

First MESMER™ sales to Latin American Federal Prison Operator

HIGHLIGHTS:

- First sale of MESMER™ counter drone solution into the Latin America region
- First sale into a Federal Prison System

PERTH, WA and COLUMBIA, MD USA – DEPARTMENT 13 INTERNATIONAL LTD (ASX : D13) (“Department 13”, “D13” or “the Company”) a cutting edge developer of counter drone technology, is pleased to announce today it received a purchase order for the sale of two MESMER™ v1.5 units into the Latin American Federal Prison System. The purchase order will be delivered this quarter and includes a 50% upfront deposit.

Michael McNicholas Managing Director of the Phoenix Group (D13's Latin American Distributor) said “a *Federal Prison System Operator selected MESMER™ following a series of demonstrations over the last 4 months. The initial MESMER units will be deployed in two high-profile prisons and function as reference sites for the Phoenix Group as it looks to expand product sales in the near-term to other Federal and State prisons, international airports, and sensitive government installations.*”

The use of MESMER™ as a solution to protect airspace over prisons represents a key global market to D13. The Company is confident this sale and the successful implementation of MESMER™ will provide a reference of the products capabilities to further Latin American based customers and Federal Prison System Operator's globally. There are estimated to be over 7,500 Federal, State and Local penitentiary facilities in the United States and Latin America alone.

Department 13 CEO, Jonathan Hunter, commented: “*This initial MESMER™ sale to the Latin American prison system further demonstrates the significant opportunities that technology has. This is our first sale into a new geography and industry parallel. We continue to undertake demonstrations with customers globally, within the defense, key infrastructure and commercial industries and look forward to further sales in the near future. We remain confident that our MESMER™ counter drone solution has substantial applications globally and amongst many industries.*”

This end customer's details and commercial terms remain in security in confidence.
