Entitlement Offer

On 31 October 2017, Emeco announced its intention to raise approximately A\$80 million through a fully underwritten, accelerated non-renounceable pro-rata Entitlement Offer at an Offer Price of A\$0.21 per New Share. Under the Entitlement Offer, eligible shareholders are entitled to acquire 1 New Share for every 6.4 existing Emeco shares held on the record date at 7.00pm (Sydney time) on Thursday 2 November 2017 (**Record Date**) (**Entitlement**).

All shares offered under the Entitlement Offer will be issued at a price of A\$0.21 per New Share, which represents a 11.0% discount to the theoretical ex-rights price (**TERP**) of A\$0.2359.²

New Shares issued through the Entitlement Offer will rank equally with existing Emeco shares on issue.

The Entitlement Offer is joint lead managed and fully underwritten by Macquarie Capital (Australia) Limited (**Macquarie**) and Morgans Corporate Limited (**Morgans**) (the **Underwriters**).

The institutional component of the Entitlement Offer (**Institutional Entitlement Offer**) raised a total of approximately A\$67 million and was successfully completed on 1 November 2017. Eligible institutional shareholders took up approximately 66% of their entitlements. Excluding Emeco's 4 largest shareholders, 97% of entitlements were taken up by eligible institutional shareholders. The shortfall from the Institutional Entitlement Offer was strongly oversubscribed by both existing existing eligible institutional shareholders and new institutional investors.

This Offer Booklet relates to the retail component of the Entitlement Offer (**Retail Entitlement Offer**) and Entitlements allotted under it, and contains important information about the Entitlement Offer and Emeco's business.

Under the Retail Entitlement Offer, eligible retail shareholders have the opportunity to invest at the same price as the institutional investors who participated in the Institutional Entitlement Offer. The number of New Shares for which you are entitled to subscribe under the Retail Entitlement Offer (**Entitlement**) is set out in your personalised Entitlement and Acceptance Form which accompanies this Information Booklet. It is important that you determine whether to take up in whole or part, or do nothing, in respect of your Entitlement (see Section 2).

Entitlements under the Entitlement Offer are non-renounceable and will not be tradeable on the ASX or otherwise transferable. If you do not take up your Entitlement in full, you will not receive any value in respect of that part of the Entitlement that you do not take up.

The Retail Entitlement Offer closes at 5.00pm (Sydney time) on Friday 17 November 2017.

If you would like to exercise your Entitlement to increase your shareholding in Emeco, you will need to complete and return your personalised Entitlement and Acceptance Form together with the requisite accompanying payment (**Application Monies**), or alternatively pay your Application Monies using BPAY® so that they are received by the Emeco Share Registry by 5.00pm (Sydney time) on Friday 17 November 2017.

Please carefully read this Offer Booklet in its entirety and consult your stockbroker, solicitor, accountant, financial adviser or other professional adviser before making your investment decision. In particular, you should read and consider the "Key Risks" section of the Emeco Investor Presentation included in Section 5 of this Offer Booklet which contains a summary of some of the key risks associated with an investment in Emeco.

If you have any questions in respect of the Entitlement Offer, please call the Emeco Shareholder Information Line on 1800 689 300 (within Australia) or +61 1800 689 300 (outside Australia) from 8.30am to 5.30pm (Sydney time) Monday to Friday.

I am pleased to confirm that I will be taking up my entitlements in full. On behalf of the Board and management team of Emeco, I invite you to consider this investment opportunity and thank you for your ongoing support.

Yours faithfully,

Peter Richards
Chairman
Emeco Holdings Limited

TERP is calculated by reference to Emeco's closing price of \$0.24 per share on 30 October 2017, being the last trading day prior to the announcement of the Entitlement Offer.

Cash payments will not be accepted. Receipts for payment will not be issued.

Emeco will treat you as applying for as many New Shares as your payment will pay for in full.

Payment by BPAY®

For payment by BPAY®, please follow the instructions on the personalised Entitlement and Acceptance Form. You can only make payment via BPAY® if you are the holder of an account with an Australian financial institution that supports BPAY® transactions.

If you are paying by BPAY®, please make sure you use the specific Biller Code and your unique Customer Reference Number (CRN) on your personalised Entitlement and Acceptance Form. If you have multiple holdings and consequently receive more than one personalised Entitlement and Acceptance Form, when taking up your Entitlement in respect of one of those holdings only use the CRN specific to that holding. If you do not use the correct CRN specific to that holding your application will not be recognised as valid.

Please note that should you choose to pay by BPAY®:

1. you do not need to submit your personalised Entitlement and Acceptance Form but are taken to make the declarations, representations and warranties on that Entitlement and Acceptance Form and in Section 3.8; and
2. if you do not pay for your full Entitlement, you are deemed to have taken up your Entitlement in respect of such whole number of New Shares which is covered in full by your Application Monies.

It is your responsibility to ensure that your BPAY® payment is received by the Emeco Share Registry by no later than 5.00pm (Sydney time) on Friday 17 November 2017. You should be aware that your financial institution may implement earlier cut-off times with regard to electronic payment, and you should therefore take this into consideration in the timing of when you make your payment.

Payment by cheque

For payment by cheque, you should complete your personalised Entitlement and Acceptance Form in accordance with the instructions on the form and return it accompanied by a cheque in Australian currency for the amount of the Application Monies, payable to "Emeco Holdings Limited" and crossed "Not Negotiable".

Your cheque must be:

1. for an amount equal to A\$0.21 multiplied by the number of New Shares that you are applying for; and
2. in Australian currency drawn on an Australian branch of a financial institution.

You should ensure that sufficient funds are held in relevant account(s) to cover the Application Monies as your cheque will be processed on the day of receipt. If the amount of your cheque for Application Monies (or the amount for which the cheque clears in time for allocation) is insufficient to pay in full for the number of New Shares you have applied for in your personalised Entitlement and Acceptance Form, you will be taken to have applied for such lower whole number of New Shares as your cleared Application Monies will pay for (and to have specified that number of New Shares on your personalised Entitlement and Acceptance Form). Alternatively, your application will not be accepted.

3.7 Mail or hand delivery

To participate in the Retail Entitlement Offer, your payment must be received no later than the close of the Retail Entitlement Offer, being 5.00pm (Sydney time) on Friday 17 November 2017. 3.9 Entitlements of Ineligible Retail Shareholders

In compliance with Listing Rule 7.7.I and section 708AA (including section 9A) of the Corporations Act, Emeco has determined that it is unreasonable to extend the Retail Entitlement Offer to Ineligible Retail Shareholders because of the small number of such Shareholders, the number and value of Shares that they hold and the cost of complying with the applicable regulations in jurisdictions outside of Australia and New Zealand, but it reserves its right to do so (subject to compliance with relevant laws).

Entitlements of Ineligible Retail Shareholders will be subscribed for by the Underwriters or sub-underwriters.

3.10 Brokerage and stamp duty

No brokerage fee is payable by Eligible Retail Shareholders who accept their Entitlement. No stamp duty is payable for subscribing for New Shares under the Retail Entitlement Offer.

4.0 AUSTRALIAN TAX CONSIDERATIONS

4.1 Introduction

This is a general summary of the Australian tax consequences of the Entitlement Offer for Eligible Retail Shareholders that hold their shares on capital account for Australian income taxation purposes. This summary does not consider the consequences for shareholders who:

- hold existing shares, New Shares or Entitlements in a business of share trading, dealing in securities or otherwise hold their existing shares, New Shares or Entitlements on revenue account or as trading stock;
- acquired existing shares in respect of which the Entitlements are issued under an employee share scheme;
- are subject to the 'Taxation of Financial Arrangements' provisions in Division 230 of the Income Tax Assessment Act 1997 (Cth) in relation to their holding of shares, New Shares or Entitlements; or
- are tax residents of any jurisdiction other than Australia.

The information contained in this summary is of a general nature and is not intended to address the circumstances of any particular individual or entity.

This summary is based upon the legislation and established interpretation of legislation as at the date of this Offer Booklet, but is not intended to be an authoritative or complete statement of the law as relevant to the circumstances of each shareholder.

As the taxation implications of the Entitlement Offer will depend upon a shareholder's particular circumstances, shareholders should seek and rely upon their own professional taxation advice before concluding on the particular taxation treatment that will apply to them.

Shareholders that are subject to tax in a jurisdiction outside Australia may be subject to tax consequences in that jurisdiction in respect of the Entitlement Offer that are not covered by this summary. Such shareholders should seek and rely upon their own professional taxation advice in relation to the taxation implications of the Entitlement Offer in any jurisdictions that are relevant to them.

Neither Emeco nor any of its officers or employees, nor its taxation or other advisers accepts any liability or responsibility in respect of any statement concerning taxation consequences of the Entitlement Offer.

