### Projects

Mt Mulcahy: Cu Zn Ag

### HIGHLIGHTS

- Mining Lease applied for over E20/422
- Board continues to review both regional and other project opportunities

Pegasus Metals Limited (ASX: PUN) provides the following report on its activities during the March 2017 quarter.

### MT MULCAHY COPPER PROJECT, Murchison, WA

#### Geology Discussion:

The Mt Mulcahy project hosts the Mount Mulcahy copper-zinc deposit, volcanic-hosted massive sulphide (VMS) zone of mineralisation, with a JORC 2012 Measured, Indicated and Inferred Resource of 647,000 tonnes @ 2.4% copper, 1.8% zinc, and 20g/t Ag (refer ASX release 25 September 2014) at the 'South Limb Pod' (SLP).

The horizon hosting this mineralisation can be traced for a distance of at least 12 kilometres along strike and excellent potential exists for additional mineralisation to be discovered along this prospective horizon.

#### Geology Activities:

The Company has applied for a Mining Lease (MLA20/535) to cover tenement E20/422, containing the SLP resources and potential extensions of the VMS horizon.

Proposed drilling was deferred during the current quarter, with inclement weather impacting planning. The drilling is now expected to commence during the June 2017 quarter.

Planned drilling comprises down-plunge extensional holes to the current resource, to better understand mineralising controls, and apply them to additional targets (refer Figures 1, 2 and 3).

Programme of Works approval is in place, and the programme consists of 3 holes for a total advance of around 800m, with each hole consisting of an RC pre-collar, and approximately 60m diamond tails.

Downhole TEM acquisition, processing and interpretation is also planned at the conclusion of the drilling programme.

