Despatch of Rights Issue Offer Document and Entitlement and Acceptance Forms

Consolidated Zinc Limited (**Company**) confirms that, in accordance with the timetable for the Company's fully underwritten pro-rata renounceable entitlement issue of approximately 184,504,555 New Shares on the basis of two New Shares for every five Shares held by Eligible Shareholders on the Record Date at an issue price of \$0.016 per New Share, to raise up to approximately \$2,952,000 (**Offer**), the Offer Document and accompanying Entitlement and Acceptance Forms were despatched today.

The Company notes that the following statement was inadvertently included on page 11 of the Offer Document that was lodged with the ASX on 1 May 2017:

"If, in the reasonable opinion of the nominee, there is no viable market for the Entitlements of the Ineligible Shareholders, or a surplus over the expenses of the sale cannot be obtained in relation to the Entitlements that would have been offered to the Ineligible Shareholders, then those Entitlements will be allowed to lapse. The Shares not taken up will form part of the Shortfall Shares to be offered under the Shortfall Offer."

The Company confirms that the nominee must sell the Entitlements of Ineligible Shareholders and accordingly, the statement above has been removed from the Offer Document that has been sent to Shareholders. A copy of the Offer Document sent to Shareholders accompanies this statement.

The indicative timetable for the Offer is as follows:

1. Details of Offer

1.1 Offer

The Company is making a renounceable pro-rata offer of Shares to Eligible Shareholders on the basis of 2 New Shares for every 5 Shares held at the Record Date, each at an issue price of \$0.016 (**Offer**). The Offer is fully underwritten by Patersons Securities Limited (**Underwriter**).

As at the Record Date, the Company will have on issue 461,261,388 Shares (assuming no Options are exercised prior to the Record Date). The Company expects that up to 184,504,555 New Shares will be issued under the Offer to raise approximately \$2,952,072 (before costs of the Offer).

The Company will accept Entitlement and Acceptance Forms until 5.00pm AEDT on the Closing Date or such other date as the Directors in their absolute discretion shall determine, subject to the requirements of the ASX Listing Rules.

Where the determination of the entitlement of Eligible Shareholders results in a fraction of a Share, such fraction will be rounded down to the nearest whole Share.

Your Entitlement is shown on the personalised Entitlement and Acceptance Form accompanying this Rights Issue Offer Document. You may accept the Offer only by applying for Shares on the Entitlement and Acceptance Form.

Acceptances must not exceed your entitlement as shown on the Entitlement and Acceptance Form, although you may accept for all or only part of your Entitlement. If your acceptance exceeds your Entitlement, acceptance will be deemed to be for your maximum Entitlement and any surplus application monies will be returned to you.

Eligible Shareholders who take up their Entitlement in full may also apply for additional Shares under the Shortfall Offer. Please refer to section 1.8 for more information.

The Underwriter has the right to determine who is to receive any New Shares not subscribed for by Eligible Shareholders under the Offer in consultation with the Company pursuant to the Underwriting Agreement. Details regarding the Underwriting Agreement are set out in Section 4.1.

Acceptance of a completed Entitlement and Acceptance Form by the Company creates a legally binding contract between the Applicant and the Company for the number of Shares accepted or deemed to be accepted by the Applicant. The Entitlement and Acceptance Form does not need to be signed by the Applicant to be legally binding. The Offer and contract formed on acceptance are governed by the laws of Western Australia.

If the Entitlement and Acceptance Form is not completed correctly it may still be treated as valid. The Directors' decision as to whether to treat the acceptance as valid and how to construe, amend or complete the Entitlement and Acceptance Form is final.

Shares offered by this Rights Issue Offer Document are expected to be issued, and security holder statements dispatched, on the date specified in the timetable in Section 1.2.

It is the responsibility of Applicants to determine their allocation prior to trading in the Shares. Applicants who sell Shares before they receive their holding statements will do so at their own risk.

