DIRECTORS' REPORT

The Directors present their report on Pioneer Resources Limited and the entities it controlled at the end of and during the year ended 30 June 2017.

DIRECTORS

The names and details of the Directors of Pioneer Resources Limited during the financial year and until the date of this report are:

Craig Ian McGown – B Comm, FCA, ASIA
Independent Non-Executive Chairman

Mr McGown was appointed a Director on 13 June 2008. Mr McGown is an investment banker with over 40 years experience consulting to companies in Australia and internationally, particularly in the natural resources sector. He holds a Bachelor of Commerce degree, is a Fellow of the Institute of Chartered Accountants and an Affiliate of the Financial Services Institute of Australasia. Mr McGown is an executive director of the corporate advisory business New Holland Capital Pty Ltd and prior to that appointment was the chairman of DJ Carmichael Pty Limited. Mr McGown has had extensive experience in the corporate finance sector, including mergers and acquisitions, capital raisings in both domestic and international financial markets, asset acquisitions and asset disposals, initial public offerings and corporate restructurings.

Mr McGown brings to the Board a comprehensive knowledge of equity and debt markets and financing of resource projects.

During the three year period to the end of the financial year, Mr McGown also holds a directorship with Sipa Resources Ltd (11 March 2015 to present).

David J Crook – B.Sc, MAusIMM, MAIG, GAICD
Managing Director

Mr Crook was appointed the inaugural Managing Director of the Company on 11 August 2003. Mr Crook is a geologist with over 35 years of experience in exploration, mining and management, predominantly within Western Australia, where he has investigated gold, nickel sulphide, nickel laterite and other commodities in teams with an excellent discovery record. He has held senior management roles including the Company's IPO, exploration management, project acquisitions, JV negotiations and capital raisings.

In Australia Mr Crook's operational experience has included tenement identification to ore reserve calculations for gold and base metal projects; and a decade working in operational gold mines. Prior to being employed by the Company his career highlights included participation in the discovery of the Radio Hill Nickel Mine, ore generation and early production at the Gidgee Gold Mine, and exploration manager at Heron Resources Limited.

Allan Trench – B.Sc (Hons), Ph.D, M.Sc (Min. Econ), MBA (Oxon), ARSM, AWASM, FAusIMM, FAICD
Independent Non-Executive Director

Dr Trench was appointed a Director on 8 September 2003. Dr Trench is a mineral economist, geophysicist and business management consultant with minerals experience including iron ore, nickel, copper, gold, lithium, oil & gas and also across a number of the minor metals markets. Dr Trench led nickel sulphide exploration teams for WMC Resources in the Widgiemooltha-Pioneer and Leinster-Mt Keith regions of WA in the mid 1990's. He has subsequently worked with McKinsey and Company, KCGM Pty Ltd, Woodside Energy and with the independent mining & metals analysis global consultancy CRU Group. He is presently a Professor of Practice at the Business School, University of Western Australia and is also a Research Professor (Risk & Value) at the Centre for Exploration Targeting, University of Western Australia.

During the three year period to the end of the financial year, Dr Trench also held directorships in Hot Chili Ltd (19 July 2010 to present), Enterprise Metals Limited (3 April 2012 to present), Emmerson Resources Limited (3 March 2015 to present) and Trafford Resources Limited (7 May 2012 to 8 May 2015).

Thomas Wayne Spilsbury – B.Sc (Hons), M.Sc (Applied Geology), APEGBC (P. Geo.), FAusIMM CP (Geo), MAIG, GAICD
Independent Non-Executive Director

Mr Spilsbury was appointed a Director on 4 January 2010. Mr Spilsbury is a geologist who received his B.Sc. (Honors Geology) in 1973 from the University of British Columbia and his M.Sc. (Applied Geology) in 1982 from Queens University in Ontario. He brings over 40 years of experience in mineral exploration and management, including 28 years with Teck Cominco Limited and was their former General Manager, Exploration – Asia Pacific. In this role, he held responsibility for managing an extensive exploration portfolio including large-scale gold and base metal projects in Australia and China. Mr Spilsbury has worked throughout Western Canada, the United States, Asia and Australia. It is through his role with International Lithium Corporation that Mr Spilsbury has significant experience in the exploration for and development of lithium projects.

DIRECTORS' REPORT

COMPANY SECRETARY

Julie Anne Wolseley – B.Com, CA

Ms Wolseley was appointed Company Secretary on 11 August 2003. Ms Wolseley is the principal of a corporate advisory company with over 20 years of experience acting as company secretary of a number of ASX listed public companies operating primarily in the resources sector. Previously Ms Wolseley was an audit manager both in Australia and overseas for an international accounting firm. Ms Wolseley also holds a directorship on the board of OM Holdings Limited.

PRINCIPAL ACTIVITIES

The principal activities of the consolidated entity during the financial year consisted of mineral exploration and development in Western Australia and Ontario, Canada.

There have been no significant changes in these activities during the financial year aside from the geographical location.

RESULTS OF OPERATIONS

The consolidated net loss after income tax for the financial year was \$2,522,555 (2016: consolidated net loss after income tax \$1,673,138) which included project exploration write-offs/write-downs of \$1,815,671.

DIVIDENDS

No dividend has been paid since the end of the previous financial year and no dividend is recommended for the current year.

REVIEW OF OPERATIONS AND ACTIVITIES

The consolidated entity recorded an operating loss after income tax for the year ended 30 June 2017 of \$2,522,555 compared to a consolidated operating loss after income tax of \$1,673,138 for the year ended 30 June 2016.

During the financial year the consolidated entity incurred a total of \$4,356,610 on exploration expenditure with a significant proportion of the exploration and evaluation expenditure expended at the Pioneer Dome Project (including the Sinclair Caesium Zone Deposit), the Mavis Lake and Raleigh Lake Lithium Projects in Canada, the Golden Ridge (Blair Mine) Nickel Project and regional Western Australian lithium projects.

Exploration write-downs totalled \$1,815,671 which related primarily to a write-down on a project considered at balance date to be non-core as well as tenements surrendered during the year. This compared to exploration write-offs of \$1,190,418 recorded in the prior year ended 30 June 2016.

On 21 July 2016 the Company raised total proceeds of \$1,518,298 (before issue costs) from the issue of 42,174,962 ordinary shares at an issue price of 3.6 cents each following an offer under the Company's Share Purchase Plan ("SPP"). In addition 14,058,215 free-attaching listed options were issued to eligible shareholders who participated in the SPP on a one for three basis with a fair value of \$190,208.

During the financial year ended 30 June 2017 the Company also issued the following securities as non-cash consideration:

- (i) On 23 September 2016 the Company issued 731,750 ordinary shares at a deemed issued price of 3.4 cents per share to International Lithium Corp as First Earn In Consideration under the Raleigh Lake Lithium Project Heads of Agreement.
- (ii) On 23 September 2016 the Company issued 2,133,409 ordinary shares at an issue price of 4.18 cents each to Milford Resources Pty Ltd following shareholder approval obtained on 13 September 2016.

On 1 July 2016 the Company issued 90,844,441 ordinary shares at an issue price of 3.6 cents per share under a placement to professional and sophisticated investors, which raised \$3,270,400 (before issue costs). The subscriptions funds were received on 30 June 2016. In addition 30,281,454 free-attaching listed options were issued on a one for three basis with a fair value of \$444,108 recorded in the prior financial year.

DIRECTORS' REPORT

REVIEW OF OPERATIONS AND ACTIVITIES (Continued)

Corporate and Financial Position

As at 30 June 2017 the consolidated entity had cash reserves of \$2,240,670 (2016: \$5,098,260). The movement in cash is detailed in the Statement of Cash Flows on page 17 of this report. Subsequent to the end of the financial year \$1,055,000 (before issue costs) has been raised from capital raising initiatives outlined below in Events Subsequent to Balance Date.

The consolidated entity will continue to seek to commercialise the Sinclair Caesium Zone Deposit as well as further exploration programs including drilling programs at the Company's 100% owned Pioneer Dome Lithium Project and to advance exploration activities as the Company earns its project interest in the Canadian based Mavis Lake Lithium and Raleigh Lake Lithium Projects. Further exploration programs are planned later in the calendar year at the Blair Nickel Project as well as the Phillips River Lithium Project, Donnelly Lithium Project and Bogadi Lithium Project.