4.2 Income tax consequences of Entitlements

a) Issue of Entitlements

The issue of Entitlements to Australian resident shareholders should not, of itself, give rise to any amount of assessable income or capital gain for shareholders.

b) Exercise of Entitlements

The exercise of Entitlements should not, of itself, result in any amount being included in a shareholder's assessable income and should not give rise to any capital gain under the capital gains tax (CGT) provisions.

Eligible Retail Shareholders that exercise their Entitlements will receive New Shares. New Shares will be taken to have been acquired on the day on which the Entitlements were exercised for CGT purposes.

The cost base of each New Share acquired will be the sum of the amount paid to exercise the corresponding Entitlement (ie. the Offer Price) and any incidental costs in acquiring the New Shares.

c) Lapse of Entitlement

If an Eligible Retail Shareholder does not accept all or part of their Entitlement in accordance with the instructions set out above, then that Entitlement will lapse. There should be no adverse taxation implications for an Eligible Retail Shareholder from the lapse of the Entitlement.

4.3 Income tax consequences of New Shares

The New Shares should constitute CGT assets for CGT purposes.

Dividends paid to Eligible Retail Shareholders in relation to their New Shares should generally be subject to the same income tax treatment as dividends in relation to existing shares held in the same circumstances.

Any future sale or disposal of New Shares will constitute a disposal for CGT purposes. A capital gain will arise if the capital proceeds on disposal exceed the cost base of a New Share. A capital loss will arise if the capital proceeds on disposal are less than the reduced cost base of a New Share.

The New Shares must have been held for at least 12 months in order for Eligible Retail Shareholders (who are an individual, trustee or complying superannuation fund) to be eligible for the CGT discount in relation to a disposal of New Shares. Refer section 4.2 above for further details.

4.4 Provision of Tax File Number (TFN) or Australian Business Number (ABN)

Australian tax legislation imposes withholding tax (currently at a rate of 47%) on the payment of distributions on certain types of investments, such as the unfranked part of any dividend, where no TFN or ABN (if applicable) has been provided. Shareholders that have not previously provided their TFN or ABN (if applicable) to the Emeco Share Registry may wish to do so prior to the close of the Retail Entitlement Offer to ensure that withholding tax is not deducted from any distribution payable to them.

A shareholder is not required to provide their TFN or ABN to Emeco.

4.5 Other Australian taxes

GST and stamp duty should not generally be payable in relation to the issue, sale, or exercise of Entitlements, nor in relation to the acquisition of New Shares.

Eligible Retail Shareholders may however be restricted in their ability to claim input tax credits in relation to costs incurred in relation to their acquisition of the New Shares. This will depend on each Eligible Retail Shareholder's particular circumstances.

We believe the Acquisition will deliver long term value to our shareholders.”

The Acquisition is subject to customary conditions precedent and termination rights in favour of Emeco with completion of the Acquisition expected in November 2017.

Acquisition Funding

The Acquisition enterprise value is A\$69.8 million (pre-adjustments for surplus working capital and other customary purchase price adjustments) and will be funded through a fully underwritten pro-rata accelerated non-renounceable entitlement offer to raise approximately A\$80 million (**Entitlement Offer**).

The Entitlement Offer will be used to fund 100% of the purchase price for the Force Acquisition, transaction costs associated with the Entitlement Offer and Acquisition, and working capital requirements.

Under the Entitlement Offer, eligible shareholders are invited to subscribe for one new Emeco share (**New Shares**) for every 6.4 existing Emeco shares held as at 7:00pm (Sydney time) on Thursday, 2 November 2017 (**Record Date**).

All shares offered under the Entitlement Offer will be issued at a price of A\$0.21 per New Share, which represents an:

The Entitlement Offer is non-renounceable and entitlements will not be tradeable or otherwise transferrable.

⁷ The theoretical ex-rights price (**TERP**) is the theoretical price at which Emeco shares should trade at immediately after the ex-date for the Entitlement Offer. The TERP is a theoretical calculation only and the actual price at which Emeco shares trade immediately after the ex-date for the Entitlement Offer will depend on many factors and may not equal the TERP. Overview of the Acquisition of Force Equipment	<ul style="list-style-type: none"> — Emeco to acquire Force, national equipment rental and maintenance business — Force has a high quality fleet with significant projects and long-term customer relationships, particularly in Western Australia — Four strategically located maintenance workshops to significantly bolster Emeco's capabilities in target growth markets — Management team is progressing integration plans following its experience with the acquisitions of Andy's and Orionstone
Key metrics	<ul style="list-style-type: none"> — Implied transaction multiple of ~2.96x FY17 operating EBITDA,¹ before the impact of any synergies — Transaction takes Emeco's fleet to 897 machines, with 179 additional high quality machines — Reduces Emeco's pro forma net debt / FY17 run rate operating EBITDA from 3.9x to 3.2x²
Funding	<ul style="list-style-type: none"> — Acquisition funded by a fully underwritten pro-rata accelerated non-renounceable entitlement offer to raise approximately \$80 million ("Entitlement Offer")
Conditions	<ul style="list-style-type: none"> — The acquisition is conditional on successful completion of the Entitlement Offer. In addition, Emeco has certain termination rights, such as there being no material adverse change impacting Force, which if exercised by Emeco would mean that the acquisition will not complete. In this event, Emeco would evaluate its options in relation to the use of the offer proceeds. — Completion is currently expected to occur by the end of November 2017

ENSURING SECURITY OF SUPPLY IN A TIGHTENING MARKET

Acquisition provides significant and highly complementary fleet

Significant acquisition in a tightening market	<ul style="list-style-type: none"> — Estimate of ready to work equipment available for sale in Australia is less than 100 units — Decline of available inventory due to overseas relocations, scrapping for parts and equipment deployed to work — Equipment manufacturers (including Caterpillar and Komatsu) have indicated improving demand for equipment — Force provides Emeco with 179 high quality machines in a tightening market, taking Emeco's fleet to 897 machines
Protects Emeco against longer lead times for components	<ul style="list-style-type: none"> — Lead times for equipment have increased over the last 12 months – for example, 240 tonne truck lead-time increased from three months to 10-months and continuing to extend — Dealer enquiries and factory orders are increasing rapidly on all models of equipment — Acquisition of Force provides a high quality maintenance capability, ensuring security of supply for Emeco's fleet
Market equipment prices increasing	<ul style="list-style-type: none"> — Used equipment prices have increased steadily over the last two years — Sales of 240 tonne trucks with 35,000 hours transacted at ~\$100,000 in 2014, compared to current level of >\$500,000
Industry demand recovering	<ul style="list-style-type: none"> — Emeco and Force are experiencing improving demand for equipment rental and maintenance services — Utilisation of major Australian mining operators has increased — Limited additional fleet capacity expected to be realised through performance improvement — Increasing demand for capacity likely to continue to translate into equipment demand

RISK FACTORS

Introduction

	<p>Investors should be aware that there are risks associated with an investment in Emeco.</p> <p>Some of the principal factors which may, either individually or in combination, affect the future operating performance of Emeco are set out below. Some are specific to an investment in Emeco and the New Shares and others are of a more general nature.</p> <p>The summary of risks below is not exhaustive. Introduction	

RISK FACTORS

Business risks

<p>Access to and supply of used and new equipment</p>	<p>In order to generate revenue and earnings, the Company requires access to new and used earthmoving equipment and parts. If the Company is unable in the future to secure adequate supplies of the required number of machines at appropriate prices or if the quality of the available machines is not acceptable, the Company's operational and financial performance may be adversely affected.</p> <p>The Company's ability to source new replacement equipment is dependent on relationships and contracts with dealers for original equipment manufacturers (OEMs), as well as its ability to access the used market through brokers. The Company's relationship with OEM dealers, such as Caterpillar, Komatsu and Hitachi, are influenced by the volumes of machines and parts it purchases and the level of industry demand. The Company has access to a global broker network of which it participates both as a procurer and seller of equipment. This network provides the Company with the ability to access low-hour, used equipment at comparable prices when required. The Company also sources equipment parts from both OEM and non-OEM providers to extend the useful life of its equipment, particularly when increased demand or pricing makes it difficult to source new or used equipment.</p> <p>The Company could be adversely impacted by any incidents affecting the ability of these manufacturers to produce and deliver mining equipment, including casualty events affecting production facilities, work stoppages or strikes, financial difficulties of our suppliers, transport disruptions, or other events or circumstances. It may be difficult to locate alternative manufacturers in the event of any disruptions which could have a material adverse impact on the Company's revenue.</p> <p>Any change in the Company's relationships with these OEMs or brokers may result in a shortage of equipment and parts which would constrict the Company's ability to enter new contracts or fulfil existing contracts and adversely impact future earnings and financial performance.</p>
<p>Loss of key management personnel and ability to attract and retain skilled workers</p>	<p>The Company's ability to remain productive, profitable and competitive and to implement planned growth initiatives depends on the continued employment and performance of senior executives and other key members of management. The Company's performance also depends on its ability to attract and retain skilled workers with the relevant industry and technical experience.</p> <p>If any one of these individuals resigns or becomes unable to continue in his or her present role and is not adequately replaced in a timely manner, business operations and the ability to implement the Company's strategies could be materially disrupted. The loss of a number of key personnel or inability to attract additional personnel may have an adverse impact on the financial and operating performance of the Company.</p> <p>There can be no assurance that the Company will be able to attract and retain skilled and experienced employees and, should it lose any of its key management personnel or fail to attract qualified personnel, its business may be harmed and its operational and financial performance could be adversely affected.</p>

