GOLDEN HORSE MINERALS LIMITED
NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS
FOR THE HALF YEAR ENDED JUNE 30, 2025
(Expressed in Australian Dollars)

1. NATURE AND CONTINUANCE OF OPERATIONS

Golden Horse Minerals Limited (“**Company**”), a corporation incorporated and existing under the laws of British Columbia, Canada, is a mineral exploration company listed on the Australian Securities Exchange (“**ASX**”) under the symbol “GHM” (listed on December 16, 2024). The Company is engaged in the acquisition and exploration of mineral projects in Western Australia.

The Company’s head office and registered and records office address is 1700-666 Burrard Street, Vancouver, British Columbia, Canada V6C 2X8. The Company maintains an office in Australia located at 34 Colin Street, West Perth, Western Australia, Australia, 6005.

2. BASIS OF PRESENTATION

Statement of compliance

These interim consolidated financial statements, including comparatives, have been prepared in accordance with International Financial Reporting Standards (“**IFRS**”) and International Accounting Standards as issued by the International Accounting Standards Board (“**IASB**”) an Interpretations (collectively, “**IFRS Accounting Standards**”). They have been prepared on a historical cost basis, except for financial instruments classified as financial instruments at fair value through profit or loss, which are stated at their fair value. In addition, these consolidated financial statements have been prepared using the accrual basis of accounting, except for cash flow information. The significant accounting policies, as disclosed, have been applied consistently to all periods presented in these interim consolidated financial statements.

The accounting policies adopted in these interim consolidated financial statements are consistent with those of the previous financial year and corresponding interim period, except for those policies disclosed in Note 3.

The interim consolidated financial statements were authorized for issue by the Board of Directors on August 29, 2025.

3. MATERIAL ACCOUNTING POLICY INFORMATION

Principles of consolidation

These interim consolidated financial statements include the accounts of the Company and its wholly owned subsidiaries (“**Group**”). All intercompany transactions and balances have been eliminated upon consolidation. The Company’s subsidiaries are listed in the following table:

Name of Subsidiary	Country of Incorporation	Proportion of Ownership Interest	Principal Activity
Golden Horse Holdings Canada Limited	Canada	100%	Holding company
Golden Horse Minerals (Aust) Pty Ltd	Australia	100%	Project exploration
Broken Hill Metals Pty Ltd	Australia	100%	Project exploration
Golden Horse Minerals (Northern Territory) Pty Ltd	Australia	100%	Project exploration

Basis of measurement

The preparation of interim consolidated financial statements requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

3. MATERIAL ACCOUNTING POLICY INFORMATION (continued)

In preparing these interim consolidated financial statements, the significant judgements made by management in applying the Group’s accounting policies and the key sources of estimation uncertainty were the same as those that were applied to the consolidated financial report as at and for the year ended December 31, 2024.

New or amended Accounting Standards and Interpretations adopted

The consolidated entity has adopted all of the new or amended Accounting Standards and Interpretations issued by the IASB that are mandatory for the current reporting period.

Any new or amended Accounting Standards or Interpretations that are not yet mandatory have not been early adopted.

4. RESTATEMENT OF COMPARATIVES

Change in functional and presentation currency

On the basis that the Company is now listed on the ASX and the Company’s projects are located in Australia, resulting in major cash flows now being denominated in Australian Dollars, the Directors have elected to change the Group's presentation currency from Canadian dollars to Australian dollars from 1 January 2025.

The Directors believe that the change provides investors and other stakeholders with a clearer and more reliable understanding of the Group’s business performance as a whole and is more comparable to the Company’s peers, many of which are presented in Australian dollars. The change is accounted for retrospectively and as such comparative information has been restated in Australian dollars.

The financial report has been restated to Australian dollars using the procedures below:

<u>Foreign currency amount</u>	<u>Applicable exchange rate</u>
Income and expenses	Average rate prevailing for the relevant period
Assets and liabilities	Period-end rate
Equity	Equity historical rate ⁽¹⁾
Statement of cashflows	Average rate prevailing for the relevant period

(1) Opening balances were restated based on period-end rate.