1.4 Rights trading

The entitlements to Shares under the Offer are renounceable. Accordingly, there will be trading of Rights on ASX and you may dispose of your Entitlement to subscribe for Shares to another party. If you do not take up your Entitlement or dispose of your Rights to Shares under the Offer by the Closing Date, the Offer to you will lapse. The New Shares in your Entitlement that are not taken up by you, or any person that you dispose of your Rights to, will form part of the Shortfall.

1.5 ASX quotation

Application will be made to ASX for the Official Quotation of the Shares to be issued under the Offer. If permission is not granted by ASX for the Official Quotation of the Shares to be issued under the Offer, the Company will repay, as soon as practicable, without interest, all application monies received pursuant to the Offer.

1.6 Risk Factors

An investment in New Shares should be regarded as speculative. In addition to the general risks applicable to all investments in listed securities, there are specific risks associated with an investment in the Company which are described in Section 3.

1.7 Underwriting

The Offer is fully underwritten by the Underwriter on the terms of the Underwriting Agreement. Details regarding the Underwriting Agreement are set out in Section 4.1.

1.8 Shortfall Offer

If you do not wish to take up any part of your Entitlement you are not required to take any action. That part of your Entitlement not taken up will form part of the Shortfall and will revert to the Underwriter unless it is allocated to other Eligible Shareholders as follows.

If you take up your Entitlement in full, you may also apply for additional Shares out of the Shortfall (**Shortfall Shares**) in excess of your Entitlement pursuant to a top-up facility (**Shortfall Offer**) by completing the relevant part of the Entitlement and Acceptance Form relevant to the Shortfall Offer. Refer to Section 2.7 for instructions as to how to apply for Shortfall Shares.

Shortfall Shares will only be available where there is a Shortfall between Entitlement and Acceptance Form applications received from Eligible Shareholders and the number of Shares proposed to be issued under the Offer.

Shortfall Shares will be issued at the issue price of \$0.016 per Shortfall Share, being the same price as New Shares under the Offer. The Shortfall Shares will have the same rights as the New Shares.

Eligible Shareholders who apply for Shortfall Shares may be allocated a lesser number of Shortfall Shares than applied for, or may be allocated no Shortfall Shares at all, in which case excess Application Monies will be refunded without interest. To the extent any Shares under the Offer remain unallocated, the Underwriter will (subject to the terms of the Underwriting Agreement) be required to subscribe for those Shares or procure sub-underwriters to do so on the Underwriter's behalf.

Shortfall Shares will be allocated in priority to Eligible Shareholders who apply for Shortfall Shares under the Shortfall Offer. All decisions regarding the allocation of Shortfall Shares will be made by the Underwriter in consultation with the Company and will be final and binding on all Eligible Shareholders.

The Offer is fully underwritten. In the event the Underwriting Agreement is terminated and there is a Shortfall, the Directors reserve the right to place the Shortfall Shares at their discretion.

1.9 Effect of the Offer on control of the Company

The potential effect the Offer will have on each Shareholder's percentage interest in the total issued capital of the Company is as follows:

- (a) If all Eligible Shareholders take up their Entitlement, each Eligible Shareholder's percentage in the total issued Shares of the Company will remain the same and will not be diluted; and
- (b) If some but not all Eligible Shareholders take up their entitlement, and the Shortfall is taken up under the Shortfall Offer and the Underwriting Agreement, the percentage interest in the total issued Shares of each Eligible Shareholder who does not take up their Entitlement will be diluted and the percentage interest of the total issued Shares of each Eligible Shareholder who does take up their Entitlement will remain the same; and
- (c) Ineligible Shareholders, who are not entitled to participate in the Offer, will be diluted (refer to Section 1.13 for further details).

