion, whether the rights immediately vest and if so, what proportion shall vest.	

13.4C Executive contracts

Remuneration arrangements for KMP are formalised in employment agreements. The following outlines the details of contracts with the executive KMP (including the Executive Chairman):

	Notice period	Payment in lieu of notice	Treatment of STI on termination	Treatment of LTI on termination
Resignation	6 months	Yes	Unvested awards forfeited	Unvested awards forfeited
Termination for cause	None	None	Unvested awards forfeited	Unvested awards forfeited
Termination in cases of death, disablement, redundancy or notice without cause*	6 months**	There are no provisions in the contract	RC discretion under Good Leaver requirements	RC discretion under Good Leaver requirements

*Special provisions in the incentive plan rules deal with termination in the case of death, in addition to income protection and insurance impacts.

**Notice period provisions do not apply to death.

13. Remuneration report (audited)(continued)

13.5 Executive remuneration outcomes for FY25 (including link to performance) (continued)

Long-Term Incentives

Company performance and its link to short-term incentives

The LTI outcomes for FY25 are directly tied to the company's performance, measured through the achievement of predetermined absolute earnings per share (aEPS) targets. Vesting of performance rights occurs only when gateway hurdles—such as satisfactory personal performance reviews and continued employment—are met. Once these are satisfied, 100% of the LTI vesting is based on aEPS results over a three-year average annual result.

LTI Hurdle (FY25)	Performance outcomes	Vesting outcome	Further details
Absolute EPS (100% weighting)	<div><div>90%</div><div>110%</div></div>	68.90%	Assessed in line with Plan rules, the vesting outcome reflects aEPS target number achievement for the period. The average aEPS % of target achieved is 97.6%
Total vesting outcome		68.90%	

Directors' report

30 June 2025

13. Remuneration report (audited)(continued)

13.6 Non-executive Director remuneration arrangements

The remuneration of the Independent Directors is in the form of a fixed fee which is subject to shareholders' approval at the AGM in accordance with any listing rules. Each member of the RC abstains from voting on any resolution, participating in any deliberation of the RC, and making any recommendation in respect of their own remuneration.

The Executive Directors do not receive Director's fees.

Remuneration policy

The Board seeks to set aggregate remuneration at a level that provides the Company with the ability to attract and retain directors of the highest calibre, whilst incurring a cost that is acceptable to shareholders.

The amount of aggregate remuneration sought to be approved by shareholders and the fee structure is reviewed annually against fees paid to Non-Executive Directors of comparable ASX listed companies with similar market capitalisation of the Company, as well as similar sized industry comparators. The Board considers advice from external consultants when undertaking the annual review process.

Civmec has adopted the following approach for the non-executive directors' remuneration:

- The non-executive directors are remunerated at a fixed fee for their time, commitment and responsibilities.
- The non-executive directors are prohibited from involvement in the decision making of their individual remuneration.
- The maximum aggregate amount of the non-executive director' fees that the Company can pay to nonexecutive directors is subject to approval by shareholders at Annual General Meeting.
- The remuneration for the non-executive directors is not linked to individual performance.
- The non-executive directors are not part of any equity-based remuneration schemes.
- The non-executive directors are not entitled to any retirement benefits.

The Company's constitution and the ASX listing rules specify that the NED fee pool shall be determined from time to time by a general meeting. The latest determination was at the 2024 AGM when shareholders approved an aggregate fee pool of SGD\$400,000 per annum.

Structure

The remuneration of NEDs consists solely of Director fees. NEDs are not eligible for any additional fees for their role as a committee chair or member. All NEDs participate as a member of all committees. The Chair (Lead Independent Director) chairs two committees and the other NEDs chair one committee each. To ensure independence, NEDs do not participate in any incentive schemes.

The table below summarises the NED fee policy (SGD) for FY24 and FY25. All fees are inclusive of any applicable superannuation.

Non-Executive Directors Fees	FY24	FY25
Chair (Lead Independent Director)	S\$101,000	S\$101,000
Member (Independent Directors)	S\$89,000	S\$89,000

Directors' report

30 June 2025

13. Remuneration report (audited)(continued)

13.6 Non-executive Director remuneration arrangements (continued)

NED statutory remuneration for FY25

The remuneration of NEDs for FY25 and FY24 is detailed below.

The figures presented in the table below reflect the remuneration paid to NEDs. All payments were made in Singapore Dollars (SGD), and the amounts shown are denominated in the payment currency.

Non-Executive Directors	Year	Director fees (including committee fees & superannuation)	Total
Mr. Chong Teck Sin	FY25	S\$33,667	S\$33,667
	FY24	S\$101,000	S\$101,000
Mr. Wong Fook Choy Sunny	FY25	S\$29,667	S\$29,667
	FY24	S\$89,000	S\$89,000
Mr. Douglas Owen Chester	FY25	S\$29,667	S\$29,667
	FY24	S\$89,000	S\$89,000
Mr. Ambrose Law	FY25	S\$75,750	S\$75,500
	FY24	-	-
Mr. Gary Gray	FY25	S\$66,750	S\$66,750
	FY24	-	-
Ms. Ong Beng Hong	FY25	S\$66,750	S\$66,750
	FY24	-	-
Totals	FY25	S\$302,251	S\$302,251
	FY24	S\$279,000	S\$279,000

Note: On 30 October 2024, Mr. Chong Teck Sin, Mr. Wong Fook Choy Sunny, and Mr. Douglas Owen Chester retired from the Board to ensure compliance with tenure requirements under the SGX Listing Rules. Prior to their departure, there was a transitional period during which newly appointed independent directors—Mr. Ambrose Law, Mr. Gary Gray, and Ms. Ong Beng Hong—joined the Board. This overlap is reflected in the year-on-year increase in NED remuneration between FY24 and FY25, as shown in the table above.

Kevin Deery	10,193,250	-	-	10,193,250
Bojan Cica	120,000	34,000	50,000	204,000
Total	205,724,862	34,000	128,000	205,886,862

Note:

1. All shares were issued for nil consideration.
2. The individuals listed resigned from their positions effective 30 October 2024.
3. The Civmec Performance Rights Plan limits the number of any grant of performance rights under the plan to Controlling Share Holders (directly or indirectly holds 15% or more total number of issued shares) to 10% or less. Based on this rule, Civmec is limited to issuing performance rights to some of the Directors and the equivalent value of cash is paid.
4. Includes Ordinary Shares held directly, indirectly and beneficially by KMP.

Directors' report

30 June 2025

13. Remuneration report (audited)(continued)

13.9 Loans to key management personnel and their related parties

During the financial year and to the date of this report, the Company made no loans to directors and other KMP and none were outstanding as of 30 June 2025 (2024: nil)

13.10 Other transactions and balances with key management personnel and their related parties

During the financial year, Newpark WA Pty Ltd (as Trustee for The Fitzgerald Newpark Family Trust) purchased steel and other materials at arm's length from Civmec Construction & Engineering Pty Ltd on 13 September 2024, valued at A\$142,000 (excluding GST) (2024: nil).

Since the end of the financial year ended 30 June 2025, and up to the date of this report, the Company has not made any other transactions with KMP.

This directors' report is signed in accordance with a resolution of directors made pursuant to s298(2) of the *Corporations Act 2001*.

END OF REMUNERATION REPORT (AUDITED)

14. Indemnification of and insurance of Officers and Auditors

The Company has paid premiums to insure the directors against liabilities for costs and expenses incurred by them in defending any legal proceedings arising out of their conduct while acting in the capacity of director of the company, other than conduct involving a wilful breach of duty in relation to the Company. In accordance with a confidentiality clause under the insurance policy, the amount of the premium paid to insurers has not been disclosed.

No other insurance premiums have been paid or indemnities given during or since the financial year, for any person who is or has been an officer or auditor of the consolidated entity.

15. Proceedings on behalf of the Company

No proceedings have been brought or intervened in on behalf of the Company with leave of the Court under section 237 of the *Corporations Act 2001* during or since the end of the financial year ended 30 June 2025.

16. Joint auditor's independence declaration

The independence declaration from both Moore Australian Audit (WA) and Moore Stephens LLP, as required under section 307C of the *Corporations Act 2001* (as amended), is included on page 29 of this report.

Directors' report

30 June 2025

17. Non-audit services

There were no non-audit services provided by the Group's Joint Auditors during the years ended 30 June 2025 and 2024.

18. Rounding of amounts

In accordance with ASIC Corporations (Rounding in Financial/Directors' Reports) 2016/191, amounts in this Directors' Report and the Financial Statement have been rounded to the nearest thousand dollars (\$'000), unless a lower rounding amount is applicable.

19. Significant events since balance date

Acquisition of Luerssen Australia Pty Ltd

On 1 July 2025, the Group has completed the acquisition of 100% of the shares in Luerssen Australia Pty Ltd from NVL Australia GmbH, for a cash consideration of A\$20 million. The acquisition was funded from the Group's existing cash reserves. It is the intent that, Luerssen Australia will be renamed to 'Civmec Defence Industries Pty Ltd'.

This Directors' Report is made in accordance with a resolution of the Directors.

Report on Corporate Governance

30 June 2025

Introduction

The Board of Directors (the 'Board') and the senior management of Civmec Limited ('Civmec' or the 'Company') together with its subsidiaries (the 'Group'), recognise the importance of good corporate governance in ensuring greater transparency and protecting the interests of shareholders, as well as strengthening investors' confidence in its management and financial reporting and are, accordingly, committed to maintaining a high standard of corporate governance throughout the Group.

This corporate governance report ('Report') describes the Company's corporate governance framework and practices that were in place during the financial year ended 30 June 2025 (FY2025') with specific reference to the Principles and Provisions of the Singapore Code of Corporate Governance 2018 (the 'Code') and the 4th edition of the Australian Securities Exchange ('ASX') Corporate Governance Principles and Recommendations ('ASX Principles and Recommendations'), which is also available on the Company's corporate website.

In line with the commitment of the Company to maintaining high standards of corporate governance, the Company continually reviews its corporate governance processes to strive to comply with the Code. To the extent the Company's practices may vary from the provisions of the Code for FY2025, the Company has explained how its practices are consistent with the intent of the relevant principles of the Code.

The Board is pleased to report compliance of the Company with the Code, the Listing Manual of the Singapore Exchange Securities Limited (the 'SGX-ST'), and the Listing Rules of the ASX, where applicable, except where otherwise stated.

Board Matters

The Board's Conduct of Affairs

Principle 1: The company is headed by an effective Board which is collectively responsible and works with Management for the long-term success of the company.

Provision 1.1 Directors are fiduciaries who act objectively in the best interests of the company and hold Management accountable for performance. The Board puts in place a code of conduct and ethics, sets appropriate tone-from-the-top and desired organisational culture, and ensures proper accountability within the company. Directors facing conflicts of interest recuse themselves from discussions and decisions involving the issues of conflict.

Apart from its statutory duties and responsibilities, the Board's functions include:

- overseeing the management and affairs of the Group and approving the Group's corporate strategy and directions;
- implementing policies in relation to financial matters, which include risk management and internal control and compliance;
- reviewing the financial performance of the Group, approving investment proposals and setting values and standards, including ethical standards for the Company and the Group;
- ensuring that the Group has in place an appropriate risk management framework and setting the risk appetite within which the Board expects senior management to operate;
- approving the appointment, and when necessary replacement, of the senior management personnel; and
- developing and reviewing corporate governance principles and policies.

All Directors are aware of their fiduciary duties and exercise due diligence and independent judgement in ensuring that their decisions are objective and in the best interests of the Company. Directors who face conflicts of interest disclose their interests and voluntarily recuse themselves from discussions and decisions involving the issues of conflict.

Report on Corporate Governance

30 June 2025

Board Matters (continued)

The Board's Conduct of Affairs (continued)

Principle 1 (continued)

Provision 1.2 Directors understand the company's business as well as their directorship duties (including their roles as executive, non-executive and independent directors). Directors are provided with opportunities to develop and maintain their skills and knowledge at the company's expense. The induction, training and development provided to new and existing directors are disclosed in the company's annual report.

The Company encourages the Directors to learn and develop their directorship skills. The Directors may attend training, conferences and seminars which may have a bearing on their duties and contribution to the Board, organised by professional bodies, regulatory institutions and corporations at the Company's expense, to keep themselves updated on the latest developments concerning the Group and to keep abreast of the latest regulatory changes.

Each quarter, the Board was briefed and/or updated on recent changes to the accounting standards and industry developments and business initiatives. These briefings were provided by the Company's independent auditors.

All the Board members are actively engaged and play an important role in ensuring good corporate governance within the Company. Visits to the Company's business premises are arranged to acquaint the Non-Executive Directors with the Company's operations and ensure that all the Directors are familiar with the Company's business, policies and governance practices.

Prior to their respective appointments to the Board, each Director was given an orientation and induction programme to familiarise themselves with the Company's business activities, strategic directions, policies and key new projects and have undertaken all appropriate checks (including the person's character, experience, education, criminal record and bankruptcy history). In addition, newly appointed senior management personnel are subject to the same orientation and induction programme including performing appropriate checks in accordance with the Company's onboarding policies and procedures before the personnel are introduced to the senior management team. Upon appointment of each Director and key management personnel, (senior executive), the Company provides a Services Agreement to the Director and key management personnel (senior executive) setting out their duties and obligations.

Provision 1.3 The Board decides on matters that require its approval and clearly communicates this to Management in writing. Matters requiring board approval are disclosed in the company's annual report.

The Board has delegated the day-to-day management of the Group to the senior management, headed by the Executive Chairman - Mr. James Finbarr Fitzgerald, the Chief Executive Officer - Mr. Patrick John Tallon and the Chief Operating Officer - Mr. Kevin James Deery. The Board has reviewed and adopted the delegation of authority ('DOA') during FY2025 regarding the signing authority and limits. The DOA sets out the authorisation levels required for specific transactions, including those requiring Board approval.

Matters that are specifically reserved for the approval of the Board include, among others:

- reviewing the adequacy and integrity of the Group's internal controls, risk management systems, compliance and financial reporting systems;
- approving the annual budgets and business plans;
- approving major investment or expenditure;
- approving material acquisitions and disposal of assets;
- approving the Company's periodic and full-year results announcements for release to the SGX-ST and ASX;
- approving the annual report and audited financial statements;
- monitoring senior management's performance;
- recommending share issuance, dividend payments and other returns to shareholders;
- ensuring accurate, adequate and timely reporting to, and communication with shareholders; and
- assuming responsibility for corporate governance.

Report on Corporate Governance

30 June 2025

Board Matters (continued)

The Board's Conduct of Affairs (continued)

Provision 1.4 Board committees, including Executive Committees (if any), are formed with clear written terms of reference setting out their compositions, authorities and duties, including reporting back to the Board. The names of the committee members, the terms of reference, any delegation of the Board's authority to make decisions, and a summary of each committee's activities, are disclosed in the company's annual report.

To assist in the execution of its responsibilities, the Board has established several Board Committees namely; Audit Committee ('AC'), Nominating Committee ('NC'), Remuneration Committee ('RC') and Risks and Conflicts Committee ('RCC'). These committees' function within clearly defined terms of references and operating procedures, which are reviewed on a regular basis. The effectiveness of these committees is also regularly monitored and reviewed by the Board. The roles and responsibilities of these committees are described in the following sections of this report.

Provision 1.5 Directors attend and actively participate in Board and board committee meetings. The number of such meetings and each individual director's attendances at such meetings are disclosed in the company's annual report. Directors with multiple board representations ensure that sufficient time and attention are given to the affairs of each company.

The Board meets on a regular basis and when necessary, to address any specific significant matters that may arise. Board meetings are scheduled in advance. The Constitution of the Company provides for Directors to conduct meetings by teleconferencing or videoconferencing or other similar means of communication whereby all persons participating in the meeting are able to hear each other. The Board and Board Committees may also make decisions by way of circulating resolutions.

The number of Board and Board Committee meetings held and attended by each Board member during the financial year ended 30 June 2025 is set out below:

	Extraordinary Board Meetings	Board	Board committee			
			Audit committee	Remuneration committee	Nominating committee	Risks and conflicts committee
No. of meetings held	2	4	4	2	2	4
No. of meeting attended						
James Fitzgerald	2	4	4*	2*	2*	4*
Patrick Tallon	2	4	4*	2*	2*	4*
Kevin Deery	2	4	4*	2*	2*	4*
Chong Teck Sin ¹	N/A	2	2	1	1	2
Wong Fook Choy Sunny ¹	N/A	2	2	1	1	2
Douglas Chester ¹	N/A	2	2	1	1	2

2. appointed on 30 October 2024

Report on Corporate Governance

30 June 2025

Board Matters (continued)

The Board's Conduct of Affairs (continued)

Provision 1.6 Management provides directors with complete, adequate and timely information prior to meetings and on an on-going basis to enable them to make informed decisions and discharge their duties and responsibilities.

The Board is informed of all material events and transactions as and when they occur. The senior management consults Board members as necessary and appropriate. Detailed Board papers, agenda and related material, background or explanatory information relating to matters to be discussed are sent out to the Directors, at least a week prior to each meeting, so all Directors may better understand the issues beforehand, allowing more time for discussions and deliberations.

Directors are provided with a copy of documents containing a wide range of relevant information, including but not limited to quarterly and annual financial results, progress reports of the Group's operations, corporate and business developments, management information, sector performance, budgets, forecast, capital expenditure and personnel statistics, reports from both external and internal auditors, significant project updates, business strategies, risk analysis and assessments and relevant regulatory updates.

The senior management's proposals to the Board for approval include background and explanatory information such as, resources needed, risk analysis and mitigation strategies, financial impact, regulatory implications, expected outcomes, conclusions and recommendations. Employees who can provide additional insight into matters to be discussed will be present at the relevant time during the Board and Board Committee meetings. To keep Directors abreast of the Group's operations, the Directors are also updated on initiatives and developments on the Group's business as soon as practicable and/or possible and on an ongoing basis.

The Company Secretaries administer and are available to attend Board meetings and assist the Chairman in implementing appropriate Board procedures to facilitate compliance with the Company's Constitution. The Company Secretaries also ensure that the requirements of the SGX-ST Listing Manual, ASX Listing Rules and other governance matters applicable to the Company are complied with. The Company Secretaries work together with the Company to ensure compliance with all relevant rules and regulations.

All Directors are updated regularly on changes to the Company's policies and are kept updated on relevant new laws and regulations including Directors' duties and responsibilities, corporate governance and financial reporting standards. Newly appointed Directors are given briefings by the Management on the business activities of the Group.

Provision 1.7 Directors have separate and independent access to Management, the company secretary, and external advisers (where necessary) at the company's expense. The appointment and removal of the company secretary is a decision of the Board as a whole.

The Board has separate and independent access to the senior management of the Company and the Company Secretaries at all times. Requests for information are dealt with promptly by senior management or the Company Secretaries.

The Company Secretaries are appointed by the Board and are accountable to the Board, through the Chairman, on all matters to do with the proper functioning of the Board. The removal of the Company Secretaries are subject to the approval of the Board. The Company Secretaries work closely with the Chairman to manage the flow of information between the Board, its committees and senior management across the Company.

The Board in fulfilling its responsibilities can, as a collective body or individually as Board members, when deemed fit, direct the Company and at the Company's expense, appoint independent professionals to render advice.

Report on Corporate Governance

30 June 2025

Board Matters (continued)

Board Composition and Guidance

Principle 2: The Board has an appropriate level of independence and diversity of thought and background in its composition to enable it to make decisions in the best interests of the company.

Provision 2.1 An 'independent' director is one who is independent in conduct, character and judgement, and has no relationship with the company, its related corporations, its substantial shareholders or its officers that could interfere, or be reasonably perceived to interfere, with the exercise of the director's independent business judgement in the best interests of the company

The independence of each Director is reviewed annually by the NC in accordance with the Code's definition of independence. Each independent director is required to declare their independence by duly completing and submitting a 'Confirmation of Independence' form. The declaration requires each Director to assess whether they consider themselves independent and not having any form of relationships identified in the Code. Each Director is required to declare any circumstances in which they may be considered non-independent. The NC reviews the Confirmation of Independence to determine whether a Director is independent. The NC also considers the actions and conduct of the independent directors, including in formal Board meetings, to assess their independence.

As at FY2024, Mr. Chong Teck Sin, Mr. Wong Fook Choy Sunny and Mr. Douglas Owen Chester had served on the Board for more than nine years. In accordance with SGX-ST Listing Rule 210(5)(d)(iv), which took effect from the Company's AGM for the financial year ending on or after 31 December 2023, directors who have served more than nine years are no longer considered independent.

On 30 October 2024, Mr. Chong Teck Sin, Mr. Wong Fook Choy Sunny and Mr. Douglas Owen Chester retired as Independent Directors. On the same date, Mr. Ambrose Law, Ms. Ong Beng Hong and Mr. Gary Gray were appointed as Independent Directors. The retirement of the outgoing directors and the appointment of the new directors ensures that the Company continues to comply with the SGX-ST Listing Rules regarding director independence. Accordingly, the Independent Directors are considered independent.

Provision 2.2 Independent directors make up a majority of the Board where the Chairman is not independent

As at the date of this Report, the Board comprises six (6) Directors, three (3) of whom are Executive Directors and the remaining three (3) Directors being Independent Directors who make up half of the Board. Accordingly no individual, or group of individuals, dominates the Board's decision-making as half of the Board consist of Independent Directors.

The majority of the Company's Board are not Independent Directors, including the Chairman. The Board's current composition offers a good balance of diversity and professional background of Directors. It brings a range of longer-term benefits to the Company in contrast to having a majority percentage of Independent Directors serving on the Board.

Collectively, the Executive Directors and Independent Directors bring a wide range of experience and expertise as they all currently occupy or have occupied senior positions in industry and/or government, and as such, each contributes significantly to Board decisions.

To strengthen the independence of the Board, the Company has appointed a Lead Independent Director, Mr. Ambrose Law, to co-ordinate and lead the Independent Directors, providing non-executive perspectives and a balanced viewpoint.

The Lead Independent Director will represent the Independent Directors in responding to shareholders' questions and comments that are directed to the Independent Directors as a group.

Report on Corporate Governance

30 June 2025

Board Matters (continued)

Board Composition and Guidance (continued)

Principle 2 (continued)

Provision 2.3 Non-executive directors make up a majority of the Board

As at the date of this Report, the Board comprises six (6) Directors, three (3) of whom are Executive Directors and the remaining three (3) Directors being Independent Directors who make up half of the Board.

Whilst Non-Executive Directors do not make up a majority of the Board, the Board considers the management and oversight function with Executive Directors heavily involved in management activities while Non-Executive Directors exercise an oversight role which brings a range of longer term benefits to the Company. Diversity of thought and professional background of Directors allow decisions to be made in the best interest of the Company.

The Non-Executive Directors provide constructive review and assist the Board to facilitate and develop proposals on strategy and monitor the performance of senior management in meeting agreed objectives. The Non-Executive Directors have full access to and co-operation from the Company's senior management and officers. They have full discretion to have separate meetings without the presence of senior management and to invite any Director or officer to the meetings as and when warranted.

Provision 2.4 The Board and board committees are of an appropriate size and comprise directors who as a group provide the appropriate balance and mix of skills, knowledge, experience, and other aspects of diversity such as gender and age, so as to avoid groupthink and foster constructive debate. The board diversity policy and progress made towards implementing the board diversity policy, including objectives, are disclosed in the company's annual report

The Board, in concurrence with the NC, is of the view that the current Board and the Board Committees comprise an appropriate balance and diversity of skills, experience and knowledge of the Company, which provides broad diversity of expertise such as accounting or finance, business or management experience, industry knowledge, strategic planning experience and customer-based experience and knowledge who, as a group, provide core competencies necessary to meet the Company's requirements. Further details on the key information and the profile of the Directors including their academic and professional qualifications, and other directorships in other listed companies are set out on related pages of this annual report.

The current Board composition provides a diversity of skill, experience, and knowledge to the Company as follows:

Core Competencies	Balance and Diversity of the Board	
	Number of Directors	Proportion of Board
Business management	6	100%
Accounting or finance	6	100%
Legal or corporate governance	6	100%
Strategic planning experience	6	100%
Relevant industry knowledge or experience	5	83%
Gender:		
Male	5	83%
Female	1	17%

Report on Corporate Governance

30 June 2025

Board Matters (continued)

Board Composition and Guidance (continued)

Principle 2 (continued)

Provision 2.4 (continued)

The composition and renewal of the Board, including the need for progressive refreshing of the Board, is reviewed on an annual basis by the NC to ensure that the Board has the appropriate balance and mix of skills, knowledge, expertise, experience and other aspects of diversity such as gender and age, so as to avoid group think and foster constructive debate and possesses the necessary competencies for effective decision making. The Company's Annual Sustainability Report clearly articulates its strategy, targets, performance, and future focus in relation to diversity of the Company as a whole. If a vacancy arises under any circumstances, or where it is considered that the Board would benefit from the services of a new director, the NC, in consultation with the Board, will consider the range of diversity perspectives, including, but not limited to, those described in the Company's Diversity Policy and select the appropriate candidate for the position. The selection of the Directors will be based on merit and potential contribution to the Board, and candidates will be considered against objective criteria that complements and expands the skills and experience of the Board as a whole, and having given due regard to the overall balance and effectiveness of a diverse Board. The main objective is to continue to maintain the appropriate balance of perspectives, skills and experience on the Board to support the attainment of the Company's strategic objectives and its sustainable development. The NC has not set a specific target for board diversity as it may detract from the more fundamental principle that the candidate must be of the right fit and meet the relevant needs and vision of the Company.

