CHAIRMAN'S LETTER

2 September 2025

Dear Shareholder

On behalf of the directors of archTIS Limited (the **Company**), I am pleased to invite you to participate in the fully underwritten retail component of a one for three pro rata accelerated non-renounceable entitlement offer of Shares at an issue price of \$0.15 per Share (**Offer Price**).

On 27 August 2025, the Company announced a capital raising to raise approximately \$20.5 million by way of:

- (a) a placement of Shares to existing and new institutional investors in Australia and certain foreign jurisdictions at the Offer Price to raise approximately \$3.5 million (**Placement**); and
- (b) a pro rata accelerated non-renounceable entitlement offer of one Share for every three Shares held at the Offer Price to raise approximately \$16,962,849 to institutional and sophisticated investors (**Institutional Entitlement Offer**) and to eligible retail Shareholders (**Retail Entitlement Offer**).

The proceeds of the Placement, the Institutional Entitlement Offer and the Retail Entitlement Offer (together, the **Offer**) will be used to fund the consideration payable in respect of the acquisition of the assets of Spirion LLC (**Spirion Acquisition**), employee incentive schemes, cross-sell opportunities & marketing, technology & project development, integration, working capital and costs of the Spirion Acquisition and the Offer.

Further information about the proposed use of the proceeds of the Offer is set out in the ASX Announcement and the Investor Presentation lodged with ASX on Wednesday, 27 August 2025. The ASX Announcement and the Investor Presentation are included in this Offer Document as Annexure A and Annexure B.

The Placement and Institutional Entitlement Offer were supported by new and existing institutional and sophisticated investors from Australia and overseas. In particular, the Institutional Entitlement Offer was supported by existing Institutional Shareholders, with take up by Eligible Institutional Shareholders of approximately \$5.2 million.

This offer document relates to the Retail Entitlement Offer (**Offer Document**). Under the Retail Entitlement Offer, Eligible Retail Shareholders are entitled to subscribe for one Share for every three Shares held at 5:00 pm (AEST) on Friday 29 August 2025 (**Record Date**), at the Offer Price of \$0.15 per Share. This is the same price that was offered to institutional investors who participated in the Placement and the Institutional Entitlement Offer.

The Offer Price represents:

- (a) a 18.9% discount to the Company's closing price of \$0.185 per Share on the ASX as at 25 August 2025; and
- (b) 25.2% discount to the Company's 7-day volume weighted average Share price of \$0.201 per Share as at 25 August 2025.

The Shares issued under the Entitlement Offer will be issued on a fully paid basis and will, from their date of issue, rank equally with existing Shares on issue.

Canaccord Genuity (Australia) Limited (ACN 075 071 466) (**Canaccord**) and Henslow Pty Ltd (ACN 605 393 137) (**Henslow**) are acting as joint lead managers to the Placement and joint lead managers and underwriters to the Entitlement Offer (**Underwriters**).

If you take up your full Entitlement, you may also apply for additional Shares in excess of your Entitlement at the Offer Price under the Retail Shortfall Facility up to a maximum of additional Shares representing another 100% of your Entitlement. The additional Shares to be issued under the Retail Shortfall Facility will only be available where there is a shortfall between applications received from Eligible Retail Shareholders and the number of Shares proposed to be issued under the Retail Entitlement Offer. The allocation of additional Shares under the Retail Shortfall Facility will occur in accordance with the allocation policy outlined in Section 2.5. The Company, in consultation with the Underwriters, reserves the right to scale back applications for Shares under the Retail Shortfall Facility at its absolute discretion.

Your Entitlements cannot be traded on ASX or any other exchange or privately transferred. If you do not take up some or all of your Entitlement, your rights will lapse, you will not receive any payment or value for those Entitlements and your percentage holding in the Company will be reduced.

The rights and liabilities attaching to the Shares are set out in the Company's constitution, available at www.asx.com.au or upon request by emailing the Company at info@archtis.com.

2.2 Underwriting

The Company and the Underwriters have entered into an Underwriting Agreement pursuant to which the Underwriters have agreed to lead manage and to fully underwrite the Entitlement Offer.

A summary of the key terms of the Underwriting Agreement is provided on slides 29 - 31 of the Investor Presentation.

The Underwriting Agreement contains certain customary:

- (a) conditions precedent that must be satisfied or waived before the Underwriters are obliged under the Underwriting Agreement to, among other things, underwrite the Entitlement Offer;
- (b) representations and warranties relating to the Entitlement Offer and the Company's operations, in favour of the Underwriters; and
- (c) undertakings in favour of the Underwriters including in relation to the conduct of the Entitlement Offer and the business of the Company.

The Underwriting Agreement is subject to generally customary termination events, with the key termination events summarised on slides 30 - 31 of the Investor Presentation.

The Underwriters will receive a fee of 5% (plus GST) of the gross proceeds of the Entitlement Offer.

The Underwriters will also be reimbursed by the Company for certain expenses incurred in relation to the Entitlement Offer. The Company has also agreed to indemnify the Underwriters and certain affiliated parties from any losses suffered by those parties in connection with the Entitlement Offer.

2.3 Who is eligible to participate in the Retail Entitlement Offer?

Under the Retail Entitlement Offer, Eligible Retail Shareholders are being offered the opportunity to subscribe for one Share for every three Shares held at the Record Date, at the Offer Price of \$0.15 per Share.

Eligible Retail Shareholders are those Shareholders who:

- (a) are registered as a holder of a Share as at 5:00 pm (AEST) on the Record Date;
- (b) have a registered address in Australia or New Zealand as recorded on the Company's share register at the Record Date;
- (c) are not in the United States and are not acting for the account or benefit of a person in the United States (to the extent they are holding Shares for the account or benefit of such person in the United States);
- (d) were not invited to participate in the Institutional Entitlement Offer (other than as a nominee or custodian, in each case in respect of other underlying holders) and were not treated as Excluded Institutional Shareholders under the Institutional Entitlement Offer; and
- (e) are eligible under all applicable securities laws to receive an offer under the Retail Entitlement Offer.

