3. IMPORTANT INFORMATION

3.1 Contact details

If you have not received a personalised Entitlement and Acceptance Form, or if you have any queries on how to complete the Entitlement and Acceptance Form, please contact the Company on (08) 9245 6187.

3.2 Offer Document not a prospectus

This Offer Document, which has been prepared by the Company, is not a prospectus or disclosure document for the purposes of Chapter 6D of the Corporations Act (or any other purpose), and has not been lodged with ASIC. The Company is offering New Shares under this Offer Document without disclosure to investors under Chapter 6D of the Corporations Act, pursuant to section 708AA of the Corporations Act.

This Offer Document does not contain all the information that Eligible Shareholders may require to make an informed decision as to whether or not to apply for New Shares. Eligible Shareholders should consider all relevant facts and circumstances, including their knowledge of the Company and disclosures made to ASX, before deciding whether to accept the Offer.

It is important that you read and understand the information regarding the Company which is publicly available on the ASX website at <http://www.asx.com.au/> under stock code MMR, prior to accepting the Offer.

3.3 Speculative investment

The New Shares offered under this Offer Document should be considered speculative.

3.4 Entitlement and Acceptance Forms

Accompanying this Offer Document is a personalised Entitlement and Acceptance Form that sets out your Entitlement. There is no minimum subscription and you may take up your Entitlement in whole or in part, and in addition you may apply for Shortfall Shares.

3.5 Opening and Closing of the Offer

Offers under the Rights Issue will open at 9:00 am (AWST) on 23 March 2017 (Opening Date) and will close at 5:00pm (AWST) on 21 April 2017 (Closing Date), unless extended. Subject to the requirements of the Corporations Act and the Listing Rules, the Directors reserve the right to extend the Closing Date without prior notice.

The Company also reserves the right not to proceed with the whole or part of the Offer at any time prior to the Issue Date. In that event, Application Monies will be refunded in full without interest.

3.6 Acceptance of Applications for New Shares

If your Entitlement and Acceptance Form is not completed properly, or if the accompanying payment is for the wrong amount, the Directors may elect to treat it as valid or may reject it. The decision of the Directors as to whether to treat any Application as valid or invalid and how to construe, amend or complete the associated Entitlement and Acceptance Form will be final. The Directors may complete any blanks or spaces left in any Entitlement and Acceptance Form and you, by lodging that form, appoint the Directors, and each of them, as your joint and several attorneys for such purpose and authorise all such amendments, insertions and alterations. If the Company elects, in its absolute and unfettered discretion, to treat any such incomplete or incorrectly completed Entitlement and Acceptance Form, or any Entitlement and Acceptance Form accompanied by the wrong amount as invalid and to therefore reject the Application, the Application Monies will be refunded without interest.

A completed and lodged Entitlement and Acceptance Form, together with a cheque, bank draft or money order for the Application Monies, or the payment of your Application Monies by BPAY, constitutes a binding and irrevocable Application for the number of New Shares specified in the

Entitlement and Acceptance Form or which could be subscribed for by the Application Monies paid by you (whichever is the lower).

3.7 Eligible shareholders

A Shareholder is eligible to participate in the Offer if at the Record Date:

- the Shareholder is a registered holder of Shares; and
- the Shareholder has a registered address in Australia or New Zealand.

The Company will determine whether a Shareholder is eligible or ineligible to participate in the Offer and the decision of the Company is final.

3.8 Ineligible shareholders

The Company has decided that it is unreasonable to make the Offer to any Shareholder with a registered address outside Australia or New Zealand at the Record Date having regard to the number of Shares held by Shareholders with registered addresses outside Australia and New Zealand and the cost to the Company of complying with applicable legal and regulatory requirements outside Australia and New Zealand.

Accordingly the Offer is not being extended to Shareholders with a registered address outside Australia or New Zealand. In accordance with Listing Rule 7.7.1(b) the Company will send each holder to whom it will not offer New Shares, details of the Rights Issue and an advice that the Company will not offer New Shares to those holders.

