EASTERN FIELD DEVELOPMENTS LIMITED

(BVI Co No 1955552)

(a company jointly owned by Procap Partners Limited, PT Saratoga Investama Sedaya Tbk. and PT Merdeka Copper Gold Tbk.)

23 October 2017

Dear Finders Shareholder

Cash Offer to acquire your shares in Finders Resources Limited

On behalf of Eastern Field Developments Limited (**Eastern Field**), I am pleased to present you with this all-cash offer to acquire all your ordinary shares in Finders Resources Limited (Finders).

Offer Overview

Eastern Field is a special purpose vehicle jointly owned by Procap Partners Limited (**Provident**), PT Saratoga Investama Sedaya Tbk (**Saratoga**) and PT Merdeka Copper Gold Tbk (**Merdeka**) (together the **Consortium** and each a **Consortium Member**) to make the Offer.

Eastern Field already has a relevant interest in approximately 19.8% of Finders Shares. This represents the largest relevant interest in Finders.

By accepting the Offer, you will receive \$0.23 cash for every one of Your Finders Shares (**Offer**), upon the Offer becoming unconditional. Importantly, the Offer is not subject to any funding condition.

The Offer represents an attractive premium to a range of relevant pricing metrics for Finders Shares, as calculated when Eastern Field announced its intention to make an Offer (6 October 2017):

- 7.6% to the 60 day VWAP of \$0.2138 per Share;
- 10.8% to the 90 day VWAP of \$0.2077 per Share;
- 18.0% to the 180 day VWAP of \$0.1949 per Share; and
- 91.7% to the most recent equity raising price of \$0.12 per Share as completed in November 2016.

In addition, the Offer price exceeds the recently disclosed average sale prices by Finders' former substantial shareholders, Resource Capital Fund IV L.P. (**RCF**), a leading global resources investor, and Australian institutional investor Acorn Capital Limited (**Acorn**).

The Offer provides you with the opportunity to realise certain cash value for all Your Finders Shares, with no transaction costs and no exposure to the potential risks and uncertainties associated with Finders' Wetar Copper Project (**Wetar**) and a continued investment in Finders.

These key risks and uncertainties include, but are not limited to:

1. Indonesian risks, including divestment obligations and ongoing permitting risks;
2. Metallurgical risks and associated copper recovery uncertainties;
3. Limited existing JORC Reserves and significant future exploration and development risks;
4. Current short remaining period of mining operations of approximately 3 years (based on unmined JORC Reserves, JORC Reserve depletion and disclosed projected stacking rates);
5. Production risks such as the interruption to the plant announced by Finders to the ASX on 27 September which will impact on September and October 2017 production; and
6. Future copper price and foreign exchange rate volatility.

If you do not accept the Offer but Eastern Field acquires control of Finders and does not proceed to compulsory acquisition, you will become a minority shareholder in Finders. This may have several implications for you including reduced liquidity in the Finders Shares and a reduced ability for you to sell Your Finders Shares. Finally, in the absence of our Offer, Your Finders Shares may trade below the Offer price.

Additional Background to the Offer

Provident Minerals Limited (**Provident Minerals**), an associated entity of Provident and one of the Consortium Members, has been a Finders shareholder since 2012 and an active supporter of Finders, including providing assistance to Finders in connection with successful achievement of Indonesian regulatory approvals.

You should also be aware that Provident Minerals recently undertook an unsuccessful formal sale process for its Finders shareholding via its financial adviser Argonaut (**Sale Process**). The Sale Process involved approaching a large number of potential acquirers. Consistent feedback themes received from potential acquirers were that:

1. The involvement of a strong, reputable Indonesian group as a key investor in Finders was a key prerequisite to any investment;
2. Finder's attributable interest in Wetar is small on a global basis, based on the project's JORC Reserves and Resources statement and Finders' 74.1% interest in nameplate production of 28,000 tonnes of annual production; and
3. The current mining life is too short based on the project's JORC Reserves and Resources statement.

The Sale Process has since been discontinued after limited interest and no offers being received.

Provident Minerals and Saratoga have determined their existing interest in Finders was too small in the context of their existing portfolios. This Offer will enable them to materially increase the collective 19.8% shareholding in Finders alongside Merdeka, a gold producer with a significant copper-gold development project.

If the Offer is not successful, Provident Minerals and Saratoga will review their Finders investments and may divest all their Finders Shares via a market sell down process or other means and withdraw from their involvement in Finders.

Should Provident Minerals and Saratoga elect to divest all their Finders Shares, Finders Shareholders may face increased Indonesian risks and uncertainties that could materially impair the value of Finders Shares.

How to Accept the Offer

Details of our Offer, including its terms and conditions, are set out in Schedule 1. We encourage you to read this document and accept the Offer as soon as possible. The Offer is open for your acceptance until 7.00pm (Perth time) on [insert].

To accept the Offer, please follow the instructions on the Acceptance Form enclosed with this Bidder's Statement. Should you have any queries please contact Eastern Field on 1300 079 762 (for callers within Australia) or +61 8 6314 6314 (for callers outside Australia) between 10.00am and 5.00pm (Perth time) Monday to Friday or visit the Eastern Field website at www.easternfielddevelopments.com.

We appreciate your consideration of our Offer and look forward to receiving your acceptance for all Your Finders Shares.

Yours sincerely

David Fowler

Eastern Field Developments Limited
Director

1 WHY YOU SHOULD ACCEPT EASTERN FIELD'S OFFER

1	Eastern Field's Offer represents attractive value
2	The Offer provides all cash certainty
3	The Offer removes the risks and uncertainties associated with maintaining an investment in Finders
4	Eastern Field already controls Finders largest shareholding with a relevant interest of 19.8%

6	Should the Offer not be successful, the Consortium Members will review their Finders investments and may divest all their Finders Shares and withdraw from involvement in Finders
7	The trading price of Your Finders Shares may fall if Eastern Field's Offer is not successful
8	Eastern Field's Offer is the only offer available to you

1.1 Eastern Field's Offer represents attractive value

The Eastern Field Offer is to acquire all of Your Finders Shares for \$0.23 cash consideration per Finders Share. This represents an attractive premium to a range of relevant pricing metrics for Finders Shares¹:

- 7.6% to the 60 day VWAP of \$0.2138 per Share;
- 10.8% to the 90 day VWAP of \$0.2077 per Share;
- 18.0% to the 180 day VWAP of \$0.1949 per Share; and
- 91.7% to the most recent equity raising price of \$0.12 per Share as completed in November 2016.