The average rate used for the current period ended was CAD\$/A\$ 1:1.1188 (December 2024: 1:1.1074; June 2024 1:1.1184) and the period-end exchange rate used was CAD\$/A\$ 1:1.1166 (December 2024: 1:1.1217; December 2023: 1:1.1096).

Where necessary, comparative information has been reclassified to achieve consistency in disclosure with period-end amounts and other disclosures.

7. DEFERRED EXPLORATION AND EVALUATION COSTS (continued)

- a) On February 10, 2025, the Company announced that it has entered into an agreement for the acquisition of the Irene Betty lease (M77/1266) (**Acquisition Agreement**). The Company agreed to pay the vendor of Irene Betty (West Australian Prospectors Pty Ltd, an unrelated party to the Company) \$50,000 (payment made February 28, 2025) and issue 620,000 CHESS Depositary Interests ("**CDIs**") (underpinned by 620,000 common shares of the Company ("**Shares**")) to the vendor (or its nominees). On April 2, 2025, the Company issued 620,000 CDIs pursuant to the Acquisition Agreement. The CDIs are subject to voluntary escrow until 16 December 2025.
- In addition, the Company granted a 1.5% net smelter royalty to the vendor on the first 15,000 ounces of gold produced from Irene Betty.
- b) During the period, the Company relinquished certain exploration tenements. In accordance with the Company's accounting policy, the associated deferred exploration and evaluation costs relating to these tenements were written off to profit or loss in the period of relinquishment.

The Company has investigated title to all of its Western Australian exploration and evaluation assets and, to the best of its knowledge, title to all of its interests are in good standing. The exploration and evaluation assets in which the Company has committed to earn an interest are located in Western Australia.

- a) On June 11, 2025 pursuant to the Plan, the Company granted 2,252,070 performance rights redeemable for Shares to certain employees, officers and consultants of the Company. The performance rights vest in tranches over 12, 24 and 36 months from the date of grant (“**Vesting Date**”) and vest in tranches based on the price of the Company’s CDIs listed on the ASX over the term of the performance rights.

- Tranche 1: 20 day VWAP of Company Shares traded on ASX is greater than > \$0.375 at any time post Date of Grant and prior to March 31, 2028 (“**Performance Period**”);
- Tranche 2: 20 day VWAP of Company Shares traded on ASX is greater than > \$0.45 at any time post Date of Grant and prior to the Performance Period; and
- Tranche 3: 20 day VWAP of Company Shares traded on ASX is greater than > \$0.60 at any time post Date of Grant and prior to the Performance Period.

The performance rights expire in tranches 2 years following the Vesting Date.

The estimated fair value of the performance rights was determined using a hybrid up-and-in trinomial option pricing model with the following model inputs:

Tranche	Volatility	Risk Free Rate	Dividend Yield	Fair Value
1	90%	3.31%	0%	\$0.384
2	90%	3.31%	0%	\$0.370
3	90%	3.31%	0%	\$0.343

- b) On February 7, 2025, the Company issued 375,000 CDIs (underpinned by Shares) following redemption of performance rights previously issued to personnel of the Company as part of a long term incentive scheme as approved by the Board.

On June 10, 2025, the Company issued 118,750 CDIs (underpinned by Shares) following redemption of performance rights previously issued to personnel of the Company as part of a long term incentive scheme as approved by the Board.

Each performance right confers a right on the holder to receive a Share (or CDI) in the Company following achievement of vesting conditions and upon redemption.

- c) On June 10, 2025, 204,000 performance rights expired without having been redeemed.

12. COMMITMENTS AND CONTINGENCIES

Emerald

On October 11, 2024, the Company announced that it executed final long form agreements with ASX-listed Emerald Resources NL (ASX: EMR) (“**Emerald**”) and its subsidiary companies Emerald Resources (WA) Pty Ltd (“**Emerald WA**”) and Broken Hill Pty Ltd to acquire a strategic tenement package from Emerald WA (“**Tenements Acquisition**”) and to acquire Broken Hill (including the historic Hopes Hill and Greenmount mines) (“**Broken Hill Acquisition**”) (the Tenements Acquisition and Broken Hill Acquisition together, the “**Acquisition Agreements**”) in respect of the Tenements Acquisition and Broken Hill Acquisition. On December 5, 2024, the Group completed the Tenements Acquisition and Broken Hill Acquisition.

