3. Summary of the Acquisition

3.1 Background

On 27 February 2017, the Company announced that it had entered into a binding heads of agreement to acquire 100% of the issued capital of NiCo Minerals (**Acquisition**). NiCo Minerals, through its wholly owned subsidiary CE Metals s.r.o (**CE Metals**), owns the Dobsina Project, located in Slovakia.

Location

The Dobsina Project is located in central Slovakia, directly to the north of the small mining town of Dobsina. Excellent infrastructure exists within the vicinity of Dobsina including power, water and proximity to a railhead.

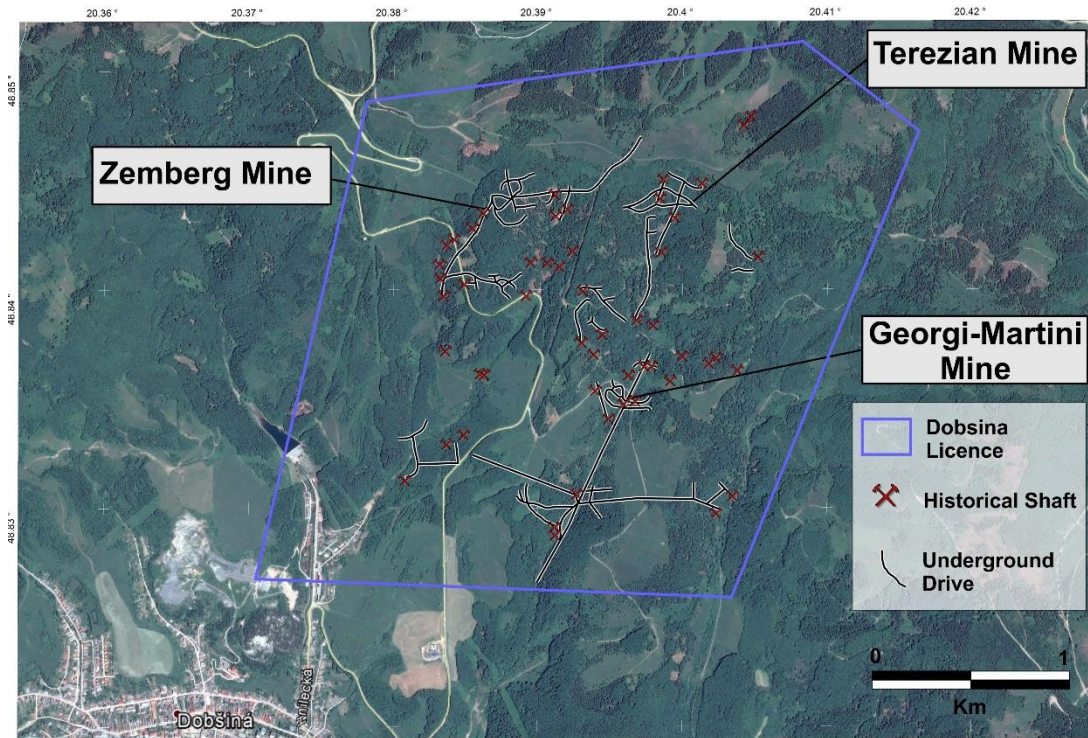

Figure 1: Dobsina Project Location Plan & Historical Mines

Tenement

The Tenement comprises the Dobsina Licence, which is licence number 2466/2017-5.3. The Tenement is an exploration licence covering 6.97km², and was granted on 27 January 2017 for a term of four years. The Tenement is held by CE Metals, a company incorporated in Slovakia on 17 November 2016.

There are no Slovak regulatory or third party approvals required with respect to a change of ownership of CE Metals.

Slovak Mining Code

The Slovak Republic has separate Mining and Exploration Codes, both dating back to 1988 but amended many times since. Exploration is governed by the so called Geological Law. The basic premise is to attract private investment to exploration by awarding exclusive exploration licences that can be converted to mining licences on an exclusive basis by the Licensee. Exploration licences are awarded on a first-come, first-served basis.

A resources company is restricted to four exploration permits with a maximum of 250 km² per permit. The exploration permits are valid for up to 4 years and can be extended multiple times.

The application must be filed either by a citizen of Slovakia or by a Slovak-registered company. Although not mandatory it is good practice to approach the local communities and discuss exploration plans before they are contacted by the Licensing authority.

