Title: President and Chief Executive Officer

## Industry-Leading Wearable Injectors, People and Partners

November 17, 2016

## Forward Looking Statements

---

This presentation contains forward-looking statements. All statements that address operating performance, events or developments that we expect or anticipate will occur in the future are forward-looking statements. These forward-looking statements are based on management's beliefs and assumptions and on information currently available to our management. Our management believes that these forward-looking statements are reasonable as and when made. However, you should not place undue reliance on any such forward-looking statements because such statements speak only as of the date when made.

We do not undertake any obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as required by law. In addition, forward-looking statements are subject to certain risks and uncertainties that could cause actual results, events and developments to differ materially from our historical experience and our present expectations or projections.

These risks and uncertainties include, but are not limited to, those described in "Item 1A. Risk Factors" and elsewhere in our Annual Report on Form 10-K filed with the U.S. Securities and Exchange Commission ("SEC") on October 24, 2016, those described from time to time in other reports which we file with the SEC, and other risks and uncertainties including, without limitation: that Amgen may not purchase the remaining \$5 million balance of the senior secured convertible note in January 2017 or the additional \$10 million senior secured convertible note in January 2018; and that the Company's focus on wearable injector programs with key pharmaceutical customers may not be successful and / or result in the commercialization and sale of the Company's products.

## Industry-Leading Wearable Injectors, People and Partners

### An Attractive, Growing and Under-Served Market

- Wearable injectors to deliver biologics
- Large biopharma seek platform-based systems for use with multiple target drugs
- Platforms support effective lifecycle management of multiple target therapies

### The Industry's Best Wearable Injector Portfolio

- The first pre-filled, pre-assembled wearable injector portfolio
- Fully integrated, ready-to-inject therapies
- Customers can expect unique therapy brand identity via wearable platform use

### The Right People and Partners for Commercial Success

- Focused on programs and path to sales
- Rigorous cost controls, reduced cash burn
- Strategic collaboration with Amgen
- Strong partnership with OrbiMed
- Established base of customers, programs

## Business Leadership

### Strong, Disciplined Team with Deep Industry and Business Experience

John Ryan  
*President and CEO*

David Hastings  
*SVP and CFO*

Ian Hanson  
*SVP and COO*

Michael Ratigan  
*SVP, Chief  
Commercial Officer*

Stephanie Walters  
*SVP, GC and  
Secretary*

Rick Bente  
*VP, Combination  
Products*

Molly Weaver, PhD  
*VP Quality &  
Regulatory Affairs*

### Strengthened Board with Substantial Life Sciences Experience

Mary Kate Wold,  
*Chair*

Rosemary Crane

Duane DeSisto

Harry Hamill

Mike Kamarck, PhD

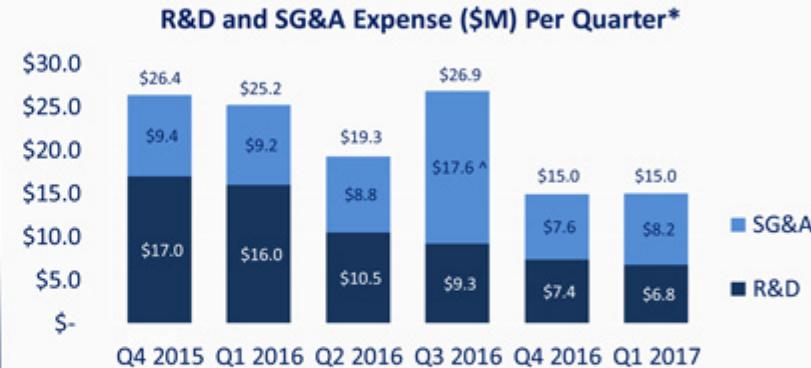

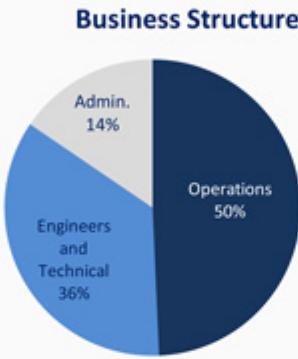

John Lund

Jeff Carter

## Focused Operations

# Realigned for Disciplined Execution, Reduced R&D and SG&A Expense

\* Includes share based compensation expense of \$4.0 M, \$3.6M, \$3.4M, \$5.5M, \$1.3M and \$1.0M respectively.