RISK FACTORS

Business risks (continued)

Fleet age and maintenance expenditure risk	<p>Earthmoving equipment age is determined by the hours it has been utilised as opposed to the period of time since manufactured. In periods of high utilisation, equipment ages at a faster rate bringing forward any major components and replacement at end of life. Given the nature of the Company's operations, its fleet will age over time. As its fleet of rental equipment ages, the cost of maintaining such equipment, if not replaced within a certain period of time, may increase. Determining the optimal age of fleet equipment is subjective and requires estimates by management with asset management expertise. The Company has made estimates regarding the relationship between the age of its fleet rental equipment, the maintenance and repair costs, and the market value of used equipment.</p> <p>Future operating and financial performance could be adversely affected because maintenance and repair costs may be higher than estimated, it must be undertaken earlier than anticipated, or if there is a significant operational failure requiring unplanned maintenance expenditure. Future operating and financial performance could be adversely affected because market values of used equipment may fluctuate and are generally lower as a piece of equipment ages. In addition, the cost of the new equipment used in its fleet may increase, and therefore the Company may spend more on replacement equipment. Any such cost increases could materially and adversely impact the operating and financial performance of the Company.</p> <p>These risks may be heightened to the extent that the ageing of its fleet accelerates. The ageing of the Company's fleet could accelerate if it needed to continue to constrain capital expenditure on replacement equipment instead choosing to replace components to extend the useful life because of challenging market conditions and lower than historical rates of utilisation.</p> <p>Financing constraints may inhibit the ability of the Company to undertake all of the maintenance capital expenditure that it might like to implement.</p>
---	---

RISK FACTORS

Business risks (continued)

Residual value risk	<p>The market value of any given piece of rental equipment could be less than its depreciated value at the time it is sold. The market value of used rental equipment depends on several factors, including:</p> <ul style="list-style-type: none"> i. the market price and availability for new equipment of a like kind; ii. wear and tear on the equipment relative to its age and the performance of preventive maintenance; iii. the time of year that it is sold; iv. the supply of used equipment on the market; v. the existence and capacities of different sales outlets; vi. the age of the equipment at the time it is sold; vii. the age of major component life in the equipment; viii. the equipment model and its market acceptability; ix. worldwide and domestic demand for used equipment; and x. general economic conditions. <p>The Company includes in revenue from continuing operations the difference between the sale price and the depreciated or impaired value of an item of equipment sold. Changes in assumptions regarding depreciation could change the Company's depreciation expense, as well as the gain or loss realised upon disposal of equipment.</p> <p>Sales of the Company's used rental equipment at prices that fall significantly below projections or in lesser quantities than anticipated will have a negative impact on the future revenue, earnings and cash flows.</p> <p>These risks may be heightened if the Company needs to sell equipment to better align the size of the fleet with utilisation rates because of challenging market conditions and lower than historical rates of utilisation. The Company reported A\$15 million of proceeds in FY17 from the sale of equipment (A\$15 million FY16). This was classified as other income.</p>
Consolidation of customers and suppliers	<p>Consolidation in the industries of the Company's customers or suppliers may reduce its bargaining power with those customers or suppliers and lead to the Company transacting on less advantageous financial and commercial terms with those customers or suppliers.</p> <p>It may also lead to the loss of such customers, which would adversely affect the Company's operational and financial performance.</p>

RISK FACTORS

Business risks (continued)

	<p>The Company relies on computer, information, and communications technology and related systems in order to properly operate the administrative and compliance aspects of its business. From time to time, the Company experiences occasional system interruptions and delays.</p> <p>The Company has processes in place to respond to system interruptions and delays. However, in the event it is unable to regularly deploy software and hardware, effectively upgrade its systems and network infrastructure, and take other steps to maintain or improve the efficiency and efficacy of its systems, the operation of such systems could be interrupted or result in the loss or corruption of data. In addition, the Company's computer systems are subject to the risks of unauthorised access, computer hackers, computer viruses, malicious code, organized cyber-attacks and other security problems and system disruptions, including possible unauthorised access to the Company's and its customers' proprietary or classified information.</p> <p>The Company relies on industry-accepted security measures and technology to securely maintain all confidential and proprietary information on its information systems. The Company has devoted, and will continue to devote, significant resources to the security of its computer systems, however they may still be vulnerable to these threats.</p> <p>A user who circumvents security measures could misappropriate confidential or proprietary information or cause interruptions or malfunctions in operations. As a result, the Company may be required to expend significant resources to protect against the threat of these system disruptions and security breaches or to alleviate problems caused by these disruptions and breaches. Any of these events could damage the Company's reputation and have a generally material adverse effect on its operating and financial performance.</p>
Information systems risks	

RISK FACTORS

Business risks (continued)

<p>Mine site interruptions</p>	<p>Mining operations are vulnerable to the risk of interruption as a result of a variety of factors, which may be beyond the control of the Company, including the following:</p> <ul style="list-style-type: none"> i. prolonged heavy rainfall or cyclone; ii. geological instability, including strong seismic activity, landslides, mudslides, rockfalls, cave-ins, or conditions that threaten to result in such an event; iv. accidents or unsafe conditions; v. issues with mine ventilation; vi. equipment breakdowns; vii. industrial relations issues; and viii. scarcity of materials and equipment. <p>Interruptions to a customer's mining operations would limit the Company's revenue to any agreed fixed monthly charges. In addition, delays to the commencement of projects for which the Company has been contracted to provide rental equipment or maintenance services may occur as a result of the factors listed above or other factors beyond the control of the Company, such as the mining customer underestimating the lead time required to commence operations.</p> <p>Interruptions to existing operations or delays in commencing operations experienced by customers may result in lost revenue and, in some circumstances, result in the Company incurring additional costs, which may have a material adverse effect on the Company's future financial performance.</p>
<p>Workplace safety</p>	<p>The maintenance of mining equipment involves risks and dangers to the personnel involved, including the risk of personal injury and, in exceptional circumstances, loss of life associated with operating heavy machinery. Mining customers seeking rental solutions demand mining equipment to be in excellent operating condition and to have market leading safety features installed.</p> <p>It is possible that there may be accidents in the future in the operation of the mining equipment the Company supplies, which could result in a deterioration of its safety record. The Company's ability to supply safe rental equipment and onsite maintenance services to customers and to keep its employees safe is fundamental to the Company's business in a number of respects, including:</p> <ul style="list-style-type: none"> i. the Company's safety record is a key criterion that mining customers use when evaluating tenders for mining equipment rental and maintenance services, since mining customers must ensure their operations adhere to the highest safety standards; and ii. safety incidents may result in operations at the affected site being suspended while the incident is being investigated. <p>As a consequence, if the Company fails to supply equipment in excellent operating condition, conducts its onsite maintenance services in a safe manner or if accidents occur that are beyond its control, the Company may fail to win new contracts for equipment rental or maintenance services, fail to have existing contracts renewed, have existing contracts terminated or face increased competition if customers compare the Company's safety to its competitors.</p> <p>Any of these consequences could have a material adverse effect on the Company's operating and financial performance.</p>

RISK FACTORS

Business risks (continued)