Project Geology & Metallogenesis

The tectonic evolution and metallogeny of Slovakia is dominated by Hercynian and Alpine orogenic events. The present geologic architecture of Slovakia was formed during the Alpine orogeny that started in middle to late Cretaceous and led to thin-skin thrust faulting and development of mountain core complexes of the Alpine-Carpathian system. The Dobsina area lies at a major thrust contact between two regional tectonostratigraphic units called Veporicum (crystallinicum), and Gemericum (green-schist facies metamorphic rocks).

The following styles of mineralisation are observed at Dobsina:

1. Siderite hydrothermal veining (siderite-ankerite, quartz and sulphides). Based on the sulphides composition and abundance, these veins are subdivided into the four following categories:
 - a. Siderite-sulphide- Cu Veins
 - b. Antimony-Bismuth Veins
 - c. Carbonate-quartz-sulphide-Ni-Co Veins
 - d. Barite-Siderite veins with Cu-Hg
2. Metasomatic Fe-carbonate replacement
3. Stratiform sediment hosted Ag-Au
4. Stratiform sediment hosted magnetite-hematite

Figure 2: Geological and Mineralisation Model (Adapted from Grecula, 1995)

The siderite-quartz cobalt-nickel veins are located within two main east-west tectonic zones along a fault contact between a gneiss-amphibolite and underlying phyllite-green schist. The contact - a shear zone - is marked by occurrence of black carbon-rich lenses and are inferred as being a hydrothermal solution conduit, with solutions rising along fault structures into the overlying gneiss and amphibolite. The veins cut across foliation and are generally steeply dipping to the south.

Historical Mining

Iron ore was initially mined within the Dobsina Project in the 13th century and continued through to the early 20th century. Several smelters operated in the vicinity of the Dobsina Project. Mining of copper ore commenced in the 14th century, with intermittent production to the 19th century.

In 1780 a Saxon miner discovered the presence of cobalt and nickel at Dobsina, which triggered the mines expansion that lasted to the end of the 19th century. While most of the cobalt-nickel mineralisation was found in hydrothermal vein systems cutting the gneiss-amphibolite, cobalt-nickel mineralisation was also found in other settings such as veinlet disseminated in siderite-ankerite lenses as well as in veins hosted in the unfolded overlying carboniferous sedimentary rocks.

Figure 3: Gothard Underground Drive

Figure 4: Historical Waste Dump at Dobsina

Extensive historical production records are presently being digitised and translated. Further releases will be made upon completion of this digitising process.

A report, “*Banske Mesto Dobsina, 2013*” prepared by the Slovak Ministry of Interior, documents a summary of the historical production grades for the Dobsina Project.

Many of the historical stopes and drives are accessible and will be explored as part of the due diligence investigations in the Acquisition.