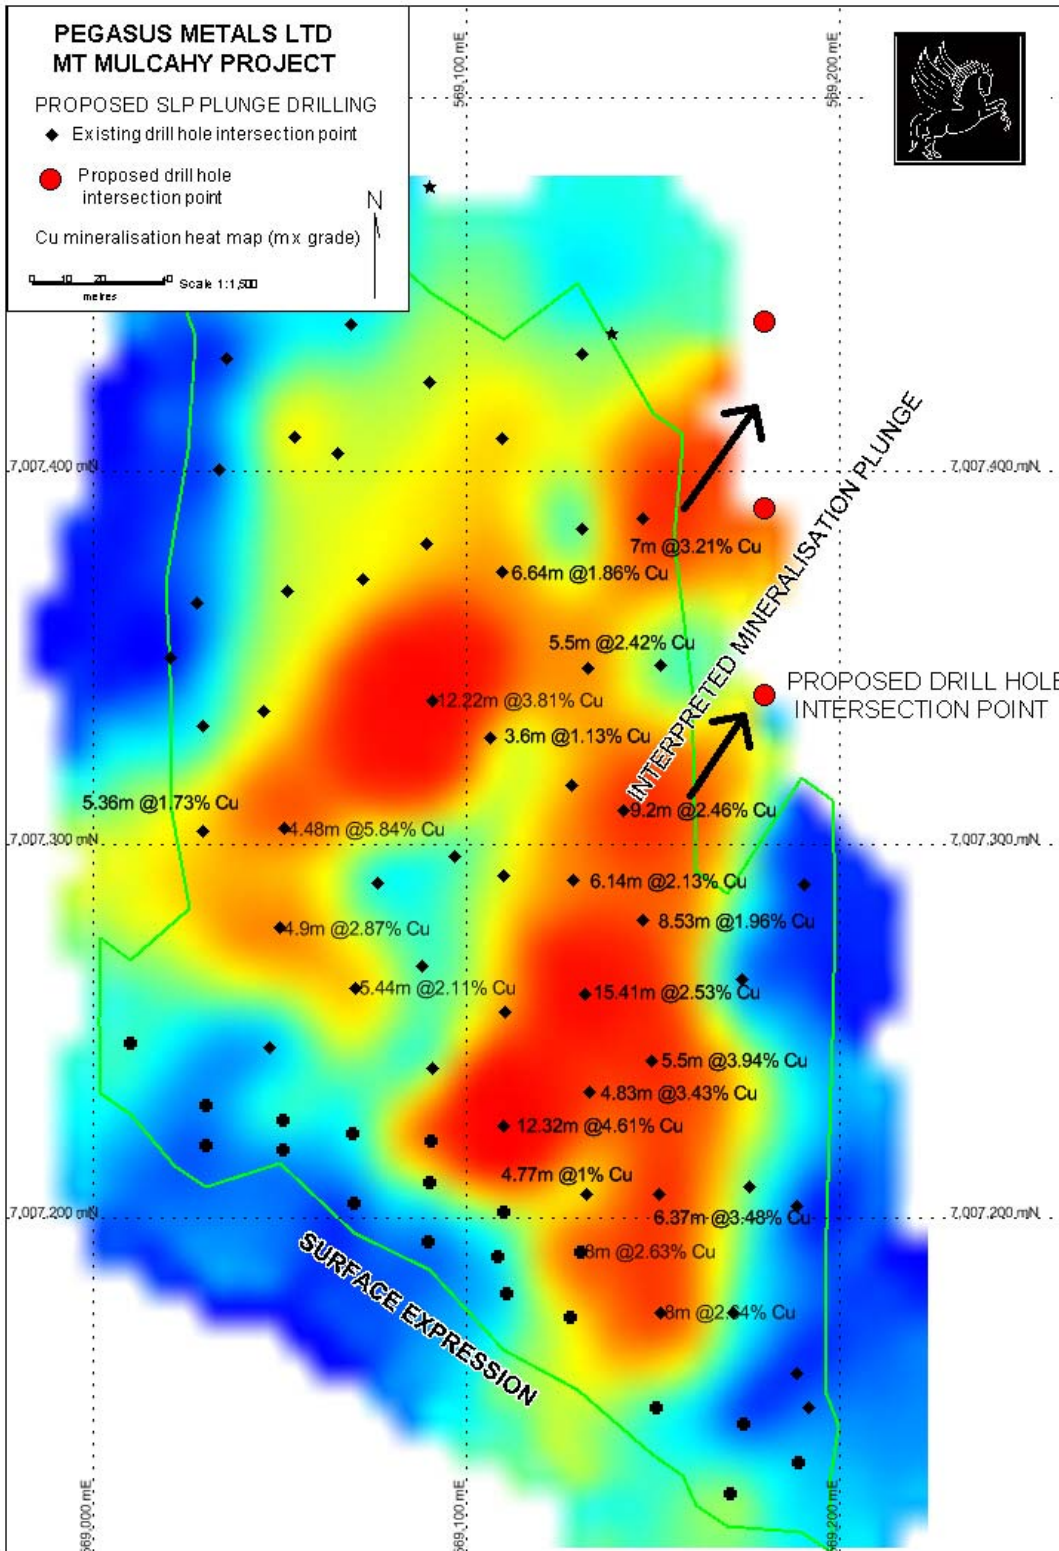

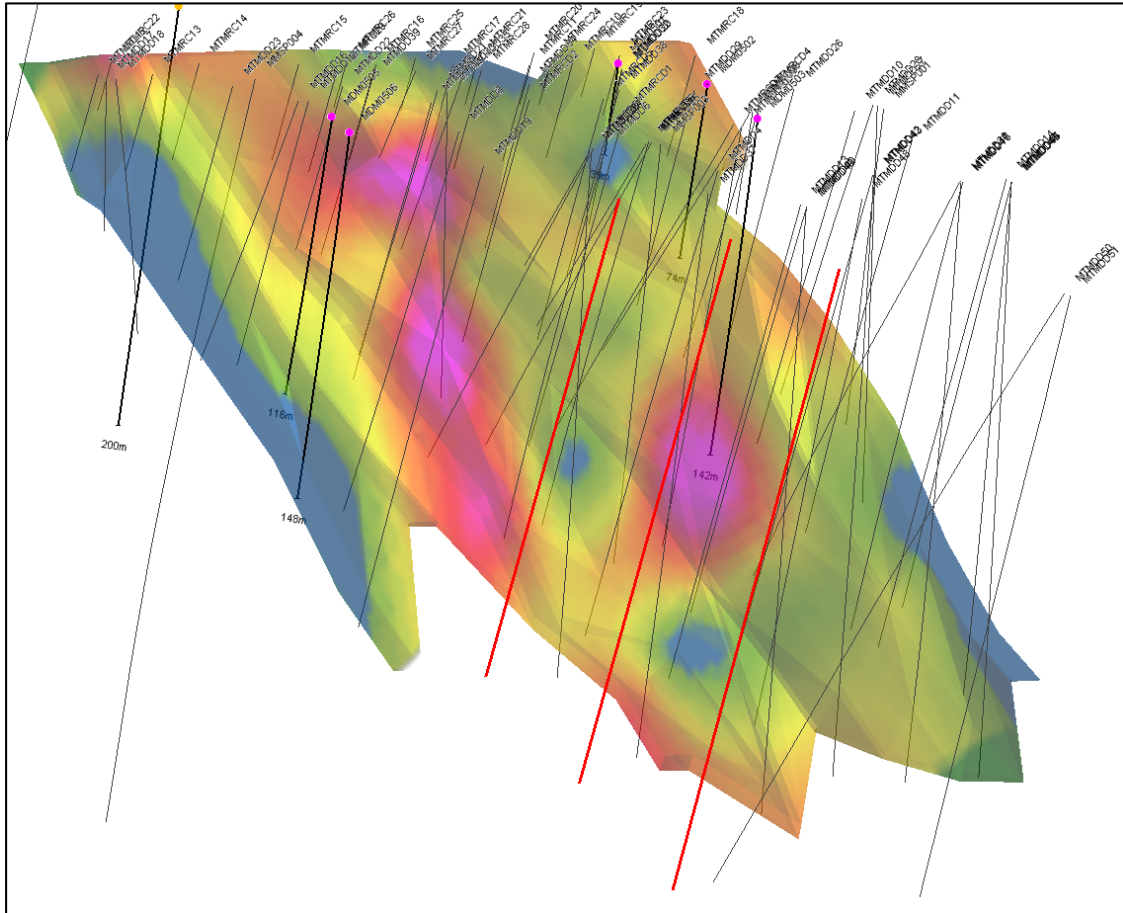

Figure 1: Plan of proposed SLP down plunge drilling.

**Figure 2: Oblique section of proposed SLP down plunge drilling (red traces), viewed from North East. Previous drilling defining the current resource denoted by grey or black traces.**

**NEW OPPORTUNITIES**

During the March 2017 quarter, Pegasus Metals continued to look for growth opportunities that would benefit shareholders, including potential company mergers and advanced exploration or mining project acquisitions, with a particular focus on copper and other base metals.

The Company continues a programme of conceptual targeting of greenfields exploration opportunities within Australia.

Projects located in the Murchison district, that further support the development of the Company’s Mt Mulcahy Project, are a particular focus of the Board in its ongoing assessment of new opportunities.

**CORPORATE**

As noted in the previous quarterly, Non-Executive Director Mr Neil Porter resigned as a Director of the Company on 29 November 2016. However, the personal circumstances that lead to his resignation had subsequently changed and he agreed to be reappointed as a Director. Mr Porter was re-appointed on 13 January 2017.

