Sincerely,

David Savarie
Corporate Secretary

Teranga Gold Corporation Profile

Teranga Gold Corporation is a Toronto-based gold company which was created to acquire the Sabodala gold mine and a large regional exploration land package, located in Senegal, West Africa from Mineral Deposits Limited. Management believes that the mine operation, together with the Company's prospective 1,200 km² land package, provides the basis for growth in reserves, production, earnings and cash flow as new discoveries are made and processed through the Company's existing mill. One of the Company's key strengths is its corporate and operating team, which has extensive experience exploring, developing and operating gold mines in Africa.

Teranga means hospitality and friendliness in Wolof, the main local language of Senegal. The Company wanted a name that would reflect its actions.