Under the Acquisition Agreements, the potential deferred consideration payable to Emerald at the election of the Company was as follows:

- \$1,000,000 in cash or \$1,000,000 of Shares to Emerald at a 30-day VWAP, at the time of releasing a JORC resource of 250,000 ounces of gold in respect of the Emerald Project within five years of closing;
- \$1,000,000 in cash or \$1,000,000 of Shares to Emerald at a 30-day VWAP, at the time of releasing a JORC resource of 500,000 ounces of gold in respect of the Emerald Project within five years of closing; and
- \$1,000,000 in cash or \$1,000,000 of Shares to Emerald at a 30-day VWAP, at the time of announcing a decision to mine in respect of the ground the subject of the Emerald Project within five years of closing.

At the acquisition date, the Directors assessed the likelihood of achieving a JORC resource as low and accordingly assigned a fair value of \$nil to the deferred consideration. As at 31 December 2024, the milestone had not been achieved, and the Group did not recognise any liability in respect of the deferred consideration.

The Directors now consider that the probability of meeting the 250,000 ounce and 500,000 ounce milestones has increased compared to the assessment at the acquisition date. While the timing and quantum of any payment remain uncertain, the Directors believe there is now a stronger likelihood that the deferred consideration will become payable. In accordance with AASB 137 Provisions, Contingent Liabilities and Contingent Assets, the obligation continues to be classified as a contingent liability as the conditions for recognition of a provision are not yet met.

12. COMMITMENTS AND CONTINGENCIES (continued)

Taxation – Canada

The Company recognizes that it has an ongoing obligation to comply with tax regulations in the jurisdictions in which it operates. The Group has identified that the Company and Golden Horse Holdings Canada Limited had not filed certain income tax and information returns with the Canada Revenue Agency (“CRA”) for taxation years 2010 to 2022. In June 2024, the Company and Golden Horse Holdings Canada Limited filed all outstanding income tax and information returns with the CRA for taxation years 2010 to 2023. Following filing, notices of corporate income tax assessment from the CRA have been received for the Company and for Golden Horse Holdings Canada Limited, with the returns assessed as filed with no taxes payable. In relation to the late filed information returns for taxation years 2010 to 2022, the Company is liable for penalties and interest under relevant income tax legislation. As at June 30, 2025, penalties and interest assessed by the CRA total approximately \$223,000 with the Company not expecting the CRA to issue any further assessments to the Company and Golden Horse Holdings Limited. The Company and Golden Horse Holdings submitted requests for relief from penalties and interest to CRA. The Company has received a response from the CRA denying its request for relief from penalties and interest. Golden Horse Holdings has not yet received a response from the CRA in relation to its request for relief from penalties and interest. The directors have provisioned \$247,879 in the consolidated financial statements for potential penalties and interest for non-compliance with tax filing obligations (refer to Note 9 for further information).

It is important to note that (i) there is a possible obligation depending on future events in relation to non-compliance with tax filing obligations, and (ii) the ultimate outcome cannot be reasonably or accurately estimated at this time as there is potential for additional penalties for non-compliance with tax filing obligations and the amount above is subject to change. The Company will work closely with its tax advisors to negotiate the amount of any potential penalties and interest with the CRA.

Given that the provision is based on a number of assumptions and advice received, the Company considers it appropriate to disclose this contingent liability. The ultimate outcome cannot be reasonably or accurately estimated at this time.

13. USE OF ESTIMATES

Critical Judgments

The preparation of the consolidated financial statements requires management to make judgments regarding the going concern of the Company as previously discussed in Note 1, as well as the determination of functional currency. The functional currency is the currency of the primary economic environment in which an entity operates and has been determined for each entity within the Company. The functional currency for the Company and its subsidiaries has been determined as disclosed above.

Key Sources of Estimation Uncertainty

Significant estimates made by management affecting our consolidated financial statements include:

Estimation of fair value of share-based payments

The Group measures the cost of equity-settled transactions by reference to the fair value of the equity instruments at the date at which they are granted. The fair value of options is determined using the Black-Scholes model taking into account the assumptions.