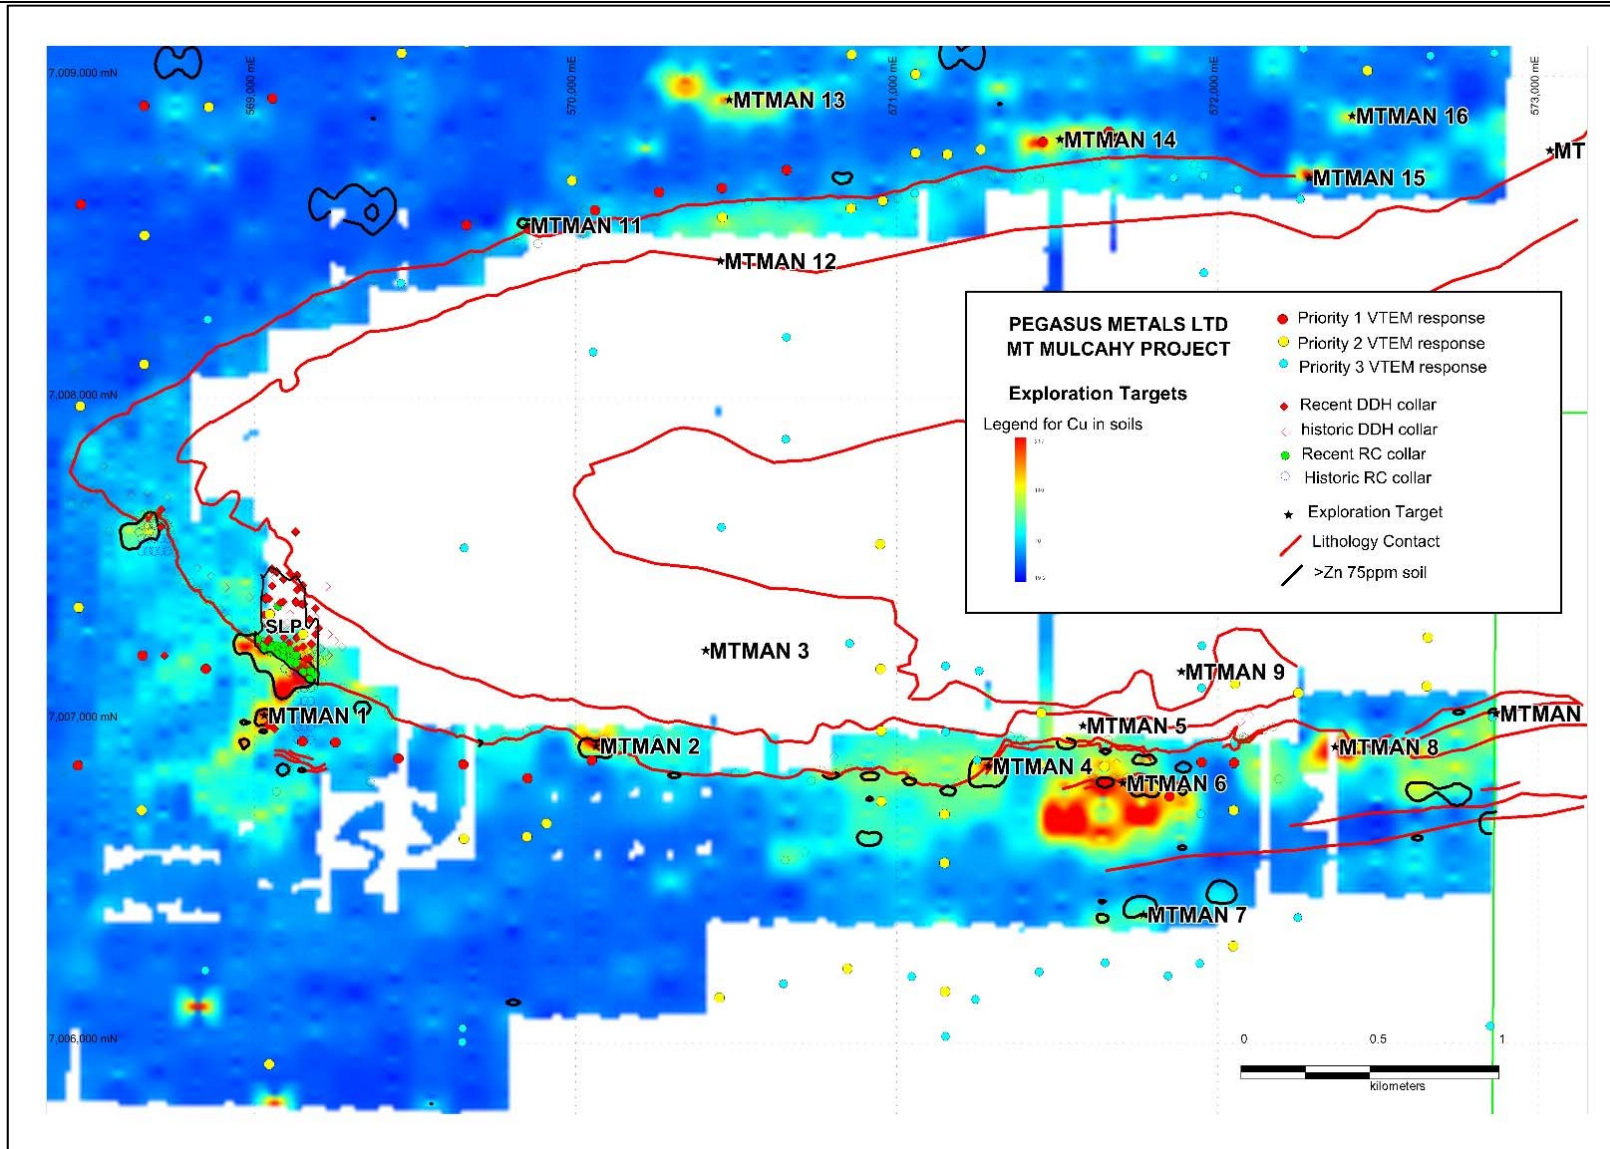

Figure 3: Mt Mulcahy priority exploration areas (MTMAN designation), in relation to South Limb Pod (SLP), shown with soil geochemistry, VTEM anomalies, and lithology contacts.