Determination of eligibility of investors for the purposes of the Entitlement Offer is determined by reference to a number of matters, including legal and regulatory requirements, logistical and registry constraints and the discretion of the Company and the Underwriters. To the maximum extent permitted by law or regulation, and only to that extent, each of the Company and the Underwriters disclaim any duty or liability (including for fault or negligence) in respect of that determination and the exercise or otherwise of that discretion.

2.4 What is your Entitlement?

If you are an Eligible Retail Shareholder, your Entitlement is set out in your personalised Entitlement and Acceptance Form and has been calculated as one Share for every three Shares held by you on the Record Date. If the result is not a whole number your Entitlement will be rounded down to the nearest whole number. If you have more than one registered holding of Shares, you will receive more than one personalised payment reference number and you will have separate Entitlements for each separate holding.

Any Shares not taken up by the Closing Date of the Retail Entitlement Offer may be acquired by those Eligible Retail Shareholders who took up their full Entitlement and applied for additional Shares under the Retail Shortfall Facility, or in turn the Underwriters and/or investors procured by the Underwriters.

2.5 Retail Shortfall Facility

Eligible Retail Shareholders (other than Directors and related parties of the Company) who take up all of their Entitlement may apply for additional Shares under the Retail Shortfall Facility. Additional Shares will only be allocated to Eligible Retail Shareholders under the Retail Shortfall Facility if available and then only if and to the extent that the Company (in conjunction with the Underwriters) determines based on the allocation policy outlined below.

The number of additional Shares under the Retail Shortfall Facility will be capped at an additional 100% of an Eligible Shareholder's Entitlement. Accordingly, the maximum number of Shares that may be issued to an Eligible Shareholder under the Entitlement Offer and the Retail Shortfall Facility will be a total of 200% of their Entitlement.

The allocation policy is that each Eligible Shareholder that:

- (a) takes up their Entitlement in full; and
- (b) subscribes for additional Shares under the Retail Shortfall Facility,

will be allocated a number of additional Shares that is the number of additional Shares subscribed for by that Eligible Shareholder. There will be a cap of 100% of an Eligible

Shareholder's Entitlement applied to applications under the Retail Shortfall Facility and allocations may be scaled-back pro rata if the Retail Shortfall Facility is oversubscribed.

If, following the allocation of additional Shares under the Retail Shortfall Facility there remains shortfall Shares which have not been allocated, the shortfall Shares will be issued to the Underwriters, or to investors procured by the Underwriters, in accordance with the terms of the Underwriting Agreement. Refer to Section 2.2 and slides 29 to 31 of the Investor Presentation for a summary of the material terms of the Underwriting Agreement.

Notwithstanding any of the above:

- (a) there is no guarantee that any application in the Retail Shortfall Facility will be successful and the Company, in consultation with the Underwriters, reserves the right to issue any shortfall by way of the Retail Shortfall Facility or by other means and reserves the right to satisfy applications in the Retail Shortfall Facility at its sole and absolute discretion, including by applying the pro rata scale back mechanism in Section 2.6;
- (b) the Retail Shortfall Facility has the same closing date as the Retail Entitlement Offer (being, Thursday, 11 September 2025);
- (c) the issue price of additional Shares under the Retail Shortfall Facility is the same as the Offer Price, being \$0.15 per Share; and
- (d) the Company will not issue Shares under the Retail Shortfall Facility where to do so would result in a breach of its Constitution, the Corporations Act or the ASX Listing Rules.

2.6 Scale-back

If there are oversubscription applications under the Retail Shortfall Facility, the Company (in conjunction with the Underwriters) reserves the right to scale back applications for additional Shares on a pro rata basis.

In the event of a scale-back, the difference between the Application Monies received, and the number of additional Shares allocated to you multiplied by the Offer Price will be refunded following allotment. No interest will be paid on any Application Monies received and returned.

2.7 Ineligible Shareholders

This Offer Document does not, and is not intended to, constitute an offer in any place or jurisdiction in which, or to any person to whom, it would not be lawful to make such an offer or to issue this Offer Document.

All Shareholders who do not satisfy the criteria to be Eligible Retail Shareholders or Eligible Institutional Shareholders, are Ineligible Shareholders. Ineligible Shareholders are not entitled to participate in the Entitlement Offer, unless the Company otherwise determines.

The restrictions upon eligibility to participate in the Entitlement Offer arise because the Company has determined, pursuant to ASX Listing Rule 7.7.1 (a) and section 9A(3)(a) of the Corporations Act, that it would be unreasonable to extend the Entitlement Offer to Ineligible Shareholders having regard to the number of overseas Shareholders, the number and value of Shares these Shareholders would be offered and the cost of complying with regulatory requirements in each relevant jurisdiction.

3.2 Payment options

3.2.1 By BPAY®

For payment by BPAY®, please follow the instructions on the Entitlement and Acceptance Form. You can only make a payment via BPAY® if you are the holder of an account with an Australian financial institution that supports BPAY® transactions. Please note that should you choose to pay by BPAY®:

- (a) you do not need to submit the Entitlement and Acceptance Form but are taken to have made the declarations on that Entitlement and Acceptance Form and the statements set out in Section 3.3;
- (b) if you do not pay for your Entitlement in full, you are deemed to have taken up your Entitlement in respect of such whole number of Shares which is covered in full by your Application Monies; and
- (c) if you pay more than is required to subscribe for your Entitlement, you will be taken to have applied for additional Shares (if any) under the Retail Shortfall Facility, to the extent of the excess.

You should be aware that your own financial institution may implement earlier cut-off times with regard to electronic payment, and you should therefore take this into consideration when making payment. **It is your responsibility to ensure that funds submitted through BPAY® are received by 5:00pm (AEST) on the Closing Date. The Company shall not be responsible for any delay in the receipt of the BPAY® payment.**

If you have more than one shareholding of Shares and consequently receive more than one Entitlement and Acceptance Form, when taking up your Entitlement in respect of one of those Shareholdings only use the CRN specific to that Shareholding as set out in the applicable Entitlement and Acceptance Form. **Do not use the same CRN for more than one of your Shareholdings.** This can result in your Application Monies being applied to your Entitlement in respect of only one of your Shareholdings (with the result that any Application in respect of your remaining Shareholdings will not be valid).

