L7 achieves Cisco Gold certification

Highlights

- Increases the Cirrus total addressable market nationally
- Expertise across multiple technologies through Cisco advanced specializations
- Proven track record of rapid and sustainable growth through L7 Solutions

Cirrus Networks Holdings Limited (“Cirrus” or the “Company”) (ASX: CNW) are delighted to announce its subsidiary company L7 Solutions Pty Ltd (“L7”) has achieved Cisco® Gold Certification. To earn Gold Certification, L7 had to meet rigorous standards set forth by Cisco in networking competency, service, support and customer satisfaction.

Announcing the certification Managing Director Matt Sullivan said “This is a large step forward for the business as it increases our total addressable market nationally and provides opportunity for improved margin levels”. Jason Brouwers, the ANZ MD for Cisco’s Partner Business Group, also commented “L7 has a proven track record of consistent growth across our suite of products and services, we are looking forward to working with them nationally”.

As a Cisco Gold Certified Partner, L7 has met the requirements for attaining the broadest range of expertise across multiple technologies by achieving Cisco advanced specializations in enterprise networks architecture, security architecture, collaboration architecture and data centre architecture. In addition, L7 has integrated Cisco Hybrid IT, the resale of cloud and managed services, into its offerings and is required to ensure high customer satisfaction in collaboration with Cisco.

In concluding Matt Sullivan confirmed “the certification provides L7 with access to comprehensive sales, technical, and lifecycle services training and support available from the multinational vendor Cisco. In the current financial year L7 has transacted in excess of \$6M worth of Cisco products and services, and that is without being at the Gold level.”

About Cirrus:

Cirrus Networks Holdings Limited (ASX: CNW) is an IT solutions provider that helps businesses understand their technology needs to implement solutions that are world leading, best of breed, cost effective and efficient for long term operational gain. Cirrus’ innovative approach has resulted in the swift establishment of a blue-chip customer base and its success was recently recognised at the Deloitte Australia’s Technology Fast 50 Awards, where it was named in second place for 2015. This followed the second placing received in the fastest growing “Rising Star” technology company category in Australia in 2014.
