Melbourne, 14th February 2017: LiveHire Limited (ASX: LVH), the Talent Community platform empowering the flow of talent through organisations, shifting recruitment from reactive to 100% proactive, is pleased to announce two additional Cornerstone Clients, Laureate Universities International ("Laureate") and TAFE Queensland Brisbane.

The successful signing of Laureate and TAFE Queensland Brisbane are significant milestones as they help:

1. Cornerstone LiveHire's entry into the Education vertical, an annual recruitment market estimated at over \$624 million¹ and growing;
2. Further strengthen LiveHire's growth into the public sector, the largest employer in Australia and one where significant hiring productivity can be gained;
3. Establish the LiveHire platform with an additional global client who has significant cost and time savings to be realised from a shift to 100% proactive recruitment; and
4. Open the LiveHire platform to future significant upside growth in TCC, by introducing a channel of students, graduates and alumni.

Industry leaders, such as Laureate and TAFE Queensland Brisbane, launching Live Talent Communities, result in a critical mass of the Education and Training industry workforce receiving invitations to join the LiveHire Ecosystem. This creates an industry standard for digital talent profiles, and a network effect that paves the way for more talent and companies to easily join and connect.

The signing, implementation and launching of Cornerstone Clients such as Laureate and TAFE Queensland is a key pillar to growing LiveHire's key performance metric of Talent Community Connections (TCCs). LiveHire clients grow Talent Communities to an optimal size of 5-10 times the number of employees and pay \$0.50 per individual Talent Community Connection (TCC) per month.

LiveHire has now successfully expanded its Cornerstone strategy to three industry verticals: Retail, Healthcare and Education, spanning both public and private sectors.

About the Education and Training Sector in Australia

The education sector is one of the largest employers in Australia (Top 5 industry by total employed persons), growing at an accelerated rate (Top 3 industry by growth rate), well above the Australian overall employment growth figure.

Education in Australia is a \$20 billion a year industry, employing approximately 975,000 people, 8.1% of the total working population. Additionally, the latest figures from ABS firm up education's position as Australia's third-largest export after coal and iron ore, as well as its position as the largest services export, well ahead of tourism. Education is clearly one of the five key super-growth sectors that will support Australia's transitioning economy into the next decade.

¹ Total recruitment costs for education industry in Australia calculated as total workforce of 975,000 employed workers x 16% churn rate (AHRI Turnover and Retention Report 2016) x \$4,000 average cost to hire (conservative USD4,000 cost per hire – LinkedIn Global Recruiting Trends 2016) = \$624,000,000.