Environmental risks	<p>Environmental management and compliance is an important part of the business of the Company's customers. The Company works with its customers to ensure that its equipment and maintenance services operate in alignment with their onsite policies, management systems and procedures.</p> <p>The Company's actions or failures to act may result in the mining customers for which it performs services incurring environmental liability, regulatory penalties, or having licenses suspended, cancelled or subjected to additional conditions. Some of the Company's customer contracts contain indemnities under which it is obliged to compensate the customer for certain losses resulting from environmental incidents for which the Company is responsible.</p> <p>As a result, environmental incidents may result in the Company incurring substantial obligations to compensate its customers which could have a material adverse effect on the Company's operational and financial performance.</p>
Market conditions	<p>Demand for the Company's mining equipment rental services depends in significant part upon the level of earth moving activities conducted by its customers, which are mining companies or contract miners, in the movement of overburden and mined resource.</p> <p>Due to the geographic and commodity mix of the Company's customers, revenues are indirectly exposed to the prices of gold, thermal and metallurgical coal, oil sands, iron ore and copper. In FY17, 40% of revenues were generated from the provision of mining equipment rental services to thermal coal mining customers, 15% to coking coal mining customers, 21% to copper mining customers, 19% to gold mining customers and 2% to iron ore mining customers.</p> <p>Activity levels and results of operations are dependent on the production levels at the mines where equipment is used and the volume of earth moved under the relevant mine plans. Customers' mining activities and the volume of earth moved by them, either temporarily or long term, is influenced by many factors, including the global demand for commodities, current and expected commodity prices, general economic conditions, and the application and impact of the local regulatory environment.</p> <p>If these drivers of earthmoving volumes are negatively impacted, this may lead to a decrease in the demand for the Company's equipment and the rental rates that the Company can charge of earthmoving volumes.</p> <p>Notwithstanding the recent increase in commodity prices, the occurrence of, timing and sustainability of a broad based market recovery is uncertain and even in the case where the recent strength in market conditions continues, the corresponding increase in earthmoving volumes and improvement in the Company's performance may be significantly delayed or short term in nature due to other factors such as market competition, difficulty in achieving synergies or the loss of key personnel.</p>

RISK FACTORS

Business risks (continued)

<p>Competition</p>	<p>There are two levels of competition that the Company experiences in the industry. The first is for the supply of equipment and if a customer would prefer to purchase equipment as opposed to rent equipment from a provider. The second level occurs when the customer has decided to pursue a rental solution as the Company operates in a highly competitive industry. There are a number of competitors, including contract miners and other earthmoving equipment rental suppliers, that currently provide services similar to those provided by the Company. These competitors may have significant additional capital, financial and other resources compared to the Company, impacting its ability to compete as successfully in the future as it has in the past. OEMs also compete directly with the Company.</p> <p>The Company generally competes on the basis of, among other things, reliability, price, service offerings and the age, mix and relative attractiveness of its rental equipment fleet. There can be no assurance that customers will agree to renew expiring contracts on terms acceptable to the Company or at all.</p>
<p>Contractual risks</p>	<p>The Company's revenue is dependent on winning new contracts and operates in an increasingly competitive market. It is difficult to predict whether and when new contracts will be awarded due to multiple factors influencing how customers evaluate potential service providers, such as rental rates, fleet quality, maintenance and safety standards, experience, reputation, customer relationships, financial strength, and ability to provide mining equipment rental services in a timely, safe, and cost-efficient manner.</p> <p>Consequently, the Company is subject to the risk of losing new awards to competitors which will adversely impact its business, results of operations and financial position.</p> <p>Operational and financial performance including cash flows may fluctuate from quarter to quarter depending on the timing and size of new contract awards. Additionally, increased competition and softer market conditions have limited the Company's negotiating power with customers on contract terms where even if the Company is successful in obtaining new contracts and awards, the new contracts may increasingly deviate from the standard terms that the Company seeks to obtain.</p> <p>Additionally, a significant portion of the Company's revenues are subject to short term contracts with varying terms and substantially all of customer contracts permit the customer to terminate the contract on short notice and without compensation for lost revenue. The term of the Company's customer contracts typically ranges from two to 36 months. The early termination of a contract by one or more of the Company's customers could have a material adverse effect on its business, results of operations and financial condition. If several of the Company's customers were to terminate their relationship with us or fail to renew an expiring contract, the Company's revenues and profits would be significantly adversely affected.</p> <p>Emeco also enters into contracts with its suppliers for the provision of mining equipment. A number of these contracts may be terminated for convenience by the supplier. There is a risk that suppliers may default on their obligations under contracts entered into with Emeco or terminate those supply arrangements and this may result in non-performance or delays in the provision of equipment to Emeco.</p> <p>Furthermore, certain of the Company's material contracts with both customers and suppliers contain provisions which allow a counterparty to terminate the contract as a result of the implementation of the Restructure and the Acquisitions or otherwise for convenience.</p> <p>The Company has sought the support of all counterparties to material contracts that contain provisions of this sort. Negotiations with these counterparties are ongoing however, to date, no counterparties have indicated that they will terminate such contracts as a result of implementation of the Restructure and the Acquisitions.</p>

RISK FACTORS

Business risks (continued)

<p>Indebtedness</p>	<p>The Company's gross debt position is approximately \$463 million of senior secured notes ("Notes") and approximately A\$9.8 million of finance leases. The Company also has up to A\$35 million in additional debt and A\$30 million in bank guarantee commitments under a \$65 million revolving loan facility. This level of total potential indebtedness has important consequences for the Company and its Shareholders, including the following:</p> <ul style="list-style-type: none"> i. requiring the Company to dedicate a material portion of its cash flow from operations to meet principal and interest payments thereby reducing the availability of cash flow to fund working capital, capital expenditures, acquisitions and other general corporate purposes; ii. increasing the Company's vulnerability to adverse general economic or industry conditions, commodity prices and exchange rate fluctuations; iii. subjecting the Company to a number of covenants and ongoing obligations which reduce its flexibility in planning for, or reacting to, changes in the Company's businesses or industry; and iv. placing the Company at a competitive disadvantage compared to its competitors that have less debt or are not subject to similar negative covenants.
<p>Debt servicing and refinancing risk</p>	<p>Emeco's Notes need to be fully repaid, renewed or refinanced on or before March 2022. The Company's \$65 million revolving loan facility will need to be fully repaid, renewed or refinanced in FY2020.</p> <p>The ability of the Company to repay or reschedule the Notes and the revolving loan facility will ultimately be contingent on mining and exploration market activity, commodity prices, AU\$/US\$ exchange rate outcomes, achievement of integration plans and forecast synergies, the ability of the Company to source additional funds through debt and equity markets and capital market risks at the time of refinancing.</p> <p>If market conditions deteriorate significantly against current projections a shortfall is likely.</p> <p>Accordingly, in these circumstances there would be significant uncertainty as to the Company's ability to fully repay, refinance or reschedule the outstanding Notes and the revolving loan facility at their respective maturity dates and therefore the Company's ability to continue as a going concern.</p> <p>As such, the Company would need to consider alternative financing arrangements prior to the maturity of those debt facilities, which may include refinancing or restructuring existing facilities, securing new facilities on acceptable terms or securing alternative funding (including potentially through raising additional shareholder equity). There is no guarantee that alternative financing arrangements would in these particular circumstances be successful.</p>
<p>Registration of Security Interests</p>	<p>Under Australian law, businesses that rent or lease equipment to customers, such as the Company does, can lose legal title to that equipment in certain circumstances where the customer who has rented that equipment becomes insolvent or goes into administration ("Insolvency Event"), and the owner of the equipment hasn't registered a security interest with respect to that equipment prior to that Insolvency Event. Additionally, registrations of security interests can be ineffective if the details provided in the registration do not satisfy legal requirements. While the Company has systems in place that are designed to ensure that effective registrations are made in a timely way, and these systems will be applied to Force Equipment, there is a risk that the Company may lose title to equipment that it would otherwise have title to, and the Company may be adversely affected as a result.</p>

RISK FACTORS

Business risks (continued)

Insurance risks	<p>Although insurance is maintained for ownership and rental of equipment within ranges of coverage consistent with industry practice, no assurance can be given that such insurance will be available in the future on commercially reasonable terms or that any cover will be adequate and available to cover any or all claims. Insurance of all of the risks associated with equipment rental or maintenance services is not always available and, where available, the costs can be prohibitive. Furthermore the Company's insurance does not cover its fleet while it is rented at a customer's site and, in such circumstances, the Company is reliant on the customer's insurance policies or credit quality to compensate it in the event of a loss. If the Company incurs uninsured losses or liabilities, its operating and financial performance may be adversely affected.</p>
Regulatory risks	<p>Changes in legislative and administrative regimes, taxation laws, interest rates, other legal and government policies in Australia may have an adverse effect on the assets, operations and ultimately the financial performance of the Company and the market price of Shares.</p>
Claims, liability and litigation	<p>The Company may have disputes with counterparties in respect of major contracts, or may be exposed to customer or environmental, occupational health and safety or other claims. The Company may incur costs in defending or making payments to settle any such claims, which may not be adequately covered by insurance or at all. Such payments may have an adverse impact on the Company's profitability or financial position.</p>
Foreign exchange risks	<p>The majority of the Company's debt is denominated in U.S. dollars. Although steps may be undertaken to manage currency risk (for example via hedging strategies), adverse movements in the Australian dollar against the US dollar may have an adverse impact on the Company and result in an increase in the Company's debt in Australian dollar terms. For example, a weakening of the Australian dollar as compared to the U.S. dollar would have the effect of increasing the Australian dollar value of the U.S. dollar denominated debt. Combined with other factors, this could lead to a deterioration in the Company's operating and financial performance.</p> <p>The Company is also exposed to foreign currency risk on equipment purchases, which are primarily denominated in U.S. dollars. The Company does not hedge its translated foreign currency exchange rate exposure in relation to operations.</p> <p>The Company's investments in its subsidiaries and their earnings are also not hedged as these currency positions are considered long term in nature. Fluctuations in foreign currency exchange rates may also make period to period comparisons of results of operations difficult.</p>

