This Offer does not, and is not intended to, constitute an offer in any place or jurisdiction in which, or to any person to whom, it would not be lawful to make such an offer or to issue this Prospectus.

It is not practicable for the Company to comply with the securities laws of overseas jurisdictions (other than New Zealand) having regard to the number of overseas Shareholders, the number and value of Bonus Options these Shareholders would be offered and the cost of complying with regulatory requirements in each relevant jurisdiction. Accordingly, the Offer is not being extended and Bonus Options will not be issued to Shareholders with a registered address which is outside Australia and New Zealand.

The Offer is being made in New Zealand pursuant to the Securities act (Overseas Companies) Exemption Notice 2013.

6.2 Rights attaching to Shares

The following is a summary of the more significant rights and liabilities attaching to Shares being the underlying securities of the Bonus Options to be issued pursuant to this Prospectus. This summary is not exhaustive and does not constitute a definitive statement of the rights and liabilities of Shareholders. To obtain such a statement, persons should seek independent legal advice.

Full details of the rights and liabilities attaching to Shares are set out in the Constitution, a copy of which is available for inspection at the Company's registered office during normal business hours.

(a) General meetings

Shareholders are entitled to be present in person, or by proxy, attorney or representative to attend and vote at general meetings of the Company.

Shareholders may requisition meetings in accordance with section 249D of the Corporations Act and the Constitution of the Company.

(b) Voting rights

Subject to any rights or restrictions for the time being attached to any class or classes of shares, at general meetings of shareholders or classes of shareholders:

- (i) each Shareholder entitled to vote may vote in person or by proxy, attorney or representative;
- (ii) on a show of hands, every person present who is a Shareholder or a proxy, attorney or representative of a Shareholder has one vote; and
- (iii) on a poll, every person present who is a Shareholder or a proxy, attorney or representative of a Shareholder shall, in respect of each fully paid Share held by him, or in respect of which he is appointed a proxy, attorney or representative, have one vote for each Share held, but in respect of partly paid shares shall have such number of votes as bears the same proportion to the total of such Shares registered in the Shareholder's name as the amount paid (not credited) bears to the total amounts paid and payable (excluding amounts credited).

(c) Dividend rights

Subject to the rights of any preference Shareholders and to the rights of the holders of any shares created or raised under any special arrangement as to dividend, the Directors may from time to time declare a dividend to be paid to the Shareholders entitled to the dividend which shall be payable on all Shares according to the proportion that the amount paid (not credited) is of the total amounts paid and payable (excluding amounts credited) in respect of such Shares.

The Directors may from time to time pay to the Shareholders any interim dividends as they may determine. No dividend shall carry interest as against the Company. The Directors may set aside out of the profits of the Company any amounts that they may determine as reserves, to be applied at the discretion of the Directors, for any purpose for which the profits of the Company may be properly applied.

Subject to the ASX Listing Rules and the Corporations Act, the Company may, by resolution of the Directors, implement a dividend reinvestment plan on such terms and conditions as are referred to in the resolution and which plan provides for any dividend which the Directors may declare from time to time and payable on Shares which are participating Shares in the dividend reinvestment plan, less any amount which the Company shall either pursuant to the Constitution or any law be entitled or obliged to retain, to be applied by the Company to the payment of the subscription price of Shares.

(d) **Winding-up**

If the Company is wound up, the liquidator may, with the authority of a special resolution, divide among the Shareholders in kind the whole or any part of the property of the Company, and may for that purpose set such value as he considers fair upon any property to be so divided, and may determine how the division is to be carried out as between the Shareholders or different classes of Shareholders.

The liquidator may, with the authority of a special resolution, vest the whole or any part of any such property in trustees upon such trusts for the benefit of the contributories as the liquidator thinks fit, but so that no Shareholder is compelled to accept any shares or other securities in respect of which there is any liability.

(e) **Shareholder liability**

As the Shares issued upon the exercise of the Bonus Options will be fully paid shares, they will not be subject to any calls for money by the Directors and will therefore not become liable for forfeiture.

(f) **Transfer of shares**

Generally, shares in the Company are freely transferable, subject to formal requirements, the registration of the transfer not resulting in a contravention of or failure to observe the provisions of a law of Australia and the transfer not being in breach of the Corporations Act and the ASX Listing Rules.

(g) **Future increase in capital**

The allotment and issue of any new Shares is under the control of the Directors of the Company. Subject to restrictions on the issue or grant of Securities contained in the ASX Listing Rules, the Constitution and the Corporations Act (and without affecting any special right previously conferred on the holder of an existing share or class of shares), the Directors may issue Shares as they shall, in their absolute discretion, determine.

(h) **Variation of rights**

Under section 246B of the Corporations Act, the Company may, with the sanction of a special resolution passed at a meeting of Shareholders vary or abrogate the rights attaching to shares.

If at any time the share capital is divided into different classes of shares, the rights attached to any class (unless otherwise provided by the terms of issue of the shares of that class), whether or not the Company is being wound up, may be varied or abrogated with the consent in writing of the holders of three quarters of the issued shares of that class, or if authorised by a special resolution passed at a separate meeting of the holders of the shares of that class.