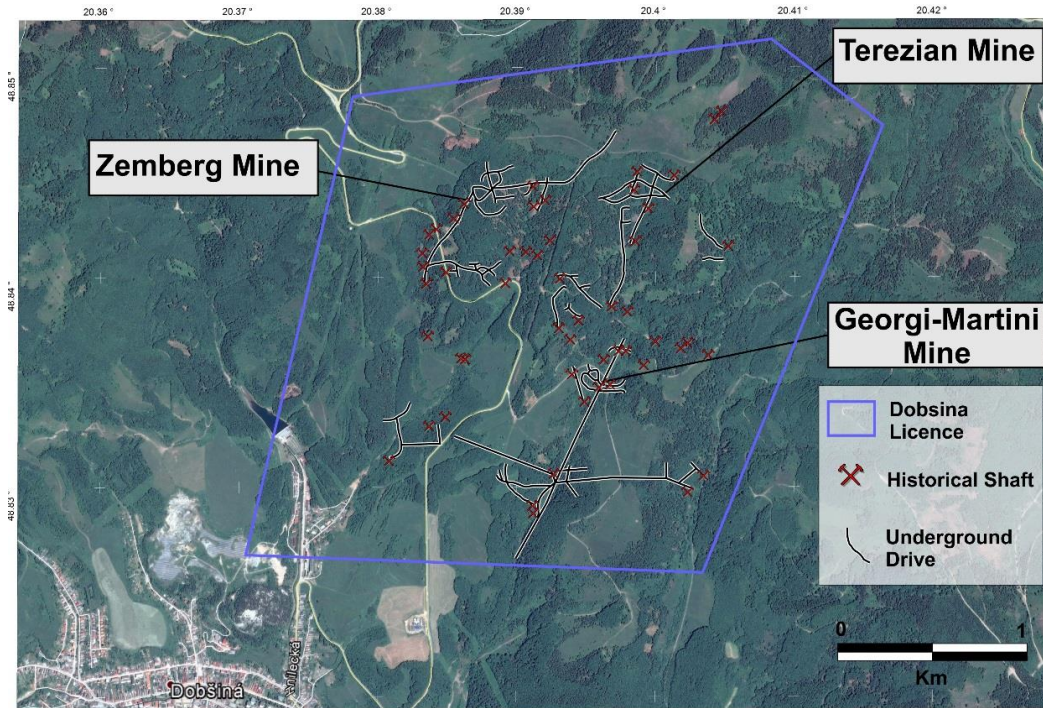

Figure 6: Historical Mining Activity Dobsina Project

Northern (Terezian) Vein System:

1,500m strike, 300m depth and 0.7-1.5m wide mineralisation. Distinct metal zonation is evident with more copper abundant mineralisation in the upper parts whereas nickel-cobalt dominant mineralisation occurs in the lower part of the vein system. Lower extents veins exploited at grades of up to 8% Co and 17% Ni. Upper levels reported grade of 1-7% Cu, 200-900 g/t Ag, 0.6-5.9% Sb, 0.1-0.3% Co, and 0.1-0.6% Ni.

Zemberg Vein System:

The Zemberg Vein system consists of three discrete vein sets, Severna, Hlavna, and Juzna. The mineral assemblage of the veins consists of siderite, ankerite, quartz, sulphides and abundant nickel-cobalt sulphide minerals. Minor siderite-barite and copper minerals are also present. Veins commonly display crack seal texture. Rozlozsnika, 1935 commented “Zemberg ore contained an average of 4% Co and 16% Ni.

Southern (Georgi- Martini) Vein System:

The Georgi-Martini vein system extends over a ~1,500m strike length, with grades of up to 2% Co and 28% Ni. The Georgi Adit contains east-west trending siderite bodies with sulphide and sulphoarsenide veinlets.

Martini vein mineralisation is located along the contact of gneiss and Carboniferous clastic sediments. The vein strikes east-west and dips 80 to 90°. Vein matrix comprises of major coarse siderite and minor milky quartz cut by gersdorffite veinlets with minor chalcopyrite and rare arsenopyrite.

About Cobalt

Cobalt reached a spot price of US\$53,000/t in March 2017 representing a >60% increase in price since January 2017. The primary drivers for this price increase include:

- Recent surge in demand from the energy storage market;
- Supply challenges associated with the Democratic Republic of Congo (DRC) producing 60% of global cobalt production; and

- Lack of recent exploration discoveries.

4. Resolution 1 – Approval of Acquisition of NiCo Minerals

4.1 General

As outlined in Section 3 of this Explanatory Memorandum, the Company is proposing to acquire all of the shares in NiCo Minerals from the Vendors.

The Acquisition is subject to the conditions set out in Section 3.2(e) above, including the requirement to obtain Shareholder approval.

A detailed description of the proposed Acquisition and NiCo Minerals' assets is outlined in Section 3 above.

Listing Rule 7.1 provides that a company must not (subject to specified exceptions), without the approval of shareholders, issue or agree to issue during any 12 month period any equity securities, or other securities with rights to conversion to equity (such as an option), if the number of those securities exceeds 15% of the number of ordinary securities on issue at the commencement of that 12 month period.

Given the Consideration Securities to be issued under Resolution 1 will exceed the 15% threshold set out in Listing Rule 7.1 and none of the exceptions contained in Listing Rule 7.2 apply, Shareholder approval is required under Listing Rule 7.1.

Resolution 1 seeks Shareholder approval pursuant to Listing Rule 7.1 to issue the Consideration Shares to the Vendors or their nominees as consideration for the Acquisition.

None of the Vendors, as individuals and together with their respective associates, will control more than 19.9% of the Shares upon Completion.

Resolution 1 is an ordinary resolution. Resolution 1 is subject to the approval of each of the other Acquisition Resolutions.

4.2 Specific Information required by Listing Rule 7.3

The following information is provided for the purposes of Listing Rule 7.3:

- The maximum number of securities the Company will issue under Resolution 1 is 286,666,667 Shares and 73,333,334 Performance Shares (36,666,667 Class A Performance Shares and 36,666,667 Class B Performance Shares), and 73,333,334 Shares on conversion of all Performance Shares.
- The Consideration Securities will be issued to the Vendors or their nominees, none of whom are related parties of the Company.

