PROJECT MANAGEMENT EXPERT APPOINTED TO LEAD OHD COMMERCIALISATION

Greenpower Energy Ltd (ASX: Greenpower, "GPP", "Company") is pleased to advise that it has engaged David Trench as a consultant to its OHD project.

David comes from a business development, project execution and technology background, most recently Senior Vice President Griffin Coal. His skills lie in the corporate development, energy and the supply chain area.

David will initially advise in all aspects of GPP's intended businesses which will utilise the unique environmentally friendly OHD coal to liquid technology, principally and primarily the production and marketing of the liquid produced by applying the technology to Victorian Brown Coal, which is being trialled by Monash University as a plant growth bio-stimulant.

Those aspects that David will supervise include the sourcing of the feedstocks – coal, water and oxygen – assembling the means – premises, the plant build, power, the team – then product marketing, distribution and sale, throughout Australia.

GPP and David envisage in the fullness of time he will move into full time engagement in a chief operating officer role, and GPP looks forward to a long and fruitful relationship.