3.9 Rights issue exception not available

No nominee has been appointed for Ineligible Shareholders under section 615 of the Corporations Act and, as such, Eligible Shareholders will not be able to rely on the exception for rights issues in item 10 of section 611 of the Corporations Act. Accordingly, when an Eligible Shareholder applies for some or all of its Entitlement, it must have regard to the takeovers prohibition in section 606 of the Corporations Act (that is, the 20% voting power threshold). Eligible Shareholders who may be at risk of their voting power in the Company increasing beyond that allowed by the takeovers prohibition in section 606 of the Corporations Act as a result of the acceptance of the Offer should seek professional advice before completing and returning the Entitlement and Acceptance Form.

4. OFFER

4.1 General Structure

The Offer is a 1 for 2 pro-rata non-renounceable rights issue at \$0.028 per New Share to raise up to approximately \$2.8 million (before the costs of the Offer, and ignoring the treatment of fractional entitlements). The Offer is open to Eligible Shareholders being those Shareholders who hold Shares at the Record Date and who have a registered address in Australia or New Zealand.

The capital structure of the Company before and after the Offer on the assumption the Offer is fully subscribed is as follows:

- The number of Shares on issue at the date of this Offer Document is 200,034,633.
- The maximum number of New Shares to be issued pursuant to the Offer is 100,017,316 (ignoring the treatment of fractional entitlements).

Assuming a full subscription, the total Shares on issue after the Offer will be 300,051,949 (ignoring the treatment of fractional entitlements). At this stage, and as the Offer is not underwritten, it is not possible to determine what the actual capital structure of the Company will be if the Rights Issue is not fully subscribed or if the Shortfall (if any) is unable to be placed.

4.2 Offer Price

The price payable for each New Share is \$0.028 cash per New Share payable in full on application.

Eligible Shareholders will not be required to pay brokerage or other fees in respect of any New Shares acquired under the Offer.

Eligible Shareholders should note that the market price of Shares may rise and fall between the date of this Offer Document and the date on which the New Shares are allotted. Accordingly, the price paid for each New Share under the Offer may be higher or lower than the market price of Shares at the time of this Offer or at the time the New Shares are allotted under the Offer. The market price of the Shares can be obtained at <http://www.asx.com.au/> by searching under stock code MMR.

4.3 Non-Renounceable

The Offer is non-renounceable which means that the Entitlement to New Shares under the Offer cannot be sold, traded or transferred. Entitlements not taken up will lapse.

4.4 Minimum Subscription

There is no minimum subscription under the Offer.

4.5 Underwriting

The Offer is not underwritten.

4.6 Placement of Shortfall

The Shortfall Shares will only be issued if the Offer is undersubscribed and will only be issued to the extent necessary to make up any Shortfall in subscriptions.

If there is any Shortfall, the Shortfall Shares will be allocated to Eligible Shareholders who have applied for Shortfall Shares, subject as set out below.

If the Company receives applications for Shortfall Shares that would result in the Offer being oversubscribed, then the Company will not accept such oversubscriptions and will reject or scale back applications for Shortfall Shares at its discretion.

The Directors reserve the right to issue the Shortfall Shares in their discretion. Any Shortfall Shares so issued will be issued within three months after the Closing Date and will be issued at a price that is not less than the Issue Price of the New Shares under the Offer.

4.7 The Company will not issue Shortfall Shares where it is aware that to do so would result in a breach of the Corporations Act, the Listing Rules or any other relevant legislation or law. Eligible Shareholders wishing to apply for Shortfall Shares must consider whether the issue of the Shortfall Shares applied for would breach the Corporations Act or the Listing Rules having regard to their own circumstances.

The Directors reserve the right to reject any application for Shortfall Shares or to allot a lesser number of Shortfall Shares than applied for. Application Monies received but not applied towards subscriptions for Shortfall Shares will be refunded as soon as practicable. No interest will be paid on Application Monies held and returned.

To the extent any Shortfall remains after allocation to Eligible Shareholders who have applied for the Shortfall Shares, the Company will use its best endeavours to place those remaining Shortfall Shares.

No related party of the Company (including Directors and their Associates) is permitted to participate in the placement of any Shortfall Shares.