Business Strategies and Prospects

The consolidated entity currently has the following business strategies and prospects over the medium to long term:

- (i) Develop and commercialise the Sinclair Caesium Zone Deposit;
- (ii) Advance the consolidated entity's Pioneer Dome Lithium Project, Phillips River Lithium Project, Donnelly Lithium Project and Bogadi Lithium Project all located within Western Australia;
- (iii) Continue to explore as part of earning its project interest in the Canadian based Mavis Lake Lithium and Raleigh Lake Lithium Projects;
- (iv) Consider the Company's options with respect to cobalt opportunities identified at the Blair Dome;
- (v) Seek to increase the value of the consolidated entity's mineral assets located in Canada and Western Australia through exploration success; and
- (vi) Continue to examine new mineral opportunities, with particular focus on advanced projects with the potential to deliver early cash flow opportunities.

Risk Management

The Board is responsible for the oversight of the consolidated entity's risk management and control framework. Responsibility for control and risk management is delegated to the appropriate level of management with the Managing Director having ultimate responsibility to the Board for the risk management and control framework.

Areas of significant business risk to the consolidated entity are highlighted in the Business Plan and the Corporate Risk Register presented to the Board by the Managing Director each year.

Arrangements put in place by the Board to monitor risk management include monthly reporting to the Board in respect of operations and the financial position of the consolidated entity.

EMPLOYEES

The consolidated entity employed 4 full-time employees as at 30 June 2017 (2016: 2 employees).

REMUNERATION REPORT - AUDITED

This Remuneration Report, which forms part of the Directors' Report, sets out information about the remuneration of the Company's key management personnel for the financial year ended 30 June 2017. The information provided in this report has been audited as per the requirements of section 308(3C) of the *Corporations Act 2001* (Cth).

The report is set out under the following main headings:

- Key management personnel;
- Principles used to determine the components and amount of compensation;
- Details of remuneration;
- Details of share-based compensation; and
- Details of service agreements and employment contracts.

Key Management Personnel

For the purposes of this report, key management personnel of the Company are defined as those persons having authority and responsibility for planning, directing and controlling the major activities of the Company, directly or indirectly. The key management personnel during the year were:

- Craig McGown – Non-Executive Chairman
- David Crook – Managing Director
- Allan Trench – Non-Executive Director
- Thomas Wayne Spilsbury – Non-Executive Director
- Nigel Brand – Consultant Geochemist
- Paul Dunbar – Consultant Geologist

Dr Nigel Brand *B.Sc (Hons), Ph.D, M.Sc (Geochemistry)*

Dr Brand worked for WMC Resources for eleven years until 1999. During his time at WMC he worked throughout the Norseman-Wiluna Greenstone belt on various regional Ni & Au exploitation programs and at WMC operations at Norseman, Kambalda, Kalgoorlie, Leinster and Mt Keith. He completed his PhD in 1997 on weathering process associated with nickel sulphides. On leaving WMC, Dr Brand joined Anglo American for four and a half years as their geochemist in the Asian-Pacific region, including India, Philippines and Australia exploring for Zn, Ni and Cu-Au PC/IOCG deposits. In January 2005 Dr Brand established an independent geochemical consulting Geochemical Services Pty Ltd to provide hands-on and applied geochemical expertise to international mineral exploration.

Overview of Remuneration Policy (Continued)

Paul Dunbar *BSc Geol (Hons), MSc, MAusIMM, MAIG*

Mr. Dunbar is an exploration geologist with a BSc (Hons) from Curtin University and an MSc (Mineral exploration and evaluation) from Queens University in Canada. Mr Dunbar has over 20 years' experience in exploration for gold, base metals, nickel and uranium both within Australia and internationally having worked for Barrick Gold and Westgold Limited, Abra Mining Limited and Energy Metals Limited. Mr Dunbar ceased to provide services to the Company as at 31 July 2017.

The Board undertook its annual review of its Corporate Governance Policies and Procedures during the financial year and considered the ASX Corporate Governance Council's Corporate Governance Principles and Recommendations (Third Edition) which was released on 27 March 2014. Following this review, the Board resolved to form a Remuneration Committee comprising Mr T Spilsbury as chairman and Messrs C McGown and A Trench as members. The Remuneration Committee has met once during the financial year.

This report details the amount and nature of remuneration of the key management personnel including each Director of the Company and Dr Nigel Brand and Mr Paul Dunbar consultants to the Company.

Overview of Remuneration Policy

The Remuneration Committee (and previously the Board of Directors) is responsible for determining and reviewing compensation arrangements for the Directors and the executive team. The overall remuneration policy is to ensure that remuneration properly reflects the relevant person's duties and responsibilities, and that the remuneration is competitive in attracting, retaining and motivating people of the highest quality. The Remuneration Committee believes that the best way to achieve this objective is to provide the Managing Director and the executive team with a remuneration package consisting of a fixed and variable component that together reflects the person's responsibilities, duties and personal performance. An equity based remuneration arrangement for the Board and the executive team is in place. The remuneration policy is to provide a fixed remuneration component and a specific equity related component, with no performance conditions. The Board believes that this remuneration policy is appropriate given the stage of development of the Company and the activities which it undertakes and is appropriate in aligning Director and executive objectives with shareholder and business objectives.

The remuneration policy in regard to setting the terms and conditions for the Managing Director has been developed by the Board taking into account market conditions and comparable salary levels for companies of a similar size and operating in similar sectors.

Directors receive a superannuation guarantee contribution required by the government, which is currently 9.5% per annum and do not receive any other retirement benefit. Some Directors, however, have chosen to sacrifice part or all of their salary to increase payments towards superannuation.

All remuneration paid to Directors is valued at cost to the Company and expensed. Options are valued using the Black-Scholes or Binomial valuation methodology. In accordance with current accounting policy the value of these options is expensed over the relevant vesting period.

The relative proportions of those elements of remuneration of the Directors' remuneration are all fixed remuneration with the exception of the Managing Director's bonus that is linked to the Company's performance. Fees for Non-Executive Directors are not linked to the performance of the Company.

Non-Executive Directors

The Board policy is to remunerate Non-Executive Directors at market rates for comparable companies for time, commitment and responsibilities. The Board determines payments to the Non-Executive Directors and reviews their remuneration annually, based on market practice, duties and accountability. Independent external advice is sought when required. The maximum aggregate amount of fees that can be paid to Non-Executive Directors is subject to approval by shareholders at a General Meeting. The annual aggregate amount of remuneration paid to Non-Executive Directors was approved by shareholders on 19 November 2009 and is not to exceed \$400,000 per annum. Actual remuneration paid to the Company's Non-Executive Directors is disclosed below. Remuneration fees for Non-Executive Directors are not linked to the performance of the consolidated entity. However, to align Directors' interests with shareholder interests, the Directors are encouraged to hold shares in the Company and have in limited circumstances received options.

DIRECTORS' REPORT

REMUNERATION REPORT – AUDITED (CONTINUED)

Overview of Remuneration Policy (Continued)

Managing Director and Senior Management

The remuneration of the Managing Director is dictated by his executive service agreement.

The Company aims to reward executives with a level of remuneration commensurate with their position and responsibilities within the Company so as to:

- Reward executives for Company and individual performance against targets set by reference to appropriate benchmarks;
- Reward executives in line with the strategic goals and performance of the Company; and
- Ensure that total remuneration is competitive by market standards.

Remuneration policy and relationship between the remuneration policy and Company Performance

The Company's remuneration policy for the Managing Director is designed to promote superior performance and long term commitment to the Company. The main principles of the policy when considering remuneration are as follows:

- the Managing Director is motivated to pursue long term growth and success of the Company within an appropriate control framework;
- interests of key leadership are aligned with the long-term interests of the Company's shareholders; and
- there is a clear correlation between performance and remuneration.

Remuneration consists of the following key elements:

- Fixed remuneration;
- Fixed remuneration levels dictated by benchmark criteria;
- Performance-based bonusable achievements; and
- Issuance of unlisted options

The Company did not employ the services of any remuneration consultants during the financial year ended 30 June 2017.

Fixed Remuneration

Fixed remuneration consists of base remuneration (which is calculated on a total cost basis including any employee benefits eg. motor vehicles) as well as employer contributions to superannuation funds.