3.2.2 By Electronic Funds Transfer (overseas applicants)

For payment by Electronic Funds Transfer (**EFT**) for overseas Eligible Shareholders, please follow the instructions on the Entitlement and Acceptance Form. You can only make a payment via EFT if you are the holder of an account that supports EFT transactions to an Australian bank account. Please note that should you choose to pay by EFT:

- (a) you do not need to submit the Entitlement and Acceptance Form but are taken to have made the declarations on that Entitlement and Acceptance Form and the statements set out in Section 3.3;
- (b) if you do not pay for your Entitlement in full, you are deemed to have taken up your Entitlement in respect of such whole number of Shares which is covered in full by your Application Monies; and
- (c) if you pay more than is required to subscribe for your Entitlement, you will be taken to have applied for additional Shares (if any) under the Retail Shortfall Facility, to the extent of the excess.

3.3 Payment and application is binding

Making payment through BPAY® or EFT constitutes a binding offer to acquire Shares under the Entitlement Offer and additional Shares under the Retail Shortfall Facility (if applied for) on the terms and subject to the conditions set out in this Offer Document and, once lodged, cannot be withdrawn. The Entitlement and Acceptance Form does not need to be signed to be binding.

The Company's decision whether to treat an application as valid and how to construe, amend, complete or submit the application is final.

By making a payment through BPAY® or EFT you, on your behalf and on behalf of and in relation to any person on whose account or for whose benefit you are acting:

- (a) have received a copy of this Offer Document and the accompanying Entitlement and Acceptance Form, and read them both in their entirety;
- (b) acknowledge that once a BPAY® or EFT payment instruction is given in relation to any Application Monies, the application may not be varied or withdrawn except as required by law;
- (c) agree to apply for, and be issued with up to, the number of Shares for which you have submitted payment through BPAY® or EFT at the Offer Price and you authorise the Company to register you as the holder(s) of Shares allotted to you;

- (f) declare that all details and statements in the Entitlement and Acceptance Form are complete and accurate;

- (h) authorise the Company, the Underwriters, the Company's share registry and their respective officers or agents, to do anything on your behalf necessary for the Shares to be issued to you;
- (i) declare that you were the registered holder(s) at the Record Date of the Shares indicated on the personalised Entitlement and Acceptance Form as being held by you on the Record Date and that you are an Eligible Retail Shareholder and agree to provide (and direct your nominee or custodian to provide) any requested substantiation of your eligibility to participate in the Retail Entitlement Offer and of your holding of Shares on the Record Date;
- (j) acknowledge that the information contained in this Offer Document and the Entitlement and Acceptance Form is not investment advice nor a recommendation that Shares are suitable for you given your investment objectives, financial situation or particular needs, and is not a prospectus or product disclosure statement, does not contain all of the information that you may require in order to assess an investment in the Company and is given in the context of the Company's past and ongoing continuous disclosure announcements to ASX;
- (k) acknowledge that investments in the Company are subject to risk (including the key risks identified in slides 33 to 38 of the Investor Presentation);
- (l) acknowledge that none of the Company or the Underwriters or any of their respective directors, officers, employees, agents, consultants, their advisers, guarantees the performance of the Company, the performance of the Shares offered under the Entitlement Offer or the repayment of capital;

each of the Company and the Underwriters and their respective related bodies corporate and affiliates disclaim any duty or liability (including for negligence) in respect of that determination and the exercise of that discretion to the maximum extent permitted by law;

- (p) represent and warrant that the law of any other place does not prohibit you from being given this Offer Document and the Entitlement and Acceptance Form, nor does it prohibit you from making an application for Shares; and
- (q) will also be deemed to have acknowledged, represented and warranted on your behalf and on behalf of and in relation each person on whose account or for whose benefit you are acting that:
 - (i) you are an Eligible Retail Shareholder and are not in the United States and are not a person (including nominees or custodians) acting for the account or benefit of a person in the United States (or, in the event that you are acting for the account or benefit of a person in the United States, you are not participating in the Retail Entitlement Offer in respect of that person) and are not otherwise a person to whom it would be illegal to make an offer or issue Shares under the Retail Entitlement Offer;
 - (ii) you understand and acknowledge that the Shares have not been, and will not be, registered under the US Securities Act or the securities laws of any state or other jurisdiction in the United States. Accordingly, you understand that the Shares may not be offered or sold in the United States except in transactions exempt from, or not subject to, the registration requirements of the US Securities Act and applicable US state securities laws;

 - (v) you agree that if in the future you decide to sell or otherwise transfer the Shares, you will only do so in transactions on ASX where neither you nor any person acting on your behalf knows, or has reason to know, that the sale has been pre-arranged with, or that the purchaser is, a person in the United States; and
 - (vi) are eligible under applicable securities laws to exercise Entitlements and acquire Shares under the Retail Entitlement Offer.

3.4 Notice to nominees and custodians

The Retail Entitlement Offer is being made to all Eligible Retail Shareholders. Nominees with registered addresses in Australia or New Zealand, irrespective of whether they participate under the Institutional Entitlement Offer, may also be able to participate in the Retail Entitlement Offer in respect of some or all of the beneficiaries on whose behalf they hold Existing Shares, provided that the applicable beneficiary would satisfy the criteria for an Eligible Retail Shareholder.

Nominees and custodians should note in particular that the Retail Entitlement Offer is not available to:

- (a) beneficiaries on whose behalf they hold Shares who would not satisfy the criteria for an Eligible Retail Shareholder;
- (b) Eligible Institutional Shareholders who were invited to participate in the Institutional Entitlement Offer (whether they accepted their Entitlement or not);
- (c) Excluded Institutional Shareholders who were ineligible to participate in the Institutional Entitlement Offer; or

- (d) Shareholders who were not eligible under all applicable securities laws to receive an offer under the Retail Entitlement Offer.