4.8 Participation of Directors under the Offer

All Directors except Ms Ambrosini are Eligible Shareholders either personally or through related entities. Those entities presently intend to participate in the Offer. Directors (or their related entities) currently have the following holdings of Shares:

Director	Current Shareholding	Entitlement	Proposed Investment \$	Intention
Goh Hock	5,085,598	2,542,799	71,198.37	To accept full Entitlement
K O Yap	4,848,690	2,424,345	67,881.66	To accept full Entitlement
Heng Yu	30,000	15,000	420	To accept full entitlement
Total	9,964,288	4,982,144	139,500.03	

4.9 New Shares Issued

The Directors will proceed with the allotment of the New Shares which are the subject of this Offer Document as soon as possible after the Closing Date.

A statement will be issued to Applicants confirming the issue of the New Shares. New Shares will rank equally with other Shares on issue.

All Application Monies shall, pending allotment and issue of New Shares, be held by the Company in trust in a bank account established for the purpose of depositing Application Monies received. Any interest earned on those moneys shall be to the account of the Company.

It is the responsibility of Applicants to determine their allocation of New Shares prior to dealing in those securities. Any Applicants who sell or otherwise deal in any New Shares before they receive their transaction confirmation statements will do so at their own risk.

The Entitlement and Acceptance Form which accompanies this Offer Document contains a warranty that the Applicant has personally received the complete and unaltered Offer Document prior to completing the Entitlement and Acceptance Form, or where the Applicant pays the Application Monies by BPAY, prior to making such payment.

The Company reserves the right to not accept an Application from a person if it has reason to believe that, when that person was given access to the Entitlement and Acceptance Form, they were not provided with the Offer Document or any relevant supplementary Offer Document or any of these documents were incomplete or altered. In any such case, the Application Monies received will be dealt with in the manner provided for in section 722 of the Corporations Act.

4.10 Application for Listing

The Company will apply to ASX for quotation of the New Shares issued under the Offer. If ASX does not grant quotation of the New Shares within three months of the date on which the Offer opens, then the Company will refund all Application Monies, without interest, as soon as possible.

5. RIGHTS ATTACHING TO NEW SHARES

5.1 Rights

The New Shares issued pursuant to the Offer will rank equally with the existing Shares on issue and will have the same rights as those existing Shares on issue.

Full details of provisions relating to rights attaching to the Shares are contained in the Corporations Act, the Listing Rules and the Constitution.

5.2 Constitution

A copy of the Constitution can be obtained from ASIC. The Constitution may also be inspected at the Company's registered office during normal business hours.

6. HOW TO APPLY

6.1 Entitlement

The Entitlement of an Eligible Shareholder is set out in the Entitlement and Acceptance Form accompanying this Offer Document which will be sent to Eligible Shareholders on the Opening Date.

Eligible Shareholders will be entitled to 1 New Share for every 2 Shares held as at the Record Date. Shareholders with multiple holdings of Shares will receive more than one set of Offer Documents and will have a separate Entitlement for each holding.

Fractional entitlements will be rounded down to the nearest whole number.

6.2 Applying for New Shares

The Entitlement and Acceptance Form will allow you to apply for a lesser number of New Shares than your Entitlement. An Eligible Shareholder may take up all or part of their Entitlement by completing their personalised Entitlement and Acceptance Form which should accompany this Offer Document, and returning it together with the correct Application Monies by no later than the Closing Date, or by paying the Application Monies through BPAY (see below).

The Company may, but is not obliged to, accept any Application received after the Closing Date if the Application is postmarked prior to the Closing Date. If an Application is rejected for any reason then the Company will refund the excess Application Monies to the Eligible Shareholder without interest.

6.3 Shortfall

If you wish to accept your Entitlement in full and apply for Shortfall Shares, complete the Entitlement and Acceptance Form and also fill in the number of Shortfall Shares you wish to apply for in the space provided on the Entitlement and Acceptance Form.

6.4 Payment

Payment of Application Monies (Application Monies must be equal to the Offer Price multiplied by the total number of New Shares applied for including Shortfall Shares) will only be accepted in Australian currency, and as follows:

∞ ***Through BPAY.***

To pay by BPAY Eligible Shareholders must make their payment using the Biller Code and Customer Reference Number set out in their personalised Entitlement and Acceptance Form.

