

Indian Distributorship Agreement entered into with Novabeans®

Aurora Labs Limited (“Aurora” or “the Company”) is pleased to announce that it has signed a distribution agreement with Novabeans Prototyping Labs (“the Distributor” or “Novabeans®”). The agreement provides that the Distributor will sell, market, distribute, install, maintain and service Aurora’s Small Format Printer (SFP), spare parts and consumables. The Distributor has a sole licence to operate in India and a non-exclusive licence to operate in Sri Lanka, Nepal and Bhutan.

The financial terms of the agreement are commercial in confidence.

Aurora believes that the agreement will provide an exciting opportunity for the Company to enter the Indian market, with a population base of 1.2 billion people and one of the world’s fastest growing economies. India is undergoing massive industrialisation and according to a 2016 report published by the United Nations Industrial Development Organization has now grown to be the world’s sixth largest manufacturing country.¹

Aurora is confident that its SFP machines will be well received in India due to its competitive functionality at a very reasonable price. The agreement gives Aurora access to the huge Indian market without the requirement to develop expensive infrastructure in that country.