- (c) The Consideration Securities will be issued no later than three months after the date of the Meeting (or such longer period of time as ASX may in its discretion allow) and it is intended that the Consideration Securities will be issued on the same date, being the date of completion of the Acquisition.
- (d) The Consideration Securities will be issued for nil cash consideration as they are being issued as part of the consideration for the Acquisition. Accordingly, no funds will be raised from the issue of the Consideration Shares.
- (e) The Shares issued will be fully paid ordinary shares in the capital of the Company issued on the same terms and conditions as the Company's existing Shares and the Performance Shares will be issued on the terms and conditions as set out in Schedule 1.
- (f) A voting exclusion statement is included in the Notice.

5. Resolution 2 – Approval of new class of Securities – Performance Shares

The Company seeks Shareholder approval to create the Performance Shares as a new class of Shares on the terms and conditions in Schedule 1.

Under Clause 3.1 of the Constitution and subject to the Corporations Act, the Listing Rules and the Constitution, the Directors may at any time issue such number of shares either as ordinary shares or shares of a named class or classes (being either an existing class or a new class) at the issue price that the Directors determine.

Section 246C(5) of the Corporations Act provides that if a company has one class of share and seeks to issue a new class of share, such issue is taken to vary the rights attached to the shares already issued.

Under section 246B(1) of the Corporations Act, if a company has a constitution which sets out the procedure for varying or cancelling (in the case of a company with share capital) rights attached to shares in a class of shares, those rights may be varied or cancelled only in accordance with the procedure.

In accordance with Clause 3.7 of the Constitution, if at any time the share capital of the Company is divided into different classes of shares, the rights attached to any class (unless otherwise provided by the terms of issue of the shares of that class) may be varied, whether or not the Company is being wound up:

- (a) with the consent in writing of the holders of three quarters of the issued shares of that class; or
- (b) authorised by a special resolution passed at a separate meeting of the holders of the shares of the class.

Accordingly, the Company seeks approval from Shareholders for the issue of the Performance Shares as a new class of shares on the terms set out in Schedule 1 of this Explanatory Memorandum.

The Company has applied to ASX seeking confirmation that the terms of the Performance Shares are appropriate and equitable for the purposes of Listing Rule 6.1. ASX is considering the application.

Resolution 2 is a special resolution. Resolution 2 is subject to the passing of each of the other Acquisition Resolutions.

6.1 General

On 27 February 2017, the Company issued 18,333,334 Shares to the Vendors (**Option Fee Shares**) pursuant to the Acquisition Agreement, as consideration for the exclusive right to conduct due diligence on NiCo Minerals and as reimbursement of prior expenses.

Resolution 3 seeks Shareholder ratification pursuant to Listing Rule 7.4 for the issue of those Option Fee Shares.

A summary of Listing Rule 7.1 is provided in Section 4.1.

Listing Rule 7.4 sets out an exception to Listing Rule 7.1. It provides that where a company in general meeting ratifies the previous issue of securities made pursuant to Listing Rule 7.1 (and provided that the previous issue did not breach Listing Rule 7.1) those securities will be deemed to have been issued with shareholder approval for the purpose of Listing Rule 7.1.

By ratifying the issue of the Option Fee Shares, the Company will retain the flexibility to issue equity securities in the future up to the 15% annual placement capacity set out in Listing Rule 7.1 without the requirement to obtain prior Shareholder approval.

8. Resolution 5 – Ratification of prior issue – Placement Fee Shares

8.1 General

In connection with the Placement referred to in Section 7.1, on 27 February 2017, the Company issued a total of 5,076,923 Shares (**Placement Fee Shares**) to sophisticated investors known to the Company, as a capital raising fee for assisting with the arrangement of the Placement.

Resolution 5 seeks Shareholder ratification pursuant to Listing Rule 7.4 for the issue of the Placement Fee Shares.

A summary of Listing Rule 7.1 is provided in Section 4.1. A summary of Listing Rule 7.4 is provided in Section 6.1.

By ratifying this issue, the Company will retain the flexibility to issue equity securities in the future up to the 15% annual placement capacity set out in Listing Rule 7.1 without the requirement to obtain prior Shareholder approval.

