Directors' report

The directors submit herewith the financial report of Kula Gold Limited ("Kula" or "the Company") and its subsidiaries ("the Group") for the half-year ended 30 June 2025. In order to comply with the provisions of the *Corporations Act 2001*, the directors report as follows:

Directors

The names of the directors of the Company during or since the end of the half-year are:

Mr Mark Stowell

Mr Ric Dawson

Mr Mark Bojanjac

The above-named directors held office during and since the end of the half-year.

Review of operations

The loss of the Group for the half-year ended 30 June 2025, after accounting for income tax, amounted to \$657,260 (30 June 2024: \$619,476).

During the half-year, the Company made significant progress across its portfolio of gold and critical mineral projects in Western Australia and Malawi. The Company's flagship Mt Palmer Gold Project continued to deliver high-grade gold results, while early-stage exploration at the Mustang Prospect and the newly acquired Wozi Niobium Project in Malawi expanded Kula's strategic footprint.

Mt Palmer Gold Mine – 80%

At the Mt Palmer Gold Mine, located near Southern Cross in Western Australia, Kula completed Stage 2 reverse circulation (RC) drilling, which returned multiple high-grade intercepts from shallow depths. Notable results included 3 metres at 35.9 grams per tonne (g/t) gold, including 1 metre at 83.6g/t, and 20 metres at 7.5g/t gold, including 6 metres at 23.8g/t. These results confirmed the presence of multiple north-south mineralised structures and reinforced the potential for low-cost open-pit development.

In addition to drilling success, the Company announced a maiden JORC 2012-compliant resource estimate for the historic tailings at Mt Palmer, comprising 98,534 tonnes at 0.63g/t gold for 1,996 ounces, with metallurgical testing indicating an average gold recovery of 86%. The tailings resource is located approximately 28 kilometres from the Marvel Loch processing facility, and Kula is evaluating potential processing options.

During the period, Kula also completed its earn-in expenditure obligations under the joint venture with Aurumin Limited (ASX: AUN), thereby securing an 80% interest in the Mt Palmer Gold Mine.

Marvel Loch Project – 100%

The Company continued discussions to advance development of the large Boomerang Kaolin Deposit of 93.3 million tonnes (indicated resource of 15.2Mt & inferred resource of 78.1Mt), near excellent infrastructure in Southern Cross Western Australia.

Engineering studies continued for downstream processing on site to produce metakaolin products for the Green Construction Industry. Mineralogical/metallurgical test work by Sedgman has been completed confirming the suitability of the raw material for green cement as well as many uses such as paint, rubber and pesticide production.

Discussions with potential acquirers and developers of the project continue with a view to monetising this asset.

Kirup Project – 70% (30% Sentinel Exploration Limited)

Exploration at the Mustang Gold Prospect, part of the Kirup Project in the South West region of Western Australia, continued to show promise. A maiden drill intercept of 2 metres at 2.3g/t gold was reported, supported by nearby rock chip assays of 4.3g/t and 4.8g/t gold.

Kula is actively seeking joint venture or divestment opportunities for the Kirup Project while continuing to refine its geological understanding through soil sampling, drone magnetics, and planned follow-up drilling.

Wozi Niobium Project – 100%

Internationally, Kula expanded into the critical minerals sector with the acquisition of the Wozi Niobium Project in southern Malawi. The exploration licence was formally granted by the Malawi Mining and Minerals Regulatory Authority during the period. Historical trenching at Wozi returned broad zones of niobium and tantalum mineralisation, including 145 metres at 0.55% Nb₂O₅ and 192 metres at 0.49% Nb₂O₅.

Kula has commenced fieldwork to validate these results, including mapping, soil sampling, and rock-chip collection, with a maiden drilling program scheduled for the December 2025 quarter.

Rankin Dome Project – 100% (ACM earning 51%)

The Company also announced its withdrawal from the Rankin Dome Joint Venture, allowing it to focus resources on higher-priority assets.

Kula continues to operate with a lean and disciplined exploration model, supported by government initiatives such as the Western Australian Exploration Incentive Scheme (EIS). The Board remains committed to unlocking shareholder value through targeted exploration, strategic partnerships, and responsible capital management.

Subsequent events

Subsequent to the half-year under review, the Company undertook the following activities:

- On 14 August 2025, the Company completed a placement to professional and sophisticated investors issuing 115,384,615 fully paid ordinary shares at an issue price of \$0.0065 to raise \$750,000 before costs.
- On 1 August 2025, 575,000 unlisted options exercisable at \$0.085 issued under the Employee Incentive Option Plan ('EIOP') expired.

Auditor's independence declaration

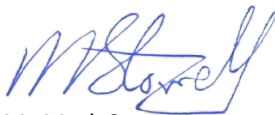

The auditor's independence declaration is included on page 4 of the half-year report.