Provision 2.5 Non-executive directors and/or independent directors, led by the independent Chairman or other independent director as appropriate, meet regularly without the presence of Management. The chairman of such meetings provides feedback to the Board and/or Chairman as appropriate.

To strengthen the independence of the Board, the Company has appointed a Lead Independent Director, Mr. Ambrose Law, to co-ordinate and lead the Independent Directors, providing a non-executive perspective and balanced viewpoint.

The Independent Directors communicate regularly without the presence of the other Executive Directors and senior management, to discuss matters such as succession and leadership development planning, board processes and corporate governance matters. Feedback on the outcomes of these discussions is provided to the Executive Chairman.

To facilitate an effective review of the senior management, the Non-Executive Directors meet as and when necessary at least once a year with Auditors without the presence of the senior management.

The Board and senior management fully appreciate that the fundamentals of good corporate governance comprise of an effective and robust Board whose members engage in open and constructive debate and challenge senior management on its assumptions and proposals.

Report on Corporate Governance

30 June 2025

Board Matters (continued)

Chairman and Chief Executive Officer

Principle 3: There is a clear division of responsibilities between the leadership of the Board and Management, and no one individual has unfettered powers of decision-making.

Provision 3.1 The Chairman and the Chief Executive Officer ('CEO') are separate persons to ensure an appropriate balance of power, increased accountability, and greater capacity of the Board for independent decision making.

Mr. James Finbarr Fitzgerald is the Executive Chairman of the Company, while Mr. Patrick John Tallon is an Executive Director and Chief Executive Officer ('CEO').

The Executive Chairman and the Chief Executive Officer are not related.

Provision 3.2 The Board establishes and sets out in writing the division of responsibilities between the Chairman and the CEO

Whilst the Board does not have an independent Chairman, the roles of the Executive Chairman and that of the CEO are clearly delineated. The Board believes that while the Chairman is not independent, the current composition of the Board with its combined skills and capability, and its mix of experience, best serve the interests of shareholders.

The two roles are separated whereby the Executive Chairman bears responsibility for providing guidance on the corporate direction of the Group and leadership to the Board, and the CEO has executive responsibility for the Company's day-to-day business.

Provision 3.3 The Board has a lead independent director to provide leadership in situations where the Chairman is conflicted, and especially when the Chairman is not independent. The lead independent director is available to shareholders where they have concerns and for which contact through the normal channels of communication with the Chairman or Management are inappropriate or inadequate.

The Company has appointed a Lead Independent Director, Mr. Ambrose Law. As well as representing the views of the Independent Directors, he is also available to shareholders and to facilitate a two-way flow of information between shareholders, the Executive Chairman and the Board. In addition, all the Board Committees are led and solely comprise Independent Directors.

Report on Corporate Governance

30 June 2025

Board Matters (continued)

Board Membership

Principle 4: The Board has a formal and transparent process for the appointment and re-appointment of directors, taking into account the need for progressive renewal of the Board.

Provision 4.1 The Board establishes a Nominating Committee ('NC') to make recommendations to the Board on relevant matters relating to:

(a) the review of succession plans for directors, in particular the appointment and/or replacement of the Chairman, the CEO and key management personnel; (b) the process and criteria for evaluation of the performance of the Board, its board committees and directors; (c) the review of training and professional development programmes for the Board and its directors; and (d) the appointment and re-appointment of directors (including alternate directors, if any).

The Company had established an NC to make recommendations to the Board on all board appointments.

The formal terms of reference of the NC are to:

- nominate senior management personnel, Directors (including Independent Directors) taking into consideration their competencies, contribution, performance and ability to commit sufficient time and attention to the affairs of the Group and considering their respective commitments outside the Group;
- review and recommend to the Board the composition of the Audit Committee, Remuneration Committee and Risks and Conflicts Committee;
- re-nominate Directors for re-election in accordance with the Constitution at each AGM and having regard to the Director's contribution and performance;
- determine annually whether or not a Director of the Company is independent;
- decide whether or not a Director is able to and has been adequately carrying out their duties as a Director;
- assess the performance of the Board annually as a whole and the individual contribution of each Director and senior management personnel to the effectiveness of the Board;
- review and recommend succession plans for Directors and senior management, in particular the Executive Chairman and the CEO; and
- review and recommend training and professional development programmes for the Board and senior management personnel.

The Company does not have a practice of appointing alternate Directors.

During the reporting period of the year, the NC has:

- reviewed the structure, size and composition of the Board and Board Committees;
- reviewed the independence of Directors;
- reviewed and undertaken the process for evaluating the Board, individual Directors, and senior management personnel performance;
- reviewed results of performance evaluation and provided feedback to the Chairman and Board Committees;
- reviewed the need for progressive refreshing of the Board and provided feedback to the Chairman and Board Committees;
- reviewed succession planning for the Chairman, CEO and senior management personnel and notified the Board; and
- discussed information required to be reported under the 2018 Code or Listing Manual.

Report on Corporate Governance

30 June 2025

Board Matters (continued)

Board Membership (continued)

Principle 4 (continued)

Provision 4.2 The NC comprises at least three directors, the majority of whom, including the NC Chairman, are independent. The lead independent director, if any, is a member of the NC

The NC comprises three members, all of whom including the NC Chairman are Independent Non-Executive Directors:

Name	Position
Mr. Douglas Owen Chester (retired on 30 October 2024)	NC Chairman
Mr. Gary Gray (appointed on 30 October 2024)	NC Chairman
Mr. Chong Teck Sin (retired on 30 October 2024)	Member and Lead Independent Director
Mr. Ambrose Law (appointed on 30 October 2024)	Member and Lead Independent Director
Mr. Wong Fook Choy Sunny (retired on 30 October 2024)	Member
Ms. Ong Beng Hong (appointed on 30 October 2024)	Member

Provision 4.3 The company discloses the process for the selection, appointment and re-appointment of directors to the Board, including the criteria used to identify and evaluate potential new directors and channels used in searching for appropriate candidates in the company's annual report

The process for the selection and appointment (or re-appointment) of Board members is as follows:

- the NC evaluates the balance of skills, knowledge and experience of the Board and, in light of such evaluation and in consultation with the Board, prepares a description of the role and the essential and desirable competencies for a particular appointment (or re-appointment);
- if required, the NC may engage consultants to undertake research on, or assess, candidates for new positions on the Board;
- the NC meets with short-listed candidates to assess their suitability and ensure that the candidates are aware of the expectations; and
- the NC makes recommendations to the Board for approval.

Under Article 55 of the Company's Constitution, a Director must submit for re-election if they have held office continuously for more than three years or beyond the third annual general meeting following their last election or re-election—whichever is longer.

If no Director is otherwise due for election or re-election at an annual general meeting, but the SGX or ASX Listing Rules require that an election be held, the Director who has served the longest since their last election will retire. If multiple Directors were last elected on the same day, the retiring Director will be determined by mutual agreement or, failing that, by lot.

After due review, the Board has accepted the recommendation of the NC and, accordingly, independent director, Mr Gary Gray will be offering himself up for re-election at the forthcoming AGM.

Report on Corporate Governance

30 June 2025

Board Matters (continued)

Board Membership (continued)

Principle 4 (continued)

Provision 4.4 The NC determines annually, and as and when circumstances require, if a director is independent, having regard to the circumstances set forth in Provision 2.1. Directors disclose their relationships with the company, its related corporations, its substantial shareholders or its officers, if any, which may affect their independence, to the Board. If the Board, having taken into account the views of the NC, determines that such directors are independent notwithstanding the existence of such relationships, the company discloses the relationships and its reasons in its annual report.

The independence of each Director is reviewed annually by the NC in accordance with the Code's definition of independence. Each Independent Director is required to declare their independence by duly completing and submitting a 'Confirmation of Independence' form. The declaration requires each Director to assess whether they consider themselves independent and not having any of the relationships identified in the Code. Each Director is required to declare any circumstances in which they may be considered non-independent. The NC reviews the Confirmation of Independence to determine whether a Director is independent. The NC also considers the actions and conducts of the Independent Directors, including in formal Board meetings, to assess their independence. The NC has carefully reviewed and subsequently determined that the Independent Directors namely Mr. Ambrose Law, Mr. Gary Gray and Ms. Ong Beng Hong, are independent.

Provision 4.5 The NC ensures that new directors are aware of their duties and obligations. The NC also decides if a director is able to and has been adequately carrying out his or her duties as a director of the company. The company discloses in its annual report the listed company directorships and principal commitments of each director, and where a director holds a significant number of such directorships and commitments, it provides the NC's and Board's reasoned assessment of the ability of the director to diligently discharge his or her duties

The dates of Director's initial appointment, last re-election and their directorships are set out below:

Name of Director	Date of initial appointment	Date of last re-election	Present directorships in listed companies	Past directorships in listed companies ¹
James Fitzgerald	27 Mar 2012	30 Oct 2024	-	-
Patrick Tallon	27 Mar 2012	30 Oct 2024	-	-
Kevin Deery	27 Mar 2012	30 Oct 2024	-	-
Ambrose Law	30 Oct 2024	-	Global Testing Corporation ²	-
Gary Gray	30 Oct 2024	-	Amplitude Energy ³	-
Ong Beng Hong	30 Oct 2024	-	Intraco Limited ² Moneymax Financial Services Ltd ²	-

Notes:

1. reflects the past directorships held in listed companies in the last three (3) years.
2. SGX listed
3. ASX listed

The NC has considered and taken the view that it would not be appropriate at this time to set a limit on the number of listed company directorships that a Director may hold. Directors have different capabilities, the nature of the organisations in which they hold appointments and the committees on which they serve are of different complexities, and accordingly, each Director would personally determine the demands of their competing directorships and obligations and assess the number of listed company directorships they could hold and serve effectively. Currently, none of the Directors hold more than two (2) directorships in other listed companies.

Report on Corporate Governance

30 June 2025

Board Matters (continued)

Board Membership (continued)

Principle 4 (continued)

Provision 4.5 (continued)

In addition, the NC also determines annually whether a Director with multiple board representations is able to and has been adequately carrying out their duties as a Director of the Company. The NC takes into account the results of the assessment of the effectiveness of the individual Director and the respective Directors' actual conduct on the Board. The NC is satisfied that for FY2025 sufficient time and attention have been devoted by the Directors to the affairs of the Company and the Group. As such, there is presently no need to implement internal guidelines to address their competing time commitments notwithstanding that some of the Directors have multiple board representations.

The NC will, however, continue to review, from time to time, the Board representations and other principal commitments to ensure that Directors continue to meet the demands of the Group and are able to discharge their duties adequately.

Board Performance

Principle 5: The Board undertakes a formal annual assessment of its effectiveness as a whole, and that of each of its board committees and individual directors.

Provision 5.1 The NC recommends for the Board's approval the objective performance criteria and process for the evaluation of the effectiveness of the Board as a whole, and of each board committee separately, as well as the contribution by the Chairman and each individual director to the Board

For the year under review, the NC held two (2) meetings and evaluated the Board's performance as a whole and the contribution of each director to the effectiveness of the Board. The NC has adopted a formal process and criteria to assess the effectiveness of the Board and each of the Directors. The evaluation is carried out annually.

Provision 5.2 The company discloses in its annual report how the assessments of the Board, its board committees and each director have been conducted, including the identity of any external facilitator and its connection, if any, with the company or any of its directors

The NC undertakes an annual formal review and evaluation of both the Board's performance as a whole, as well as individual Director's performance, such as Board commitment, standard of conduct, competency, training & development and interaction with other Directors, senior management and stakeholders.

All Directors complete an evaluation questionnaire designed to seek their view on the various aspects of their individual and Board performance so as to assess the overall effectiveness of the Board.

The completed questionnaire is collated, and the results of the evaluation exercise are subsequently considered by the NC, before making recommendations to the Board. The Chairman of the Board may take actions as may be appropriate according to the results of the performance evaluation, which will be based on objective performance criteria proposed by the NC and approved by the Board.

The performance of individual Directors is assessed based on factors which include their attendance, participation at the Board and Board committee meetings and contributions to the Board in long range planning and the business strategies as well as their industry and business knowledge.

Each member of the NC abstains from voting on any resolutions and making any recommendations and/or participating in any deliberations of the NC in respect of the assessment of their performance and re-nomination as a Director.

The NC conducted a performance evaluation of the Board and Board Committees for FY2025 consistent with this process and determined that all Directors have demonstrated full commitment to their roles and contributed effectively in the discharge their duties. Both the NC and the Board are of the view that the Board has met its performance objectives for FY2025.

Report on Corporate Governance

30 June 2025

Remuneration matters

Procedures for Developing Remuneration Policies

Principle 6: The Board has a formal and transparent procedure for developing policies on director and executive remuneration, and for fixing the remuneration packages of individual directors and key management personnel. No director is involved in deciding his or her own remuneration.

Provision 6.1 The Board establishes a Remuneration Committee ('RC') to review and make recommendations to the Board on:

(a) a framework of remuneration for the Board and key management personnel; and (b) the specific remuneration packages for each director as well as for the key management personnel.

The Company has established a RC to make recommendations to the Board on remuneration packages of individual Directors and key senior management personnel. The Company has developed a remuneration policy for fixing the remuneration packages of Directors and senior executives.

The formal terms of reference of the RC, are to:

- recommend to the Board a framework of remuneration for the Directors and key senior management personnel;
- determine specific remuneration packages for each Executive Director;
- review annually the remuneration of employees related to the Directors and substantial shareholders to ensure that their remuneration packages are in line with the staff remuneration guidelines and commensurate with their respective job scopes and level of responsibilities; and
- perform such other acts as may be required by the SGX-ST and the Code, or ASX, from time to time.

The recommendations of the RC are submitted for endorsement by the entire Board. Each member of the RC abstains from voting on any resolutions in respect of their own remuneration package. Also, in the event that a member of the RC is related to the employee under review, they will abstain from participating in that review. Directors are not involved in the discussion and in deciding their own remuneration.

Provision 6.2 The RC comprises at least three directors. All members of the RC are non-executive directors, the majority of whom, including the RC Chairman, are independent.

The RC comprises three members, all of whom including the RC Chairman are Independent Non-Executive Directors:

Name	Position
Mr. Wong Fook Choy Sunny (retired on 30 October 2024)	RC Chairman
Ms. Ong Beng Hong (appointed on 30 October 2024)	RC Chairman
Mr. Chong Teck Sin (retired on 30 October 2024)	Member
Mr. Ambrose Law (appointed on 30 October 2024)	Member and Lead Independent Director
Mr. Douglas Owen Chester (retired on 30 October 2024)	Member
Mr. Gary Gray (appointed on 30 October 2024)	Member

Report on Corporate Governance

30 June 2025

Remuneration matters (continued)

Procedures for Developing Remuneration Policies (continued)

Provision 6.3 The RC considers all aspects of remuneration, including termination terms, to ensure they are fair.

The RC has established a framework of remuneration for the Board and key senior management personnel covering all aspects of remuneration but not limited to Directors' fees, salaries, allowances, bonuses, incentive schemes and benefits-in-kind.

The RC also oversees the administration of the Civmec Key Executives Performance Rights 2024 established on 1 August 2024, with a 10-year tenure commencing on the establishment date.

The Company has a policy that governs the Directors and senior management personnel dealing in securities trading. The securities trading policy reflects the Corporations Act 2001 prohibition on senior management personnel and their closely related parties from hedging the senior management personnel's incentive remuneration. The senior management personnel, and their immediate family and controlled entities are prohibited from entering into any arrangement that would have the effect of limiting the senior management personnel's exposure to risk relating to an element of the senior management personnel's remuneration that is unvested or is vested but remains subject to a holding lock. The securities trading policy sets out closed periods for trading in securities by KMP including for one month prior to and 48 hours after release of half yearly and annual financial results. The policy also restricts KMP from engaging in short term trading of securities.

The RC reviews the fairness and reasonableness of the termination clauses of the service agreements of Executive Directors to ensure that such contracts of service contain fair and reasonable termination clauses which are not overly generous, with an aim to be fair and avoid rewarding poor performance.

The RC is of the view that it is currently not necessary to use contractual provisions to allow the Company to reclaim incentive components of remuneration from the Executive Directors and key senior management personnel in exceptional circumstances of misstatement of financial statements, or of misconduct resulting in financial loss to the Company and the Group. The Executive Directors owe a fiduciary duty to the Company and the Company should be able to avail itself to remedies against the Executive Directors and key senior management personnel in the event of such exceptional circumstances of breach of fiduciary duty.

During the reporting period of the year, the RC has:

- reviewed and approved remuneration for Executives which includes salary, Short Term and Long Term incentives;
- reviewed benchmarking of fees for directors;
- reviewed the remuneration packages of employees in the Group which includes salary adjustments and bonus; and
- reviewed the remuneration package of the Executive Directors and CEO which includes salary, Short Term and Long Term incentives.

Provision 6.4 The company discloses the engagement of any remuneration consultants and their independence in the company's annual report.

The RC has access to expert professional advice on human resource and remuneration matters whenever there is a need to consult externally.

During the financial year, the fixed remuneration of executives was benchmarked against peers based on the industry salary surveys sourced from AON Mining, Infrastructure & Engineering Remuneration Report and other available data sources.

Report on Corporate Governance

30 June 2025

Remuneration matters (continued)

Level and Mix of Remuneration

Principle 7: The level and structure of remuneration of the Board and key management personnel are appropriate and proportionate to the sustained performance and value creation of the company, taking into account the strategic objectives of the company.

Provision 7.1: A significant and appropriate proportion of executive directors' and key management personnel's remuneration is structured so as to link rewards to corporate and individual performance. Performance-related remuneration is aligned with the interests of shareholders and other stakeholders and promotes the long-term success of the company

Executive Directors and key senior management personnel remuneration comprises a fixed and a variable component, the latter of which is in the form of a bonus linked to the performance of the individual as well as the Group. In addition, short-term and long-term incentives, such as the 2024 Civmec Key Senior Executives Performance Rights Plan, are in place to strengthen the pay-for-performance framework by rewarding and recognising the key executives' contributions to the growth of the Group. This is designed to align remuneration with the interests of shareholders and link rewards to corporate and individual performance to promote long-term sustainability of the Group.

Details of Performance Rights granted to Executive Directors and key senior management personnel, along with further information on fixed and variable remuneration components, are outlined in the Remuneration Report.

Provision 7.2 The remuneration of non-executive directors is appropriate to the level of contribution, taking into account factors such as effort, time spent, and responsibilities.

The remuneration of the Independent Directors is in the form of a fixed fee which is subject to shareholders' approval at the AGM. Each member of the RC abstains from voting on any resolution, participating in any deliberation of the RC, and making any recommendation in respect of their own remuneration. At the 2024 AGM the shareholders approved an aggregate fee pool of SGD\$400,000 per annum.

The Independent Directors' fees were derived using the fee structure as follows:

Position	Annual Fees (\$)
Independent Director who is the Chairman of the Audit Committee	101,000
Other Independent Director	89,000

Provision 7.3 Remuneration is appropriate to attract, retain and motivate the directors to provide good stewardship of the company and key management personnel to successfully manage the company for the long term

In making its recommendations to the Board on the level and mix of remuneration, the RC strives to be competitive, linking rewards with performance. It takes into consideration the essential factors to attract, retain and motivate the Directors and senior management needed to run the Company successfully, linking rewards to corporate and individual performance, and aligning their interest with those of the shareholders.

The Company has renewed the service agreements with the Executive Directors, Mr. James Finbarr Fitzgerald, Mr. Patrick John Tallon and Mr. Kevin James Deery in August 2023. Each service agreement is valid for a period of three (3) years with effect from the date of expiry of the previous period. During the renewal period of three (3) years, either party may terminate the Service Agreement at any time by giving to the other party not less than six (6) months' notice in writing, or in lieu of notice, payment of amount equivalent to six (6) months' salary. The Executive Directors do not receive Director's fees.

Report on Corporate Governance

30 June 2025

Remuneration matters (continued)

Level and Mix of Remuneration (continued)

Principle 7 (continued))

Provision 7.3 (continued)

Pursuant to Article 55 of the Company's Constitution, a Director may not hold office for a continuous period in excess of three years or past the conclusion of the third annual general meeting following the Director's last election or re-election, whichever is the longer, without submitting for re-election by the Company. If no Director would otherwise be required to submit for election or re-election at an annual general meeting but the SGX or ASX Listing Rules require that an election of Directors be held, the Director to retire at the annual general meeting is the Director who has been longest in office since last being elected. As between Directors who were last elected on the same day, the Director to retire is (in default of agreement between them) determined by lot. The remuneration packages of the Executive Directors and the key senior management personnel are based on service agreements and their remuneration is determined having due regard to the performance of the individuals, the Group as well as market trends. Further information relating to director remuneration is contained within the Remuneration Report.

Disclosure on Remuneration

Principle 8 The company is transparent on its remuneration policies, level and mix of remuneration, the procedure for setting remuneration, and the relationships between remuneration, performance and value creation.

Provision 8.1 The company discloses in its annual report the policy and criteria for setting remuneration, as well as names, amounts and breakdown of remuneration of:

(a) each individual director and the CEO; and (b) at least the top five key management personnel (who are not directors or the CEO) in bands no wider than S\$250,000 and in aggregate the total remuneration paid to these key management personnel.

Provision 8.1 of the Code states that the Company should disclose the names, amounts and breakdown of remuneration of at least the top five (5) Key Management Personnel (who are not directors or the CEO) in bands of S\$250,000, and in aggregate the total remuneration paid to them. For FY25, the Company identified Mr. Bojan Cica as the only Key Management Personnel who is not a director or the CEO. Information on the remuneration of its Key Management Personnel (including the Executive Directors and Mr. Bojan Cica) is duly disclosed in the Remuneration Report of this Report.

Provision 8.2 The company discloses the names and remuneration of employees who are substantial shareholders of the company, or are immediate family members of a director, the CEO or a substantial shareholder of the company, and whose remuneration exceeds S\$100,000 during the year, in bands no wider than S\$100,000, in its annual report. The disclosure states clearly the employee's relationship with the relevant director or the CEO or substantial shareholder.

For the year ended 30 June 2025		
A\$115,000 to A\$210,000		
Name of employee	Designation	Relationship
Thomas Tallon	Supervisor	Brother of CEO Patrick Tallon
Sean Fitzgerald	Developer	Son of Executive Chairman

The RC is of the view that the remuneration of these family members is in line with the Company's remuneration guidelines and commensurate with their job scope and level of responsibilities.

Report on Corporate Governance

30 June 2025

Remuneration matters (continued)

Disclosure on Remuneration (continued)

Provision 8.3 The company discloses in its annual report all forms of remuneration and other payments and benefits, paid by the company and its subsidiaries to directors and key management personnel of the company. It also discloses details of employee share schemes.

More details in relation to this can be found in the Remuneration Report duly disclosed in this Report.

Accountability and Audit

Risk Management and Internal Controls

Principle 9: The Board is responsible for the governance of risk and ensures that Management maintains a sound system of risk management and internal controls, to safeguard the interests of the company and its shareholders.

Provision 9.1 The Board determines the nature and extent of the significant risks which the company is willing to take in achieving its strategic objectives and value creation. The Board sets up a Board Risk Committee to specifically address this, if appropriate.

The Company has established the RCC to advise and make recommendations to the Board on risk and conflict matters.

The RCC is guided by its Terms of Reference which highlights its primary responsibilities are to:

- review and monitor the Group's risk management framework and activities, including the Group's levels of risk tolerance and risk policies;
- report to the Board regarding the Group's risk exposures, including the review risk assessment model used to monitor the risk exposures and senior management's views on the acceptable and appropriate level of risk faced by the Group's Business Units;
- recommend and adopt appropriate measures to control and mitigate the business risks of the Group, as and when these may arise;
- perform any other functions as may be agreed by the Board;
- review the Risk Register and Risk Management Framework; and
- requested revisions to the Risk Mitigation Plan presented by senior management to mitigate and monitor the risk exposure.

During the reporting period of the year, the RCC has:

- reviewed the Company's overarching governance framework, risk management policies, and approaches to identifying and mitigating risk;
- evaluated the Company's risk governance structure, including strategies to embed a strong risk culture, define risk appetite, and implement effective processes and procedures;
- assessed quarterly reports from management detailing the Company's risk profile and major exposures (including key technology and cybersecurity risks) and the actions taken to monitor, control, and mitigate these risks; and
- reviewed quarterly compliance reports from management regarding adherence to applicable laws, regulations, and listing requirements.

