

QUARTERLY ACTIVITIES STATEMENT

For the quarter ended 30 June 2017

HIGHLIGHTS

Bulong Gold Project

- Tenement holding increases with Juglah acquisition
- Geological Review completed
- Heritage Clearances completed
- PoWs completed and approved

Aruma Resources Limited is a West Australian gold exploration company, with advanced projects in the Kalgoorlie gold district. Aruma's leases, inclusive of applications cover 275km² of which 30km² are under JV (Southern Gold Ltd) with the remainder wholly operated by Aruma.

Bulong Project (Glandore Hub Projects)

The Bulong area has been targeted to define the gold potential in sulphidic sediments associated with granites, based on the Black Flag Model of the Invincible Deposit, Kambalda.

Previous exploration of the Glandore Gold Project identified several adjacent exploration areas and these were referred to as the Glandore Hub and included the large ELs at Slate and Mulga Dams. Additional areas (EL25534 and ELA 25/558) have been purchased at Juglah Dome covering the mineralised strata extensions south towards the Transfind historical gold project and are now combined in the Bulong Project.

The Bulong Project consists of >200km² in highly anomalous gold ground within the geology that hosts the Majestic and Imperial Gold Deposits 30km east of Kalgoorlie. The strategic Slate Dam Project, (EL25/553 covering 80km²) is the current focus of effort as previous exploration in this area has drill defined the large Causeway Prospect, a 7km² high tenor (>200ppb) gold anomaly. The drilling in this area will be targeting sediment hosted high grade orebodies similar to the GoldFields Australia's Kambalda Invincible gold deposit (>2M oz. and >4g/t Au).