In addition, the Offer price exceeds the recently disclosed average sale prices by Finders former substantial shareholders, Resource Capital Fund IV L.P. (RCF)², a leading global resources investor, and Australian institutional investor Acorn Capital Limited (Acorn)³.

Figure 1: Offer price vs key price benchmarks

1.2 The Offer provides all cash certainty

The Eastern Field Offer provides Finders Shareholders with an opportunity to realise certain cash value for all their Finders Shares, with no transaction costs and no exposure to the potential risks and uncertainties associated with a continuing investment in Finders.

By accepting the Offer and the Offer becoming unconditional, you will:

- be paid \$0.23 in cash for each of Your Finders Shares;
- not incur any brokerage fees; and
- receive your cash consideration by the earlier of:
 - 21 days after the end of the Offer Period; and
 - within one month after the date the Offer becomes, or is declared, unconditional or the date you accept the Offer if at that time the Offer is unconditional.

The Offer is subject to Eastern Field obtaining a relevant interest in more than 50% of Finders Shares, FIRB approval and other conditions as set out in full in Schedule 2.

Importantly, the Offer is not subject to any funding condition.

¹ VWAPs are calculated on the basis of ASX trading data sourced from IRESS Limited without the consent of IRESS Limited to the use of data, as permitted by ASIC Class Order 13/521. VWAPs of each of Finders Shares are calculated as at close of trade on the Pre-Announcement Trading Day (Thursday, 5 October 2017).

² RCF reported on 6 September 2017 it ceased being a substantial shareholder in Finders after selling 50,000,000 Finders Shares (approximately 6.6% of Finders Shares on issue) at an average sale price of \$0.2286 per share.

³ Acorn reported on 17 February 2017 it reduced its substantial shareholding in Finders by selling 8,988,215 Finders Shares (approximately 1.2% of Finders Shares on issue) at an average sale price of \$0.1772 per share and that it retained 54,516,474 Finders Shares (approximately 7.2% of Finders Shares on issue). Acorn subsequently advised on 24 July 2017 it had sold Finders Shares on-market and ceased being a substantial shareholder in Finders.

1.3 The Offer removes the risks and uncertainties associated with maintaining an investment in Finders

The certainty of Eastern Field's all cash Offer compares favourably to the company specific and external risks and uncertainties to which Finders may be subject that could affect the trading price of Finders Shares.

If you do not accept the Offer you will remain exposed to the following key risks and uncertainties:

Indonesian risks

Finders' sole project is Wetar, which is located on a remote island in Eastern Indonesia.

As a developing nation Indonesia's fiscal and monetary controls, laws, policies and regulatory processes in many areas are less established and less predictable than in developed nations.

Possible sovereign risks associated with operating in Indonesia include:

1. changes to the terms of mining legislation;
2. changes in foreign ownership restrictions;
3. changes to royalty and tax arrangements;
4. failure to obtain or renew operating permits (e.g. permits to acquire and use explosives);
5. expropriation by the government or other bodies; and
6. ability to enforce legal rights.

Any of these factors may adversely affect Finders and its ability to produce copper and generate cashflow from Wetar.

In addition, mining regulations in Indonesia that affect Finders and relate to ownership of mining licences and are designed to align with the Indonesian Constitution and safeguard the principle that mineral deposits are developed for the benefit of Indonesia.⁴ These regulations stipulate that companies with mining licences must be 51% Indonesian owned by the tenth year of production, with intermediate divestment milestones commencing from the end of the fifth year of production.

There remains uncertainty as to the application of these provisions in respect of Wetar given that mining relating to the demonstration plant first commenced in the quarter ended December 2008⁵ and there are risks that these regulations may adversely affect the value of Finders.

Metallurgical risks and associated copper recovery uncertainties

Traditionally, copper heap leach operations focus on copper oxide and supergene sulphide deposits that are readily amenable to well proven acid leaching processes.

In contrast, Finders is a single project company and at Wetar it is currently mining at Kali Kuning, a copper sulphide deposit which includes copper minerals that require leach times in excess of 720 days to reach final recovery. As a result, Wetar's leaching process is considered non-conventional and more complex.

Finders' release to the ASX on 16 December 2016⁶ indicated the average recoveries over a 720 day leach period, as currently used in Finders' production planning, are 75% for Kali Kuning and 50% for Lerokis.⁷

The project has been mining ore from Kali Kuning that has been stacked and progressively irrigated and leached since April 2015. To date, Finders has made limited disclosure on actual project recoveries compared to the assumed heap leach recovery curves, the potential impact on recovery of stockpile leach pads and the tonnes and grade of ore mined. If the actual copper recoveries from Kali Kuning under-perform the assumed average copper recovery of 75%, then this will have a material adverse impact on Finders' operational and financial performance.

In addition, the mineralogical characteristics of the Lerokis deposit are thought to vary from that of Kali Kuning and have been subject to less testwork than Kali Kuning. Consequently, Lerokis may have different leaching characteristics that may impact Wetar's production profile once Kali Kuning is depleted.

Extensive metallurgical testwork will be required to substantiate economic metallurgical recovery of other potential future deposits and there is no certainty that any such deposit will be amendable to the current processing approach.

Limited existing JORC Reserves and significant future exploration and development risks

Wetar only has a current short remaining period of mining operations of approximately 3 years based on unmined JORC Reserves as at 30 June 2016, estimated JORC Reserve depletion and disclosed projected stacking rates.⁸

⁴ These regulations include among others (i) Law No. 4 of 2009 on Coal and Mineral Mining; and (ii) Government Regulation No. 23 of 2010 on Implementation of Coal and Mineral Mining Activities, as amended by Government Regulation No. 24 of 2012, Government Regulation No. 1 of 2014, Government Regulation No. 77 of 2014 and Government Regulation No. 1 of 2017.

⁵ See Finders announcement "Quarterly Report for Period Ending 31 December 2008" released to ASX 30 January 2009 and "Wetar Copper Project Resource Update" released to ASX 16 December 2016.

⁶ See Finders announcement "Wetar Copper Project Resource Update" released to ASX 16 December 2016

⁷ Based on heap leach recovery curves modelled and extensive metallurgical test work and a series of demonstration heaps using Kali Kuning mineralisation during 2009 and 2010.