The RCC reviews all significant control policies and procedures and highlights all significant risk matters to the Board for discussion and to take appropriate actions, if required.

Report on Corporate Governance

30 June 2025

Accountability and Audit (continued)

Risk Management and Internal Controls (continued)

Principle 9 (continued)

Provision 9.1 (continued)

The RCC comprises three members, all of whom, including the RCC Chairman are Independent Non-Executive Directors:

Name	Position
Mr. Chong Teck Sin (retired on 30 October 2024)	RCC Chairman
Mr. Ambrose Law (appointed on 30 October 2024)	RCC Chairman and Lead Independent Director
Mr. Wong Fook Choy Sunny (retired on 30 October 2024)	Member
Ms. Ong Beng Hong (appointed on 30 October 2024)	Member
Mr. Douglas Owen Chester (retired on 30 October 2024)	Member
Mr. Gary Gray (appointed on 30 October 2024)	Member

Provision 9.2 The Board requires and discloses in the company's annual report that it has received assurance from:

(a) the CEO and the Chief Financial Officer ('CFO') that the financial records have been properly maintained and the financial statements give a true and fair view of the company's operations and finances; and (b) the CEO and other key management personnel who are responsible, regarding the adequacy and effectiveness of the company's risk management and internal control systems.

The Group's internal controls and systems are designed to provide reasonable assurance on the integrity and reliability of the financial information and to safeguard and maintain accountability of its assets. Procedures are in place to identify major business risks and evaluate potential financial effects, as well as the authorisation of capital expenditure and investments.

The external auditors carry out, in the course of their statutory audit, an annual review of the effectiveness of the Group's key internal controls, including financial, operational, compliance, information technology controls as well as risk management systems to the extent of their scope as laid out in their audit plan. Any material weaknesses in internal controls, together with recommendations for improvement, are reported to the AC and RCC.

The Company's internal audit function prepares an annual internal audit plan, which takes account of the Company's key risks and other assurance activities performed, enabling internal audit resources to be targeted to areas of greatest value across the Company's operations, including group and subsidiary structures. Processes subject to internal audit include financial, administrative, operational and project specific activities and systems. The internal audit function provides advice on the effectiveness of risk management processes and material internal controls, recommends corrective actions and control improvements and follows up on the implementation of action plans designed by management to address any control deficiencies or improvement opportunities. Internal audit reports containing internal audit results, recommendations and agreed action plans are presented to the AC on a quarterly basis.

The Company appoints internal auditors to carry out a review of the adequacy and effectiveness of the Group's key internal controls, including financial, operational, compliance and information technology controls as well as risk management systems to the extent of their scope as laid out in their audit plan.

Report on Corporate Governance

30 June 2025

Accountability and Audit (continued)

Risk Management and Internal Controls (continued)

Principle 9 (continued)

Provision 9.2 (continued)

In the absence of evidence to the contrary, the Board is satisfied the system of internal controls maintained by the Company and that was in place throughout the financial year and up to the date of this report provides reasonable, but not absolute, assurance against material financial misstatements or losses, and includes the safeguarding of assets, the maintenance of proper accounting records, the reliability of financial information, compliance with appropriate legislation, regulations and best practices, and the identification and containment of financial, operational and compliance risks. Based on the risk management and internal control systems established and implemented by the Group, and work conducted by the internal auditors, external auditors and our internal audit team, the Board, with the concurrence of the AC, is satisfied the Company's system of internal controls and risk management procedures maintained by the Group are adequate and effective to meet the needs of the Company in addressing the financial, operational, compliance, information technology controls and risk management systems in the Group's current business environment, with no material weaknesses identified.

The Board has received assurances from the CEO and Chief Financial Officer that:

- (i) the financial records have been properly maintained (and the financial statements comply with the appropriate accounting standards) and the financial statements give a true and fair view of the Company's operations and finances; and
- (ii) the Company's risk management and internal control systems are adequate and effective.

The Board notes that all internal control systems are designed to manage rather than eliminate risks and no system of internal controls could provide absolute assurance against the occurrence of material errors, poor judgment in decision-making, human error losses, fraud or other irregularities.

Report on Corporate Governance

30 June 2025

Accountability and Audit (continued)

Audit Committee

Principle 10: The Board has an Audit Committee ('AC') which discharges its duties objectively.

Provision 10.1 The duties of the AC include:

(a) reviewing the significant financial reporting issues and judgements so as to ensure the integrity of the financial statements of the company and any announcements relating to the company's financial performance; (b) reviewing at least annually the adequacy and effectiveness of the company's internal controls and risk management systems; (c) reviewing the assurance from the CEO and the CFO on the financial records and financial statements; (d) making recommendations to the Board on: (i) the proposals to the shareholders on the appointment and removal of external auditors; and (ii) the remuneration and terms of engagement of the external auditors; (e) reviewing the adequacy, effectiveness, independence, scope and results of the external audit and the company's internal audit function; and (f) reviewing the policy and arrangements for concerns about possible improprieties in financial reporting or other matters to be safely raised, independently investigated and appropriately followed up on. The company publicly discloses, and clearly communicates to employees, the existence of a whistle-blowing policy and procedures for raising such concerns.

The AC is governed by terms of reference with its primary responsibilities as follows:

- to assist the Board in discharging its responsibility to safeguard the Group's assets, maintain adequate accounting records, and develop and maintain effective systems of internal control with the overall objective of ensuring that our management creates and maintains an effective control environment in the Group;
- to provide a channel of communication between the Board, the management team, the external auditors and internal auditors on matters relating to audit;
- to monitor senior management's commitment to the establishment and maintenance of a satisfactory control environment and an effective system of internal control (including any arrangements for internal audit);
- to monitor and review the scope and results of external audit and its cost effectiveness and the independence and objectivity of the external auditors; and
- to monitor and review the scope and results of internal audit and the cost effectiveness of the internal auditors.

In addition, the functions of the AC are to:

- review with the external auditors the audit plans, their evaluation of the system of internal controls, their management letter and the management's response thereto;
- review with the internal auditors the internal audit plans and their evaluation of the adequacy of the internal control and accounting system before submission of the results of such review to the Board for approval;
- review the half-yearly and annual financial statements and any formal announcements relating to the Group's financial performance before submission to the Board for approval, focusing in particular, on changes in accounting policies and practices, major risk areas, significant adjustments resulting from the audit, compliance with accounting standards and compliance with the SGX-ST Listing Manual, ASX Listing Rules and any other relevant and statutory or regulatory requirements;
- review the internal control and procedures and ensure co-ordination between the external auditors and the management, review the assistance given by the management to the auditors, and discuss problems and concerns, if any, arising from the interim and final audits, and any matters which the auditors may wish to discuss (in the absence of our management where necessary);
- review and consider the appointment or re-appointment of the external auditors and matters relating to resignation or dismissal of the auditors;
- review and consider the appointment or re-appointment of the internal auditors and matters relating to resignation or dismissal of the auditors;

Report on Corporate Governance

30 June 2025

Accountability and Audit (continued)

Audit Committee (continued)

Principle 10 (continued)

Provision 10.1 (continued)

In addition, the functions of the AC are to: (continued)

- review interested person transactions (if any);
- review the Group's hedging policies, procedures and activities (if any) and monitor the implementation of the hedging procedure/policies, including reviewing the instruments, processes and practices in accordance with any hedging policies approved by the Board;
- review potential conflicts of interest, if any, and to set out a framework to resolve or mitigate such potential conflicts of interests;
- undertake such other reviews and projects as may be requested by the Board and report to the Board its findings from time to time on matters arising and requiring the attention of the Audit Committee;
- review and discuss with investigators, any suspected fraud, irregularity, or infringement of any relevant laws, rules or regulations, which has or is likely to have a material impact on the Group's operating results or financial position, and the management's response thereto;
- generally to undertake such other functions and duties as may be required by statute or the SGX-ST Listing Manual and ASX Listing Rules, and by such amendments made thereto from time to time;
- review the effectiveness and adequacy of the administrative, operating, internal accounting and financial control procedures;
- review the findings of internal investigation into matters where there is any suspected fraud or irregularity, or failure of internal controls or infringement of any law, rule or regulation which has or is likely to have a material impact on the Group's operating results and/or financial position;
- review key financial risk areas, with a view to providing an independent oversight on the Group's financial reporting, the outcome of such review to be disclosed in the annual reports or if the findings are material, to be immediately announced via SGXNET and ASX Online; and
- review the Group's compliance with such functions and duties as may be required under the relevant statutes or the SGX-ST Listing Manual and ASX Listing Rules, including such amendments made thereto from time to time.

The AC has the power to conduct or authorise investigations into any matters within its scope of responsibility. The AC is authorised to obtain independent professional advice whenever deemed necessary to discharge of its responsibilities at the Company's expenses.

The AC has the co-operation of and complete access to the Company's management. It has full discretion to invite any Director or Executive Officer to attend the meetings and has been given reasonable resources to enable the discharge of its functions.

As at the reporting period of the year, the AC has:

- reviewed the scope of work of the external auditors;
- reviewed the scope of work of the internal auditors;
- reviewed audit plans and discussed the results of the respective findings and their evaluation of the Company's system of internal accounting controls;
- reviewed interested person transactions of the Company;
- met with the Company's external auditors and internal auditors without the presence of the management;
- reviewed the external auditors' independence and objectivity;

Report on Corporate Governance

30 June 2025

Accountability and Audit (continued)

Audit Committee (continued)

Principle 10 (continued)

Provision 10.1 (continued)

As at the reporting period of the year, the AC has: (continued)

- reviewed the Company's procedures for detecting fraud and whistle-blowing matters and to ensure that arrangements are in place by which any employee, may in confidence, raise concerns about improprieties in matters of financial reporting, financial control, or any other matters. A report is presented to the AC on a quarterly basis whenever there is a whistle-blowing issue; and
- reviewed and recommended the implementation of the tax internal controls testing plan and the results from the testing undertaken.

The AC, having reviewed the external auditors' non-audit services, is satisfied there were no non-audit services rendered that would affect the independence of the external auditors. The AC recognises the need to maintain a balance between the independence and objectivity of the external auditors and the work carried out by the external auditors based on monetary consideration.

Following the change of domicile of the head company, Moore Australia Audit (WA) and Moore Stephens LLP have been appointed as joint auditors for the Group. The aggregate amount of agreed fees to be paid for FY2025 is A\$313,000 which comprises the cost of performing a joint audit of A\$248,000 and audit related fee of A\$65,000. Further information can be found in Note 39 of this report.

The AC is kept abreast by the external auditors of changes to accounting standards, SGX-ST Listing Manual and ASX Listing Rules, and other regulations which could have an impact on the Group's business and financial statements.

The Company has a whistle-blowing policy where people may, in confidence, raise concerns about possible improprieties in matters of financial reporting, fraudulent acts, bribery/corruption conduct, breach of code of conduct and other matters, and has ensured that arrangements are in place for independent investigations of such matters and for appropriate follow up actions. All whistle-blowing reports will be addressed to the AC Chairman, either directly or through STOPline, the independent third-party whistle-blowing service provider. The AC is directly notified of any whistle-blowing reports by the third-party service provider. Staff are regularly informed of the existence of the whistle-blowing mechanism and encouraged to report relevant matters. The identity of persons using this facility are kept confidential unless the person(s) indicate otherwise and the Company does not tolerate any victimisation of a whistleblower.

There were no reports received through the whistle-blowing system during FY2025.

Report on Corporate Governance

30 June 2025

Accountability and Audit (continued)

Audit Committee (continued)

Principle 10 (continued)

Provision 10.2 The AC comprises at least three directors, all of whom are non-executive and the majority of whom, including the AC Chairman, are independent. At least two members, including the AC Chairman, have recent and relevant accounting or related financial management expertise or experience.

The Audit Committee comprises the following three members, all of whom, including the AC Chairman, are Non-Executive Independent Directors:

Name	Position
Mr. Chong Teck Sin (retired on 30 October 2024)	AC Chairman and Lead Independent Director
Mr. Ambrose Law (appointed on 30 October 2024)	AC Chairman and Lead Independent Director
Mr. Wong Fook Choy Sunny (retired on 30 October 2024)	Member
Ms. Ong Beng Hong (appointed on 30 October 2024)	Member
Mr. Douglas Owen Chester (retired on 30 October 2024)	Member
Mr. Gary Gray (appointed on 30 October 2024)	Member

The Board ensures that the members of the AC are appropriately qualified to discharge their responsibilities and they possess the requisite accounting and/or financial management expertise and experience.

Provision 10.3 The AC does not comprise former partners or directors of the company's existing auditing firm or auditing corporation:

(a) within a period of two years commencing on the date of their ceasing to be a partner of the auditing firm or director of the auditing corporation; and in any case, (b) for as long as they have any financial interest in the auditing firm or auditing corporation.

None of the AC members are previous partners or directors of the Group's joint auditors, Moore Australia Audit (WA) / Moore Stephens LLP and none of the AC members hold any financial interest in, Moore Australia Audit (WA) or Moore Stephens LLP.

Provision 10.4 The primary reporting line of the internal audit function is to the AC, which also decides on the appointment, termination and remuneration of the head of the internal audit function. The internal audit function has unfettered access to all the company's documents, records, properties and personnel, including the AC, and has appropriate standing within the company.

The Board recognises the importance of maintaining an internal audit function, independent of the activities it audits, to maintain a sound system of internal control within the Company to safeguard shareholders' investments and the Company's assets.

The Company's internal audit function is outsourced to Deloitte, which is one of the Big Four multinational accounting organisations and it is independent of the Company's business activities. The internal audit team provides expertise and industry insights to strengthen the Company's governance and risk management on an annual basis and comprises a director, a senior manager and supported by other staff, which have more than 30 years of relevant experience combined. The internal auditors conduct the audit based on the standards set by internationally recognised professional bodies. The annual internal audit plan is submitted to the AC for approval prior to the commencement of the internal audit work. The internal auditors review the effectiveness of key internal controls in accordance with the internal audit plan.

Report on Corporate Governance

30 June 2025

Accountability and Audit (continued)

Audit Committee (continued)

Principle 10 (continued)

Provision 10.4 (continued)

Staffed by suitably qualified and experienced executives, the internal auditors have unrestricted direct access to the AC and unfettered access to all the Company's documents, properties and personnel. The internal auditors have a direct and primary reporting line to the AC and assist the AC in overseeing and monitoring the implementation and improvements required on internal control weaknesses identified. The AC reviews the adequacy and effectiveness of the internal audit function quarterly.

The role of the internal auditors is to support the AC in ensuring that the Group maintains a sound system of internal controls by monitoring and assessing the effectiveness of key controls and procedures, conducting in-depth audits of high-risk areas and undertaking investigations as directed by the AC.

The AC regularly reviews the performance of the internal auditors and determines their reappointment and level of remuneration.

The AC reviews the adequacy of the function of the internal audit annually and based on this review believes that the internal auditors have adequate resources to perform their function effectively and objectively and has unfettered access to the Company's documents, records, properties and personnel.

The AC is satisfied with the effectiveness of the existing internal control systems put in place by senior management to meet the needs of the Group in its current business environment.

The Company's external auditors also conduct annual reviews of the effectiveness of the Group's material internal controls for financial reporting in accordance with the scope as laid out in their audit plans.

Shareholder Rights and Engagement

Shareholder Rights and Conduct of General Meetings

Principle 11 The company treats all shareholders fairly and equitably in order to enable them to exercise shareholders' rights and have the opportunity to communicate their views on matters affecting the company. The company gives shareholders a balanced and understandable assessment of its performance, position and prospects.

Provision 11.1 The company provides shareholders with the opportunity to participate effectively in and vote at general meetings of shareholders and informs them of the rules governing general meetings of shareholders.

The AGM and other shareholders' meetings will always be held at a reasonable place and time. The Company ensures that shareholders have the opportunity to participate effectively and to vote at shareholders' meetings. In this regard, shareholders are informed of shareholders' meetings through notices contained in annual reports or a circular sent to all shareholders. These notices are also published in the Business Times newspaper (Singapore) and posted on SGXNET and ASX Online. Shareholders are able to send and receive communications electronically with the Company through its respective share registries platform in Singapore and Australia, details for doing so are available on the corporate website at www.civmec.com.au.

At AGM and other shareholders' meetings, the Executive Chairman ensures constructive dialogue between the Board and shareholders and upholds high standards of corporate governance. Shareholders are invited and given the opportunity to voice their views, put forth any questions and seek clarification on questions they may have regarding the Company. Shareholders are also informed of the rules and voting procedures governing such meetings under the relevant notice of meeting.

For greater transparency, the Company has adopted the voting of all its resolutions by poll at the general meetings and an announcement of the detailed results of the number of votes cast for and against each resolution and the respective percentages are announced at the meeting and via announcements on SGXNET and ASX Online made on the same day.

Report on Corporate Governance

30 June 2025

Shareholder Rights and Engagement (continued)

Shareholder Rights and Conduct of General Meetings (continued)

Principle 11 (continued)

Provision 11.2 The company tables separate resolutions at general meetings of shareholders on each substantially separate issue unless the issues are interdependent and linked so as to form one significant proposal. Where the resolutions are 'bundled', the company explains the reasons and material implications in the notice of meeting.

Resolutions are, as far as possible, structured separately and may be voted on independently.

Provision 11.3 All directors attend general meetings of shareholders, and the external auditors are also present to address shareholders' queries about the conduct of audit and the preparation and content of the auditors' report. Directors' attendance at such meetings held during the financial year is disclosed in the company's annual report.

The Directors and the external auditors are available at the AGM to answer shareholders' queries. In FY2024, all Directors and the external auditor attended the AGM.

Provision 11.4 The company's Constitution (or other constitutive documents) allow for absentia voting at general meetings of shareholders.

The Group fully supports the Code's principle to encourage shareholders' participation in and vote at all the general meetings. The Company's Constitution allows the appointment of a proxy by a shareholder to attend and vote at the AGM on his/her behalf. Shareholders who hold shares through nominees are allowed, upon prior request through their nominees, to attend the general meetings as proxies without being constrained by the two-proxy requirement.

The Company constitution allows the board to implemented measures to allow shareholders who are unable to vote in person at the Company's AGM the option to vote in absentia, such as via mail, electronic mail or facsimile transactions. The board will exercise these measures when it is satisfied that the authentication of shareholder identity information and other related security issues are addressed. The Company will inform shareholders of voting options as part of the relevant notice of meeting.

Where an amendment to its Constitution is required to align the relevant provisions with the requirements of the SGX-ST Listing Manual and the ASX Listing Rules, shareholders' approval will be obtained.

Provision 11.5 The company publishes minutes of general meetings of shareholders on its corporate website as soon as practicable. The minutes record substantial and relevant comments or queries from shareholders relating to the agenda of the general meeting, and responses from the Board and Management.

The Company Secretaries prepares minutes of general meetings that include substantial and relevant comments or queries from shareholders relating to the agenda of the meetings and responses from the Board and the senior management, and makes these minutes available to shareholders at the registered office of the Company at 9 Raffles Place, #26-01 Republic Plaza, Singapore 048619 during normal business hours upon written request.

Minutes of general meetings will be published on the Company's corporate website within 30 days of the date of the meeting.

Report on Corporate Governance

30 June 2025

Shareholder Rights and Engagement (continued)

Shareholder Rights and Conduct of General Meetings (continued)

Principle 11 (continued)

Provision 11.6 The company has a dividend policy and communicates it to shareholders

Civmec Limited is committed to providing excellent returns to its shareholders through a combination of longer-term capital growth and regular dividend payments. The Board considers a range of factors in determining the dividend payable in any year, including the business environment, balance sheet, working capital requirements of the business and potential investment opportunities. The form, frequency and amount of dividends declared each year will take into consideration the Group's profit growth, cash position, positive cash flow generated from operations, projected capital requirements for business growth and other factors as the Board may deem appropriate. Any payouts are clearly communicated to shareholders in public announcements and via announcements on SGXNET and ASX Online when the Company discloses its financial results.

The Company's dividend policy is published on the Company's corporate website at www.civmec.com.au.

The Company has proposed a tax exempt (foreign source) Final Dividend of A\$0.035 per ordinary share for the financial year ended 30 June 2025. This dividend is fully franked for Australian tax resident shareholders.

Engagement with Shareholders

Principle 12 The company communicates regularly with its shareholders and facilitates the participation of shareholders during general meetings and other dialogues to allow shareholders to communicate their views on various matters affecting the company

Provision 12.1 The company provides avenues for communication between the Board and all shareholders and discloses in its annual report the steps taken to solicit and understand the views of shareholders.

The Board is mindful of its obligations to furnish timely information to its shareholders, the public and regulators and to ensure full disclosure of material information to its shareholders in compliance with the statutory requirements and the SGX-ST Listing Manual and ASX Listing Rules.

In this respect the Board is responsible for the release of half yearly and full year results, price sensitive information, the annual report and other material corporate developments in a timely manner and within the legally prescribed period. The Company does not practise selective disclosure. In line with continuous disclosure obligations of the Company pursuant to the SGX-ST Listing Manual, the Australian Corporations Act 2001 (Cth) and the ASX Listing Rules, it is the Company's policy that all the shareholders should be equally informed, on a timely basis via SGXNET and ASX Online, of all major developments that will or expect to have an impact on the Company or the Group. The Board will also receive copies of all material market announcements promptly after they have been made by the Company. The Company also updates shareholders of its corporate developments and Continuous Disclosure Policy through its corporate website at www.civmec.com.au.

In addition, all price sensitive information was publicly released either before the Company met with any of the Company's investors or analysts or simultaneously with such meetings. Financial results and other corporate announcements of the Company are disseminated through announcements via SGXNET and ASX Online.

Provision 12.2 The company has in place an investor relations policy which allows for an ongoing exchange of views so as to actively engage and promote regular, effective and fair communication with shareholders.

The Company has in place an Investor Relations Policy which sets out the principles and practices that the Company applies in order to provide shareholders and prospective investors with information necessary to make well informed investment decisions and to ensure a level playing field.

In addition, the Group has in-house professionals that support the Company to promote relations with, and act as liaison for, institutional investors and public shareholders.

Report on Corporate Governance

30 June 2025

Shareholder Rights and Engagement (continued)

Engagement with Shareholders (continued)

Principle 12 (continued)

Provision 12.3 The company's investor relations policy sets out the mechanism through which shareholders may contact the company with questions and through which the company may respond to such questions.

Relevant contact information through which shareholders may contact the Company are published on its corporate website at <https://www.civmec.com.au/investors/shareholder-services/>.

Managing stakeholders relationships

Engagement with Stakeholders

Principle 13 The Board adopts an inclusive approach by considering and balancing the needs and interests of material stakeholders, as part of its overall responsibility to ensure that the best interests of the company are served

Provision 13.1 The company has arrangements in place to identify and engage with its material stakeholder groups and to manage its relationships with such groups.

Provision 13.2 The company discloses in its annual report its strategy and key areas of focus in relation to the management of stakeholder relationships during the reporting period.

Provision 13.3 The company maintains a current corporate website to communicate and engage with stakeholders.

The Company engages its stakeholders through different channels to establish, address and monitor the material environmental, social and governance (ESG) factors of the Company's operations and its impact on the various stakeholders. Such stakeholders include employees, community, government, regulators, shareholders and investors.

The Company engages stakeholders through the various channels that are already in place, understanding its stakeholders' concerns better, and addressing any issues that they may face. In addition, engagement channels and frequencies are reviewed periodically to ensure that they are sufficient to deal with current identified stakeholders' ESG-related issues.

The Company is committed to enhance and improve the current engagement initiatives, while staying abreast of new trends or developments that may affect the sustainability standing of the Company, and eventually devise corresponding measures to resolve the new ESG issues.

The Company's website can be found at www.civmec.com.au. and includes a tab labelled 'Investors' which provides investors with all the information they may require.

Other Governance Practices

Material Contracts

There were no material contracts of the Company and its subsidiaries, including loans, involving the interests of any Director, the CEO or the controlling shareholders during FY2025.

Interested Person Transactions

The Company has established procedures to ensure that all transactions with interested persons are reported in a timely manner to the AC and these interested persons' transactions are conducted on an arm's length basis and are not prejudicial to the interests of the shareholders. Other than those disclosed in Note 31, there were no other material interested person transactions for FY2025.

Consolidated Statement of Profit or Loss and Other Comprehensive Income

Notes to the Consolidated Financial Statements

30 June 2025

These notes form an integral part of and should be read in conjunction with the accompanying financial statements.

1. Organisational restructure

On 27 October 2023, Civmec Singapore Limited (formerly known as Civmec Limited) entered into an implementation agreement with Civmec Limited (formerly known as Civmec Australia Limited) with the intention to change the domicile of the head company of the Civmec Group from Singapore to Australia. The change of domicile (the 'Restructure') was achieved by way of a scheme of arrangement in accordance with Section 210 of the Companies Act 1967 of Singapore. The Shareholders' scheme became effective on 4 September 2024.

