Update on Operations

Perth, Western Australia: Tiger Resources Limited (ASX: TGS) (“Tiger”) refers to its update on operations at the Kipoi Copper Project, Democratic Republic of Congo on 22 February 2017 in which it referred to damage to Tank Leach circuit components such as pump mixers.

The Tank Leach circuit is currently shut down to repair failures in two pump mixers. It is presently estimated that the repairs will be completed within 7 days.

The Tank Leach circuit shut down is expected to result in a reduction of approximately 100 tonnes Cu production for March 2017.

The Company confirms ongoing discussions with major shareholders and the senior lending group to address short and medium term cash flow issues and expects to provide a further update next week.