RISK FACTORS

Risks related to the Acquisition of Force Equipment

Completion risk	<p>Emeco may terminate the Acquisition agreement in certain circumstances including where there is a material adverse change in Force Equipment or where Emeco receives notice in writing from the ACCC stating that the ACCC proposes to intervene to seek to prevent the transaction. If these termination rights are exercised, completion of the Acquisition may not occur.</p> <p>The pending conditionality of the Acquisition over an extended period could adversely affect the business and operations of Force Equipment, including as a result of the potential impact on relationships with clients, suppliers and other counterparties, and provide an opportunity for competitors.</p> <p>Further, if the Acquisition is not completed as a result of a failure in satisfaction of the conditions precedent or exercise of termination rights, Emeco will need to consider alternative uses for the proceeds from the Entitlement Offer, including applying them towards debt reduction, working capital, review of alternative investment opportunities, and/or ways to return the proceeds from the Entitlement Offer to shareholders.</p> <p>Any failure to consummate the Acquisition could materially and adversely affect Emeco and the price of its shares.</p>
Reliance on information provided	<p>The FY17 financial information relating to Force Equipment in this presentation is unaudited and based on the unaudited management accounts of Force Equipment. Accordingly, investors should not rely on this information. Further, the pro forma financial information in this presentation in respect of both Force Equipment and Emeco is subject to a number of assumptions and has not been subject to audit and may not be indicative of actual results.</p> <p>A material unidentified misstatement of the recent financial performance of Force Equipment could potentially have a material adverse impact on the Company into the future. Emeco undertook a due diligence process in respect of Force Equipment, which relied in part on the review of legal and other information provided by Force Equipment. While Emeco considers the due diligence process undertaken to be appropriate, Emeco has not been able to verify the accuracy, reliability or completeness of all the information which was provided to it against independent data. Similarly, Emeco has presented (and made assumptions in doing so) the financial information relating to Force Equipment on a stand-alone basis and also on a combined basis (with Emeco post-completion).</p> <p>If any of the data or information provided to and relied upon by Emeco in its due diligence process and its preparation of this presentation proves to be incomplete, incorrect, inaccurate or misleading, there is a risk that the actual financial position and performance of Emeco may be materially different to the financial position and performance expected by Emeco and reflected in this Presentation.</p> <p>Shareholders should also note that there is no assurance that the due diligence conducted in respect of Force Equipment was conclusive and that all material issues and risks in respect of the Acquisition have been identified and avoided or managed appropriately. Therefore, there is a risk that unforeseen issues and risks may arise, which may also have a material impact on Emeco (for example, Emeco may later discover liabilities or defects which were not identified through due diligence or for which there is no protection for Emeco). This could adversely affect the operations, financial performance or position of Emeco. Further, the information reviewed by Emeco includes forward looking information. While Emeco has been able to review some of the foundations for the forward looking information relating to Force Equipment, forward looking information is inherently unreliable and based on assumptions that may not be achieved or satisfied in the future.</p>

RISK FACTORS

Risks related to the Acquisition of Force Equipment (continued)

Integration risk	<p>The Acquisition involves the integration of Force Equipment which has previously operated independently to Emeco. As a result, there is a risk that the integration of Force Equipment may be more complex than anticipated, encounter unexpected challenges or issues and take longer than expected, divert management attention or not deliver the expected benefits and this may affect Emeco's operating and financial performance. Further, the integration of Force's accounting functions may lead to revisions, which may impact on the Emeco Group's reported financial results</p>
Loss of Force Equipment personnel	<p>While Emeco is committed to providing a continued attractive employment environment, conditions and prospects to assist in the retention of Force Equipment's key management personnel throughout the Acquisition process, there can be no assurance that there will be no loss of key staff leading up to and following the Acquisition by Emeco of Force Equipment.</p>
Historical liability	<p>If the Acquisition of Force Equipment completes, Emeco may become directly or indirectly liable for any liabilities that Force Equipment has incurred in the past as a result of prior acts or omissions, including liabilities which were not identified during Emeco's due diligence or which are greater than expected, and for which the various forms of protections negotiated by Emeco in its agreement to acquire Force Equipment (in the form of insurance, representations and warranties and indemnities) turn out to be inadequate in the circumstances. Such liability may adversely affect the financial performance or position of Emeco post-Acquisition.</p>
Future earnings and acquisition accounting risk	<p>Emeco has undertaken financial and business analysis of Force Equipment in order to determine its attractiveness to Emeco and whether to pursue the Acquisition. To the extent that the actual results achieved by Force are weaker than that anticipated, or any difficulties arise in integrating the operations of Force with those of Emeco, there is a risk that the profitability and future earnings of the operations of Emeco may differ (including in a materially adverse way) from the pro forma performance as reflected in this presentation.</p> <p>Following completion of the Acquisition, Emeco will undertake a formal fair value assessment of all of the assets, liabilities and contingent liabilities of Emeco. The pro forma adjustments to reflect the estimated financial effect of the accounting for the business combination in this presentation are illustrative only. Australian Accounting Standards require the determination of fair value of identifiable assets and liabilities acquired. The inclusion of Force Equipment reflects provisional amounts for the assets and liabilities acquired based on historic costs other than goodwill. Post Acquisition, a purchase price allocation exercise will be undertaken which may identify amortisable intangibles and impact future depreciation and amortisation charges. Additionally, the allocation exercise may give rise to material differences in values allocated to the balance sheet.</p>

RISK FACTORS

Risks related to the Acquisition of Force Equipment (continued)

<p>Acquisition accounting</p>	<p>In accordance with AASB 3, Force Equipment's identifiable assets, liabilities and contingent liabilities, including intangible assets, must be identified and valued as at the Acquisition date. The purchase price is then allocated across the fair value of these assets, liabilities and contingent liabilities with any residual recognised as goodwill. The valuation of intangible assets is a complex and time-consuming process that may require specialist skills and detailed information about the business, which will become available to Emeco following completion of the Acquisition. In addition, each of the identified intangibles acquired may have a limited life and must be amortised over that life in contrast to goodwill, which is subject to annual impairment review. Indefinite life intangibles are not amortised and are reviewed for impairment annually. A detailed identification and valuation process will therefore be undertaken after the Acquisition completes. The examples provided below are not intended to be an exhaustive list of items acquired in a business combination that meet the definition of an intangible asset. However they provide an indication of the types of intangibles that may be acquired as part of the Acquisition including client contracts.</p> <p>Under AASB 3, the Company has up to 12 months from the date of Acquisition during which retrospective adjustments can be made to the provisional Acquisition accounting. The Company has not completed an exercise to consider the fair value of the tangible and identifiable intangible assets and the liabilities acquired along with any related deferred tax amounts. No value has been attributed to potential carry forward tax losses or deferred tax liabilities related to intangible assets for the purposes of the pro forma historical statement of financial position. Accordingly, adjustments will impact the recorded amounts of assets and liabilities of the Company and will have an impact on depreciation and amortisation charges in future financial periods and therefore impact earnings before interest and tax ("EBIT") and net profit after tax ("NPAT").</p>
<p>Contract termination / Reduction in contract scope</p>	<p>Force Equipment's revenues are subject to underlying contracts with varying terms. There is a risk that Force Equipment's contracts may be cancelled or may not be renewed if customers decide to reduce their levels of spending, potentially reducing their revenue. Most of these contracts can be terminated at the customer's convenience.</p> <p>Contract operations are vulnerable to the risk of interruption as a result of a variety of factors, which may be beyond Emeco's control, including the following:</p> <ul style="list-style-type: none"> • variations to reduce scope of works; • prolonged heavy rainfall or cyclone; • geological instability, including strong seismic activity, landslides, mudslides, rock falls, cave-ins, or conditions that threaten to result in such an event; • accidents or unsafe conditions; • equipment breakdowns; • industrial relations issues; and • scarcity of materials and equipment. <p>If Force Equipment does not perform its obligations under a contract in accordance with the terms of the contract, Force Equipment is at risk that the contract will be terminated.</p> <p>Any such performance issue may result in contract guarantees being relied upon by its clients and could also adversely affect Force Equipment's reputation in the marketplace which could adversely impact its ability to secure new contracts.</p> <p>In addition, Force Equipment's contracts may be subject to termination for convenience by clients without cause. In the event of a contract termination, Emeco may not be able to redeploy the assets and resources used on that project to other projects on the same terms or at all and may experience downtime between demobilisation and redeployment. Any of these factors could materially adversely affect Emeco's margins and results of operations.</p>