8.2 Technical information required by Listing Rule 7.4

Pursuant to and in accordance with Listing Rule 7.5, the following information is provided in relation to the issue of the Placement Fee Shares:

- (a) 5,076,923 Shares were issued.
- (b) The Shares were issued for nil cash consideration, as they were issued as a capital raising fee for assisting with the arrangement of the Placement.
- (c) The Shares issued were all fully paid ordinary shares in the capital of the Company issued on the same terms and conditions as the Company's existing Shares.
- (d) The Shares were issued to sophisticated investors known to the Company, none of whom were related parties of the Company.

- (e) No funds were raised from the issue of the Shares.
- (f) A voting exclusion statement is included in the Notice.

9. Resolution 6 – Change of Company Name

As part of the Acquisition, the Directors have determined to change the Company name to European Cobalt Limited. Resolution 6 seeks Shareholder approval for the change of name in accordance with section 157 of the Corporations Act.

Resolution 6 is a special resolution. Resolution 6 is subject to the passing of each of the other Acquisition Resolutions.

The change of name of the Company will take effect from when ASIC alters the details of the Company's registration.

10. Resolutions 7 to 9 – Issues of Options to Directors

10.1 General

It is proposed that a total of 10,000,000 Director Options be issued to three of the existing directors of the Company – 4,000,000 Director Options to Mr Eddie King (Resolution 7), 3,000,000 Director Options to Mr Don Carroll (Resolution 8) and 3,000,000 Director Options to Mr Nathan Taylor (Resolution 9). The issue of these securities will be conditional upon Completion.

Listing Rule 10.11 provides that a company must not (subject to specified exceptions) issue or agree to issue equity securities to a related party without the approval of shareholders. Messrs King, Carroll, and Taylor are related parties by reason of their being directors and therefore approval is required under Listing Rule 10.11 for the issue of Director Options to them.

Resolutions 7, 8 and 9 seek Shareholder approval pursuant to Listing Rule 10.11 for the issue of the Director Options to Messrs King, Carroll, and Taylor. If approval is given under Listing Rule 10.11, Shareholder approval is not required under Listing Rule 7.1. Furthermore, Shareholder approval of the issue of these Director Options means that these issues will not reduce the Company's 15% placement capacity under Listing Rule 7.1.

The Board (other than each director in relation to the issue of Director Options to them, in which case they decline to make a recommendation) supports the issue of Director Options to each of Messrs King, Carroll and Taylor.

The Company is not seeking Shareholder approval for the financial benefit covered by Resolutions 7, 8 and 9, as the Board has resolved that the financial benefit to be provided to the directors pursuant to the issue of the Director Options comes within the reasonable remuneration exemption to Chapter 2E of the Corporations Act 2001 (Cth).

Resolutions 7, 8 and 9 are all ordinary resolutions.

10.2 Technical information required by Listing Rule 10.13

For the purposes of Listing Rule 10.13, information regarding the issue of the Director Options to the existing Directors is provided as follows:

- (a) The maximum number of Shares to be issued to the Directors (and/or their nominees) is:
 - (i) (Resolution 7) Mr Eddie King (and/or his nominees) – 4,000,000 Director Options

- (ii) (Resolution 8) Mr Don Carroll (and/or his nominees) – 3,000,000 Director Options;
 - (iii) (Resolution 9) Mr Nathan Taylor (and/or his nominee) – 3,000,000 Director Options.
- (b) The Company will issue the Director Options in each case by no later than one month after the Meeting (or such later date to the extent permitted by any ASX waiver or modification of the Listing Rules).
 - (c) The Director Options will be issued to each of Messrs King, Carroll, and Taylor, for nil cash consideration.
 - (d) The Director Options will be issues on the terms and conditions set out in Schedule 2.
 - (e) A voting exclusion statement is included in the Notice for each of Resolutions 7, 8 and 9.

11. Resolution 10 – Section 195 Approval

Section 195 of the Corporations Act essentially provides that a director of a public company may not vote or be present during meetings of directors when matters in which that director holds a “material personal interest” are being considered.

Some of the Directors may have a material personal interest in the outcome of Resolutions 7, 8 and 9. In the absence of this Resolution 10, the Directors may not be able to form a quorum at directors’ meetings necessary to carry out the terms of Resolutions 7 to 9.

The Directors have accordingly exercised their right under section 195(4) of the Corporations Act to put the issue to Shareholders to resolve.
