Dear Sir/Madam

Advent Energy Ltd - EP386 and RL1 Activities

MEC Resources Ltd (ASX: MMR, ACN 113 900 020), the “**Company**”, is pleased to provide an update regarding the activities of its investee company, Advent Energy Ltd (“**Advent**”) in relation to its onshore Bonaparte Basin oil and gas assets (EP386 & RL1).

Advent investee Onshore Energy Pty Ltd has now completed a preliminary site inspection of publicly accessible well sites in Western Australia and a well integrity assessment of the Weaber-4 well on the RL1 lease in the Northern Territory. The principal of Geoteknic Pty Ltd supported this effort and continues to provide engineering support for the future, proposed well intervention program.

Upon a successful well intervention program, the data collection could contribute to an enhanced resources assessment within Advent’s 100% held Bonaparte Basin assets. Quality data obtained could then support a potential field development plan for commercialisation further enhancing the value for our shareholders.

Yours faithfully

A handwritten signature in black ink, appearing to read 'Goh Hock', with a long horizontal stroke extending to the right.

Mr Goh Hock
Chairman

MEC Resources Ltd