An Eligible Shareholder with multiple holdings will have multiple BPAY reference numbers. To ensure you receive your Entitlement in respect of a particular holding, you must use the Customer Reference Number shown on each personalised Entitlement and Acceptance Form when paying for any New Shares that you wish to apply for in respect of that holding.

Eligible Shareholders making payment via BPAY do not need to complete and return their personalised Entitlement and Acceptance Form.

Applicants must be aware that their own financial institutions may impose earlier processing cut-off times for electronic payments. It is the responsibility of Applicants to ensure that payment is submitted through BPAY with sufficient time so that it is received before the close of the Offer.

∞ ***By cheque, bank cheque or money order.***

Payment by cheque, bank cheque or money order must be made as follows:

- complete your personalised Entitlement and Acceptance Form;
- attach your payment of Application Monies which must be drawn on an Australian Bank, Australian branch of a financial institution or by money order and be made payable in Australian currency;
- address the cheque, bank cheque or money order to 'MEC Resources Limited' and mark it 'Not Negotiable'; and
- return the completed Entitlement and Acceptance Form and payment so that it is received by no later than 5.00pm (AWST) on the Closing Date to:

MEC Resources Ltd
C/- Advanced Share Registry
PO Box 1156
Nedlands Perth WA 6909

Cash payments will not be accepted. Receipts for payments will not be issued. Neither the Share Registry nor the Company accept any responsibility if Applicants do not follow the instructions above.

If the amount of Application Monies provided are insufficient to pay in full for the number of New Shares applied for (or the full Entitlement in the case of payment by BPAY) then the Applicant will be regarded as having applied for such whole number of New Shares as is covered in full by the Application Monies provided. Alternatively, the Company may in its discretion reject the Application, in which case the Application Monies will be refunded without interest.

6.5 Effect of Application

By applying for New Shares under the Offer (including by way of payment through BPAY), an Eligible Shareholder is taken to:

- agree to be bound by the terms and conditions set out in this Offer Document and the accompanying Entitlement and Acceptance Form;
- acknowledge that the investment in New Shares is speculative and is subject to a wide range of risks including risks as detailed in this Offer Document;
- represent and warrant that they satisfy the criteria of being an Eligible Shareholder as set out in this Offer Document;

- irrevocably apply for the issue of the number of New Shares specified on the Entitlement and Acceptance Form and agree to accept those securities;
- authorise the Company to place the Eligible Shareholder's name on the Register of Members of the Company in respect of the New Shares specified on the Entitlement and Acceptance Form;
- acknowledge that, whether or not the Eligible Shareholder has done so, the Eligible Shareholder has had opportunity to read the public announcements by the Company that are available on the ASX website at <http://www.asx.com.au/> by searching under the Company's stock code (MMR);
- acknowledge that the Eligible Shareholder has sufficient experience and expertise to make, and has made, its own assessment as to the nature and quality of the assets and liabilities, financial position and performance, profits and losses and prospects of the Company, before deciding to subscribe for the New Shares, including, as necessary, by obtaining independent professional advice, and that the Eligible Shareholder was satisfied as to those matters before lodging any Application for the New Shares;
- agree that no warranty or representation (express or implied) has been given or made by any of the Company, any person on behalf of the Company or by, or on behalf of, any of the Directors or officers of the Company as to:
 - the merits or otherwise of subscription for New Shares;
 - the value of the New Shares;
 - the assets and liabilities, financial position and performance, profits and losses and prospects of the Company;
 - the value of the assets of the Company; or
 - the completeness or accuracy of the information available to the Eligible Shareholder regarding the Company;
- acknowledge that the Eligible Shareholder has decided to subscribe for the New Shares based solely on its own investigations;
- release and discharge (to the maximum extent permitted at law) the Company and each of its Directors, officers and agents from any action or claim for any loss or damage which the Eligible Shareholder may suffer as a result of the subscription for New Shares or as a result of the occurrence of any future act matter or thing which may adversely affect the value of any such New Shares, or the existence or value of the assets of the Company; and
- agree to be bound by the Constitution.