RISK FACTORS

Risks associated with the Entitlement Offer and Share ownership

<p>Risks associated with an investment in Shares</p>	<p>There are general risks associated with investments in equity capital such as Emeco shares. The trading price of Emeco shares may fluctuate with movements in equity capital markets in Australia and internationally. This may result in the market price for the New Shares being less or more than the price under the Entitlement Offer. Generally applicable factors that may affect the market price of shares include:</p> <ul style="list-style-type: none"> • general movements in Australian and international stock markets; • investor sentiment; • Australian and international economic conditions and outlook; • changes in interest rate and the rate of inflation; • changes in government legislation and policies, in particular taxation laws; • announcement of new technologies; • geo-political instability, including international hostilities and acts of terrorism; • demand for and supply of Emeco securities; • announcements and results of competitors; • analyst reports; and • future issues of Emeco securities <p>No assurances can be given that the New Shares will trade at or above the Entitlement Offer price. None of Emeco, its directors or any other person guarantees the market performance of the New Shares.</p> <p>The operational and financial performance and position of Emeco and Emeco's share price may be adversely affected by a worsening of general economic conditions in Australia, as well as international market conditions and related factors. It is also possible that new risks might emerge as a result of Australian or global markets experiencing extreme stress or existing risk, may manifest themselves in ways that are not currently foreseeable. The equity markets have in the past and may in the future be subject to significant volatility.</p>
<p>Sell-down by Emeco's substantial shareholders</p>	<p>There is a risk that Emeco's substantial shareholders (including Directors) may seek to sell down their shareholdings in Emeco. A significant sale of shares, or a perception that a sell-down may occur, could adversely affect the price of Emeco's shares.</p>
<p>Economic risk and external market factors</p>	<p>Various factors including political movements, stock market trends, changing customer preferences, interest rates, inflation levels, commodity prices, foreign exchange rates, industrial disruption, environmental impacts, international competition, taxation changes and legislative or regulatory changes, may have an adverse impact on the Company's operating costs, profit margins and Share price. These factors are beyond the control of the Company and it cannot, to any degree of certainty, predict how they will impact on the Company.</p> <p>Prolonged deterioration in general economic conditions could potentially have an adverse impact on the Company and its operations and may adversely impact the trading price of Emeco shares.</p>

RISK FACTORS

Risks associated with the Entitlement Offer and Share ownership (continued)

Change in accounting or financial reporting standards	Changes in accounting or financial reporting standards may adversely impact the reported financial performance of the Emeco Group.
War and terrorist attacks	War or terrorist attacks anywhere in the world could result in a decline in economic conditions worldwide or in a particular region. There could also be a resultant material adverse effect on the business, financial condition and financial performance of the Company and may adversely impact the trading price of Emeco shares.
Negative publicity	The Emeco Group will be subject to the risk that negative publicity, whether true or not, may affect stakeholder perceptions of the Emeco Group's past actions and future prospects. Being listed on the ASX means that the Emeco Group will be subject to risks relating to market expectations for its business and financial and operating performance. If the Emeco Group does not manage these expectations in an effective manner, it could give rise to loss of investor confidence in its business and management and may adversely impact the trading price of Emeco shares.
Changes in taxation laws	Variation in the taxation laws affecting the Emeco Group's operations could materially affect financial performance and may adversely impact the trading price of Emeco shares. The interpretation of these laws could also change, leading to a change in the taxation treatment of investments or activities.
Credit rating risk	Credit ratings are subject to revision, suspension or withdrawal at any time by the assigning rating agency. Rating agencies may also revise or replace entirely the methodology applied to derive credit ratings. No assurances can be given that a credit rating will remain for any period of time or that a credit rating will not be lowered or withdrawn entirely by the rating agency if in its judgement circumstances in the future so warrant, or if a different methodology is applied to derive that credit rating. Any downgrade to Emeco's credit rating could impact Emeco's ability to obtain financing, increase its future financing costs, impact its ability to access capital markets and/or have an adverse effect on the market price of Emeco's shares.

RISK FACTORS

Risks associated with the Entitlement Offer and Share ownership (continued)

<p>Underwriting risk</p>	<p>The Underwriting Agreement relating to the Entitlement Offer sets out various events, the occurrence of which will entitle the Underwriters to terminate the Underwriting Agreement. Accordingly, there is a risk that the Underwriters may terminate their obligations under the Underwriting Agreement if any such events occur. These events include where:</p> <ul style="list-style-type: none"> • any of the offer documents (including this Investor Presentation and all ASX announcements made in connection with the Equity Raising) omit certain material required by the Corporations Act, contain a statement which is misleading or deceptive, or the cleansing notice lodged by Emeco in respect of the Entitlement Offer is "defective" within the meaning of the Corporations Act; • there are certain delays in the timetable for the Entitlement Offer without the Underwriters' consent; • Emeco ceases to be admitted to the official list of ASX or its ordinary shares are suspended from trading or quotation; • Emeco withdraws the Entitlement Offer; • the Acquisition agreement is terminated or rescinded, breached in a material respect or a condition precedent to any party's obligations under the Acquisition agreement becomes incapable of being satisfied; • there is a material adverse change in the assets, liabilities, financial position or performance, profits, losses or prospects of the Emeco Group; • the S&P/ASX 200 Index falls by 10% or more from its reference level and closes at that level for 2 consecutive business days or more; and • ASIC takes certain regulatory action in respect of the Company or the Offer. <p>The ability of the Underwriters to terminate the Underwriting Agreement in respect of some events (including breach of the Underwriting Agreement by Emeco, market disruption, hostilities or regulatory action) will depend (amongst other things) on whether the event has or is likely to have a material adverse effect on the success or settlement of the Entitlement Offer, the price at which New Shares may trade on the ASX or could reasonably be expected to give rise to a contravention by, or liability for, an Underwriter under applicable law.</p> <p>If the Underwriting Agreement is terminated for any reason, then Emeco may not receive the full amount of the proceeds expected under the Entitlement Offer, its financial position may change and it may need to take other steps to raise debt or equity capital in order to fund and complete the Acquisition.</p>
<p>Risks associated with not taking up your rights under the Entitlement Offer</p>	<p>If you do not take up all of your entitlements to acquire New Shares under the Entitlement Offer, your percentage shareholding in Emeco will be diluted by not participating to the full extent in the Entitlement Offer. As the Entitlement Offer is non-renounceable, you will not receive any value for entitlements you do not take up.</p>

No prospectus has been, or will be, filed in the Provinces with respect to the offering of New Shares or the resale of such securities. Any person in the Provinces lawfully participating in the offer will not receive the information, legal rights or protections that would be afforded had a prospectus been filed and accepted by the securities regulator in the applicable Province. Statutory rights of action for damages and rescission

Securities legislation in certain of the Provinces may provide purchasers with, in addition to any other rights they may have at law, rights of rescission or to damages, or both, when an offering memorandum that is delivered to purchasers contains a misrepresentation. These rights and remedies must be exercised within prescribed time limits and are subject to the defenses contained in applicable securities legislation. Prospective purchasers should refer to the applicable provisions of the securities legislation of their respective Province for the particulars of these rights or consult with a legal adviser.

The following is a summary of the statutory rights of rescission or to damages, or both, available to purchasers in Ontario. In Ontario, every purchaser of the New Shares purchased pursuant to this document (other than (a) a "Canadian financial institution" or a "Schedule III bank" (each as defined in NI 45-106), (b) the Business Development Bank of Canada or (c) a subsidiary of any person referred to in (a) or (b) above, if the person owns all the voting securities of the subsidiary, except the voting securities required by law to be owned by the directors of that subsidiary) shall have a statutory right of action for damages and/or rescission against the Company if this document or any amendment thereto contains a misrepresentation. If a purchaser elects to exercise the right of action for rescission, the purchaser will have no right of action for damages against the Company. This right of action for rescission or damages is in addition to and without derogation from any other right the purchaser may have at law. In particular, Section 130.1 of the Securities Act (Ontario) provides that, if this document contains a misrepresentation, a purchaser who purchases the New Shares during the period of distribution shall be deemed to have relied on the misrepresentation if it was a misrepresentation at the time of purchase and has a right of action for damages or, alternatively, may elect to exercise a right of rescission against the Company, provided that (a) the Company will not be liable if it proves that the purchaser purchased the New Shares with knowledge of the misrepresentation; (b) in an action for damages, the Company is not liable for all or any portion of the damages that the Company proves does not represent the depreciation in value of the New Shares as a result of the misrepresentation relied upon; and (c) in no case shall the amount recoverable exceed the price at which the New Shares were offered.

