

Granting of CE Certificate of Conformance

Aurora Labs Limited (“the Company”) (ASX:A3D), are pleased to announce we have received acknowledgement of the issuing of our Certificate of Conformance (CoC) numbers for both our EU Machinery Directive 2006/42/EC Technical File and EMC Directive 2014/30/EU Technical File. This will allow us to now use the CE Mark on our S-Titanium Range of printers.

This completion and acceptance of the respective Technical Files is a requirement to sell electrical and/or mechanical equipment in the European Union. Having satisfied that requirement and also having previously received acknowledgement of the granting of an accession number from the US FDA-CDRH we are now free to export to and sell the Aurora 3D metal printer S-Titanium Series Range (S-Titanium and S-Titanium Pro) into these markets.
