YOJEE MOVES TO BULK FREIGHT AND WHARF CARTAGE WITH INDUSTRY LEADER

HIGHLIGHTS

- Yojee enhances its supply chain capabilities, intellectual property, and revenue pipeline through entrance into wharf cartage sector.
- Fast track of a seamless platform from container origin to port, down to consumer parcel deliveries to form a global supply chain.
- Leading bulk freight transporter across Australia first to utilise Yojee's digital transformation package.

BACKGROUND

Yojee Limited (**Yojee** or the **Company**) (ASX: **YOJ**), aims to transform the global logistics industry by providing state-of-the-art blockchain and artificial intelligence backed technology empowering shippers and carriers to work together across the entire supply chain.

Yojee is pleased to announce signing its first digital transformation package with an industry leader specialising in wharf cartage and bulk freight across Australia. The package is offered by Yojee to support adoption to larger companies, and includes white labelling (reskinning to customers branding) and initial phase of implementation, focusing on optimal efficiency, with support from Yojee's in house experts. During this rapid growth phase Yojee is building its network capabilities and rapidly selling its software. The

Company continues to attract industry specialists with a vision of seamless supply chain optimization and industry-leading technology to complete a global rapid distribution network.

The Company considers this strategic first move into bulk freight and wharf cartage as another step towards being an industry-wide technology standard for supply chain and logistics, with the Yojee 'Your Software' offering. The Company is also growing it's offering to senders by expanding its fast-growing collaborative 'Your Network.'

Yojee Managing Director, Ed Clarke commented, "In our roadmap, international freight movements and portside logistics is a vital area to fast-track our growth and secure market share across the supply chain. Having wharf cartage capabilities will fast track this goal. Yojee will continue to work closely with stakeholders, and continue to optimize our capabilities in this area of the market."

"We are moving rapidly and relentlessly to provide transformative technology and innovative opportunities to the market. Enhancing Yojee's presence on a global scale, throughout the supply chain and across every sector. With blockchain connecting and creating trust, transparency and irrefutable records for customs clearance, cross-border freight movements, transactions and asset tracking, we are really on the leading edge of what we believe is the future of the industry. Many industries and businesses would love to access that Amazon like fulfillment capability and there are so many capable global logistics players who can come on board with us to create this."

Benefits to the YOJEE 'YOUR NETWORK'

Wharf Cartage and Bulk freight can create further opportunities for freight revenue through a broader network affording large-scale bulk freight movements including access to millions of shipping containers and pallets moving in and out of ports each year in Australia alone.

Benefits to the YOJEE 'YOUR SOFTWARE'

The package fast tracks the implementation process and maximises internal efficiencies and the economic advantages available to companies by providing tailored solutions available through the modular and proprietary Yojee AI and machine learning software.

Transforming the Logistics Economy, Digitally

FORWARD LOOKING STATEMENTS

Certain statements contained in this asx release, including information as to the future financial or operating performance of the Company and its projects, are forward looking statements. Such forward looking statements:

- (a) are necessarily based upon a number of estimates and assumptions that, while considered reasonable by the Company, are inherently subject to significant technical, business, economic, competitive, political and social uncertainties and contingencies;
- (b) involve known and unknown risks and uncertainties that could cause actual events or results to differ materially from estimated or anticipated events or results reflected in such forward looking statements; and
- (c) may include, among other things, statements regarding estimates and assumptions in respect of prices, costs, results and capital expenditure, and are or may be based on assumptions and estimates related to future technical, economic, market, political, social and other conditions. The Company disclaims any intent or obligation to publicly update any forward looking statements, whether as a result of new information, future events or results or otherwise.

The words "believe", "expect", "contracted", "anticipate", "indicate", "contemplate", "target", "plan", "intends", "continue", "budget", "estimate", "may", "will", "schedule", "planned" and similar expressions identify forward looking statements. All forward looking statements contained in this asx release are qualified by the foregoing cautionary statements. Recipients are cautioned that forward looking statements are not guarantees of future performance and accordingly recipients are cautioned not to put undue reliance on forward looking statements due to the inherent uncertainty therein.