⁸ As at 30 June 2016, unmined JORC Reserves totalled 7.8Mt as per Finders Announcement "Wetar Copper Project Resource Update" released to ASX 16 December 2016. Ore tonnes stacked in the period from 1 July 2016 to 30 June 2017 totalled 2.7Mt as disclosed in Finders Announcements "Half Year Financial Report Six month ended 30 June 2017" released to ASX 19 September 2017 and "Wetar Copper Project Q4 2016 Production" released to ASX 19 January 2017. Based on ore stacked of 2.7Mt during the period from 1 July 2016 and 30 June 2017, the implied remaining unmined JORC Reserve tonnage totals 5.1Mt. Assuming the projected annual stacking rate of 1.8Mt included in the Revised Bankable Feasibility Study for Wetar released to the ASX on 20 November 2013 continues to be achieved and the implied remaining JORC Reserve tonnage of 5.1Mt, then the remaining period of mining operations is approximately 3 years. Due to the leach cycle of 720 days, Wetar production will continue beyond the estimated period of 3 years of mining operations, at rapidly reducing rates of copper production.

Over the past 5 years, Finders has announced no material increase in JORC Resources. As a result, JORC Reserves, in terms of contained copper, have experienced no growth from 2012 to 2017.

Future development projects may require the successful completion of feasibility studies, agreement with the local community on access, receipt of necessary permits and adequate financing.

During the past 6 months, Finders has ceased to report southern exploration tenements as being owned by the Finders Group. These tenements were previously reported as having similar geological environments to Kali Kuning/Lerokis/Meron.

Production underperformance and high operating costs relative to guidance

On 27 September 2017, Finders announced an interruption to the major copper cathode solvent extraction-electrowinning (**SX-EW**) plant that is adversely affecting production of copper cathode.

As a consequence, Finders estimates that copper cathode production for the September 2017 quarter will fall approximately 500 tonnes below that achieved in the June 2017 quarter, with production in October 2017 also impacted⁹.

Assuming Finders' implied estimate of copper cathode production for the September 2017 quarter of 6,304 tonnes¹⁰, production in the December 2017 quarter will need to reach a minimum of 8,767 tonnes to meet the 2017 forecast copper cathode production guidance of 28,000 tonnes¹¹ (**Production Guidance**). Given Finders' guidance that production for October 2017 will be adversely affected, this makes it unlikely that the Production Guidance will be achieved.

Figure 2: 2017 Finders Historical Copper Cathode Production¹² & Production Guidance

Finders has also disclosed that it expects operating costs during the September 2017 quarter to increase because of the replacement of reagents and an increase in power usage due to circuit inefficiencies.

The forecast C1 cash costs for the September 2017 quarter is expected to be in the range of US\$1.15 to US\$1.20 per pound of copper cathode produced¹³ (vs US\$1.02 per pound of copper cathode produced in the June 2017 quarter¹⁴).

There has been limited public disclosure regarding the ongoing production underperformance and higher operating costs relative to company guidance to date. There are considerable risks and uncertainties that these operating issues may persist and continue to adversely impact the value of Your Finders Shares.

Future copper price and foreign exchange rate volatility

Finders' copper sales are priced in US dollars. Finders is therefore exposed to fluctuations in copper prices and foreign exchange rates.

The market prices for copper can fluctuate widely. These fluctuations are caused by numerous factors beyond the Company's control including, but not limited to, speculative positions taken by investors, global mine supply, global GDP growth and global or regional economic events. There is no assurance that copper prices will remain at current high levels.

By accepting the Offer, and the Offer becoming unconditional, you will be paid cash for Your Finders Shares and will not be exposed to the risks and uncertainties inherent in continuing to hold Your Finders Shares.

1.4 Eastern Field already controls Finders largest shareholding with a relevant interest of 19.8%

Eastern Field already has a relevant interest in approximately 19.8% of the Finders Shares on issue. This represents the largest relevant interest in Finders.

1.5 You may face minority shareholder risks if you do not accept and Eastern Field obtains control of Finders

If you do not accept the Offer, but Eastern Field acquires control of Finders and does not proceed to compulsory acquisition, you will become a minority shareholder in Finders with limited influence in the running of the business.

Decisions made in respect of the business of Finders under the control of Eastern Field may, therefore, have an impact on those Finders Shareholders who do not accept the Eastern Field Offer.

Eastern Field's control over Finders may affect the liquidity of Finders Shares, thereby exposing remaining Finders Shareholders to greater volatility, less institutional support and limited analyst coverage. This could make it more difficult for you to sell Your Finders Shares at an attractive price in the future.

If the number of Finders Shareholders is less than that required by ASX Listing Rules to maintain an ASX listing then the ASX may suspend and/or de-list Finders Shares. If this occurs, any remaining Finders Shareholders will not be able to sell their Finders Shares on market.

1.6 Should the Offer not be successful, the Consortium Members will review their Finders investments and may divest all their Finders Shares and withdraw from involvement in Finders

Provident's associated entity, Provident Minerals, has been a Finders shareholder since 2012 and an active supporter of Finders, including providing assistance to Finders in connection with the successful achievement of Indonesian regulatory approvals. Provident Minerals also assisted Finders by introducing leading Indonesian investment company Saratoga as another supportive, high-quality Indonesian shareholder to Finders in 2013.

You should also be aware that Provident Minerals recently undertook an unsuccessful formal Sale Process for its Finders shareholding via its financial adviser Argonaut. The Sale Process occurred following Provident Minerals making a strategic decision to refocus on its investment in Merdeka, in preference to retaining its considerably smaller investment (by value) in Finders. The Sale Process involved approaching a large number of potential acquirers.

Consistent feedback themes received from potential acquirers was that:

1. The involvement of a strong, reputable Indonesian group as a key investor in Finders was a key prerequisite to any investment;
2. Finder's attributable interest in Wetar is small on a global basis based on Finders' 74.1% interest in nameplate production of 28,000 tonnes of annual production; and
3. The current mining life is too short based on the project's JORC Reserves and Resources statement.

The Sale Process has since been discontinued after limited interest and no offers being received.

Provident has now elected to form Eastern Field with several like-minded Indonesian groups to make this Offer to all shareholders to enable them to materially increase their investment in Finders.

If Eastern Field's Offer is not successful, Provident Minerals and Saratoga will undertake a review of their Finders investments and may divest their Finders Shares via a market sell-down process or other means and withdraw from involvement in Finders.

If Provident Minerals and Saratoga elect to divest all their Finders Shares then Finders Shareholders may face increased Indonesian risks and uncertainties that could materially impair the value of the Finders Shares.