The Copulos Group (various entities controlled by Director, Stephen Copulos) (**Copulos Group**) is currently a substantial Shareholder in the Company. The Copulos Group currently has a relevant interest in 99,744,122 Shares, representing approximately 21.624% of the Shares currently on issue. In addition, the Copulos Group holds convertible notes with an aggregate face value of \$1,000,000 which, subject to Shareholder approval, can be converted into Shares at the same price as the Company's most recent capital raising at the Copulos Group's election at any time prior to the maturity date of 31 December 2017 (provided the conversion does not breach section 606 of the Corporation Act) (**Convertible Notes**). Mr Copulos has advised the Company that the Copulos Group does not currently intend to convert the Convertible Notes into Shares until later in 2017. Mr Copulos also holds 2,500,000

Performance Rights which convert into Shares on a one for one basis upon satisfaction of performance milestones and 15,613,889 Options each exercisable at \$0.06 on or before 31 December 2018 (refer to Section 4.3 for further details).

Mr Copulos has advised the Company that it is his current intention that the Copulos Group will take up all of its Entitlement, being 39,897,649 Shares. In addition, the Copulos Group has entered into an agreement with the Underwriter to sub-underwrite 22,602,350 Shares under the Offer (\$361,637.60). The Copulos Group will receive a fee of \$10,849.12 for the sub-underwriting commitment.

The relevant interest of the Copulos Group (and Stephen Copulos) in Shares following completion of the Offer may vary depending upon the take-up under the Offer as follows (assuming no other Shares are issued prior to completion of the Offer, including as a result of the exercise of any Options or conversion of any Performance Rights or Convertible Notes).

Event	No. of Shares in which the Copulos Group (and Stephen Copulos) has a relevant interest	Voting power of the Copulos Group (and Stephen Copulos)
At the date of this Offer Document	99,744,122	21.624%
Offer is fully subscribed (no Shortfall)	139,641,770	21.624%
Offer is undersubscribed and the Copulos Group takes 50% of its sub-underwriting commitment ⁽¹⁾	150,942,945	23.374%

(1) Inclusive of Shares issued to the Copulos Group on taking up its full Entitlement under the Offer.

If the relevant interest of the Copulos Group (and Stephen Copulos) is greater than 21.624% post completion of the Offer, the Copulos Group (and Stephen Copulos) intend to rely on the exception in item 10 of section 611 of the Corporations Act to increase its voting power from a starting point above 20%.

Following completion of the Offer the Copulos Group (and Stephen Copulos) will have a relevant interest in Shares representing between 21.624% and 25.124%.

Stephen Copulos is currently a Director and Chairman of the Company. Neither Stephen Copulos, nor the Copulos Group, currently propose to make any changes to the Company's management or Board or alter the business of the Company or its activities.

No other Shareholder will acquire an interest in 20% or more of the issued capital of the Company as a result of the Offer.

1.11 Market Price of Shares

The Company is a disclosing entity for the purposes of the Corporations Act and its Shares are enhanced disclosure securities quoted on ASX.

The highest, lowest and last market sale price of the Shares on ASX during the three months immediately preceding the date of release of this Offer Document is as follows:

	\$	Date
Highest	\$0.03	3 February 2017
Lowest	\$0.018	6 April 2017
Last	\$0.021	26 April 2017*

* Being the last trading day prior to the Company going into trading halt prior to announcing the Offer.

1.12 Taxation implications

The Directors do not consider it appropriate to give Shareholders advice regarding the taxation consequences of subscribing for Shares under this Rights Issue Offer Document. The Company, its advisers and its officers do not accept any responsibility or liability for any such taxation consequences to Shareholders. As a result, Shareholders should consult their professional tax adviser in connection with subscribing for Shares under this Rights Issue Offer Document.

1.13 Overseas Shareholders

No Offer will be made to Shareholders resident outside Australia and New Zealand. The Company has decided that it is unreasonable to make the Offer to Shareholders outside Australia and New Zealand having regard to the small number of Shareholders with addresses in other jurisdictions, the small number and value of the Shares they hold and the cost of complying with the legal requirements and the requirements of regulatory authorities in those other jurisdictions and the amount to be raised under the Offer.

