APPOINTMENT OF ANCUABE STUDY MANAGER**

Triton Minerals (ASX: TON) ('Triton' or the 'Company') is pleased to announce it has appointed Ms. Lisa Park to the position of General Manager of Studies and Metallurgy, a key role as the Company progresses the flagship Ancyabe Graphite Project in Mozambique.

The appointment further strengthens the Triton executive team under new Managing Director Peter Canterbury, who was appointed in September to drive the Company's successful relisting and a revised strategy.

Ms. Park is a highly-credentialed process engineer with broad experience across commodities and geographies, having held previous roles with US-listed engineering business AECOM, Fluor Australia, MMG Limited, Worley Parsons and Lycopodium.

Ms. Park brings an outstanding background in developing and delivering processing solutions for the mining industry. She holds a Bachelor of Engineering (Chemical) from the University of Melbourne, a Masters of Applied Finance and is a Graduate of the Australian Institute of Company Directors.

Mr. Canterbury, commented: *"I am delighted to have Lisa join the Triton team and believe she can offer a wealth of experience and skills to the organization."*

He added, *"The appointment of Lisa follows our recent appointment of our new CFO, David Edwards, and demonstrates Triton positioning itself to execute its strategy to rapidly develop the Ancyabe Graphite Project in Mozambique."*