Rounding off of amounts

The Company is a company of the kind referred to in *ASIC Corporations (Rounding in Financials/Directors' Reports) Instrument 2016/191*, dated 24 March 2016, and in accordance with that Corporations Instrument amounts in this directors' report are rounded off to the nearest dollar, unless otherwise indicated.

Signed in accordance with a resolution of directors made pursuant to s.306(3) of the *Corporations Act 2001*.

INDEPENDENT AUDITOR'S REVIEW REPORT

To the members of Kula Gold Limited

Report on the Half-Year Financial Report

Conclusion

We have reviewed the half-year financial report of Kula Gold Limited (the 'Company') and its subsidiaries ("the Group"), which comprises the condensed consolidated statement of financial position as at 30 June 2025, the condensed consolidated statement of profit or loss and other comprehensive income, the condensed consolidated statement of changes in equity and the condensed consolidated statement of cash flows for the half-year ended on that date, a summary of significant accounting policies and other explanatory information, and the directors' declaration.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the accompanying half-year financial report of Kula Gold Limited is not in accordance with the *Corporations Act 2001* including:

(a) giving a true and fair view of the Group's financial position as at 30 June 2025 and of its financial performance for the half-year ended on that date; and

(b) complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

Basis for Conclusion

We conducted our review in accordance with ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*. Our responsibilities are further described in the *Auditor's Responsibilities for the Review of the Financial Report* section of our report.

Material Uncertainty related to Going Concern

We draw attention to the note 1 to the financial statements, which describes that the Group has incurred losses and negative operating cash flows during the half-year and remains dependent on raising additional funding to continue operations. While directors believe the Group can continue as a going concern based on existing funding arrangements, the ability to secure future capital remains uncertain. Most exploration spending is discretionary and may be reduced if needed. However, if sufficient funding is not obtained, there is a material uncertainty that may cast significant doubt on the Group's ability to continue as a going concern.

Our opinion is not modified in respect of this matter.

Operational and Asset Valuation Risks

The Group faces operational risks related to exploration activities and regulatory approvals. Asset values depend on successful project development or sale, with potential impairment if funding or outcomes are not achieved.

Independence

We are independent of the Group in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001* which has been given to the directors of the Company, would be in the same terms if given to the directors as at the time of this auditor's review report.

Director's Responsibility for the Half-Year Financial Report

The directors of the Company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

Auditor's Responsibility for the Review of the Financial Report

Our responsibility is to express a conclusion on the half-year financial report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the Group's financial position as at 30 June 2025 and its financial performance for the half-year ended on that date, and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Directors' declaration

The directors declare that, in the directors' opinion:

- (a) the attached consolidated financial statements and notes are in accordance with the *Corporations Act 2001*, including:
 - (i) giving a true and fair view of the consolidated entity's financial position as at 30 June 2025 and its performance for the half-year ended on that date; and
 - (ii) complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*; and
- (b) there are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable.

Signed in accordance with a resolution of the directors made pursuant to s.303(5) of the *Corporations Act 2001*.

Notes to the consolidated financial statements

for the half-year ended 30 June 2025

1. General information

Statement of compliance

The half-year financial report is a general purpose financial report prepared in accordance with the *Corporations Act 2001* and AASB 134 *Interim Financial Reporting*. Compliance with AASB 134 ensures compliance with International Financial Reporting Standard IAS 34 *Interim Financial Reporting*. The half-year report does not include notes of the type normally included in an annual financial report and should be read in conjunction with the most recent annual financial report.

Basis of preparation

The condensed consolidated financial statements have been prepared on the basis of historical cost. Cost is based on the fair values of the consideration given in exchange for assets. All amounts are presented in Australian dollars, unless otherwise noted.

The accounting policies and methods of computation adopted in the presentation of the half-year financial report are consistent with those adopted and disclosed in the Company's 2024 annual financial report for the financial year ended 31 December 2024. The accounting policies are consistent with Australian Accounting Standards and with International Financial Reporting Standards.

Going concern

As disclosed in the condensed consolidated financial statements for the period ended 30 June 2025, the Group incurred a loss of \$657,260 (2024: \$619,476), had net cash outflows from operating activities of \$349,841 (2024: \$371,032), had cash outflows from investing activities of \$758,130 (2024: \$808,520) and had cash inflows from financing activities of \$1,123,289 (2024: \$1,541,757). At 30 June 2025, the Group had net assets of \$1,703,941 (31 December 2024: \$1,030,575), and cash and cash equivalents of \$54,632 (31 December 2024: \$39,314).