Section 138 of the Securities Act (Ontario) provides that no action shall be commenced to enforce these rights more than (a) in the case of any action for rescission, 180 days after the date of the transaction that gave rise to the cause of action or (b) in the case of any action, other than an action for rescission, the earlier of (i) 180 days after the purchaser first had knowledge of the fact giving rise to the cause of action or (ii) three years after the date of the transaction that gave rise to the cause of action. These rights are in addition to and not in derogation from any other right the purchaser may have.

6.0 IMPORTANT INFORMATION

This Offer Booklet (including the ASX announcements in Section 5) and enclosed personalised Entitlement and Acceptance Form (**Information**) have been prepared by Emeco.

This Information is dated Tuesday 7 November 2017 (other than the Emeco Investor Presentation and the Entitlement Offer Announcement, published on the ASX website on Tuesday 31 October 2017) and also available at www.emecogroup.com. This Information remains subject to change without notice and Emeco is not responsible for updating this Information.

There may be additional announcements made by Emeco after the date of this Offer Booklet and throughout the period that the Entitlement Offer is open that may be relevant to your consideration of whether to take up, sell or transfer or do nothing in respect of, your Entitlement. Therefore, it is prudent that you check whether any further announcements have been made by Emeco (by visiting the ASX website at www.asx.com.au, or Emeco's website at www.emecogroup.com) before submitting your application to take up your Entitlement, or selling or transferring your Entitlement.

No party other than Emeco has authorised or caused the issue of this Information, or takes any responsibility for, or makes, any statements, representations or undertakings in this Information.

This Information is important and requires your immediate attention

You should read this Information carefully and in its entirety before deciding how to deal with your Entitlement. In particular, you should consider the risk factors outlined in the "Key Risks" section of the Emeco Investor Presentation included in Section 5 of this Offer Booklet, any of which could affect the operating and financial performance of Emeco or the value of an investment in Emeco.

You should consult your stockbroker, solicitor, accountant, financial adviser or other professional adviser to evaluate whether or not to participate in the Entitlement Offer.

6.1 Eligible Retail Shareholders

This Information contains an offer of New Shares to Eligible Retail Shareholders in Australia and has been prepared in accordance with section 708AA of the Corporations Act as notionally modified by ASIC.

Eligible Retail Shareholders are those persons who:

- are registered as a holder of Shares as at the Record Date, being 7.00pm (Sydney time) on Thursday 2 November 2017;
- have a registered address on the Emeco Share Registry in Australia or New Zealand, or are a Shareholder that Emeco has otherwise decided is entitled to participate;
- are not in the United States and are not acting for the account or benefit of a person in the United States (to the extent such person holds Shares for the account or benefit of such person in the United States);
- were not invited to participate in the Institutional Entitlement Offer and were not treated as an Ineligible Institutional Shareholder; and
- are eligible under all applicable securities laws to receive an offer under the Entitlement Offer.

Shareholders who are not Eligible Retail Shareholders are Ineligible Retail Shareholders. Emeco reserves the right to determine whether a shareholder is an Eligible Retail Shareholder or an Ineligible Retail Shareholder.

By returning a completed personalised Entitlement and Acceptance Form or making a payment by BPAY®, you will be taken to have represented and warranted that you satisfy each of the criteria listed above to be an Eligible Retail Shareholder. Nominees, trustees or custodians are therefore advised to seek independent professional advice as to how to proceed.

6.2 Ranking of New Shares

New Shares issued under the Entitlement Offer will be fully paid and rank equally in all respects with existing shares. The rights and liabilities attaching to the New Shares are set out in Emeco's constitution, a copy of which is available at www.emecogroup.com.

6.3 Risks

The Emeco Investor Presentation details important factors and risks that could affect the financial and operating performance of Emeco. You should refer to the "Key Risks" section of the Investor Presentation released to ASX on Tuesday 31 October 2017 which is included in Section 5 of this Offer Booklet. You should consider these factors in light of your personal circumstances, including financial and taxation issues, before making a decision in relation to your Entitlement.

6.4 Reconciliation, Top-Up Shares and the rights of Emeco and the Underwriters

The Entitlement Offer is a complex process and in some instances investors may believe that they will own more Emeco shares than they ultimately did as at the Record Date or are otherwise entitled to more New Shares than initially offered to them. In addition, where trustees of Emeco's employee share plans hold shares on behalf of participants in those plans, the number of New Shares that are offered may need to increase to take account of the rounding referred to in Section 6.6. These matters may result in a need for reconciliation. If reconciliation is required, it is possible that Emeco may need to issue additional New Shares (**Top-Up Shares**) to ensure that the relevant investors receive their appropriate allocation of New Shares. The price at which these Top-Up Shares would be issued is not known.

Emeco also reserves the right to reduce the size of an Entitlement or number of New Shares allocated to Eligible Shareholders, or persons claiming to be Eligible Shareholders or other applicable investors, if Emeco believes in its complete discretion that their claims are overstated or if they or their nominees fail to provide information requested to substantiate their claims. In that case, Emeco may, in its discretion, require the relevant shareholder to transfer excess New Shares to the Underwriters at the Offer Price per New Share. If necessary, the relevant shareholder may need to transfer existing Shares held by them or to purchase additional Shares on-market to meet this obligation. The relevant shareholder will bear any and all losses caused by subscribing for New Shares in excess of their Entitlement and any actions they are required to take in this regard.

By applying under the Entitlement Offer, those doing so irrevocably acknowledge and agree to do the above as required by Emeco in its absolute discretion. Those applying acknowledge that there is no time limit on the ability of Emeco or the Underwriters to require any of the actions set out above.

6.5 No cooling off rights

Cooling off rights do not apply to an investment in New Shares. You cannot withdraw your application once it has been accepted.

6.6 Rounding off Entitlements

Where fractions arise in the calculation of an Entitlement, they will be rounded up to the nearest whole number of New Shares.

6.7 Quotation and trading of New Shares

Emeco has applied for quotation of the New Shares on ASX in accordance with the Listing Rule requirements. If ASX does not grant quotation of the New Shares, Emeco will repay all Application Monies (without interest). It is expected that trading on the ASX of New Shares to be issued under the Retail Entitlement Offer will commence at 10.00am (Sydney time) on Tuesday 28 November 2017 on a normal settlement basis. Application Monies will be held by Emeco on trust for applicants until the New Shares are allotted. No interest will be paid on Application Monies.

It is the responsibility of applicants to determine the number of New Shares allotted and issued to them prior to trading in the New Shares. Emeco will have no responsibility and disclaims all liability (to the maximum extent permitted by law) to persons who trade New Shares they believe will be issued to them before they receive their holding statements, whether on the basis of confirmation of the allocation provided by Emeco or failure to maintain their updated details on the Emeco Share Registry or otherwise, or who otherwise trade or purport to trade New Shares in error or which they do not hold or are not entitled to.

If you are in any doubt as to these matters, you should first consult with your stockbroker, solicitor, accountant, financial adviser or other professional adviser.

6.8 Notice to nominees and custodian

If Emeco believes you hold Shares as a nominee or custodian you will have received, or will shortly receive, a letter in respect of the Retail Entitlement Offer. Nominees and custodians should consider carefully the contents of that letter.

Persons acting as nominees for other persons must not take up Entitlements on behalf of, or send any documents related to the Entitlement Offer to, any person in the United States or any person that is acting for the account or benefit of a person in the United States. Persons in the United States and persons acting for the account or benefit of persons in the United States will not be able to take up or exercise Entitlements and may receive no value for any such Entitlements held.

Emeco is not required to determine whether or not any registered holder or investor is acting as a nominee or custodian or the identity or residence of any beneficial owners of Shares or Entitlements. Where any person is acting as a nominee or custodian for a foreign person, that person, in dealing with its beneficiary, will need to assess whether indirect participation in the Entitlement Offer by the beneficiary complies with applicable foreign laws. Emeco is not able to advise on foreign laws.

6.9 Not investment advice

This Offer Booklet is not a prospectus, product disclosure statement or other form of disclosure document under the Corporations Act and has not been lodged with ASIC. It is also not financial product advice and has been prepared without taking into account your investment objectives, financial circumstances or particular needs. Emeco is not licensed to provide financial product advice in respect of the New Shares. This Information does not purport to contain all the information that you may require to evaluate a possible application for New Shares, nor does it purport to contain all the information which would be required in a prospectus prepared in accordance with the requirements of the Corporations Act. It should be read in conjunction with Emeco's other periodic statements and continuous disclosure announcements lodged with ASX, which are available at www.emecogroup.com.

