+Rule 4.7B

## Commentary for the quarter ending 30 June 2017

#### **Operations**

Activistic Limited ("Activistic" or the "Company") is pleased to comment on its key activities and achievements during the June quarter.

Magpie Millions continues to perform strongly and results to date are very encouraging. Sales have remained steady despite most marketing activities targeted at Collingwood's digital followers and at no incremental costs.

The Company has run a number of paid media campaigns focused on a more general audience, resulting in a significant number of new registrations and most importantly, new cash players. These results confirm that this product is not only attractive to Collingwood's supporters, but also to a much wider audience.

Following a comprehensive analysis of its charity lottery product, the Weather Lottery, the Company decided to migrate to a more powerful platform, the same used for Magpie Millions. In conjunction to the migration process, the Company also re-designed the product, making it more appealing to its target audience. The charity partners featured on the Weather Lottery have continued to show their support, and have encouraged these changes.

The Company continues to operate its micro-donations assets with a focus in the U.S market. All costs related to these activities have been significantly reduced due to the continuing absence of any substantial revenue flows. The Company has identified a U.S based technology provider who has shown interest in working with Activistic; the parties are now investigating how to collaborate. This represents an outstanding opportunity for Activistic, allowing the Company to benefit from its assets and relationships developed in the U.S market, without incurring the costs of having a physical presence overseas.

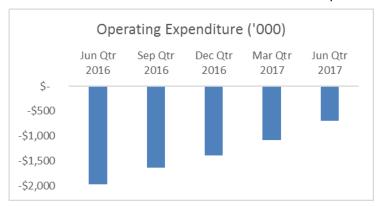

#### Operating expenditure and cash management

Operating expenditure during the quarter of \$694K was focused on enhancing and scaling up Magpie Millions, re-developing and migrating the Weather Lottery into a new and more sophisticated platform, and maintaining the micro-donations activities.

As previously announced, the Board has reviewed and made several significant cost reductions. The operating expenditure of \$694K for the June quarter is noticeably lower than in prior periods. Furthermore, it includes a number of non-recurring expenses related to scaling down activities in the U.S and U.K, as well as staff termination payments. There were also payments of approximately \$110K as a result of overdue and pre-acquisition Plus Connect creditors.

It is expected that monthly operating expenditure for the next quarter will be between \$200K and \$240K depending on user acquisition activities.

The chart bellows illustrates the results of the cost reduction measures implemented by the Board.

<sup>+</sup> See chapter 19 for defined terms

1 January 2017 Page 1

#### **Funding**

During the June quarter and following a comprehensive evaluation process, the Company decided to draw down \$500,000 from its existing Convertible Note Facility through the issue of 5 Convertible Notes with a face value of \$100,000 each. Funds will be used for working capital requirements and for the re-compliance process.

This option was chosen over a potentially dilutive equity issue and will allow the Company to generate value accretive results to enhance shareholder value.

The Company and the noteholder have agreed to amend the terms of the Facility to incorporate a conversion floor price of \$0.05 per share.

### Re-compliance

The Company continues to progress with its re-compliance activities. An update was released to the ASX platform on 28 July 2017 and a further announcement is expected to be released on 10 August 2017.

#### **Notes**

- 1. The quarterly report provides a basis for informing the market how the entity's activities have been financed for the past quarter and the effect on its cash position. An entity that wishes to disclose additional information is encouraged to do so, in a note or notes included in or attached to this report.
- If this quarterly report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, AASB 107: Statement of Cash Flows apply to this report. If this quarterly report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standard applies to this report.
- 3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