In particular, persons acting as nominees or custodians for other persons may not take up Entitlements on behalf of, or send any documents relating to the Retail Entitlement Offer to, any person in the United States, or any person acting for the account or benefit of any person in the United States or any other jurisdiction outside Australia or New Zealand.

The Company is not required to determine whether or not any registered holder is acting as a nominee or custodian or the identity or residence of any beneficial owners of Shares. Where any holder is acting as a nominee or custodian for a foreign person, that holder, in dealing with its beneficiary, will need to assess, taking into account guidance deemed provided in this Offer Document, whether indirect participation by the beneficiary in the Retail Entitlement Offer is compatible with the terms of the Retail Entitlement Offer and all applicable foreign laws.

The Company and the Underwriters may in their absolute discretion refuse to accept an application to subscribe for Shares under the Retail Entitlement Offer if they believe that the nominee's underlying beneficial holders are not Eligible Retail Shareholders or have not complied with the terms and conditions set out in this Offer Booklet.

3.5 Withdrawal of the Entitlement Offer

The Company reserves the right to withdraw all or part of the Entitlement Offer and this Offer Document at any time, subject to applicable laws, in which case the Company will refund Application Monies in relation to Shares not already issued in accordance with the Corporations Act and without payment of interest. In circumstances where allotment under the Institutional Entitlement Offer has occurred, the Company may only be able to withdraw the Entitlement Offer with respect to Shares to be issued under the Retail Entitlement Offer.

To the fullest extent permitted by law, you agree that any Application Monies paid by you to the Company will not entitle you to receive any interest and that any interest earned in respect of Application Monies will belong to the Company.

4. EFFECT OF THE ENTITLEMENT OFFER

4.1 Capital Structure

The proposed capital structure of the Company following the issue of the Shares in connection with the Placement and Entitlement Offer will be as follows:

	SHARES	OPTIONS	PERFORMANCE RIGHTS	RESTRICTED STOCK UNITS
Securities currently on issue	339,256,987	22,898,316 ^{2,3}	23,613,671	4,031,778
Securities to be issued under the Placement	23,333,334	-	-	-
Securities to be issued under the Institutional Entitlement Offer	34,892,281	-	-	-
Securities to be issued under the Retail Entitlement Offer ¹	78,193,381	-	-	-
Total Securities on issue after completion of the Entitlement Offer and the Placement¹	475,675,983¹	22,898,316^{2,3}	23,613,671	4,031,778

Notes:

1. The final number of Shares to be issued under the Retail Entitlement Offer will be subject to Shareholder reconciliation and rounding of fractional entitlements. This table assumes that no Shares are issued including on exercise or conversion of other securities on issue prior to the Record Date.
2. Comprising
 - a. 3,337,102 unquoted Options (ASX: AR9AT) exercisable at \$0.20 on or before 23 December 2025;
 - b. 3,337,102 unquoted Options (ASX: AR9AT) exercisable at \$0.20 on or before 23 December 2025;
 - c. 8,642,851 unquoted Options (ASX:AR9AS) exercisable at \$0.20 on or before 23 December 2025;
 - d. 1,228,355 unquoted Options (ASX:AR9AU) exercisable at \$0.1428 on or before 6 March 2026;
 - e. 2,284,121 unquoted Options (ASX:AR9AW) exercisable at \$0.0792 on or before 21 December 2026;
 - f. 3,412,969 unquoted Options (ASX:AR9AX) exercisable at \$0.0972 on or before 22 November 2027; and
 - g. 2,992,918 unquoted Options (ASX:AR9AY) exercisable at \$0.0771 on or before 20 December 2028.
3. The exercise prices of the AR9AO and AR9AX Option classes will be readjusted as a result of the Entitlement Offer. Refer to the notices of meeting released on ASX on 25 October 2021 and 22 October 2024 for further information.

4.2 Effect on control of the Company

The potential effect that the Entitlement Offer will have on the control of the Company will depend on the take up of Entitlements by Eligible Shareholders.

If all Eligible Shareholders each subscribe for their full Entitlement, then each Eligible Shareholder's percentage ownership interest (and voting power) in the Company will remain the same, subject only to changes resulting from Ineligible Shareholders being unable to participate in the Entitlement Offer and any dilution as a result of the Placement, and there will be no significant effect on control of the Company. Eligible Shareholders who take up their Entitlement in full may apply for additional Shares under the Retail Shortfall Facility.

To the extent that an Eligible Shareholder does not take up its Entitlement, the proportionate shareholding interest of that Eligible Shareholder in the Company will be diluted. The proportionate Shareholding interest of the Ineligible Shareholders will be diluted as those Ineligible Shareholders are not entitled to participate in the Entitlement Offer.

You should note that if you do not participate in the Entitlement Offer, your holdings may be diluted by approximately 28.68% following the Entitlement Offer and the Placement. The following are examples of how any dilution may impact you if you do not participate in the Entitlement Offer, assuming the maximum number of Shares are issued under the Entitlement Offer and the Placement.

SHAREHOLDER	HOLDINGS AS AT RECORD DATE		ENTITLEMENT	HOLDINGS FOLLOWING COMPLETION OF THE OFFER IF ENTITLEMENT IS NOT TAKEN UP	
	SHARES	%		SHARES	%
Shareholder 1	33,925,699	10.00%	11,308,566	33,925,699	7.13%
Shareholder 2	1,166,667	5.00%	388,889	1,166,667	0.25%
Shareholder 3	872,307	2.50%	290,769	872,307	0.18%
Shareholder 4	781,934	1.00%	260,644	781,934	0.16%

4.3 Impact of Underwriting

The Underwriters are presently not Shareholders and are not related parties of the Company for the purposes of the Corporations Act. The present relevant interest of the Underwriters and changes under several scenarios are set out in the table below and are based on the assumption that the full number of Shares are issued under the Placement, that the Underwriter takes up its full entitlement of Shares under each scenario and that no Shares are placed under the Retail Shortfall Facility.