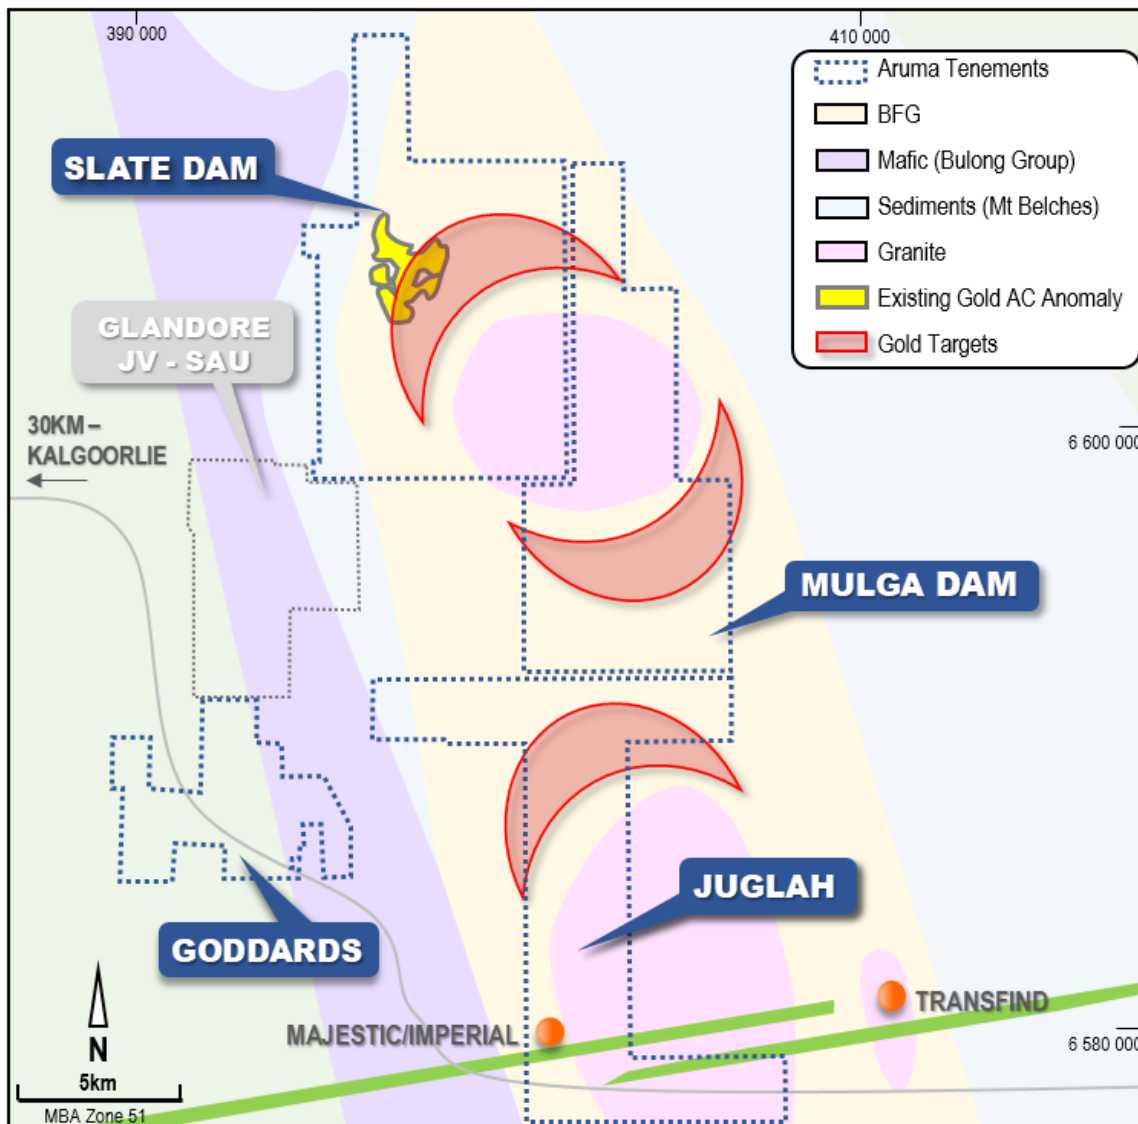

Figure 1. Aruma's Bulong Project covers >200km² of highly prospective gold geology of the Black Flag Group (BFG). The Causeway Anomaly (yellow) is within the gold target areas (red crescents) in the classic pressure shadow locations.

The critical dimensions of this type of orebody can be summarized as being 8m wide at about 5g/t gold, which is a small target. The broad 200ppb gold anomaly as shown above is indicative of this type of orebody.

Statutory requirements for Slate Dam programs of work (PoW), have been completed and approved, and Heritage Surveys have been completed and submitted to the Department of Aboriginal Affairs (DAA).

Corporate

The Company has appointed Dr Mark Elliott as a non-executive director on the resignation of Mr K K Cheong effective 1 July 2017. The efforts of Mr Cheong over the last 4 years are appreciated. The Company had a cash balance at 30 June 2017 of \$1.25M.

Projects Summary

Table 1. Project Status and Activity Table

EASTERN GOLDFIELDS	Bulong Project	<ul style="list-style-type: none">▪ Glandore Gold Project - JV underway with Southern Gold Limited (SAU) and has completed its 50% earn in the first year
		<ul style="list-style-type: none">▪ Slate and Mulga Dams 142.6km² ELs granted over anomalous areas▪ Juglah has 2 leases of 33km² each, 1 granted on extensions of Mulga Dam▪ Goddards Dam PoW is approved and cleared for RC drilling▪ Clinker Hill has the PoW approved for south east extensions

Proposed Exploration Activities for Q1 FY2018

- **Glandore** – JV continues and Stage Two is underway
- **Mulga Dam** – Field inspection and approvals on grant of lease
- **Slate Dam:**
 - Section 18 underway on the Causeway area
 - RC drilling scheduled on the Causeway area

Aruma will also be appraising leases that become available in the Kalgoorlie terrain, especially where adjacent to current projects or with resources or intersections.

Competent Person's Statement

The information in this release that relates to Exploration Results, Mineral Resources or Ore Reserves is based on information compiled by Peter Schwann who is a Fellow of the Australian Institute of Geoscientists and the Australasian Institute of Mining and Metallurgy. Mr Schwann is a full time employee of the Company. Mr Schwann has sufficient relevant experience to qualify as a Competent Person as defined in the JORC Code (2012) and consents to the inclusion of this information in the form and context in which it appears. All exploration results reported have previously been released to ASX and are available to be viewed on the Company website www.arumaresources.com.au. The Company confirms it is not aware of any new information that materially affects the information included in the original announcement. The Company confirms that the form and context in which the Competent Person's findings are present have not been materially modified from the original announcements
