CONSOLIDATED
TIN MINES LIMITED

JUNE 2017 QUARTER ACTIVITIES REPORT

QUARTERLY ACTIVITIES OVERVIEW

- ❖ Dewatering of the Mt Garnet underground mine commenced in May 2017
- ❖ Refurbishment of the Mt Garnet processing plant was completed during the quarter
- ❖ The cased dewatering bore at the Dry River South (DRS) project was commissioned during the quarter and was completed in July 2017
- ❖ Establishment of access to the DRS portal commenced during the quarter
- ❖ Refurbishment of the Surveyor camp continued and is being used to accommodate employees and contractors in the ramp up to mining
- ❖ Purchase of the Mt Garnet Hotel and renovation of guest rooms to provide additional staff accommodation

OPERATIONS

Following the conclusion of the North Queensland wet season, the Company commenced dewatering of the Mt Garnet underground mine in May 2017 and this was completed in July 2017. Vehicles and mobile equipment were sourced and serviced to enable recommencement of underground mining operations.

Refurbishment of the Mt Garnet processing plant commenced and was completed during the quarter with commissioning commencing in July 2017. Electrical connection to the power grid was re-established during the quarter.

The Company completed the purchase of the Mt Garnet Hotel during the quarter and commenced renovation of guest rooms to provide additional staff accommodation.

Construction of a cased dewatering bore hole at the DRS project commenced during the quarter and was completed in July 2017. A specialist submersible pump will be fitted at the bottom of the bore hole and will be used to dewater the DRS mine.

In conjunction, the Surveyor in-pit dump is being reshaped to allow access to the historic DRS portal. When completed, this will be immediately followed by refurbishment of the DRS decline with production scheduled to commence later this year.

Refurbishment of the Surveyor camp is ongoing and is being used to accommodate employees and contractors.

EXPLORATION

As reported in the ASX announcement dated 10 July 2017, the Company completed the second stage of drilling at the Mt Garnet Deeps project. The Mt Garnet Deeps Project is a conceptual target parallel to the Mt Garnet underground mine. Further drilling from underground may be conducted to increase confidence in the resource, initially in the upper section of this project.

Further drilling of the Gillian Zinc prospect, located 9 km south of Mt Garnet, is planned for the September quarter to follow up two holes drilled during the quarter. Poor drilling conditions prevented the target sulphide zone being reached for these holes, although reasonable grades of oxide zinc were intercepted. The drilling program is targeting conceptual zinc potential located at depth beneath the Gillian Tin Project.

Drilling at the Einasleigh project has commenced and will also continue for the remainder of the year. The first drilling program at the Chloe prospect commenced during the quarter.

A 14 room camp has been established at Einasleigh to reduce travel time for the exploration team.

CORPORATE

On 19 May 2017, Baal Gammon Copper Pty Ltd (BGC) initiated legal action in the Supreme Court of Queensland against Blair Pleash and Kathleen Vouris, (the former Administrators of the Company), the Company, Snow Peak Mining Pty Ltd (SPM) and Cyan Stone Pty Ltd (Cyan) seeking orders that the Deed of Company Arrangement be terminated and the Company and SPM be placed into liquidation (refer ASX announcement 6 July 2017).

The Company considers BGC's claim to be opportunistic and of doubtful foundation and will defend this action vigorously. Together with SPM and Cyan, the Company has appointed King & Wood Mallesons as solicitors in this action. The matter appeared in the Supreme Court of Queensland for directions on 20 June 2017 during which BGC were requested to file and serve a Statement of Claim by 4 July 2017. The Company filed and served an application for security of costs on 26 June 2017. The Company will keep shareholders informed of any developments.

The Company's auditors, KPMG, continued to progress their audit and review of the Company's 30 June 2016 annual financial report and 31 December 2016 half year financial report during the quarter.

SUBSEQUENT TO QUARTER END

Operations

As reported in the ASX announcement dated 14 July 2017, the Company recommenced mining operations at the Mt Garnet underground mine on 5 July 2017 with first ore delivered to the run-of-mine (ROM) on 6 July 2017.

The commissioning of the Mt Garnet processing plant has been completed with concentrate production commencing on 24 July 2017.

The DRS cased dewatering borehole was completed in July 2017. As at the date of this report, it is being used to transfer water from the DRS underground mine to the Balcooma pit with progress on schedule. Reshaping of the Surveyor in-pit dump is continuing and is expected to be complete by the end of August 2017.