A summary of the potential changes to the voting power of each of the Underwriters following completion of the Offers are set out below:

	TOTAL SHARES ON ISSUE	CANACCORD		HENSLOW	
		SHARES	VOTING POWER	SHARES	VOTING POWER
Shortfall of 0%	475,675,983	0	0%	0	0%
Shortfall of 25%	475,675,983	9,774,173.00	2.05%	9,774,172.00	2.05%
Shortfall of 50%	475,675,983	19,548,346.00	4.11%	19,548,345.00	4.11%
Shortfall of 75%	475,675,983	29,322,518.00	6.16%	29,322,518.00	6.16%
Shortfall of 100%	475,675,983	39,096,691.00	8.22%	39,096,690.00	8.22%

The Company, in consultation with the Underwriters, will ensure that the Entitlement Offer (including the equitable dispersion of any additional Shares under the Retail Shortfall Facility) complies with the provisions of Chapter 6 of the *Corporations Act 2001* (Cth) and is otherwise consistent with the policy guidelines contained in ASIC Regulatory Guide 6 and Takeovers Panel Guidance Note 17.

Funding Overview

To fund the Acquisition and associated growth initiatives, archTIS will undertake an equity capital raising of approximately A\$20.5M, comprising:

- (a) a placement of approximately 23,333,334 Shares to existing and new institutional investors in Australia and certain foreign jurisdictions to raise approximately \$3.5 million (**Placement**); and
- (b) a fully underwritten, pro rata accelerated non-renounceable entitlement offer of one Share for every three Shares held to raise approximately \$16,962,849 to institutional and sophisticated investors (**Institutional Entitlement Offer**) and to eligible retail shareholders (**Retail Entitlement Offer**).

* Calculated based on an AUD/USD exchange rate of 1.55.

27 August 2025

Shares issued under the Placement, Institutional Entitlement Offer and Retail Entitlement Offer (together, the **Offer**) will be issued at a fixed price of A\$0.15 per Share (**Offer Price**). The proceeds of the Offer will be allocated towards the Acquisition consideration, employee retention and incentive schemes, cross-sell opportunities and marketing, technology and product development, integration costs, working capital requirements, and costs of the Acquisition and Offer.

- (a) a 18.9% discount to the Company's closing price of A\$0.185 per Share on the ASX as at 25 August 2025; and
- (b) 25.2% discount to the 7-Day VWAP of A\$0.201 per Share as at 25 August 2025.

The terms of the Underwriting Agreement (including the fees payable to the Underwriters, conditions precedent and termination events) are summarised in the Investor Presentation released on 27 August 2025.

Placement Overview

The Company has received firm commitments from sophisticated and professional investors for the entirety of the Placement.

The Shares to be issued under the Placement will be issued out of the Company's existing placement capacity under Listing Rule 7.1, which has been upsized by a 'supersize' placement waiver granted by ASX. The waiver will enable the Company to calculate the number of Shares which it may issue without Shareholder approval under the Placement by reference to the number of Shares on issue immediately after settlement of both the Institutional Entitlement Offer and Retail Entitlement Offer (together, the **Entitlement Offer**) (but excluding, for the avoidance of doubt, any Shares to be issued under the Placement). The Company sought this waiver to enable the Company to draw on the future placement capacity under Listing Rule 7.1 that will be created by the Entitlement Offer, to complete the Placement.

Entitlement Offer Overview

Under the Entitlement Offer, eligible shareholders will be able to subscribe for one Share for every three existing Shares held as at 5:00pm (AEST) on Friday, 29 August 2025 (**Record Date**). Approximately 113 million New Shares will be issued under the Entitlement Offer.

Commentary

- **Revenue:** Strategic shift away from 3rd party licence and indirect services revenue. Focus on core archTIS licenses and supporting services
- **Gross Margin:** Increase (up to 76%) is directly attributable to the focus on high-margin core licence sales and more selective, margin-accretive service engagements
- **Operating Expenses:** Underlying operating expenses (excluding Share-Based Payments), reduced by 13%, highlighting strong cost discipline
- **R&D:** Continued investment in ongoing research and development resulted in recognizing \$1.6m of tax incentives during the period. Down on pcip due introduction of our international development team not eligible for R&D in Australia
- **EBITDA:** Loss of \$0.8m driven by overall drop in revenue. EBITDA loss managed due to focus on higher margin licensing revenues and disciplined cost control

- **(Disruption in financial markets)** any of the following occurs: (i) a general moratorium on commercial banking in Australia, New Zealand, US, UK, Germany, Japan, Singapore, or China/Hong Kong) is declared by the central banking authority in any of those countries, or there is a material disruption in commercial banking or security settlement or clearance services in any of those countries (ii) trading in certain major stock exchanges is suspended or materially limited, or (iii) any other adverse change or disruption in financial, political, economic conditions, currency exchange rates, or financial markets occurs in those specified jurisdictions or any change or development involving a prospective adverse change in any of those conditions or jurisdictions;
- **(Hostilities)** major hostilities not existing at the Underwriting Agreement date commence, or existing hostilities escalate, involving any specified jurisdiction, Iran, Israel, Russia, or Ukraine; or a national emergency is declared in those countries, or a major terrorist act occurs anywhere in the world; or
- **(Prescribed Occurrence)** a prescribed occurrence in respect of the Company occurs during the Offer period, except as contemplated by the Underwriting Agreement or the Offer, described in the ASX release in relation to the Offer or public information lodged with ASX before the date of the Underwriting Agreement, resulting from the issue of securities on exercise/conversion of existing securities, under an existing employee incentive scheme (including buybacks) or under a distribution reinvestment plan, or as permitted in writing by the Underwriters.

Other Terms

As is customary with underwriting arrangements, the Company has provided (a) standard indemnities in favour of the Underwriters for losses or claims arising in connection with the Offer, the Information Documents or the Underwriting Agreement itself. This covers matters including misstatements or omissions in the documents, breaches of law or obligations, misleading representations, preparation and distribution of documents, conduct of the Offer, publicity, regulatory investigations, and the accuracy of information provided during due diligence. Exclusions apply for sub-underwriting fees, co-manager fees and broker fees that are payable by the Underwriters or losses incurred as a result of being required to pay any application monies back and (b) a full range of warranties and representations to the Underwriters, including about the Offer and its compliance with applicable laws.

