ONE MISSION: ONE ENERGY: NEW ENERGY

Brief explanation of Revenue, Net Profit/(Loss) and Dividends (Distributions) Summary of results

Sales revenue amounted to \$NIL (2016: \$NIL) and other income for the Group amounted to \$7,777 (2016: \$41,960). Net cash (used)/generated in operating activities was (\$978,724) (2016: \$2,077,633 used). The net (loss)/profit of the Group amounted to (\$4,550,604) (2016: \$2,328,545 loss).

Review of Operations

Corporate

On 5 December 2016, the Company announced that it had entered into a Heads of Agreement to acquire the business operations of the AUS Group ("AUS", "VENDORS"), a leading manufacturer of building materials products in Australia. Key highlights about the group are:

- Acquisition of 100% of business units of AUS by issuance of Shares in Mission and cash
- 30 year old Australian Manufacturing and Distribution Company
- Unaudited revenue of approximately \$28 million in FY2016
- Well Positioned for future growth as a diversified manufacturer with barriers to import competition
- This transaction constitutes a reverse takeover and it is expected that MBT shareholders shall be diluted by approximately 90%.
 - the transaction requires security holder approval under the Listing Rules and therefore may not proceed if that approval is not forthcoming;
 - MBT is required to re-comply with ASX's requirements for admission and quotation and therefore the transaction may not proceed if those requirements are not met;
 - ASX has an absolute discretion in deciding whether or not to re-admit the entity to the
 official list and to quote its securities and therefore the transaction may not proceed if
 ASX exercises that discretion.
- Transaction subject to conditions precedent by both MBT and AUS
- MBT Board and management shall materially change at the discretion of AUS group
- The business units include Polyurethane Chemicals and Coatings, Insulation foams, Polystyrene foam and CUPOLEX® structural domes. These business units provide a vertically integrated platform for the manufacture and distribution of products from three manufacturing locations in Australia, and sales and distribution operations in Australia and New Zealand. AUS's business unit, CUPOLEX® a product, for which it holds the distribution rights for Australia, New Zealand, India, South Africa & Pacific Rim. CUPOLEX® provides a cost effective

ONE MISSION: ONE ENERGY: NEW ENERGY

and environmentally friendly alternative to traditional concrete slab construction.

About the Proposed Transaction

The transaction will involve Mission wholly acquiring the business operations of AUS with consideration comprising the issue of shares in Mission and the provision of cash, more commonly known as a reverse merger ("RTO").

The RTO shall be effected by completion of a funding round and compliance with relevant ASX listing rules. A shareholder notice of meeting and prospectus will be issued by Mission with the basic resolutions to:

- Dispose of Mission's two subsidiaries, Mission Biofuels Sdn Bhd and M2 Capital Sdn Bhd, with all net distributable proceeds to be distributed to Mission's existing Shareholders
- Change of Directors and Executives
- Change of Company Name
- Change of ASX Code
- Capital Raise target of A\$17 million
- Consolidation of existing MBT Shares
- Change of nature of business and compliance with the market trading rules upon commencement of trading of the new vehicle on the ASX.

In the event that the transaction is not completed Mission may be required to re-comply with ASX listing rules in any event.

Shareholder Approval

The acquisition, capital raising and number of other items concerning the transaction are subject to shareholder approval, including approval for a significant change to the nature and scale of Missions activities as per ASX Chapter 11. A notice of general meeting containing further details of the approvals being sought will be released to shareholders. The board of directors of MBT is unanimous in its support of the revised corporate strategy and the acquisition of the AUS business operations and each director intends to vote in favour of the resolutions contemplated in respects to their shareholding.

As at the date of this report, both the Aus Group and the Mission Group continue to work towards completing the conditions precedent, which include:

- The completion of a re-structure of AUS business operations and a pre-RTO funding round by AUS to meet immediate growth working capital requirements. This restructure and prefunding shall be at the sole discretion of AUS and shall not require any action by MBT.
- The completion of shareholder and ASX approval by Mission, sale of Joint Venture investment and completion of due diligence.

As at the date of this report it is the intention of both Mission and Aus Group to proceed with the RTO

Biodiesel feedstock Segment

The Group owns 100% of M2 Capital Sdn Bhd, a Malaysian subsidiary, which owns a 20% stake in FGV Green Energy Sdn Bhd (FGVGE), a refinery joint venture company. The joint venture partners

are Felda Global Ventures Holdings Berhad, the world's largest palm oil producer, and Benefuels, a US based company with a ground breaking disruptive and patented technology process that allows refineries to be operated using substantially lower cost feedstock. As part of the aforementioned RTO announced to the market in December 2016, the Group is required to dispose of the shares held in the Joint Venture Company. The accounting standards require assets held for sale to be separately disclosed on balance sheet with the value of the investment into the joint venture company to be accounted for at the lower of carrying value or fair value less costs to sell.

In assessing the carrying value of the investment, the following factors were considered by the Directors:

- o Mission does not hold a refining asset, however it holds a 20% share in the refining JV,
- This refining JV is not a listed publically traded entity with a readily determinable share price, nor is there a ready market to sell the 20% holding,
- Mission does not have the voting or management rights to force any actions on the JV company, (be that to commence refurbishment, sell the asset as a going concern or for sell for scrap value),
- Should the JV company require further equity funding to undertake the refurbishment the group has insufficient current cash proceeds to protect its equity position and hence our shareholding position would likely be diluted.

Given that the Group has entered into this agreement in December 2016 which requires the sale of its 100% stake in M2 Capital, which owns the 20% stake in the JV company and the delays being experienced with the project, management has been unsuccessful to date in disposing of the investment, however continues to actively seek buyers. Accordingly the Directors have deemed it prudent to impair the carrying value of the investment to NIL during the current financial year. Should the Group sell the refinery an impairment reversal is expected to be recognised in the financial records of the Group.

During the financial year, an amount retained by FGVGE (A\$1.06 million) on the sale of the refinery in 2015 by the Group, was released, and under the terms of the Convertible note settlement of that time, the same amount was paid to noteholders.

Capital Markets and Funding

There have been no Capital Market matters undertaken during the current financial year.