The Restructure was accounted for as a reverse acquisition in the Civmec Group consolidated financial statements as at 30 June 2025, with Civmec Singapore Limited identified as the acquirer in accordance with AASB 3 *Business Combinations* and SFRS(I) 3 *Business Combinations*. Accordingly, these consolidated financial statements reflect a continuation of the Civmec Group. Refer to Supplementary Information section for additional details.

2. General information

These are the consolidated financial statements for Civmec Limited (the Company) and its controlled entities for year ended 30 June 2025. The Company is a publicly listed company incorporated and domiciled in Australia. The Company has been listed on the Australian Securities Exchange ('ASX') and the Singapore Exchange Limited ('SGX'). The registered office of the Company and its principal place of business is at 16 Nautical Drive, Henderson, WA 6166 Australia.

The principal activity of the Company is that of an investment holding company. The principal activities of its subsidiaries, joint ventures, associate, and joint operations are set out in Notes 18 and 19 respectively.

The financial statements for the financial year ended 30 June 2025 were approved and authorised for issue on the date of the statement by the board of directors in accordance with a resolution of the directors on the date of the Directors' Declaration.

3. Material accounting policies

(a) Basis of preparation

These general-purpose financial statements have been prepared in accordance with Australian Accounting Standards, other authoritative pronouncements of the Australian Accounting Standards Board, the Corporations Act 2001 as applicable for for-profit entities. They also comply with Singapore Financial Reporting Standards (International) ('SFRS(I)').

The consolidated financial statements have been prepared under the historical cost convention, except for the revaluation on freehold land and buildings and investment properties. They are presented in Australian Dollar (A\$), which is the functional and presentation currency of the Group. All amounts are rounded to the nearest thousand Australian Dollar (A\$'000) unless otherwise specified.

The Group have rounded values to the nearest thousand dollars (A\$'000), unless otherwise stated, as allowed under the ASIC Corporations (Rounding in Financial/Directors' Report) Instrument 2016/191.

Notes to the Consolidated Financial Statements

30 June 2025

3. Material accounting policies (continued)

(b) Basis of consolidation

(i) Subsidiaries

Subsidiaries are all entities (including structured entities) over which the Group has control. The Group controls an entity when the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the Group. They are deconsolidated from the date that control ceases.

The Company reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above.

When the Company has less than a majority of the voting rights of an investee, it has power over the investee when the voting rights are sufficient to give it the practical ability to direct the relevant activities of the investee unilaterally. The Company considers all relevant facts and circumstances in assessing whether or not the Company's voting rights in an investee are sufficient to give power, including:

- the size of the Company's holding of voting rights relative to the size and dispersion of holdings of the other vote holders;
- potential voting rights held by the Company, other vote holders or other parties;
- rights arising from other contractual agreements; and
- any additional facts and circumstances that indicate that the Company has, or does not have, the current ability to direct the relevant activities at the time that decisions need to be made, including voting patterns at previous shareholders' meetings.

The Group applies the acquisition method to account for business combinations. The consideration transferred for the acquisition of a subsidiary is the fair values of the assets transferred, the liabilities incurred to the former owners of the acquiree and the equity interests issued by the Group. The consideration transferred includes the fair value of any asset or liability resulting from a contingent consideration arrangement. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair values at the acquisition date. The Group recognises any non-controlling interest in the acquiree on an acquisition-by-acquisition basis, either at fair value or at the non-controlling interest's proportionate share of the recognised amounts of acquiree's identifiable net assets.

Acquisition-related costs are expensed as incurred.

If the business combination is achieved in stages, the acquisition date carrying value of the acquirer's previously held equity interest in the acquiree is re-measured to fair value at the acquisition date; any gains or losses arising from such re-measurement are recognised in profit or loss. Any contingent consideration to be transferred by the Group is recognised at fair value at the acquisition date. Subsequent changes to the fair value of the contingent consideration that is deemed to be an asset or liability are recognised in accordance with AASB 9/SFRS(I) 9 either in profit or loss or as a change to other comprehensive income. Contingent consideration that is classified as equity is not re-measured, and its subsequent settlement is accounted for within equity.

The excess of the consideration transferred, the amount of any non-controlling interest in the acquiree and the acquisition-date fair value of any previous equity interest in the acquiree over the fair value of the identifiable net assets acquired is recorded as goodwill. If the total of consideration transferred, non-controlling interest recognised and previously held interest measured is less than the fair value of the net assets of the subsidiary acquired in the case of a bargain purchase, the difference is recognised directly in profit or loss.

Inter-company transactions, balances and unrealised gains on transactions between Group companies have been eliminated. Unrealised losses have also been eliminated. When necessary, amounts reported by subsidiaries have been adjusted to conform with the Group's accounting policies.

Notes to the Consolidated Financial Statements

30 June 2025

3. Material accounting policies (continued)

(b) Basis of consolidation (continued)

(i) Subsidiaries (continued)

Change in ownership interests in subsidiaries without change of control

Transactions with non-controlling interests that do not result in loss of control are accounted for as equity transactions – that is, as transactions with the owners in their capacity as owners. The difference between fair value of any consideration paid and the relevant share acquired of the carrying value of net assets of the subsidiary is recorded in equity. Gains or losses on disposals to non-controlling interests are also recorded in equity.

Disposal of subsidiaries

When the Group ceases to have control any retained interest in the entity is re-measured to its fair value at the date when control is lost, with the change in carrying amount recognised in profit or loss. The fair value is the initial carrying amount for the purposes of subsequently accounting for the retained interest as an associate, joint venture or financial asset. In addition, any amounts previously recognised in other comprehensive income in respect of that entity are accounted for as if the Group had directly disposed of the related assets or liabilities. This may mean that amounts previously recognised in other comprehensive income are reclassified to profit or loss.

(ii) Joint arrangements

A joint arrangement is a contractual arrangement whereby two or more parties have joint control. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require the unanimous consent of the parties sharing control.

A joint arrangement is classified either as joint operation or joint venture, based on the rights and obligations of the parties to the arrangement.

To the extent the joint arrangement provides the Group with rights to the net assets of the arrangement, the arrangement is a joint venture.

The Group reassesses whether the type of joint arrangement in which it is involved has changed when facts and circumstances change.

Joint venture

The Group recognises its interest in a joint venture as an investment and accounts for the investment using the equity method.

Under the equity method, the investment is initially recognised at cost, and the carrying amount is increased or decreased to recognise the investor's share of the profit or loss of the investee after the date of acquisition.

Joint operations

The Group's joint operations are joint arrangements whereby the parties (the joint operators) that have joint control of the arrangement have rights to the assets, and obligations to the liabilities, relating to the arrangement.

The Group recognises, in relation to its interest in the joint operation:

- its assets, including its share of any assets held jointly;
- its liabilities, including its share of any liabilities incurred jointly;
- its revenue from the sale of its share of the output arising from the joint operation;
- its share of the revenue from the sale of the output by the joint operation; and
- its expenses, including its share of any expenses incurred jointly.

Notes to the Consolidated Financial Statements

30 June 2025

3. Material accounting policies (continued)

(b) Basis of consolidation (continued)

(ii) Joint arrangements (continued)

Joint operations (continued)

When the Group sells or contributes assets to a joint operation, the Group recognises gains or losses on the sale or contribution of assets that are attributable to the interest of the other joint operations. The Group recognises the full amount of any loss when the sale or contribution of assets provides evidence of a reduction in the net realisable value, or an impairment loss, of those assets.

When the Group purchases assets from a joint operation, it does not recognise its share of the gains and losses until it resells the assets to an independent party. However, a loss on the transaction is recognised immediately if the loss provides evidence of a reduction in the net realisable value of the assets to be purchased or an impairment loss.

The accounting policies of the assets, liabilities, revenues and expenses relating to the Group's interest in a joint operation have been changed where necessary to ensure consistency with the accounting policies adopted by the Group.

(c) Investment in subsidiary companies

Investments in subsidiary companies are carried at cost less accumulated impairment losses in the statement of financial position of the Company.

On disposal of investments in subsidiaries, the difference between the net disposal proceeds and the carrying amount of the investments are recognised in profit or loss.

(d) Investment in associate

The Group recognises its interest in an associate as an investment and accounts for the investment using the equity method.

Under the equity method, the investment is initially recognised at cost, and the carrying amount is increased or decreased to recognise the investor's share of the profit or loss of the investee after the date of acquisition.

If the Group's share of losses of an associate equals or exceeds its interest in the associate, the Group discontinues recognising its share of further losses. If the associate subsequently reports profits, the Group resumes recognising its share of those profits only after its share of the profits equals the share of losses not recognised.

Notes to the Consolidated Financial Statements

30 June 2025

3. Material accounting policies (continued)

(e) Revenue recognition

Revenue is measured based on the consideration to which the Group expects to be entitled in exchange for transferring promised goods or services to a customer, excluding amounts collected on behalf of third parties.

Revenue is recognised when the Group satisfies a performance obligation by transferring a promised good or service to the customer, which is when the customer obtains control of the good or service. A performance obligation may be satisfied at a point in time or over time. The amount of revenue recognised is the amount allocated to the satisfied performance obligation.

Construction contract revenue

The Group provides engineering and construction services to customers through contracts. Contract revenue is recognised when the Group's performance creates or enhances an asset that the customer controls as the asset is created or enhanced.

For these contracts, revenue is recognised over time by reference to the Group's progress towards the completion of the contract. The measure of progress is determined based on the proportion of contract costs incurred to date to the estimated total contract costs ('input method'). Costs incurred that are not related to the contract or that do not contribute towards satisfying a performance obligation ('PO') are excluded from the measurement of progress and instead are expensed as incurred.

In some circumstances, such as in the early stages of a contract where the Group may not be able to reasonably measure its progress but expects to recover the contract costs incurred, contract revenue is recognised only to the extent of the contract costs incurred until such time when the Group can reasonably measure its progress.

Contract modifications that do not add distinct goods or services are accounted for as a continuation of the original contract and the change is recognised as a cumulative adjustment to revenue at the date of modification.

The amount of revenue recognised is based on the estimated transaction price, which comprises the contractual price, adjusted for expected returns. Estimates of revenues, costs or extent of progress toward completion are revised if circumstances change. Any resulting increases or decreases in estimated revenues or costs are reflected in the profit or loss in the period in which the circumstances that give rise to the revision become known by management and included in the transaction only to the extent that is highly probable that a significant reversal in the amount of cumulative revenue recognised will not occur.

Estimates of revenues, costs or the extent of progress toward completion are revised if circumstances change. Any resulting increases or decreases in estimated revenues or costs are reflected in profit or loss in the period in which the circumstances that give rise to the revision become known by management.

At the end of each reporting date, the Group updates its assessment of the estimated transaction price, including its assessment of whether an estimate of variable consideration is constrained. The corresponding amounts are adjusted against revenue in the period in which the transaction price changes.

The period between the transfer of the promised services and customer payment may exceed one year. For such contracts, there is no significant financing component present as the payment terms are an industry practice to protect the customers from the performing entity's failure to adequately complete some or all of its obligations under the contract. As a consequence, the Group does not adjust any of the transaction prices for the time value of money.

The customer is invoiced on a milestone payment schedule. If the value of the goods transferred by the Group exceeds the payments, a contract asset is recognised. If the payments exceed the value of the goods transferred, a contract liability is recognised.

For costs incurred in fulfilling the contract which is within the scope of another AASB/SFRS(I) (e.g. Inventories), these have been accounted for in accordance with those other AASB/SFRS(I). If these are not within the scope of another AASB/SFRS(I), the Group will capitalise these as contract cost assets only if (a) these costs relate directly to a contract or an anticipated contract which the Group can specifically identify; (b) these costs generate or enhance resources of the Group that will be used in satisfying (or in continuing to satisfy) performance obligations in the future; and (c) these costs are expected to be recovered. Otherwise, such costs are recognised as an expense immediately.

Notes to the Consolidated Financial Statements

30 June 2025

3. Material accounting policies (continued)

(e) Revenue recognition (continued)

Sale of goods and services

Revenue from the sale of goods and services in the ordinary course of business are recognised when the Group satisfies a PO by transferring control of a promised good or service to the customer. The amount of revenue recognised is the amount of the transaction price allocated to the satisfied PO.

The transaction price is allocated to each PO in the contract on the basis of the relative stand-alone selling prices of the promised goods or services. The individual standalone selling price of a good or service that has not previously been sold on a stand-alone basis, or has a highly variable selling price, is determined based on the residual portion of the transaction price after allocating the transaction price to goods and/or services with observable stand-alone selling prices. A discount or variable consideration is allocated to one or more, but not all, of the performance obligations if it relates specifically to those performance obligations.

The transaction price is the amount of consideration in the contract to which the Group expects to be entitled in exchange for transferring the promised goods or services. The transaction price may be fixed or variable and is adjusted for the time value of money if the contract includes a significant financing component. The consideration payable to a customer is deducted from the transaction price if the Group does not receive a separate identifiable benefit from the customer. When consideration is variable, the estimated amount is included in the transaction price to the extent that it is highly probable that a significant reversal of the cumulative revenue will not occur when the uncertainty associated with the variable consideration is subsequently resolved.

Revenue may be recognised at a point in time or over time following the timing of satisfaction of the PO. If a PO is satisfied over time, revenue is recognised based on the percentage of completion reflecting the progress towards complete satisfaction of that PO.

The Group considers certain services to be a distinct service as it is both regularly supplied by the Group to other customers on a stand-alone basis and is available for customers from other providers in the market. A portion of the transaction price is therefore allocated to the maintenance services based on the stand-alone selling price of those services. Discounts are not considered as they are only given in rare circumstances and are never material. Revenue from the maintenance services is recognised over time. The transaction price allocated to these services is recognised as a contract liability at the time of the initial sales transaction and is released on a straight-line basis over the period of service.

Rental income

Rent revenue from investment properties is recognised on a straight-line basis over the lease term. Lease incentives granted are recognised as part of the rental revenue. Contingent rentals are recognised as income in the period when earned.

(f) Government grants

Government grants are recognised when there is reasonable assurance that the grant will be received and all attached conditions will be complied with. When the grant relates to R&D expenditure already incurred it is recognised in the income statement in the period it became receivable.

Notes to the Consolidated Financial Statements

30 June 2025

3. Material accounting policies (continued)

(g) Contract assets and contract liabilities

A contract asset is recognised when the Group recognises revenue as set out in Note 3(e) before being unconditionally entitled to the consideration under the payment terms set out in the contract. Contract assets are assessed for expected credit losses ('ECLs') in accordance with the policy set out in Note 3(j) and are reclassified to receivables when the right to the consideration has become unconditional.

A contract liability is recognised when the customer pays consideration before the Group recognises the related revenue as set out in Note 3(e). A contract liability would also be recognised if the Group has an unconditional right to receive consideration before the Group recognises the related revenue. In such cases, a corresponding receivable would also be recognised.

For a single contract with the customer, either a net contract asset or a net contract liability is presented. For multiple contracts, contract assets and contract liabilities of unrelated contracts are not presented on a net basis.

(h) Income tax

Income tax expense represents the sum of current tax expense and deferred tax expense.

Current income tax is recognised at the amount expected to be paid to or recovered from the tax authorities, using the tax rates and tax laws that have been enacted or substantively enacted by the balance sheet date.

Deferred income tax is recognised for all temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements except when the deferred income tax arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and affects neither accounting nor taxable profit or loss at the time of the transaction.

Deferred tax liabilities are recognised on all temporary differences except for taxable temporary differences associated with investments in subsidiaries and joint venture, where the Group is able to control the timing of the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future.

Deferred tax assets are recognised for all deductible temporary differences, carry forward of unused tax credits and unused tax losses, to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised except where the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss. In respect of deductible temporary differences associated with investments in subsidiaries and interest in joint venture, deferred tax assets are recognised only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilised.

Deferred tax assets and liabilities are measured:

at the tax rates that are expected to apply when the related deferred tax asset is realised or the deferred income tax liability is settled, based on tax rates and tax laws that have been enacted or substantively enacted by the balance sheet date; and

based on the tax consequence that would follow from the manner in which the Group expects, at the balance sheet date, to recover or settle the carrying amounts of its assets and liabilities.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are reassessed at the end of each reporting period and are recognised to the extent that it has become probable that future taxable profit will allow the deferred tax asset to be recovered.

Notes to the Consolidated Financial Statements

30 June 2025

3. Material accounting policies (continued)

(h) Income tax (continued)

Current income taxes are recognised in profit and loss except to the extent that the tax relates to items recognised outside profit or loss, either in other comprehensive income or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Deferred tax relating to items recognised outside profit and loss is recognised outside profit and loss. Deferred tax items are recognised in correlation to the underlying transaction either in other comprehensive income or directly in equity and deferred tax arising from a business combination is adjusted against goodwill on acquisition.

Sales tax

Revenues, expenses and assets are recognised net of the amount of sales tax except:

- Where the sales tax incurred on a purchase of assets or services is not recoverable from the taxation authority, in which case the sale tax is recognised as part of the cost of acquisition of the asset or as part of the expense item as applicable; and
- Receivables and payables that are stated with the amount of sales tax included.

The net amount of sales tax recoverable from or payable to, the taxation authority is included as part of receivables or payables in the statements of financial position.

Relevance of tax consolidation to the Group

From 1 July 2014 to 3 September 2024, Civmec Singapore Limited (the former parent entity) and its wholly-owned Australian tax resident entities formed a tax consolidated group under Australian Taxation Law, with Civmec Singapore Limited as head entity of the tax consolidated group.

From 4 September 2024, the Company and its wholly-owned Australian tax resident entities, including Civmec Singapore Limited, continued the tax consolidated group under Australian Taxation Law with the Company replacing Civmec Singapore Limited as the new head entity of the tax consolidated group.

The member of the tax consolidated group are identified in Note 18.

Under tax consolidation, the Company and its wholly-owned Australian tax resident entity are taxed as a single entity.

Tax expense or benefit, deferred tax liabilities and deferred tax assets arising from temporary differences of the members of the tax consolidated group are recognised in the separate financial statements of the members of the tax consolidated group using the 'stand-alone taxpayer' approach by reference to the carrying amounts in the separate financial statements of each entity and the tax values applying under tax consolidation. Current tax liabilities and assets and deferred tax assets arising from unused tax losses and tax credits of the members of the tax consolidated group are recognised by the Company (as head entity in the tax consolidated group). Due to the existence of a tax funding agreement between the entities in the tax consolidated group, amounts are recognised as payable to, or receivable by, the Company and each member of the Group in relation to the tax contribution amounts paid or payable between the parent entity and the other members of the tax consolidated group in accordance with the agreement.

Nature of Tax Funding Arrangements and Tax Sharing Agreements

Entities within the tax consolidated group have entered into a tax funding agreement and a tax sharing agreement with the head entity (previously with Civmec Singapore Limited and now with the Company). Under the terms of the tax funding agreement, the Company and each of the entities in the tax consolidated group have agreed to pay a tax equivalent payment to or from the head entity, based on the current tax liability or current tax asset of the entity. The tax sharing agreement entered into between members of the tax consolidated group provides for the determination of the allocation of income tax liabilities between the entities should the head entity default on its tax payment obligations or if an entity should leave the tax consolidated group.

Notes to the Consolidated Financial Statements

30 June 2025

3. Material accounting policies (continued)

(i) Foreign currency translation

Functional and presentation currency

The financial statements of each entity in the Group are measured using the currency that best reflects the economic substance of the underlying events and circumstances relevant to each entity (the 'functional currency'). The financial statements are presented in Australian Dollars ('A\$'), which is the functional currency of the Company.

Transactions and balances

In preparing the financial statements of the individual entities, transactions in currencies other than the entity's functional currency ('foreign currencies') are recognised at the rates of exchange prevailing at the dates of the transactions. At the end of each reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date.

Currency translation differences resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at the closing rates at the balance sheet date are recognised in profit or loss, unless they arise from borrowings in foreign currencies and other currency instruments designated and qualifying as net investment hedges and net investment in foreign operations. Those currency translation differences are recognised in the currency translation reserve in the consolidated financial statements and transferred to profit or loss as part of the gain or loss on disposal of the foreign operation.

Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Group companies

The consolidated results and financial position of foreign operations whose functional currency is different from the Group's presentation currency are translated into the presentation currency as follows:

- Assets and liabilities for each statement of financial position presented are translated at the closing rate at the date of that statement;
- Income or expense for each statements presenting profit or loss and other comprehensive income (i.e. including comparatives) are translated at exchange rates at the dates of the transactions; and
- All resulting currency translation differences are recognised in other comprehensive income and accumulated in the currency translation reserve.

Exchange differences arising on translation of foreign operations are transferred directly to the Group's foreign currency translation reserve in the statement of financial position. These differences are recognised in other comprehensive income in the period in which they are incurred.

On the disposal of a foreign operation (i.e. a disposal of the Group's entire interest in a foreign operation, or a disposal involving loss of control over a subsidiary that includes a foreign operation or loss of joint control over a jointly controlled entity that includes a foreign operation), all of the accumulated exchange differences in respect of that operation attributable to the Group are reclassified to profit or loss. Any exchange differences that have previously been attributed to non-controlling interests are derecognised, but they are not reclassified to profit or loss.

Notes to the Consolidated Financial Statements

30 June 2025

3. Material accounting policies (continued)

(j) Financial assets

Classification and measurement

The Group classifies its financial assets in the following measurement categories:

- Amortised cost;
- Fair value through other comprehensive income ('FVOCI'); and
- Fair value through profit or loss ('FVPL').

The classification depends on the Group's business model for managing the financial assets as well as the contractual terms of the cash flows of the financial asset.

Financial assets with embedded derivatives, if any, are considered in their entirety when determining whether their cash flows are solely payment of principal and interest.

The Group reclassifies debt instruments when and only when its business model for managing those assets changes.

Initial recognition

At initial recognition, the Group measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in profit or loss.

Subsequent measurement

Debt instruments mainly comprise cash and cash equivalents, trade and other receivables and contract assets.

There are three subsequent measurement categories, depending on the Group's business model for managing the asset and the cash flow characteristics of the asset:

- **Amortised cost:** Debt instruments that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. A gain or loss on a debt instrument that is subsequently measured at amortised cost and is not part of a hedging relationship is recognised in profit or loss when the asset is derecognised or impaired. Interest income from these financial assets is included in interest income using the effective interest rate method.
- **FVOCI:** Debt instruments that are held for collection of contractual cash flows and for sale, and where the assets' cash flows represent solely payments of principal and interest, are classified as FVOCI. Movements in fair values are recognised in Other Comprehensive Income ('OCI') and accumulated in fair value reserve, except for the recognition of impairment gains or losses, interest income and foreign exchange gains and losses, which are recognised in profit and loss. When the financial asset is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to profit or loss and presented in 'other income / other expenses'. Interest income from these financial assets is recognised using the effective interest rate method and presented in 'interest income', if any.
- **FVPL:** Debt instruments that are held for trading as well as those that do not meet the criteria for classification as amortised cost or FVOCI are classified as FVPL. Movement in fair values and interest income is recognised in profit or loss in the period in which it arises and presented in 'other income / other expenses', if any.

Notes to the Consolidated Financial Statements

30 June 2025

3. Material accounting policies (continued)

(j) Financial assets (continued)

Recognition and derecognition

Regular way purchases and sales of financial assets are recognised on trade date - the date on which the Group commits to purchase or sell the asset.

Financial assets are derecognised when the rights to receive cash flows from the financial assets have expired or have been transferred and the Group has transferred substantially all risks and rewards of ownership.

On disposal of a debt instrument, the difference between the carrying amount and the sale proceeds is recognised in profit or loss. Any amount previously recognised in other comprehensive income relating to that asset is reclassified to profit or loss.

Impairment

The Group assesses on a forward-looking basis the expected credit loss ('ECL') associated with its debt financial assets carried at amortised cost and FVOCI. The impairment methodology applied depends on whether there has been a significant increase in credit risk. ECL are probability-weighted estimates of credit losses. Credit losses are measured at the present value of all cash shortfalls (i.e. the difference between the cash flows due to the entity in accordance with the contract and the cash flows that the Group expects to receive). ECL are discounted at the effective interest rate of the financial asset.

For trade receivables and contract assets, the Group applies the simplified approach permitted by AASB 9/SFRS(I) 9, which requires expected lifetime losses to be recognised from initial recognition of the receivables.

For other receivables, the Group applies the general approach. For the purpose of impairment assessment for other receivables, the loss allowance is measured at an amount equal to 12-month ECL, which reflects the low credit risk of the exposures.

Credit-impaired financial assets

A financial asset is credit-impaired when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred. At each reporting date, the Group assesses whether financial assets carried at amortised cost are credit-impaired.

Evidence that a financial asset is credit-impaired includes the observable data about the following events:

- Significant financial difficulty of the borrower or issuer;
- A breach of contract such as a default or past due;
- The lender(s) of the borrower, for economic or contractual reasons relating to the borrower's financial difficulty, having granted to the borrower or a concession(s) that the lender(s) would not otherwise consider (e.g. the restructuring of a loan or advance by the Group on terms that the Group would not consider otherwise);
- It is becoming probable that the borrower will enter bankruptcy or other financial reorganisation; or
- The disappearance of an active market for a security because of financial difficulties.