As such, the directors believe that there are reasonable grounds to believe that the Group will be able to continue as a going concern, after consideration of the following factors:

- On 14 August 2025, the Company completed a placement to professional and sophisticated investors issuing 115,384,615 fully paid ordinary shares at an issue price of \$0.0065 to raise \$750,000 before costs.
- On 22 March 2024, the Company entered into an At-the-Market Subscription Agreement ("ATM") with Acuity Capital. The ATM provides the Company with up to \$1,000,000 of standby equity capital over a period to 31 January 2029. As security for the ATM, the Company issued 24,000,000 fully paid ordinary shares to Acuity Capital at nil consideration.
- The current cash balance of the Company relative to its fixed and discretionary expenditure commitments.
- Given the Company's market capitalisation and the underlying prospects for the Company to raise further funds from the capital markets.
- The fact that future exploration and evaluation expenditure is generally discretionary in nature (i.e. at the discretion of the directors having regard to an assessment of the Group's eligible expenditure to date and the timing and quantum of its remaining earn-in expenditure requirements). Subject to meeting certain minimum expenditure commitments, further exploration activities may be slowed or suspended as part of the management of the Company's working capital.

1. General information (continued)

Accordingly, the directors believe that the Group will be able to continue as a going concern and that it is appropriate to adopt the going concern basis in the preparation of the condensed consolidated financial statements.

In the event that the Group is unsuccessful in the matters set out above in relation to obtaining future funds through capital markets, there is a material uncertainty whether the Group will continue as a going concern, and therefore whether it will realise its assets and discharge its liabilities in the normal course of business, and at the amounts stated in these financial statements.

The financial statements does not include any adjustments relating to the recoverability and classification of recorded assets or to the amounts and classification of liabilities that might be necessary should the Group not continue as a going concern.

2. Operating segments

The Group operates in two segments being mineral exploration in Western Australia and Malawi.

3. Dividends

No dividends were paid or declared for the half-year ended 30 June 2025 and the directors have not recommended the payment of a dividend.

10.4 Performance Rights

On 4 April 2023, following shareholder approval at a General Meeting held on 18 May 2023, the Company issued 2,000,000 performance rights to Sentinel Exploration Limited ("Sentinel") as deferred consideration for a 70% interest in the lithium and related minerals in the Kirup Project, tenement E70/5452.

On 28 June 2024, a variation agreement was executed to:

- include 70% of all gold, base metal and non-LCT mineral rights acquired for the reimbursement of costs of \$10,000 as a result of the new epithermal potential.
- The 2,000,000 performance rights that convert to fully paid ordinary shares in the capital of the Company were cancelled as a result of the current market and economic conditions of lithium and replaced with a 1% net smelter royalty.

As a result of the above variation made to the contingent consideration, being the cancellation of the 2,000,000 performance rights, the duty paid was reassessed and resulted in a refund of \$104,069 received in the prior period.

11. Commitments for expenditure

Exploration expenditure

The minimum annual exploration and evaluation expenditure to keep the Group's tenements in good standing is \$533,195 (2024: \$758,840).

12. Contingent liabilities and contingent assets

Other than the deferred consideration, being the performance rights referred above in note 10.4, there has been no significant change in contingent liabilities and/or contingent assets since the last annual report. Please refer to the 31 December 2024 annual financial report.

Mr Mark Stowell is a current director of both Sentinel Exploration and the Company and Mr Simon Adams is a current director of Sentinel Exploration and a previous director of the Company, resigning on 2 November 2022. As a result, this transaction was considered a related party transaction, and was approved by shareholders at a General Meeting held on 31 March 2023.

The consideration was as follows:

- \$200,000 for the reimbursement of exploration expenditure costs;
- Issued 12,000,000 fully paid ordinary shares at a deemed value of \$0.016 per share, subject to a 12-month escrow period from 4 April 2023; and
- A deferred consideration amount of \$2,000,000 payable in fully paid ordinary shares issued at the 10-day VWAP (commencing upon announcing the resource), with a minimum issue price of \$0.04 on completion of a JORC maiden inferred resource on the Kirup Project of a minimum of 10mt of ore at a grade of 1% lithium (or metal equivalent) or greater within 5 years of the lithium rights being acquired.

On 28 June 2024, a variation agreement was executed to:

- include 70% of all gold, base metal and non-LCT mineral rights acquired for the reimbursement of costs of \$10,000 as a result of the new epithermal potential.
- The 2,000,000 performance rights that convert to fully paid ordinary shares in the capital of the Company was cancelled as a result of the current market and economic conditions of lithium and replaced with a 1% net smelter royalty.

13. Related party transactions (continued)

As a result of the above variation made to the contingent consideration, being the cancellation of 2,000,000 performance rights, the duty paid was reassessed and resulted in a refund of \$104,069 received in the prior period.

During the financial period, Mr Ric Dawson (or his nominee) received director fees of \$3,000 (2024: \$3,000) and consulting fees of \$33,000, which included the issue of 1,425,000 fully paid ordinary shares at an issue price of \$0.005 per share via the non-renounceable pro rata entitlement offer prospectus lodged with ASIC and ASX on 6 January 2025.