Any Application under the Offer (including by way of payment through BPAY) cannot be withdrawn once it is lodged.

6.6 Allowing Entitlement to lapse

Eligible Shareholders who do not wish to accept the Offer need take no action and all of their Entitlement will lapse and their shareholding will be diluted.

7. PURPOSE AND EFFECT OF OFFER

7.1 Use of funds

Funds raised under the Offer will be used primarily:

- to support the Company's investee Advent Energy in meeting its 2D seismic commitment in PEP 11
- to support Advent Energy in planning for a proposed expedited 3D seismic survey in PEP 11;
- to support Advent Energy in achieving its proposed well intervention program in EP 386; and
- for the Company's working capital purposes.

An indicative split of the use of the funds raised from the Rights Issue (assuming full subscription) is as follows:

Proposed use of funds	Assuming Full Subscription (\$)
Advent Energy – PEP 11 - 2D Seismic Campaign	600,000
Advent Energy – PEP 11 - 3D Seismic Planning	250,000
Advent Energy – EP 386 - Well Intervention Program	1,200,000
Working capital	700,485
Cost of Rights Issue	50,000
Total	2,800,485

Note: the use of funds as listed above is indicative only, and is subject to change by the Directors in their discretion having regard to factors which may impact on the how the funds will best be applied for the Company's business.

7.2 What is the effect of the Offer on Shareholders and on control of the Company

If Eligible Shareholders take up their full Entitlement under the Offer they will not be diluted (subject to treatment of fractional entitlements). If Eligible Shareholders do not exercise their Entitlement under the Offer, or only exercise part of their Entitlement, they may be diluted.

Ineligible Shareholders will have their holdings diluted by the Offer. The extent of any dilution will depend on the level of participation in the Offer.

It is not possible for the Directors to predict the final level of participation and Shortfall under the Offer, or the identity of Eligible Shareholders who will subscribe for their Entitlements. The Directors are also unable to state with certainty the identity of any prospective subscribers under the Shortfall, or the total number of Shortfall Shares which will or can be placed.

The potential effect of the Offer on the control of the Company is as follows:

- If all Eligible Shareholders take up their full Entitlements, there would be no significant effect on the control of the Company, as the Offer is made pro-rata and in that case no Entitlements would lapse or revert to the Shortfall.
- If Eligible Shareholders do not take up their full Entitlements under the Offer, then the interests of those Eligible Shareholders may be diluted.
- The proportional interests of Ineligible Shareholders will be diluted because those Ineligible Shareholders are not entitled to participate in the Offer.

Given no nominee has been appointed for Ineligible Shareholders under section 615 of the Corporations Act, Eligible Shareholders will not be able to rely on the exception for rights issues in item 10 of section 611 of the Corporations Act. Accordingly, when an Eligible Shareholder applies for some or all of its Entitlement, it must have regard to the takeovers prohibition in section 606 of the Corporations Act (that is, the 20% voting power threshold).

Any Shortfall will be issued by the Company on the basis that no person will be issued Shortfall Shares if such issue will result in their voting power in the Company increasing beyond that allowed by the takeovers prohibition in section 606 of the Corporations Act.

8. RISK FACTORS

8.1 The risks described in this section and elsewhere in this Offer Document are not exhaustive. Applicants should realise that any company with resource-based investments is subject to a wide range of risks, many of which may not be foreseeable.

Before deciding to invest in the Company, Applicants should read this document carefully, in its entirety and with particular emphasis on the risk factors detailed in this Offer Document.

Applicants should review past announcements made by the Company in order to fully appreciate such matters, and the manner in which the Company operates, before making a decision regarding the Rights Issue and whether they take up their Entitlement, in full or in part. This information is available from the ASX website (www.asx.com.au) where the Company's ASX code is MMR.

Applicants should note that no guarantee or representation is, or can be, made with respect to the payment of dividends, returns of capital or the market value of the New Shares offered for subscription.