(i) **Alteration of constitution**

In accordance with the Corporations Act, the Constitution can only be amended by a special resolution passed by at least three quarters of Shareholders present and voting at the general meeting. In addition, at least 28 days written notice specifying the intention to propose the resolution as a special resolution must be given.

7. RISK FACTORS

7.1 Introduction

The Bonus Options offered under this Prospectus are considered highly speculative. An investment in the Company is not risk free and the Directors strongly recommend potential investors to consider the risk factors described below, together with information contained elsewhere in this Prospectus and to consult their professional advisers.

There are specific risks which relate directly to the Company's business. In addition, there are other general risks, many of which are largely beyond the control of the Company and the Directors. The risks identified in this section, or other risk factors, may have a material impact on the financial performance of the Company and the market price of the Shares.

The following is not intended to be an exhaustive list of the risk factors to which the Company is exposed.

7.2 Company & Industry specific

(a) Concentrated Equity Exposure

The Company has a relatively concentrated Portfolio, focussed on small- to mid-cap stocks connected to Western Australia.

To the extent that the Company has an interest in an individual firm, it will be exposed to the risk factors particular to that firm. In turn, it is necessary to consider the specific risk factors, including operational, financial and regulatory risks, that may cause an individual investment of the Company to fall in value. This is particularly important for those firms in which the Company has a significant ownership stake.

(b) Licensing Requirements

The ability of the Company to continue to manage its Portfolio is dependent upon the maintenance of the Portfolio manager's Australian financial services license. The maintenance of this license will depend upon the Portfolio manager's compliance with the Corporations Act and license conditions imposed by ASIC.

(c) Gearing and Derivatives

An investment may be geared through the use of derivatives or otherwise. It is important to consider the extent to which the Portfolio is geared. A higher rate of gearing has the capacity to expose the Portfolio to greater fluctuations in its returns. It is relevant to note that the Portfolio manager may incorporate derivatives into the Portfolio.

(d) Reliance on Key Personnel

The loss of key personnel within the Company may have an adverse impact on the Company. It is important to note that the Company has sought to put in place systems to mitigate the risk of losing key personnel.

(e) **Competition Risk**

The industry in which the Company is involved is subject to domestic and global competition. Although the Company will undertake all reasonable due diligence in its business decisions and operations, the Company will have no influence or control over the activities or actions of its competitors, who's activities or actions may, positively or negatively, affect the performance of the Portfolio.

(f) **Absolute Performance versus Relative Performance**

It is the objective of the Company to show positive returns on its investment regardless of the underlying movement in value of the Australian share market. With such an objective, the Portfolio value may not change in line with the overall movements in the market and its performance may differ significantly from funds that seek to measure performance against the broader share market.

The past performance of funds managed by the Company is not necessarily a guide to future performance of the Company.

7.3 General Risk Factors

(a) **Dilution**

Upon implementation of the Offer the number of Options in the Company will increase by 12,900,119. If each Option is subsequently exercised, 12,900,119 more Shares will be issued and each pre-existing Share will represent a lower proportion of the ownership of the Company.

(b) **Financial Market Regulation**

Changes in market regulations may limit the Company's capacity to trade and adjust its Portfolio. Additionally, increased disclosure and compliance costs may decrease returns.

(c) **Taxation**

Investing through the Company may result in higher after-tax returns than investing independently in the same stocks held by the Company. Furthermore, the acquisition and disposal of Shares will have tax consequences specific to the investor. All potential investors in the Company are urged to obtain independent financial advice about the consequences of acquiring Shares from a taxation viewpoint and generally.

To the maximum extent permitted by law, the Company, its officers and each of their respective advisors accept no liability and responsibility with respect to the taxation consequences of receiving Options under this Prospectus.

(d) **Liquidity**

There can be no guarantee that an active market in the shares and Bonus Options will exist or develop. To the extent that there are relatively few buyers and sellers, it may be difficult to subsequently transact Shares and Options in the Company.

(e) **Additional Requirements for Capital**

Depending on the Company's ability to generate income from its Portfolio, the Company may require further financing in addition to amounts raised when the Bonus Options are exercised. Any additional equity financing will dilute shareholdings, and debt financing, if available, may involve restrictions on financing and operating activities. If the Company is unable to obtain additional financing as needed, it may be unable to capitalise on favourable investment opportunities and may be required to restrict its Portfolio investments. There is no guarantee that the Company will be able to secure any additional funding or be able to secure funding on terms favourable to the Company.

(f) **Dividends**

Any future determination as to the payment of dividends by the Company will be at the discretion of the Directors and will depend on the financial condition of the Company, future capital requirements and general business and other factors considered relevant by the Directors. Importantly, dividends may only be paid out of profits. No assurance in relation to the payment of dividends or franking credits attaching to dividends can be given by the Company.

The Company has a dividend policy whereby it intends to pay a consistent dividend stream to investors. These dividends will be based on net profits after tax, retained earnings and the availability of franking credits.

