

ASX RELEASE

Advanced braking Technology Limited (ASX:ABV)

Date: 30 June 2017

Release: Immediate

Topic: Office Relocation

Perth, Australia, 30 June 2017 – Advanced braking Technology Limited (ASX:ABV), today announced it has relocated its operations to a new and upgraded facility within the Wangara Business District of Western Australia.

This relocation will not only materially reduce the Company's leasing cost, but is the culmination of twelve months of planning and meets the multiple strategies of improved OH&S, upgraded IT and Comms infrastructure and security, increased leveraging of technologies, and improved staff amenities.

The new facility will also allow the Company scope to expand its operations from what is expected to be a period of growth in the next 12 months.

Details of the new facilities are as follows:

Registered Address:	19 Creative Street, Wangara WA 6065
Postal Address:	As above
Office Phone Number:	+61 (0) 8 9302 1922

ABOUT ADVANCED BRAKING TECHNOLOGY LIMITED

Advanced Braking Technology Ltd (ASX: ABV) develops innovative braking solutions, with its main products being the Sealed Integrated Braking System (SIBS®), now used widely in light commercial vehicles, primarily in the mining industry and the new Terra Dura® polymer and steel brakes which are addressing the needs of vehicles and trailers operating in harsh conditions.

All Advanced Braking Technology braking solutions are comprehensively patented Australian inventions.