^ Q3 2016 SG&A includes \$2.2M charge for severance related expense relating to the departure of the former CEO and COO, and a \$5.0M charge relating to the strategic review process.

- Company aligned to focus on wearable programs
- Workforce reduced ↓53%, 86% in product-focused roles
- Teams aligned for optimal performance on customer programs
- Focused on innovating to maintain wearable injector leadership position

- Disciplined team rigorously implementing strategy
- Reduction in R&D and SG&A expense and capital expenditures
- Reductions not expected to detract in any way from wearable injector focus

## Strategic Partners and Customers

**OrbiMed**  
Healthcare Fund Management

- Leading healthcare-focused global investment firm with approximately \$14 billion in assets under management
- \$70 million in debt financing provided since 2014

**AMGEN**

- Global strategic collaboration signed February 2016
- \$75M provided to date with \$5M convertible note contemplated in Jan. 2017 and \$10M in Jan. 2018
- Exclusive and non-exclusive access within defined areas
- Development programs underway

**AstraZeneca** The AstraZeneca logo, which includes the company name and a stylized yellow and blue geometric shape.

- Long-term development and supply agreement signed 2013
- Commercial supply agreement with minimum volumes for lead molecule signed in 2015

**SANOFI**

The Sanofi logo, which consists of a stylized blue and yellow swoosh graphic above the word "SANOFI".

- Agreement signed in 2014 for Unilife to be exclusive supplier for all Sanofi (non-cartridge) wearable drugs
- Minimum 15 year term
- Extends to drug collaboration partners

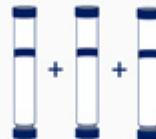

**UNILIFE** The Unilife logo, which includes the company name and a small green square icon.

## Improving Patient Experience to Optimize Therapy Compliance

### Reducing Injection Frequency

E.g. 1mL every two weeks  
to 2mL every month

### Reducing Injections Per Dose

E.g. Three injections per dose  
to 1 injection for full dose

### Reducing Pain and Discomfort

E.g. 180mg (1mL) in 10 sec.  
to 180mg (2mL) in 45 sec.

### Ease of Use

Intuitive steps of use with patient-focused, fully integrated drug-device combination products

### Improving Mobility

E.g. Shift from IV infusion in specialty care center to subQ self-injection wherever the patient is