This Rights Issue Offer Document and accompanying Entitlement and Acceptance Form do not, and are not intended to, constitute an offer of Shares in any place or jurisdiction in which, or to any person to whom, it would not be lawful to make such

an offer or to issue this Rights Issue Offer Document. The distribution of this Rights Issue Offer Document in jurisdictions outside Australia and New Zealand may be restricted by law and persons who come into possession of this Rights Issue Offer Document should seek advice on and observe any such restrictions. Any failure to comply with such restrictions may constitute a violation of applicable securities laws.

The Offer is being made in New Zealand pursuant to the Securities Act (Overseas Companies) Exemption Notice 2013.

However, pursuant to ASX Listing Rule 7.7, the Company has appointed a nominee, Patersons Securities Limited, to sell the Entitlements to which Ineligible Shareholders are entitled. The Company has applied to ASIC to approve the appointment of Patersons Securities Limited as nominee for the purposes of section 615 of the Corporations Act. At the date of this Offer Document, ASIC has not yet approved the appointment. The nominee must sell the Entitlements and will have the absolute and sole discretion to determine the timing and price at which the Entitlements are sold and the manner of any such sale. In consideration for its services as nominee, Patersons Securities Limited will be paid a fee of the greater of \$1,000 (exclusive of GST) or 1.5% brokerage on the Entitlements that it sells.

Any interest earned on the proceeds of the sale of these Entitlements will firstly be applied against expenses of such sale, including brokerage, and any balance will accrue to the relevant Ineligible Shareholders as described below.

The net proceeds of the sale of these Entitlements will then be forwarded by the Company as soon as practicable to the Ineligible Shareholders, in proportion to their share of such Entitlements (after deducting brokerage commission and other expenses). If any such net proceeds of sale are less than the reasonable costs that would be incurred by the Company for distributing those proceeds, such proceeds may be retained by the Company.

Notwithstanding that the nominee must sell Entitlements, Ineligible Shareholders may, nevertheless, receive no net proceeds if the costs of the sale are greater than the sale proceeds.

Neither the Company nor the nominee will be subject to any liability for failure to sell the Entitlements or to sell them at a particular price.

Shareholders resident in Australia and New Zealand holding Shares on behalf of persons who are resident overseas are responsible for ensuring that taking up Entitlements under the Offer does not breach regulations in the relevant overseas jurisdiction. Return of a duly completed Entitlement and Acceptance Form will be taken by the Company to constitute a representation that there has been no breach of those regulations.

1.14 CHESS and issuer sponsorship

The Company participates in the Clearing House Electronic Subregister System, known as CHESS. All trading on ASX in Shares will be settled through CHESS. ASX Settlement,

a wholly owned subsidiary of ASX, operates CHESS in accordance with the Listing Rules and the ASX Settlement Rules.

The Company's Registry operates an electronic issuer-sponsored sub-register and an electronic CHESS sub-register. Both these sub-registers constitute the Company's principal register of Shareholders.

Holders of Shares will not receive a certificate but will receive a statement of their holding of Shares.

If you are broker sponsored or other participant in CHESS, ASX Settlement will send you a CHESS statement. The CHESS statement will set out the number of Shares issued under this Rights Issue Offer Document, provide details of your holder identification number, and provide the participant identification number of the sponsor and the terms and conditions applicable to the Shares, including a notice to exercise the Shares.

If you are registered on the Issuer Sponsored subregister, your statement will be dispatched by the Company's Registry and will contain the number of Shares issued to you under this Rights Issue Offer Document and your security holder reference number.

A CHESS statement or issuer sponsored statement will routinely be sent to Shareholders at the end of any calendar month during which the balance of their Shareholding changes. Shareholders may request a statement at any other time, however, a charge may be made for additional statements.

1.15 Continuous disclosure obligations

The Company is a "disclosing entity" (as defined in section 111AC of the Corporations Act) for the purposes of the Corporations Act and its Shares are enhanced disclosure securities quoted on ASX and, as such, the Company is subject to regular reporting and disclosure obligations under the Corporations Act and the Listing Rules.

