

EGANSTREET APPOINTS EXPERIENCED MINING EXECUTIVE AS CHIEF FINANCIAL OFFICER

Egan Street Resources Limited (ASX: EGA) ("**EganStreet**" or the "**Company**") is pleased to announce the appointment of Richard Hill as the Company's Chief Financial Officer, effective from 10 October, 2017.

Mr Hill is an accomplished finance professional with more than 20 years of experience in the resources sector, primarily in the gold industry. He was most recently CFO at WA gold producer Millennium Minerals and has held the positions of General Manager, Finance with ASX-listed Adamus Resources and Commercial Manager with Newmont Asia Pacific.

Egan Street Managing Director Marc Ducler said Mr Hill's skills and experience would be invaluable as the Company implemented its strategy to grow and develop the Rothsay Gold Project in WA's Mid-West.

"It is increasingly clear that Rothsay is going to be a significant WA gold project and therefore we require strong financial management as we push hard to grow the inventory and establish the economic and technical aspects of Rothsay as we lead up to project development," Mr Ducler said.

ABOUT EGANSTREET RESOURCES

EganStreet is an emerging West Australian gold company which is focused on the exploration and development of the 100%-owned Rothsay Gold Project, located 300km north-east of Perth in WA's Midwest region.

The Rothsay Project currently hosts high-grade Mineral Resources of 262koz at an average grade of 11.6 g/t Au (Indicated 399kt @ 11.9g/t Au and Inferred 303kt @ 11.3g/t Au) and a production target (Pre-Feasibility Study published 16 May 2017) of 936kt @ 7.0 g/t for 200koz of gold produced.

The Company is focused on increasing the geological confidence of the Mineral Resource, expanding the known mineralisation and carrying out the necessary evaluation, modelling and feasibility studies to progress a potential near-term, low capital intensity opportunity to commence mine development and gold production operations.

A Definitive Feasibility Study is now targeted for completion in the 2nd quarter of 2018.

EganStreet has a strong Board and Management team which has the necessary range of technical and commercial skills to progress the Rothsay Gold Project to production.

The Company is funded to progress the Rothsay Gold Project to a decision to mine (technical and commercial studies completed, funding secured and key construction, mining and processing contracts in place).

EganStreet's longer term growth aspirations are based on a strategy of utilising the cash-flow generated by an initial mining operation at Rothsay to target extensions of the main deposit and explore the surrounding tenements, which include a 14km strike length of highly prospective and virtually unexplored stratigraphy.

APPENDIX 1 COMPETENT PERSON'S STATEMENT

The information in this announcement that relates to the Rothsay Mineral Resource is extracted from the announcement titled "27% Increase in High-Grade Indicated Resource at Rothsay" lodged on 14 March 2017 which is available to view at www.eganstreetresources.com.au / www.asx.com.au. The Company confirms that it is not aware of any new information or data that materially affects the information included in the original market announcement and that all material assumptions and technical parameters underpinning the Mineral Resource estimate continue to apply and have not materially changed. The Company confirms that the form and context in which the Competent Person's findings are presented have not been materially modified from the original market announcement.

Information in relation to the Rothsay Project Pre-feasibility Study, including production targets and financial information, included in this report is extracted from an ASX Announcement dated 16 May 2017 (see ASX Announcement – 16 May 2017, "Rothsay PFS Confirms Potential New High-Grade Gold Project", www.eganstreetresources.com.au and www.asx.com.au). The Company confirms that all material assumptions underpinning the production target and financial information set out in the announcement released on 16 May 2017 continue to apply and have not materially changed.