Subject to the certain customary 'permitted exceptions' the Underwriting Agreement generally restricts the Company, without the Underwriters' consent, from issuing equity securities for 120 days after the last of the Shares are issued under the Offer. The 'permitted exceptions' include the issuing of Shares issued upon the conversion of convertible securities, issues and pursuant to an employee incentive scheme.

Key Risks & International Offer Restrictions

Key Risks – Spirion Acquisition

RISK CATEGORY	RISK
Completion Risk	The acquisition of the assets of Spirion LLC (Spirion) (Spirion Acquisition) is expected to be completed by 30 September 2025, however, there is a risk that the Spirion Acquisition may not complete due to a failure to satisfy customary conditions precedent in the acquisition agreement. Any delay in or failure to complete the Spirion Acquisition may affect the Company's operating and financial performance.
Integration risk	There is a risk that the integration of the assets of Spirion (in particular, the integration of employees and information technology systems) may be more complex than currently anticipated. The Company could also encounter unexpected costs, challenges or issues or the integration could take longer than expected, divert management's attention from other areas of the business or not achieve expected financial performance (including unrealised synergies). This may affect the Company's operating and financial performance.
Due diligence risk	The Company undertook a due diligence process in respect of the Spirion Acquisition, which relied in part on the review of financial and other information provided by the vendors. If any of the data or information provided to and relied upon by the company proves to be incomplete, incorrect, inaccurate or misleading, there is a risk that the actual financial position and performance of the Company (including the Spirion business) may be materially different to the financial position and performance expected. There is a risk that due diligence conducted has not identified issues that would have been material to the decision to enter into the Spirion Acquisition. A material adverse issue which was not identified prior to completion of the Spirion Acquisition could have an adverse impact on the financial performance or operations of the Company. As is usual in the conduct of acquisitions, the due diligence process undertaken by the Company identified a number of risks associated with the Spirion Acquisition, which the Company had to evaluate and manage. The mechanisms used by the Company to manage these risks included in certain circumstances the acceptance of the risk as tolerable on commercial grounds such as materiality. There is a risk that the approach taken by the Company may be insufficient to mitigate the risk, or that the materiality of these risks may have been underestimated, and hence they may have a material adverse impact on the Company's earnings and financial position.

Key Risks – Company Specific

RISK CATEGORY	RISK
Potential for dilution	<p>The potential effect that the Entitlement Offer will have on the control of the Company will depend on the take up by eligible Shareholders of their entitlement under the Entitlement Offer.</p> <p>If all eligible Shareholders each subscribe for their full entitlement, then each eligible Shareholder's percentage ownership interest (and voting power) in the Company will remain the same, subject only to changes resulting from ineligible Shareholders being unable to participate in the Entitlement Offer and dilution as a result of the Placement, and there will be no effect on control of the Company.</p> <p>To the extent that an eligible Shareholder does not take up its entitlement, the proportionate shareholding interest of that eligible Shareholder in the Company will be diluted. The proportionate shareholding interest of the ineligible Shareholders will be diluted because those Ineligible Shareholders are not entitled to participate in the Entitlement Offer.</p> <p>It is not possible to predict what the value of the Company or a Share in the Company will be following the completion of the Entitlement Offer being implemented and the Directors do not make any representation as to such matters.</p>
Technology and competition risks	<p>Technology markets, by their very nature, are a continually evolving marketplace. To succeed, the Company will need to research, develop, design, build and bring to market new enhancements to its existing products as well as to new markets that might not yet exist. The Company may not be able to engage in research or develop its existing (and new) products to meet the changing needs of its markets and the new and emerging technologies. At the same time, products and technologies developed by others may render the Company's products and systems obsolete or non-competitive. If any of these scenarios were to occur, it would adversely impact the operating results and potential of the Company.</p>
Ability to attract and retain appropriately skilled employees	<p>The responsibility of overseeing the day-to-day operations and the strategic management of the Company depends substantially on its senior management and key personnel. Company performance also depends on its ability to attract and retain skilled resources with relevant industry and technical expertise. The loss of several key personnel or the inability to attract additional resources may have an adverse impact on the financial and operating performance of the Company.</p>
Customer Concentration and Revenue Risk	<p>The Company's revenue base is currently concentrated among a limited number of key customers, particularly the Australian Department of Defence (DoD) and the U.S. DoD. While these relationships underpin Annual Recurring Revenue of approximately \$4.8 million, this reliance presents a material risk should budget priorities, procurement schedules, or policy directions shift in these markets.</p> <p>The Company's ability to maintain operations and achieve future growth depends on securing additional profitable contracts—both from existing defence customers and new markets. To mitigate this concentration risk, the Group is actively pursuing diversification through a broad pipeline of expanding existing Defence relationships as well as other commercial and international opportunities across adjacent sectors.</p> <p>However, the timing and conversion of these opportunities into binding contracts are inherently uncertain and may be delayed, cancelled, or reprioritised due to external factors. The Group manages this risk by:</p> <ul style="list-style-type: none"> (a) setting clear annual performance targets for new business secured and revenue delivered; (b) tying management incentives to commercial outcomes; (c) pursuing varied geographies, customer types, and contract structures; and (d) securing contract terms that help offset risks tied to platform availability. <p>Despite these efforts, there is no certainty the Group will succeed in securing sufficient new business or fully offsetting the risks associated with customer concentration and delivery dependencies.</p>
Cyber and security risks	<p>A cyber-attack has the potential to disrupt the Company's information technology platform which is integral to the efficient operation of its business. The threat of cyber-attacks on security companies is real. A successful cyber-attack on the Company would cause significant damage to the Company's reputation and brand as well as have a material adverse impact on the financial position and performance of the Company.</p>
Changes to Federal Government R&D Incentive arrangements	<p>The Company has historically been eligible to receive research and development (R&D) tax incentives under the Australian Government's R&D Tax Incentive program. There is a risk that future changes to the program, or to the Company's eligibility, may reduce or eliminate the availability of such incentives. Loss of access to these incentives could increase the Company's effective costs of research and development, impact projected budgets, and adversely affect the timing and scope of the Company's development activities.</p>
Uncertainty of future profitability	<p>The success of the Company's sales and operations relies on the ability to attract more commercial users of the relevant technology and its products. An inability to attract new clients and users in a timely manner will affect the Company's earning ability. While the Company has been successful in attracting clients in the government sector in Australia, this may not necessarily translate into successful utilisation in other verticals and countries. Furthermore, the Company's profitability will be impacted by its ability to successfully execute its commercialisation and growth strategies, economic conditions in the markets in which it operates, competitive factors and regulatory developments. Accordingly, the extent of any future profits is uncertain. Moreover, the level of profitability cannot be predicted.</p>