The level of fixed remuneration is set so as to provide a base level of remuneration which is both appropriate to the position and is competitive in the market.

Remuneration packages for the staff who report directly to the Managing Director are based on the recommendation of the Managing Director, subject to the approval of the Board in the annual budget setting process.

Remuneration Benchmarks – Managing Director only

The remuneration of the Managing Director includes bonusable achievements linked to benchmarks associated with the Company's operational targets. These targets consist of a number of key performance indicators including acquisition or discovery of a significant economic mineral resource, enhancing corporate credibility and creation of value for shareholders.

At the end of the calendar year the Board assesses the actual performance of the consolidated entity and individual against the key performance indicators previously set. Any cash incentives and/or options granted require Board approval. Options proposed to be granted to the Managing Director also require shareholder approval.

Potential discretionary bonus

A potential discretionary bonus may be paid to the Managing Director. Any potential bonus paid is at the discretion of the Board (excluding the Managing Director) and will typically be made in recognition of contribution to the Company's performance and other significant efforts of the Managing Director in applicable and appropriate circumstances. Based upon achievement of prescribed key performance indicators a discretionary cash bonus was paid during or with regard to the calendar year ended 31 December 2016. No discretionary bonuses were paid during the year ended 30 June 2016.

Under the terms of the present contract:

The Service Agreement has no fixed term.

- Mr Crook may resign from his position and thus terminate the contract by giving two months written notice. On resignation any options that have not yet vested will lapse.
- The Company may terminate the contract by providing two months written notice or provide payment in lieu of notice by the Company. Any options that have vested, or will vest during the notice period will be released, whilst the options that have not yet vested will be forfeited.
- The Company may terminate the contract at any time without notice if serious misconduct has occurred. Where termination with cause occurs, the Managing Director is only entitled to that portion of remuneration which is fixed, and only up to the date of termination. On termination with cause, any unvested options will immediately lapse.
- If the Managing Director and the Company agree to terminate the contract by mutual consent, or if the Managing Director is removed, or if the Company enters into a deed of arrangement with creditors, placed under the control of receivers or is in breach of regulations, the Company will pay a sum to the Managing Director calculated in accordance with section 200G9(3) of the *Corporations Act 2001*.

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 30 June 2017

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies adopted in preparing the financial report of the Company, Pioneer Resources Limited and its controlled entities ("consolidated entity"), are stated to assist in a general understanding of the financial report. These policies have been consistently applied to all the years presented, unless otherwise indicated. Separate financial statements for Pioneer Resources Limited as an individual entity are no longer presented as a consequence of a change to the *Corporations Act 2001*, however, required financial information for Pioneer Resources Limited is included in Note 25.

Pioneer Resources Limited is a company limited by shares incorporated and domiciled in Australia whose shares are publicly traded on the official list of the Australian Securities Exchange. The Company is a for profit entity. The financial statements are presented in Australian dollars which is the Company's functional currency.

(a) Basis of Preparation

This general purpose financial report has been prepared in accordance with Australian Accounting Standards (including Australian Interpretations) adopted by the Australian Accounting Standards Board and the *Corporations Act 2001*.

The financial report has been prepared on the basis of historical costs and does not take into account changing money values or, except where stated, current valuations of non-current assets.

The financial report was authorised for issue by the Directors on 28 September 2017.

(b) Going Concern

The financial report has been prepared on the going concern basis, which contemplates the continuity of normal business activity and the realisation of assets and the discharge of liabilities in the ordinary course of business.

The consolidated entity incurred a loss for the year of \$2,522,555 (2016: operating loss \$1,673,138) and incurred net cash outflows from operating and investing activities of \$4,152,137 (2016: net cash outflows of \$2,553,814). Cash and cash equivalents totaled \$2,240,670 as at 30 June 2017.

As at 30 June 2017, the consolidated entity had a working capital surplus of \$2,139,515 (2016: \$5,275,170). Subsequent to balance date the consolidated entity has also supplemented its cash position having raised \$1,055,000 (before issue costs) and a Share Purchase Plan is currently open to eligible shareholders of the Company. Further details are outlined in Note 28.

The Directors have prepared a cash flow forecast for the period ending 30 September 2018, which indicates that the consolidated entity will have sufficient cash flows to meet its commitments and working capital requirements for the 12 month period from the date of signing this financial report. Based on the cash flow forecasts and other factors referred to above, the Directors are satisfied that the going concern basis of preparation is appropriate because:

- The Directors have an appropriate plan to raise additional funds as and when they are required. In light of the consolidated entity's current exploration projects, the Directors believe that the additional capital required can be raised in the market.
- The Directors have an appropriate plan to contain certain operating and exploration expenditure if appropriate funding is unavailable.

Should the consolidated entity not achieve the matters set out above, there is a material uncertainty whether the consolidated entity will continue as a going concern and therefore whether it will realise its assets and extinguish its liabilities in the normal course of business and at the amounts stated in the financial report.

The financial report does not contain any adjustments relating to the recoverability and classification of recorded assets or to the amounts or classification of recorded assets or liabilities that might be necessary should the consolidated entity not be able to continue as a going concern.

(c) Statement of Compliance

The Financial Report complies with Australian Accounting Standards, which include Australian equivalents to International Financial Reporting Standards ('AIFRS'). Compliance with Australian Accounting Standards ensures that the financial statements and notes of the Company comply with International Financial Reporting Standards ('IFRS').

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 30 June 2017

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

(d) Basis of Consolidation

Controlled Entity

The consolidated financial statements comprise the financial statements of Pioneer Resources Limited and its subsidiaries as at 30 June each year.

The financial statements of the subsidiaries are prepared for the same reporting period as the parent company, using consistent accounting policies.

Control is achieved when the Company:

- has power over the investee;
- is exposed, or has rights, to variable returns from its involvement with the investee; and
- has the ability to use its power to affect its returns.

The Company reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above.

In preparing the consolidated financial statements, all intercompany balances and transactions, income and expenses and profit and losses resulting from intra-group transactions have been eliminated in full. The subsidiaries are fully consolidated from the date on which control is transferred to the consolidated entity and ceases to be consolidated from the date on which control is transferred out of the consolidated entity.

The acquisition of the subsidiaries have been accounted for using the purchase method of accounting. The purchase method of accounting involves allocating the cost of the business combination to the fair value of the assets acquired and the liabilities and contingent liabilities assumed at the date of acquisition. Accordingly, the consolidated financial statements include the results of the subsidiary for the period from their acquisition.

Joint ventures

A joint venture is a joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint arrangement. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control.

The results and assets and liabilities of associates or joint ventures are incorporated in these consolidated financial statements using the equity method of accounting, except when the investment, or a portion thereof, is classified as held for sale, in which case it is accounted for in accordance with AASB 5. Under the equity method, an investment in an associate or a joint venture is initially recognised in the consolidated statement of financial position at cost and adjusted thereafter to recognise the consolidated entity's share of the profit or loss and other comprehensive income of the associate or joint venture. When the consolidated entity's share of losses of an associate or a joint venture exceeds the consolidated entity's interest in that associate or joint venture (which includes any long-term interests that, in substance, form part of the consolidated entity's net investment in the associate or joint venture), the consolidated entity discontinues recognising its share of further losses. Additional losses are recognised only to the extent that the consolidated entity has incurred legal or constructive obligations or made payments on behalf of the associate or joint venture.

In the consolidated entity's financial statements, investments in joint ventures are carried at cost. Details of these interests are shown in Note 18.

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 30 June 2017

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

(e) Significant Accounting Judgements, Estimates and Assumptions

The preparation of a financial report in conformity with Australian Accounting Standards requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates. These accounting policies have been consistently applied by each entity in the consolidated entity.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

In particular, information about significant areas of estimation uncertainty and critical judgements in applying accounting policies that have the most significant effect on the amount recognised in the financial statements are described in the following notes:

- Note 7 – Financial assets and investments
Available for sale financial assets, comprising marketable securities are assets which management may dispose of within the next 12 months.
- Note 10 – Capitalised Mineral Expenditure
The accounting policy for exploration and evaluation expenditure is set out in Note 1 (l). The application of this policy necessarily requires management to make certain estimates and assumptions as to future events and circumstances, in particular, the assessment of whether economic quantities of reserves have been found. Any such estimates and assumptions may change as new information becomes available. If, after having capitalised expenditure under this policy, it is concluded that the consolidated entity is unlikely to recover the expenditure by future exploitation or sale, then the relevant capitalised amount will be written off to profit and loss.