The business operations of the Company will be subject to risks which may impact adversely and severely on its future performance. These risks may adversely affect the value of Shares in the Company. The value of Shares in the Company and of its underlying assets will depend on factors beyond the immediate control of the Directors.

Eligible Shareholders should consult their professional advisers before deciding whether to invest.

Eligible Shareholders should consider the risk factors set out below which the Directors believe represent some of the general and specific risks that Eligible Shareholders should be aware of when evaluating the Company and deciding whether to take up their entitlements to New Shares. An investment in New Shares should be considered speculative.

8.2 General risks

The following general risks may significantly impact the Company, its performance and the price or value of the New Shares:

- economic conditions in Australia and internationally;
- investors' sentiment and share market conditions;
- changes in fiscal and monetary policy by governments;
- changes in taxation and other laws;
- natural disasters;
- war or terrorist attacks;
- opposition of environmental or community groups to the Company's activities;
- changes in commodity prices and foreign exchange rates;
- inability of the Company to obtain any necessary regulatory approvals; and
- availability of credit.

8.3 Specific risks

The following specific risks may significantly impact the Company, its performance and the price of its Shares:

Exploration and development risks:

Oil and gas exploration, project development and mining by their nature contain elements of significant risk. The ultimate and continuous success of these activities is dependent on many factors such as:

- (a) the discovery and/or acquisition of economically recoverable oil and gas deposits;
- (b) successful conclusions to bankable feasibility studies;
- (c) access to adequate capital for project development;
- (d) design and construction of efficient mining and processing facilities within capital expenditure budgets;
- (e) securing and maintaining title to permits;
- (f) obtaining consents and approvals necessary for the conduct of exploration and mining;
- (g) access to competent operational management, including the availability and reliability of appropriately skilled and experienced employees, contractors and consultants;
- (h) native title risks; and
- (i) adverse weather conditions over a prolonged period, which can adversely affect exploration and mining operations and the timing of revenues.

Liquidity of investment

As Advent Energy is an unlisted entity, there is a risk that there won't be a ready market for the Company to sell its Advent Energy shares if it wishes to do so at any time in the future.

Additional funding in respect of Advent Energy's operations

Advent Energy will require access to substantial capital to further identify and develop its substantial portfolio of exploration permits. There is no certainty that Advent Energy will have sufficient funding to pursue its exploration activities. Its ability to obtain additional funding will depend upon a number of factors, including the extent of its ability to generate income from activities which it cannot forecast with any certainty. This could have a materially adverse effect on the Company's investment in Advent Energy.

Commodity and currency price volatility

Commodity prices inherently fluctuate and are affected by numerous factors beyond the Company's control, including world demand for particular commodities, forward selling by producers and the level of production costs in major commodity producing regions. Moreover, commodity prices are also affected by macroeconomic factors such as expectations regarding inflation, interest rates and global and regional demand for, and supply of, a commodity. Commodities are principally sold throughout the world in US dollars. The fluctuation of the price of oil (and to a lesser extent gas) could have a significant impact on the value of the Company, its Shares and its investment in Advent Energy. As a result, any significant and/or sustained fluctuations in the exchange rate between the Australian dollar and the US dollar and/or adverse movements in commodity prices (in particular, oil and/or gas), could have a materially adverse effect on the Company's investment in Advent Energy and, consequently, the value of the Company and its Shares.

Exploration success

Advent Energy's petroleum tenements are at various stages of exploration, and potential investors should understand that petroleum exploration and development are high-risk undertakings.

There can be no assurance that exploration of the Advent Energy's interests in existing petroleum permits, or any other permits that may be acquired in the future, will result in the discovery of an economic oil and gas accumulation. Even if an apparently viable deposit is identified, there is no guarantee that it can be economically exploited.

Exploration costs are based on certain assumptions with respect to the method and timing of exploration. By their nature, these estimates and assumptions are subject to significant uncertainties and, accordingly, the actual costs may materially differ from any estimates and assumptions. Accordingly, no assurance can be given that the cost estimates and the underlying assumptions will be realised in practice, which may materially and adversely affect the Company's investment in Advent Energy and, consequently, the value of the Company and its Shares.