You should be aware that prior to the Offer, Finders' average shares traded per month for Calendar Year 2017 represents only 2.0% of shares outstanding¹⁵. This means that should Provident Minerals and Saratoga choose to sell their Finders Shares on market then the full sale of their 19.8% interest may take a considerable time to be completed and may adversely impact the value of the Finders Shares.

1.7 The trading price of Your Finders Shares may fall if Eastern Field's Offer is not successful

If Eastern Field's Offer is not successful and there is no other offer made for Your Finders Shares, the trading price of Finders Shares may fall below the Offer Price.

1.8 Eastern Field's Offer is the only offer available to you

The Eastern Field Offer is the only offer available for all Your Finders Shares as at the date of this Bidder's Statement.

4.2 Overview of Finders

Finders Resources Limited (ASX Code: FND) (**Finders**) is an ASX listed copper producer operating the Wetar Copper Project (**Wetar**) located on the remote Wetar Island in the province Maluku Barat Daya, Eastern Indonesia. Typical access to Wetar Island is by boat which takes approximately 14 hours from Kupang.

Finders was incorporated on 30 March 2004 and listed on the ASX on 8 June 2007²³.

As at 30 June 2017, Finders' economic ownership in Wetar was disclosed as 74.1%. The remaining economic interests are held by Posco Daewoo Corporation and a local Indonesian partner²⁴.

Finders currently holds its economic interest in Wetar through subsidiary, PT Batutua Tembaga Raya (BTR), which is an Indonesian limited liability foreign capital investment company (PMA). BTR in turn holds 70% of PT Batutua Kharisma Permai (BKP) which is the registered holder of the mining assets.

Wetar comprises the brownfield development, open pit mining and processing of sulphide deposits at Kali Kuning and Lerokis located within 3 kilometres of the coast on Wetar Island, which is mountainous and heavily forested.

Wetar Island has a population of ~9,000 people who live mainly on the flat coastal plains relying predominantly on subsistence agriculture and spice exports²⁵. Infrastructure for the Wetar Copper Project includes a wharf, accommodation camp, roads, on-site diesel power generators and an emergency access air strip.

Finders currently operates a 25,000 tonne per annum (**tpa**) copper cathode SX-EW plant, commissioned in May 2016, and a 3,000 tpa SX-EW expanded demonstration plant, commissioned in April 2014, giving a combined annual production capacity of 28,000 tonnes copper cathode.

Ore is currently sourced from the Kali Kuning pit with the Lerokis pit planned to provide ore feed in the future. Processing involves heap leaching of transitional and fresh sulphide ore followed by solvent exchange electrowinning to produce copper cathode.

For the six months ended June 2017, Finders produced 12,929 tonnes of copper cathode at a CI cash costs of US\$1.03/lb and an all-in sustaining cost (**AISC**) of US\$1.36/lb²⁶.

Wetar only has a current short remaining period of mining operations of approximately 3 years based on unmined JORC Reserves as at 30 June 2016, estimated JORC Reserve depletion and disclosed projected stacking rates.²⁷

As at 30 June 2017, Wetar had total debt of US\$73.6 million²⁸ (including a VAT facility)²⁹ repayable over the period to March 2019³⁰ and a cash position of A\$4.4 million³¹.

4.4 Finders' Securities and Capital Structure

According to documents lodged by Finders with ASX as at the date of this Bidder's Statement, the following securities in Finders are currently on issue³⁴ and Finders has agreed to grant 11,000,000 performance rights³⁵.

Class	Number
Fully paid ordinary shares	772,367,245 ³⁶ including 11,100,000 Unlisted Employee Shares
Unlisted Converting Notes	12,248,538
Performance Rights	11,000,000 of which 4,000,000 have agreed to be granted to the Managing Director, Mr Barry Cahill ³⁷

Further Details in relation to the Unlisted Employee Shares, Unlisted Convertible Notes and Performance Rights are described below.

Performance Rights

At the Finders AGM held in May 2017, the directors asked shareholders to approve a performance rights plan adopted by the Finders Board (**2017 Plan**) under which a limited number of employees and directors of the Finders Group (**eligible participants**) may be offered performance rights over shares in the Company instead of annual bonuses. Performance rights entitle the holder to be issued shares once the vesting conditions are satisfied.

Shareholders were advised in the Explanatory Memorandum relating to the 2017 Plan that performance rights would be offered in lieu of part of or all of the eligible participant's annual short term incentive. The number of performance rights would be determined by the annual bonus entitlement and the market price of ordinary shares at the time of issue. The following example was given: "For instance, if an executive was entitled to a bonus of \$50,000 and the market price of shares in the Company at the time was \$0.25 then the executive would be entitled to 200,000 performance rights instead of the bonus. The rights would vest after a period to be set by the Board but expected to be 2 years. If the executive left prior to the end of the vesting period then he or she would forfeit their performance rights. At the end of the vesting period, the executive would be entitled to convert the rights to ordinary shares for nil consideration." After considering this explanation, Shareholders approved the 2017 Plan.

The 2017 Plan provides that if a takeover offer is made in relation to Finders and becomes unconditional, the vesting conditions and the performance criteria for the performance rights will be deemed to be met and the performance rights automatically vest (**takeover vesting provision**).

³⁷ See Finders announcement released to ASX 25 September 2017

Eastern Field has been informed by Finders' advisors that Finders has agreed to issue 11 million performance rights under the 2017 Plan which include the 4 million performance rights which the Company has announced are to be granted to the Managing Director, Mr Barry Cahill.³⁸ The announcement indicates that the 4 million performance rights would be granted to Mr Cahill as a long term incentive and be issued in 3 tranches. According to the announcing, Mr Cahill will also be granted the opportunity to earn a short term incentive paid in shares issued under the 2017 Plan equal to a percentage of his base salary each financial year subject to performance against key objectives set by the Board's remuneration committee.

Eastern Field is unaware of the vesting conditions and the performance criteria relating to the remaining 7 million performance rights and whether these performance rights were also issued as long term incentives notwithstanding the clear and unambiguous statement made to shareholders in the explanatory memorandum that they would be issued as short term incentives.

Whether the performance rights issue as a short term incentive (as set out in the explanatory memorandum for the AGM) or as a long term incentive (as is the case with Mr Cahill) is extremely relevant as the performance rights will vest and become rights to ordinary shares for which the holder will pay no consideration if the Offer becomes unconditional. While this may be appropriate where the participant takes the performance rights instead of a bonus payable to the participant, it is very different in the case of a long term incentive where in the early years it simply results in a windfall benefit for the participant.