Key Risks – Company Specific

RISK CATEGORY	RISK
Geopolitical and international operating risks	<p>The Company is exposed to risks arising from geopolitical developments, including armed conflict, terrorism, and shifting diplomatic or security policies. These can influence global market stability, disrupt supply chains, and alter procurement timelines—particularly in the defence and national security sectors where the Company operates.</p> <p>As the Company engages across multiple jurisdictions, it is subject to increased exposure from political transitions, regulatory divergence, and trade measures such as tariffs or export controls. In 2024 and early 2025, signals from countries including the United States suggest a heightened risk of such measures, which may impact input costs and pricing competitiveness.</p> <p>Additional risks include challenges in enforcing intellectual property rights, inconsistent product regulations, and localised instability in customer markets. These factors may affect contract execution, customer payments, and overall market access.</p> <p>The Company mitigates these risks through ongoing monitoring of international developments, direct engagement with defence and government stakeholders, and proactive adjustment of commercial and operational strategies. Nonetheless, the Company acknowledges that not all impacts from geopolitical change can be fully mitigated.</p>
Future capital requirements	<p>The Company anticipates that it will raise enough capital under the Placement and Entitlement Offer to support its business objectives over the medium term. However, the Company's future capital requirements will depend on a variety of factors, including the level of income generated from operations, the timing and scale of product development and commercialisation, and other business and market conditions. While the Company intends to fund its planned activities from current cash reserves and operating income, unforeseen circumstances or opportunities may arise that require additional financing. There can be no assurance that the Company will be able to obtain such additional financing on favourable terms, or at all. If additional funds are not available when required, the Company's ability to execute its growth strategy could be delayed, which may have an adverse impact on its operations and prospects.</p>

Key Risks – Industry Specific

RISK CATEGORY	RISK
Commercial liability	The Company's products and services involve the handling and protection of sensitive information, including personal, confidential, and privacy-related data of government and commercial clients. The Company may be exposed to liability in the event of a technical failure, security vulnerability, cyberattack, or other compromise of such information. Any unauthorised access, loss, misuse or disclosure of client data could give rise to significant contractual claims, statutory liability under privacy and data protection laws, regulatory investigation, and reputational damage. Even where liability is limited by contract or law, the costs of responding to and remediating such incidents, as well as potential loss of client trust and business opportunities, could materially adversely affect the Company's financial performance and prospects.
Research and development	<p>The Company's existing and potential products are subject to ongoing research and development activities. There can be no assurance that these activities will achieve their intended outcomes, whether to enhance existing products, adapt them to new and emerging technologies, or complete the development of new products within the timeframes necessary to support the Company's growth and entry into new markets. Failure to successfully undertake and complete such research and development, accurately estimate costs and timeframes, or anticipate market and technical trends may adversely affect the Company's performance, financial results, and long-term viability.</p> <p>Even where research and development activities are completed successfully, there is no guarantee that new products will achieve adoption in target markets or that enhancements to existing products will generate increased sales. Incorrect pricing of products and services may further limit market applicability or adversely impact client perception of the Company's offerings. In addition, given the emerging nature of the Company's technology and client needs, the market and potential clients may not yet be in a position to fully understand, evaluate, or adopt the Company's solutions. This may expose the Company to reputational risks, including the possibility of negative influence from competitor claims or misinformation, which could adversely affect the Company's prospects.</p>
Intellectual property risk	<p>The Company's success depends, in part, on its ability to obtain and maintain patents, protect trade secrets and know-how, and operate without infringing the proprietary rights of others. The Company relies on a combination of patents, trade secret protections, and confidentiality agreements to safeguard its intellectual property.</p> <p>If the Company is unable to adequately protect its intellectual property, it may face competition from companies that attempt to develop generic versions of its products or create products substantially similar to the Company's offerings. Enforcement of intellectual property rights in foreign jurisdictions may be particularly challenging, as certain legal systems—particularly in developing countries—may not favour or effectively enforce patents and other proprietary rights. Pursuing legal action to enforce intellectual property rights internationally could be costly, time-consuming, and divert management's attention from other aspects of the business, which could adversely affect the Company's operations, competitive position, and financial performance.</p>
Sales and timing risks	<p>The secure content and collaboration market is still developing in response to emerging client needs. While demand for secure information-sharing solutions is increasing, the number of available offerings remains limited and many existing solutions rely on basic security that is not accredited to higher standards such as PROTECTED (the government equivalent of "commercial-in-confidence"), which is typically required by government agencies. Sales to government customers can involve long decision and procurement cycles. Although the Company's "per user per month" subscription model, funded from operational rather than capital budgets, is expected to reduce the length of government sales cycles, there can be no assurance given by the Company that this will occur.</p> <p>By contrast, in the commercial market, client decision cycles are generally shorter; however, there is a risk that demand in this segment may not grow as anticipated or may be subject to increased competition.</p>
Information technology risk	<p>The Company's technology projects are subject to risks relating to technologies, vendors, personnel, and the development and deployment of solutions. While the Company engages subject-matter experts and employs skilled personnel using standard security practices, there is no guarantee that delivery will meet client expectations or project deadlines. Solutions may become obsolete, unforeseen technical issues may arise, or platforms may be compromised, any of which could adversely affect the Company's reputation, operational performance, and financial results.</p> <p>In addition, clients may be dissatisfied with the Company's choice of technology platforms, including cloud infrastructure, or may consider that the Company's products and services do not fully meet their specific compliance requirements. Any such concerns could negatively impact client relationships, project profitability, and the Company's overall growth prospects.</p>

