## **ZAPUCAY PROJECT. Iron Ore.**

### **ISLA CRISTALINA JOINT VENTURE, URUGUAY**

Interest: Gladiator Resources Limited 51 %

Operator: Gladiator Resources Limited

No specific exploration activities have been carried out during the quarter other than conducting minimal tasks in order to maintain the current licenses compliant with government requirements.

#### **Corporate Activity**

The Company entered into a non-binding Term Sheet with Metamila Ltd during the September Qtr. for the disposal of the Company's 100% owned subsidiaries domiciled in Uruguay which will result in the Company disposing of its current interest in the Zapucay Project located in the North of Uruguay.

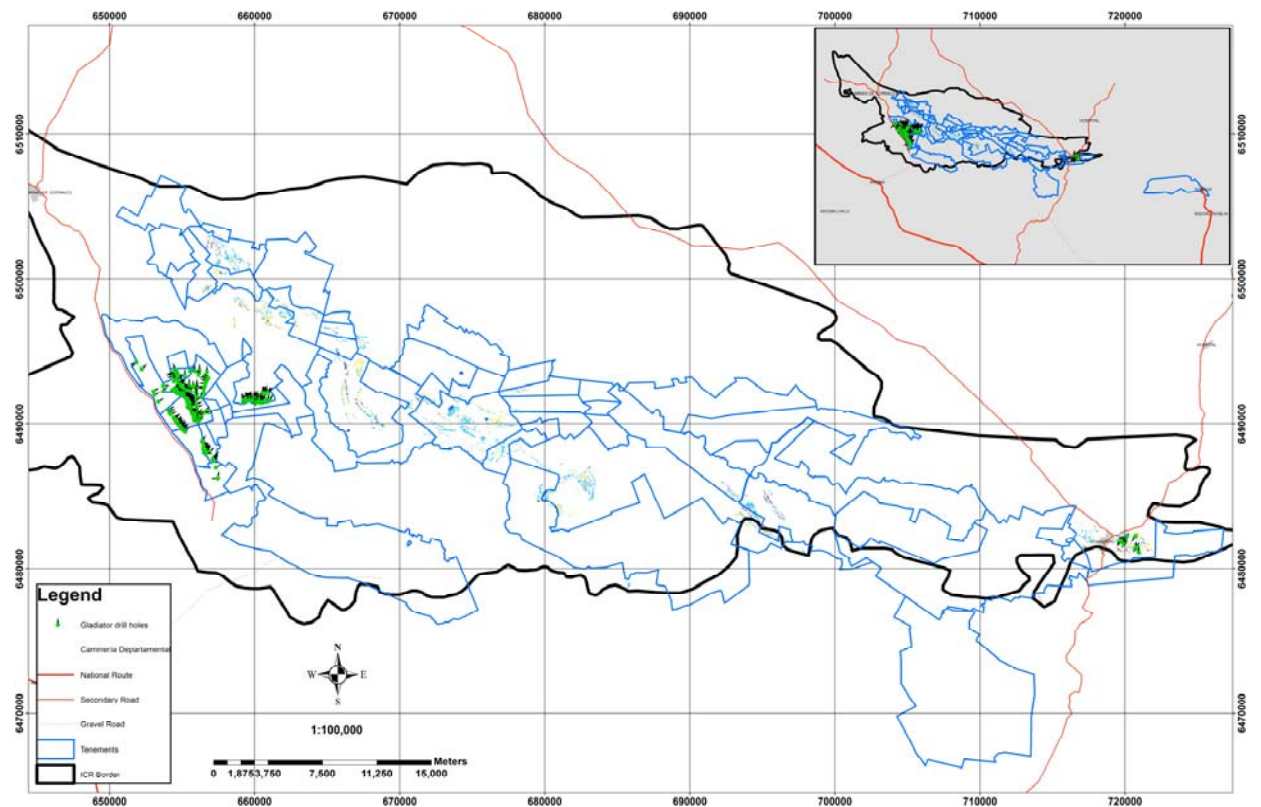

Due diligence by both parties concluded during the reporting period together with the expiry of the notice period and the execution of a binding sale agreement was completed on 15 December 2016. The agreement is now subject to shareholder approval which will be sought at a meeting to be held on 6 February 2017.

The terms of the Sale Agreement results in the Company receiving a total cash consideration for its interest equal to the liabilities of the Company's Uruguay subsidiaries which includes a loan to the Company's subsidiary Ferrominas SA, provided under a loan agreement executed in September 2015, which is guaranteed by the Company.

As previously stated, the sale of the Company's interests in the disputed Zapucay Project and the resulting reduction in the Company's debt will provide a greater opportunity to progress negotiations on alternative exploration projects.

The Company made no further drawdowns from its finance facility, the total amount advanced to date equates to approximately \$805,000 after allowing for exchange rate fluctuations.

There is no further update concerning the dispute with the Company's Joint Venture Partner in the Zapucay Project.
