1. General information

Alacer Gold Corp. ("Alacer" or the "Corporation") is an intermediate gold mining company with an 80% interest in the Çöpler Gold Mine in Turkey operated by Anagold Madencilik Sanayi ve Ticaret A.S. ("Anagold") owned 80% by Alacer and 20% by Lidya Madencilik Sanayi ve Ticaret A.S. ("Lidya Mining").

The Corporation is incorporated under the laws of the Yukon Territory, Canada. The address of its registered office is 3081 Third Avenue, Whitehorse, Yukon, Y1A 4Z7. Corporate administrative services are provided by Alacer Management Corp.

These unaudited interim consolidated financial statements of the Corporation as of and for the period ended March 31, 2017 are comprised of the Corporation, its subsidiaries, and joint ventures accounted for as equity investment (together referred to as the "Group" individually as "Group entities"). The Corporation is the ultimate parent.

2. Basis of presentation

These unaudited interim consolidated financial statements of the Corporation have been prepared in accordance with International Financial Reporting Standards ("IFRS"), including International Accounting Standard ("IAS") 34, Interim Financial Reporting. The accounting policies applied in these unaudited interim consolidated financial statements are consistent with those used in the Group's audited consolidated financial statements for the year ended December 31, 2016. There have been no changes from the accounting policies applied in the December 31, 2016 financial statements.

The preparation of interim financial statements requires management to make judgments, estimates, and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income, and expense. In management's opinion, all adjustments considered necessary for a fair presentation have been included in these interim financial statements. Interim results are not necessarily indicative of the results expected for the financial year. Actual annual results may differ from interim estimates. The significant judgments made by management applied in the preparation of these unaudited interim consolidated financial statements are consistent with those applied and disclosed in the Group's audited consolidated financial statements for the year ended December 31, 2016. For a description of the Group's critical accounting estimates and assumptions, please refer to the Group's audited consolidated financial statements and related notes for the year ended December 31, 2016.

These unaudited interim consolidated financial statements were authorized for issue by the Board of Directors on May 2, 2017.

3. Accounting changes

a) New accounting standards issued but not yet effective

The following new standards, new interpretations and amendments to standards and interpretations have been issued but are not effective until financial years beginning on or after January 1, 2018 and have not been early adopted. Pronouncements that are not applicable to the Group have been excluded from those described below.

- i) Accounting standards effective on or after January 1, 2018:
 - A. The International Accounting Standards Board ("IASB") has issued a new standard for the recognition of revenue, IFRS 15 *Revenue from Contracts*. This standard will replace IAS 18 which covers contracts for goods and services and IAS 11 which covers construction contracts. The new standard is based on the principle that revenue is recognized when control of a good or service transfers to a customer so the notion of control replaces the existing notion of risks and rewards. The standard permits a modified retrospective approach for the adoption. Under this approach, entities recognize transitional adjustments in retained earnings on the date of initial application (i.e. January 1, 2018), without restating the comparative period. They will only need to apply the new rules to contracts that are not completed as of the date of initial application. The standard is effective for annual reporting periods beginning on or after January 1, 2018. Early adoption is permitted. The Corporation has evaluated the new standard and does not anticipate any impact from the adoption on its results of operations, financial position, and disclosures.
 - B. IFRS 9 addresses the classification, measurement and derecognition of financial assets and financial liabilities and introduces new rules for hedge accounting. In July 2014, the IASB made further changes to the classification and measurement rules and also introduced a new impairment model. These latest amendments now complete the new financial instruments standard. IFRS 9 is effective for annual periods beginning on or after January 1, 2018 with early adoption permitted. The Corporation has evaluated the change in the standard and does not anticipate any impact from the adoption but will continue to monitor as the adoption period approaches.
 - C. In January 2016, the IASB issued IFRS 16 *Leases* which establishes the principles that an entity should use to determine the recognition, measurement, presentation and disclosure of leases for both parties to a contract, i.e. the customer ('lessee') and the supplier ('lessor'). IFRS 16 replaces the previous leases Standard, IAS 17, *Leases*, and related Interpretations. IFRS 16 is effective from January 1, 2019 though a company can choose to apply IFRS 16 before that date but only in conjunction with IFRS 15 *Revenue from Contracts with Customers*. The Corporation has evaluated the new standard and does not anticipate any impact from the adoption of this standard but will continue to monitor as the adoption period approaches.
 - D. In June 2016, the IASB issued amendments to IFRS 2, clarifying how to account for certain types of share-based payment transactions, including the accounting for the effects of vesting and non-

vesting conditions on the measurement of cash-settled share-based payments, accounting for share-based payment transactions with a net settlement feature for withholding tax obligations, and accounting for modifications to the terms and conditions of a share-based payment that changes the classification of the share-based payment transaction from cash-settled to equity-settled. The IFRS 2 amendments are effective for annual periods beginning on or after January 1, 2018. The Company is in the process of evaluating the impact of adopting these amendments to its consolidated financial statements.

Mineral properties represent assets subject to depreciation including production stage properties, capitalized mine development costs related to current production, and capitalized pre-production stripping.

8. Income taxes

a) Income tax expense - The following table summarizes activities for the periods ended:

	Fo	For the three months ended					
	March 31,			March 31,			
		2017		2016			
Current income tax expense	\$	1,082	\$	280			
Deferred income tax benefit		(25,743)		(2,004)			
Income tax benefit	\$	(24,661)	\$	(1,724)			

On an interim basis, income tax expense is recognized based on Management's estimate of the corporate annual income tax rate expected for the full year applied to the pre-tax income (loss) of the interim period.