Before deciding whether to apply for New Shares, you should consider whether they are a suitable investment for you in light of your own investment objectives and financial circumstances and having regard to the merits or risks involved. If, after reading the Information, you have any questions about the Entitlement Offer, you should contact your stockbroker, solicitor, accountant, financial adviser or other professional adviser or call the Emeco Shareholder Information Line on 1800 689 300 (within Australia) or +61 1800 689 300 (outside Australia) between 8.30am and 5.30pm (Sydney time), Monday to Friday.

Nominees and custodians may not distribute any part of this Offer Booklet in the United States or in any other country outside Australia except (i) Australian nominees may send this Offer Booklet and related offer documents to beneficial shareholders who are professional or institutional shareholders in other countries (other than the United States) listed in, and to the extent permitted under, the "International Offer Restrictions" set out in Appendix B of the Emeco Investor Presentation included in Section 5 of this Offer Booklet and (ii) to beneficial shareholders in other countries (other than the United States) where Emeco may determine it is lawful and practical to make the Entitlement Offer.

6.10 Information availability

If you are in Australia you can obtain a copy of this Offer Booklet during the Entitlement Offer by calling the Emeco Shareholder Information Line on 1800 689 300 (within Australia) or +61 1800 689 300 (outside Australia) between 8.30am and 5.30pm (Sydney time), Monday to Friday.

6.11 Foreign jurisdictions

This Information has been prepared to comply with the requirements of the securities laws of Australia. To the extent that you hold Shares or Entitlements on behalf of another person resident outside Australia, it is your responsibility to ensure that any participation (including for your own account or when you hold Shares or Entitlements beneficially for another person) complies with all applicable foreign laws and that each beneficial owner on whose behalf you are submitting the personalised Entitlement and Acceptance Form is not in the United States and not acting for the account or benefit of a person in the United States.

This Offer Booklet does not constitute an offer in any jurisdiction in which, or to any person to whom, it would not be lawful to make such an offer. No action has been taken to register or qualify the Entitlement Offer, the Entitlements or the New Shares, or otherwise permit the public offering of the New Shares, in any jurisdiction other than Australia.

The distribution of this Information (including an electronic copy) outside Australia may be restricted by law. If you come into possession of this Information, you should observe such restrictions and should seek your own advice on such restrictions. See the foreign selling restrictions set out in "Appendix B: International Offer Restrictions" of the Emeco Investor Presentation included in Section 5 of this Offer Booklet for more information.

Any non-compliance with these restrictions may contravene applicable securities laws.

New Zealand

The New Shares are not being offered to the public within New Zealand other than to existing shareholders of Emeco with registered addresses in New Zealand to whom the offer of these securities is being made in reliance on the provisions of the Financial Markets Conduct Act 2013 (New Zealand) and the Financial Markets Conduct (Incidental Offers) Exemption Notice 2016 (New Zealand).

This document has been prepared in compliance with Australian law and has not been registered, filed with or approved by any New Zealand regulatory authority. This document is not a product disclosure statement under New Zealand law and is not required to, and may not, contain all the information that a product disclosure statement under New Zealand law is required to contain.

United States

This document does not constitute an offer to sell, or a solicitation of an offer to buy, securities in the United States. The New Shares have not been, and will not be, registered under the US Securities Act of 1933 and may not be offered or sold in the United States except in transactions exempt from, or not subject to, the registration requirements of the US Securities Act and applicable US state securities laws.

6.12 Underwriting of the Entitlement Offer

Emeco has entered into an underwriting agreement (**Underwriting Agreement**) with the Underwriters who have agreed, subject to the satisfaction of certain conditions precedent, to fully underwrite the Entitlement Offer. As is customary with these types of arrangements:

1. the obligation to underwrite is subject to the satisfaction of certain conditions precedent, including the delivery of certain due diligence materials, execution of the Acquisition Agreement, and the ASX not indicating that it will refuse quotation of the New Shares;
2. Emeco has agreed, subject to certain carve-outs, to indemnify each Underwriter, their respective affiliates and related bodies corporate and each of their respective directors, officers, and employees against all costs, claims, damages, liabilities or other losses or expenses of any kind it may suffer or incur in connection with the Entitlement Offer; and
3. Emeco and the Underwriters have given certain representations, warranties and undertakings in connection with (among other things) the Entitlement Offer.

The Underwriters may (in certain circumstances, having regard to the materiality of the relevant event), terminate the Underwriting Agreement and be released from its obligations under it on the occurrence of certain events, including (but not limited to) where:

- any offer document (including this Retail Offer Booklet and all ASX announcements made in connection with the Entitlement Offer) omit certain material required by the Corporations Act, contain a statement which is misleading or deceptive or likely to mislead or deceive, or the cleansing notice lodged by Emeco in respect of the Entitlement Offer is "defective" within the meaning of the Corporations Act;
- there are certain delays in the timetable for the Entitlement Offer without each Underwriter's consent;
- ASIC takes certain actions in connection with the Entitlement Offer;
- Emeco is removed from the official list of ASX, its shares are suspended from quotation, or approval for quotation of New Shares is not given by the ASX;
- the Acquisition agreement is terminated or rescinded, breached in a material respect or a condition precedent to any party's obligations under the Acquisition agreement becomes incapable of being satisfied;
- there is a material adverse change in the assets, liabilities, financial position or performance, profits, losses or prospects of the Emeco group;
- the S&P/ASX 200 Index falls by 10% or more from its reference level and closes at that level for 2 consecutive business days or more;
- ASIC takes certain regulatory action in respect of the Company or the Offer;
- there are material financial or economic disruptions in key markets; or
- Emeco breaches the terms of the Underwriting Agreement.

The ability of the Underwriters to terminate the Underwriting Agreement in respect of some events (including breach of the Underwriting Agreement by Emeco, market disruption, hostilities or regulatory action) will depend (amongst other things) on whether the event has or is likely to have a material adverse effect on the success or settlement of the Entitlement Offer, the price at which New Shares may trade on the ASX or could reasonably be expected to give rise to a contravention by, or liability for, an Underwriter under applicable law.

Each Underwriter will be paid in their respective proportions, in relation to the Entitlement Offer, an underwriting fee of 2.6% and a management fee of 0.4% of the gross proceeds of the Entitlement Offer. The Underwriters will also be reimbursed for certain expenses.

Neither the Underwriters nor any of their respective related bodies corporate and affiliates, nor any of their respective directors, officers, partners, employees, representatives or agents have authorised or caused the issue of this Information and they do not take any responsibility for this Information or any action taken by you on the basis of such information. To the maximum extent permitted by law, each of the Underwriters and their respective related bodies corporate and affiliates and each of their respective directors, officers, partners, employees, representatives or agents exclude and disclaim all liability for any expenses, losses, damages or costs incurred by you as a result of your participation in the Entitlement Offer and this Information being inaccurate or incomplete in any way for any reason, whether by negligence or otherwise. Neither each respective Underwriter nor any of their respective related bodies corporate and affiliates, nor any of their respective directors, officers, partners, employees, representatives or agents make any recommendations as to whether you or your related parties should participate in the Entitlement Offer, nor do they make any representations or warranties to you concerning this Entitlement Offer or any such information, and you represent, warrant and agree that you have not relied on any statements made by either Underwriter or any of their respective related bodies corporate and affiliates or any of their respective directors, officers, partners, employees, representatives or agents in relation to the New Shares or the Entitlement Offer generally.

6.13 Governing law

This Information, the Entitlement Offer and the contracts formed on acceptance of the Entitlement and Acceptance Forms are governed by the laws applicable in New South Wales, Australia. Each applicant for New Shares submits to the non-exclusive jurisdiction of the courts of New South Wales, Australia.

6.14 Disclaimer or representations

No person is authorised to give any information, or to make any representation, in connection with the Entitlement Offer that is not contained in this Information.

Any information or representation that is not in this Information may not be relied on as having been authorised by Emeco, or its related bodies corporate, in connection with the Entitlement Offer. Except as required by law, and only to the extent so required, none of Emeco, nor any other person, warrants or guarantees the future performance of Emeco or any return on any investment made pursuant to this Information or its content.

6.15 Withdrawal of the Entitlement Offer

Emeco reserves the right to withdraw all or part of the Entitlement Offer and this Information at any time, subject to applicable laws, in which case Emeco will refund Application Monies in relation to New Shares not already issued in accordance with the Corporations Act and without payment of interest. In circumstances where allotment under the Institutional Entitlement Offer has occurred, Emeco may only be able to withdraw the Entitlement Offer with respect to New Shares to be issued under the Entitlement Offer.

To the fullest extent permitted by law, you agree that any Application Monies paid by you to Emeco will not entitle you to receive any interest and that any interest earned in respect of Application Monies will belong to Emeco.