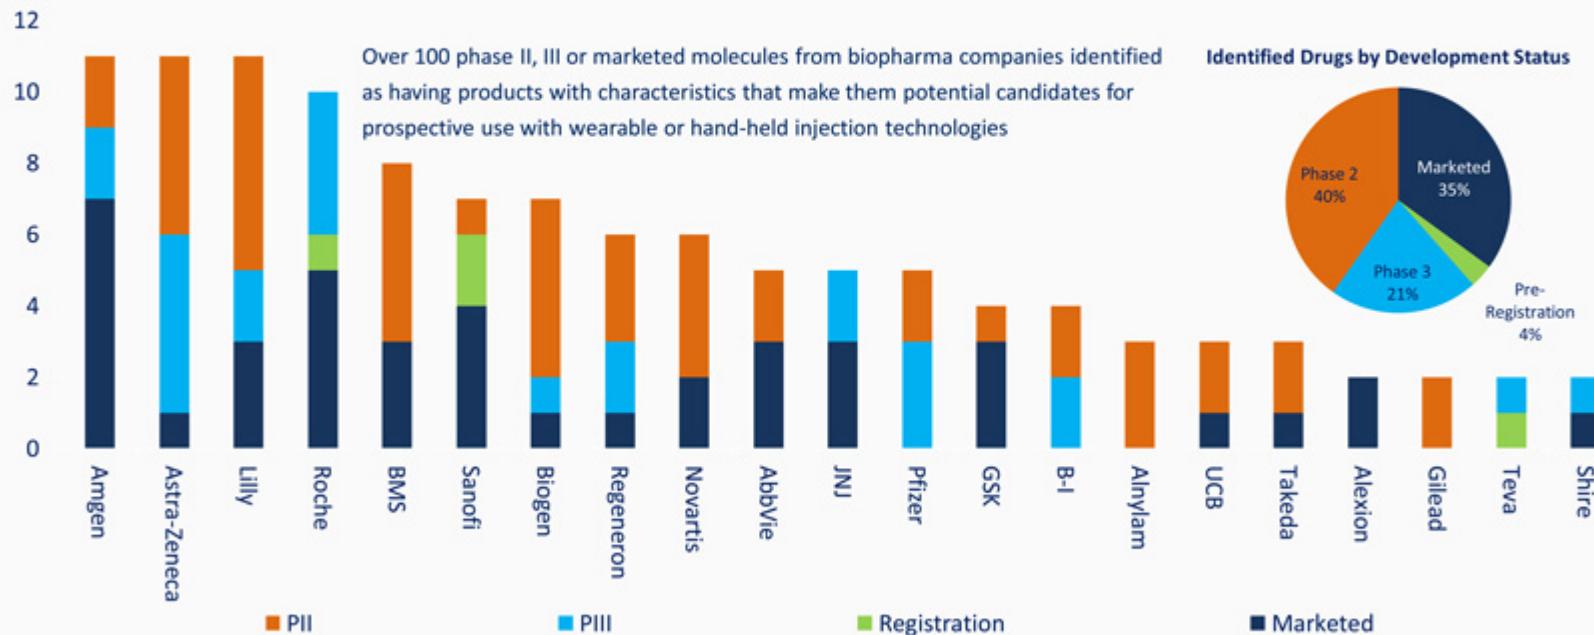

### Enabling Data Connectivity

Integration of device, drug and data within a connected health ecosystem

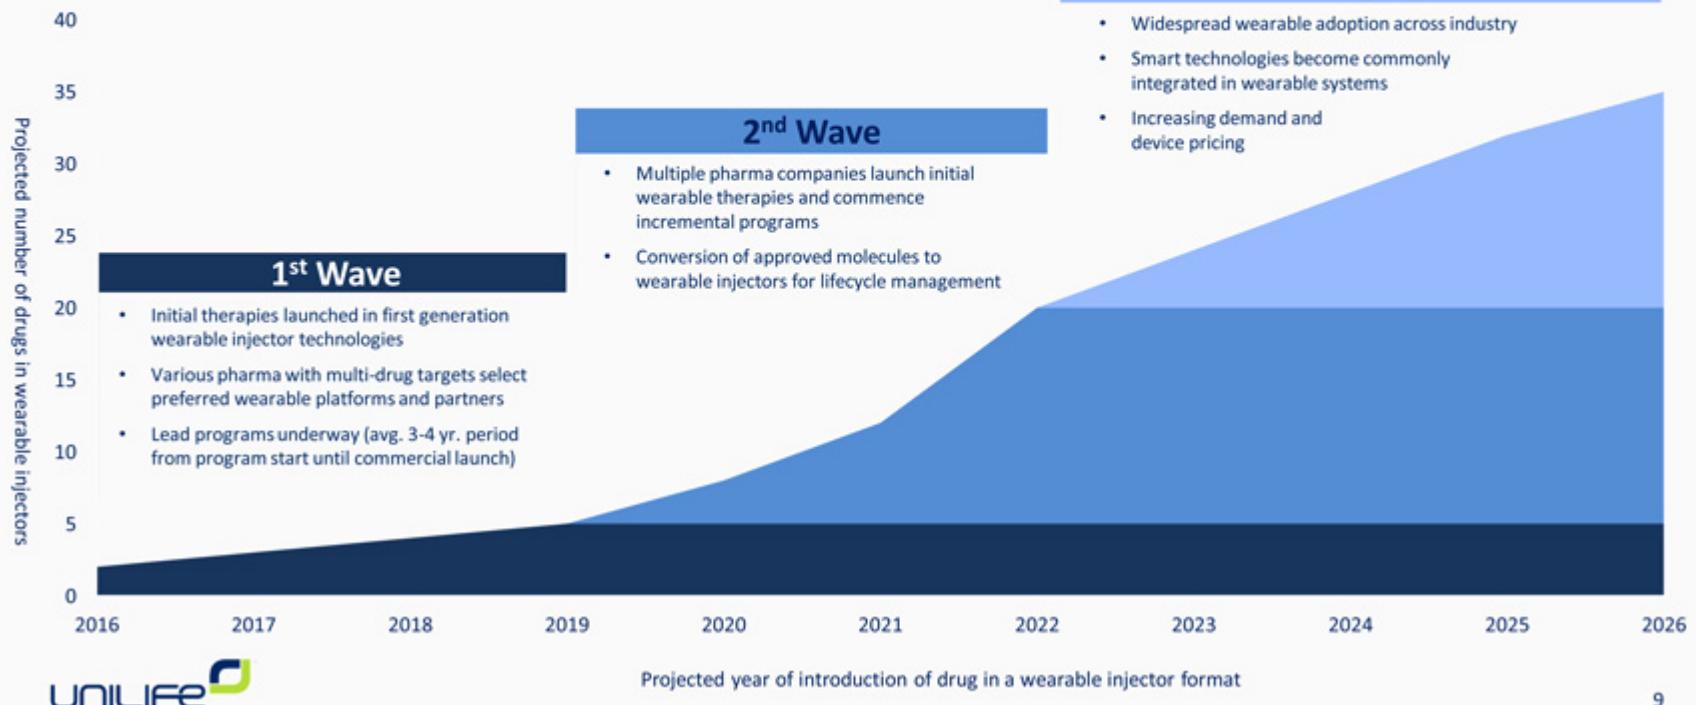

## Significant Market Opportunity

### BioPharma Companies with Potential for Multiple Wearable Programs

\* Suitability based on criteria incl. dose strength, admin. route, injection frequency, drug formulation and potential for patient self-injection. Phase 1 molecules, insulin therapies and biosimilars not included. Based on publicly available information as of October 2016 from sources including clinicaltrials.gov, biopharma company statements and Adis Insight.

### Embraced by Industry, Poised for a Decade of Growth and Consolidation

## A Broad, Platform-Based Portfolio for any Wearable Therapy

Precision-Therapy™

2mL to 10mL

Immediate bolus

Mechanical drive force

Flex-Therapy™

2mL to 10mL

Delayed or intermittent bolus,  
constant infusion or variable rate

Electromechanical control

Flex-Therapy™ Mini

0.5mL to 2mL

Any bolus, constant  
infusion or variable rate

Electromechanical control

Imperium™

0.5mL to 2mL

Constant basal insulin  
with on-demand bolus

Electromechanical control

### The First Ready-to-Inject, Fully Customizable Wearable Injectors

Unilife Wearable Injectors

**3**

Device-related steps to therapy

Supplied to user pre-filled and fully integrated with drug in ready-to-inject format

Competitor A

**9**

Device-related steps to therapy

Supplied to user in kit for assembly and loading of dose into device prior to use

Competitor B

**9**

Device-related steps to therapy

Supplied to user in kit for assembly and filling of device with syringe prior to use

## An Established Customer Base with Path to Commercial Sales

# Wearable-Focused. Disciplined Leadership. Positioned for Growth.

**1.**

Focus on industry-leading wearable injectors to leverage favorable market trends and address unmet needs for drug delivery

**2.**

Strong existing base of customers and programs with Amgen, Sanofi and AstraZeneca (MedImmune)

**3.**

Disciplined, experienced leadership focused on reducing cash burn and reliable program execution

**4.**

Partner with established, reliable industry leaders and material suppliers for production and supply continuity

**5.**

Build profitable organization on foundation of integrity, discipline, and innovative technology
