2 Statement of significant accounting policies

These consolidated financial statements are general purpose interim financial statements which have been prepared in accordance with the *Corporations Act 2001*, and Australian Accounting Standard AASB 134: Interim Financial Reporting.

The financial statements comprise the consolidated financial statements of the Company and its controlled entity (collectively the Group). Refer Note 2.1.1 for details on the reverse acquisition.

The financial statements were authorised for issue by the directors on 14 February 2017.

This interim financial report is intended to provide users with an update on the latest annual financial statements of the Group. As such, it does not contain information that represents relatively insignificant changes occurring during the half-year within the Group. It is therefore recommended that this financial report be read in conjunction with the annual financial statements of the Group for the year ended 30 June 2016, together with any public announcements made during the following half year.

2.1 Basis of preparation

The financial statements comprise the consolidated financial statements of the Group which comprises the Company and its legal subsidiary (Alcidion Corporation Pty Ltd.). For the purposes of preparing the consolidated financial statements, the Group is a for-profit entity. The same accounting policies and methods of computation have been followed in this interim financial report as were applied in the most recent financial statements.

2.1.1 Reverse acquisition

Alcidion Group Limited (formerly Naracoota Resources Limited) (Alcidion) is listed on the Australian Securities Exchange. The Company completed the legal acquisition of Alcidion Corporation Pty Ltd (Alcidion Corporation) on 29 February 2016.

Alcidion Corporation (the legal subsidiary) was deemed to be the acquirer for accounting purposes as it has obtained control over the operations of the legal acquirer Alcidion (accounting subsidiary). Accordingly, the consolidated financial statements of Alcidion have been prepared as a continuation of the financial statements of Alcidion Corporation. Alcidion Corporation (as the deemed acquirer) has accounted for the acquisition of Alcidion from 29 February 2016.

The impact of the reverse acquisition on each of the primary statements is as follows:

- The consolidated statement of profit or loss and other comprehensive income:
 - o for the period to 31 December 2016 comprises six months of the Group; and
 - o for the comparative period comprises 1 July 2015 to 31 December 2015 of Alcidion Corporation.
- The consolidated statement of financial position:
 - o as at 31 December 2016 represents the Group as at that date; and
 - o as at 30 June 2016 represents the Group as at that date.
- The consolidated statement of changes in equity:
 - o for the year ended 31 December 2016 comprises the Group's balance at 1 July 2016, its loss for the year and transactions with equity holders for six months. The number of shares on issue at year end represent those of the Group only.
 - o for the comparative period comprises 1 July 2015 to 31 December 2015 of Alcidion Corporation's changes in equity.
- The consolidated statement of cash flows:
 - o for the year ended 31 December 2016 comprises the cash balance of the Group, as at 1 July 2016, and the cash transactions for the six months of the Group.
 - o for the comparative period comprises 1 July 2015 to 31 December 2015 of Alcidion Corporation's cash transactions.

2.1.2 Use of estimates and judgments

The preparation of the half-year report requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expenses. These estimates and associated assumptions are based on historical experience and various factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and in any future periods affected.

2.1.3 Comparative figures

Where required by AASBs comparative figures have been adjusted to conform with changes in presentation for the current financial year.

Where the Group retrospectively applies an accounting policy, makes a retrospective restatement or reclassifies items in its financial statements, an additional (third) statement of financial position as at the beginning of the preceding period in addition to the minimum comparative financial statements is presented.

2.2 Principles of consolidation

As at reporting date, the assets and liabilities of all controlled entities have been incorporated into the consolidated financial statements as well as their results for the half-year then ended.

2.3 Critical Accounting Estimates and Judgments

Management discusses with the Board the development, selection and disclosure of the Group's critical accounting policies and estimates and the application of these policies and estimates. The estimates and judgements that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below.

2.3.1 Key Estimate - Taxation

Balances disclosed in the interim financial statements and the notes thereto, related to taxation, are based on the best estimates of directors. These estimates take into account both the financial performance and position of the company as they pertain to current income taxation legislation, and the directors understanding thereof. No adjustment has been made for pending or future taxation legislation. The current income tax position represents that directors' best estimate, pending an assessment by tax authorities in relevant jurisdictions. Research & Development rebate is accrued based on estimated amount receivable from the ATO as per the applicable tax laws.

2.3.2 Key Estimate - Intangible assets and amortisation

Intangible assets acquired as part of a business combination, other than goodwill, are initially measured at their fair value at the date of the acquisition. Intangible assets acquired separately are initially recognised at cost. Indefinite life intangible assets are not amortised and are subsequently measured at cost less any impairment. Finite life intangible assets are subsequently measured at cost less amortisation and any impairment. The gains or losses recognised in profit or loss arising from the derecognition of intangible assets are measured as the difference between net disposal proceeds and the carrying amount of the intangible asset. The method and useful lives of finite life intangible assets are reviewed annually. Changes in the expected pattern of consumption or useful life are accounted for prospectively by changing the amortisation method or period.

Research costs are expensed in the period in which they are incurred. Development costs are capitalised when it is probable that the project will be a success considering its commercial and technical feasibility; the consolidated entity is able to use or sell the asset; the consolidated entity has sufficient resources; and intent to complete the development and its costs can be measured reliably. Capitalised development costs are amortised on a straight-line basis over the period of their expected benefit, being their finite life of four years.

Significant costs associated with software are deferred and amortised on a straight-line basis over the period of their expected benefit, being their finite life of four years.

2.3.3 Key Estimate – Provision for R&D

Where the Group receives the Australian Government's Research and Development Tax Incentive, the Group accounts for the amount refundable on an accrual basis. In determining the amount of the R&D provision at period end, there is an estimation process utilising a conservative approach. Any changes to the estimation are recorded in the subsequent Financial Period.

2.4 New, revised or amending Accounting Standards and Interpretations adopted

The Group has adopted all of the new, revised or amending Accounting Standards and Interpretations issued by the Australian Accounting Standards Board (AASB) that are mandatory for the current reporting period. The adoption of these AASBs did not have any significant impact on the financial performance or position of the Group.

2.5 New Accounting Standards and Interpretations not yet mandatory or early adopted

AASBs that have recently been issued or amended but are not yet mandatory, have not been early adopted by the Group for the half-year reporting period ended 31 December 2016. The Group has not yet considered the implications of any new or amended Accounting Standards.