The carrying amounts of certain assets and liabilities are often determined based on estimates and assumptions of future events. The key estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of certain assets and liabilities within the next annual reporting period are:

Share-based payment transactions:

The consolidated entity measures the cost of equity-settled transactions by reference to the fair value of the equity instruments at the date at which they are granted. The fair value is determined by an external valuer using a Black-Scholes or Binomial valuation model, using the assumptions detailed in Note 13(d).

Use of estimates

The Directors have considered a number of factors in regard to any forward looking estimates. During the reporting period, the consolidated entity incurred a net loss after tax of \$2,522,555 (2016: \$1,673,138 and incurred net cash outflows from operating and investing activities of \$4,152,137 (2016: \$2,553,814). As at 30 June 2017 the consolidated entity had net assets of \$12,269,097 (2016: \$13,323,040) and net current assets of \$2,139,515 (2016: net current assets - \$5,275,170).

The use of estimates is inherently uncertain and requires a significant level of judgement. Forward looking estimates have been used in the preparation of the financial report in respect of the impairment of exploration assets and the preparation of the financial report on a going concern basis.

Management and the Directors have concluded that appropriate assessments have been made with respect to the use of forecasts in the preparation of the financial report.

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 30 June 2017

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

(f) **Income Tax**

The income tax expense or revenue for the period is the tax payable on the current period's taxable income based on the income tax rate adjusted by changes in deferred tax assets and liabilities attributable to temporary differences between the tax bases of assets and liabilities and their carrying amounts in the financial statements, and to unused tax losses.

Deferred tax assets and liabilities are recognised for temporary differences at the tax rates expected to apply when the assets are recovered or liabilities are settled, based on those tax rates which are enacted. The relevant tax rates are applied to the cumulative amounts of deductible and taxable temporary differences to measure the deferred tax asset or liability. An exception is made for certain temporary differences arising from the initial recognition of an asset or a liability. No deferred asset or liability is recognised in relation to those temporary differences if they arose in a transaction, other than a business combination, that at the time of the transaction did not affect either accounting profit or taxable profit or loss.

Deferred tax assets are recognised for deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Deferred tax liabilities and assets are not recognised for temporary differences between the carrying amount and tax bases of investments in controlled entities where the parent entity is able to control the timing of the reversal of the temporary differences and it is probable that the differences will not reverse in the foreseeable future.

Current and future tax balances attributable to amounts recognised directly in equity are also recognised directly in equity.

For the purposes of income taxation, Pioneer Resources Limited and its 100% wholly-owned controlled entities have formed a tax consolidated group with effect from 1 July 2014.

(g) **Revenue Recognition**

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the consolidated entity and the revenue can be reliably measured. The following specific recognition criteria must also be met before revenue is recognised:

Sale of goods

Revenue is recognised when the significant risks and rewards of ownership of the goods have passed to the buyer and the costs incurred or to be incurred in respect of the transaction can be measured reliably. Risks and rewards of ownership are considered passed to the buyer at the time of delivery of the goods to the customer.

Government grants

Government grants are not recognised until there is reasonable assurance that the Company will comply with the conditions attaching to them and that the grants will be received. Government grants that are receivable as compensation for expenses or losses already incurred or for the purpose of giving immediate financial support to the Company with no future related costs are recognised in profit or loss in the period in which they become receivable.

Interest income

Interest revenue is recognised on a time proportionate basis that takes into account the effective yield on the financial asset.

Tenement bonds in the form of cash deposits are held as security with the Mines Department authorities. All revenue is stated net of the amount of goods and services tax (GST).

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

(h) Cash and Cash Equivalents

Cash and short-term deposits in the statement of financial position comprise of cash at bank and on hand and short term deposits with an original maturity of three months or less.

For the purposes of the Statement of Cash Flows, cash and cash equivalents consist of cash and cash equivalents as defined above, which are readily convertible to cash on hand and which are used in the cash management function on a day-to-day basis.

(i) Trade and Other Receivables

Receivables which generally have 30-90 day terms, are recognised and carried at original invoice amount less if required an allowance for any uncollectible amounts.

Non-current loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market and are stated at amortised cost using the effective interest rate method.

(j) Financial assets

Financial assets are classified as either financial assets at fair value through profit or loss, loans and receivables, held to maturity investments or available for sale investments, as appropriate. When financial assets are recognised initially, they are measured at fair value, plus, in the case of investments not at fair value through profit or loss, directly attributable transaction costs. The consolidated entity determines the classification of its financial assets after initial recognition and, when allowed and appropriate, re-evaluates this designation at each financial year end.

All regular way purchases and sales of financial assets are recognised on the trade date i.e. the date that the consolidated entity commits to purchase or sell the asset. Regular way purchases or sales are purchases or sales of financial assets under contracts that require delivery of the assets within the period established generally by regulation or convention in the market place.

(i) Available-for-sale investments

Available-for-sale investments are those non-derivative financial assets that are designated as available-for-sale or are not classified as either financial assets at fair value through profit or loss, loans and receivables or held to maturity investments. After initial recognition available for sale investments are measured at fair value with gains or losses being recognised directly in equity, until the investment is derecognised or until the investment is determined to be impaired, at which time the cumulative gain or loss previously reported in equity is recognised in profit or loss. The fair value of investments that are actively traded in organised financial markets is determined by reference to quoted market bid prices at the close of business on the balance sheet date.

(ii) Held-to-maturity investments

Non-derivative financial assets with fixed or determinable payments and fixed maturity are classified as held-to maturity when the consolidated entity has the positive intention and ability to hold to maturity. Investments intended to be held for an undefined period are not included in this classification. Investments that are intended to be held-to-maturity, such as bonds, are subsequently measured at amortised cost. This cost is computed as the amount initially recognised minus principal repayments, plus or minus the cumulative amortisation using the effective interest method of any difference between the initially recognised amount and the maturity amount. This calculation includes all fees and points paid or received between parties to the contract that are an integral part of the effective interest rate, transaction costs and all other premiums and discounts. For investments carried at amortised cost, gains and losses are recognised in profit or loss when the investments are derecognised or impaired, as well as through the amortisation process.

(iii) Loans and receivables

Trade receivables, loans, and other receivables are recorded at amortised cost, using the effective interest method less impairment. Amortised cost is calculated by taking into account any issue costs, and any discount or premium on settlement.

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 30 June 2017

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

(k) Plant and Equipment – recognition and measurement

Each class of plant and equipment is carried at cost less, where applicable, any accumulated depreciation and impairment losses.

Depreciation methods and useful lives are reviewed at each reporting date and adjusted if appropriate.

Plant and equipment

Plant and equipment is stated at cost less accumulated depreciation and any impairment in value.

The carrying values of plant and equipment are reviewed for impairment when events or changes in circumstances indicate the carrying value may not be recoverable.

For an asset that does not generate largely independent cash flows, the recoverable amount is determined for the cash-generating unit to which the asset belongs.

If any such indication exists where the carrying values exceed the estimated recoverable amount, the assets or cash generating units are written down to their recoverable amount.

Depreciation

Depreciable non-current assets, are depreciated over their expected economic life using either the straight line or the diminishing value method. Profits and losses on disposal of non-current assets are taken into account in determining the operating loss for the year. The depreciation rate used for each class of assets is as follows:

- Plant and equipment 20 - 33%
- Motor vehicles 22.5%

(l) Exploration and Evaluation Expenditure

Mineral exploration and evaluation expenditure incurred is accumulated in respect of each identifiable area of interest and is subject to impairment testing. These costs are carried forward only if they relate to an area of interest for which rights of tenure are current and in respect of which:

- such costs are expected to be recouped through the successful development and exploitation of the area of interest, or alternatively by its sale; or
- exploration and/or evaluation activities in the area have not reached a stage which permits a reasonable assessment of the existence or otherwise of economically recoverable reserves and active or significant operations in, or in relation to, the area of interest are continuing.

In the event that an area of interest is abandoned or if the Directors consider the expenditure to be of reduced value, accumulated costs carried forward are written off in the year in which that assessment is made. A regular review is undertaken of each area of interest to determine the appropriateness of continuing to carry forward costs in relation to that area of interest.