Eastern Field would question whether the takeover vesting provision is an appropriate term to apply to a long term incentive. Finders shareholders may not have voted in favour of the 2017 Plan if they had been informed that it was also intended to issue performance rights as long term incentives under the 2017 Plan.

The effect of issuing performance rights under the 2017 Plan as a long term incentive can be seen in the context of the 4 million performance rights which have agreed to be granted to Mr Cahill. If the Offer becomes unconditional, he will be entitled to receive 4 million Finders Shares (which based on the Offer price would be worth \$920,000) regardless of whether he has made any progress in achieving the vesting conditions under his long term incentives.

The effect of the takeover vesting provision means that if the offer becomes unconditional there will be an issue of 11,000,000 ordinary shares in Finders to the holders of the performance rights which equals 1.4% of the issued ordinary shares in Finders (which based on the Offer price would be worth \$2,530,000) without the payment of any further consideration. This clearly impacts on the price that a potential bidder will offer shareholders.

If the Offer becomes unconditional, the 11,000,000 shares will issue after the Register Date so they will be outside of the bid class and will not be capable of being sold into the Offer.

Unlisted Employee Shares

The Company has issued incentive shares to employees and the managing director under the Finders 2013 Employee Share Ownership Plan (**ESOP**) as well as incentive shares to the Non-Executive Chairman on similar terms to the ESOP. This share-based compensation under which the employees and directors purchase shares is funded by limited recourse loans from the Company and is accounted for as a share-based payment and expensed over the expected life of the options inherent in the arrangement with a corresponding credit to the share-based payments reserve. Incentive shares are issued under the ESOP subject to specified vesting conditions which are specific to each participant and only once these vesting conditions are satisfied.

The details of the Shares issued under the ESOP are as follows³⁹:

- (i) 600,000 Finders Shares issued under the ESOP at issue prices of \$0.19 to \$0.21 funded by loans from the Company; and
- (ii) 10,500,000 vested and unvested Director's incentive Shares issued at prices from \$0.2008 to \$0.3008 funded by loans from the Company and subject to performance and time base vesting conditions.

If the Offer becomes unconditional, under the ESOP the vesting conditions will be deemed to have been met and the loan made to fund the purchase of the shares becomes due and payable and the participant is permitted to sell the shares but has no liability for any shortfall between the sale price and the amount of the loan.

Unlisted Convertible Notes⁴⁰

The Company raised US\$5,500,000 from Standard Bank Plc in 2012 pursuant to mandatory Converting Notes, which will convert into 12,248,538 shares in the Company on or before 16 March 2018 at a conversion price of \$0.427 per share. The Notes will convert into shares and have been treated as equity for accounting purposes.

If Converting Notes were exercised by the Register Date and the resulting shares issued by the Register Date, the resulting shares will be included in the bid class and be the subject of an Offer. Otherwise they will be outside of the bid class and will not be capable of being sold into the Offer.

Finders also had the following unlisted options:

5 EASTERN FIELD'S INTENTIONS

5.1 Introduction and important note

This section sets out Eastern Field's and the Consortium Members' current intentions for:

- the continuation of Finders' business;
- any major changes to be made to Finders' business, including any redeployment of the fixed assets of Finders; and
- the future employment of the present employees of Finders.

Eastern Field's current intentions for Finders have been formed following a review of facts, information and circumstances about Finders that were publicly available at the date of this Bidder's Statement.

The intentions set out in this section are subject to a general strategic review that Eastern Field will undertake soon after the Offer has closed. As such, statements set out in this section are statements of current intention only which may change as new information becomes available or circumstances change.

Eastern Field's intentions as set out in this Bidder's Statement have been approved by the Consortium Members and also reflect the intentions of the Consortium Members as at the date of this Bidder's Statement.

5.2 Intentions upon acquisition of 90 percent or more of Finders Shares

Without limiting the comments in section 5.1, this section sets out Eastern Field's current intentions should it acquire 90 percent or more of Finders Shares and become entitled to proceed to compulsory acquisition in respect of the outstanding Finders Shares it does not own.

Compulsory acquisition

At this time Eastern Field has made no decision on whether it will compulsorily acquire any outstanding Finders Shares under part 6A.1 of the Corporations Act if it becomes entitled to do so. Any decision will be made following, inter alia, a review of the tax considerations of Finders becoming a wholly owned subsidiary and the consequential delisting of Finders from the ASX.

Amend Finders constitution

If Finders becomes wholly owned by Eastern Field, Eastern Field will amend the constitution of Finders to reflect its status as a wholly owned subsidiary of Eastern Field and will seek to convert Finders from a public company to a proprietary company.

Directors

If Finders becomes wholly owned by Eastern Field, its directors will be nominated by the Eastern Field Board. The composition of the Finders Board during the transition period between Eastern Field becoming entitled to compulsorily acquire Finders Shares and that compulsory acquisition right being exercised will depend on the willingness of the Finders Board at that time to appoint Eastern Field nominees. Eastern Field intends to replace all members of the Finders Board (other than Mr Gavin Caudle) with Eastern Field nominee directors.

Those nominees have not yet been identified by Eastern Field.

Operations

Eastern Field has not had access to all information necessary to determine the current status of Finders' projects, and the financial status and other resources required in connection with the development of those projects. After the close of the Offer, Eastern Field (together with the reconstituted Finders Board) intends to conduct a broad-based review of Finders' overall business at a strategic, financial and operational level. The review will focus on Finders' operations assessing operational performance as well as what work is required in the future. This will determine the level of financial and other resources necessary to optimise the development of Finders' assets.

Employees

As stated above, Eastern Field will conduct a strategic review of Finders' business. As part of this strategic review, Eastern Field intends to evaluate the capabilities and fit of the existing Finders employees.

5.3 Intentions upon acquisition of less than 90 percent of Finders Shares

This section sets out Eastern Field's current intentions if, by virtue of acceptance of the Offer, it gains effective control of Finders but does not proceed to compulsory acquisition of the outstanding Finders Shares.

Directors

Depending on the level of ownership achieved, it is Eastern Field's intention to replace some or all of the members of the Finders Board (and the board of any company on which Finders has nominee directors) with Eastern Field's nominee directors. The number of directors that Eastern Field seeks to appoint will depend on its level of voting power in Finders. To ensure appropriate governance arrangements, Eastern Field may look to appoint independent directors to the Finders Board.

