ASX Announcement / Media Release

Missions and Cables Gold Project Update

Connected IO Limited (ASX:CIO) ("CIO") announced on 16 December 2016 that it had received confirmation from the Department of Mines and Petroleum that CIO had been successful in its submissions to the Minister for Mines and Petroleum to refuse four exploration licence applications competing with CIO's application for exploration licence 37/1232.

CIO has a few days ago been served with an application by Andrew Paterson for judicial review of the Minister's decision to terminate his application for exploration licence 37/1220 (being one of those four competing exploration licence applications) alleging a breach of the rules of natural justice.

CIO will oppose the application, confident that the Department and the Minister afforded Mr Paterson ample opportunity to make submissions, thereby meeting the requirements of natural justice. CIO will update the market as soon as it is able to regarding the outcome of the application being made by Mr Paterson.