Where a mineral resource has been identified and where it is expected that future expenditures will be recovered by future exploitation or sale, the impairment of the exploration and evaluation is written back and transferred to development costs. Once production commences, the accumulated costs for the relevant area of interest are amortised over the life of the area according to the rate of depletion of the economically recoverable reserves.

Costs of site restoration and rehabilitation are recognised when the consolidated entity has a present obligation, the future sacrifice of economic benefits is probable and the amount of the provision can be reliably estimated.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the reporting date, taking into account the risks and uncertainties surrounding the obligation. Where a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows.

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 30 June 2017

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

(l) Exploration and Evaluation Expenditure (Continued)

Exploration and evaluation assets are assessed for impairment if:

- (i) sufficient data exists to determine technical feasibility and commercial viability, and
- (ii) facts and circumstances suggest that the carrying amount exceeds the recoverable amount (refer impairment accounting policy Note 1 (m) below).

For the purpose of impairment testing, exploration and evaluation assets are allocated to cash-generating units to which the exploration activity relates. The cash generating unit shall not be larger than the area of interest.

Once the technical feasibility and commercial viability of the extraction of mineral resources in an area of interest are demonstrable, exploration and evaluation assets attributable to that area of interest are first tested for impairment and then re-classified from intangible assets to mining property and development assets within property, plant and equipment.

Any grants approved by the Government of Western Australian under the Exploration Incentive Scheme ("EIS") Co-Funded Industry Drilling Program are offset against exploration drilling expenditure incurred at the consolidated entity's approved designated project.

(m) Impairment of Assets

At each reporting date the consolidated entity assesses whether there is any indication that an asset may be impaired. Where an indicator of impairment exists, the consolidated entity makes a formal estimate of recoverable amount. Where the carrying amount of an asset exceeds its recoverable amount the asset is considered impaired and is written down to its recoverable amount.

Recoverable amount is the greater of fair value less costs to sell and value in use. It is determined for an individual asset, unless the asset's value in use cannot be estimated to be close to its fair value less costs to sell and it does not generate cash inflows that are largely independent of those from other assets or groups of assets, in which case, the recoverable amount is determined for the cash-generating unit to which the asset belongs.

(n) Employee Entitlements

Liabilities for wages and salaries, annual leave and other current employee entitlements expected to be settled within 12 months of the reporting date are recognised in other payables in respect of employees' services up to the reporting date and are measured at the amounts expected to be paid when the liabilities are settled. Liabilities for non-accumulating sick leave are recognised when the leave is taken and measured at the rates paid or payable.

Liabilities for long service leave are measured at the present value of the estimated future cash outflows to be made in respect of services provided by employees up to the reporting date. In determining the present value of future cash outflows, the market yield as at the reporting date on national government bonds, which have terms to maturity approximating the terms of the related liability, are used.

Contributions to employee superannuation plans are charged as an expense as the contributions are paid or become payable.

(o) Goods and Services Tax (GST)

Revenues, expenses and assets are recognised net of the amount of goods and services tax ("GST"), except where the amount of GST incurred is not recoverable from the Australian Taxation Office ("ATO"). In these circumstances, the GST is recognised as part of the cost of acquisition of the asset or as part of an item of the expense.

Receivables and payables are stated with the amount of GST included. GST incurred is claimed from the ATO when a valid tax invoice is provided. The net amount of GST recoverable from, or payable to, the ATO is included as a current asset or liability in the statement of financial position.

Cash flows are included in the statement of cash flows on a gross basis. The GST components of cash flows arising from investing and financing activities which are recoverable from, or payable to, the ATO are classified as operating cash flows.

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 30 June 2017

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

(p) Trade and other Payables

These amounts represent liabilities for goods and services provided to the consolidated entity prior to the end of the financial year and which are unpaid. The amounts are unsecured and are usually paid within 30 days of recognition.

(q) Contributed Equity

Issued capital is recognised as the fair value of the consideration received by the Company.

Any transaction costs arising on the issue of ordinary shares are recognised directly in equity as a reduction of the share proceeds received.

(r) Earnings per Share

Basic earnings per share ("EPS") are calculated based upon the net loss divided by the weighted average number of shares. Diluted EPS are calculated as the net loss divided by the weighted average number of shares and dilutive potential shares.

(s) Leases

Leases are classified at their inception as either operating or finance leases based on the economic substance of the agreement so as to reflect the risks and benefits incidental to ownership.

The minimum lease payments of operating leases, where the lessor effectively retains substantially all of the risks and benefits of ownership of the leased item, are recognised as an expense on a straight-line basis over the term of the lease.

(t) Share-based payment transactions

The consolidated entity provides benefits to employees (including Directors) of the consolidated entity in the form of share-based payment transactions, whereby employees render services in exchange for shares or rights over shares ("Equity-settled transactions").

There is currently one plan in place to provide these benefits being an Employee Share Option Plan ("ESOP") which provides benefits to Directors and senior executives.

The cost of these equity-settled transactions with employees is measured by reference to fair value at the date at which they are granted. The fair value is determined by an external valuation using the Black -Scholes or Binomial option pricing model.

In valuing equity-settled transactions, no account is taken of any performance conditions, other than conditions linked to the price of the shares of Pioneer Resources Ltd ("market conditions").

The cost of equity settled securities is recognised, together with a corresponding increase in equity, over the period in which the performance conditions are fulfilled, ending on the date on which the relevant employees become fully entitled to the award ("vesting date").

Where the consolidated entity acquires some form of interest in an exploration tenement or an exploration area of interest and the consideration comprises share-based payment transactions, the fair value of the equity instruments granted is measured at grant date. The cost of equity securities is recognised within capitalised mineral exploration and evaluation expenditure, together with a corresponding increase in equity.

(u) New, revised or amending Accounting Standards

Amendments to Accounting Standards that are mandatory for the current year

In the current year, the Company has applied the below applicable amendments to Standards issued by the AASB that are mandatorily effective for an accounting period that begins on or after 1 July 2016, and therefore relevant for the current year end.

AASB 2014-4 Amendments to Australian Accounting Standards - Clarification of Acceptable Methods of Depreciation and Amortisation. The amendments clarify the principle in AASB 116 Property, Plant and Equipment and AASB 138 Intangible Assets that revenue reflects a pattern of economic benefits that are generated from operating a business (of which the asset is part) rather than the economic benefits that are consumed through use of the asset.

As the Company already uses the straight-line method for depreciation for its plant and equipment, the application of these amendments has had no impact on the Company's financial statements.

AASB 2015-1 Amendments to Australian Accounting Standards – Annual Improvements to Australian Accounting Standards 2012-2014 Cycle. The amendments impact various Standards. Those applicable to the Company are summarised below:

The amendments to AASB 7 'Financial Instruments: Disclosures' remove the requirement to provide disclosures relating to offsetting financial assets and financial liabilities in interim financial reports and provide additional guidance to clarify whether a servicing contract is continuing involvement in a transferred asset for the purpose of the disclosures required in relation to transferred assets.

The amendments to AASB 119 'Employee Benefits' clarify that the rate used to discount postemployment benefit obligations should be determined by reference to market yields at the end of the reporting period on high quality corporate bonds. The assessment of the depth of a market for high quality corporate bonds should be at the currency level (ie. the same currency as the benefits are to be paid). For currencies for which there is no deep market in such high quality corporate bonds, the market yields at the end of the reporting period on government bonds denominated in that currency should be used instead.

The amendments to AASB 134 'Interim Financial Reporting' make provision for disclosures required by the Standard to be given either in the interim financial statements or incorporated by cross-reference from the interim financial statements to some other statement that is available to users of the financial statements on the same terms as the interim financial statements and at the same time.

The application of these amendments has had no effect on the consolidated entity's financial statements.

AASB 2015-2 Disclosure Initiative Amendment to AASB 101 - This Standard amends AASB 101. The amendments clarify that an entity need not provide a specific disclosure required by a Standard if the information resulting from that disclosure is not material, and give guidance on the bases of aggregating and disaggregating information for disclosure purposes. However, the amendments reiterate that an entity should consider providing additional disclosures when compliance with the specific requirements in a Standard is insufficient to enable users of financial statements to understand the impact of particular transactions, events and conditions on the entity's financial position and financial performance.

The application of this amendment has not had a material presentation impact on the financial performance or financial position of the consolidated entity.