Specifically, the Company is required to notify ASX of information about specific events and matters as they arise for the purposes of the ASX making that information available to the securities markets conducted by the ASX. In particular, the Company has an obligation under the ASX Listing Rules (subject to certain exceptions) to notify the ASX immediately of any information of which it is or becomes aware which a reasonable person would expect to have a material effect on the price or value of its securities.

This Offer Document is intended to be read in conjunction with the publicly available information in relation to the Company which has been notified to ASX and does not include information that would be included in a disclosure document or which investors ought to have regard to in deciding whether to subscribe for Shares under the Offer. Investors should therefore have regard to the other publicly available information in relation to the Company before making a decision whether or not to invest.

All announcements made by the Company are available from its website www.consolidatedzinc.com.au or the ASX www.asx.com.au.

Additionally, the Company is also required to prepare and lodge with ASIC yearly and half-yearly financial statements accompanied by a directors' statement and report, and an audit report or review. These reports are released to ASX and published on the Company's and the ASX websites.

This Offer Document (including the Entitlement & Acceptance Form) and the contracts that arise from acceptance of the Applications are governed by the laws applicable in Western Australia and each Applicant submits to the nonexclusive jurisdiction of the courts of Western Australia.

1.16 Entitlement Offer Notice

The Company has lodged with ASX a notice in accordance with section 708AA of the Corporations Act which sets out, amongst other information, the effect of the Offer on the control of the Company. This notice may be reviewed on the websites of the Company and ASX.

3. Risk Factors

This Section discusses some of the key risks associated with an investment in Shares. A number of risks and uncertainties, which are both specific to the Company and of a more general nature, may adversely affect the operating and financial performance or position of the Company, which in turn may affect the value of Shares and the value of an investment in the Company.

The risks and uncertainties described below are not an exhaustive list of the risks facing the Company or associated with an investment in the Company. Additional risks and uncertainties may also become important factors that adversely affect the Company's operating and financial performance or position.

Before investing in the Company, you should consider whether an investment in the Company is suitable for you. Potential investors should consider publicly available information on the Company (such as that available on the websites of the Company and ASX), carefully consider their personal circumstances and consult their stockbroker, solicitor, accountant or other professional adviser before making an investment decision.

3.1 Specific Risks associated with the Company

(a) **Exploration and Development Risk**

Although there has been an extensive history of exploration and development in the area where the Company's Plomosas Project is located, there is no certainty that any mineral reserve will be realised. Further, there is no guarantee that any scoping and feasibility studies will confirm the grade, size or distribution of existing resource or exploration results. Until a deposit is actually mined and processed, the quantity of mineral resources and reserves, and grades, must be considered estimates only.

There is a risk that the proposed exploration activity on the Company's Plomosas Project will be unsuccessful and will not result in the discovery, mining or processing of a viable resource. Mineral exploration by its nature is a high risk activity and there can be no guarantee of success in relation to the project.

Whilst the Directors will make every effort to reduce this risk, the fact remains that the discovery and development of a commercially viable resource is the exception rather than the rule.

(b) **Operations in Mexico**

The Plomosas Project is located in northern Mexico and is held through Latin American Zinc S.A.P.I de C.V, the Mexican company that owns 100% of the Plomosas Project with Retec Guarú S.A. de C.V, the Company's Mexican partner.

There are risks associated with operating in Mexico, including various levels of political, economic and other risks and uncertainties. These risks and uncertainties include, but are not limited to, terrorism, hostage taking, military repression, extreme fluctuations in currency exchange rates, high rates of inflation, labour unrest, the risks of war or civil unrest, expropriation and nationalization, renegotiation or nullification of existing concessions, licences, permits and contracts, illegal mining, changes in taxation policies, changes to

mining or investment policies and legislation or a shift in political attitudes, restrictions on foreign exchange and repatriation and changing political conditions, currency controls and governmental regulations that favour or require the awarding of contracts to local contractors or require foreign contractors to employ citizens of, or purchase supplies from, a particular jurisdiction.

