AUGER DRILLING CONTRACT AWARDED

Birimian Limited (ASX: *BGS*; **Birimian** or the **Company**) wishes to advise that the Company's wholly-owned subsidiary, Timbuktu Ressources SARL (**Timbuktu**), has awarded a contract to Sahara Mining Services Ltd (**Sahara**) to undertake the proposed Phase 3 auger drilling program at its Goulamina Lithium Project in southern Mali. Sahara also carried out the earlier Phase 1 and 2 auger drilling programs at Goulamina.

The objective is to fully define the Sabali geochemical anomaly. Sahara will undertake approximately 5,250 metres of exploration drilling to an average depth of eight metres and is expected to complete the program within six to eight weeks.