Write-off policy

The Group writes off a financial asset when there is information indicating that the counterparty is in severe financial difficulty and there is no realistic prospect of recovery. Financial assets written off may still be subject to recovery efforts under the Group's recovery procedures. Any recoveries made are recognised in profit or loss.

Notes to the Consolidated Financial Statements

30 June 2025

3. Material accounting policies (continued)

(k) Cash and cash equivalents

Cash and cash equivalents include cash on hand, deposits held at call with banks, other short-term highly liquid investments with original maturities of three months or less, and bank overdrafts. Bank overdrafts are shown within short-term borrowings in current liabilities on the statement of financial position.

(l) Property, plant and equipment

(i) Recognition and measurement

Freehold land and buildings

The Group is using the revaluation model for this class of property. Under the revaluation model, freehold land and buildings are initially recognised at cost. Such costs, including the construction costs and borrowing costs that are eligible for capitalisation, are subsequently carried at their revalued amount, being the fair value at the date of revaluation, less any subsequent accumulated depreciation and subsequent accumulated impairment losses.

Revaluations are performed with sufficient regularity such that the carrying amount do not differ materially from those that would be determined using fair values at the end of the reporting period.

Freehold land and buildings are revalued by independent professional valuers on triennial basis and whenever their carrying amounts are likely to differ materially from their revalued amounts. When an asset is revalued, any accumulated depreciation at the date of revaluation is eliminated against the gross carrying amount of the asset. The net amount is then restated to the revalued amount of the asset.

Increases in carrying amounts arising from revaluation are recognised in other comprehensive income, unless they offset previous decreases in the carrying amounts of the same asset, in which case, they are recognised in profit or loss. Decreases in carrying amounts that offset previous increases of the same asset are recognised in other comprehensive income. All other decreases in carrying amounts are recognised in profit or loss.

Other property, plant and equipment

All other items of property are measured at cost less accumulated depreciation and accumulated impairment losses. In the event the carrying amount of plant and equipment is greater than its estimated recoverable amount, the carrying amount is written down immediately to its estimated recoverable amount and impairment losses recognized either in profit or loss or as a revaluation decrease if the impairment losses relate to a revalued asset. A formal assessment of recoverable amount is made when impairment indicators are present (refer to Note 4 for details of critical judgements of impairment of property, plant and equipment).

The cost of fixed assets constructed within the Group includes the cost of materials, direct labour, borrowing costs and an appropriate proportion of fixed and variable overheads.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. All other repairs and maintenance are charged to profit or loss during the financial period in which they are incurred.

Notes to the Consolidated Financial Statements

30 June 2025

3. Material accounting policies (continued)

(I) Property, plant and equipment (continued)

(ii) Depreciation

The depreciable amount of all fixed assets including buildings and capitalised leased assets, but excluding freehold land, is depreciated on a straight-line basis over the asset's useful life from the time the asset is held ready for use. Leasehold improvements are depreciated over the shorter of either the unexpired period of the lease or the estimated useful lives of the improvements. Assets under construction are not depreciated as they are not yet ready for their intended use as at the end of the reporting period.

The depreciation rates used for each class of depreciable assets are:

Class of Fixed Assets	Depreciation Rate
Buildings	2% - 33%
Plant and equipment	3% - 33%
Leasehold land	1% - 2%
Leased assets	5% - 33%
Small tools	5% - 33%
Motor vehicles	5% - 20%
Office and IT equipment	5% - 33%

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing proceeds with the carrying amount. These gains or losses are included in profit or loss.

(m) Investment properties

Investment properties, which are properties held to earn rental income and/or for capital appreciation (including property under construction for such purposes and land under operating leases that is held for long-term capital appreciation or for a current indeterminate use), are measured initially at its cost, including transaction costs.

Buildings

Subsequent to initial recognition, investment properties are measured at fair value, determined annually by independent professional valuers on the highest-and-best use basis. Gains and losses arising from changes in the fair value of investment properties are included in profit or loss in the period in which they arise.

Leasehold land

Subsequent to initial recognition, investment properties are accounted for in accordance with the cost model that is cost less accumulated depreciation and less accumulated impairment losses. The depreciation is calculated on a straight-line basis over its lease term.

Investment properties are subject to renovations or improvements at regular intervals. The cost of major renovations and improvements are capitalised and the carrying amounts of the replaced components are recognised in profit or loss. The cost of maintenance, repairs and minor improvements are recognised in profit or loss when incurred.

Notes to the Consolidated Financial Statements

30 June 2025

3. Material accounting policies (continued)

(m) Investment properties (continued)

Investment properties are derecognised when either they have been disposed of or when the investment property is permanently withdrawn from use and no future economic benefit is expected from its disposal. Any gain or loss on the retirement or disposal of an investment property (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is recognised in profit or loss in the year of retirement or disposal.

Transfers are made to or from investment property only when there is a change in use. For a transfer from investment property to owner occupied property, the deemed cost for subsequent accounting is the fair value at the date of change in use.

When the use of a property changes from owner-occupied to investment property, the property is remeasured to fair value and reclassified accordingly. Any gain arising on remeasurement is recognised in profit or loss to the extent that it reverses a previous impairment loss on the specific property, with any remaining gain recognised in other comprehensive income and presented in the revaluation reserve in equity. Any loss is recognised immediately in profit or loss.

When the property is sold, the related amount in the revaluation reserve is transferred to retained earnings.

(n) Impairment of non-financial assets

Non-financial assets are tested for impairment whenever there is any indication that these assets may be impaired.

At the end of each reporting period, the Group reviews the carrying amounts of its non-financial assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any), on an individual asset.

Where it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs. Where a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

Recoverable amount is the higher of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. The difference between the carrying amount and recoverable amount is recognised as an impairment loss in profit or loss.

An assessment is made at each reporting date as to whether there is any indication that previously recognised impairment losses may no longer exist or may have decreased.

Where an impairment loss subsequently reverses, the carrying amount of the asset (or cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognised immediately in profit or loss.

Notes to the Consolidated Financial Statements

30 June 2025

3. Material accounting policies (continued)

(o) Provisions

Provisions are recognised when the Group has a legal or constructive obligation as a result of past events, for which it is more likely than not that an outflow of economic benefits will result and that outflow can be reliably measured.

Provisions are measured using the best estimate of the amounts required to settle the obligation at the end of the reporting period. If it is no longer probable that an outflow of economic resources will be required to settle the obligation, the provision is reversed. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, where appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

(p) Financial liability and equity instruments issued by the Group

Classification as debt or equity

Debt and equity instruments are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangement.

Financial liabilities

An entity shall recognise a financial liability on its statement of financial position when, and only when, the entity becomes a party to the contractual provisions of the instrument.

Financial liability is recognised initially at fair value plus, in the case of a financial liability not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition or issue.

After initial recognition, financial liabilities are subsequently measured at amortised cost using the effective interest rate method. Gains and losses are recognised in profit and loss when the liabilities are derecognised, and through amortisation process.

Borrowings

Borrowings are initially measured at fair value, net of transaction costs and are subsequently measured at amortised cost using the effective interest method, with interest expense recognised on an effective yield basis.

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments through the expected life of the financial liability, or, where appropriate, a shorter period to the net carrying amount on initial recognition.

Borrowings are presented as current liabilities unless the Group has an unconditional right to defer settlement for at least 12 months after the reporting date.

Derecognition of financial liabilities

The Group derecognises financial liabilities when, and only when, the Group's obligations are discharged, cancelled or expired.

(q) Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of assets that necessarily take a substantial period of time to prepare for their intended use or sale, are added to the cost of these assets, until such time as the assets are substantially ready for their intended use or sale. All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

Notes to the Consolidated Financial Statements

30 June 2025

3. Material accounting policies (continued)

(r) Leases

The Group as Lessee

At the inception of the contract, the Group assesses if the contract contains a lease. A contract contains a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. Reassessment is only required when the terms and conditions of the contract are changed.

The Group recognises right-of-use assets and lease liabilities at the date which the underlying assets become available for use. Right-of-use assets are measured at cost, which comprises the initial measurement of lease liabilities adjusted for any lease payments made at or before the commencement dates, plus any initial direct costs incurred, less any lease incentives received. Any initial direct costs that would not have been incurred if the lease had not been obtained are added to the carrying amount of the right-of-use assets.

Right-of-use assets are subsequently depreciated using the straight-line method from the commencement dates to the earlier of the end of the useful lives of the right-of-use assets or the end of the lease terms. The estimated useful lives of right-of-use assets are determined on the same basis as those of property, plant and equipment. In addition, the right-of-use assets are periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the corresponding lease liabilities. The Group presents its right-of-use assets in 'Property, plant and equipment' and lease liabilities in 'Lease liabilities' in the statements of financial position.

The initial measurement of lease liabilities is measured at the present value of the lease payments discounted using the implicit rate in the lease, if the rate can be readily determined. If that rate cannot be readily determined, the Group uses its incremental borrowing rate.

Lease payments included in the measurement of the lease liability comprise the following:

- Fixed payments (including in-substance fixed payments), less any lease incentives receivables;
- Variable lease payments that are based on an index or rate, initially measured using the index or rate as at the commencement date;
- Amounts expected to be payable under residual value guarantees;
- The exercise price of a purchase option if it is reasonably certain to exercise the option; and
- Payment of penalties for terminating the lease, if the lease term reflects the Group exercising that option.

For contracts that contain both lease and non-lease components, the Group allocates the consideration to each lease component on the basis of the relative stand-alone price of the lease and non-lease components. The Group has elected not to separate lease and non-lease components for property leases; instead, these are accounted for as one single lease component.

Lease liabilities are measured at amortised cost, and are remeasured when:

- There is a change in future lease payments arising from changes in an index or rate;
- There is a change in the Group's assessment of whether it will exercise lease extension and termination options;
- There is a change in the Group's estimate of the amount expected to be payable under a residual value guarantee; or
- There is a modification to the lease term.

When lease liabilities are remeasured, corresponding adjustments are made against the right-of-use assets. If the carrying amounts of the right-of-use assets have been reduced to zero, the adjustments are recorded in profit or loss. The Group has elected not to recognise right-of-use assets and lease liabilities for short-term leases that have lease terms of 12 months or less, as well as leases of low value assets.

Variable lease payments that are based on an index or a rate are included in the measurement of the corresponding right-of-use assets and lease liabilities. Other variable lease payments are recognised in profit or loss when incurred.

Notes to the Consolidated Financial Statements

30 June 2025

3. Material accounting policies (continued)

(r) Leases (continued)

The Group as Lessor

Leases of investment properties where the Group retains substantially all risks and rewards incidental to ownership are classified as operating leases. Rental income from operating leases (net of any incentives given to the lessees) is recognized in income on a straight-line basis over the lease term.

(s) Employee benefits

Defined contribution plans

The Group participates in the national pension schemes as defined by the laws of the countries in which it has operations. Contributions to defined contribution pension schemes are recognised as an expense in the period in which the related service is performed. The Group has no further payment obligations once the contributions have been paid.

Provision for employee benefits

Provisions are made for the Group's liability for employee benefits arising from services rendered by employees to the end of the reporting period. Employee benefits that are expected to be settled within one year have been measured at the amounts expected to be paid when the liability is settled. Employee benefits payable later than one year have been measured at the present value of the estimated future cash outflows to be made for those benefits. In determining the liability, consideration is given to employee wage increases and the probability that the employee may not satisfy vesting requirements. Those cash flows are discounted using the market yields on high quality corporate bonds with terms to maturity that match the expected timing of cash flows.

Share-based payments

(a) Equity-settled share-based payments

The grant date fair value of equity-settled share-based payments is recognised as an expense over the period when the associated service is rendered (the vesting period), with a corresponding increase in equity. Vesting conditions, other than market conditions are used to determine the number of awards that are expected to vest, the estimate being adjusted at each period as necessary. If these conditions are not met, the cumulative expense recognised in relation to these awards will be nil. At each balance sheet date, the Group revises its estimates of the number of shares under rights that are expected to become exercisable on the vesting date and recognises the impact of the revision of the estimates in profit or loss, with a corresponding adjustment to the Equity-settled employee benefits reserve over the remaining vesting period.

When an award is cancelled the remaining amount of the grant date fair value that has not already been recognised, will be recognised immediately as an expense in the income statement.

(b) Cash-settled share-based payments

For the cash-settled share-based payments, a liability for the fair value of services received is recognised and remeasured at each reporting date over the vesting period and right up to the date of settlement, with changes recognised in profit or loss. At settlement, the value is based on the five-day weighted average share price of ASX following the release of audited financial statements.

No expense is recognised for rights that do not ultimately vest, except for rights where vesting is conditional upon a market condition, which are treated as vested irrespective of whether or not the market condition is satisfied, provided that all other performance and/or service conditions are satisfied.

In situations where equity instruments are issued and some or all of the goods or services received by the entity as consideration cannot be specifically identified, the unidentified goods or services received (or to be received) are measured as the difference between the fair value of the share-based payment and the fair value of any identifiable goods or services received at the grant date. This is then capitalised or expensed as appropriate.

Notes to the Consolidated Financial Statements

30 June 2025

3. Material accounting policies (continued)

(t) Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the executive committee whose members are responsible for allocating resources and assessing performance of the operating segments.

(u) Share capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issuance of new ordinary shares are deducted against the share capital account.

Treasury shares

When any entity within the Group purchases the Company's ordinary shares ('treasury shares'), the consideration paid including any directly attributable incremental cost is presented as a component within equity attributable to the Company's equity holders, until they are cancelled, sold or re-issued.

When treasury shares are subsequently cancelled, the cost of treasury shares are deducted against the share capital account if the shares are purchased out of capital of the Company, or against the retained earnings of the Company if the shares are purchased out of the earnings of the Company.

When treasury shares are subsequently sold or re-issued pursuant to the employee share option scheme, the cost of treasury shares is reversed from the treasury share account and the realised gain or loss on sale or re-issue, net of any directly attributable incremental transaction costs and related income tax, is recognised in the capital reserve.

(v) Related parties

A related party is defined as follows:

A related party is a person or entity that is related to the entity that is preparing its financial statements (referred to as the 'reporting entity').

- a. A person or a close member of that person's family is related to a reporting entity if that person:
 - has control or joint control over the reporting entity;
 - has significant influence over the reporting entity; or
 - is a member of the key management personnel of the reporting entity or of a parent of the reporting entity.
- b. An entity is related to a reporting entity if any of the following conditions applies:
 - the entity and the reporting entity are members of the same group (which means that each parent, subsidiary and fellow subsidiary is related to the others);
 - one entity is an associate or joint venture of the other entity (or an associate or joint venture of a member of a group of which the other entity is a member);
 - both entities are joint ventures of the same third party;
 - one entity is a joint venture of a third entity and the other entity is an associate of the third entity;
 - the entity is a post-employment benefit plan for the benefit of employees of either the reporting entity or an entity related to the reporting entity. If the reporting entity is itself such a plan, the sponsoring employers are also related to the reporting entity;
 - the entity is controlled or jointly controlled by a person identified in (a);
 - a person identified in (a)(i) has significant influence over the entity or is a member of the key management personnel of the entity (or of a parent of the entity); or
 - the entity, or any member of a group of which it is a part, provides key management personnel services to the reporting entity or to the parent of the reporting entity.

Notes to the Consolidated Financial Statements

30 June 2025

4. Critical accounting estimates and judgments

In preparing the consolidated financial statements, management is required to make judgments, estimates and assumptions about the carrying amount of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods.

(a) Critical judgments in applying the Group's accounting policies

In the process of applying the Group's accounting policies, the application of judgements that are expected to have a significant effect on the amounts recognised in the financial statements are discussed as follows.

(i) Impairment of trade and other receivables and contract assets

As at 30 June 2025, the Group's trade and other receivables and contract assets amounted to A\$52,328,000 (2024: A\$94,602,000) and A\$154,969,000 (2024: A\$173,588,000) respectively, net of allowance for impairment, if any, arising from the Group's different revenue segments as disclosed in Note 32 to the financial statements.

The Group applies the simplified approach to provide for the ECL ('Expected Credit Losses') for all trade receivables and contract assets at an amount equal to the lifetime ECL. ECLs are a probability weighted estimate (based on the Group's historical experience) measured as the present value of all cash shortfalls on default financial assets considering both quantitative and qualitative information and analysis. Factors considered in individual assessment are geographical regions in Australia for each segment, payment history, past due status and term. No allowance of impairment for trade and other receivables were recognised as at 30 June 2025 (2024: Nil). No allowance for impairment of contract assets were recognised as at 30 June 2025 (2024: Nil).

Notwithstanding the above, the Group evaluates the expected credit loss on customers in financial difficulties separately. So far as management is aware, there is no major customer in financial difficulties during the financial year except for those customers with impairment loss being recognised.

The Group's and the Company's credit risk exposure for trade receivables by different revenue segment are set out in Note 33(a).

(ii) Judgement and method used in estimating construction contract revenue

As discussed in Note 3(e) to the financial statements, construction contract revenue is recognised over time by reference to the Group's progress towards completion of the contract. The measure of progress is determined based on the proportion of contract costs incurred to date to the estimated total contract costs ('input method'). Costs incurred that are not related to the contract or that do not contribute towards satisfying a performance obligation ('PO') are excluded from the measure of progress and instead are expensed as incurred.

Construction contract revenue comprises the initial amount of revenue agreed in the contract and variations in contract work to the extent that is highly probable that a significant reversal in the amount of the cumulative revenue will not occur.

In estimating the variable consideration for contract revenue, the Group uses the expected value amount method to estimate the transaction price. The expected value is the sum of probability-weighted amounts in a range of possible consideration amounts. Management has relied on historical experience and the work of experts, analysed by customers and nature of scope of work, from prior years.

Management has exercised judgement in applying the constraint on the estimated variable consideration that can be included in the transaction price. For variations claims, management has determined that a portion of the estimated variable consideration is subject to the constraint as, based on past experience with the customers, it is highly probable that a significant reversal in the cumulative amount of revenue recognised will occur, and therefore will not be recognised as revenue.

Notes to the Consolidated Financial Statements

30 June 2025

4. Critical accounting estimates and judgments (continued)

(a) Critical judgments in applying the Group's accounting policies (continued)

(iii) Legal proceedings

The Group is exposed to the risk of claims and litigation which can arise for various reasons, including changes in scope of work, delay and disputes etc. Given the nature of the business, variation orders, additional works and prolongation costs are common. As some of these items could be subjective and hence contentious in nature, the Group may from time to time be involved in adjudication or legal processes.

In making its judgment as to whether it is probable that any such adjudication decisions or litigation will result in a liability and whether any such liability can be measured reliably, management relies on past experience and the opinion of legal advisors and technical experts.

In making that overall judgment, management has included in its consideration the likely outcome of the claims. Although an adverse outcome of those claims could have a material adverse impact on the financial position of the Group, management have taken the view that such a material adverse outcome is very unlikely.

(iv) Impairment of property, plant and equipment and investment properties

The Group assesses impairment of property, plant and equipment and investment properties at each year end by evaluating conditions specific to the Group that may lead to impairment of assets. Adjustments are made when considered necessary.

Impairment assessment of property, plant and equipment and investment properties includes considering certain indications such as significant changes in asset usage, significant decline in assets' market value, obsolescence or physical damage of an asset, significant under performance relative to the expected historical or future operating results and significant negative industry or economic trends.

No impairment loss on property, plant and equipment and investment properties was recorded for the financial years ended 30 June 2025 and 2024. The carrying amount of property, plant and equipment and investment properties at 30 June 2025 is A\$568,170,000 (2024: A\$532,840,000) and A\$19,706,000 (2024: A\$18,459,000) respectively.

(v) Determination of the lease term

In determining the lease term, management considers all facts and circumstances that create an economic incentive to exercise an extension option, or not to exercise a termination option. Extension options (or periods after termination options) are only included in the lease term if the lease term is reasonably certain to be extended (or not terminated). The lease term is reassessed if an option is actually exercised (or not exercised) or the Group becomes obliged to exercise (or not exercise) it. The assessment of reasonable certainty is only revised if a significant event or a significant change in circumstances occurs, which affects the assessment, and that is within the control of the lessee. For leases of the leasehold land and buildings, the following factors are normally the most relevant:

- If there are significant penalties to terminate (or not extend), the Group is typically reasonably certain to extend (or not terminate).
- If any leasehold improvements are expected to have a significant remaining value, the Group is typically reasonably certain to extend (or not terminate).
- Otherwise, the Group considers other factors including historical lease durations and the costs and business disruption required to replace the leased asset.

Notes to the Consolidated Financial Statements

30 June 2025

4. Critical accounting estimates and judgments (continued)

(a) Critical judgments in applying the Group's accounting policies (continued)

(vi) Valuation of freehold land and buildings and investment properties

The Group carries its freehold land and buildings and investment properties at fair values which are determined by an independent real estate valuation expert using the highest-and-best use approach which is generally the sales comparison approach (i.e. the basis of market value). In arriving at the valuation figure, the valuer has taken into consideration the prevailing market conditions and differences between the freehold land and building and investment properties and the comparables in terms of location, tenure, size, shape, design and layout, age and condition of the buildings, dates of transactions and other factors affecting their values. The most significant inputs in this valuation approach are the selling price per square meter and the usage of the properties. The estimates are based on local market conditions existing at the reporting date.

Fair values of buildings with no available market information are determined by the independent real estate valuation expert using the depreciated replacement cost method, which involves estimating the current replacement cost of the buildings and from which deductions are made to allow for depreciation due to age, condition and functional obsolescence. The replacement cost is then added to the land value to derive the fair value. The land value is determined based on the direct comparison method with transactions of comparable plots of land within the vicinity and elsewhere. In arriving at the valuation figure, the valuation expert has taken into consideration the prevailing market condition and differences between the freehold land and buildings and the comparable in terms of location, tenure, size, shape, design and layout, age and condition, dates of transactions and other factors affecting their values. The most significant inputs into this valuation approach are the estimated construction costs, depreciation rates and developer profit margin.

The carrying amount of the freehold land and buildings and investment properties at the reporting date is disclosed in Note 15 and Note 16. If the selling prices and price per unit measurement of the freehold land and buildings determined by valuation experts had been 5% higher/lower, the carrying amount of the freehold land and buildings and investment properties would have been A\$23,899,000 (2024: A\$21,840,000) higher/lower.

Notes to the Consolidated Financial Statements

30 June 2025

4. Critical accounting estimates and judgments (continued)

(b) Key sources of estimation uncertainty

The following are the key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

(i) Estimation of total contract costs for contracts

The Group has significant ongoing construction contracts as at 30 June 2025 that are non-cancellable. For these contracts, revenue is recognised over time by reference to the Group's progress towards completion of the contract. The measure of progress is determined based on the proportion of contract costs incurred to date to the estimated total contract costs ('input method').

Management has to estimate the total contract costs to complete, which are used in the input method to determine the Group's recognition of construction revenue. When it is probable that the total contract costs will exceed the total construction revenue, a provision for onerous contracts is recognised immediately.

Significant assumptions are used to estimate the total contract sum and the total contract costs which affect the accuracy of revenue recognition based on the percentage-of-completion and completeness of provision for onerous contracts recognised. In making these estimates, management has relied on past experience and the work of specialists.

The Group includes incremental costs of fulfilling the contracts which are the cost of materials and labour required to construct the projects. In estimating the forecast costs, the management exercised judgement in considering costs that relate directly to the contracts.

If the estimated total contract sum decreases by 1% from management's estimates, the Group's profit before income tax will decrease by approximately A\$8,106,000 (2024: A\$10,335,000).

If the remaining estimated contract costs increase by 1% from management's estimates, the Group's profit before income tax will decrease by approximately A\$7,176,000 (2024: A\$9,144,000).

(ii) Estimation of useful lives of property, plant and equipment and investment properties – leasehold land

The useful lives of assets have been based on historical experience, lease terms and best available information for similar items in the industry. These estimations will affect the depreciation expense recognised in the financial year. There is no change in the estimated useful lives of plant and equipment and investment properties – leasehold land during the current financial year.

The carrying amount of the Group's property, plant and equipment and investment properties – leasehold land as at 30 June 2025 was A\$568,170,000 (2024: A\$532,840,000) and A\$2,566,000 (2024: A\$2,469,000) respectively. A 10% difference in the expected useful lives of these assets from management's estimate would result in an approximately A\$2,143,000 (2024: A\$1,968,000) variance in the Group's profit before tax.

Notes to the Consolidated Financial Statements

30 June 2025

4. Critical accounting estimates and judgments (continued)

(b) Key sources of estimation uncertainty (continued)

(iii) Income taxes

The Group has exposure to income taxes of which a portion of these taxes arose from certain transactions and computations for which the ultimate tax determination is uncertain during the ordinary course of business. The Group recognises receivables or liabilities on expected tax issues based on their best estimates of the likely taxes recoverable or due. Where the final tax outcome of these matters is different from the amounts that were initially recognised, such differences will impact the income tax and deferred tax positions in the period in which such determination is made. The carrying amounts of the Group's current income tax positions as at 30 June 2025 were income tax receivable of A\$8,697,000 (2024: A\$7,462,000 payable). The carrying amounts of the Group's deferred tax assets and deferred tax liabilities as at 30 June 2025 are disclosed in Note 10 to the financial statements.