(c) **Legal System in Mexico**

The legal system operating in Mexico may be less developed than more established countries, which may result in political difficulties in obtaining effective legal redress in the courts whether in respect of a breach of law or regulation, or in an ownership dispute.

(d) **Refurbishment and Replacement of Mine Infrastructure**

The Company currently estimates that moderate capital will be required to refurbish the existing mine infrastructure on the Plomosas Project, including production and ventilation shafts, many kilometres of underground mine development and the existing processing facilities. There is no guarantee that the Company will be successful in refurbishing or replacing the existing mine infrastructure on the project or that the Company will have sufficient capital to do so. Using or operating such infrastructure and facilities will also expose the Company to operational risks described in more detail below.

Further, it may be possible for the existing processing facilities on the Plomosas Project to be refurbished to treat ore up to a rate of 200 tonnes per day for potential early production. However, the processing facilities will need to be largely replaced if or when production is increased to 500 or more tonnes per day, which would require significant capital from the Company.

The Company currently estimates that any capital and operating costs will be low on a global comparison and in line with other operations in the immediate region. However further work is required through scoping and feasibility studies to confirm and quantify these estimates and there is a risk that refurbishing, replacing or operating the existing infrastructure will not be viable in the future.

(e) **Budget Risk**

The Company's exploration, development and operational cost estimates in respect of the Plomosas Project are based on certain assumptions with respect to the method and timing of exploration. By their nature, these estimates and assumptions are subject to significant uncertainties and, accordingly, the actual costs may materially differ from these estimates and assumptions.

Accordingly, no assurance can be given that the cost estimates and the underlying assumptions will be realised in practice, which may materially and adversely affect the Company's viability.

3.2 Risks Specific to Companies operating in the Industry

(a) Environmental Risk

The minerals and mining industry has become subject to increasing environmental regulations and liability. The potential for liability is an ever present risk.

Further exploration work on the Plomosas Project will be carried out in a way that has minimal impact on the environment. It may be required for the Company to conduct baseline environmental studies prior to certain exploration or mining activities, so that environmental impact can be monitored and minimised wherever possible.

Moreover, there can be no assurances that new environmental laws, regulations or stricter enforcement policies, once implemented, will not oblige the Company to incur significant expenses and undertake significant investments in such respect which could have a material adverse effect on the Company's business, financial condition and results of operations.

(b) Operating Risk

The Company's operations on the Plomosas Project may be disrupted by a number of events that are beyond the control of the Company. These include but are not limited to:

- (i) failure to locate or identify mineral deposits;
- (ii) failure to achieve predicted grades in exploration or mining;
- (iii) operational and technical difficulties, including underground mining conditions and geological, geotechnical and seismic factors;
- (iv) access issues, including land access and access to power and water; and
- (v) industrial, mechanical, equipment and environmental hazards and difficulties.

It cannot be guaranteed that the further exploration to be carried out will bring about any new commercial or profitable mining operations. If a decision is made to commence operations on the project, the risks and hazards could also result in damage to, or destruction of, production facilities, personal injury, environmental damage, business interruption, monetary losses and possible legal liability for the Company.

As is common with all mining operations, there is uncertainty and risk associated with the Company's operating parameters and costs. These can be difficult to predict and are often affected by factors outside the Company's control. If such risks actually occur, the Company's business, financial condition and/or results of operations may be materially and adversely affected.

(c) Commodity Price Volatility and Foreign Exchange Risk

In the event that the Company achieves exploration success leading to production, the revenue it will derive through the sale of commodities exposes the potential income of the Company to commodity price risks.

Commodity prices fluctuate and are affected by numerous factors beyond the control of the Company. These factors include world demand for zinc and related minerals, forward selling by producers, and production cost levels in major metal-producing regions.