(g) **General Market Risks**

The market price of securities can fall as well as rise and may be subject to varied and unpredictable influences. Neither the Company nor the Directors warrant the future performance of the Company or any return on an investment in the Company.

It is not possible to predict what the value of the Company or a Share will be following the completion of the Offer being implemented and the Directors do not make any representation as to such matters. The last trading price of Shares on ASX on the day prior to the prospectus being lodged of \$0.985 is not a reliable indicator as to the potential trading price of Shares after implementation of the Offer.

A fall in equity or bond markets may adversely affect the value of the Portfolio. Equity and bond markets are influenced by a range of macroeconomic factors. Amongst others, these include:

- (i) general economic outlook;
- (ii) introduction of tax reform or other new legislation;
- (iii) interest rates and inflation rates;
- (iv) exchange rate fluctuations;
- (v) the demand for, and supply of, capital; and
- (vi) terrorism or other hostilities.

7.4 Speculative Investment

The above list of risk factors ought not to be taken as exhaustive of the risks faced by the Company or by investors in the Company. The above factors, and others not specifically referred to above, may in the future materially affect the financial performance of the Company and the value of the Bonus Options offered under this Prospectus.

Therefore, the Bonus Options to be issued pursuant to this Prospectus carry no guarantee with respect to the payment of dividends, returns of capital or the market value of those Bonus Options.

Potential investors should consider that the investment in the Company is speculative and should consult their professional advisers.

8. ADDITIONAL INFORMATION

8.1 Litigation

As at the date of this Prospectus, the Company is not involved in any legal proceedings and the Directors are not aware of any legal proceedings pending or threatened against the Company.

8.2 Continuous disclosure obligations

The Company is a “disclosing entity” (as defined in section 111AC of the Corporations Act) for the purposes of section 713 of the Corporations Act and, as such, is subject to regular reporting and disclosure obligations. Specifically, like all listed companies, the Company is required to continuously disclose any information it has to the market which a reasonable person would expect to have a material effect on the price or the value of the Company’s securities.

This Prospectus is a “transaction specific prospectus”. In general terms a “transaction specific prospectus” is only required to contain information in relation to the effect of the issue of securities on a company and the rights attaching to the securities. It is not necessary to include general information in relation to all of the assets and liabilities, financial position, profits and losses or prospects of the issuing company.

This Prospectus is intended to be read in conjunction with the publicly available information in relation to the Company which has been notified to ASX and does not include all of the information that would be included in a prospectus for an initial public offering of securities in an entity that is not already listed on a stock exchange. Investors should therefore have regard to the other publicly available information in relation to the Company before making a decision whether or not to invest.

Having taken such precautions and having made such enquires as are reasonable, the Company believes that it has complied with the general and specific requirements of ASX as applicable from time to time throughout the 3 months before the issue of this Prospectus which required the Company to notify ASX of information about specified events or matters as they arise for the purpose of ASX making that information available to the stock market conducted by ASX.

Information that is already in the public domain has not been reported in this Prospectus other than that which is considered necessary to make this Prospectus complete.

The Company, as a disclosing entity under the Corporations Act states that:

- (a) it is subject to regular reporting and disclosure obligations;
- (b) copies of documents lodged with the ASIC in relation to the Company (not being documents referred to in section 1274(2)(a) of the Corporations Act) may be obtained from, or inspected at, the offices of the ASIC; and
- (c) it will provide a copy of each of the following documents, free of charge, to any person on request between the date of issue of this Prospectus and the Closing Date:

- (i) the annual financial report most recently lodged by the Company with the ASIC;
- (ii) any half-year financial report lodged by the Company with the ASIC after the lodgement of the annual financial report referred to in (i) and before the lodgement of this Prospectus with the ASIC; and
- (iii) any continuous disclosure documents given by the Company to ASX in accordance with the ASX Listing Rules as referred to in section 674(1) of the Corporations Act after the lodgement of the annual financial report referred to in (i) and before the lodgement of this Prospectus with the ASIC.

Copies of all documents lodged with the ASIC in relation to the Company can be inspected at the registered office of the Company during normal office hours.

Details of documents lodged by the Company with ASX since the date of lodgement of the Company's latest annual financial report and before the lodgement of this Prospectus with the ASIC are set out in the table below.

Remuneration

The remuneration of an executive Director is decided by the Board, without the affected executive Director participating in that decision-making process. The total maximum remuneration of non-executive Directors is initially set by the Constitution and subsequent variation is by ordinary resolution of Shareholders in general meeting in accordance with the Constitution, the Corporations Act and the ASX Listing Rules, as applicable. The determination of non-executive Directors' remuneration within that maximum will be made by the Board having regard to the inputs and value to the Company of the respective contributions by each non-executive Director. The current amount has been set at an amount not to exceed \$200,000 per annum.

A Director may be paid fees or other amounts (i.e. non-cash performance incentives such as Options, subject to any necessary Shareholder approval) as the other Directors determine where a Director performs special duties or otherwise performs services outside the scope of the ordinary duties of a Director. In addition, Directors are also entitled to be paid reasonable travelling, hotel and other expenses incurred by them respectively in or about the performance of their duties as Directors.