### **Competent Persons Statements**

*Information in this announcement that relates to the Mt Mulcahy Mineral Resource estimations has been compiled by Rob Spiers, who was an employee of geological consultants H&S Consultants Pty Ltd at the time of resource reporting and a Member of The Australian Institute of Geoscientists. Mr Spiers has sufficient experience which is relevant to the style of mineralisation and type of deposit under consideration and to the activity which he is undertaking to qualify as a Competent Person as defined in the 2012 Edition of the 'Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves'. The Company confirms that the form and context in which the information is presented has not been materially modified and it is not aware of any new information or data that materially affects the information included in the relevant market announcements, as detailed in the body of this announcement. All material assumptions and technical parameters underpinning the Mineral Resource estimates continue to apply and have not materially changed.*

*Information in this announcement that relates to Exploration Results has been compiled by Michael Fotios who is a consultant geologist, director of Pegasus Metals Limited and a member of the Australian Institute of Mining and Metallurgy. Mr Fotios has sufficient experience which is relevant to the style of mineralisation and type of deposit under consideration and to the activity which he is undertaking to qualify as a Competent Person as defined in the 2004 and 2012 Edition of the 'Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves'. The Exploration Results were released to ASX on 17 September 2012, 15 November 2012, 24 January 2013, 11 April 2013, 1 May 2013, 15 May 2013, 5 June 2013 and 30 August 2013. The Company confirms that the form and context in which the information is presented has not been materially modified and it is not aware of any new information or data that materially affects the information included in the relevant market announcements, as detailed in the body of this announcement. Mr Fotios consents to the inclusion of the information in this announcement in the form and context in which it appears.*

### **Forward Looking Statements**

*Pegasus Metals Ltd has prepared this announcement based on information available to it. No representation or warranty, express or implied, is made as to the fairness, accuracy, completeness or correctness of the information, opinions and conclusions contained in this announcement. To the maximum extent permitted by law, none of Pegasus Metals Ltd, its directors, employees or agents, advisers, nor any other person accepts any liability, including, without limitation, any liability arising from fault or negligence on the part of any of them or any other person, for any loss arising from the use of this announcement or its contents or otherwise arising in connection with it. This announcement is not an offer, invitation, solicitation or other recommendation with respect to the subscription for, purchase or sale of any security, and neither this announcement nor anything in it shall form the basis of any contract or commitment whatsoever. This announcement may contain forward looking statements that are subject to risk factors associated with exploration, mining and production businesses. It is believed that the expectations reflected in these statements are reasonable but they may be affected by a variety of variables and changes in underlying assumptions which could cause actual results or trends to differ materially, including but not limited to price fluctuations, actual demand, currency fluctuations, drilling and production results, reserve estimations, loss of market, industry competition, environmental risks, physical risks, legislative, fiscal and regulatory changes, economic and financial market conditions in various countries and regions, political risks, project delay or advancement, approvals and cost estimate.*

## **Addendum - Tenement Table ASX Listing Rule 5.3.3**

➤ ***The mining tenements held at the end of each quarter and their location***

TENEMENT No.	LOCATION	STATUS	INTEREST %	HOLDER
E20/422	WA	Granted	100	Black Raven Mining Pty Ltd
E20/840	WA	Granted	100	Pegasus Metals Ltd

The Group holds a 100% interest in the E20/422 pursuant to an executed Tenement Sale Agreement with Black Raven Mining Pty Ltd dated 14 June 2012. Transfer of the tenement to the Group is pending with the remaining step being submission of duty-stamped Tenement Sale Agreement and transfer form to the DMP.

➤ ***The mining tenements disposed of during the quarter and their location***

Nil

➤ ***The beneficial percentage interests held in farm-in or farm-out agreements at the end of the quarter***

Nil

➤ ***The beneficial percentage interests in farm-in or farm-out agreements acquired or disposed of during the quarter***

Nil

**Notes**

1. The quarterly report provides a basis for informing the market how the entity's activities have been financed for the past quarter and the effect on its cash position. An entity that wishes to disclose additional information is encouraged to do so, in a note or notes included in or attached to this report.
2. If this quarterly report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, AASB 6: Exploration for and Evaluation of Mineral Resources and AASB 107: Statement of Cash Flows apply to this report. If this quarterly report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standards apply to this report.
3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