Adoption of these standards did not have any material effect on the Statement of Financial Performance, Statement of Comprehensive Income and Statement of Financial Position of the consolidated entity.

(u) New, revised or amending Accounting Standards (Continued)

New and revised Accounting Standards and Interpretations issued but not yet effective

Australian Accounting Standards and Interpretations that have been issued or amended but are not yet effective have not been adopted by the Consolidated Entity for the year ended 30 June 2017. At this time the following standards and interpretations may have an impact, but the extent of this is not expected to be material:

AASB 2016-1 Recognition of Deferred Tax Assets for Unrealised Losses - The amendments to AASB 112 Income Taxes clarify the accounting for deferred tax assets for unrealised losses on debt instruments measured at fair value. Effective for annual periods beginning on or after 1 January 2017, expected to be initially applied in the financial year ending 30 June 2018.

AASB 2016-2 Disclosure Initiative - The amendments to AASB 107 Statement of Cash Flows require entities to provide disclosures about changes in their liabilities arising from financing activities, including both changes arising from cash flows and non-cash changes (such as foreign exchange gains or losses), expected to be initially applied in the financial year ending 30 June 2018.

AASB 9 Financial Instruments - A new Principal standard which replaces AASB 139. This new Principal version includes a model for classification and measurement, a single, forward-looking 'expected loss' impairment model and a substantially-reformed approach to hedge accounting. Effective for annual periods beginning on or after 1 January 2018, expected to be initially applied in the financial year ending 30 June 2019.

AASB 15 Revenue from Contracts with Customers. The core principle of AASB 15 is that an entity recognises revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Effective for annual periods beginning on or after 1 January 2018. As the consolidated entity is not generating revenue, there is no impact on current reporting but if this should change, expected to be initially applied in the financial year ending 30 June 2019.

AASB 16 Leases. AASB 16 requires lessees to account for all leases under a single on-balance sheet model in a similar way to finance leases. Effective for annual periods beginning on or after 1 January 2019, expected to be initially applied in the financial year ending 30 June 2020.

AASB 2016-5 'Amendments to Australian Accounting Standards – Classification and Measurement of Share-based Payment Transactions', effective for annual reporting periods beginning on or after 1 January 2018, expected to be initially applied in the financial year ending 30 June 2019.

AASB 2017-2 'Amendments to Australian Accounting Standards – Further Annual Improvements 2014-2016 Cycle', effective for annual reporting periods beginning on or after 1 January 2017, expected to be initially applied in the financial year ending 30 June 2018.

At this time the following interpretation may have an impact, but the extent of this has not been determined:

Interpretation 23 Uncertainty over Income Tax Treatments. The Interpretation clarifies the application of the recognition and measurement criteria in AASB 112 Income Taxes when there is uncertainty over income tax treatments. Effective for annual periods beginning on or after 1 January 2019, expected to be initially applied in the financial year ending 30 June 2020.

(v) Capital Management

The Company's objective when managing capital is to safeguard its ability to continue as a going concern, to provide returns for shareholders and benefits for other stakeholders and to maintain the capital structure to reduce the cost of capital. The net assets of the consolidated entity are equivalent to capital. Net capital is obtained through capital raising initiatives on the Australian Securities Exchange or the sale of assets.

The Board of Directors reviews the requirement for capital on a regular basis. However, at present no formal targets are in place for a return on capital, or for gearing ratios, as the consolidated entity has not derived any income from its mineral exploration and currently has no debt facilities in place.

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 30 June 2017

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

(w) Foreign Currency Translation

(i) Functional and presentation currency

Items included in the financial statements of each of the consolidated entities are measured using the currency of the primary economic environment in which the entity operates ('the functional currency'). The consolidated financial statements are presented in Australian dollars, which is the consolidated entity's functional and presentation currency.

(ii) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the statement of profit or loss, except when deferred in equity as qualifying cash flow hedges and qualifying net investment hedges.

(x) Contingencies

By their nature, contingencies will only be resolved when one or more future events occur or fail to occur. The assessment of contingencies inherently involves the exercise of significant judgment and estimates of the outcome of future events.

(y) Comparative Figures

When required by Australian Accounting Standards, comparative figures have been adjusted to conform to changes in presentation for the current financial year.

In the prior 30 June 2016 reporting year the Company participated in the Federal Government's EDI Scheme related to the 2014-2015 tax year. The EDI Scheme enabled eligible exploration companies to create explorations credits ("EDI Credits") by giving up a portion of its tax losses and distributing those EDI Credits to its shareholders. The Company's maximum EDI Credit amount was \$372,371 for the year ended 30 June 2015, which it distributed on 30 June 2016 to eligible shareholders on a pro rata basis equating to 0.4132 cents per share based on 900,981,591 ordinary shares on issue at the pre-determined record date. There was no financial effect on the Company's taxation position for the 30 June 2016 reporting year however carry forward tax losses were reduced to reflect the exploration credits distributed to eligible shareholders.

The recoupment of costs carried forward is dependent on the successful development and/or commercial exploitation or alternatively sale of the respective areas of interest.

Exploration and evaluation assets are assessed for impairment when facts and circumstances suggest that the carrying amount of an exploration and evaluation asset may exceed its recoverable amount. The recoverable amount of the exploration and evaluation asset (or the cash-generating unit(s) to which it has been allocated, being no larger than the relevant area of interest) is estimated to determine the extent of the impairment loss (if any). Where an impairment loss subsequently reverses, the carrying amount of the asset is increased to the revised estimate of its recoverable amount, but only to the extent that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset in previous years.

Exploration write-downs totalled \$1,815,671 which related which related primarily to a write-down on a project considered at balance date to be non-core as well as tenements surrendered during the year at the Phillips River, WA Regional Lithium Projects as well as the Ravensthorpe Project where on-going expenditure programs have been curtailed.

⁽ⁱ⁾ During the 30 June 2017 financial year the Company applied and was approved to participate in the Western Australian Government's Exploration Incentive Scheme which is an initiative that aims to encourage exploration in Western Australia for the long-term sustainability of the State's resources sector. The co-funded government incentive related to an approved drilling program at the Blair Dome Project.

19. RELATED PARTY DISCLOSURES (Continued)

(a) Remuneration of Specified Directors and Specified Executives by the Consolidated Entity (Continued)

Other Director Related Party Transactions

During the year ended 30 June 2017 payments totalling \$25,171 (30 June 2016: \$6,900) were paid as employee expenses and superannuation for exploration field assistance work undertaken by two sons (2016: one son) of the Managing Director, Mr Crook. These payments were on terms and conditions no more favourable than those paid to persons for the same type of work services and who were not related to the Managing Director.

In June 2017 the Company entered into a mandate with New Holland Capital Pty Ltd ("NHC") to act as the exclusive lead advisor with respect to the Pioneer Dome Sinclair Caesium Zone. The mandate covered a specific scope of work and was for an initial two month period with advisory fees of \$35,000 per month. Mr McGown is a director of NHC.

(b) Equity Instruments

All options refer to options over ordinary shares of Pioneer Resources Limited, which are exercisable on a one for one basis.

Options over equity instruments granted as remuneration

During the financial year ended 30 June 2017 and following shareholder approval obtained on 13 September 2016 the Company granted the following unlisted options over unissued shares for \$Nil consideration to Specified Directors and/or the Specified Executive as part of their remuneration:

20. EXPENDITURE COMMITMENTS

(a) Exploration

The consolidated entity has certain obligations to perform minimum exploration work on mineral leases held. These obligations may vary over time, depending on the consolidated entity's exploration programmes and priorities. As at balance date, total exploration expenditure commitments on tenements held by the consolidated entity have not been provided for in the financial statements and those which cover the following twelve month period amount to \$1,139,967 (2016: \$1,341,020). These obligations are subject to variations by farm-out arrangements or sale of the relevant tenements or expenditure exemptions as permitted under the Mining Act 1978 (amended 2006). This commitment does not include the expenditure commitments which are the responsibility of the joint venture partners, amounting to \$1,190,500 (2016: \$395,000), as disclosed in Note 18.

Later than one year and no later than five years	14,763	495
	<u>118,199</u>	<u>63,078</u>

The operating lease relates to the Company's registered office premises in Perth.

