## Appendix 3B

Frontier Resources Limited (**Frontier** or the **Company**) advises that further to its announcement of 23 December 2016 that it has today settled a total of \$200,000 of consultant and contractor fees by way of issuing 6,666,667 shares at a conversion price of \$0.03 per share (**Conversion Issue**). The Conversion Issue represents between six and twelve months of professional fees including \$120,000 (or 35 hours) of helicopter service in Papua New Guinea to be utilised in the mobilisation for the Bulago high-grade gold and porphyry copper-gold drilling program that has commenced.

The Company has also issued a total of 2 million incentive options (as approved by shareholders at the 2016 Annual General Meeting) at an exercise price of \$0.034, representing 130% of the previous 5-day VWAP pursuant to the Frontier Resources Incentive Options Plan (**Plan**). The Directors of Frontier further advise that 2.8 million incentive options exercisable at 3 cents on or before 30 December 2019 have been granted to employees in Papua New Guinea and Australia pursuant to the Plan.

Managing Director /Chairman Peter McNeil M.Sc., said:

The purpose of the employee and director options is to incentivise the individuals to continue to work diligently toward the success of the Company and also to provide a possible reward for their excellent services provided historically. All consultants have accepted large daily pay rate cuts for the last 3 years (an 80% cut for the drillers) and are required to stay in the field under very basic conditions for much longer periods of time.

Historically, Frontier worked on a 6-week field duration for technicians and a 4-week duration for geologists, but this has become 'as needed' due to the high personnel field move/demove plus airline travel costs and is normally about 10 weeks for everyone now (except me). This is very admirable conduct on behalf of our consultants that deserves rewarding, because the field conditions and food are very mediocre and / or tedious and it places strain on their families being away for so long.

Frontier's present Non-Executive Directors have worked in that role for about 28 months, for low Director fees (by industry standards) and have never received any incentive options. I hold 500,000 historic options exercisable at \$0.22 and 500,000 exercisable at \$1.22, hurdles that will be between very difficult to impossible to achieve, before they expire near the end of 2017.

If exercised, the employee and director options would deliver a total of \$84,000 and \$144,000, respectively, in funds for Frontier to use toward exploration and corporate costs.