(iv) Employee performance rights

The Group measures the cost of equity-settled transactions with employees with reference to the fair value of the equity instruments at the date at which they are granted. Estimating fair value for share-based payment transactions requires determining the most appropriate valuation model, which is dependent on the terms and conditions of the grant.

This estimate also requires determining the most appropriate inputs to the valuation model including the expected life of the performance rights, volatility and dividend yield and making assumptions about them.

5. Revenue from contracts with customers

(a) Disaggregation of revenue from contracts with customers

The Group derives revenue from the transfer of goods and services over time and at a point in time as follows:

	2025 A\$'000	2024 A\$'000
Over time:		
Revenue from construction contracts	710,883	926,742
Revenue from the rendering of services	96,560	102,834
	807,443	1,029,576
At a point in time:		
Revenue from the rendering of services	1,718	2,097
Revenue from sale of goods	1,425	1,800
	3,143	3,897
	810,586	1,033,473

Revenue from the rendering of services

Contracts where payment is made for the provision of labour and materials without any risk or penalty for performance is classified as revenue from the rendering of services.

Segment analysis

The segment analysis of the Group is disclosed in Note 32 to the financial statements.

Notes to the Consolidated Financial Statements

30 June 2025

5. Revenue from contracts with customers (continued)

(b) Contract assets and liabilities

	2025 A\$'000	2024 A\$'000
Contract assets	154,969	173,588
Contract liabilities	(71,447)	(49,292)

Contract assets primarily relate to the Group's right to consideration for work completed but not yet billed at the reporting date on construction contracts. The contract assets are transferred to trade receivables when the rights become unconditional, which usually occurs when the customer certifies the progress claims.

Contract liabilities primarily relate to the Group's obligation to transfer goods or services to customers for which the Group has received advances from customers for construction contracts and progress billings issued in excess of the Group's rights to the consideration in respect of construction contract revenue.

(i) Significant changes in contract balances

	2025 A\$'000	2024 A\$'000
Contract assets:		
Contract assets reclassified to trade receivables	(103,474)	(30,067)
Changes in measurement of progress	84,855	103,562
Contract liabilities:		
Revenue recognised in the current year that was included in the contract liability balance at the beginning of the year	40,199	35,931
Increase due to cash received, excluding amounts recognised as revenue during the year	(62,354)	(40,517)

In accordance with Note 3(e) to the financial statements, contract assets adjustments relating to changes in the estimated transaction price were made following receipt of revised independent legal and expert advice on completed contracts.

(ii) Unsatisfied performance obligations

	2025 A\$'000	2024 A\$'000
Aggregate amount of the transaction price allocated to contracts that are partially or fully unsatisfied as at 30 June	621,673	853,416

The Group expects that the aggregate amount of the transaction price allocated to unsatisfied performance obligations as of 30 June 2025 will be recognised as revenue as the Group continues to perform to complete the obligations, which is expected to occur over the next few years up to 2029. The amount disclosed above does not include variable consideration which is subject to constraint.

As permitted under the AASB 15/SFRS(I) 15, the aggregated transaction price allocated to unsatisfied contracts of periods of one year or less, or are billed based on time incurred, is not disclosed.

Notes to the Consolidated Financial Statements

30 June 2025

6. Other income

	2025 A\$'000	2024 A\$'000
Insurance recoveries	12	383
Fuel tax rebate	584	785
Interest income:		
- Bank balances	1,702	3,252
- Tax authorities	23	73
	1,725	3,325
Gain on disposal of property, plant and equipment	9	64
Fair value gain on investment property at fair value through profit or loss	1,150	730
Subsidies and incentives	40	32
Miscellaneous income	32	11
	3,552	5,330

Subsidies and incentives

The Group received Wage Subsidy and Jobs and Skills WA Employer Incentives from the Government for hiring eligible participants.

Notes to the Consolidated Financial Statements

30 June 2025

7. Profit before income tax

The following items have been included in arriving at profit before income tax:

	2025 A\$'000	2024 A\$'000
Included in cost of sales:		
Direct materials	89,146	130,174
Employee benefits (Note 8)	421,675	485,349
Subcontract works	82,784	155,796
Workshop and other overheads	98,906	120,015
Depreciation of property, plant and equipment and investment properties – leasehold land (Note 15, 16)	21,338	19,580
Finance costs on lease liabilities (Note 9)	3,797	3,528
	717,646	914,442

Included in administrative expenses:

Audit and review fees:		
- Auditors of the Company ¹	313	126
- Other auditors (network firm)	-	137
Non-audit fees: other auditors	155	185
Business development	609	89
Communications	3,086	3,080
Depreciation of property, plant and equipment (Note 15)	95	96
Non-executive Directors' fees	354	313
Employee benefits (Note 8)	17,651	18,545
Occupancy expenses	563	541
Company and office costs	2,122	1,185
Other administrative expenses	663	524
Tax and other professional fees	4,314	2,446
Net foreign exchange loss	108	43
	30,033	27,310

Included in other reversal:

Reversal of revaluation loss on freehold land and buildings ²	-	(495)
--	---	-------

Note:

- Moore Stephens LLP and Moore Australia Audit (WA) (previously as network firm) are engaged as the independent joint auditors to review the consolidated financial statements of Civmec Limited and its subsidiaries for the financial year ended 30 June 2025.
- The fair value of freehold land and buildings at 2-8 Stuart Drive, Henderson increased as a result of a revaluation carried out at 30 June 2024. The net revaluation increase reverses its net revaluation loss previously recognised in prior financial years.

Notes to the Consolidated Financial Statements

30 June 2025

8. Employee benefits Expenses

	2025 A\$'000	2024 A\$'000
Included in cost of sales (Note 7):		
Wages and salaries	397,412	456,460
Contributions to defined contribution plans	21,825	26,252
Other employee benefits	2,438	2,637
	421,675	485,349
Included in administrative expenses (Note 7):		
Wages and salaries	14,416	15,348
Contributions to defined contribution plans	1,446	1,576
Other employee benefits	336	408
Share based payment	1,453	1,213
	17,651	18,545

9. Finance costs

	2025 A\$'000	2024 A\$'000
Corporate market loan and line fees	4,633	4,824
Lease liabilities	805	801
Other finance costs	446	430
	5,884	6,055
Included in cost of sales:		
Lease liabilities (Note 7)	3,797	3,528
Total finance costs	9,681	9,583

10. Income tax expense

	2025 A\$'000	2024 A\$'000
Current income tax	14,126	28,063
Deferred income tax	4,391	(580)
	18,517	27,483
Under/(over) provision in prior years		
- Current income tax	4	71
- Deferred income tax	(482)	(472)
	(478)	(401)
	18,039	27,082
Deferred income tax expense on revaluation of freehold land and buildings recognised in other comprehensive income	12,586	13,628

Notes to the Consolidated Financial Statements

30 June 2025

10. Income tax expense (continued)

The Group's tax on profit before income tax differs from the amount that would arise using the Australian standard rate of income tax as follows:

	2025 A\$'000	2024 A\$'000
Profit before income tax	60,575	91,491
Income tax at 30%	18,173	27,447
Add/(deduct) the tax effects of:		
Under provision of current tax expense in prior years	4	71
Over provision of deferred tax expense in prior years	(482)	(472)
Non-deductible expenses	344	36
	18,039	27,082
Weighted average effective tax rates	29.8%	29.6%

As at 30 June 2025, the Group has capital tax losses of approximately A\$2,080,000 (2024: A\$2,080,000) that are available for offset against future capital gains of the companies in which the losses arose, for which no deferred tax asset is recognised due to uncertainty of its recoverability. The use of these capital tax losses is subject to the agreement of tax authorities and compliance with certain provisions of the tax legislation of the respective countries in which the companies operate. The deferred tax assets arising from these capital losses amounted to A\$624,000 (2024: A\$624,000) and are not recognised as there is no reasonable certainty that future capital gains will be available to utilise the capital tax losses.

The tax rate used for the 2025 and 2024 reconciliations above is the corporate tax rate of 30% payable by corporate entities in Australia on taxable profits under the tax law in that jurisdiction. The Group's operations are primarily located in Australia.

Deferred taxes

	Opening A\$'000	Charged to profit & loss A\$'000	Charged to OCI* A\$'000	Closing A\$'000

Notes to the Consolidated Financial Statements

30 June 2025

11. Earnings per share

	2025	2024
Profit attributable to the owners of the Company (A\$'000)	42,536	64,409
Share capital (A\$'000)	32,812	32,358
Weighted average number of ordinary share issued		
- Basic	508,273,630	507,189,973
- Diluted	512,079,630	512,478,973
Earnings per ordinary share (A\$ cents)		
- Basic	8.37	12.70
- Diluted	8.27	12.57

Basic earnings per share is calculated by dividing the consolidated profit after tax attributable to the equity holders of the Company, by the weighted average number of ordinary shares outstanding during the financial year.

Diluted earnings per share amounts are calculated by adjusting basic earnings per share by the weighted average number of shares that would be issued on the conversion of all the dilutive potential ordinary shares into ordinary shares.

As at 30 June 2025, the diluted earnings per share includes the effect of 6,089,000 unissued ordinary shares granted under 2024 Civmec Performance Rights Plan due to the performance targets are likely to be met (Note 26). The effect of the inclusion is dilutive. (2024: 5,289,000, dilutive).

12. Trade and other receivables

	2025 A\$'000	2024 A\$'000
Current:		
Trade receivables		
- Third parties	51,609	94,076
- Retention sum receivables	12	12
	51,621	94,088
Other receivables	707	514
	52,328	94,602

No impairment loss of trade and other receivables were provided as at 30 June 2025 (2024: Nil).

The Group's internal credit evaluation practices and basis for recognition and measurement for expected credit losses are disclosed in Note 33(a) to the financial statements.

Notes to the Consolidated Financial Statements

30 June 2025

13. Other current assets

	2025 A\$'000	2024 A\$'000
Prepayments	3,343	692
Consumables inventory	658	701
	4,001	1,393

14. Cash and cash equivalents

	2025 A\$'000	2024 A\$'000
Cash at bank and on hand	102,940	88,457

Cash at bank earn interest at floating rates ranging from 0.01% to 4.00% (2024: 0.01% to 4.45%) per annum.

A floating charge over cash and cash equivalents has been provided for certain debt.

15. Property, plant and equipment (continued)

Depreciation expenses are classified as follows:

	2025 A\$'000	2024 A\$'000
Included in cost sales	21,277	19,534
Included in administrative expenses	95	96
	21,372	19,630

At the balance sheet date, the details of the Group's freehold land and buildings are as follows:

Location	Description / Existing use	Tenure
2-8 Stuart Drive, Henderson, Western Australia	Land and buildings / Operational readiness and logistics support facility	Freehold
16 Nautical Drive, Henderson, Western Australia	Buildings on leasehold land / Undercover waterfront, manufacturing, modularisation and maintenance facility	Leasehold land leases: (a) 34-year lease from August 2010, with further 35 years option (b) 30-year lease from March 2014, with further 35 years option (c) 28-year lease from December 2016, with further 45 years option
35-39 Old Punt Road, Tomago, New South Wales	Land and buildings / Manufacturing facility and modular assembly laydown area	Freehold
Lot 324 Hematite Drive & Lot 325 Furnace Road, Wedgefield, Port Hedland Western Australia	Land and buildings / Manufacturing workshop and office facility	Freehold
10 Eucla Close, South Hedland, Western Australia	Land and buildings / Accommodation support	Freehold
45 Bensted Road, Callemondah, Gladstone, Queensland	Land / New facility to be constructed	Freehold
2 George Mamalis, Callemondah, Gladstone, Queensland	Land and building / Workshop and office facility	Freehold

Freehold land and buildings carried at fair value

At 30 June 2025, an independent valuation was carried out by Asset Valuation Advisory on all the freehold land and buildings of the Group. The fair value is determined by the valuer on the highest and best use approach of each asset. Such valuation was determined using the Sales Comparison approach (to market-type properties), Hypothetical Development approach, Income Capitalisation approach and Depreciated Replacement Cost ('DRC') approach (to non-market-type properties). The fair value has been derived through a mix of Level 2 inputs where applicable and Level 3 inputs where the Valuer has deemed Level 2 inputs to be not applicable.

Notes to the Consolidated Financial Statements

30 June 2025

15. Property, plant and equipment (continued)

Freehold land and buildings carried at fair value (continued)

Details of the Group's freehold land and buildings and information about the fair value hierarchy as at 30 June 2025 and 30 June 2024 are as follows:

	Level 1 A\$'000	Level 2 A\$'000	Level 3 A\$'000	Fair value as at 30 June 2025 A\$'000
Freehold land	-	34,735	-	34,735
Buildings	-	11,945	413,963	425,908

	Level 1 A\$'000	Level 2 A\$'000	Level 3 A\$'000	Fair value as at 30 June 2024 A\$'000
Freehold land	-	29,485	-	29,485
Buildings	-	6,545	384,786	391,331

Level 2 fair value of the Group's freehold land and building have been derived using the market data approach. Sales prices of comparable properties in close proximity are adjusted for differences in key attributes as disclosed in Note 4(a)(vi) to the financial statements. The most significant input in this valuation approach is the selling price per square meter and the usage of the property.

Valuation techniques used to derive Level 3 fair values

The following table shows the information about fair value measurements using significant unobservable inputs (Level 3) as at 30 June 2025 and 2024:

Description	Fair value as at 30 June 2025 A\$'000	Valuation technique	Unobservable inputs	Range of inputs	Relationship of unobservable inputs to fair value
Buildings	413,963	Depreciated Replacement Cost (DRC)	Depreciation rates	2% to 33%	The higher the depreciation rates, the lower the fair value
			Estimated construction costs per square metre	A\$1,365 to A\$7,071	The higher the construction costs, the higher the fair value.
			Developer profit margin	5% to 10%	The higher the profit margin, the higher the fair value.

Notes to the Consolidated Financial Statements

30 June 2025

15. Property, plant and equipment (continued)

Freehold land and buildings carried at fair value (continued)

Valuation techniques used to derive Level 3 fair values (continued)

The following table shows the information about fair value measurements using significant unobservable inputs (Level 3) as at 30 June 2025 and 2024 (continued):

Description	Fair value as at 30 June 2024 A\$'000	Valuation technique	Unobservable inputs	Range of inputs	Relationship of unobservable inputs to fair value
Buildings	384,786	Depreciated Replacement Cost (DRC)	Depreciation rates	2% to 33%	The higher the depreciation rates, the lower the fair value
			Estimated construction costs per square metre	A\$1,286 to A\$6,393	The higher the construction costs, the higher the fair value.
			Developer profit margin	5% to 10%	The higher the profit margin, the higher the fair value.

The following table represents the changes in level 3 items for the financial years ended 30 June 2025 and 30 June 2024:

	2025 A\$'000	2024 A\$'000
At the beginning of the year	384,786	335,315
Acquisition	1,050	16,893
Depreciation	(9,840)	(8,463)
Gain on revaluation of buildings	37,967	41,041
Closing balance	413,963	384,786

There were no transfers between Level 1 and Level 2 during the year.

If the freehold land and building were stated on the historical cost basis, the carrying amount would be as follows:

	2025 A\$'000	2024 A\$'000
Freehold land*	22,648	20,042
Buildings	231,887	225,934
Accumulated depreciation	(48,763)	(41,484)
Net book value	205,772	204,492

*exclude freehold land under Asset under construction

Notes to the Consolidated Financial Statements

30 June 2025

15. Property, plant and equipment (continued)

Right-of-use assets

Right-of-use assets acquired under leasing arrangements are presented together with the owned assets of the same class. Details of such leased assets are also disclosed in Note 23.

As at the balance sheet date, the net book value of property, plant and equipment that were under lease liabilities was A\$72,306,000 (2024: A\$67,847,000) (Note 23).

The carrying amount of property, plant and equipment that are pledged for security are as follows:

		2025 A\$'000	2024 A\$'000
Description	Borrowings		
Lease plant and equipment	Lease liabilities	38,393	36,167
Remaining property, plant and equipment	Corporate market loan, multi-option	529,777	496,673
		568,170	532,840

The details of the borrowings are disclosed in Note 21.

16. Investment properties

Notes to the Consolidated Financial Statements

30 June 2025

16. Investment properties (continued)

Buildings carried at fair value

At 30 June 2025, an independent valuation was carried out by Asset Valuation Advisory on the investment properties of the Group. The fair value is determined based on significant unobservable inputs and is categorised under Level 3 of the fair value measurement hierarchy due to its specialised nature which is not readily traded in the marketplace. At the balance sheet date, the investment properties held by the Group is as follows:

Location	Description / Existing use	Tenure
1 Welding Pass, Henderson, Western Australia	Buildings on leasehold land / Submarine rescue facility	Leasehold land leases: 28-year lease from April 2020, with further 22 years option Leasehold land sub-lease: 26-year and 4 months lease from July 2021, with 2 options to renew for a further 3 years each

The fair value measurement for the investment properties of A\$17,140,000 (2024: A\$15,990,000) has been categorized as a level 3 fair value based on the inputs to the valuation technique used.

Valuation techniques used to derive Level 3 fair values

The following table shows the information about fair value measurements using significant unobservable inputs (Level 3):

Description	Fair value as at 30 June 2025 A\$'000	Valuation technique	Unobservable inputs	Range of inputs	Relationship of unobservable inputs to fair value
Buildings	17,140	Depreciated Replacement Cost (DRC)	Depreciation rates	2%	The higher the depreciation rates, the lower the fair value
			Estimated construction costs per square metre	A\$1,636	The higher the construction costs, the higher the fair value.
			Developer profit margin	5% to 8%	The higher the profit margin, the higher the fair value.

Description	Fair value as at 30 June 2024 A\$'000	Valuation technique	Unobservable inputs	Range of inputs	Relationship of unobservable inputs to fair value
Buildings	15,990	Depreciated Replacement Cost (DRC)	Depreciation rates	2%	The higher the depreciation rates, the lower the fair value.
			Estimated construction costs per square metre	A\$1,491	The higher the construction costs, the higher the fair value.
			Developer profit margin	5% to 8%	The higher the profit margin, the higher the fair value.

Notes to the Consolidated Financial Statements

30 June 2025

16. Investment properties (continued)

Leasehold land carried at cost

The asset is depreciated on a straight-line basis over its lease term. The depreciation rate used is 2.1%.

(a) Investment properties is leased to non-related parties under operating leases.

Amounts recognised in profit or loss for investment properties

	2025 A\$'000	2024 A\$'000
Rental income	351	351
Direct operating expenses from investment property that generate rental income	(419)	(348)

(b) The carrying amount of investment properties that are pledged for security is as follows:

Description	Borrowings	2025 A\$'000	2024 A\$'000
Investment properties	Corporate market loan, multi-option	19,706	18,459

17. Intangible assets

	2025 A\$'000	2024 A\$'000
Goodwill	10	10

Goodwill has been allocated to the cash-generating unit, Metals and Minerals division.

Management is of the opinion that the recoverable amount will exceed the carrying amount on the basis that this cash generating unit has been generating profit since acquisition and management forecasts the results of this subsidiary to be in a net profit position for the financial year ended 30 June 2025. In arriving at this assessment, management has determined the recoverable amount using a two (2024: two) years forecasting process based on the current order book, projected orders and a consumer price index on direct costs and overhead costs.

Notes to the Consolidated Financial Statements

30 June 2025

18. Investment in subsidiaries

The Group's material subsidiaries are listed below. The ownership interests reflect the Group's direct interest in the ordinary shares of the entity. The proportion of ownership interests held also equals the voting rights held by the Group. The country of incorporation is also the principal place of business unless noted otherwise.

Name of entity	Principal activities	Country of incorporation	Equity held by the Group	
			2025 %	2024 %
Held by the Company				
Civmec Singapore Limited ⁽¹⁾⁽²⁾	Asset holding company	Singapore	100	-
Held by Civmec Singapore Limited				
Civmec Construction & Engineering Pty Ltd ⁽¹⁾	Engineering and construction services	Australia	100	100
Held by Civmec Construction & Engineering Pty Ltd				
Civmec Holdings Pty Ltd ⁽¹⁾	Asset holding company	Australia	100	100
Multidiscipline Solutions Pty Ltd ⁽¹⁾	Labour supply	Australia	100	100
Civmec Pipe Products Pty Ltd	Asset holding company	Australia	83.5	83.5
Civmec Electrical and Instrumentation Pty Ltd ⁽¹⁾	Electrical services	Australia	100	100
Forgacs Marine and Defence Pty Ltd ⁽¹⁾	Marine and defence services	Australia	100	100
Civmec Construction & Engineering Africa Ltd ⁽³⁾	Asset holding company	Mauritius	-	100

Note:

- (1) Included in Australia tax consolidated group.
- (2) Previously named Civmec Limited.
- (3) The company was deregistered during the current financial year.

19. Joint operations

The Group has interests in the following joint operation which is proportionately consolidated:

Name of entity	Principal activities	Country of incorporation	Ownership interest held by the Group	
			2025 %	2024 %
Held by Civmec Construction & Engineering Pty Ltd				
Black & Veatch Civmec JV ('BCJV') ¹	Engineering and construction services	Australia	50	50
Civmec Construction & Engineering Pty Ltd and Seymour Whyte Constructions Pty Ltd and WSP Australia Pty Ltd ('Causeway Link Alliance') ²	Engineering and construction services	Australia	53.78	53.78

Notes:

1. BCJV project is for the design and construction of a wastewater treatment plant upgrade.
2. Causeway Link Alliance is for the design and construction of the Causeway Pedestrian and Cyclist Bridges in the Perth metropolitan area.

Notes to the Consolidated Financial Statements

30 June 2025

20. Trade and other payables

	2025 A\$'000	2024 A\$'000
Trade creditors	35,228	58,040
Sundry payables and accruals	46,244	84,189
Goods and services tax payable	1,263	5,277
Other taxes payable	4,100	5,643
	86,835	153,149

Trade and other payables are usually paid within 45 days.

21. Borrowings

	2025 A\$'000	2024 A\$'000
Current:		
Corporate market loan – secured [Note 21(a)]	-	8,000
Non-current:		
Corporate market loan – secured [Note 21(a)]	60,000	56,000
	60,000	64,000

(a) Corporate market loan

The Group is required by the banks to maintain certain financial ratios such as leverage ratio, tangible net worth and debt service cover ratio. As at 30 June 2025, the Group met all of these financial covenants.

As at 30 June 2025, the Group has a commercial bank facility amounting to A\$86 million (2024: A\$64 million) which was 69.8% utilised (2024: fully utilised). The facility limit reduces by A\$2 million per quarter with borrowings within A\$8 million of the facility limit becoming a current liability. At the balance sheet date, the Group does not require any repayments within the next 12 months. Interest rates are variable and ranged between 4.98% to 5.55% (2024: 5.02% to 5.47%) per annum during the current financial year.

(b) Multi-option facility

The Group has a multi-option facility of A\$70 million (2024: A\$70 million) which was 4.6% utilised as at 30 June 2025 (2024: not utilised). It can be used for revolving commercial loan, bank guarantees and letter of credit. Interest rates are fixed at the time of drawing, except for (1) revolving commercial loan with variable interest rates and (2) bank guarantees on which incur with issuance fee and service fee instead of interest.

General security deed

Both the commercial bank and multi-option facilities are secured by certain property, plant and equipment and investment properties as disclosed in Note 15 and Note 16 to the financial statements.

Notes to the Consolidated Financial Statements

30 June 2025

22. Provisions for employee benefits

	2025 A\$'000	2024 A\$'000
Current:		
Provision for short-term employee benefits	13,659	18,455
Non-current:		
Provision for long-term employee benefits	379	493
	14,038	18,948

The movements in provisions are as follows:

	2025 A\$'000	2024 A\$'000
Current:		
At the beginning of the year	18,455	17,849
Provisions made during the year		
- Included in employee benefits	25,948	26,568
Provisions utilised during the year	(31,165)	(27,003)
Reclassified from non-current	421	1,041
At the end of the year	13,659	18,455
Non-current:		
At the beginning of the year	493	737
Provisions made during the year		
- Included in employee benefits	91	440
Adjustment due to change in probability %	340	1,738
Provisions utilised/reversed during the year	(124)	(1,381)
Reclassified to current	(421)	(1,041)
At the end of the year	379	493

Short-term benefits

The provisions pertain to employee benefits for annual leave, rostered days off and non-vesting personal leave that are expected to be settled within 12 months of the reporting date. The liability of long service leave that is payable to employees who have completed at least 7 years of continuous employment is also classified as current. They are measured at the amounts expected to be paid when the liability is settled.

