Melbourne, 12th July 2017, LiveHire Limited (ASX: LVH), the Talent Community platform providing an enterprise scale, human-cloud hiring ecosystem across entire industries, is pleased to announce it has signed and successfully launched Roy Hill, an integrated 55 million tonne mining, rail and port operation with more than 1,600 employees across three locations.

The successful launch of Roy Hill's Talent Community is a significant milestone for LiveHire, as it is regarded as a Cornerstone client and industry leader, with its Talent Community to be used across its entire workforce.

Roy Hill is a 55 million tonne per annum iron ore mining, rail, and port operation in West Australia's Pilbara region. Situated approximately 340 kilometres south east of Port Hedland in West Australia, close to Asia and in one of the world's premier iron ore provinces, Roy Hill is an independent iron ore operation with West Australian majority ownership, chaired by an Australian, Mrs Gina Rinehart.

Roy Hill is the first Cornerstone Enterprise in the Mining and Resources industry to adopt the LiveHire technology and methodology. Each additional company to join the Talent Community

ecosystem makes it easier for the next employer to launch, grow, and in turn drive improved candidate experience and return on investment (ROI) for the entire industry.

Co-Founder and Managing Director of LiveHire, Antonluigi Gozzi, said:

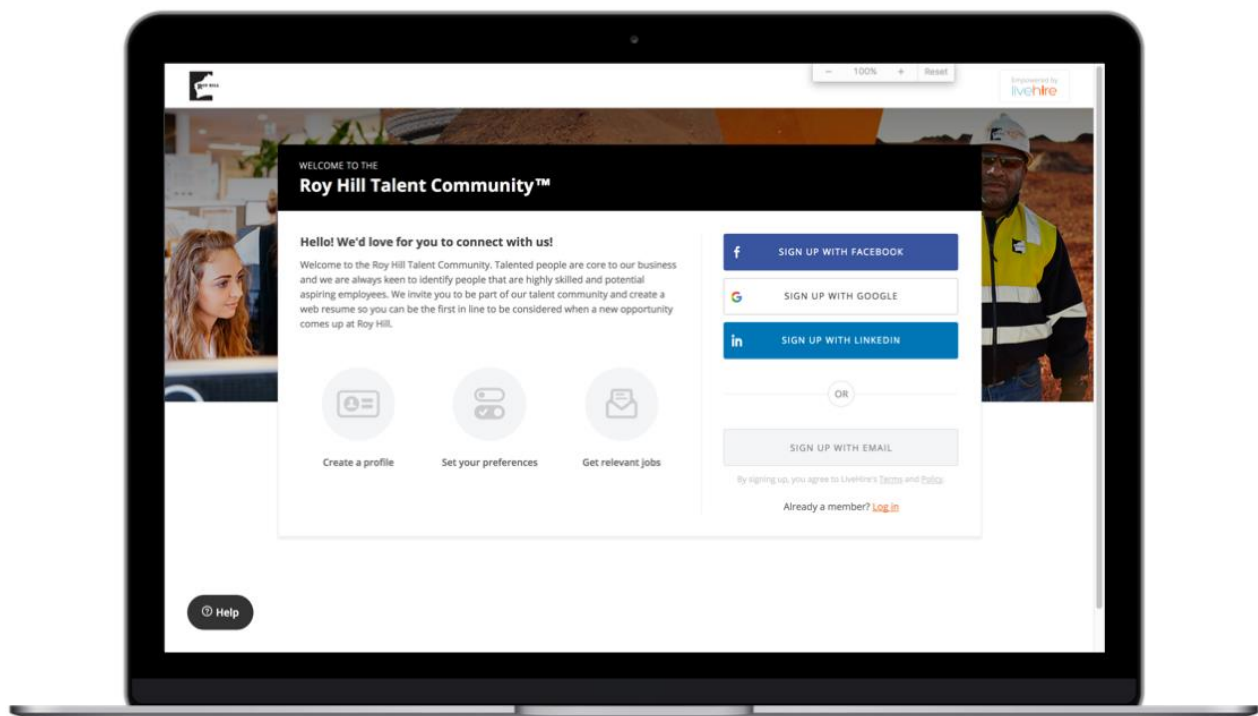

“Roy Hill will use its Talent Community to invite and engage with current and future employees, as part of their strategic and proactive sourcing strategy to drive workforce agility, hiring productivity, reduced costs, and optimal retention of high quality, diverse talent.

“The breadth of roles, of which Roy Hill hires, includes mining operations, rail operations, port operations, digital, remote operations, and corporate services. This demonstrates the agnostic and powerful nature of LiveHire’s Talent Community platform to deliver 100% of hires across an organisation.

“We look forward to serving Roy Hill as the industry leader in terms of engagement with its current and future employees, which we believe will result in a strong network effect for the ecosystem, towards a single unified profile in the Mining and Resources industry.”