Intentions generally (including about matters at section 5.2 above)

If Finders becomes a controlled entity but not a wholly owned subsidiary of Eastern Field, it is the present intention of Eastern Field to procure that the new Finders Board implements the objectives and goals outlined in section 5.2 to the extent possible and appropriate.

Exploration and Development

Over the past 5 years, Finders has announced no material increase in resources. As a result, Wetar only has a current short remaining period of mining operations of approximately 3 years based on stated JORC Reserves as at 30 June 2016, estimated JORC Reserve depletion and disclosed projected stacking rates⁴⁵.

Eastern Field considers that considerable additional focus on, and resources for, exploration and development activities will be required in the foreseeable future to ensure mining operations are able to continue beyond the currently estimated period of approximately 3 years. The requirement for additional focus and resources is considered particularly urgent in the context of time taken to achieve historical permits, once JORC Resources are defined.

Eastern Field intends to ensure more funding is available to fast track much needed exploration and development efforts. This may require further equity raisings.

Limitations on intentions

To the extent that Finders is not a wholly owned subsidiary of Eastern Field and there are minority shareholders of Finders, Eastern Field intends to ensure that the Eastern Field nominees appointed to the Finders Board will act at all times in accordance with their fiduciary duties and that all requisite shareholder approvals and other legal requirements are complied with in pursuing the intentions outlined above.

The requirement to have regard to those fiduciary duties in the context of a partly owned company and the possible requirements of minority shareholder approval may prevent this particular objective being achieved.

5.4 Intentions for Finders if not controlled by Eastern Field

The Offer is conditional upon, inter alia, Eastern Field acquiring a relevant interest in more than 50% of the Finders Shares. Eastern Field reserves its right to declare the Offer free of such a condition (or any other condition).

If the Offer is not successful, Provident Minerals and Saratoga will undertake a review of their Finders investment and may divest their Finders Shares via a market sell-down process or other means and withdraw from involvement in Finders.

5.5 Consortium Members' longer term intentions

Subject to receiving any necessary approvals from the shareholders of Merdeka it is the intention of the Consortium Members to fund the repayment of the loans of Eastern Field by issuing further shares in Eastern Field to Merdeka which would result in Merdeka acquiring a controlling interest in Eastern Field.

5.6 Intentions generally

Except for the changes and intentions set out in this section 5, Eastern Field intends, based on the information presently known to it:

6 SOURCES OF CONSIDERATION

6.1 Total cash consideration

The consideration for the acquisition of Your Finders Shares under the Offer will be satisfied wholly in cash via payment by Eastern Field.

The amount of cash that Eastern Field would be required to pay under the Offer if acceptances are received in respect of Finders Shares on issue as at the date of this Bidder's Statement would be A\$142.4 million⁴⁶ (**Offer Amount**).

6.2 Funding arrangements

The Consortium Members have committed on an irrevocable and unconditional basis to provide Eastern Field with up to the Offer Amount plus any associated transaction costs incurred by Eastern Field (**Total Funding Amount**).

The funding will stay in place as long as Eastern Field has an outstanding obligation to make payments under the Offer and is not subject to any conditions precedent. Eastern Field is entitled to call on the funds committed by the Consortium Members at any time for the purpose of making payments under the Offer, subject to the Offer becoming unconditional.

Saratoga, Provident and Merdeka have agreed as between themselves that they will fund the Total Funding Amount and the amount which will be required for Eastern Field to pay the purchase price to Provident Minerals and Saratoga under the Sale and Purchase Agreements referred to in Section 8.3 in equal shares. The purchase price payable under the Sale and Purchase Agreements referred to in Section 8.3 will be credited against Provident and Saratoga's funding commitments.

Saratoga will fund the balance of its funding commitment using the available cash reserves of Saratoga and its subsidiaries, which at the date of this Bidder's Statement amount to US\$77 million⁴⁷ and which are available to fund its portion of the Total Funding Amount and any shortfall Saratoga is required to fund directly to Eastern Field on account of Merdeka.

Provident will fund the balance of its funding commitment using available lines of credit, under its club facilities with its banking club⁴⁸. The undrawn commitments under these facilities amount to US\$40 million and are currently available to be drawn down and may be used to fund its portion of the Total Funding Amount and any shortfall Provident is required to fund directly to Eastern Field on account of Merdeka.

Merdeka will fund its funding commitment using its available cash reserves (which at the date of this Bidder's Statement amount to US\$19 million) and the balance of its commitments will be sourced by drawing down under an existing US\$ credit facility provided by BNP Paribas, Societe Generale Hong Kong branch and The Hong Kong and Shanghai Banking Corporation Limited subject to it being amended as follows. Merdeka is currently negotiating with its lenders to permit a further US\$40 million to be draw down to fund the balance of its portion of the Total Funding Amount. Saratoga and Provident have agreed that if the increased facility is not available by the time the commitment to Eastern Field is called upon, they will fund any shortfall of Merdeka's portion directly to Eastern Field until the funds are available.

The funds committed by the Consortium Members are not required for any other arrangements or obligations of the Consortium Members.

6.3 No hedging

There are no current hedging arrangements in place for movements in exchange rates in respect of the arrangement described in this section 6. However Eastern Field expects that the funds available under those arrangements will be sufficient to pay the Total Funding Amount in the event of an adverse movement in exchange rates.

6.4 Provision of consideration

On the basis of the arrangements described in this section 6, Eastern Field is of the opinion that it has reasonable grounds for holding the view, and holds the view, that it will be able to provide the consideration offered under the Offer as well as the costs associated with the Offer.

⁴⁶ Based on the 619,119,047 Finders Shares that Eastern Field is offering to acquire at \$0.23 per Share

⁴⁷ This includes a deposit of IDR370,000,000,000 which has been converted to USD using an exchange rate of 1USD = 13,500 IDR.

7 TAX CONSIDERATIONS

7.1 Introduction

The following is a summary of the potential Australian income tax consequences generally applicable to a Finders Shareholder who disposes of Finders Shares under the Offer. This summary is based on the law and practice in effect on the date of this Bidder's Statement.

The following summary is not intended to be an authoritative or complete statement of the tax law applicable to the specific circumstances of every Finders Shareholder.

In particular, the summary is only applicable to Finders Shareholders that are Australian residents for income tax purposes, hold post CGT shares, and hold their Finders Shares on capital account for income tax purposes.