Long-term benefits

The provisions mainly pertain to employee benefits relating to long service leave. The liability is measured as the present value of the expected future payments to be made. The probability of long service leave being taken is based upon historical data and the discount rate used ranges from 3.59% to 3.95% (2024: 5.04% to 5.53%).

Notes to the Consolidated Financial Statements

30 June 2025

23. Leases

(a) The Group as lessee

Nature of the Group's leasing activities

The Group has entered into leases of land and buildings in respect of its offices, facilities and workshops. The Group has the following leases:

- The Henderson land lease at Lot 804 (16) Nautical Drive, Henderson, Western Australia is for a 34-year period from August 2010 with an option to renew for a further 35 years (reasonably certain to be exercised). Rent increases as per the CPI Index.
- The Henderson land lease on extended area at Lot 804 (16) Nautical Drive, Henderson, Western Australia is for a 28-year period from December 2016 with an option to renew for a further 45 years (reasonably certain to be exercised). Rent increases as per the CPI Index.
- The Henderson land lease at Lot 101 (1) Welding Pass, Henderson, Western Australia is 28-year lease from November 2019 with further 22 years option (reasonably certain to be exercised). Rent increases as per the CPI Index.
- A workshop lease at 4/379 Spearwood Avenue, Bibra Lake, Western Australia is for 3-year lease from July 2022 with a first further 2 years option and a second further 3 years option (reasonably certain to be exercised). Rent increases 2.5% on each anniversary of the start date on the initial lease term and subsequently increases as per CPI index.

The Group also leases motor vehicles, workshop equipment and office fitout from non-related parties under lease liabilities. The Group will obtain the ownership of the leased assets from the lessor at no extra cost at the end of the lease term. The average lease term is between 4 and 5 years.

The present values of lease liabilities are analysed as follows:

	Minimum lease payments A\$'000	Future finance charges A\$'000	Net present value of minimum lease payments A\$'000
2025			
Current:			
Within one year	9,939	(4,497)	5,442
Non-current:			
Between two and five years	27,386	(16,022)	11,364
Later than five years	199,573	(155,868)	43,705
	226,959	(171,890)	55,069
	236,898	(176,387)	60,511
2024			
Current:			
Within one year	10,159	(4,215)	5,944
Non-current:			
Between two and five years	25,327	(14,875)	10,452
Later than five years	189,888	(148,987)	40,901
	215,215	(163,862)	51,353
	225,374	(168,077)	57,297

Notes to the Consolidated Financial Statements

30 June 2025

23. Leases (continued)

(a) The Group as lessee (continued)

Nature of the Group's leasing activities (continued)

Lease liabilities are presented in the statement of financial position as follows:

	2025 A\$'000	2024 A\$'000
Present value of lease liabilities		
Current:		
Within one year	5,442	5,944
Non-current:		
Between two and five years	11,364	10,452
Later than five years	43,705	40,901
	55,069	51,353
	60,511	57,297

The effective interest rates range from 2.14% to 8.60% (2024: 2.14% to 8.60%) per annum.

Carrying amount of right-of-use assets within Property, Plant and Equipment

	2025 A\$'000	2024 A\$'000
Leasehold land & buildings	33,982	31,679
Small tools	579	681
Plant and equipment	31,840	31,501
Motor vehicles	5,063	3,986
Office & IT equipment	222	-
Asset under construction	620	-
	72,306	67,847

Carrying amount of right-of-use assets within Investment Properties

	2025 A\$'000	2024 A\$'000
Leasehold land & buildings	2,566	2,469

There was an addition of A\$9,614,000 to right-of-use assets during the current financial year (Note 15 and Note 16).

Notes to the Consolidated Financial Statements

30 June 2025

23. Leases (continued)

(a) The Group as lessee (continued)

Amounts recognised in profit or loss

	2025 A\$'000	2024 A\$'000
Depreciation charged for the year:		
- Small tools	101	101
- Plant and equipment	2,917	2,746
- Motor vehicles	977	704
- Leasehold land & building	1,040	981
Interest on lease liabilities (Note 9)	4,602	4,329
Expenses relating to short-term leases	304	302

(b) The Group as lessor

The Group sub-leased its investment property under an operating lease which also included pay to build and occupy conditions. A net amount of A\$9,236,000 was received in advance during the year ended 30 June 2021 from the sub-lessee as part of the pay to build conditions. Revenue from the advance is being recognised over the tenure of the land. The sub-lessee does not have an option to purchase the property at the expiry of the lease period. This lease is classified as an operating lease because the risk and rewards incidental to ownership of the assets are not substantially transferred.

Rental income from investment properties is disclosed in Note 16.

Future minimum rental receivables under non-cancellable operating leases as at the end of the reporting period are as follows:

	2025 A\$'000	2024 A\$'000
Present value of rental receivables		
Within one year	346	351
Between one year and two years	346	343
Between two years and three years	336	330
Between three years and four years	336	330
Between four years and five years	336	330
Later than five years	4,112	3,584
	5,813	5,268*

*Adjusted with revised annual trimmed mean CPI for quarter ended 30 June 2024.

The present value of rental receivables changes due to the change in CPI. When the CPI rises, indicating higher inflation, the present value decreases. Conversely, a drop in CPI indicating lower inflation, which increases the present value. The annual trimmed mean CPI was 2.7% to the quarter ended 30 June 2025 (2024: 4.0%).

Notes to the Consolidated Financial Statements

30 June 2025

24. Share capital

(a) Fully paid ordinary shares

	30 June 2025		30 June 2024	
	No. of shares	A\$'000	No. of shares	A\$'000
At the beginning of the year	507,606,000	32,358*	505,132,000	31,350*
Share issued during the year				
- Conversion of performance rights	937,000	464	2,324,000	897
- Conversion of share options	-	-	150,000	111
Cancellation of treasury shares	(15,000)	(10)	-	-
At the end of the year	508,528,000	32,812	507,606,000	32,358

* Reclassification of previously vested equity-settled employee benefits relating to prior financial years.

During the current financial year, all shares held in Civmec Singapore Limited (formerly named Civmec Limited) were acquired by Civmec Limited (formerly named Civmec Australia Limited) in exchange for shares in Civmec Limited on a 1:1 basis. This transaction was completed under a scheme of arrangement as part of the Restructure.

The ordinary shares of the Company have no par value. All issued ordinary shares are fully paid. The holders of ordinary shares are entitled to receive dividends as declared from time to time and are entitled to one vote per share without restrictions at meetings of the Company. All shares rank equally with regard to the Company's residual assets.

During the current financial year, 937,000 shares were issued pursuant to vesting and conversion of performance rights held by key management personnel ('KMP') and other management.

(b) Treasury shares

During the current financial year, all the 15,000 treasury shares were cancelled in Civmec Singapore Limited.

As at 30 June 2025, there were no treasury shares held by the Company (2024: 15,000).

Notes to the Consolidated Financial Statements

30 June 2025

25. Dividends

Dividends are recognised as a liability at the time the Directors resolve to pay or declare the dividend.

(a) Dividends recognised during the year

	Franked / unfranked	Dividend per share (Australia cents)	Total A\$'000
2025			
2024 Final ordinary dividend: paid on 25 Oct 2024	Franked	3.5	17,798
2025 Interim ordinary dividend: paid on 11 Apr 2025	Franked	2.5	12,713
			30,511
2024			
2023 Final ordinary dividend – paid on 14 Dec 2023	Franked	3.0	15,228
2024 Interim ordinary dividend: paid on 15 Apr 2024	Franked	2.5	12,690
			27,918

(b) Unrecognised amounts

	2025 A\$'000	2024 A\$'000
Final franked dividends of 3.5 Australia cents per ordinary share for the financial year ended 30 June 2025 (30 June 2024: 3.5 Australia cents)	17,798	17,766

(c) Franking credit balance

	2025 A\$'000	2024 A\$'000
Franking credits available for subsequent reporting periods based on a tax rate of 30% (2024: 30%)	69,668	52,465
Impact on the franking account of dividends declared by the Board	(7,628)	(7,614)
	62,040	44,851

Tax rates

The tax rate at which paid dividends have been franked is 30% (2024: 30%). Dividends payable will be franked at the rate of 30% (2024: 30%).

Recognition and measurement

A provision for dividends is not recognised as a liability unless the dividends are declared on or before the reporting date.

Notes to the Consolidated Financial Statements

30 June 2025

26. Share-based payments

Performance rights plan

Following the Restructure, the 5,289,000 existing performance rights issued under Civmec Singapore Limited (formerly named Civmec Limited) were cancelled and replaced with new performance rights issued under Civmec Limited (formerly named Civmec Australia Limited). These were issued equal in number to, and on the same terms and conditions as the existing performance rights, with the exception that the new performance rights, on conversion, convert into shares. The new performance rights are subject to the same vesting criteria.

The new Performance Rights Plan ('PRP') for key senior executives of the Group was approved and adopted at the Extraordinary General Meeting ('EGM') held on 1 August 2024. The PRP is called the '2024 Civmec Key Senior Executives Performance Rights Plan'.

A Performance Right refers to a right to one issued ordinary share of the Company granted under the scheme for no consideration. To the extent the gateway hurdles are satisfied, 100% of the vesting will be based on the absolute earnings per share (aEPS) outcome. aEPS is based on the achievement of certain predetermined performance targets determined by the Committee. The Committee has the discretion to determine whether the performance targets have been met.

The balances of outstanding Performance Rights are as follows:

	Issued	Vested	Forfeited/ Lapsed/ Expired	Balance	Fair value per right (AUD) ¹
Tranche 5: Performance period 1 July 2021 to 30 June 2024 (Granted in FY2022)	1,773,000	(937,000)	(836,000)	-	\$0.50
Tranche 6: Performance period 1 July 2022 to 30 June 2025 (Granted in FY2023)	2,134,000	-	(84,000)	2,050,000	\$0.51
Tranche 7: Performance period 1 July 2023 to 30 June 2026 (Granted in FY2024)	1,817,000	-	(61,000)	1,756,000	\$0.63
Tranche 8: Performance period 1 July 2024 to 30 June 2027 (Granted in FY2025)	2,283,000	-	-	2,283,000	\$0.69
Balance as at 30 June 2025				6,089,000	

Note:

- The fair value per right at grant for all tranches is determined using the Black-Scholes Model. This takes into account the share price at the grant date, the term of the right, the exercise price, expected price volatility, exercise probability, the risk-free interest rate over the term of the right, and the expected dividend yield.

For the financial year ended 30 June 2025, the Group has recognised A\$354,000 of equity-settled share-based payment expense (2024: A\$365,000).

Notes to the Consolidated Financial Statements

30 June 2025

27. Asset revaluation reserve

	2025 A\$'000	2024 A\$'000
At the beginning of the year	160,219	129,577
Gain on revaluation of freehold land and buildings	42,501	44,270
Deferred tax liability arising on revaluation (Note 10)	(12,586)	(13,628)
At the end of the year	190,134	160,219

28. Other reserves

	2025 A\$'000	2024 A\$'000
Merger reserve	7,578	7,578
Waiver of loan payable to a related party	277	277
Equity-settled employee benefits reserve	1,216	1,567*
	9,071	9,422

* Reclassification of previously vested equity-settled employee benefits relating to prior financial years.

(a) Merger reserve

Pursuant to the completion of the previous Restructuring Exercise in financial year 2012, the share capital of Civmec Construction & Engineering Pty Ltd and Controlled Entities was adjusted to merger reserve based on the 'pooling of interest method'.

(b) Equity-settled employee benefits

The equity-settled employee benefits reserve relates to share options granted to employees under the employee share option plan and performance rights. Following the expiry of employee share option plan, the associated reserve balance was transferred to retained earnings, reflecting the lapse of the related equity instruments.

29. Capital expenditure commitments

The Group has contracted capital expenditure commitments at the reporting date but not recognised in the financial statement as follows:

	2025 A\$'000	2024 A\$'000
Plant and equipment purchases	254	3,316
Capital projects	39	1,335
	293	4,651

Notes to the Consolidated Financial Statements

30 June 2025

30. Contingent liabilities

The Group is, in the normal course of business, required to provide guarantees in respect of their contractual performance related obligations. These guarantees and indemnities only give rise to a liability in the event that it is unable to perform its contractual obligations.

As at 30 June 2025, the Group has given the following:

	2025 A\$'000	2024 A\$'000
Bank guarantees	2,442	2,442
Surety bond facility	183,608	137,266
	186,050	139,708

The surety bond facility is provided for the provision of performance bonds to customers of the Group. It has a limit of A\$400 million (2024: A\$403 million) as at 30 June 2025.

There were no contingent assets recognised as at 30 June 2025 or 30 June 2024.

31. Related party transactions

The Group's main related parties are as follows:

Entities exercising control over the Group

The largest shareholders are James Finbarr Fitzgerald and Olive Theresa Fitzgerald (acting as trustees for the JF & OT Fitzgerald Family Trust) (19.22%) and Goldfirm Pty Ltd (acting as trustee for the Kariang Investment Trust) (19.18%). Patrick John Tallon is a beneficiary of the Kariang Investment Trust.

Key management personnel

Any person having authority and responsibility for planning, directing and controlling the activities of the entity, directly or indirectly, including any director (whether executive or otherwise) of that entity is considered key management personnel. Disclosures relating to Key Management Personnel is included in the Remuneration Report that is audited and forms part of the Directors' report.

The aggregate remuneration provided, excluding statutory cost, to key management personnel is as follows:

	2025 A\$'000	2024 A\$'000
Short-term employee benefits	3,609	3,236
Long term benefits	(68) ¹	(42) ¹
Post-employment benefits	117	82
Share-based payments	1,092	1,329
Non-executive Directors' fees	354	313
	5,104	4,918*

Note:

*Figures have been updated to align with the criteria used in the current financial year.

1. Negative amount represents leave taken value greater than leave accrued during the year.

Notes to the Consolidated Financial Statements

30 June 2025

31. Related party transactions (continued)

Directors' interest in employee share benefit plans

At the end of the reporting date, the total number of outstanding share options and performance rights that were issued/allocated to the directors and key management personnel under existing employee benefit schemes is given below:

	2025 No.	2024 No.
Performance rights		
Directors	996,000	1,057,000
Key management personnel	332,000	-*

* Figures have been updated to align with the criteria used in the current financial year.

Other related parties

Other related parties include immediate family members of key management personnel and entities that are controlled or significantly influenced by those key management personnel, individually or collectively with their immediate family members.

Transactions with related parties

Transactions between related parties are on normal commercial terms and conditions no more favourable than those available to other parties unless otherwise stated.

Newpark WA Pty Ltd (as Trustee for The Fitzgerald Newpark Family Trust) purchased steel and other materials at arm's length from Civmec Construction & Engineering Pty Ltd on 13 September 2024, valued at A\$142,000 (excluding GST) (2024: Nil).

32. Financial information by segments

Management has determined the operating segments based on the internal reports which are regularly reviewed by the Operations Management that are used to make strategic decisions.

The Operations Management comprises of the Executive Chairman, Chief Executive Officer, Chief Operating Officer, Chief Financial Officer and the department heads of each operating segment.

The business is managed primarily on the basis of different products and services as the diversification of the Group's operations inherently have notably different risk profiles and performance assessment criteria.

Reportable segments disclosed are based on aggregating operating segments where the segments are considered to have similar economic characteristics and are also similar with respect to the following:

- the products sold and/or services provided by the segment;
- the manufacturing process;
- the type or class of customer for the products or services;
- the distribution method; and
- any external regulatory requirements.

Notes to the Consolidated Financial Statements

30 June 2025

32. Financial information by segments (continued)

The Group is organised into the following main business segments:

- Energy
- Resources
- Infrastructure, Marine & Defence

The business activities include heavy engineering, shipbuilding, modularisation, SMP (structural, mechanical, piping), EIC (electrical, instrumentation and control), precast concrete, site civil works, industrial insulation, maintenance, surface treatment, refractory and access solutions.

Although the Operations Management receives separate reports for each project in the Energy, Resources, and Infrastructure, Marine & Defence businesses, these have been aggregated into the respective reportable segments as they have similar long-term average gross margins.

Basis of accounting for purpose of reporting by operating segments

(i) Accounting policies adopted

Unless stated otherwise, all amounts reported to the Board of Directors, being the chief decision makers with respect to operating segments, are determined in accordance with accounting policies that are consistent to those adopted in the consolidated financial statements of the Group.

(ii) Inter-segment transactions

An internally determined transfer price is set for all inter-segment sales. This price is reviewed quarterly and is based on what would be realised in the event the sale was made to an external party at arm's length. All such transactions are eliminated on consolidation of the Group's financial statements.

Inter-segment loans payable and receivable are initially recognised at the consideration received/to be received net of transaction costs.

(iii) Segment assets and liabilities

The Group does not identify nor segregate its assets and liabilities in operating segments as these are managed on a 'group basis'.

Geographical segments (secondary reporting)

Revenue is based on the location of customers regardless of where the services are rendered. Non-current assets are based on the location of those assets:

	Revenue		Non-current assets	
	2025 A\$'000	2024 A\$'000	2025 A\$'000	2024 A\$'000
Australia	810,586	1,033,473	588,964	552,277

Major customers

The Group has a number of customers to whom it provides both products and services. For the year ended 30 June 2025, the Group supplies to three (2024: two, Resources) major external customers in the Resources segment. The major customers account for approximately 51.4% (2024: 53.5%) of external revenue.

Notes to the Consolidated Financial Statements

30 June 2025

Notes to the Consolidated Financial Statements

30 June 2025

33. Financial risk management objectives and policies

The Group and the Company financial risk management policies set out the Group's and the Company's overall business strategies and its risk management philosophy. The Group and the Company are exposed to financial risks arising from its operations and the use of financial instruments. The key financial risks include credit risk, interest rate risk and liquidity risk. The Group's and the Company's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise adverse effects from the unpredictability of financial markets on the Group's and the Company's financial performance.

The Board of Directors reviews and agrees policies and procedures for the management of these risks. The Audit Committee provides independent oversight to the effectiveness of the risk management process.

The Group and the Company do not hold or issue derivative financial instruments for speculative purposes.

As at 30 June 2025, the Group's and the Company's financial instruments mainly consisted of cash and cash equivalents, trade and other receivables, contract assets, trade and other payables, contract liabilities, lease liabilities and borrowings.

There has been no change to the Group's and the Company's exposures to these financial risks or the manner in which it manages and measures the risk. Market risk exposures are measured using sensitivity analysis indicated below.

(a) Credit risk

Credit risk refers to the risk that counterparty will default on its contractual obligations resulting in financial loss to the Group. The Group's exposure to credit risk arises primarily from trade and other receivables, contract assets and cash and cash equivalents. The Group adopts the policy of dealing only with:

- Customers of appropriate credit standing and history, and obtaining sufficient collateral or buying credit insurance where appropriate to mitigate credit risk; and
- High credit quality counterparties of at least an 'A' rating by external credit rating companies.

Financial assets that are potentially subject to concentration of credit risk consist are principally bank deposits and receivables. The Group places its deposits with financial institutions and other creditworthy issuers and limits the amount of credit exposure to any one party. As at 30 June 2025, the Group has a concentration of credit risk on two debtors (2024: two debtors) that individually represents 43.7% and 14.3% (2024: 32.06% and 21.13%) of total trade and other receivables and contract assets.

As the Group and the Company do not hold any collateral, the maximum exposure to credit risk for each class of financial instruments is the carrying amount of that class of financial instruments presented on the consolidated statement of financial position, except for financial guarantees as disclosed in Note 30 to the financial statements.

The following sets out the Group's internal credit evaluation practices and basis for recognition and measurement for expected credit losses ('ECL'):

Internal rating grades	Definition	Basis for recognition and measurement of ECL
i. Performing	The counterparty has a low risk of default and does not have any past-due amounts.	12-month ECL
ii. Under-performing	There has been a significant increase in credit risk since initial recognition (>60 days past due).	Lifetime ECL (not credit-impaired)
iii. Non-performing	There is evidence indicating that the asset is credit-impaired (>90 days past due).	Lifetime ECL (credit-impaired)
iv. Write-off	There is evidence indicating that there is no reasonable expectation of recovery as the debtor is in severe financial difficulty.	Asset is written off

Notes to the Consolidated Financial Statements

30 June 2025

33. Financial risk management objectives and policies (continued)

(a) Credit risk (continued)

Trade receivables and contract assets

The Group's objective is to seek continual revenue growth while minimising losses incurred due to increased credit risk exposure. The Group has adopted the policy of dealing with customers with an appropriate credit history as a means of mitigating the credit risk exposures. Credit evaluation which takes into account qualitative and quantitative profile of each customer is performed and approved by management before credit is being granted. The Group also closely monitors customers' payment pattern and credit exposures on an on-going basis.

The Group applies the simplified approach to provide for the ECL for all trade receivables and contract assets. The simplified approach requires the loss allowance to be measured at an amount equal to the lifetime ECL.

The Group uses a provision matrix to measure the lifetime ECL allowance for trade receivables and contract assets. In measuring the ECL, trade receivables and contract assets are grouped based on shared credit risk characteristics and days past due. The contract assets relate mainly to unbilled work in progress, which have substantially the same risk characteristics as the trade receivables for the same type of contracts.

The Group has therefore concluded that the expected loss rates for trade receivables are a reasonable approximation of the loss rates for the contract assets.

In calculating the ECL rates, the Group considers historical loss rates for each category of customers, and adjusts for forward-looking macroeconomic data. The Group has identified the gross domestic product ('GDP') growth of the countries in which it sells goods and services to be the most relevant factor, and accordingly adjust the historical loss rates based on expected changes in this factor.

The Group considers a financial asset as in default when the counterparty fail to make contractual payments for a prolonged period of time when they fall due, and the Group may also consider internal and external information, such as significant adverse changes in business, financial or economic conditions that are expected to cause a significant change to the debtor's ability to meet its obligation. Financial assets are written off when there is no reasonable expectation of recovering the contractual cash flow, such as a debtor failing to engage in a repayment plan with the Group and it is becoming probable that the debtor will enter bankruptcy or other financial reorganisation. Where receivables have been written off, the Group continues to engage in enforcement activity to attempt to recover the receivables due. Where recoveries are made, these are recognised in profit or loss.

Management has assessed and concluded that the ECL rate for trade receivables past due less than 1 year approximates Nil and is immaterial, while the ECL rate for trade receivables past due more than 1 year approximates 50% to 100%, except for specific cases where management has assessed the amount is still fully recoverable.

The Group's credit risk exposure in relation to trade receivables under AASB/SFRS(I) 9 as at 30 June 2025 and 2024 are set out in the provision matrix as follows:

	Current A\$'000	Past due			Total A\$'000
		Within 60 days A\$'000	61 to 90 days A\$'000	More than 90 days A\$'000	
2025					
Trade receivables	49,726	1,895	-	-	51,621
2024					
Trade receivables	66,454	27,634	-	-	94,088

Notes to the Consolidated Financial Statements

30 June 2025

33. Financial risk management objectives and policies (continued)

(a) Credit risk (continued)

Trade receivables and contract assets (continued)

There is no ageing analysis for contract assets as these mainly relate to variable considerations which have yet to be invoiced.

The Group has assessed and concluded that trade receivables are subject to immaterial credit loss. There has been no change in the estimation techniques or significant assumptions made during the current reporting year.

Other receivables

The Group applies the general approach to provide for the ECL for other receivables. Under the general approach, the loss allowance is measured at an amount equal to the 12-month ECL at initial recognition.

At each reporting date, the Group assesses whether the credit risk of a financial instrument has increased significantly since initial recognition. When credit risk has increased significantly since initial recognition, loss allowance is measured at an amount equal to lifetime ECL.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECLs, the Group considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Group's historical experience and informed credit assessment and includes forward-looking information.

If credit risk has not increased significantly since initial recognition or if the credit quality of the financial instruments improves such that there is no longer a significant increase in credit risk since initial recognition, loss allowance is measured at an amount equal to 12-month ECL.

Impairment of these balances have been measured on the 12-month ECL basis which reflects the low credit risk of exposures. These amounts are subject to immaterial credit loss.

Cash and cash equivalents

The cash and bank balances are entered into with bank and financial institution counterparties, which are rated at least AA, based on international credit rating agencies.

For the purpose of impairment, cash and cash equivalents has been measured on the 12-month expected loss basis and reflects the short maturities of the exposures. The Group considers that its cash and cash equivalents have low credit risk based on the external credit ratings of the counterparties.

Notes to the Consolidated Financial Statements

30 June 2025

33. Financial risk management objectives and policies (continued)

(b) Interest rate risk

Exposure to interest rate risk arises on financial assets and financial liabilities recognised at the end of the reporting period whereby a future change in interest rates will affect future cash flows or the fair value of fixed rate financial instruments. The Group is also exposed to earnings volatility on floating rate instruments.

Interest rate risk is managed using a mix of fixed and floating rate debt. At 30 June 2025, approximately 21.7% (2024: 17.7%) of the Group's debt is fixed. The Group's borrowings at variable rates are denominated mainly in A\$. If the A\$ interest rates increase/decrease by 1% (2024: 1%) with all other variables remain constant, the Group's profit before tax will be approximately lower/higher by A\$600,000 (2024: A\$640,000) as a result of higher/lower interest expenses on these borrowings.

