

ASX RELEASE | Schrole Group Limited (ASX:SCL)

Schrole Accelerates Expansion through Commercial Partnership with Sentral

Highlights

- Schrole signs binding term sheet with Sentral, a software company that provides student information systems and administration solutions to schools
- Sentral currently has over 1,900 schools across Australia using its software solutions
- Schrole Cover will be integrated into Sentral's web-based student information system
- Schrole will receive a fee per student from each school that activates the system
- Partnership with Sentral accelerates Schrole Cover's expansion into Australia's east coast market

Tuesday, 21 November 2017: Australian education and technology company **Schrole Group Limited (ASX:SCL)** ("**Schrole**") is pleased to announce that it has signed a binding term sheet with Sentral Pty Ltd ("**Sentral**").

The agreement covers the integration of Schrole Cover into Sentral's web-based software solution, which manages school administration, student information and related functions. Schrole Cover will be white labelled as "Casual Cover".

Sentral is an Australian based education services company focussed on providing integrated student management and information solutions for schools. Sentral's school administration software is specifically designed for school environments and used by over 1,900 schools across Australia.

Under the agreement, Schrole will receive a fee per student from Sentral for each school that activates Schrole Cover. Sentral will remain responsible for the sales and marketing to their current and future clients. The agreement applies to:

- All existing schools using the Sentral software, over 1,900 schools across Australia of which over 1,500 are in New South Wales;
- A New South Wales Government tender specifically for Casual Cover for over 300 schools; and
- A South Australian Government tender for up to 900 schools and kindergartens.

The agreement with Sentral continues Schrole's expansion into Australia's east coast market which began earlier this year with contracts in New South Wales and Victoria.

Schrole Cover saw a 35% increase in licenses in the three months ending October and versions of the software are being used in other sectors including healthcare, aged care, leisure and engineering.

Schrole Managing Director Rob Graham: "We are delighted to announce this partnership with Sentral. Sentral has a great core product and enhances their software by strategic partnerships with other software companies with state-of-the-art technology. We are pleased to work closely with Sentral to further develop this excellent business opportunity. Schrole will be able to access a large number of schools in the eastern states market with Sentral performing the acquisition activities on our behalf."

About Schrole Group Ltd

Schrole Group Limited (ASX:SCL) is an Australian educational technology company providing schools with innovative talent management solutions and consulting services to address recruitment, staffing and training challenges.

Schrole was founded by former school principal Rob Graham. His passion for helping schools save time on administrative processes has helped Schrole establish itself within the local and international schools market. Schrole's innovative solutions are now being used by more than 220 schools across 37 countries.

The Group has three business units: Schrole Connect, an online Software-as-a-Service (SaaS) platform for efficient and effective recruitment of international school teachers, Schrole Cover, a cloud-based SaaS platform for the fast filling of casual staffing positions and ETAS (Education and Training Advisory Service), an Australian accredited leadership and management training provider.
