ASX ANNOUNCEMENT

4th November 2016

DIVAN.TV ALLIANCE AGREEMENT PROVIDES TV2U THE OPPORTUNITY TO ENSURE THE DELIVERY OF CONTRACTS ARE COMPLETED IN A COST EFFECTIVE AND TIMELY MANNER

Highlights

- **TV2U with Divan.TV to collaborate and share resources to ensure TV2U projects are delivered on time and within budget.**
- **The existing alliance agreement exploits the unique commercial potential of the companies' high level skill sets, service delivery experience and knowledge in the OTT industry.**
- **The effectiveness of combining the pool of employees reduces the requirement for further capital to be raised at historical trading lows for the listed entity.**

TV2U International Limited (ASX: TV2, "the Company") is pleased to announce that the existing Alliance agreement will provide further benefits to the Company. TV2U have successfully worked with Divan.TV for an extended period and it is a natural progression and of mutual benefit to share resources to deliver on TV2U's large pipeline of opportunities and contract work flow.

The current arrangement is planned to ensure timelines are maintained, and deliverability to clients is achieved in the quickest time possible. This prevents an immediate requirement to increase staffing and therefore assists in achieving results without having to dilute shareholders at historically low share prices.

Divan have nine engineering staff and two management executives that will assist with technical execution of projects.

Pooling the resources of both teams will streamline and expedite the service delivery process for our new contract opportunities, and give confidence that recent secured opportunities will be managed effectively through to completion.