The summary does not apply to Finders Shareholders who:

- hold their Finders Shares in the course of carrying on a business (e.g. as trading stock) or on revenue account (e.g. as part of a profit-making undertaking or scheme);
- acquired their Finders Shares pursuant to an employee share, rights or option scheme; or
- are subject to the Taxation of Financial Arrangements provisions in Division 230 of the Income Tax Assessment Act 1997.

All Finders Shareholders are advised to seek independent professional advice about their particular circumstances. Non-resident Finders Shareholders should seek their own advice on the Australian and foreign taxation consequences of any disposal of their Finders Shares.

7.2 CGT consequences on the disposal of Finders Shares

CGT Event

A disposal by a Finders Shareholder of their Finders Shares pursuant to the Offer will constitute a CGT event for the Finders Shareholder. The date of the CGT event will be the date the contract to dispose of the Finders Shares is entered into by the Finders Shareholder, or in the case of compulsory acquisition, the date when the Finders Shareholder ceases to be the owner of Finders Shares.

Calculation of Capital Gain or Capital Loss

Finders Shareholders will make a capital gain to the extent that the capital proceeds from the disposal of the Finders Shares are more than the cost base of those Finders Shares. Conversely, Finders Shareholders will make a capital loss to the extent that the capital proceeds from the disposal are less than their reduced cost base of those Finders Shares.

Cost Base

The cost base of Finders Shares generally includes the purchase price paid for the shares and certain non-deductible incidental costs of their acquisition and disposal. The reduced cost base of the Finders Shares is usually determined in a similar, but not identical, manner.

Capital Proceeds

The capital proceeds from a disposal of Finders Shares is generally the amount of consideration received by the Finders Shareholder for the disposal.

Other Issues

If a Finders Shareholder makes a capital gain from a disposal of Finders Shares, the capital gain is aggregated with other capital gains made by the Finders Shareholder in the same income year. Any available capital losses of the Finders Shareholder from the same or previous income years may then be offset against the capital gains (subject to satisfaction of loss recoupment tests). If there is a capital gain remaining after application of available capital losses, the Finders Shareholder may be entitled to apply a discount (see below). Any net capital gain after applying the discount (if applicable) is included in assessable income of the Finders Shareholder in that income year.

Individuals, complying superannuation entities and trusts that have held the CGT asset to which the capital gain relates for at least 12 months before the CGT event may be entitled to discount the amount of the capital gain (after application of capital losses) by 50% in the case of individuals and trusts or by 33⅓% for complying superannuation entities. For trusts, the ultimate availability of the discount for beneficiaries of the trust in relation to distribution of capital gains by the trust will depend on the particular circumstances of the beneficiaries. No discount is available for Finders Shareholders that are companies.

If a Finders Shareholder makes a capital loss from the disposal of their Finders Shares, the capital loss may only be used to offset capital gains of the Finders Shareholder in the same or future income years (subject to satisfaction of loss recoupment tests).

7.3 GST and stamp duty

GST

The disposal of Finders Shares under the Offer should not be subject to GST. Finders Shareholders may be charged GST on costs they incur which relate to the disposal transaction (e.g. legal, financial and tax adviser fees). Certain Finders Shareholders may be entitled to claim input tax credits or reduced input tax credits in relation to the GST amount incurred on these costs, but should seek independent tax advice in relation to their individual circumstances

Duty

Finders Shareholders who dispose of their Finders Shares will not incur any Australian duty under the Offer. Eastern Field will pay any duty in connection with the Offer.

7.4 Obtain your own taxation advice

Do not rely on the comments or the statements contained in this Bidder's Statement as advice about your own affairs. The taxation laws are complex and there could be implications in addition to those generally described in this Bidder's Statement.

Accordingly, consult your own tax advisers for advice applicable to your individual needs and circumstances. To the extent permitted by law, neither Eastern Field nor any of its Directors or advisers accept any liability or responsibility in respect of any statement concerning the tax consequences to particular Finders Shareholders from disposing of their Finders Shares under the Offer.

8.7 Miscellaneous matters

ASIC relief

ASIC has published various class order instruments providing for modifications and exemptions that apply generally to all persons, including Eastern Field, about the operation of Chapter 6 of the Corporations Act. Eastern Field may rely on this class order relief.

Eastern Field has relied on the modification to section 636(3) of the Corporations Act in paragraph 11 of ASIC Class Order 13/521 'Takeover Bids' to include references to certain statements in documents lodged with ASIC and ASX without obtaining the consent of the persons to whom those statements are attributed.

As required by ASIC Class Order 13/521, Eastern Field will make available a copy of the documents containing these statements (or relevant extracts from these documents), free of charge to Finders Shareholders who request them before the end of the Offer Period. To obtain a copy of these documents (or the relevant extracts) Finders Shareholders should contact Eastern Field on 1300 079 762 (for callers within Australia) or +61 8 6314 6314 (for callers outside Australia) between 10.00am to 5.00pm (Perth time) Monday to Friday.

Other regulatory matters

Other than FIRB Approval, Eastern Field is not aware of any regulatory approval which is required for it to acquire control or ownership of Finders.

8.8 Consents

This Bidder's Statement includes statements which are made in, or based on, statements made in public documents lodged with ASIC. Under ASIC Class Order 13/521, the makers of those statements are not required to consent to, and have not consented to, inclusion of those statements in this Bidder's Statement. If you would like a copy of any of the documents that Eastern Field has relied upon in this regard (free of charge), please contact Eastern Field on 1300 079 762 (for callers within Australia) or +61 8 6314 6314 (for callers outside Australia) between 10.00am and 5.00pm (Perth time) Monday to Friday.

As permitted by ASIC Class Order 07/429, this Bidder's Statement contains ASX share price trading information sourced from IRESS Limited without its consent.

In addition, the following parties have given and have not, before the time of lodgement of this Bidder's Statement with ASIC, withdrawn their written consent to be named in this Bidder's Statement in the form and context in which they were named:

- (a) Iffla Wade as Australian legal adviser to Eastern Field; and
- (b) Argonaut Capital Limited, as financial adviser to Eastern Field.

Each of the persons named above does not make, or purport to make, any statement in this Bidder's Statement other than those statements made in the capacity and to the extent that the person has provided its consent, as referred to above, and to the maximum extent permitted by law, expressly disclaims and takes no responsibility for any part of the Bidder's Statement other than as described.