Joint venture parties, contractors and agents

The Directors are unable to predict the risk of financial failure or default by a participant in any joint venture to which the Company or Advent Energy may be or may become a party; or insolvency or other managerial failure by any of the contractors used by the Company in any of its activities; or insolvency or other managerial failure by any of the other service providers used by the Company for any activity.

Environmental management

Advent Energy's operations are and will be subject to stringent environmental regulation. Environmental regulations are likely to evolve in a manner that will require stricter standards and enforcement, increased fines and penalties for non-compliance and more stringent environmental assessments of proposed projects. Environmental regulations could impact on the viability of Advent Energy's projects. Advent Energy may become subject to liability for pollution or other hazards against which it has not insured or cannot insure, including those in respect of past mining or other activities for which it was not responsible.

Title risks and Native title

Interests in Australian petroleum tenements are governed by the respective State or Commonwealth legislation and are evidenced by the granting of permits or licences. Each permit or licence is for a specific term and carries with it annual expenditure and reporting commitments, as well as other conditions requiring compliance. Consequently, title to or any interest in Advent Energy's petroleum tenements could be lost if permit conditions are not met or if insufficient funds are available to meet expenditure commitments.

It is also possible that, in relation to the petroleum tenements that the Company or Advent Energy has an interest in or will in the future acquire such an interest, there may be areas over which legitimate common law native title rights of Aboriginal Australians exist. If native title rights do exist, the ability to gain access to tenements (through obtaining consent of any relevant landowner), or to progress from the exploration phase to the development and production phases of operations may be adversely affected.

The Directors will closely monitor the potential effect of native title claims involving petroleum tenements in which the Company has or may have an indirect interest.

Operational and technical risks

The current and future operations of Advent Energy and the Company's other investee entities, including exploration, appraisal and possible production activities may be affected by a range of factors, including:

- (a) geological and hydro geological conditions;
- (b) limitations on activities due to seasonal weather patterns and cyclone activity;

- (c) alterations to joint venture programs and budgets;
- (d) unanticipated operational and technical difficulties encountered in survey, drilling and production activities;
- (e) electrical and mechanical failure of operating plant and equipment, industrial and environmental accidents, industrial disputes and other force majeure events;
- (f) unavailability of aircraft or drilling equipment to undertake airborne surveys and other geological and geophysical investigations;
- (g) unavailability of shipping load space to transport product to overseas buyers;
- (h) unavailability of train and/or truck haulage services for the transport of product;
- (i) the supply and cost of skilled labour;
- (j) unexpected shortages or increases in the costs of consumables, diesel fuel, spare parts, plant and equipment; and

Resource estimates

Resource estimates are expressions of judgement based on knowledge, experience and industry practice. Estimates which were valid when made may change significantly when new information becomes available. In addition, resource estimates are imprecise and depend to some extent on interpretations, which may prove to be inaccurate. Should the Company's investee entities encounter formations different from those predicted by past sampling and drilling, resource estimates may have to be adjusted and mining plans altered in a way which could impact adversely on the Company's investment in those entities.

Access to infrastructure

Advent Energy will require access to processing and gas or liquids transmission facilities, including pipelines, in order to commercially exploit any hydrocarbons discovered. Third-party access to such infrastructure may depend on the level of uncontracted capacity available from time to time. Access to processing plant is likely to depend on the successful negotiation of commercial arrangements with the owner of such plant.

Investment speculative

The above list of risk factors should not be taken as exhaustive of the risks faced by the Company or by investors in the Company. The above factors and others not specifically referred to above, may in the future materially affect the financial performance of the Company and the value of the New Shares offered under the Rights Issue. Therefore, the New Shares to be issued pursuant to the Rights Issue carry no guarantee with respect to the payment of dividends, return of capital or the market value of those New Shares.

Potential investors should consider that the investment in the Company is speculative and should consult their professional advisers before deciding whether to apply for New Shares. Whilst the Directors have between them significant mineral exploration and operational experience, no assurances can be given that the Company will achieve commercial viability through the successful exploration and/or mining of its or its investee companies' tenement interests. Until the Company is able to realise value from its projects, it is likely to incur ongoing operating losses.