Key Risks – Industry Specific

RISK CATEGORY	RISK
Reliance on third party providers	<p>The Company relies on multiple third-party providers in the development and operation of its products, and its solutions are designed to operate across a range of external systems, platforms, and devices. The Company does not control these third-party developers, and changes to their platforms, systems, or devices could adversely affect the functionality or compatibility of the Company's products. Such changes may reduce customer adoption or usage of the Company's products, potentially impacting financial performance.</p> <p>In addition, reliance on these tools exposes the Company to risks beyond its control. While the Company implements industry-standard practices to mitigate such risks, third-party tools and software may be subject to cyberattacks, security vulnerabilities, or other failures. Any such incidents could compromise the functionality or security of the Company's products, result in the loss of customers, and have a material adverse effect on the Company's revenues, profitability, and reputation.</p> <p>Further, the Company's products require customers to access the internet and cellular networks. If third-party network providers were to increase costs, limit access, or otherwise restrict customer connectivity, the usability and adoption of the Company's products could be negatively affected, which may also adversely impact the Company's financial performance.</p>
Regulatory risk and compliance	<p>The Company's products and operations are subject to regulatory requirements in each jurisdiction in which it operates or plans to operate. Changes to laws or regulations, or adverse regulatory interpretations, may restrict the Company's ability to operate its products or conduct its business. The Company is required to comply with laws relating to privacy, taxation, consumer protection, and other applicable regulations. Non-compliance, failure to obtain or renew required approvals or accreditations, or the introduction of new regulatory requirements could result in fines, revocation of permits or licenses, reputational damage, increased compliance costs, or other adverse consequences. Any of these outcomes could materially impact the Company's business, competitive position, and financial performance.</p>

Key Risks – General

RISK CATEGORY	RISK
Economic conditions and other global or national issues	<p>General economic conditions, laws relating to taxation, new legislation, trade barriers, movements in interest and inflation rates, currency exchange controls and rates, national and international political circumstances (including outbreaks in international hostilities, wars, terrorist acts, sabotage, subversive activities, security operations, labour unrest, civil disorder, and states of emergency), natural disasters (including fires, earthquakes and floods), and quarantine restrictions, epidemics and pandemics, may have an adverse effect on the Company's operations and financial performance, including the Company's exploration, development and production activities, as well as on its ability to fund those activities.</p> <p>General economic conditions may also affect the value of the Company and its market valuation regardless of its actual performance.</p>
Market conditions	<p>Share market conditions may affect the value of the Company's quoted securities regardless of the Company's operating performance. Share market conditions are affected by many factors such as:</p> <ul style="list-style-type: none"> (a) general economic outlook; (b) introduction of tax reform or other new legislation; (c) interest rates and inflation rates; (d) changes in investor sentiment toward particular market sectors; (e) the demand for, and supply of, capital; and (f) terrorism or other hostilities. <p>The market price of securities can fall as well as rise and may be subject to varied and unpredictable influences on the market for equities. Neither the Company nor the Directors warrant the future performance of the Company or any return on an investment in the Company.</p>
Dividends	Any future determination as to the payment of dividends by the Company will be at the discretion of the Directors and will depend on the financial condition of the Company, future capital requirements and general business and other factors considered relevant by the Directors. No assurance in relation to the payment of dividends or franking credits attaching to dividends can be given by the Company.
Taxation	<p>The acquisition and disposal of Shares will have tax consequences, which will differ depending on the individual financial affairs of each investor. All prospective investors in the Company are urged to obtain independent financial advice about the consequences of acquiring Shares from a taxation viewpoint and generally.</p> <p>To the maximum extent permitted by law, the Company, its officers and each of their respective advisors accept no liability and responsibility with respect to the taxation consequences of subscribing for Shares.</p>
Global conflicts	<p>The current evolving conflict between Ukraine and Russia and Israel and Palestine (Ukraine and Gaza Conflicts) is impacting global economic markets. The nature and extent of the effect of the Ukraine and Gaza Conflicts on the performance of the Company remains unknown. The Company's Share price may be adversely affected in the short to medium term by the economic uncertainty caused by the Ukraine and Gaza Conflicts.</p> <p>The Company is monitoring the situation closely and considers the impact of the Ukraine and Gaza Conflicts on the Company's business and financial performance to, at this stage, be limited. However, the situation is continually evolving, and the consequences are therefore inevitably uncertain.</p>
US Tariffs	<p>The U.S. government has recently imposed and may continue to impose tariffs or other trade restrictions on imports from certain countries. A significant risk to the Company's economic outlook is the threat of the imposition of US tariffs, which could disrupt global trade, business and investment. While the scope and duration of potential trade conflicts remain highly uncertain, any broad-based tariff measures could lead to weaker GDP growth and higher inflation across the global economy.</p> <p>The Company will continually monitor US tariffs and assess how they will impact the Company's business and financial performance. The Company considers the impact, at this stage, to be limited. However, the implications and consequences of the US tariffs are uncertain and are beyond the control of the Company.</p>
Insurance	The Company seeks to maintain insurance coverage consistent with industry practice. However, there is no assurance that such coverage will be sufficient to cover all potential losses or liabilities. Increases in insurance costs, insufficient coverage, or losses exceeding policy limits could adversely affect the Company's operations, financial condition, and profitability.
Litigation	The Company is exposed to the risk of actual or threatened litigation or legal disputes in the form of customer claims, intellectual property claims, personal injury claims, employee claims and other litigation and disputes. If any claim was successfully pursued it may adversely impact the financial performance, financial position, cash flow and share price of the Company.
