## **WANGLE FAMILY INSITES LAUNCH CONFIRMED FOR WEEK OF 23 OCTOBER 2017**

**Wangle Technologies Limited (Wangle or the Company) (ASX:WGL)** is pleased to offer investors an update on the Company's soon to be released family protection software suite, **Wangle Family Insites (WFI)**.

### **Summary**

- Launch confirmed for the week commencing 23 October 2017.
- Apple has confirmed acceptance of WFI iOS version in the App Store.
- Launch marketing activity to commence on the day of launch.
- Features of Wangle Family Insites 'Version 1' for launch.

### **Wangle Family Insites**

The ground-breaking parent protection suite utilises behavioural analysis of live mobile network traffic across Wangle's best in class secure VPN network to help parents identify and manage online risks to their children. The platform also provides educational resources to parents when risks are identified which has been prepared in collaboration with Telethon Kids Institute and Wangle's Head of Education, Robyn Treyvaud of Cyber Safe Kids.

### **Launch Confirmed for Week Commencing 23 October 2017**

The public launch of Wangle Family Insites has now been confirmed for the week commencing 23 October 2017. Closed group family beta testing of the full product suite (including mobile apps and online portal) has been completed for Version 1 of WFI in readiness for public launch.

The iOS version of the WFI app has passed testing and is now staged for final public release. The Android version of the WFI app is still undergoing final preparations in readiness for launch and pending final testing, will launch at the same time or shortly after the iOS version.

## iOS App Store Submission Successful

The Wangle Family Insites iOS app was submitted to the Apple App Store after the completion of beta testing and has been granted all approvals by Apple in readiness for launch.

## Launch Marketing Activity

The Company's marketing team and marketing partners have finalised the Wangle Family Insites launch plan with the immediate focus on increasing sales through 'aggressive' marketing and brand awareness campaigns and customer acquisition via a range of activities including public relations, social media marketing, content marketing and paid search.

## WFI Features Confirmed for Version 1

The launch of Version 1 of the Wangle Family Insites App will incorporate the following features for parents and children:

- Live alerts providing educational resources to families to help with identifying a range of potential behavioural threats, including:
  - o Accessing adult or sexually explicit material such as pornography, adult services or paraphernalia
  - o Websites that feature the sale and/or promotion of drugs, alcohol, gambling, weapons and extremist behaviours
  - o Uploading of private content to harmful websites
  - o Excessive internet usage behaviours including gaming and social networking
  - o Dangerous behavioural indicators including after-hours communication and cyberbullying
- Supporting documentation on threats including research, resources and further reading suggestions
- Ability to activate live GPS tracking of linked devices
- Collation of each device's usage information across the most popular used apps including specific categories such as gaming, social media and messaging
- Rolling daily reports on each devices internet usage
- Utilisation of Wangle's secure and accelerated VPN for child devices.

The product will be available via the Apple and Android App stores on a monthly or annual family subscription and will initially target Australia's 6 million families before a planned international expansion.

Visit the Wangle Family Insites website for details of additional features of the WFI App and the pricing packages: <https://wanglefamilyinsites.com>

**ABOUT WANGLE FAMILY INSITES**

Wangle Family Insites (**WFI**) offers parents a unique approach to ensuring the safe use of the internet by children and teenagers. By utilising Wangle's world class VPN network, backed by the research insights of childhood development research organization Telethon Kids Institute, WFI monitors mobile network patterns in real time and advises parents of potential threats as well as providing greater details and resources to parents on the threats identified.

**ABOUT WANGLE TECHNOLOGIES**

Wangle Technologies has developed patented algorithms that not only optimise, compress and secure the data flow to mobile devices, but facilitate real time analysis of network patterns and usage behaviours. Wangle's technology provides compelling value to consumers, service providers and enterprises looking for innovative low cost solutions for managing network capacity and use.