Exploration

Drilling is continuing at the Chloe prospect. A second drill rig commenced drilling at the Jackson prospect in July 2017 and a third drill rig commenced drilling at the Kaiser Bill prospect in August.

A fourth drill rig has commenced drilling of a multi-element (Pb, Zn, As, Cu) soil anomaly at the Nanyetta prospect, located three kilometres along strike to the north of the Mt Garnet mine.

Corporate

The Company's audited financial statements for the year ended 30 June 2016 were lodged with ASX on 18 July 2017 and the December 2016 half-year financial statements were lodged on 17 August 2017. Quarterly reports for June, September & December 2016 and March 2017 were lodged on 18 August 2017. The Directors will keep shareholders informed of any developments relating to the reinstatement to trading on ASX through the issue of further Company announcements as soon as further information becomes available.

As reported in the ASX announcement dated 19 July 2017, the Company executed an agreement to acquire, subject to due diligence results, the mineral rights over the Muldiva base metals prospect located near Chillagoe in North Queensland. The mineral rights cover 4 exploration permits as well as a granted mining lease 295 Ha in area and are prospective for Zn, Cu, Pb and Ag.

The Company has commenced due diligence on the Muldiva prospect with a drill rig mobilised. Drilling commenced at the Muldiva prospect on 18 August 2017.

CASH RESERVES & LOAN FACILITIES

The Company had A\$835,748 in cash reserves at the end of the June 2017 quarter.

As reported in the March 2017 Quarterly Activities Report dated 18 August 2017, Cyan Stone Pty Ltd (Cyan) has agreed to provide the Company with pre-payments of the subscription funds to fund the Company's working capital requirements and exploration activities.

Whilst this is not a loan facility, should shareholders not approve the issue of shares to Cyan, the amounts prepaid will be converted into an interest bearing loan.

Pursuant to the Asset Sale Agreement (ASA) with Snow Peak Mining Pty Ltd (SPM), the Group acquired assets and assumed the liabilities of SPM. The assumed liabilities included a \$10m loan from Snow Peak Global Company Limited (SPGC). The loan accrued interest at 10%, expired in October 2016 and \$10.75m (including unpaid interest) remains owing, and due and payable at call at the date of signing of this report. The amount outstanding does not continue to accrue interest.

Pursuant to the ASA, the Company issued 165m convertible notes with a face value of \$16.5m to SPM. The Administrators of SPM redeemed the convertible notes on 28 July 2016 and the convertible notes became a liability that was due and payable immediately from that date. \$16,816,438 is owing, and due and payable at call at the date of signing of this report. The amount outstanding does not continue to accrue interest.

Ming Huang Trading Limited provided the Company with a loan to fund care and maintenance operations during the voluntary administration of the Company. As at the date of signing this report, Ming Huang Trading Limited had provided \$2,723,913. This loan is not interest bearing and is due and payable at call.

Pursuant to a share subscription agreement and prepayment agreement, Cyan Stone Pty Ltd (Cyan) provided the Company with a loan to fund care and maintenance operations during the voluntary administration of the Company, to provide funds for the establishment of a creditors trust pursuant to the Deed of Company Arrangement executed by the Company, SPM and Cyan on 8 December 2016 and effectuated on 12 January 2017, to fund the Company's working capital requirements to recommence mining and processing operations and to fund the Company's exploration activities. As at the date of signing of this report, Cyan has prepaid the Company \$33,913,744. This prepayment is not interest bearing and will be converted into equity subject to shareholder approval. Should shareholder approval be not forthcoming, the prepayment will convert into a secured interest bearing loan, accruing interest at a rate of 10% per annum and will be due and payable immediately.

9. Estimated cash outflows for next quarter	\$'000
9.1 Exploration and evaluation	(3,658)
9.2 Development	(4,963)
9.3 Production	(4,406)
9.4 Mining/care & maintenance	-
9.5 Staff costs	(2,463)
9.6 Administration, corporate costs and bonds	(4,001)
9.7 Disposal of Baal Gammon rehab obligations	(400)
9.8 Other (provide details if material)	(119)
9.9 Total estimated cash outflows	(20,010)

Notes

1. The quarterly report provides a basis for informing the market how the entity's activities have been financed for the past quarter and the effect on its cash position. An entity that wishes to disclose additional information is encouraged to do so, in a note or notes included in or attached to this report.
2. If this quarterly report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, AASB 6: Exploration for and Evaluation of Mineral Resources and AASB 107: Statement of Cash Flows apply to this report. If this quarterly report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standards apply to this report.
3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