Commodity prices are also affected by macroeconomic factors such as expectations regarding inflation, interest rates and global and regional demand for, and supply of, the commodity as well as general global economic conditions. These factors may have an adverse effect on the Company's exploration, development and production activities, as well as on its ability to fund those activities.

Furthermore, international prices of various commodities are denominated in United States Dollars, whereas the income and expenditure of the Company are and will be taken into account in Australian currency, exposing the Company to the fluctuations and volatility of the rate of exchange between the United States Dollar and the Australian Dollar as determined in international markets.

(d) **Permits and other Regulatory Consents**

The Company's mining and exploration activities are dependent upon the grant and subsequently the maintenance of relevant licences, leases, permits and regulatory consents which may be withdrawn or made subject to limitations. The maintaining of the consents, obtaining renewals, or getting licences granted, typically depends on the Company's success in obtaining required approvals for its proposed activities and that its licences, leases, permits or consents will be kept in good order and renewed as and when required.

There is no assurance that such grants and renewals will be given as a matter of course and there is no assurance that new conditions will not be imposed.

3.3 General Risks

(a) **Market conditions**

Share market conditions may affect the value of the Company's quoted securities regardless of the Company's operating performance. Share market conditions are affected by many factors such as:

- (i) general economic outlook;
- (ii) introduction of tax reform or other new legislation;
- (iii) interest rates and inflation rates;
- (iv) changes in investor sentiment toward particular market sectors;
- (v) the demand for, and supply of, capital; and
- (vi) terrorism or other hostilities.

The market price of securities can fall as well as rise and may be subject to varied and unpredictable influences on the market for equities in general and technology stocks in particular. Neither the Company nor the Directors warrant the future performance of the Company or any return on an investment in the Company.

(b) **Economic and government risks**

The future viability of the Company is also dependent on a number of other factors affecting performance of all industries and not just the resources industry including, but not limited to, the following:

- (i) general economic conditions in jurisdictions in which the Company operates;
- (ii) changes in government policies, taxation and other laws in jurisdictions in which the Company operates;
- (iii) the strength of the equity and share markets in Australia and throughout the world, and in particular investor sentiment towards the resources sector;
- (iv) movement in, or outlook on, interest rates and inflation rates in jurisdictions in which the Company operates; and
- (v) natural disasters, social upheaval or war in jurisdictions in which the Company operates.

(c) **Litigation**

The Company is exposed to the risk of actual or threatened litigation or legal disputes in the form of customer claims, intellectual property claims, personal injury claims, employee claims and other litigation and disputes. If any claim was successfully pursued it may adversely impact the financial performance, financial position, cash flow and share price of the Company.

(d) **Taxation**

Any current rates of taxes imposed on the Company is likely to affect returns to Shareholders. An interpretation of taxation laws by the relevant tax authority that is contrary to the Company's view of those laws may increase the amount of tax to be paid. In addition, an investment in Shares involves tax considerations which may differ for each Shareholder. Investors are encouraged to obtain professional tax advice in connection with any investment in the Company.

(e) **Investment risk**

The Shares to be issued pursuant to this Right Issue Offer Document should be considered speculative. They carry no guarantee as to payment of dividends, return of capital or the market value of the Shares. The prices at which an investor may be able to trade the Shares may be above or below the price paid for the Shares. While the Directors commend the Offer, prospective investors must make their own assessment of the likely risks and determine whether an investment in the Company is appropriate to their own circumstances.

3.4 Investment Speculative

The above list of risk factors ought not to be taken as exhaustive of the risks faced by the Company or by investors in the Company. The above factors, and others not

specifically referred to above, may in the future materially affect the financial performance of the Company and the value of the Shares offered under this Rights Issue Offer Document. Therefore, the Shares to be issued pursuant to this Rights Issue Offer Document carry no guarantee with respect to the payment of dividends, returns of capital or the market value of those Shares. Potential investors should consider that the investment in the Company is speculative and should consult their professional adviser before deciding whether to apply for Shares pursuant to this Rights Issue Offer Document.