8.9 FIRB Approval

Eastern Field is a foreign person under the FATA. Accordingly the Offer is subject to the approval or non-objection of the Treasurer, who receives advice from the Foreign Investment Review Board (**FIRB**) under the FATA (see Paragraph 1 of Schedule 2). Approval will not be given to the Offer if the Treasurer, on advice from FIRB, considers that the result of the Bidder's acquisition of Finders Shares will be contrary to the national interest.

The Bidder has filed the necessary application, together with a detailed submission, with FIRB before the date of this Bidder's Statement.

8.10 Status of Conditions

Section 8.9 describes matters relevant to the status, purpose and effect of the FIRB Condition. This section 8.10 describes the status of the remaining Conditions.

In relation to the Condition in Paragraph 3 of Schedule 2, at the date of this Bidder's Statement the Bidder is not aware of any decision, order, direction, action, proceeding, investigation or application which would result in the non-fulfilment of that Condition. Other than as set out in Section 8.9 the Bidder has not identified, at the date of this Bidder's Statement, any particular regulatory actions or approvals which could lead to that Condition being triggered or which would be relevant to the Condition in Paragraph 3 of Schedule 2.

At the date of this Bidder's Statement, the Bidder is not aware of any event or circumstances which would result in the non-fulfilment of any of the Conditions in Paragraphs 4, 5 and 7 of Schedule 2.

At the date of this Bidder's Statement the Bidder is aware there may be change of control and other rights under agreements of the type referred to in Paragraph 6 of Schedule 2 but it is not aware of whether those change in control or other rights would result in the non-fulfilment of that Condition as it is not aware whether the holder of that right will waive or release that right, as permitted by that condition, so that the Condition is not triggered by the existence of that right.

Between the date of the Announcement and the date of this Bidder's Statement the 3 Month Copper Price has not fallen below US\$6,000 and accordingly the Condition set out in Paragraph 8 of Schedule 2 has not been triggered.

6 **Conditions of the Offer**

6.1 **Conditions**

This Offer and the contract that results from acceptance of this Offer are subject to fulfilment of the Conditions.

- (b) the other specifically excludes that event.

Eastern Field may declare the Offer free under clause 6.5 from either of those conditions without declaring it free from the other and may do so at different times. This clause may apply any number of times to a Condition (including a condition arising from a previous operation of this clause).

6.4 **Effect of breach or non-fulfilment**

The breach or non-fulfilment of any of the Conditions does not prevent a contract arising to acquire Your Finders Shares resulting from your acceptance of this Offer. If at the end of the Offer Period, in respect of any Condition:

- (a) Eastern Field has not declared the Offers (and they have not become) free from that Condition; or
- (b) that Condition has not been satisfied,

all contracts resulting from the acceptance of the Offers and all acceptances that have not resulted in binding contracts are void. In that case, Eastern Field will return the Acceptance Form together with all documents to the address shown in the Acceptance Form.

6.5 **Eastern Field may decide Offer is free from all or any of the Conditions**

Eastern Field may at any time at its sole discretion but in compliance with section 650F and section 630(1) of the Corporations Act, declare the Offers free from all or any of the Conditions by written notice to Finders not later than seven days before the end of the Offer Period.

6.6 **Date for giving notice on status of Conditions**

The date for giving a notice on the status of the Conditions as required by section 630(1) of the Corporations Act is the date seven days before the end of the Offer Period, subject to variation under section 630(2) of the Corporations Act if the Offer Period is extended.

6.7 **Effect of acceptance**

Once you have accepted this Offer, you will be unable to revoke your acceptance and the contract resulting from your acceptance will be binding on you, unless:

- (a) by the end of the Offer Period, the Conditions have not all been satisfied or waived in which case, this Offer will automatically terminate; and
- (b) the circumstances set out in section 650E of the Corporations Act apply.

By signing and returning the Acceptance Form, you will be deemed to have:

This Acceptance Form must be received with sufficient time to allow processing prior to the end of the Offer Period.

This form and the Bidder's Statement are important documents that require your immediate attention. This form relates to an offer (**Offer**) by Eastern Field Developments Ltd (**Eastern Field**) to acquire all of your Ordinary Shares in Finders Resources Ltd (**Finders**) (ACN 108 547 413) the terms of which are set out in the Bidder's Statement from Eastern Field dated 23 October 2017 as replaced or supplemented (the **Bidder's Statement**). Capitalised terms used in this form have the same meaning as in the Bidder's Statement, unless otherwise defined.

If you are in doubt about how to deal with this Offer, please contact your financial or other professional advisor.

Note this form can only be used in relation to the securityholding represented by the details printed above and overleaf.

Step 1: Registration Name & Offer Details

Your consideration will be paid to the name(s) as they appear on the latest copy of the Finders Register, as provided to Eastern Field. The current address recorded on Eastern Field's copy of the Register is printed above and overleaf. If you have recently bought or sold Finders Shares your holding may differ from that shown. As your Finders Ordinary Shares are in a CHESS holding, you may contact your Controlling Participant directly (normally your stockbroker) with instructions to accept the Offer. If you do this, your Controlling Participant will provide you with details as to what they require in order to accept the Offer on your behalf. If you want Eastern Field to contact your Controlling Participant on your behalf, sign and return this form to the address above so that it is received in sufficient time to allow your instruction to be acted upon by the close of the Offer Period. This will authorise Eastern Field and Boardroom Pty Limited (**Boardroom**) to request your Controlling Participant to initiate acceptance of the Offer on your behalf.

By signing this form, you represent and warrant to Eastern Field that, both at the time of returning this acceptance form and at the time the transfer to Eastern Field of the Ordinary Shares to which this form relates is registered, all of those shares are and will upon registration be fully paid up and free from all mortgages, charges, liens and other encumbrances of any kind and restrictions on

transfer of any kind, and that you have full power and capacity to sell and transfer the legal and beneficial ownership in those shares and that you have paid all amounts which at the time of acceptance have fallen due for payment in respect of those shares.

You should allow sufficient time for your Controlling Participant or Eastern Field to initiate the acceptance of Eastern Field's Offer on your behalf. Neither Eastern Field nor Boardroom will be responsible for any delays incurred by the process of requesting your Controlling Participant to accept the Offer.

IMPORTANT! Acceptance Forms cannot be returned by fax or hand delivery. Your Acceptance Form must be returned in the reply paid envelope enclosed with the Bidder's Statement.