The Perth office operating lease is for a prescribed period expiring on 1 May 2018. The Company is currently reviewing its options with respect to renewing the term of the lease for a further twelve months after the expiry date. During the term of the operating lease the rent is reviewed annually on each successive anniversary date. The annual lease is currently \$44,407.

The Kalgoorlie house and yard operating lease is not for a prescribed fixed period but is rolling on a monthly basis. The monthly rent is \$3,045.

The Norseman house is not for a prescribed fixed period but is rolling on a fortnightly basis with 21 days' notice required for termination. The fortnightly rent is \$636.

The photocopier in the Perth office is leased with a fixed base rate of \$4,788 per year over 4 years plus a usage-based fee for a 48 month period expiring on 25 August 2021.

(c) Capital Commitments

Under an agreement with the University of Tasmania the Company had agreed to partly fund along with other exploration companies a specified and defined research project which is relevant to the Company's current exploration activities. The consolidated entity has no further capital commitment over the next year to fund the University of Tasmania. There were no other capital commitments as at 30 June 2017 (30 June 2016: \$17,000).

(d) Non Cash Financing and Investing Activities

During the financial year ended 30 June 2017 the Company had no non-cash financing or investing activities other than:

- (ii) On 23 September 2016 the Company issued 731,750 ordinary shares at a deemed issued price of 3.4 cents per share to International Lithium Corp as First Earn In Consideration under the Raleigh Lake Lithium Project Heads of Agreement.
- (iii) On 23 September 2016 the Company issued 2,133,409 ordinary shares at an issue price of 4.18 cents each to Milford Resources Pty Ltd following shareholder approval obtained on 13 September 2016.

24. FINANCIAL INSTRUMENTS

The consolidated entity's activities expose it to a variety of financial risks and market risks. The consolidated entity's overall risk management program focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the financial performance of the consolidated entity.

Financial Risk Management Policies

Exposure to key financial risks is managed in accordance with the consolidated entity's risk management policy with the objective to ensure that the financial risks inherent in exploration activities are identified and then managed or kept as low as reasonably practicable. The main financial risks that arise in the normal course of business are market risk (primarily interest rate risk), credit risk and liquidity risk. Different methods are used to measure and manage these risk exposures. Liquidity risk is monitored through the ongoing review of available cash and future commitments for exploration expenditure. Exposure to liquidity risk is limited by anticipating liquidity shortages and ensures capital can be raised in advance of shortages. It is the Board's policy that no speculative trading in financial instruments be undertaken so as to limit exposure to price risk.

Primary responsibility for identification and control of financial risks rests with the Managing Director and the Company Secretary, under the authority of the Board. The Board is apprised of these risks from time to time and agrees any policies that may be undertaken to manage any of the risks identified.

Details of the significant accounting policies and methods adopted, including criteria for recognition, the basis of measurement and the basis on which income and expenses are recognised, in respect of each financial instrument are disclosed in Note 1 to the financial statements. The carrying values less the impairment allowance for receivables and payables are assumed to approximate fair values due to their short term nature. Cash and cash equivalents are subject to variable interest rates.

Fair value of financial assets and liabilities

The carrying amount of financial assets and financial liabilities recorded in the financial statements represents their respective net fair values, determined in accordance with the accounting policies disclosed in Note 1.

The Directors consider that the carrying amounts of financial assets and financial liabilities recorded in the financial statements approximate their fair value.

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 30 June 2017

24. FINANCIAL INSTRUMENTS

Specific Financial Risk Exposures and Management

(a) Market Risk - Interest Rate Risk Management

The consolidated entity's cash-flow interest rate risk primarily arises from cash at bank and deposits subject to market bank rates. At reporting date, the consolidated entity does not have any borrowings. The consolidated entity does not enter into hedges.

The consolidated entity's exposure to interest rate risk, which is the risk that a financial instrument's value will fluctuate as a result of changes in market, interest rates and the effective weighted average interest rates on those financial assets.

Liquidity and interest risk table

The following tables detail the consolidated entity's remaining contractual maturity for its non-derivative financial assets and liabilities and have been prepared on the following basis:

- Financial assets – based on the undiscounted contractual maturities including interest that will be earned on those assets except where the consolidated entity anticipates that the cash flow will occur in a different period; and
- Financial liabilities – based on undiscounted cash flows on the earliest date on which the consolidated entity can be required to pay, including both interest and principal cash flows.

	645,963	-	-	-	-	-	645,963

(b) Credit Risk Management

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the consolidated entity. The consolidated entity has adopted a policy of only dealing with creditworthy counterparties and obtaining sufficient collateral where appropriate, as a means of mitigating the risk of financial loss from defaults. The consolidated entity's exposure and the credit ratings of its counterparties are monitored. The consolidated entity measures credit risk on a fair value basis. The consolidated entity does not have any significant credit risk exposure to any single counterparty or any group of counterparties having similar characteristics. The credit risk on liquid funds is limited because the counterparties are banks with high credit-ratings assigned by international credit-rating agencies.

With respect to credit risk arising from financial assets, which comprise cash and cash equivalents and receivables, the exposure to credit risk arises from default of the counter party, with a maximum exposure equal to the carrying amount of these instruments. At reporting date cash and deposits were held with Commonwealth Bank of Australia and Westpac Banking Corporation.

The credit quality of the financial assets that are either past due or impaired can be assessed by reference to external credit ratings (if available) or to historical information about counterparty default rates. All cash balances are deposits with financial institutions with 'AA' S&P ratings. The tenement and rental bonds disclosed in Other Receivables (Note 6) are also deposits with financial institutions with 'AA' S&P ratings. The credit quality of financial assets that are neither past due nor impaired can be assessed by reference to external credit ratings (if available) or to historical information about counterparty default rates.

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 30 June 2017

24. FINANCIAL INSTRUMENTS

(b) Credit Risk Management (Continued)

The maximum exposure to credit risk, excluding the value of any collateral or other security, at balance date, is the carrying amount of the financial assets, net of any provisions for doubtful debts, as disclosed in the statement of financial position and in the notes to the financial statements.

(c) Commodity Price Risk and Liquidity Risk

Liquidity risk arises from the possibility that the consolidated entity might encounter difficulty in settling its debts or otherwise meeting its obligations related to financial liabilities.

Prudent liquidity risk management implies maintaining sufficient cash reserves to meet the ongoing operational requirements of the business. It is the consolidated entity's policy to maintain sufficient funds in cash and cash equivalents. Furthermore, the consolidated entity monitors its ongoing exploration cash requirements and raises equity funding as and when appropriate to meet such planned requirements. The consolidated entity has no undrawn financing facilities. Trade and other payables, the only financial liability of the consolidated entity, are due within 3 months.

At the present state of the consolidated entity's operations it has minimal commodity price risk and limited liquidity risk due to the level of payables and cash reserves held. The consolidated entity's objective is to maintain a balance between continuity of exploration funding and flexibility through the use of available cash reserves.

(d) Foreign Exchange Risk

The Company has one wholly owned Canadian subsidiary. This Canadian subsidiary has a limited number of suppliers that invoice in foreign currencies and therefore foreign exchange risk is minimal.

(e) Fair Value of Financial Instruments

AASB 7 Financial Instruments: Disclosures which require disclosure of fair value measurements by level of the following fair value measurement hierarchy:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1);
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (as prices) or indirectly (derived from prices) (level 2); and
- Inputs for the asset or liability that are not based on observable market data (unobservable inputs) (level 3).

No financial assets and financial liabilities are readily traded on organised markets in standardised form other than the shares held in listed entities as disclosed in Note 7, which are held at fair value based on quoted prices (level 1 in fair value hierarchy).

No financial instruments at level 2 or 3 in the valuation hierarchy were held at 30 June 2017 (30 June 2016: \$Nil).

(f) Capital Risk Management

The Board's policy is to maintain a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business. The capital structure of the consolidated entity consists of equity only, comprising issued capital and reserves, net of accumulated losses. The consolidated entity's policy is to use capital market issues to meet the funding requirements of the consolidated entity.

There were no changes in the consolidated entity's approach to capital management during the year.

The consolidated entity is not subject to externally imposed capital requirements.

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 30 June 2017

26. EMPLOYEE ENTITLEMENTS AND SUPERANNUATION COMMITMENTS (Continued)

Superannuation Commitments

The Company contributes to individual employee accumulation superannuation plans at the statutory rate of the employees' wages and salaries, in accordance with statutory requirements, to provide benefits to employees on retirement, death or disability.