The Corporation receives incentive tax credits for qualifying expenditures at the Çöpler Gold Mine. Application of these tax credits reduces income tax expense in the current period and offsets current and future cash tax payments.

Construction-in-progress and Non-producing properties are not subject to depreciation. Construction-in-progress includes the Sulfide Project costs incurred following construction approval and sustaining capital expenditures. Non-producing properties includes the Sulfide Project costs incurred prior to construction approval and other capitalized mine development costs not yet in production.

Forward sales settled in 2016 & Q1 2017	72,783	 1,282	
Forward Sales Program Total	204,783	\$ 1,281	

Forward gold sales are settled in cash during the settlement period. Realized and unrealized gains (losses) are recorded as Other (Gain) Loss in the Consolidated Statements of Profit and Comprehensive Profit. See Note 18.

Fair value methodology

In accordance with IAS 39, a three level hierarchy was evaluated to determine the applicable fair value accounting methodology to be used for the hedge instrument. Level 2 of the hierarchy is applicable and therefore, the Corporation calculates fair value of financial instruments utilizing observable market data and other inputs. The observable market data utilized is the London AM Fix and the forward gold curve.

12. Borrowings

On June 16, 2016, the Corporation signed a \$350 million project finance facility with a syndicate of lenders (BNP Paribas (Suisse) SA, ING Bank A.S., Societe Generale Corporate & Investment Banking and UniCredit Bank Austria AG). The facility has no mandatory hedging, has an 8-year term, and interest rates of LIBOR plus 3.5% to 3.95%. As of March 31, 2017, the Corporation has no outstanding debt balances that are owed for credit facilities or debt arrangements. The costs to establish and finalize the financing facility (including syndicate bank fees, legal and accounting fees, investment and registration fees, and other agency fees) was \$10.4 million, which will be amortized over the life of the loan when the finance facility is drawn (see Note 9).

b) Share-based payments

i) Restricted share unit plan

On June 2, 2011, the Corporation adopted two new RSU plans, the 2011 RSU plan and the Non-Executive Director (NED) RSU Plan (collectively, the "Alacer RSU Plans"). Each RSU becomes payable as they vest over their lives, typically at three years, are subject to normal performance criteria, and entitles participants to receive one common share of the Corporation. Alternatively, the Corporation, at its discretion, may elect to satisfy all or part of its payment obligation in cash.

The following table summarizes activity for the years through March 31:

ii) Performance share unit plan

In August 2014, the Board of Directors approved a performance share unit ("PSU") plan (the "PSU Plan") for senior employees and officers. Each PSU granted entitles the participant, at the end of the applicable performance period (typically three years), to receive a payment in cash for the equivalent value of one Share provided: (i) the participant continues to be employed or engaged by the Corporation or any of its affiliates, and (ii) all other terms and conditions of the grant have been satisfied, including the performance metrics associated with each PSU. The grant of a PSU does not

entitle the PSU participant to exercise any voting rights, receive any dividends or exercise any other right which attaches to ownership of Shares in the Corporation.

iii) Deferred share unit plan

In May 2009, shareholders approved a deferred share unit ("DSU") plan (the "DSU Plan") pursuant to which directors of the Corporation may be granted DSUs. On June 2, 2011, shareholders approved an amendment to the DSU Plan stating no additional grants of units would be made under the DSU Plan after June 2, 2011, and the DSU Plan would remain in effect until all DSUs granted under the DSU Plan have been redeemed. In 2015, a new DSU plan was approved. DSUs are valued based on the share price and settled in cash when the director's term concludes.

Polimetal Madencilik Sanayi Ticaret Anonim Şirketi (Note 17)	Turkey	50%	20%

As of December 2016, Alacer's interest in the Polimetal joint venture increased to 50% upon funding of the previously exercised clawback right in the Gediktepe Project.

Non-controlling interest represents the interest of Lidya Mining in Anagold, based on investment amounts adjusted for its share of profit or losses. Lidya Mining is entitled to receive dividend payments equaling its share of legally declarable dividends from Anagold. There were no dividend payments made to Lidya Mining in 2016 or 2017 related to Anagold's 2015 and 2016 earnings, respectively, due to expected future capital expenditure commitments, including the Sulfide Project.

The following table summarizes activities for the periods ended:

19. Profit (loss) per share

Basic profit (loss) per share is calculated by dividing the profit (loss) attributable to equity holders of the Corporation by the weighted average number of ordinary shares outstanding during the period.

Diluted profit (loss) per share is calculated using the treasury method, except the if-converted method is used in assessing the dilution impact of convertible instruments (until maturity) and options. The treasury method, which assumes that outstanding stock options with an average exercise price below the market price of the underlying shares, is exercised and the assumed proceeds are used to repurchase common shares of the Corporation at the average market price of the common shares for the period. The if-converted method assumes that all convertible instruments (until maturity) and options have been converted in determining fully diluted profit (loss) per share if they are in-the-money, except where such conversion would be anti-dilutive.

The following table summarizes activities:

		For the three months ended			
		March 31,		March 31,	
		2017		2016	
Net profit attributable to owners of the Corporation	\$	8,658	\$	2,097