13. USE OF ESTIMATES (continued)

Economic recoverability and probability of future economic benefits of exploration and evaluation assets

Management has determined that exploration, evaluation, and related costs incurred which were capitalized may have future economic benefits and may be economically recoverable. Management uses several criteria in its assessments of economic recoverability and probability of future economic benefits including, geologic and other technical information, a history of conversion of mineral deposits with similar characteristics to its own properties to proven and probable mineral reserves, the quality and capacity of existing infrastructure facilities, evaluation of permitting and environmental issues and local support for the project.

14. SUBSEQUENT EVENTS

- On July 1, 2025, the Company announced that, via its wholly owned subsidiary, Golden Horse Minerals (Northern Territory) Pty Ltd (“**GHM NT**”), it has entered into an agreement with NT Minerals Limited (ASX:NTM) (“**NT Minerals**”) to acquire 100% of the shares in NT Mineral's wholly owned subsidiaries, Redbank Operations Pty Ltd and Mangrove Resources Pty Ltd (“**Subsidiaries**”), which together hold the assets comprising the Sorrel Copper Project (“**Sale Agreement**”) (“**Acquisition**”).

Under the Sale Agreement, GHM NT has agreed to acquire 100% of the fully paid ordinary shares in each of the Subsidiaries. As consideration, GHM NT has agreed:

- to pay NT Minerals \$1.0 million cash; and
- to procure that the Company issues to NT Minerals 4,633,920 CDIs in the Company, to be escrowed for 12 months from the date of issue.

The Sale Agreement is subject to the following conditions precedent (inter alia):

- NT Minerals shareholders approving the disposal pursuant to ASX Listing Rule 11.2 within 45 days of execution of the Sale Agreement;
- NT Minerals obtaining (where necessary) third party consents, approvals or termination of relevant third-party agreements; and
- the release of all security interests, other than permitted encumbrances, over any of the assets of the Subsidiaries.

Completion of the Acquisition is scheduled to occur 2 business days after the last of the conditions precedent has been satisfied or waived (or such other date as the parties agree). The Sale Agreement includes customary warranties and indemnities, and other terms and conditions considered standard for a transaction of this type.

- On June 2, 2025, the Company announced a placement of 37,500,000 Shares at an issue price of \$0.40 per Share to raise \$15.0 million (before costs). On June 10, 2025, the Company issued 17,200,000 Shares at an issue price of \$0.40 per Share. Following year end, on August 11, 2025, the Company issued an additional 20,300,000 Shares at an issue price of \$0.40 per Share, to complete the placement, following receipt of shareholder approval at a general meeting of shareholders held on July 31, 2025.

There were no other events after the reporting date requiring disclosure.

INDEPENDENT AUDITOR'S REVIEW REPORT

To the members of Golden Horse Minerals Limited

Report on the Half-Year Financial Report

Conclusion

We have reviewed the half-year financial report of Golden Horse Minerals Limited (the Company) and its subsidiaries (the Group) which comprises the consolidated statement of financial position as at 30 June 2025, the consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the half-year then ended, material accounting policy information and other explanatory information, and the directors' declaration.

Based on our review, which is not an audit, nothing has come to our attention that causes us to believe that the accompanying half-year financial report of the Group does not present fairly, in all material respects, the financial position of the Group as at 30 June 2025, and of its financial performance and its cash flows for the half-year ended on that date, in accordance with IAS 34 *Interim Financial Reporting*.

Basis for conclusion

We conducted our review in accordance with ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*. Our responsibilities are further described in the *Auditor's Responsibilities for the Review of the Financial Report* section of our report. We are independent of the Group in accordance with the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to the audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

Responsibility of management for the financial report

Management of the Group is responsible for the preparation and fair presentation of the half-year financial report in accordance with IAS 34 *Interim Financial Reporting* and for such internal control as the management determine is necessary to enable the preparation and fair presentation of the half-year financial report that is free from material misstatement, whether due to fraud or error.

Auditor's responsibility for the review of the financial report

Our responsibility is to express a conclusion on the half-year financial report based on our review. ASRE 2410 requires us to conclude whether anything has come to our attention that causes us to believe that the half-year financial report does not present fairly, in all material respects, the financial position of the Group as at 30 June 2025 and of its financial performance and its cash flows for the half-year ended on that date, accordance with IAS 34 *Interim Financial Reporting*.

A review of a financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
