Company Announcements Officer Australian Securities Exchange Esplanade Perth WA 6000

Dear Sir/Madam

### Quarterly Report for the Period Ended 31 December 2016

Nex Metals Explorations Ltd (Nex or the Company) provides the following update on recent Company activities.

- Kookynie Gold Tailings and CSIRO
- Cosmopolitan and Champion underground mining projects.
- Evaluation of various projects.
- Continuation of Legal Action.

### **Kookynie Gold Tailings and CSIRO**

During the Quarter the Company signed a Collaboration agreement with CSIRO – Gold Processing team, for the development and commissioning of a mobile processing facility at the Cosmopolitan tailings in Kookynie. A grant is being applied for the majority of funding of the plant. The Company is pleased that a research organization of this caliber is working with us in parallel on our Non-Toxic gold processing methodology that we have been developing over the last few years to significantly reduce environmental impacts (no cyanide or other toxic products to be used) but at the same time having cost-benefits to process low grade ores at a low capital and operating expenditure. CSIRO have developed their propriety process and reagents for gold extraction. A number of testing streams will be operating concurrently to measure performance outcomes. CSIRO estimate that this process has the potential to unlock significant value of lost gold each year in Australia which is currently constrained or lost to waste. The Kookynie project will be a first in the pilot programs.

### Cosmopolitan and Champion underground mining projects.

During the quarter has entered into discussions and has reached general agreement with a China based underground mining Company with respect to the re-opening of both the Cosmopolitan and Champion historical mines. Nex will not be required to provide any capital expenditure for the re-opening. The Company will provide an update to the market on signing of the formal agreement.

#### **Evaluation of Projects**

The Company continues to have projects presented to it for evaluation during the past quarter extending from Gold, base metals and copper. The Company takes the view that in the current commodities market that projects need to show exceptional value for the Company to proceed to any type of acquisition arrangement.

### **Continuation of Legal Action**

The Supreme Court action with Stone Resources Australia Limited (ASX:SHK) is still pending experts reports to be submitted to the Court. The Company expects the matter to be referred back to the Supreme Court during the next Quarter.

### **Administration**

The 2016 rebate for Research and Development was received subsequent to the end of the Quarter.

The Company has funds due from outstanding debtors of \$220,000 and balance of the sale of the Kookynie project of \$1,067,000 (plus interest). The Company has completed transfers of tenements (Kookynie Gold Project) into the Company's name being the subject of sale to A & C Mining. This completes any barrier to completion of the sales process and hence transfer of balance of funds the Company.

The Company continues to manage the Kookynie Gold project.

### **Responsibility Statement**

The information in this report that relates to Exploration Results, Mineral Resources or Ore Reserves is based on information compiled by Rob L'Heureux, who is a Member of the Association of Professional Engineers, Geologists and Geophysicists of Alberta (Canada). Mr. L'Heureux M.Sc., P.Geol., who is a full time employee of APEX Geoscience Australia Pty Ltd., has sufficient experience which is relevant to the style of mineralisation and type of deposit under consideration and to the activity undertaken to qualify as a Competent Person as defined in the 2004 Edition of the 'Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves'. Mr. L'Heureux consents to the inclusion in this report of the matters based on their information in the form and context in which it appears.

#### **Notes**

- The quarterly report provides a basis for informing the market how the entity's activities have been financed for the past quarter and the effect on its cash position. An entity that wishes to disclose additional information is encouraged to do so, in a note or notes included in or attached to this report.
- 2. If this quarterly report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, AASB 6: Exploration for and Evaluation of Mineral Resources and AASB 107: Statement of Cash Flows apply to this report. If this quarterly report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standards apply to this report.
- 3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