Accordingly no actuarial assessment of the plans is required.

Funds are available for the purposes of the plans to satisfy all benefits that would have been vested under the plans in the event of:

- termination of the plans;
- voluntary termination by all employees of their employment; and
- compulsory termination by the employer of the employment of each employee.
- during the year employer contributions to superannuation plans (including salary sacrifice amounts) totaled \$78,171 (2016: \$47,749).

27. CONTINGENT LIABILITIES

There were no material contingent liabilities not provided for in the financial statements of the consolidated entity as at 30 June 2017 other than:

Native Title and Aboriginal Heritage

Native Title claims have been made with respect to areas which include tenements in which the consolidated entity has an interest. The consolidated entity is unable to determine the prospects for success or otherwise of the claims and, in any event, whether or not and to what extent the claims may significantly affect the consolidated entity or its projects. Agreement is being or has been reached with various native title claimants in relation to Aboriginal Heritage issues regarding certain areas in which the consolidated entity has an interest.

28. EVENTS SUBSEQUENT TO BALANCE DATE

There has not arisen since the end of the financial year any item, transaction or event of a material and unusual nature likely, in the opinion of the Directors of the Company to affect substantially the operations of the consolidated entity, the results of those operations or the state of affairs of the consolidated entity in subsequent financial years, other than market announcements released to the Australian Securities Exchange since balance date except for the following:

Share Issues

- (i) On 14 July 2017 the Company issued 2,073,075 ordinary shares at a deemed issued price of 1.85 cents per share to International Lithium Corp as a first anniversary consideration under the Mavis Lake Lithium Project Heads of Agreement.
- (ii) On 14 July 2017 the Company issued 1,406,807 ordinary shares at an issue price of 2.13 cents each to Milford Resources Pty Ltd following the grant of two exploration licences.
- (iii) On 14 September 2017 the Company announced it had completed a share placement of 75,357,142 ordinary shares at an issue price of 1.4 cents per share which raised \$1,055,000 (before issue costs). The shares were issued to institutional and sophisticated investors in accordance with the Corporations Act 2001. In addition the Directors of the Company also committed to participate in the placement comprising 17,500,000 ordinary shares at an issue price of 1.4 cents each to raise \$245,000 which is subject to shareholder approval to be considered at the Annual General Meeting in November 2017. The funds raised will be applied to undertake additional exploration for caesium and lithium at the Pioneer Dome Project, incrementally fund the commercialisation of the Sinclair Caesium Zone Deposit and to augment working capital.
- (iv) On 14 September 2017 the Company announced it would be offering ordinary shares at an issue price of 1.4 cents per share to eligible shareholders under the Company's Share Purchase Plan. The offer opened on 18 September 2017 and will close on or around 9 October 2017 and is seeking to raise up to \$1,000,000.
- (v) On 18 September 2017 the Company issued 735,662 ordinary shares at a deemed issued price of 3.4 cents per share to International Lithium Corp as first anniversary consideration under the Raleigh Lake Lithium Project Heads of Agreement.

DIRECTORS' DECLARATION

In the opinion of the Directors of Pioneer Resources Limited ("the Company"):

- (a) the financial statements and notes, set out on pages 14 to 51, are in accordance with the *Corporations Act 2001*, including:
 - (i) complying with Accounting Standards in Australia and the Corporations Regulations 2001 and other mandatory professional reporting requirements; and
 - (ii) giving a true and fair view of the financial position of the Company and consolidated entity as at 30 June 2017 and of their performance, as represented by the results of their operations and their cash flows, for the financial year ended on that date.
- (b) there are reasonable grounds to believe that Pioneer Resources Limited will be able to pay its debts as and when they become due and payable.

The Directors have been given the declarations required by section 295A of the *Corporations Act 2001* from the Managing Director and the Company Secretary for the financial year ended 30 June 2017.

This declaration is made in accordance with a resolution of the Directors.

Signed at Perth this 28 September 2017

Independent Auditor's Report to the members of Pioneer Resources Limited

Report on the Audit of the Financial Report

Opinion

We have audited the financial report of Pioneer Resources Limited (the "Company") and its subsidiaries (the "Group") which comprises the consolidated statement of financial position as at 30 June 2017, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and the directors' declaration.

In our opinion, the accompanying financial report of the Group is in accordance with the *Corporations Act 2001*, including:

- (i) giving a true and fair view of the Group's financial position as at 30 June 2017 and of its financial performance for the year then ended; and
- (ii) complying with Australian Accounting Standards and the *Corporations Regulations 2001*.

Basis for Opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Report* section of our report. We are independent of the Group in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants* (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the directors of the Company, would be in the same terms if given to the directors as at the time of this auditor's report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Material Uncertainty Related to Going Concern

We draw attention to Note 1 in the financial statements, which indicates that the Group incurred a loss of \$2,522,555 (2016: \$1,673,138) and experienced net cash outflows from operating and investing activities of \$4,152,137 (2016: \$2,553,814) for the year ended 30 June 2017. As stated in Note 1, these events or conditions, along with other matters as set forth in Note 1, indicate that a material uncertainty exists that may cast significant doubt on the Group's ability to continue as a going concern. Our opinion is not modified in respect of this matter.

Our procedures in relation to going concern included, but were not limited to:

- Inquiring of management and the directors in relation to events and conditions that may impact the assessment of the Group's ability to continue as a going concern;
- Challenging the assumptions contained in management's cash flow forecast in relation to the Group's ability to continue as a going concern; and
- Assessing the adequacy of the disclosures related to going concern in Note 1.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial report for the current period. These matters were addressed in the context of our audit of the financial report as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. In addition to the matter described in the *Material Uncertainty Related to Going Concern* section, we have determined the matter described below to be the key audit matter to be communicated in our report.

Key Audit Matter	How the scope of our audit responded to the Key Audit Matter
Carrying value of capitalised mineral exploration	
<p>As at 30 June 2017 the Group has \$10.1m of capitalised mineral exploration expenditure as disclosed in Note 10.</p> <p>Significant judgement is applied in determining the treatment of exploration and evaluation expenditure including:</p> <ul style="list-style-type: none"> • Whether the conditions for capitalisation are satisfied; • Which elements of exploration and evaluation expenditures qualify for recognition; and • Whether the facts and circumstances indicate that the exploration and expenditure assets should be tested for impairment. 	<p>Our procedures included, but were not limited:</p> <ul style="list-style-type: none"> • Obtaining an understanding of management's process to evaluate the carrying value of capitalised mineral exploration assets; • Obtaining a schedule of the areas of interest held by the Group and assessing whether the rights to tenure of those areas of interest remained current at balance date and challenging management's consideration of the ability to recoup the capitalised costs through future development or sale of the area of interest; • Considering whether any such areas of interest had reached a stage where a reasonable assessment of economically recoverable reserves existed; • Testing on a sample basis, evaluation expenditure to confirm the nature of the costs incurred, and the appropriateness of the classification between asset and expense; • Assessing whether any facts or circumstances existed to suggest impairment testing was required; and • Assessing the appropriateness of the related disclosures in Note 10 to the Financial Statements.

Other Information

The directors are responsible for the other information. The other information comprises the information included in the Group's annual report for the year ended 30 June 2017, but does not include the financial report and our auditor's report thereon.

Our opinion on the financial report does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Directors for the Financial Report

The directors of the Company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

As part of an audit in accordance with the Australian Auditing Standards, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the director's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial report, including the disclosures, and whether the financial report represents the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the financial report. We are responsible for the direction, supervision and performance of the Group's audit. We remain solely responsible for our audit opinion.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the directors, we determine those matters that were of most significance in the audit of the financial report of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on the Remuneration Report

Opinion on the Remuneration Report

We have audited the Remuneration Report included in pages 6 to 11 of the director's report for the year ended 30 June 2017.

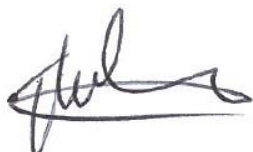

In our opinion, the Remuneration Report of Pioneer Resources Limited, for the year ended 30 June 2017, complies with section 300A of the *Corporations Act 2001*.

Responsibilities

The directors of the Company are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the *Corporations Act 2001*. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.