The Group has cash balances placed with reputable banks and financial institutions. Such balances are placed on varying maturities and generate interest income for the Group and the Company.

The Group obtains additional financing through bank borrowings and leasing arrangements. Information relating to the Group's interest rate exposure is also disclosed in the notes on the Group's borrowings and leasing obligations. They are both fixed and floating rates of interest. The policy is to retain flexibility in selecting borrowings at both fixed and floating rates interest.

Variable rates		Fixed rates		Non-interest bearing A\$'000	Total A\$'000
Within 1 year A\$'000	Between 2 to 5 years A\$'000	Within 1 year A\$'000	Between 2 to 5 years A\$'000

Notes to the Consolidated Financial Statements

30 June 2025

33. Financial risk management objectives and policies (continued)

(c) Liquidity risk

Liquidity risk is the risk that the Group and the Company will encounter difficulty in meeting its commitments concerning its financial liabilities. The Group and the Company manages this risk through the following mechanism:

Preparing forward-looking cash flow analysis in relation to its operational, investing and financing activities;

- Monitoring undrawn credit facilities;
- Maintaining credit risk related to financial assets;
- Obtaining funding from a variety of sources;
- Only investing surplus cash with major financial institutions; and
- Comparing the maturity profile of financial liabilities with the realisation profile of financial assets.

Cash flows realised from financial assets reflect management's expectation as to the timing of realisation. Actual timing may therefore differ from that disclosed. The timing of cash flows presented in the table to settle financial liabilities reflect the earliest contractual settlement dates and do not reflect management's expectations that banking facilities will be rolled forward. Balances due within 12 months equal their carrying amount as the impact of discounting is not significant.

The table below reflects an undiscounted contractual maturity analysis for financial liabilities (exclude contract liabilities).

	Contractual undiscounted cash flows				
	Carrying amount A\$'000	Within 1 year A\$'000	Between 2 to 5 years A\$'000	More than 5 years A\$'000	Total A\$'000
2025					
<u>Financial liabilities</u>					
Trade and other payables	86,835	86,835	-	-	86,835
Lease liabilities	60,511	9,939	27,386	199,573	236,898
Borrowings	60,000	3,198	63,368	-	66,566
Total financial liabilities	207,346	99,972	90,754	199,573	390,299
2024					
<u>Financial liabilities</u>					
Trade and other payables	153,149	153,149	-	-	153,149
Lease liabilities	57,297	10,159	25,327	189,888	225,374
Borrowings	64,000	8,424	58,968	-	67,392
Total financial liabilities	274,446	171,732	84,295	189,888	445,915

The Group's undrawn borrowings facilities and guarantees are disclosed in Notes 21 and 30 to the financial statements respectively.

Notes to the Consolidated Financial Statements

30 June 2025

33. Financial risk management objectives and policies (continued)

(d) Capital management

Management controls the capital of the Group in order to maintain a good debt-to-equity ratio, provide the shareholders with adequate returns and to ensure that the Group can fund its operations and continue as a going concern.

The Group's debt and capital includes ordinary share capital and financial liabilities, supported by financial assets.

The Group and the Company have no externally imposed capital requirements.

Management effectively manages the Group's capital by assessing the Group's financial risks and adjusting its capital structure in response to changes in these risks and in the market. These responses include the management of debt levels, distribution to shareholders and share issues.

The net debt-to-equity ratio is calculated as net debt divided by total equity. Net debt is calculated as total financial liabilities less cash and cash equivalents.

	2025 A\$'000	2024 A\$'000
Net debt	104,406	185,989
Total equity	530,512	488,218
Net debt-to-equity ratio	0.20	0.38

(e) Fair value estimation

Financial instruments

The fair values of financial assets and financial liabilities can be compared to their carrying values as presented in the consolidated statement of financial position. Fair values are those amounts at which an asset could be exchanged, or liability settled, between knowledgeable, willing parties in an arm's length transaction.

Fair values derived may be based on information that is estimated or subject to judgement, where changes in assumptions may have a material impact on the amounts estimated.

The fair value of current financial assets and financial liabilities approximate the carrying value due to the liquid nature of these assets and/or the short-term nature of these financial rights and obligations.

The fair value of non-current borrowings are calculated based on discounted expected future principal and interest cash flows. The discount rates used are based on market rates for similar instruments at the reporting date. The carrying amounts of financial assets and financial liabilities are assumed to approximate their respective fair values. The Group does not anticipate that the carrying amounts recorded at the balance sheet date would be significantly different from the values that would eventually be received or settled.

Fair value hierarchy

The Group categorises fair value measurement using a fair value hierarchy that is depend on the valuation inputs used as follows:

- Level 1 – Quoted prices (unadjusted) in active markets for identical assets or liabilities that the Group can access at the measurement date;
- Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly; and
- Level 3 – Unobservable inputs for the asset or liability

Fair value measurements that use inputs of different hierarchy levels are categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

Notes to the Consolidated Financial Statements

30 June 2025

34. Litigation

Perth stadium project

In February 2019, the Group lodged a writ in the Supreme Court of Western Australia against Brookfield Multiplex Engineering and Infrastructure Pty Ltd ('Brookfield Multiplex'), in relation to the valuation of additional time and changes to the works undertaken in the delivery of the new Perth Stadium project in Western Australia.

The Group is seeking a determination from the Supreme Court to recover costs associated with the changes in scope and nature of the works required to be completed and for the granting of Practical Completion. The proceedings are ongoing as at the date of this report.

35. Adoption of new and revised standards

The accounting policies adopted are consistent with those of the previous financial year except that in the current financial year, the Group has adopted all the new and revised standards which are effective for annual financial periods beginning on or after 1 July 2024.

Accounting standard	Title
Amendments to AASB 101 / SFRS(I) 1-1	<i>Classification of liabilities as current or non-current</i>
Amendments to AASB 101 / SFRS(I) 1-1	<i>Non-current liabilities with Covenants</i>
Amendments to AASB 112 / SFRS(I) 1-12	<i>Deferred tax related to Assets and liabilities arising from a Single Transaction</i>
Amendments to AASB 16 / SFRS (I) 16	<i>Lease liability in a sale and leaseback</i>
Amendments to AASB 1060 / SFRS(I) 1-7 and 7	<i>Supplier finance arrangements</i>

36. New standards and interpretations not yet adopted

A number of new standards and interpretations and amendments to standards are effective for annual periods beginning on or after 1 July 2025 and earlier application is permitted; however, the Group has not early adopted the new or amended standards and interpretations in preparing these financial statements.

Applicable to 2026 financial statements:

- Amendments to AASB 121 / SFRS(I) 1-21: *the Effects of Changes in Foreign Exchange Rates: Lack of Exchangeability*

Applicable to 2027 financial statements:

- AASB 18/SFRS(I) 18: *Presentation and Disclosure in Financial Statements*
- SFRS(I) 19: *Subsidiaries without Public Accountability: Disclosures*

Unspecified effective date, early adoption permitted:

- Amendments to AASB 10 and AASB 128 / SFRS(I) 10 and SFRS(I) 1-28: *Investments in Associates and Joint Ventures – Sale or Contribution of Assets between an Investor and its Associate or Joint Venture*

Notes to the Consolidated Financial Statements

30 June 2025

37. Subsequent events

Acquisition of Luerssen Australia Pty Ltd

On 1 July 2025, the Group has completed the acquisition of 100% of the shares in Luerssen Australia Pty Ltd from NVL Australia GmbH, for a cash consideration of A\$20 million. The acquisition was funded from the Group's existing cash reserves. It is the intent that, Luerssen Australia will be renamed to 'Civmec Defence Industries Pty Ltd'.

The Group is not in a position to present information related to the acquisition fair value of the assets acquired and liabilities assumed along with any goodwill that may arise from the acquisition of Luerssen Australia Pty Ltd due to the proximity of the acquisition date of 1 July 2025 to the date of release of these financial statements.

38. Other disclosures

There were no significant seasonal factors affecting the business during the current financial year.

39. Remuneration of auditors

During the financial year, the following fees were paid or payable for services provided by the Auditor of the Group:

	2025 A\$'000	2024 A\$'000
Audit or review of the financial statements		
- Moore Australia Audit (WA) (previously as network firm)	171	126
- Moore Stephens LLP*	142	137
Total Auditors' remuneration	313	263

*Equivalent to S\$118,000 for current financial year (2024: S\$111,000)

Notes to the Consolidated Financial Statements

30 June 2025

40. Parent Entity

On 4 September 2024, Civmec Australia Limited (now known as 'Civmec Limited') became the new listed holding company of the Civmec Group, replacing Civmec Limited (now known as 'Civmec Singapore Limited') through a scheme of arrangement.

Civmec Australia Limited was incorporated on 26 October 2023, held ordinary share capital of A\$1 and was dormant prior to the Restructure.

Summary financial information

	2025 A\$'000
Current assets	51,704
Total assets	89,246
Current liabilities	48,750
Total liabilities	48,750
Issued capital	32,812
Retained earnings	2,971
Share-based payments reserve	1,216
Other reserves	3,497
Total shareholder equity	40,496
Profit for the year	14,877
Total comprehensive income for the year	14,877

Parent entity's contractual commitments for property, plant and equipment

The Company has no contractual commitments to acquire property, plant and equipment.

Subsidiary Guarantees

The Company provides parent company guarantee (PCG) to clients from time to time when a subsidiary enters into a contractual agreement. These guarantees and indemnities only give rise to a liability in the event that the subsidiary is unable to perform its contractual obligations.

During the course of business, the Company also provides letters of credit for international trading when required.

Contingent liabilities

There are no other known contingent liabilities of the Company. Refer to Note 30 for details of contingent liabilities of Group entities.

Directors' Declaration

In the Directors' opinion

- (a) The financial statements and notes for Civmec Limited and its controlled entities for the year ended 30 June 2025 have been prepared in accordance with the Corporation Act (2001) including:
 - (i) giving a true and fair view of the Group's financial position as at 30 June 2025 and of its financial performance for the year ended on that date;
 - (ii) complying with Australian Accounting Standards and the *Corporations Regulations (2001)*; and
- (b) There are reasonable grounds to believe that the company will be able to pay its debts as and when they become due and payable.
- (c) The financial statements comply with Singapore Financial Reporting Standards (International) as disclosed in Note 3.
- (d) The consolidated entity disclosure statement for Civmec Limited and its controlled entities as at 30 June 2025 is true and correct.

The directors have received the declarations required by the Chief Executive Officer and Chief Financial Officer as required by section 295A of the *Corporations Act (2001)*.

This declaration has been made in accordance with resolution of the Directors.

James Finbarr Fitzgerald
Executive Chairman
Civmec Limited
28 August 2025

Patrick John Tallon
Chief Executive Officer
Civmec Limited
28 August 2025

Supplementary information

30 June 2025

As described in Note 1, Civmec Limited (formerly named Civmec Australia Limited. Domiciled in Australia) replace Civmec Singapore Limited (formerly named Civmec Limited, domiciled in Singapore) as the new listed parent company of the Civmec Group, moving the head company's domicile from Singapore to Australia on 4 September 2024. This change was completed through a scheme of arrangement under Singapore's Companies Act.

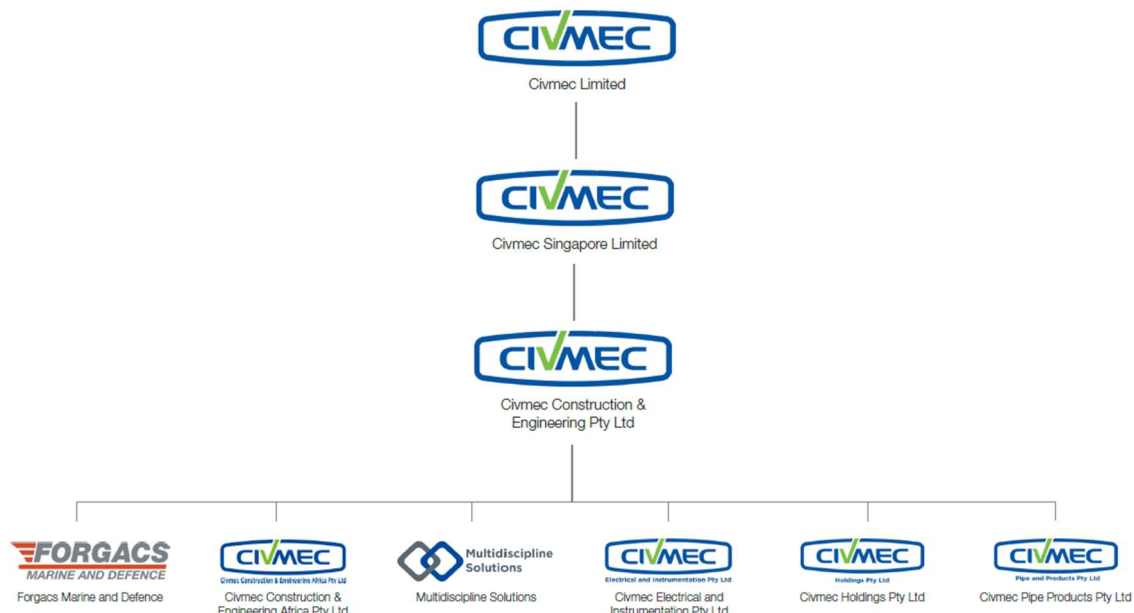

(a) Overview of the Restructure

The key steps undertaken in the Restructure were:

- New legal entity Civmec Australia Limited (the 'NewCo') was incorporated as a public limited company in Australia on 26 October 2023 for the sole purpose of the Change of Domicile.
- Existing shareholders of Civmec Limited (the 'Company') exchanged their ordinary shares and CHESS Depositary Interests (CDIs) in the Company for new ordinary shares in the NewCo on a 1 for 1 basis.
- NewCo replaced Civmec Limited as the new holding company of the Group.
- The existing listing of the Company on the Mainboard of the Singapore Exchange Securities Trading Limited (the 'SGX-ST') and the Australian Securities Exchange (the 'ASX') transferred to the NewCo.
- NewCo changed its name to 'Civmec Limited' and the Company changed its name to 'Civmec Singapore Limited'.

(b) Composition of the Group

The composition of the Civmec Group after the Restructure is shown in the diagram below.

Independent Audit Report To the members of Civmec Limited

Report on the Audit of the Financial Report

Opinion

We have audited the financial report of Civmec Limited (the “Company”) and its controlled entities (the “Group”), which comprises the consolidated statement of financial position as at 30 June 2025, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year ended 30 June 2025, and notes to the financial statements, including material accounting policy information, the consolidated entity disclosure statement and the directors’ declaration. The Group consists of the Company and the entities it controlled at the year-end or from time to time during the financial year.

In our opinion, the accompanying financial report of the Group is in accordance with the *Corporations Act 2001*, including:

- i. giving a true and fair view of the consolidated financial position as at 30 June 2025 and of its consolidated financial performance, consolidated changes in equity and consolidated cash flows for the year then ended; and
- ii. complying with Australian Accounting Standards, Singapore Financial Reporting Standards (International) (“SFRS(I)”) and the *Corporations Regulations 2001*.

Basis for Opinion

Moore Stephens LLP

We conducted our audit in accordance with Singapore Standards on Auditing (“SSAs”). Our responsibilities under those standards are further described in the Auditor’s Responsibilities for the Audit of the Financial Report section of our report. We are independent of the Group in accordance with the Accounting and Corporate Regulatory Authority (“ACRA”) *Code of Professional Conduct and Ethics for Public Accountants and Accounting Entities* (“ACRA Code”) and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ACRA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Moore Australia Audit (WA)

We conducted our audit in accordance with Australian Auditing Standards (“AASs”). Our responsibilities under those standards are further described in the Auditor’s Responsibilities for the Audit of the Financial Report section of our report. We are independent of the Group in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board’s APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the “Code”) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the directors of the Company, would be in the same terms if given to the directors as at the time of this auditor’s report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial report of the current period. These matters were addressed in the context of our audit of the financial report as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key audit matter	How the matter was addressed in our audit
Accounting for Construction Contracts	
<p>We refer to Note 4(a)(ii)-(iii) and 4(b)(i) under “Critical Accounting Estimates and Judgments”, Note 5(a) and Note 34 of the financial statements.</p> <p>During the financial year ended 30 June 2025, revenue from construction contracts amounted to A\$710.9 million which represented 88% of the Group’s total revenue.</p> <p>Contract revenue comprises the initial amount agreed in the contract and variations in the contract as constrained to the extent that it is highly probable that a significant reversal in the amount of cumulative revenue recognised will not occur when the uncertainty associated with the variable consideration is subsequently removed.</p> <p>The amount of revenue recognised is based on the Group’s progress towards completion of the construction contract, determined based on the proportion of construction costs incurred to date to the estimated total contract costs (“input method”). The Group uses the input method to measure project progress and recognises contract revenue in accordance with AASB / SFRS(I) 15 <i>Revenue from Contracts with Customers</i>.</p> <p>Estimates of revenues, costs or the extent of progress toward completion are revised if circumstances change. Any resulting increases or decreases in estimated revenues or costs are reflected in profit or loss in the period in which the circumstances that give rise to the revision become known by management.</p> <p>The determination of estimated contract revenue, total contract costs and costs to complete require significant judgment which may impact on amounts of the construction contract revenue and profits recognised during the year, including the provision for onerous contracts.</p> <p>We have therefore, identified this as a key audit matter.</p>	<p>Our procedures included, amongst others:</p> <ul style="list-style-type: none"> • We performed procedures to understand the projects through discussions with management and examination of key project documents including contracts and correspondence with customers on delays and extension of time. We evaluated the relevant key controls put in place by the management over the construction contract revenue and costs recognition on construction contracts. • In relation to the contract revenue for projects, on a sample basis, we have: <ul style="list-style-type: none"> ○ Traced the contract sums to the contracts and variation orders entered into by the Group and its customers. ○ Challenged the appropriateness of the Group’s judgment on the variations and claims included in the computation of the construction contract revenue via scrutiny of relevant customer correspondence and inspecting key clauses in the contracts and variation orders. ○ Reviewed minutes of operational & executive meetings, held discussions with senior operational and financial management, as well as the Group’s legal advisors where appropriate, to evaluate management’s assessment that it is highly probable that a significant reversal in the amount of cumulative revenue recognised will not occur when the uncertainty associated with the variable consideration is subsequently removed. ○ Assessed the adequacy of the provision for onerous contracts based on our understanding of the projects. This includes reviewing management’s assessment of provision for onerous contracts by focusing on projects with low or negative margins. We have also held discussions with senior operational and financial management, where appropriate, on these projects. • In relation to total contract costs, on a sample basis, we have: <ul style="list-style-type: none"> ○ Tested costs incurred to date and agreed these to supporting documentation. ○ Conducted a walkthrough of the Group’s process for preparing project cost forecasts.

Key audit matter	How the matter was addressed in our audit
	<ul style="list-style-type: none"> ○ Performed analytical procedures comparing forecast costs to date with original budget costs to evaluate the accuracy of the management's estimation process. ○ Evaluate the appropriateness of inputs, amongst others, materials, subcontractor and labour costs used by the management in their estimation of the total cost to complete the contract or project, and obtain supporting documentation on the major inputs. ○ We examined key project documentation and discussed the progress of the significant projects with the Group's key project personnel and management for significant events that could impact the estimated total contract costs and stage of completion. <ul style="list-style-type: none"> ● We have recomputed the percentage of completion based on actual cumulative contract costs incurred to date to the total estimated contract costs for individually significant projects. ● We have checked the arithmetic accuracy of the revenue and profit recognised based on the percentage of completion computation for individually significant projects and traced the revenue for the current year based on the measurement of progress to the accounting records. ● We have also assessed the adequacy of the disclosures of key accounting estimates and the sensitivity of the inputs to the estimates and found the disclosures in the financial statements to be appropriate. <p>Our audit findings</p> <p>We are satisfied that the judgments applied by management in accounting for construction contracts are reasonable.</p>
Recoverability of trade and other receivables and contract assets	
<p>We refer to Note 4(a)(i) under "Critical Accounting Estimates and Judgments", Note 5(b), Note 12 and Note 33(a) to the financial statements.</p> <p>The carrying amount of trade and other receivables and contract assets of the Group was A\$52.3 million and A\$155.0 million as at 30 June 2025 respectively. We focused on this area because of its significance and the degree of judgement</p>	<p>Our procedures included, amongst others:</p> <ul style="list-style-type: none"> ● We obtained an understanding of the Group credit policy and evaluated the processes for identifying impairment indicators. ● We reviewed and tested the ageing of trade and other receivables. ● We reviewed management's assessment on the credit worthiness of selected customers.

Key audit matter	How the matter was addressed in our audit
<p>required in determining the carrying amount of trade and other receivables and contract assets as at the reporting date.</p> <p>In accordance with AASB / SFRS(I) 9 <i>Financial Instruments</i>, the Group assesses periodically and at each financial year end, the expected credit loss associated with its receivables. When there is expected credit loss impairment, the amount and timing of future cash flows are estimated based on historical, current and forward-looking loss experience for assets with similar credit risk characteristics.</p>	<ul style="list-style-type: none"> • We assessed current ongoing negotiations and settlements of significant contracts subject to modifications, to identify if the collectability of contract consideration is highly probable. • We discussed with the key management on the adequacy of the allowance for impairment recorded by the Group and reviewed the supporting documents provided by management in relation to their assessment. <p>Our audit findings</p> <p>Based on our audit procedures, we found management's assessment of the recoverability of trade and other receivables and contract assets to be reasonable and the disclosures to be appropriate.</p>
Valuation of property, plant and equipment and investment properties	
<p>We refer to Note 4(a)(vi) under "Critical Accounting Estimates and Judgments", Note 6, Note 15, Note 16 and Note 27 to the financial statements.</p> <p>The carrying amount of property, plant and equipment and investment properties of the Group was A\$568.2 million and A\$19.7 million respectively as at 30 June 2025, of which the fair value of the freehold land and buildings and investment properties had been assessed as having a fair value of A\$460.6 million and A\$17.1 million respectively.</p> <p>The valuation of property, plant and equipment and investment properties is significant to our audit due to the use of various valuation techniques which involve significant judgments and critical estimates.</p> <p>The key assumptions used in the fair valuation are also disclosed in Note 15 and Note 16 to the financial statements.</p> <p>Management relied on independent external valuations for the fair valuation of its freehold land and buildings and investment properties.</p>	<p>Our procedures included, amongst others:</p> <ul style="list-style-type: none"> • We assessed the competence, capabilities and independence of the professional valuer engaged by the Group. • We discussed and considered the reasonableness of the valuation methodologies used, as well as reviewed the key assumptions and inputs used by the professional valuer in determining the valuation of each property. • We assessed the reasonableness of the market value of properties by benchmarking them against those of comparable properties when there is comparative market sales evidence. • We evaluated the reasonableness of the key data and assumptions used in the Depreciated Replacement Cost approach by the valuer when there is no comparable market sales evidence. • We also assessed the appropriateness of the disclosures relating to the valuation techniques and key inputs applied by the professional valuer. <p>Our audit findings</p> <p>The external valuer is a member of a recognised body for professional valuers. We found that the valuation methodologies used to be appropriate and the key assumptions used were within the range of market data.</p>

Other information

The directors are responsible for the other information. The other information comprises the information included in the Group's annual report for the year ended 30 June 2025 but does not include the financial report and our auditor's report thereon.

Our opinion on the financial report does not cover the other information and accordingly we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Directors for the Financial Report

The directors of the Company are responsible for the preparation of:

- a) the financial report (other than the consolidated entity disclosure statement) that gives a true and fair view in accordance with Australian Accounting Standards, SFRS(I) and the *Corporations Act 2001*;
- b) the consolidated entity disclosure statement that is true and correct in accordance with the *Corporations Act 2001*, and
- c) for such internal control as the directors determine is necessary to enable the preparation of:
 - i. the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error; and
 - ii. the consolidated entity disclosure statement that is true and correct and is free of misstatement, whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with the AASs and SSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

A further description of our responsibilities for the audit of the financial report in accordance with AASs is located on the Auditing and Assurance Standards Board website at:

https://www.auasb.gov.au/admin/file/content102/c3/ar1_2020.pdf. This description forms part of our auditor's report.

As part of an audit in accordance with SSAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Plan and perform the group audit to obtain sufficient appropriate audit evidence regarding the financial information of the entities or business units within the Group as a basis for forming an opinion on the consolidated financial statements. We are responsible for the direction, supervision and review of the audit work performed for purposes of the group audit. We remain solely responsible for our audit opinion.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the directors, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on the Remuneration Report

Opinion on the Remuneration Report

We have audited the Remuneration Report as included within the directors' report for the year ended 30 June 2025.

In our opinion, the Remuneration Report of Civmec Limited for the year ended 30 June 2025 complies with section 300A of the *Corporations Act 2001*.

Responsibilities

The directors of the Company are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the *Corporations Act 2001*. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with AASs and SSAs.
