TRANSCENDENCE TECHNOLOGIES LIMITED

DECEMBER 2016 QUARTERLY ACTIVITIES REPORT

The Board of Transcendence Technologies Limited ('Transcendence' or 'the Company') provides the following report on its activities and operations for the quarter ended 31 December 2016.

E-Collate

The Company is currently developing an innovative product (E-Collate) for document aggregation to streamline the administration of individual Self-Managed Superannuation Funds. The Company's unique technology uses proprietary software and interfaces to enable rapid arrangement, secure storage and efficient export of compliance sensitive documentation.

Positive progress in the delivery of the E-Collate software product continued during the December 2016 quarter highlighted by advanced prototype testing and engagement with potential Business to Business (B2B) and Business to Consumer (B2C) customers.

Initial testing of prototype software is at an advanced stage and the Company is encouraged with feedback from the recent developments on the various modifications and extensions to E-Collate. The analysis of the improvements in the scope and feature-set of the system allows the Company to further define which software development houses should be utilised in the final technical development and implementation of the software. To this stage, the technical in-house team has been largely responsible for the development of the foundation architecture prior to engaging external technical expertise.

The Company has had initial discussions with potential B2B and B2C customers for ongoing input and response to the developments of the E-Collate software. Responses from these groups are very positive, although the Company will need to continue these relationships to translate this interest into positive marketplace outcomes. The Company aims to secure pilot sites for future phases of the software development in both the B2B and B2C sectors.

During the quarter the Company also reviewed several business opportunities in the technology sector, and will update shareholders on any progress in respect of these opportunities as required.

Corporate

On 3 October 2016, the Company held its Annual General Meeting of Shareholders. All resolutions put to the meeting were passed on a show of hands.
